

HIGH SCHOOL ACADEMIC PLANNING GUIDE

2025-2026

NORTHWEST

INDEPENDENT SCHOOL DISTRICT

BOARD OF TRUSTEES

President | Steve Sprowls

Vice President | Jennifer Murphy

Secretary | DeAnne Hatfield

Members | Judy Copp,
Anne Davis-Simpson, Ph.D.,
Mark Schluter, Lillian Rauch, Ph.D.

ADMINISTRATION

Superintendent of Schools | Mark Foust, Ed.D.

Assistant Superintendent for Curriculum and Instruction | Michael Griffin, Ed.D.

Executive Director for Secondary Education | Chris Hill

Byron Nelson High School

Principal | Kara Lea Deardorff

Counseling Office | (817) 698-5707

Northwest High School

Principal | Carrie Jackson

Counseling Office | (817) 698-1324

James M Steele Early College High School

Director | Todd Rogers

Counseling Office | (817) 698-5810

VR Eaton High School

Principal | Stacy Miles

Counseling Office | (817) 698-7310

Teamwork | Pride | Excellence
Northwest
INDEPENDENT SCHOOL DISTRICT

Profile of a Graduate

As 21st century citizens, Northwest Independent School District (NISD) students must be prepared with high levels of academic strength including literacy, digital skills, critical thinking, problem solving, collaboration, and communication. The mission of NISD is to provide a premier education, preparing all students to be successful, productive citizens. Embedded in our vision is that our students will be **future ready**: ready for college, ready for the global workplace, and ready for personal success. To accomplish this goal, a student who graduates from NISD *will be*:

Ready for College

To prepare to be **future ready**, a student who graduates from NISD will:

- Engage in relevant literacy through proficiency in reading, writing, listening, and speaking.
- Employ proficient and responsible use of digital media to effectively communicate, synthesize, and create new knowledge.
- Problem solve and critically analyze with determination to take risks, learn from mistakes, and adapt to new thinking.
- Determine validity and relevance of information resources in the development of research skills.

Ready for the Global Workplace

To prepare to be **future ready**, a student who graduates from NISD will:

- Connect and correlate knowledge and skills continuously through real-world applications in reading, writing, mathematics, science, social studies, the arts, and enrichment experiences.
- Construct new ideas through original and innovative thinking.
- Exhibit vision for personal learning and forward thinking to prepare for the future.
- Understand and adapt responsibly to a changing global community.

Ready for Personal Success

To prepare to be **future ready**, a student who graduates from NISD will:

- Practice ethical behaviors exhibiting integrity, respect, and commitment within a well-balanced lifestyle.
- Show initiative and responsibility through positive actions to express self-motivation, self-discipline, and perseverance.
- Communicate and collaborate by exercising a willingness to help and connect with culturally diverse individuals and groups to make necessary compromises toward accomplishing a common goal.
- Prepare for the unknown by being empowered with tools to face challenges and life-long learning.

TABLE OF CONTENTS

General Information	6-14	Social Studies	83-93
Graduation Requirements	15	NISD Social Studies Course Sequence	83
NISD Endorsement Guide	16-18	Social Studies Courses	84-90
Performance Acknowledgments	19-20	Social Studies Electives	91-93
National Merit Scholarship Program	21-22	Fine Arts	94-105

Comprehensive Special Education **216-220**

**Online or Off-Campus
Dual Credit Opportunities** **221-230**

Other Electives **231-234**

GENERAL INFORMATION

Some courses listed in this guide may not be offered due to low enrollment. Because of scheduling conflicts and classes closing, a student may not be able to register for every course he/she plans to take during a semester. For this reason, the student should have in mind alternate courses in case the first choice is not available. Please note that all courses will not be offered every semester of every year. In cases of limited class enrollment, priority will be given to 12th graders first, 11th graders next. etc.

Advanced Academic Courses

As students prepare for college and careers, NISD encourages them to participate in challenging academic courses, such as Honors, Advanced Placement (AP) or Dual Credit/Dual Enrollment. These course options provide students the opportunity to experience college-level curriculum and expectations prior to attending college. This section of the course guide will provide insight on these course types to help select the most appropriate courses while in high school. Additional information about the course types mentioned above may be found at www.nisdx.org/ccmr.

1.) Honors Courses

Academic courses that help prepare students for the content, learning strategies, and skills needed to succeed in Advanced Placement, OnRamps, and dual credit courses.

2.) Advanced Placement (AP) Courses

Advanced Placement courses (AP) follow college-level curriculum in order to prepare students for participation and success on the AP Exam given at the end of each school year. By achieving a successful qualifying score on the AP Exam, a student may earn college credit from his/her respective college or university.

3.) Dual Credit (DC) Courses

While in high school, students may earn credit for both college and high school by participating in and successfully completing a dual credit course. Dual credit means that the grade the student earns in the course will count for both college credit and high school credit. Students must meet admission requirements and potential prerequisites for the college in order to participate in dual credit courses, as well as meet the standard on the TSIA-2. Each dual credit course in the guide will have specific TSIA-2 and prerequisite information as well as the corresponding high school credit equivalent. Students will have to also register for dual credit courses with the college after selecting the dual credit course for NISD.

4.) Dual Enrollment (DE) Courses

Similar to dual credit, by participating in a dual enrollment course, a student is working in college-level curriculum while in high school. However, dual enrollment means that there is a separate college course grade earned and a separate high school course grade earned. The University of Texas at Austin OnRamps courses and Tarleton State University courses are examples dual enrollment programs. Each dual enrollment course in the guide will have the corresponding HS credit equivalent. Students will register for dual enrollment courses with UT Austin at the beginning of the school year after selecting the dual enrollment course for NISD. Students in Tarleton courses will be enrolled by NISD CCMR staff.

5.) Gifted and Talented (GT) Courses

Secondary students identified as gifted and talented are served through NISD Gifted and Talented Honors courses and Gifted and Talented Advanced Placement courses. Teachers of gifted and talented classes must have required training to serve students identified as GT.

Additional information about these course types, enrollment procedures, and useful college credit information regarding the Texas Core Curriculum may be found at www.nisdtx.org/ccmr.

Grade Point Average and Class Rank

Northwest ISD calculates both an un-weighted grade point average (GPA) on a 4.0 scale and a weighted GPA on a 7.0 scale. The un-weighted GPA is considered the student's official GPA and is reported as such. The weighted GPA is only used in the determination of class rank. The college admissions process allows for students to indicate if the GPA and class ranking are weighted.

Grade Point Average (GPA) Calculation

The District shall include in the calculation of grade point average grades earned in all courses, including grades earned in middle school courses for high school credit. The grade point average calculation shall exclude grades earned in or by a course for which a pass/fail grade is assigned; credit by examination, with or without prior instruction; local credit courses; academic courses substituted for physical education; summer school courses taken for remediation; and distance learning in the form of traditional correspondence courses (i.e. courses taken through Texas Tech University or the University of Texas). The grade point average is calculated on an un-weighted 4.0 scale with grades assigned points as follows:

90-100 = 4.0 80-89 = 3.0 70-79 = 2.0 below 70 = 0

Class Rank Calculation

The District shall include in the calculation of class rank only grades earned for high school credit in the following subjects and for electives under these subject areas: English, Mathematics, Science, Social Studies, Economics and Languages other than English. Grades earned in these courses during middle school shall be included in class rank calculation.

The calculation of a student's grade point average (GPA) for class rank shall exclude grades earned in or by a course for which a pass/fail grade is assigned; credit by examination, with or without prior instruction; local credit courses; academic courses substituted for physical education; summer school courses taken for remediation; and distance learning in the form of traditional correspondence courses.

See the next page for the Point System for Ranking.

