The School District of Haverford Township

Student AI Usage Scale

Level	None	Some	Open
Usage	No AI Use	AI Assisted	AI Directed
Description	AI may not be used to aid or assist in student products. Product is entirely student created.	AI may be used to generate ideas, help students create outlines, and edit student work in an attempt to improve the submission. Teachers will direct what is or is not allowed.	AI may be used to complete certain elements of a student product as a supplemental support. Students must provide critical analysis and oversight of products created by AI.
Permission and Examples	• No Generative AI or Tools • Grammar Check and Spell Check Allowed	• Brainstorm ideas based on a given assignment or topic. • Edit grammar, word choice, and conventions. • Ask for specific feedback on student produced work.	• Summarizing articles • Researching content for assignment, project, or essay.
Disclosure/Citing Requirements		Statement explaining how AI was used	Statement explaining how AI was used All AI content created needs a proper citation
