

The PRIMARY SNAC (Special Needs Advisory Committee) is responding to a recent online parent survey. These responses are important to us and help guide our work towards assisting children and families in Broward County.

We have listed agencies serving elementary age children throughout Broward County, the ratio they provide, the days they operate, and the programs they offer. Please feel free to reach out to learn more information about an agency that might interest you.

For information and referrals on these and other programs dial 2-1-1 or 954 537 0211

Or visit 211specialneeds.org