Texas Virtual School Network (TXVSN)

Students attending Northwest ISD have the option to enroll in online course(s) offered through TXVSN (txvsn.org/home/) provided by the Texas Education Agency per Texas Education Code, Chapter 30A. See the website for courses offered and talk to your counselor for further details regarding the impact on NCAA eligibility, the enrollment process, and course costs.

Point System for Ranking - For Students Entering Grade 9 After Fall 2018

Level 1 - Skills		Level 2 - Regular		Level 3 - Gifted and Talented/Honors		Level 4 - AP, Dual Credit, and OnRamps Courses	
Grade	Grade Points	Grade	Grade Points	Grade	Grade Points	Grade	Grade Points
100	4.0	100	5.0	100	6.0	100	7.0
99	3.9	99	4.9	99	5.9	99	6.9
98	3.8	98	4.8	98	5.8	98	6.8
97	3.7	97	4.7	97	5.7	97	6.7
96	3.6	96	4.6	96	5.6	96	6.6
95	3.5	95	4.5	95	5.5	95	6.5
94	3.4	94	4.4	94	5.4	94	6.4
93	3.3	93	4.3	93	5.3	93	6.3
92	3.2	92	4.2	92	5.2	92	6.2
91	3.1	91	4.1	91	5.1	91	6.1
90	3.0	90	4.0	90	5.0	90	6.0
89	2.9	89	3.9	89	4.9	89	5.9
88	2.8	88	3.8	88	4.8	88	5.8
87	2.7	87	3.7	87	4.7	87	5.7
86	2.6	86	3.6	86	4.6	86	5.6
85	2.5	85	3.5	85	4.5	85	5.5
84	2.4	84	3.4	84	4.4	84	5.4
83	2.3	83	3.3	83	4.3	83	5.3
82	2.2	82	3.2	82	4.2	82	5.2
81	2.1	81	3.1	81	4.1	81	5.1
80	2.0	80	3.0	80	4.0	80	5.0
79	1.9	79	2.9	79	3.9	79	4.9
78	1.8	78	2.8	78	3.8	78	4.8
77	1.7	77	2.7	77	3.7	77	4.7
76	1.6	76	2.6	76	3.6	76	4.6
75	1.5	75	2.5	75	3.5	75	4.5
74	1.4	74	2.4	74	3.4	74	4.4
73	1.3	73	2.3	73	3.3	73	4.3
72	1.2	72	2.2	72	3.2	72	4.2
71	1.1	71	2.1	71	3.1	71	4.1
70	1.0	70	2.0	70	3.0	70	4.0

Transfer Credit

The District shall validate high school courses of transfer students from non-accredited, public, private, home or parochial schools by testing or other evidence that all TEKS are met. Grade level placement and awarding of credit will be determined using district approved assessments. Arrangements for these exams are scheduled by the student after they are enrolled in a NISD school.

Transfer Students

Transferred Grades [See EIC(LOCAL)]

Some transcripts from outside of Texas reflect an alpha grade and not a numeric grade. When this occurs, the letter grade will be transcribed to a numeric grade as indicated below:

A+ 100	B+ 89	C+ 79	F 60
A 95	B 85	C 75	
A- 90	B- 80	C- 70	

A transfer student who received credit in a course at a non-Texas public school for a 60-69 or a letter grade of a “D” may be awarded the credit if the course is deemed transferable, and the letter grade will be transcribed and not a numeric grade. When this occurs, the student will receive a grade of a “P” [passing] for the course, and the “P” will not be included in the computation of GPA or rank.

When a student transfers grades for properly documented courses, the District shall assign weight to those grades based on the categories and grade weight system used by the District if the same courses are offered to the same class of students in the District. Northwest ISD does not offer International Baccalaureate (IB) courses, however, some students transfer these credits to Northwest ISD. International Baccalaureate (IB) may be considered for weighted grade points if a similar level of Advanced Placement (AP) is identified.

In order for the transferred course to be accepted as an advanced course for class ranking purposes, the course must be clearly identified as such on the transcript or confirmed as the equivalent of an advanced-level course by the sending school to the high school counselor.

Evaluation of grades/credits from foreign countries or non-accredited schools

For students from a foreign country or non-accredited school, validated credits earned at the previous school will apply toward graduation requirements; however, those grades will be transcribed as a “P” [passing] or “F” [failing] and shall not be included in the computation of rank.

Schedule Changes

Any student/parent initiated schedule change must be completed by the last day of the prior school year. The Principal or designee must approve all schedule changes that occur after the last day of school, and only in the case of improper academic placement in a course.

Schedule Change Guidelines

Only schedules that meet the following criteria will be considered for changes:

- A change is needed to balance a class size.
- Seniors not enrolled in a course REQUIRED for graduation.
- Students scheduled in a course for which they already have credit.
- Student is enrolled in a course for which the student does not have the prerequisite.
- Student has an incomplete schedule.
- Student enrolled/not enrolled in an application/audition course for which they were approved.
- Student has failed a course and needs to repeat the course.
- Change is needed as a result of a credit earned in summer school or correspondence course.

Request for AP Courses

Students wanting to take more than three full year AP courses in a school year must have prior approval from the Principal or designee.

Request to Exit Honors/AP/Dual Credit/Dual Enrollment Courses

Students may submit a request for a level change during the following times:

- August 1 through 4:00 PM the second Friday in August.
- The exit window will open again for the three weeks between IPR 1 and IPR 2.
- The last five days of the first semester through the first five days of the spring semester for full-year classes

Exit Guidelines for Dual Credit and Dual Enrollment Courses

1. Dual Credit and Dual Enrollment withdraw dates vary by institution. It is important that you pay close attention to your institution's guidelines for your withdraw decisions. In some cases you may be issued a WD (withdraw), WP (withdraw passing), WF (withdraw Failing) or other coding that will affect your college transcript. High School counselor (or designee) approval required.
2. Students who withdraw from a dual credit or dual enrollment class or dual enrollment class for which there is a Honors or AP equivalent will be given the option of moving into those classes or into an on-level class. The withdrawal grade earned in the exited class will be substituted for assignments missed.
3. Students who wish to withdraw from a dual credit or dual enrollment class for which there is no non-dual credit equivalent will be placed in another course for which they may or may not receive high school credit towards graduation.
4. Dual credit and dual enrollment courses may require tuition payment, fees, and textbook costs. Failure to pay your tuition prior to the school or college deadline will result in the student being automatically removed from the class.

Exit Guidelines for Honors and AP Courses

1. A student may submit a request for a level change during the following times:
 - a. August 1st through 4:00 PM the second Friday in August.
 - b. The exit window will open again for the three weeks between IPR 1 and IPR 2.
 - c. The last five days of the first semester through the first five days of the spring semester for full-year classes.
2. To exit a Honors course, parent contact must occur and the student must confer with the counselor and principal or principal's designee.
3. A student that exits out of a Honors course will retain this grade in the new course. If a student exits with a grade below 70 in the original course, this may impact their UIL eligibility.
4. Exiting a Honors course prior to the end of a semester will result in loss of weighted credit for high school courses.

In order to exit an advanced course, the following must occur:

- Attend documented tutorials and have all assignments completed.
- Parent/teacher/student conference.
- Parent-student conference with campus administration/counselor.
- Complete the campus request form and submit it by the designated due date/time.

Requests that meet the established guidelines stated above can only be approved if there is a class available and the change does not exceed the class size limit designated by administration.

State Assessment

The STAAR, State of Texas Assessment of Academic Readiness assessment evaluates student learning based on the state-required curriculum—the Texas Essential Knowledge and Skills (TEKS). Students are required to earn a passing score on the following STAAR tests: English I, English II, Algebra I, Biology, and US History.

Award of Credit

A student must have a cumulative passing grade to receive credit for the course.

