

Setting Up GeoAlerts

Step 1: Click on the bell in the lower right corner.

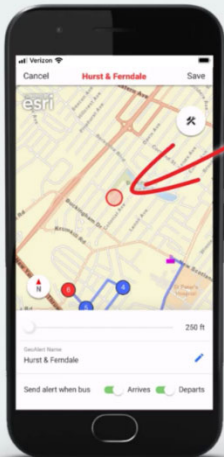

*create GeoAlert
zones*

Step 2: Click on 'Add Geoalerts'

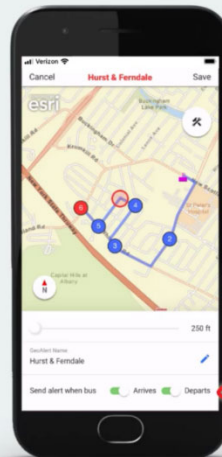

Step 3: Drag the zone over the desired location

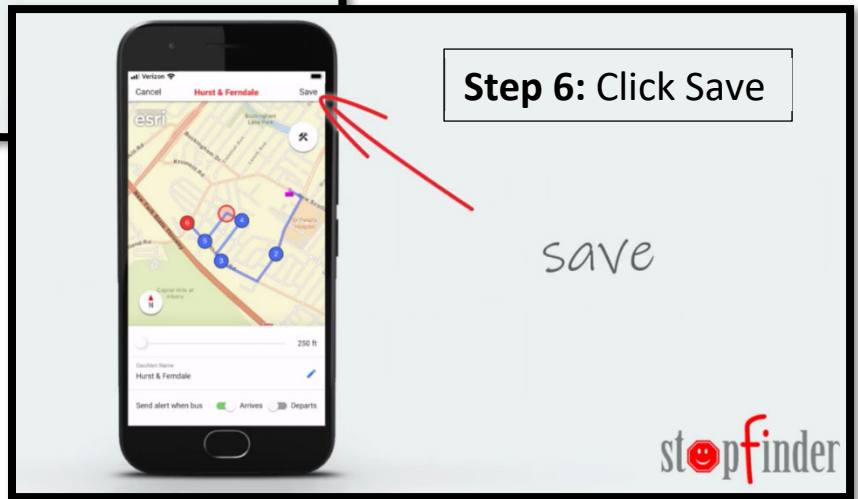

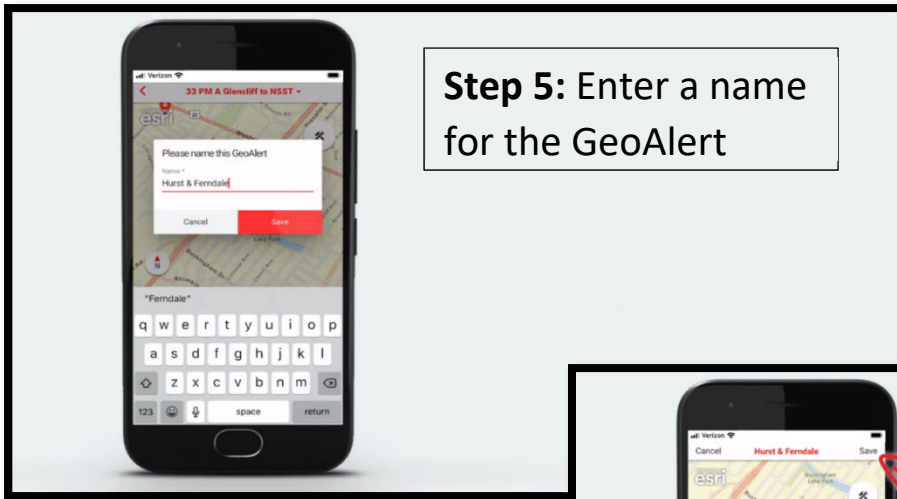

*move the map to
position the alert
zone*

Step 4: Customize Alerts

*choose to get alerts
when the bus
enters or exits the
zone*

You are all set!

Based on the options you selected, a push notification will pop up when the bus enters or leaves your Geoalert area.
