RoAR

During the first marking period, recipients were evaluated based on the first “R” in ROAR - Respect. Staff looked for students who were polite and showed respect to themselves, peers, staff and school property. Recipients started the year strong by demonstrating concern for others while making them feel welcomed and included.

During the second marking period, we will focus on the “O” in ROAR - Organization. We will be looking for students who come to class each day prepared or who show a lot of improvement in this area over the course of the marking period.