High School Classification

All high school students are classified as members of a particular class as of the first day of each school year; however, students who have not been promoted to a higher grade due to lack of credits may be eligible for reclassification at the end of the first semester. In order to be considered for reclassification at the end of the first semester, the student must have administrator approval and an approved graduation plan. This policy does not apply to UIL eligibility. Students will be promoted based on total credits; however, only state credits will apply toward graduation.

To be promoted:

- From grade 9, a student shall have acquired 6 credits
- From grade 10, a student must have acquired 13 credits
- From grade 11, a student must have acquired 19 credits

Credit by Examination with Prior Instruction

Credit by examination (CBE) is available for students in grades 9-12 who have lost credit in courses approved by the board of trustees (Board Policy EHDB LEGAL/LOCAL).

1. Students must have had prior formal instruction to be eligible for CBE.
2. Examinations that are used for credit by examination purposes must be approved by the Assistant Superintendent for Curriculum & Instruction or their designee.
3. For a student to receive credit by examination with prior instruction, the student must correctly answer 70% of the items on the test instrument.
4. The cost for this testing is the student's responsibility.
5. CBE shall not be used to gain eligibility for participation in extracurricular activities. A campus principal, counselor, and/or attendance review committee may offer a student with excessive absences an opportunity to earn credit for a course by passing a CBE. In these instances, the passing standard of 70% (see #3) shall apply.
6. High school students should contact their counselor for additional information.
7. Pre-registration and parental approval is required.
8. A student may not attempt to earn credit by examination for a specific high school course more than two times. If a student fails to earn credit by examination for a specific high school course before the beginning
9. of the school year in which the student would ordinarily be required to enroll in that course in
10. accordance with the District's prescribed course sequence, the student must satisfactorily complete
11. the course to receive credit for the course.
12. Grades earned through CBE are not included in the GPA and ranking. (Board Policy EIC LEGAL/LOCAL)

Credit by Examination without Prior Instruction

A student will be permitted to take an exam to earn credit for an academic course for which the student has no prior instruction (Board Policy EHDC LEGAL/LOCAL). There are four available testing windows each year.

1. For a student to receive credit by examination without prior instruction, the student must correctly answer 80% of the items on the test instrument.
2. The student (or parent) must register with the campus counselor no later than 15 days prior to the scheduled testing date.
3. Examinations that are used for credit by examination purposes must be approved by the Assistant Superintendent for Curriculum & Instruction or their designee.
4. Grades earned through CBE are not included in the GPA and ranking. (Board Policy EIC LEGAL/LOCAL)
5. The District shall administer Credit by Exams without Prior Instruction a minimum of four times a year.
6. A student may take Credit by Exams for Acceleration earning a maximum of 1.0 credit in each core area of English, Math, Science and Social Studies. This excludes AVANT/CBE testing in World Languages.
7. A student may take a specific examination only once during each time.
8. A student may not attempt to earn credit by examination for a specific high school course more than two times.
9. If a student fails to earn credit by examination for a specific high school course before the beginning of the school year in which the student would ordinarily be required to enroll in that course in

accordance with the District's prescribed course sequence, the student must satisfactorily complete the course to receive credit for the course.

10. See the District Web for Acceleration by Examination information. (<https://www.nisdtx.org/students-families/testing/credit-by-examination>)

Correspondence Courses

Credit toward state graduation requirements may be achieved by approved correspondence courses under the following conditions and with the prior approval of the counselor or principal only:

1. The institution offering the course is The University of Texas at Austin, Texas Tech University, or another public institution of higher education approved by the Commissioner of Education.
2. The correspondence course includes the state-required essential knowledge and skills for such a course.
3. Seniors enrolled in a correspondence course must complete the course and submit a grade to the school by the end of the first semester of the year they plan to graduate.
4. Correspondence course grades are not included in the GPA and ranking.

Online Learning Opportunities

Online learning opportunities are offered at our high school campuses to provide an online setting for students to complete some original credit coursework as well as make up lost credit. Online courses can be taken during the school day in the Grad Lab or outside of the school day. Students must complete all required online and offline assignments with a grade average of 70 or better in a specified time frame to receive credit. There is a fee for online courses taken during the summer session. Online learning courses do not meet NCAA standards and may not be appropriate for all learners. Please see your counselor for more information.

Original Coursework

It is recommended that students who are taking a course for the first time, take the course in a face-to-face or blended classroom setting. However, for some students who have transferred into our district, or have other extenuating circumstances, taking an online course for initial credit may be the best option for the student. Coursework completed for original credit will be assigned a numerical grade and will count in the student's overall grade point average (GPA) and appear on the student's transcript. Not all NISD course are offered for original credit in an online environment. Please see your counselor for the most current list of offerings.

Credit Recovery Coursework

Students who have not successfully earned credit in the traditional classroom setting are given an opportunity to recoup credits through online classes if they are available for the course which cover the content originally delivered in a face-to-face class. Coursework that is completed successfully for credit recovery will receive a grade of P for passing. The P will not be calculated in the GPA, but will appear on the transcript.

Academic Coaching Program (ACP)

The Academic Coaching Program (ACP) supports students who previously failed a core class and/or are in need of making up lost credit or are taking original credit courses during the school day. Placements are based on student needs, course availability, and seat availability. Fifth year seniors and upperclassmen are high priority and will be placed first.

UIL Eligibility

The following UIL standards are used to determine academic eligibility for the first six weeks for the school year.

- Grade 9 and below: Students must have been promoted from the previous grade.
- Grade 10: Five accumulated credits that count toward state graduation requirements.
- Grade 11: Ten accumulated credits that count toward state graduation requirements or student must have earned at least five credits within the last twelve months.
- Grade 12: Fifteen accumulated credits that count toward state graduation requirements, or student must have earned at least five credits within the last twelve months.

UIL Eligibility - “No Pass, No Play” Guidelines

Students in advanced courses, defined by the District such as Honors, AP, GT, and dual credit courses, shall be required to maintain a passing standard of 60 or higher in order to maintain UIL eligibility. Students who fall below this passing standard shall lose UIL eligibility in accordance with UIL regulations and for the period of time identical to students who lose eligibility in non-advanced courses.

Early Graduation Requirements

Students may complete graduation requirements at any time. Arrangements should be made with the principal and the counselor prior to the start of the student’s final semester. A completed early graduation agreement form and a conference between the parents, principal or designee, and the student shall be required before approval is granted.

Compliance Statement

Northwest ISD does not discriminate on the basis of race, religion, color, national origin, sex, or handicap in providing educational services, activities, and programs, including vocational programs in accordance with the Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Educational Amendments of 1972; Section 504 of the Rehabilitation Acts of 1973, as amended; and Title II of the American with Disabilities Act.

Northwest ISD does not discriminate on the basis of disability by denying access to the benefits of district services, programs, or activities. To request information about the applicability of Title II of the American with Disabilities Act (ADA), interested persons should contact the school.

Northwest ISD will take steps to assure that lack of English language skills will not be a barrier to admission and participation in all educational programs.

