Add Behavior Occurrences using a Mobile Device

Tapping the ***Behaviors*** icon will display the list of behaviors. Clicking on a behavior name will provide more information about the Behavior, like the point value associated with it and the description.

Occurrences: individuals who have been added to that behavior.

On Device: individuals who have been added on that device.

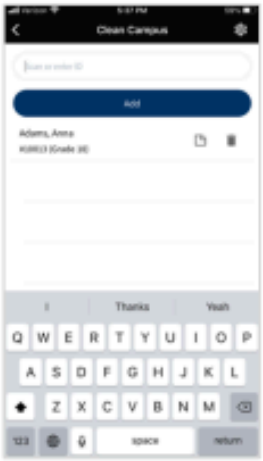

There are 3 options to add a behavior occurrence:

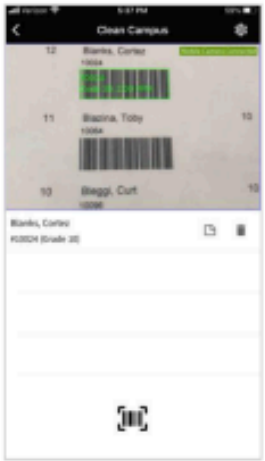

1. **Manual Add** – type in the ID number of the individual or look them up by name.
2. **Bluetooth Scan** – pair a Bluetooth mobile barcode scanner to the device and scan the ID card.
3. **Camera Scan** – line up the red line with the barcode on the ID card. The app will automatically capture the barcode and add the individual to the Behavior.

Manual Add

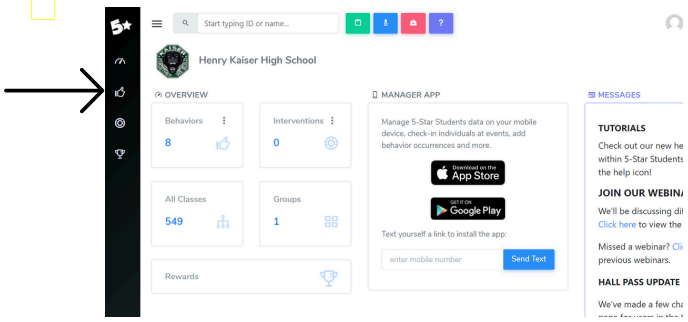

Bluetooth Scan

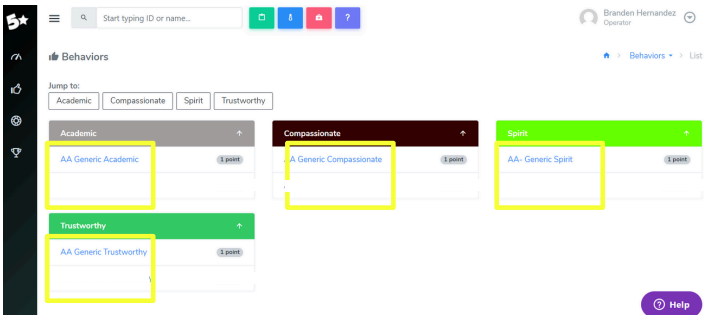

Camera Scan

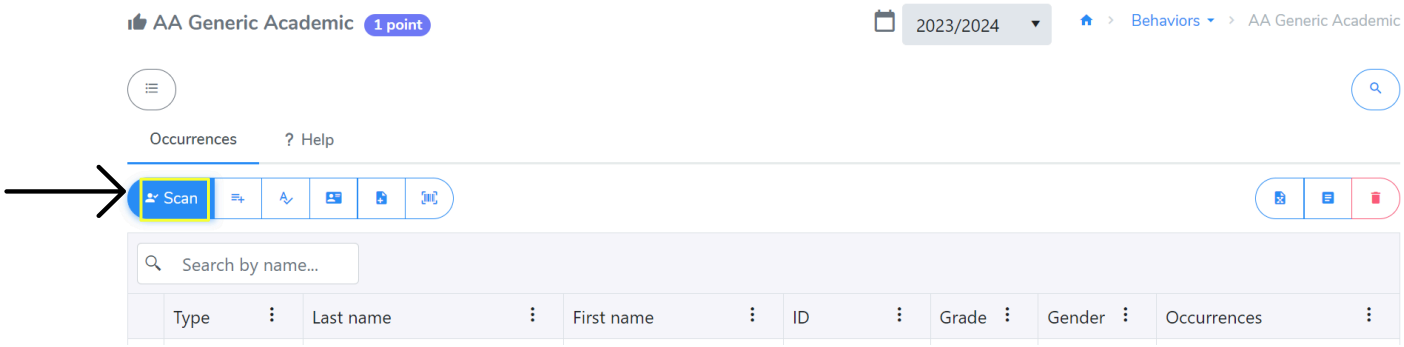

Add Behavior Occurrences using the Website

To add occurrences for a behavior, select the thumbs up icon on the left hand side and then select a behavior (click on the blue behavior name).

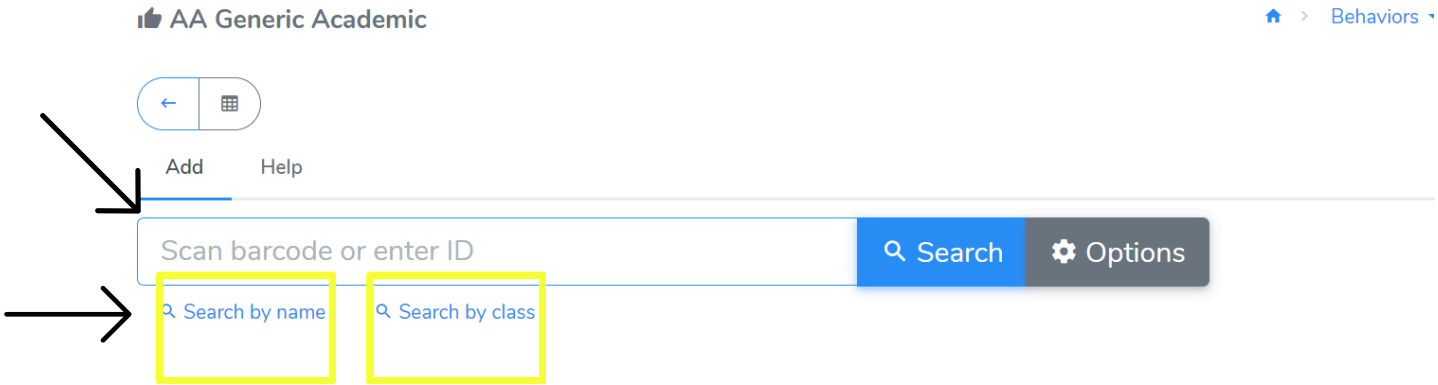

Behavior occurrences can be added multiple ways. One way is by clicking the scan button.

Scan a student ID or enter a student ID #. Students can also be searched by name or by class.

Add Behavior Occurrences using the Website

Behavior points can also be added from a list, by name, or by ID #.
