

# Pre-Algebra Syllabus Fall 2024

---

## Instructor

Mrs. Cabahug

## Course Overview

In this course, you will learn about different aspects of algebra through direct instruction and inquiry-based learning. There will be times you will work collaboratively with classmates or independently. This is a learning environment, which means that we are respectful to others throughout the learning process. Everyone learns in their own way, in their own time.

## Course Materials

- Paper Notes Provided by the teacher.
- iPad charged and ready to go for class activities.
- Writing Utensil

## Office Location

Rm. 2618 (WFHS)

Rm. 1609 (SHS)

## Resources – If you need extra help or have questions.

- Class Notes are important resources. Make sure you get those completed.
- Email Me (Mrs. Cabahug)
- WIN/FLEX Sessions

## Course Schedule

---

Quarter 1	Subject
Unit 1	Expressions and Integers
Unit 2	Expressions and Fractions
Unit 3	Expressions and Decimals

---

---

Quarter 2	Subject
Unit 5	Introduction to Equations
Unit 6	Solving Equations
Unit 7	Equations and Statistics

---

# Homework Policy

Most work will be completed in class. There are IXL assignments that, if you do not reach a smart score of 80, you will need to complete outside of class. No late work will be accepted after the unit test.

**Turn In:** To turn in your homework, everyone will need to upload a picture of their work to the corresponding Schoology assignment.

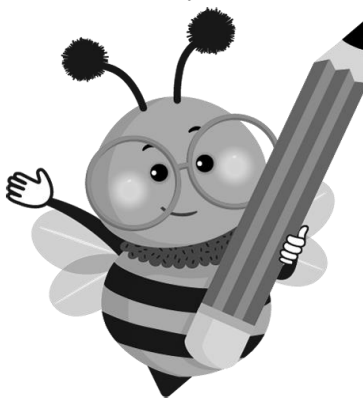

**Due Dates:** Every assignment will have a due date the next class day at midnight. What if you miss the due date? That is okay. I understand sometimes you won't have time after school to get all your homework done or you will have questions. I will still accept assignments up to the day of the test. This doesn't mean you should wait till the night before the test to complete your homework. That wouldn't benefit you. The sooner you turn in your homework, the sooner I can grade it and give you feedback. Feedback is what you need to improve your math skills and will help you be successful in class.

## Additional Information

**Grades:** The time to work on improving your grade is during class throughout the quarter and semester. The last week of the quarter is not the time to come and ask how to fix your grade. Each day is when you should be working towards learning and achieving your goal for the class. Below is the breakdown of how your grades are calculated each quarter:

<b>Tests</b>	<b>70%</b>
<b>Quizzes</b>	<b>25%</b>
<b>Homework</b>	<b>5%</b>

I am looking forward to a great semester with you! Feel free to reach out with any questions.