GRADUATION REQUIREMENTS

Subject Area	Foundation with Endorsement	Distinguished Level of Achievement
English Language Arts	Four credits: - English I - English II - English III - Advanced English credit	Four credits: - English I - English II - English III - Advanced English credit
Mathematics	Four credits: - Algebra I - Geometry - Advanced math credit - Advanced math credit	Four credits: - Algebra I - Geometry - Algebra II - Advanced math credit
Science	Four credits: - Biology - IPC, Chemistry, or Physics - Advanced science credit - Advanced science credit	Four credits: - Biology - IPC, Chemistry, or Physics - Advanced science credit - Advanced science credit
Social Studies	Three credits: - World Geography or World History - US History - US Government (0.5 credit) - Economics (0.5 credit)	Three credits: - World Geography or World History - US History - US Government (0.5 credit) - Economics (0.5 credit)
Physical Education	One credit	One credit
Languages Other Than English	Two credits in the same language	Two credits in the same language
Fine Arts	One credit	One credit
Speech	0.5 credit	0.5 credit
Elective	6.5 credits	6.5 credits
Endorsement	At least one of the following endorsements is required. See next page for the detailed NISD Endorsement Guide.	
Arts and Humanities Endorsement	Includes courses directly related to World Language, English Literature, History, and Fine Arts	
Business and Industry Endorsement	Includes credits directly related to Agriculture, Food, and Natural Resources, Architecture and Construction, Arts, Audio Visual, Business and Management, Hospitality and Tourism, Information Technology, and Marketing	
Public Services Endorsement	Includes credits directly related to Education and Training, Human Services, and Health Sciences	
STEM Endorsement	Includes credits directly related to Science, Technology, Computer Science, Engineering, and Advanced Math	
Multidisciplinary Endorsement	Allows a student to select credits from the curriculum of each endorsement area and earn credits in a variety of advanced courses from multiple content areas sufficient to complete the distinguished level of achievement.	
Total Credits	26 credits	26 credits

NISD ENDORSEMENT GUIDE

Updated November 7, 2024

Arts and Humanities

The Arts and Humanities endorsement can be earned by completing one of the following five options:

Option 1:

Complete five credits from the following list:

- World Geography
- World History
- US History
- Government (.5)
- Economics (.5)
- AP Comparative Government (.5)
- AP European History
- AP Human Geography
- Psychology (.5)
- Sociology (.5)
- AP Psychology (.5) / Social Studies Advanced Studies (.5)
- Personal Financial Literacy (.5)
- Personal Financial Literacy and Economics (.5)

Option 2:

Complete a coherent sequence of four credits from one or two disciplines in the Fine Arts department:

- Art
- Theatre Arts
- Music - Band, Choir, Orchestra
- Dance

Option 3:

Complete four credits in the same language other than English:

- Spanish
- French
- German
- American Sign Language

Option 4:

Complete two credits from one language other than English and two credits from a different language other than English to total four credits from the following list:

- Spanish
- French
- German
- American Sign Language*
- Computer Science*

If a student is transferring from a different district, other languages will be considered. *May not be accepted at every college as fulfilling WL requirement

Option 5:

Four English credits by selecting from the following:

- AP English III (Language & Composition)
- English IV or AP English IV (Literature & Composition)
- Communication Applications (.5)
- Creative Writing
- Literary Genres

Business and Industry

Option 1: Students who entered high school in the 2022-2023 school year or later may earn a Business and Industry endorsement by completing courses required to be designated a CTE completer in one of the following programs of study related to Business and Industry:

- Accounting and Financial Services
- Animal Science
- Applied Agricultural Engineering
- Architectural Design
- Aviation Maintenance (Aviation Academy)
- Aviation Pilots (Aviation Academy)
- Business Management
- Construction (Construction Academy)
- Cosmetology and Personal Services (Cosmetology Academy)
- Culinary Arts (Culinary Academy)
- Design & Multimedia Arts (also CMP Academy)
- Digital Communications (also CMP Academy)
- Entrepreneurship (BME Academy)
- Plant Science
- Printing & Imaging (phasing out and not available to incoming 9th grade)

If the mathematics and science requirements for the STEM endorsement are not met:

- Advanced Manufacturing
- Engineering (STEM Academy only)
- Networking Systems (phasing out and not available to incoming 9th grade)
- Program Software and Development

Please see the CTE Guide for available courses.

Option 2: Four English credits by selecting courses to include three levels in one of the following areas:

- Public Speaking
- Debate
- Advanced Journalism: newspaper

Multidisciplinary Studies

The Multidisciplinary endorsement can be earned by completing one of the following three options:

Option 1:

Complete four credits from each of the following departments:

- English
- Math
- Science
- Social Studies

*Must include English IV, and Physics and/or Chemistry

Option 2:

Complete four credits in advanced placement or dual credit from the following departments:

- English
- Mathematics
- Science
- Social Studies
- Languages other than English
- Fine Arts

Option 3:

Complete four advanced courses from within one endorsement or among multiple endorsements. (* Denotes advanced applicable courses.)

Public Service

Students who entered high school in the 2022-2023 school year or later may earn a Public Services endorsement by completing courses required to be designated a CTE completer in one of the following programs of study related to public services:

- Health Science (Diagnostic and Therapeutic Services)
- Early Learning
- Family and Community Services
- Teaching and Training

If the mathematics and science requirements for the STEM endorsement are not met:

- Biomedical Science (Biomedical Sciences Academy only)

Please see the CTE Guide for available courses.

Science, Technology, Engineering and Mathematics

Students who entered high school in the 2022-2023 school year or later may earn a STEM endorsement by completing Algebra II, Chemistry, and Physics and one of the options below:

Option 1:

Complete courses required to be designated a CTE completer in one of the following approved programs of study related to STEM:

- Advanced Manufacturing
- Biomedical Science (Biomedical Sciences Academy only)
- Engineering (STEM Academy only)
- Networking Systems (phasing out and not available to incoming 9th grade)
- Programming and Software Development

Please see the CTE Guide for available courses.

Option 2:

Complete two credits from the following list:

- Advanced Quantitative Reasoning
- PreCalculus, Honors/AP PreCalculus, OnRamps PreCalculus
- OnRamps Statistics
- AP Calculus AB
- AP Calculus BC
- Multivariable Calculus
- AP Statistics
- Dual Credit

Option 3:

Complete two courses from the following list:

- AP Biology
- AP Physics I
- AP Physics C: Mechanics
- AP Physics C: Electricity and Magnetism
- AP Chemistry
- Environmental Systems
- AP Environmental Science
- Anatomy and Physiology*
- Astronomy*
- Advanced Animal Science*
- Forensic Science*
- Scientific Research and Design*
- Dual Credit

Option 4:

In addition to Chemistry, Physics and Algebra II, one additional mathematics course for which Algebra II is a prerequisite and one additional science course from the lists above.

PERFORMANCE ACKNOWLEDGMENTS

Performance acknowledgments require high performance beyond that expected of students in high school. Performance acknowledgments will be noted on the transcript. A Performance acknowledgment can be earned by completing one of the following:

Outstanding Performance in Dual Credit

1. Completion of at least 12 hours of college academic courses, including those taken for dual credit as part of the Texas core curriculum, and advanced technical credit courses, including locally articulated courses, with a grade of the equivalent of 3.0 or higher on a scale of 4.0.
2. Earning an associate degree while in high school.

Outstanding Performance in Bilingualism and Biliteracy

1. By demonstrating proficiency in two or more languages by:
 - a. Completing all language arts requirements and maintaining a minimum GPA of the equivalent of 80% and by satisfying one of the following:
 - i. Completion of 3 credits in the same language other than English with a minimum GPA of the equivalent of 80%; or
 - ii. Proficiency in the Texas Essential Knowledge and Skills for Level IV or higher in a language other than English with a minimum GPA of the equivalent of 80%; or
 - iii. Completion of at least three credits in foundation subject area courses in a language other than English with a minimum GPA of the equivalent of 80%; or
 - iv. Demonstrated proficiency in one or more languages other than English through one of the following methods:
 - a. A score of 3 or higher on a College Board advanced placement examination for a language other than English; or
 - b. A score of 4 or higher on an International Baccalaureate (Transfer Students only) examination for a higher-level language other than English course; or
 - c. Performance on a national assessment of language proficiency in a language other than English of at least Intermediate High or its equivalent.
2. In addition to meeting the requirements of paragraph (1), to earn a performance acknowledgment in bilingualism and biliteracy, an English Language Learner (ELL) must also have:
 - a. Participated in and met the exit criteria for a bilingual or English as a second language (ESL) program; and
 - b. Scored at the Advanced High level on the Texas English Language Proficiency Assessment System (TELPAS).

