District Priorities and Goals

Comprehensive Plan Priority:

- Through the PLC and MTSS processes:
 - We will reach each student by analyzing their strengths and areas for growth and then will use targeted instruction to both enrich and remediate for achievement success.
 - As well as new mathematics programming at both the elementary and middle schools, we will be able to target individual student needs and reach pre-pandemic data goals.

Building Goals

Goal 1: By June of 2025, the middle school will establish the systems, structures, and supports to ensure that **all students** are provided with the **opportunities to participate in a targeted intervention and enrichment program** (WIN Middle)

WIN Middle Update

- Summary of work
- Calendar of WIN sessions
- REACH v. WIN
- Department Coordinator Involvement

Summary of the Work

- In the Winter of 2024, the middle school administrative team along with the SEL coach and school psychologist began meeting to discuss the creation of a middle-level intervention program.
- In the spring of 2024, a vision for WIN Middle (the HMS intervention and enrichment program) was introduced to the Middle School Faculty.
 - The original vision called for all teachers to be involved in the creation of an enrichment program to be delivered over twelve, thirty-minute sessions to a group of students while students identified for targeted intervention received it.

11/6/24 BAT Meeting Minutes

- In the Summer of 2024, a goal to create WIN Middle along with a guiding coalition was formed. This group includes the original visioning team with the addition of two new instructional coaches and a new building administrator.
- In the fall of 2024, the guiding coalition met to continue planning for WIN Middle. The realization of a multiyear approach in attaining both the enrichment and intervention pieces was made along with a decision to begin including department coordinators in future planning.

REACH vs. WIN Intervention

What is the goal of REACH?

- Needs to be about their assessment scores in your class based on formative assessments
- Improving student performance in the course
- Not for homework makeup
- Is for kids who have been absent who need support in making up skills
- Skill vs. Concept based for different disciplines
- Students can self-refer to REACH

What is the goal of WIN Middle?

- Target chronic lagging skills in ELA or Math for students who fall in the low average range (*25–40th percentile range (determine decision-making process)*)

Department Coordinator Involvement

- Department Coordinators or their designee have been invited to our November 11th WIN Middle planning meeting.
- Stay tuned for more information!

Important Dates

- 6th Grade Conferences, November 22
- Turkey Trot, November 26
- Thanksgiving Break, November 27–29
