Subject: Bullying Survey

August 10, 2015

Attention Superintendent Tracy,

I received your final declaration that you cannot furnish the bullying report. You maintain that HUSD does not have this document.

A bullying report was presented at a HUSD school sponsored meeting that was attended by many Hamilton City parents. There were not enough of the reports for those who were late. When I recently asked Mr. Taylor for a copy, he referred me to the district office to get it. When Mr. Taylor said district office I assumed it was HUSD.

This is my third request to HUSD to get a copy of the report that was handed out that night. The California Open Records Act is a law that is set up so we, the citizens of California, can have an open government. As a citizen of the State of California, I have the right to this document. I request a copy of the Bullying Report compiled by Glenn County Office of Education Teacher Kyle Taylor.

If this document was solely generated by GCOE, I await their response.

Barbara R. Bass