Outstanding Performance on a College Board Advanced Placement test or International Baccalaureate examination

1. A score of 3, 4 or 5 on a College Board advanced placement examination; or
2. A score of 4 or above on an International Baccalaureate examination (Transfer Students only) for a higher-level course.

Outstanding Performance on the PSAT, the ACT Aspire, the SAT or the ACT by:

1. Earning a score on the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT[®]) that qualifies the student for recognition as a commended scholar or higher by the National Merit Scholarship Corporation or as an awardee of the National Recognition Programs of the College Board;
2. Earning a composite score of 442 on the ACT Aspire[™] examination;
3. Earning a composite score of 29 on the ACT PreACT[®] examination;
4. Earning a total score of at least 1350 on the SAT[®]; or
5. Earning a composite score on the ACT[®] examination of 29 (excluding the writing subscore).

Nationally/Internationally Recognized Business or Industry Certification or License

1. Performance on an examination or series of examinations sufficient to obtain a nationally or internationally recognized business or industry certification; or
2. Performance on an examination sufficient to obtain a government-required credential to practice a profession.

NATIONAL MERIT SCHOLARSHIP PROGRAM

To participate in the National Merit Scholarship Program of the National Merit Scholarship Corporation (NMSC), a student must:

1. take the PSAT/NMSQT as a high school junior.
2. be enrolled as a high school student (traditional or home-schooled), progressing normally toward graduation or completion of high school, and planning to enroll full time in college no later than the fall following completion of high school; and
3. be a citizen of the United States; or be a US lawful permanent resident (or have applied for permanent residence, the application for which has not been denied) and intend to become a US citizen at the earliest opportunity allowed by law.

Program Recognition

Of the 1.6 million entrants, some 50,000 with the highest PSAT/NMSQT Selection Index scores (calculated by doubling the sum of the Reading, Writing and Language, and Math Test scores) qualify for recognition in the National Merit Scholarship Program. In September, these high scorers are notified through their schools that they have qualified as either a Commended Student or Semifinalist.

Commended Students

In late September, more than two-thirds (about 34,000) of the approximately 50,000 high scorers on the PSAT/NMSQT receive Letters of Commendation in recognition of their outstanding academic promise. Commended Students are named on the basis of a nationally applied Selection Index score that may vary from year to year and is typically below the level required for participants to be named Semifinalists. Although Commended Students do not continue in the competition for National Merit Scholarships, some of these students do become candidates for Special Scholarships sponsored by corporations and businesses.

Semifinalists

In early September, about 16,000 students, or approximately one-third of the 50,000 high scorers, are notified that they have qualified as Semifinalists. They are the highest scoring entrants in each state. NMSC provides scholarship application materials to Semifinalists through their high schools. To be considered for a National Merit Scholarship, Semifinalists must advance to Finalist standing in the competition by meeting high academic standards and all other requirements explained in the information provided to each Semifinalist.

Finalists

In February, some 15,000 Semifinalists are notified by mail at their home addresses that they have advanced to Finalist standing. High school principals are notified and provided with a certificate to present to each Finalist.

Winner Selection

All winners of Merit Scholarship awards (Merit Scholar designees) are chosen from the Finalist group based on their abilities, skills, and accomplishments—without regard to gender, race, ethnic origin, or religious preference. A variety of information is available for NMSC selectors to evaluate: the Finalist's academic record, information about the school's curricula and grading system, two sets of test scores, the high school official's written recommendation, information about the student's activities and leadership, and the Finalist's own essay.

Types of Merit Scholarship Awards

Beginning in March and continuing to mid-June, NMSC notifies approximately 7,500 Finalists at their home addresses that they have been selected to receive a Merit Scholarship award. Merit Scholarship awards are of three types:

National Merit \$2,500 Scholarships

Every Finalist competes for these single payment scholarships, which are awarded on a state-representational basis. Winners are selected without consideration of family financial circumstances, college choice, or major and career plans.

Corporate-sponsored Merit Scholarship awards

Corporate sponsors designate their awards for children of their employees or members, for residents of a community where a company has operations, or for Finalists with career plans the sponsor wishes to encourage. These scholarships may either be renewable for four years of undergraduate study or one-time awards.

College-sponsored Merit Scholarship awards

Officials of each sponsor college select winners of their awards from Finalists who have been accepted for admission and have informed NMSC by the published deadlines that the sponsor college or university is their first choice. These awards are renewable for up to four years of undergraduate study.

Special Scholarships

Every year some 1,200 National Merit Program participants, who are outstanding but not Finalists, are awarded Special Scholarships provided by corporations and business organizations. To be considered for a Special Scholarship, students must meet the sponsor's criteria and the entry requirements of the National Merit Scholarship Program. They also must submit an entry form to the sponsor organization. Subsequently, NMSC contacts a pool of high-scoring candidates through their respective high schools.

PERFORMANCE RECOGNITIONS

AP Capstone

AP Capstone™ is a diploma program from College Board based on two year long AP courses: AP Seminar and AP Research.

Students who earn scores of 3 or higher in AP Seminar and AP Research and on four additional AP Exams of their choosing receive the AP Capstone Diploma™. Students who earn scores of 3 or higher in AP Seminar and AP Research but not on four additional AP Exams receive the AP Seminar and Research Certificate™.

AP Scholar Awards

The AP Scholar Awards recognize high school students who have demonstrated exemplary college-level achievement on AP Exams. The awards are reflected on all score reports sent to colleges after awards are conferred.

Award	Criteria
AP Scholar	Granted to students who receive scores of 3 or higher on three or more AP Exams
AP Scholar with Honor	Granted to students who receive an average score of at least 3.25 on all AP Exams taken, and scores of 3 or higher on four or more of these exams
AP Scholar with Distinction	Granted to students who receive an average score of at least 3.5 on all AP Exams taken, and scores of 3 or higher on five or more of these exams

TEXAS AUTOMATIC COLLEGE ADMISSION CRITERIA

In accordance with Texas Education Code (TEC), §51.803, students may qualify for automatic admission to many public universities in Texas through the Top 10% Rule. To meet the requirements, students must graduate in the top 10% of your class and be a Texas resident or eligible to pay resident tuition. This rule has been modified for The University of Texas at Austin please see [UT Austin Admissions](#) for the most recent admissions information.

Students will also have to ensure that all required documents are received by the institution to which they intend to apply by the application deadline and be sure to enroll in college no more than two years after graduating from high school. In addition, students must:

- Successfully complete the **Recommended or Distinguished High School Programs**, or the **Distinguished Level of Achievement under the Foundation High School Program**

or

- Earn an ACT English and Reading combined score of 40 and a Math score of 22, or Score at least a 530 on SAT Mathematics and a 480 on SAT Evidenced-Based Reading and Writing.

Be sure to check with the school's admissions office and go to **The Tests You'll Need** for more information about test requirements.

Students who are admitted to college through the Top 10% Rule, may still be required to provide SAT or ACT scores, but these scores are not used for admissions purposes.

THE TEXAS FIRST PROGRAM

The Texas First Program is designed to keep Texas' best and brightest on a direct track to a postsecondary pathway here in our great state. Texas' top students can accelerate their path to college and earn up to a year in scholarship dollars to attend select Texas institutions.

Eligible Institutions

Effective September 1, 2023, the number of institutions of higher education eligible to award the Texas First Scholarship to eligible Texas First Diploma graduates expanded from 10 universities to all Texas public institutions of higher education, including colleges, universities, and technical colleges (Senate Bill 2294, 88th Texas Legislature, Regular Session). Please see your high school counselor for information regarding eligibility requirements to graduate early under the Texas First Program and receive a scholarship up to one year upon admission to any eligible Texas public institution of higher education, per Texas Education Code, Section 61.003.

