Principal's Message

This School Accountability Report Card (SARC) gives us the opportunity to demonstrate our unique one-site school district positively impacts the students who flourish here. At Chualar Elementary School, your children benefit from hours of academic excellence, fun, support and nurturing. Our school and district create an environment where children thrive and become academically, socially and emotionally successful.

The student population is predominantly limited-English proficient (LEP), and our school is under Provision 2 in which all students are eligible to receive free breakfast and lunch. Most families are typically employed in farm-labor-related occupations.

The school district is proactive in recruiting several supplemental instructional programs to benefit the students and their families. There is notable support from the families and community, as the school is the hub of most community functions. We are very proud of our community support and parental involvement.

Parental Involvement

Parents play an important role at Chualar Elementary School through active participation and involvement in the District English Learner Advisory Committee (DELAC), English Learner Advisory Committee (ELAC), School Site Council Committee, Parent-Teacher Committee and other school community committees. The community plays a vital role in the success of Chualar Elementary School through their strong community representation. Parents are encouraged to participate fully in their child's education by visiting and volunteering at the school.

For more information on how to become involved at the school, please contact Eva Contreras, administrative assistant, at (831) 679-2504.

About Our School

The unincorporated community of Chualar is nestled between the Gabilan and Santa Lucia mountain ranges approximately 10 miles south from Salinas, California. This small and rural community consists of a population of approximately 1,440 residents working in agricultural-related occupations and is home to Chualar Union School District (CUSD). This single-school district maintains a yearly average of approximately 278 students. Our mission in CUSD is to provide a safe, orderly and nurturing learning environment that promotes commitment to work in partnership with students, parents and the community to ensure that our students will become responsible contributing members of society. We believe that all students can learn and will maximize their potential on their journey to become life-long learners. The mission of CUSD is to team with families to create an academy-oriented school culture where students are safe, respected and empowered to contribute in a global community. Our vision statement is "...to provide a safe, orderly and nurturing learning environment that promotes commitment to work in partnership with students, parents and the community to ensure that our students will become responsible contributing members of society." Our staff believes in educating the whole child and we work hard to create a nurturing environment that builds character, supports social and emotional needs, and challenges students to work hard and dream big.

Enrollment by Student Group

The total enrollment at the school was 281 students for the 2021-22 school year. The pie chart displays the percentage of students enrolled in each group.

School Accountability Report Card

In accordance with state and federal requirements, the School Accountability Report Card (SARC) is put forth annually by all public schools as a tool for parents and interested parties to stay informed of the school's progress, test scores and achievements.

Mission Statement

The mission of the Chualar Union School District is to provide a safe, orderly and nurturing learning environment that promotes commitment to work in partnership with students, parents and the community to ensure our students will become responsible and contributing members of society.

Vision Statement

Our vision is that we pursue significant educational improvement in curriculum and instruction, staff development and parent involvement in order for all students to meet rigorous grade-level standards in the pursuit of excellence. We believe that all students can learn and will maximize their potential on their journey to become lifelong learners.

Class Size Distribution

The bar graphs display the three-year data for average class size, and the table displays the three-year data for the number of classrooms by size. The number of classes indicates how many classrooms fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Note: Data collected during the 2020–21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

This table shows the school, district, and state suspension and expulsion rates collected between July through February, partial school year due to the COVID-19 pandemic.

Suspension rates	1.7%	1.7%	2.5%
Expulsion rates	0.0%	0.0%	0.1%

Note: The 2019–20 suspensions and expulsions rate data are not comparable to other year data because the 2019–20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019–20 school year compared to other school years.

School Safety

Our custodial and maintenance staff strives to ensure students attend a clean and safe school. Safety of students and staff is a primary concern at Chualar Elementary School District. The school site safety plan, first implemented in 2002, is evaluated and revised annually by members of the School Site Council. The revisions are then shared with the entire staff. The school safety plan was last reviewed, updated and discussed with the school faculty in February 2023. Included within the school site safety plan is a disaster-preparedness plan, which lays out steps that are to be taken to ensure student and staff safety during a disaster.

Chualar Union School District Board of Education has adopted policies regarding suspension and expulsion. Board Policy and Administrative Regulation 5144.1 identify the process the district follows in suspension and expulsion cases, including policies for individuals with disabilities.

The criteria in selecting a post-expulsion educational placement include whether the program of study is appropriately prepared to accommodate students who exhibit discipline problems, and the program is not provided at the school, unless the program is offered at a community day school established at the school.

The following district-level educational alternatives, if deemed appropriate, are available as placement for students expelled from the school district:

- Suspended expulsion with placement in a reduced school day (K-8);
- Suspended expulsion with placement on the same school campus;
- Suspended expulsion with placement in a district independent study program;
- Suspended expulsion with transfer to another school district;
- Expulsion with subsequent transfer to another school district;
- Expulsion with referral to Monterey County Office of Education Alternative Education Programs.

