

Cultural Competence

Strategy Statement

HALCYON
LONDON INTERNATIONAL SCHOOL

Our Aims

We intend to be culturally competent and to strive to develop and model intercultural understanding and respect.

Our community is culturally responsive; we are open-minded, principled and caring. Every voice should be heard, and we create purposeful, reflective, self-aware relationships that are led by mutual respect and sustained by personal responsibility.

In our diverse curriculum, we expect that every student will recognise themselves at certain points in their learning journey; when they don't, they will be aware of the opportunity to extend their cultural competency and awareness of others.

The Programme

- Supports the School's mission.
- Supports the mission of the International Baccalaureate.
- Deepens our understanding of international mindedness, which is to use 'the lens of global perspectives to deepen our connectedness, compassion and curiosity, helping us contribute to a more peaceful world'.
- Supports the School's intention to create a community of learners where everyone can be recognised and have a sense of belonging.
- Supports our Inclusion Statement.

Inclusion Statement

Halcyon is committed to investing in the diversity and wellbeing of our community and to creating an inclusive culture where everyone can be the best that they can be. We strive to recruit people from a wide variety of backgrounds because it makes us stronger. We intend to create a collaborative and innovative culture that celebrates different perspectives and values respect for one another, learning together, openness and integrity. A commitment to diversity ensures we continue to provide a learning experience that empowers students to reach their full and unique potential.