Program Details

Students who graduate early and earn a Texas First Diploma receive a scholarship at participating institutions.

Students who graduate two or more semesters before their class receive a two-semester scholarship, equivalent to the amount of the TEXAS grant, to a participating university. Students who graduate one semester early receive a one-semester scholarship to a participating university. Students may also be eligible for additional financial aid at most of these institutions.

The Texas First Diploma does not guarantee automatic admission for students. A student should consult their counselor for guidance on whether the student's grade point average at graduation qualifies the student for automatic admission under the state's top 10 percent law.

Students who graduate early with a Texas First Diploma may apply to any college or university they choose. However, the scholarship will only apply toward the participating universities listed above.

The scholarship offer will expire at the end of the first academic year following a student's graduation, so students are encouraged to attend college directly after high school.

Student Eligibility

Eligible students must demonstrate college readiness in academics and attitude. Eligibility requirements include the following:

- Texas residency
- FAFSA or TASFA completion
- At least 22 high school credits
- Final GPA equivalent to 3.0 or higher on a 4.0 scale
- Overall score in at least the 80th percentile on one or more of the following assessments: ACT, SAT, PSAT/NMSQT, TSIA/TSIA2, or GED; or, alternatively, a GPA in the top 10 percent of the student's class
- Completion of the STAAR EOC exams in English I or II, Algebra I, and Biology, or completion of eligible substitute assessments
- Demonstration of mastery in each subject area of English/Language Arts, Mathematics, Science, Social Studies, and a language other than English

Students should contact their counselor to learn more about this program and verify their eligibility.

View additional requirements here:

NISD GRADUATION RECOGNITIONS

Recognition	Criteria	Color	Estimated Cost
Academy Stole (STEM)	4 years in STEM	STEM Academy	\$25
Academy Stole (CMP)	4 years in Creative Media Production	CMP Academy	\$25
ECHS Cord	Unweighted GPA 3.75-4.0	Gold	\$10
ECHS Cord	Unweighted GPA 3.5-3.74	Silver	\$10
ECHS Stole	39+ college hours		\$25
Academy Stole (Cosmetology)	State-licensed graduates	Cosmetology Academy	\$10
AP Scholar Cord	Must receive scores of 3 or higher on three or more AP exams in grades 9-11	Purple/White	\$10
AP Scholar with Distinction Cord	Must receive an average score of at least 3.5 on all AP exams taken AND scores of 3 or higher on five or more of these exams in grades 9-11	Dark Purple	\$10
AP Scholar with Honors Cord	Must receive an A and AP Scholars with Distiction are on the list twice.	Purple/Gold	\$10
State AP Scholar Stole	Granted to the one male and one female student in each U.S. state and the District of Columbia with scores of 3 or higher on the greatest number of Exams, AND THEN the highest average score (at least 3.5) on all AP Exams taken in grades 9-11	Gold	Campus Provided
National AP Scholar Stole	Granted to students who recieve an average score of at least 4 on all AP Exams taken, and scores of 4 or higher on eight or more of these exams.	Purple	Campus Provided
Athletics Cord	Varsity or 4 years of play or 4 years participation with Special Olympics	Black	\$10
Blood Donor Cord	Carter Blood Care will provide cord after donating twice during your senior year.	Red	\$10
CTE Cord	2+ years of CTE	White	\$10
Extra Curricular Cord	2+ years of extra-curricular	Orange	\$10
Fine Arts Cord	2+ years of fine arts	Blue	\$10

Recognition	Criteria	Color	Estimated Cost
Green Cord Service	100 hours of documented service hours in one year.	Green	\$10
Military Cord	Entering a branch of the military	Red/White/Blue	\$10
National Hispanic Honor Society Stole	See sponsor for details.	Red Stole	Campus Provided
National French Honor Society Cord	See sponsor for details.	Red/White/Blue	\$10
National German Honor Society Cord	See sponsor for details.	Black/Gold/Red	\$10
National Honor Society Cord	See sponsor for details.	White Collar	NHS
Perfect Attendance Cord	Approved list in senior year	Pink	\$10
Student Council Cord	2+ years as a member, with 1 year being your senior year.	Silver	\$10
Top 10 Ranked Students Cord	Top ten students, NOT ten percent	Gold	\$10
National Art Honor Society Cord	See sponsor for details.	Multi-Colored	\$10
AP Capstone Cord	Completion of AP Seminar and AP Capstone	Gold/White	\$10
National Technical Honor Society Cord	See sponsor for details.	Purple/Silver	\$10
AVID Cord	4 years AVID; See sponsor for details.	Blue/Yellow Spiral	\$10
Joining Marines Stole	Marine Stole: received through Marines	Gold with Marine Logo	provided by Marines
American Sign Language Honor Society Cord	Completed 2 years of ASL; Possesses an overall grade point average of 3.5/B+ in ASL; Possesses an overall grade point average of 3.2/B in all other subjects; Completion of at least 5 hours of community service that benefits the deaf community.	Old Gold/Burgundy	Students order from sponsor
Debate Cord	See sponsor for details.	Red and Gray	\$10

Recognition	Criteria	Color	Estimated Cost
Yearbook Cord	2 years in Yearbook and/or editor	Columbia Blue	\$10
OnRamps Cord	Successful completion of at least one OnRamps course	Burnt Orange and White	Provided by UT
Microsoft Office Specialist Master Cord	Holds Microsoft Office Specialist Master certification	Lavender	\$10
CTE Ambassadors Cord	Completed requirements of a CTE Ambassador	Blue/Yellow	\$10
International Thespian Society Cord	Earn at least 60 points in the International Thespian Society system - equivalent to 600 hours of work on productions.	Royal Blue/Gold	\$10
Eagle TV Cord	2+ years as a member, with 1 year being your senior year.	NA	\$10
CCMR Honor Cord	Student meets the criteria to be considered CCMR in one of the CCMR areas	Cardinal	\$10
CCMR Platinum Cord	Student meets the TSIA college-ready score requirements on TSIA, SAT, and/or ACT in mathematics and English and the criteria to be considered CCMR in two CCMR areas	Cardinal & Platinum	\$10
CCMR Platinum Plus Cord	Student meets the TSIA college-ready score requirements on TSIA, SAT, and/or ACT in mathematics and English and the criteria to be considered CCMR in all three CCMR areas	Cardinal, Platinum & Gold	\$10
Hillwood Student Influencer Cord	Completed requirements of an AllianceTexas Student Influencer; presented by Hillwood AllianceTexas.	Orange/Navy/Silver Cord	\$10
Destination Imagination Cord	Advances to high school state competition in Destination Imagination (DI)	Purple & Orange	Provided by department
NISD Bilingual Honor Cord	Students that demonstrate proficiency in 2 or more languages by completing at least 3 credits of the same LOTE language and completing all language arts requirements with an 80% or higher GPA within these fields.	Gold, White and Red	Provided by department

COLLEGE, CAREER, AND MILITARY READINESS

The 21st Century workplace almost universally requires some form of preparation or certification in the form of education beyond high school. Whether this preparation includes earning a college degree, an industry-based certification, or some other form of career readiness credential, the NISD community is committed to providing the resources our students need to graduate prepared to navigate a changing and increasingly complex future. This preparation includes providing students with support to cultivate the knowledge, skills, and personal wellbeing needed to be successful beyond high school.

The College, Career, and Military Readiness section provides a convenient tracking tool that students can use to measure their progress toward graduating college and career ready along with some additional resources to assist them in making informed decisions about their future.