Decision not to enforce expulsion order and suspend the expulsion is determined by the following criteria:

- Seriousness of the misconduct;
- The student's pattern of behavior;
- The student's attitude toward the misconduct and his or her willingness to follow a rehabilitation program.

California Physical Fitness Test

Each spring, all students in grades 5, 7 and 9 are required to participate in the California Physical Fitness Test (PFT). The Fitnessgram is the designated PFT for students in California public schools put forth by the State Board of Education. Due to changes to the 2021–22 PFT administration, only participation results are required for the five fitness areas.

Encouraging and assisting students in establishing lifelong habits of regular physical activity is the primary goal of the Fitnessgram. The table shows the percentage of students participating in each of the five fitness components for the most recent testing period. For more detailed information on the California PFT, please visit www.cde.ca.gov/ta/tg/pf.

School Safety

Continued from page 4

The following Monterey County Office of Education Alternative Education Programs, if deemed appropriate, are available as placement for students expelled from the school district:

1. Community schools
    a. This program serves expelled and at-risk students at regional locations throughout Monterey County. Students are typically enrolled for one semester or up to one year. The community schools provide an alternative learning environment with small classes, and a focus on health, lifestyle and pro-social skills. The primary goal is to return students to regular classes with improved skills and attitudes.
2. Court schools
    a. Court schools are available for students who are awaiting a court hearing. Students have an average stay of 15-20 days in these year-round programs.

Actual referral to any placement is made at the discretion of the Board of Education with recommendations from the superintendent/principal.

The district does not have a district community day school program. Therefore, any student recommended for such will be recommended to the Monterey County Office of Education community day school program.

The school follows all laws, rules and regulations pertaining to hazardous materials and state earthquake standards. Fire and disaster drills are conducted on a regular basis throughout the school year. There is a designated area for student drop-off and pickup. Classified and certificated staff members supervise students before, during and after school. All visitors to the school must first sign in at the school office and receive a visitor's pass.

California School Dashboard

The California School Dashboard (Dashboard) https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

SARC Reporting in the 2020–21 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

The CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

CAASPP Test Results in Science for All Students (grades 5, 8 and high school)

The table below shows the percent of students meeting or exceeding the State standard on the CAASPP – California Science Test (CAST) and the California Alternate Assessment for Science (CAA for Science) for grades 5, 8, and once in high school (i.e., grade 10, 11 or 12).

▲ This school did not test students using the CAASPP for Science.

✱ Data for 2020–21 are not comparable to other year data due to the COVID-19 pandemic during the 2020–21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020–21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020–21 school year to other school years.

Statewide Assessments

Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

CAASPP by Student Group: Science, English Language Arts and Mathematics

The tables on the following pages display the percentage of students that met or exceeded state standards in science, English language arts/literacy and mathematics for the school by student groups.

The "percentage met or exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAA divided by the total number of students who participated in both assessments.

Note: The number of students tested includes all students who participated in the test whether they received a score or not. However, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Textbooks and Instructional Materials

At Chualar Elementary School, textbook selection is based on committee recommendations. The textbooks are adopted from the most recent state-approved list and are consistent with the content and cycles of the curriculum frameworks adopted by the State Board of Education.

All students in the Chualar Union School District have access to their own copy of the standards-aligned textbooks and instructional materials in the core curriculum areas of reading/language arts, math, science and history/social science. These textbooks and instructional materials are for use in the classroom and at home.

All students have access to the appropriate instructional materials.

School Facilities

Chualar Elementary School was built in the early 1900s and currently consists of 18 classrooms, a library, computer lab, Head Start Building, main office portable, migrant child-care facility, staff lounge, a multipurpose room/cafeteria building, boardroom/administrative building, an outside volleyball court, three playgrounds, and a state-of-the-art track and field.

Our school provides a safe, clean and functional environment for learning through proper facilities maintenance and campus supervision. Our maintenance/custodial staff consists of 3.0 full-time employees.

In an effort to save resources and funds, all school lighting was replaced with efficient LED lighting. This project was paid with Prop 39 funds and concluded on January 11, 2019.

Note: The data in these tables is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The data source is the California State Assignment Accountability System (CalSAAS) provided by the Commission on Teacher Credentialing. For information on the CalSAAS, visit the CALPADS web page at https://www.cde.ca.gov/ds/sp/cl/calpadsupdflash201.asp.

For more information on the definitions listed above, refer to the Updated Teacher Equity Definitions web page at https://www.cde.ca.gov/pd/ee/teacherequitydefinitions.asp.
