

RED CLAY TRANSPORTATION

• CHOICE HUB STOPS •

The following are the only stops for students choosing to attend a school that is not their feeder school. Upon acceptance, it is the parent's responsibility to drive their student to school or to their existing, assigned stop. Your student may not be able to walk to their assigned stop. Once accepted, families may request to add a stop. Stops are added according to federal, state, and district policy while balancing the needs of all students in Red Clay equally. Submitting a request does not guarantee a stop will be added. Approved requests to existing bus routes may not be fully implemented until the first week of October. All students choosing to attend a school that is not their feeder school may be assigned one of the stops below. If there is an attendance zone for your school of choice, the guaranteed stop will be assigned within the attendance zone for that school.