In addition to the tools on these pages, students are encouraged to access MajorClarity through their NISD Student Portal. MajorClarity provides an engaging and user-friendly platform where students can focus on:

- **Career Exploration** - Investigate various careers, learn about the skills and education or credentials needed to pursue that career, and learn about other opportunities connected to that area of interest.
- **Postsecondary Exploration** - Search for colleges, universities, and trade schools based on a variety of criteria unique to the interest of the individual student and explore each in depth.
- **Financial Resources** - Search a database of national and local scholarships.
- **Micro-credentials** - Deepen their learning in select areas and develop skills for workplace readiness and online etiquette.

College, Career & Military Readiness Tracker

Test Requirements for BOTH College & Career Readiness		
Must have "college-ready" scores for one test or a combination of tests.		
Minimum Scores to be considered college ready for the Texas Higher Education Coordinating Board (THECB):		
TSIA 2	SAT	ACT
ELAR - 945	Reading and Writing - 480	English and Reading Combined - 40
Essay - 5	Math - 530	Math - 22
Math - 950		No Composite
Note: Students who do not meet the "College Ready" score on TSIA 2 may qualify if their TSIA 2 diagnostic score is: Math - 6, ELAR - 5		
Additional College-Ready Requirements - Must complete one or more		
Dual Credit	3 credit hours in Math or English -or- 9 credit hours in anything	
AP	Score a 3 or better on at least 1 AP Exam	
OnRamps	Qualify for college credit in an OnRamps course	
Associate's Degree	Graduate from high school with an Associate's degree	
Additional Career-Ready Requirements - Must complete one or more		
Industry-Based Certifications	Earn at least one qualifying industry-based certification	
Technical Certifications	Earn a level I or II certificate	
Special Education	Graduate with an advanced degree plan	
	Graduate with an IEP and workforce readiness	

Military-Ready Requirements - Must Complete BOTH

Complete the ASVAB and earn a passing score	Score 31+

College, Career & Military Readiness Honor Cords

Show the world you're ready!

Cardinal Solid

Meet the requirements in one CCMR category

College (one or more of the following)

- Meets the TSI College-Ready Criteria
- Earns 3 hours of dual credit in Math or English
- Earns 9 hours of dual credit in any combination of subjects
- Score a 3+ on one or more AP Exams
- Earns an Associate's Degree
- Qualify for college credit in an OnRamps course

Career

- Earn a qualifying industry-based certification
- Have an IEP and Workforce Readiness
- Receive Special Education Services and graduate on an advanced degree plan
- Earn a Level I or Level II certificate

Military

- Pass ASVAB and enlist in the U.S. Armed Forces, and submit a copy of your DD Form 4 to the Military Enlistment Google Form

Cardinal & Platinum Twisted

Meet TSIA College-Ready requirements and one Career or Military criteria below

Career

- Be a CTE program completer by earning four or more credits in three or more class in the same CTE program of study
- Earn a qualifying industry-based certification for your program of study or Earn a Level I or Level II certificate in your program of study

Military

- Provide DOD Form 4 contract showing enlistment in the U.S. armed forces

Cardinal, Platinum & Gold Twisted

Meet TSIA College-Ready requirements, one the Career Readiness criteria below and one the Military criteria below

Career

- Be a CTE program completer by earning four or more credits in three or more class in the same CTE program of study
- Earn a qualifying industry-based certification for your program of study or Earn a Level I or Level II certificate in your program of study

Military

- Provide DOD Form 4 contract showing enlistment in the U.S. armed forces

COLLEGE PREPARATION AND TESTING INFORMATION

TEXAS Grant

The state legislature established the TEXAS (Towards Excellence, Access and Success) Grant to ensure that well-prepared high school graduates with financial need could go to college. For more information: <http://www.collegeforalltexas.com/apps/financialaid/tofa2.cfm?ID=458>

FAFSA

The Free Application for Federal Student Aid is available for students in their final year of high school. It is important for students to apply for financial aid early in their final year and each following year, as long as they are in post-secondary education or training. In HB3, the Texas Legislature determined that all seniors must submit a completed FAFSA or sign a waiver opting out as a graduation requirement.

There are many merit scholarships available to students through the completion of the FAFSA application at <https://studentaid.gov/h/apply-for-aid/fafsa>. FAFSA submission is available starting October 1.

Please remember that you should never have to pay to complete or submit your FAFSA.

TASFA

The Texas Application for State Financial Aid (TASFA) collects information to help determine eligibility for state (or institutional) financial aid programs administered by institutions of higher education in the state of Texas. Foreign or non-citizen students classified as Texas Residents who are not eligible to apply for federal financial aid using the Free Application for Federal Student Aid (FAFSA) are encouraged to complete the TASFA. Note: The federal application covers federal and state financial aid opportunities. If you meet the FAFSA filing requirements, then you should submit a completed FAFSA. You should not complete both the FAFSA and TASFA. Please visit the College for All Texans FAFSA/TASFA website at <https://tinyurl.com/y92tu4k2> for more information.

Please remember that you should never have to pay to complete or submit your TASFA.

The PSAT

The Preliminary Scholastic Aptitude Test (PSAT) provides NISD students an opportunity to take a practice test structured in the same format and content as the SAT. For juniors, the Preliminary SAT[®]/National Merit Scholarship Qualifying Test (PSAT/NMSQT[®]) may qualify them to enter the competitions for prestigious scholarships and participate in recognition programs that could generate additional scholarship opportunities. More information about the National Merit Scholarship Program is included in this guide. Students have the option of connecting their PSAT scores to Khan Academy for free online SAT prep that is customized to their needs. Visit [KhanAcademy.org](https://www.khanacademy.org) for more information.

Texas Success Initiative Assessment (TSIA-2)

Dual Credit TSIA-2 Eligibility

The TSIA-2 is an untimed assessment program designed to determine if a student is ready for college-level course work in the general areas of reading, writing and mathematics. In addition, this program will also help determine what type of support may be needed to best meet the student's needs and to assist in becoming better prepared for college-level course work. The TSIA-2 is composed of two sections: TSIA-2 Mathematics and TSIA-2 English Language Arts & Reading.

College Readiness Testing Requirements

TSIA-2 Score Requirements and Exemptions

Prior to enrollment in dual credit courses, students must either pass the portion of the TSIA-2 that applies to the course they intend to take or meet the exemption for college readiness on SAT or ACT or any combination of the three.

Dual Enrollment students must pass the English and/or Mathematics portion of the TSIA by the end of their first English or math course or be exempt from TSIA by SAT and/or ACT scores to continue in dual credit or dual enrollment courses.

TSIA-2		
Section	College-Ready Score Range	Description of TSIA-2 Section
TSIA-2 Mathematics	950 – 990 Or 910-949 AND Diagnostic Level = 6	There are 20 questions on the Mathematics TSIA-2. If the diagnostic is required, there are an additional 48 diagnostic questions.
TSIA-2 English Language Arts & Reading	945 – 990 AND Essay Score 5-8 Or 910-944 AND Diagnostic Level 5-6 AND Essay Score 5-8	There are 30 questions and 1 essay on the ELAR TSIA-2. If the diagnostic is required, there are an additional 48 questions. If required, students must score a 3-6 on the diagnostic to take the test's essay portion.

TSIA-2 Exemptions

For a period of 5 years from the date of testing, a student who tested and performed at or above the following standards is exempt:

Test	Score	Partial Score	Description
ACT (Administered after February 15, 2023)	No Composite Score Requirement	40 – Combined score on English and Reading 22 - Mathematics	To use your ACT to exempt you from TSIA-2 ELAR, you must have a combined score of 40 or better on the English and reading portion of the ACT. To have an exemption for mathematics, you must have a score of 22. There is no composite score requirement on an ACT taken after February 15, 2023.
SAT (On or after March 5, 2016)	No combined score used	530 – SAT Math – Math TSIA-2 480 – SAT Evidence-Based Reading and Writing – Reading and Writing TSIA-2	To use your SAT score to exempt you from the TSIA-2, for each subsection of the TSIA-2, you must have the required partial score in the same content area. It is possible to have an exemption on TSIA-2 Reading and TSIA-2 Writing without having a 530 or higher on the SAT Math portion.

