Lloyd Harbor School is sponsoring our very own

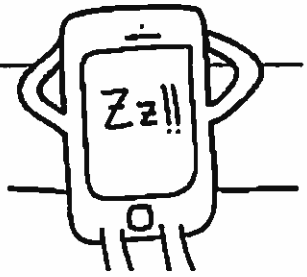

"Unplugged Day"
on Friday, March 9.

TAKE A BREAK FROM TECHNOLOGY!

The second Friday in March is the *National Day of Unplugging*.
At Lloyd Harbor School, we are asking families to take a break from technology and "unplug" to have an electronic-free evening.

We are increasingly connected to the world around us.
This offers endless possibilities.
However, there are certain times when there are benefits
to setting aside our digital devices and other electronics.
Use this evening to have an uninterrupted meal as a family,
play a board game, do a jig-saw puzzle,
or discuss a book you may be reading.

**We would like students to share how they unplugged!
Please share your experience with the rest of
our school by completing the attached certificate.
You may also draw a picture of your family unplugging
to be added to our bulletin board.**

Have fun!
