

Sunnyslope Superstar Playground Expectations

Welcome to the Sunnyslope Superstar Playground! We want everyone to have a safe and fun time. Here are some important expectations to follow while enjoying your playtime:

Safe Feet on the Blacktop and Sidewalks

When moving from one area to another, always walk carefully. This helps keep everyone safe and prevents accidents.

Keep Hands and Feet to Yourself

Respect each other's personal space. At Sunnyslope, we call this "minding our bubble". This means keeping your hands and feet to yourself so everyone can enjoy their playtime without worry.

Creative Play Without Weapons

Instead of using pretend weapons, let's get creative with our games! Think of fun ways to play that involve teamwork and imagination.

Leave Nature on the Ground

Rocks, sticks, and snow are best left where they are. Let's appreciate nature without bringing these items into our games.

Team Player Attitude

When you finish playing with equipment or toys, please put them away. This shows that you care about our playground and helps everyone have access to the fun stuff!

Stay Hydrated

You can keep your water bottles at your lineup spot, but remember, no food or drinks are allowed on the playground. Staying hydrated is important, especially when playing hard!

Leave Electronics at Home

To ensure we all focus on fun and friendship, please leave phones, electronics, and toys from home in your backpack or at home. This way, we can enjoy our time together without distractions.

Respect Playground Boundaries

Always ask a playground supervisor for permission if you need to leave the playground. This keeps everyone safe and makes sure that no one gets lost.

Two-Finger Tag

When playing tag, use the two-finger tag method. This is a gentle way to tag friends and keep the game fun for everyone.

Save Kicking Balls for the Fields

Kicking balls is a blast, but please save it for the fields! The blacktop is a smaller area, so we want to keep it safe for everyone.

Slide Safely

When using the slides, remember to go down on your bottom. This keeps you safe and ensures everyone can enjoy the slide too!

Kindness is Key

Above all, always be kind to your friends and classmates. Share smiles, laughter, and support as you play together. Remember, having fun is the most important part of our time on the playground!

Following these expectations will help make the Sunnyslope Superstar Playground a safe and enjoyable place for everyone. Let's have fun and play together!
