Annual Safety Goals

The School Safety Planning Committee shall make an assessment of the current status of school crime committed on campus and at school-related functions and of appropriate strategies and programs that will provide or maintain a high level of school safety. (Ed. Code 35924.2) Principals/designees should report annually to site council.

While the School Safety Planning Committee reviews school, district and community crime data trends such as the California Safe School Assessment, other data can bring value to the discussions. Such data may include:

- Mental Health Data
- State, District or Site Surveys (such as the Youth Risk Behavior Survey)
- Disciplinary Data
- Community Police Data

Data may be more valuable if disaggregated by gender, age, zip code, ethnicity, etc. Current trends should be reviewed as well by February 1st of each school year.

Based on data analysis, the School Safety Planning Committee identifies one or two safety-related goals for the next school year as well as the strategies and/or programs that will be used to meet those goals. The objective is to provide meaningful goals in order to improve the campus climate.

The goals are reported, with the Safety Plan, to the Board of Trustees and are shared with the school staff and community.

In order to keep the goals as a safety focus for the school year, it is recommended that at least three brief meetings be held to review data and progress. The progress can be reported to the School Site Council, staff, parent groups and the Board of Trustees.

The year-end assessment should be completed each year and reported upon.
