

Course Description

Photography

Course Description

Photography is about looking, learning, thinking and communicating ideas. It inspires creative thinkers. Photography means 'drawing with light' and that is what photographers do when they take a picture. Many photographers have explored various techniques to create images that make a personal statement about things that have interested or concerned them. The most exciting aspect of photography is that you are capturing the world as you see it.

A-level photography is a practical course in which you learn by doing, so you will be able to create imaginative personal work. You will find out about a whole range of techniques and processes. You will develop your creativity and independent thought, learn to express yourself visually and let your imagination flourish. Photography is a great companion to all other subjects as creativity, imagination and problem solving skills can give you great ideas for your other subjects.

Exam Board: Eduqas (WJEC)

A Level

Component 1 - Personal Investigation (practical project and written element - 60% of qualification)

Component 2 - Externally Set Assignment (practical project and timed controlled assessment - 40% of qualification)
