During the next two months we will alternate between History and two Science topics.

Science

In this unit we focus on the landforms and water features that change over time. We will look at National parks and their major landform features. Then, we will discuss how water and wind can change landforms over time. Finally we will look at landslides and volcanoes to study changes in landforms which happen quickly.

November Poem

“Something Told the Wild Geese”

By Rachel Field

Due the week after Thanksgiving Break

Sayings for November

Get a taste of your own
medicine

Got up on the wrong side
of the bed

Be looking for ways to bring these into
your conversations 😊
