SLIDES EXTRA FUNCTIONS

<https://learninginhand.com/gslides>

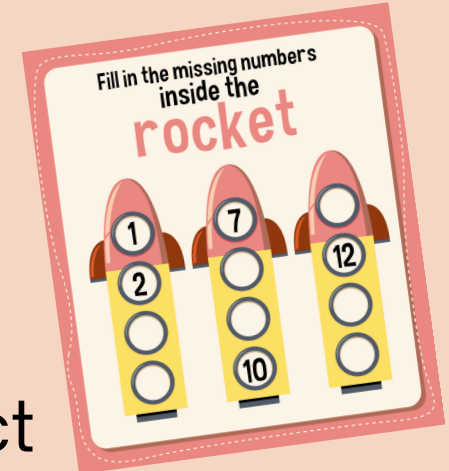

Embed a video

- Click INSERT.
- Select VIDEO.
- Choose the location of the video.
- Choose the VIDEO.
- Click SELECT.

Create activities with background images.

- Open new slide.
- Right click on slide and select change background.
- Click Choose and select image.

Split a video into segments

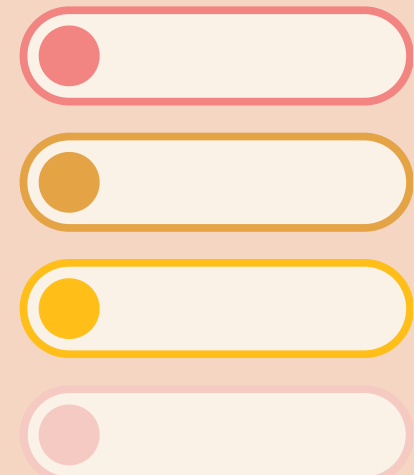

- Insert a video and choose FORMAT OPTIONS from the Format menu.
- Enter the start and stop time.
- Duplicate the slide and change the playback times to play a different section of video.

Display a timer on a slide

Find and resizes a video of a timer.
Search Youtube for timers

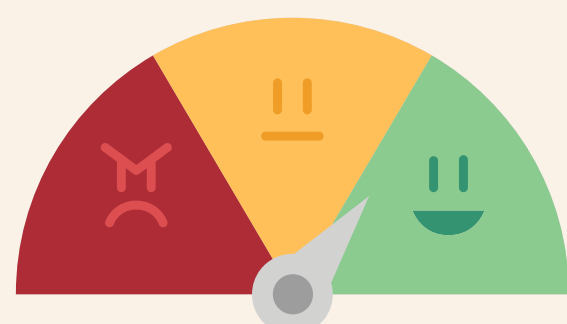

Create an index slide in Slides

Add a table with names or topics. Link each item to its slide.

Accept and present audience feedback

When in present view, click Audience Tools and then click Q&A.

Create readable text

Want to use a full screen image, but the text is hard to read? Set a text box's fill to a semi-transparent color.
