

Summer Math work will be completed using Delta Math. This wonderful website has examples and videos to help students remember topics. It will also allow your future teacher to see weak areas and incorporate those concepts into future lessons.

Use your current Delta Math login from the previous year. New students can register (it's free).

The link has the class code, which is the last 8 digits of the link.

Rising 6th grade math <https://www.deltamath.com/students?code=CZ58-4Q5D>
