- Click that you have read the terms and conditions and then Click "Upload Chosen Images."

Please follow the guidelines below for image selection.

It is important that you read everything and follow the directions EXACTLY!

ALL PICTURE SELECTION:

1. Select **ONE** photo of your child to upload **ONLY**: we love your child but do not want the responsibility of choosing an image for you so please stick to just one. If there is an issue with the image you select we will let you know.
2. Choose a photo that **portrays your child alone**: we cannot be responsible to show only the correct baby if more than one child or an adult is pictured. If you have twins please submit separate individual pictures.
2. Choose a photo where **the child shows completely**: zoomed in pictures, where the baby face is the entire image are **NOT** the best choices. The image box is usually square so often part of the image will be cut out if it is too zoomed in.
3. Choose a picture where **the child is centered in the photo**: if the head or anything else is cutoff there is no way to fix this and it will print this way.
4. Choose a **clear photo**: reproducing a blurry photo will not improve the image it will make it worse.
5. Image Quality: Use a Digital Image or Scan your picture using a minimum Resolution of **300dpi**.
6. File Type: JPG images are required but please check that they are larger than **300kb** before uploading. JPG images less than 300kb may be too small to use in the yearbook and you will likely be asked to send another image.

Contact: If you have a question you may contact Christine Vitarello: vitarelc@harrisoncsd.org

Please DO NOT email or text your child's photo as it will not be guaranteed to appear in the book!
