A Celebration of Revere's Student Learning

The Ohio Department of Education and Workforce recently released annual report cards for all schools and districts in Ohio. An annual review of Revere's Local Report Card provides an opportunity to reflect on our academic progress, celebrate our successes, and identify opportunities for growth. As we analyze these results, our goal is to use this data to inform future decision-making, ensuring that we continue to provide high-quality engaging instruction and ensure the success of every student in our district.

Revere is rated a 5 Star District! Ohio utilizes a star rating system for the state report card. Each component is rated between one to five stars, with five stars being the highest rating. We are excited to share that Revere has received a 5 Star overall rating again this school year, which means that the district has "significantly exceeded" state standards. The five components that districts are rated on include Achievement, Progress, Gap Closing, Graduation, and Early Literacy.

Revere has steadily increased our Performance Index score over the past four years. The Performance Index is a component that measures student achievement across six performance levels on Ohio's State Tests. The higher the performance score on each test, the higher the performance index. 109.3 is the maximum possible score for a school district.

Revere's Performance Index Score Over Time

These scores result in our district being ranked #2 in the county, as well as in the top 5% of schools across the entire state of Ohio. We are so incredibly proud of our students and staff for their hard work throughout the entire 2023-24 school year, and we look forward to another successful year this year!
