Oxnard Middle College

Oxnard Middle College High School officially opened its doors during the summer of 2018. During the 2018-2019 school year, we opened with 38 ninth grade students and we have added 35-50 incoming ninth-graders and transfer students each fall. The 2021-2022 school year was the first year that OMC served all four grade levels. The class of 2022 was our inaugural graduating class with 34 students.

Students at OMCHS are dual-enrolled in high school and college all four years. The high school campus is located on the campus of Oxnard College, which is part of the Ventura County Community College District. During the school day, students are enrolled in a combination of high school and college classes to satisfy OUHSD graduation requirements as well as make progress toward a college degree. Each student works with the counseling staff to create a course sequence toward an AA or AS degree, IGETC (The Intersegmental General Education Transfer Curriculum), or a certain number of units, which they will use after high school to continue in their college and career goals. While students are dual-enrolled, they have access to all of the student services offered through Oxnard College and the Ventura County Community College District.

As high school students, OMCHS griffins have access to the resources and activities of the Oxnard Union High School District. In addition to the high school classes and clubs offered on campus at OMCHS, students can be dual enrolled in special programs offered at the comprehensive high schools like Mariachi, Mock Trial, Pre-Engineering, Global Trade and Logistics, and Robotics. OMCHS students can also participate in sports with their school of residence. However, two of our district's high schools recently changed leagues and due to the current rules of the new league, our students are not allowed to play sports with them.

While in all high school classes at OMCHS, students participate in AVID. Students also receive support in educational technology and college courses through an Academic Enrichment class. OMCHS is a one-to-one laptop school. Each student is provided with a laptop as well as a personal hotspot if needed.

OMCHS aligns our instructional calendar closely with Oxnard College to best meet the needs of our students. Because of this, OMCHS follows a different calendar than the rest of Oxnard Union High School District. We also follow a collegiate semester schedule in our high school classes to align with the college system. All high school and college classes end for the first semester before winter break. In the spring, college ends in late May and high school ends in early June to reflect the 180 high school instructional days.

Students at OMC participate in at least 5 high school classes during 9th and 10th grade and in at least 4 high school classes during 11th and 12th grade at the high school. Additionally, students participate with one college class every semester during 9th grade and at least 2 college classes during the 10th, 11th and 12th grade. OMC students have the option to take summer classes with Oxnard College.

Social Media Guidelines for Students

Oxnard Middle College High School is a 1-to-1 school that is immersed in technology. These social media and technology guidelines are to keep students safe, secure, and help them focus on their education. We strongly believe in the power of technology to teach; however, we want to educate students about online etiquette and how behavior in the digital world can affect the school world.

Technology Acceptable Use Policy

Each year, students and parents must sign the Acceptable Use Policy:

- Students that misuse technology will be disciplined. The Student Acceptable Use Policy contains restrictions on accessing inappropriate material.

Technology resources, including, but not limited to, email, Internet access, school computers and tablets, and the use of personal electronic portable devices on school grounds or at school-sponsored events, are to be used for educational purposes only. Adherence to the Student Acceptable Use Policy (AUP) is required for all students' continued access to these technology resources.

To fulfill the state and federal Internet safety laws, and as the parent or guardian of this student, I understand that access to the Internet at school or school-sponsored events is designed for educational purposes. I further understand that the Oxnard Union High School District (OUHSD) has taken precautions to block inappropriate and/or controversial material through content filters. However, I recognize that it is impossible for the OUHSD to completely restrict access to inappropriate materials. I will not hold the OUHSD responsible for materials acquired through the Internet and/or related networks.

I understand that all OUHSD schools will include a Digital Literacy program at all grade levels so that every student will learn how to be safe, appropriate, and responsible online, both at home and at school. As the parent/guardian, I understand that I am responsible for supervising my child's use of technology, including the use of personal electronic devices and social networking, outside of the school setting.

It is the responsibility of the student, and his/her parent/guardian, to protect the security of any user names and passwords the student and/or parent uses. The OUHSD accepts no responsibility in the event a student and/or parent's/guardian's user name and/or password is shared, stolen, or in any other way becomes the possession of a person other than the student or parent.

Parents/guardians need to remember that email and other communications over the Internet are not guaranteed to be private and are subject to state and federal laws.

Violations of the rules stated above may result in disciplinary action, including the loss of the student's privileges, suspension, and/or possible supervision and monitoring of a student's continued use of any devices involved in a violation of the AUP.

School and District authorized employees monitor the use of information technology resources to help ensure that technology resources are used securely and in conformity with this policy.

Administrators reserve the right to confiscate, examine, and disclose any information and/or data found on a student's device in order to further the health, safety, discipline, or security of any student or other person, or to protect property. They may also use this information in disciplinary actions and will furnish evidence of crime to law enforcement.