FAQ for TSIA-2

What is the Pre-Assessment Activity and why is it required before taking the TSIA-2?

This activity reiterates the importance of the TSIA-2 and provides information about the test and any score feedback you will receive.

When do I have to take the TSIA-2?

The assessment must be taken before you can enroll in any college-level course at any Texas public institution of higher education. Specifically, in NISD, you must take the TSIA-2 prior to enrolling in dual credit courses and before the end of your first OnRamps English or math course unless you meet the exemption qualifications on SAT or ACT.

How do I register and pay for the TSIA-2?

NISD is able to provide the TSIA-2 locally at no cost for the first attempt to NISD students. Additional information on the registration and payment process. (www.nisdtx.org/ccmr)

Are calculators allowed for the TSIA-2?

No calculators are allowed to be brought into the testing room. A calculator is provided within the testing program when appropriate.

Are accommodations allowed on the TSIA-2?

Yes, some accommodations may be allowable for TSIA-2 testing. Students who qualify should contact the campus TSIA-2 Administrator for more information.

The ACT

The ACT is a three-hour multiple-choice test measuring achievement in four areas: English, mathematics, reading, and science reasoning. The optional writing test measures skill in planning and writing a short essay. Each sub-test yields a score of 1-36. Averaging the four sub-tests produces a composite score that also is reported on a scale of 1-36. Students have access to free online practice tests for the ACT at <http://actstudent.org/onlineprep/>.

The SAT

The SAT (Reasoning Test) is a three-hour test of writing/critical language and mathematical abilities administered by the College Board. Students will receive a Total Score in the range of 400-1600 which is the sum of the Evidence-Based Reading and Writing section score (200-800) and the Math section score (200-800). Students have access to free online practice tests for the SAT at <https://sat.collegeboard.org/practice> and <https://www.khanacademy.org/sat>.

Advanced Placement (AP) Exams

Each AP course provides students the opportunity to earn college credit while in high school by successfully achieving a qualifying score (3+) on the AP exam, which is administered at the end of the course. These AP courses and exams are based upon a national course outline equivalent to a college course. By achieving a qualifying score of 3 or higher, colleges may grant credit on the student's college transcript. Exam credit policies can vary from college to college and it is recommended to consult the prospective institution's policy on AP credit. Students who achieve a qualifying score (3+) are automatically qualified for credit from Texas public colleges and universities. The college or university will determine what type of credit is awarded, such as core or elective, and how many college credit hours are awarded.

ADVANCED PLACEMENT, DUAL CREDIT, AND ONRAMPS

	Dual Credit	Advanced Placement	Dual Enrollment
Definition	To meet “core” college requirements and electives by taking course from institutions partnered with NISD	To meet “core” college requirements and electives by achieving a qualifying score on an AP Exam	To meet “core” college requirements and electives by taking courses developed and vetted by the University of Texas and presented in a face-to-face format with online components.
Offerings	30+ courses (including CTE offerings)	32 AP courses	Eight OnRamps Courses and two Tarleton Courses
Transferability	Courses completed from the Texas Core Curriculum transfer to all public in-state colleges and universities. Many out-of-state public and private schools may take courses as transfer, but it is up to the institution.	Exams with qualifying scores are accepted by most institutions, public and private. <i>*Be sure to search the AP Credit Policy for your prospective college or university.</i>	Courses completed from the Texas Core Curriculum transfer to all public in-state colleges and universities. Many out-of-state public and private schools may take courses as transfer, but it is up to the institution.
How College Credit is Earned	Dual credit grade is a course grade earned at the end of each semester.	Credit earned by achieving a qualifying score on a single, national exam administered in May; Exams scored on a 1-5 scale, with 3 or higher being a “qualifying” score.” Course grade has nothing to do with the AP Exam score.	Students who qualify for college credit may choose whether to accept or decline the college credit after seeing their final course grade. Once their decision is made it cannot be changed. Decisions to accept or decline the credit are for college transcripts only. Grades earned in the high school portion of Dual Enrollment courses are applied to the student's high school transcript regardless of their credit decision with the university.
Limits on Enrollment / Conflicts	Prerequisites for certain courses apply. Students must also either meet an exemption from the TSIA-2 or meet the “College-Ready” standard on the TSIA-2. Students must also meet timelines for enrollment established by partner institutions. The college may choose not to offer a course based on enrollment and instructor availability.	Advanced Placement is considered open enrollment. Students may register for and participate in AP courses each year provided that they have completed the course prerequisites.	Students enrolled in Dual Enrollment courses must meet entrance requirements which vary by course, in order to qualify for the college-level portion of the course. Students who do not qualify for the college course may remain in the class and earn their high school students enrolled in Dual Enrollment are responsible for the course fees regardless of their qualification for and/or acceptance of college credit. All English and Math Dual Enrollment students are required to meet the college readiness requirements on TSIA, SAT, or ACT by the end of their first course in order to continue taking OnRamps or Dual Credit classes.

Caution:

A failing grade in an AP or dual enrollment course will impact your high school GPA, but failing a dual credit course will impact your college GPA which may have an effect on your overall college GPA regardless of what institution you choose to attend. Be sure to stay determined and focused while in a dual credit course!

Choosing the best option:

There are many factors to consider when choosing dual credit, AP, and dual enrollment courses. Each option may prepare you for in-state public colleges, but AP courses may be preferable for some private institutions. However, each institution determines what AP Exam score will count for specific classes; and not all AP Exam scores will apply to classes that are necessary for a student’s degree plan. Regardless of the route or routes you choose, they will all require a willingness to work and the work will be challenging.

Dual Credit, Dual Enrollment, Advanced Placement, and the Texas Core Curriculum

The Texas Core is a 42 Semester Credit Hour (SCH) core curriculum for all undergraduate students in Texas. It is composed of classes in nine areas:

English 6 SCH	Mathematics 3 SCH	American History 6 SCH
Speech 3 SCH	Science 6 SCH	Government 6 SCH
Language, Culture, & Philosophy 3 SCH	Creative Arts 3 SCH	Behavior 3 SCH

*Courses that fulfill the requirements of each core component may differ by college and university.

Each time you take a course in Northwest ISD that fits a Core Element, you are potentially progressing toward your degree from any public institution of higher education in the state. The public institution of higher education in Texas is obligated to take your dual credit/dual enrollment credits that earned with NISD that are Texas Core courses.

Northwest ISD offers more than one way to earn your Texas Core credits. Many Dual Credit, Dual Enrollment, and Advanced Placement courses are part of the Texas Core. The classes in **BOLD** on page 43 are courses offered through NISD that can fulfill the Texas College Core Requirements.

When you are deciding which advanced classes to take it is a good idea to pay close attention to the Core areas and make any decisions regarding classes outside the Core based on the college you plan to attend, your degree requirements, and your interests. Courses you take outside the Core may or may not apply to your degree plan. In some cases, you can still use non-Core classes as elective, program, or credentialing credit, but this will vary by institution and degree plan.

Dual Credit Core Curriculum Course Guide

TSIA-2 Reading, Writing, and Mathematics or SAT, ACT exemption scores are required for dual credit and dual enrollment courses.

English (6 Hours) Choose Two Courses		
ENGL 1301 OnRamps Intro to Rhetoric	ENGL 1302 OnRamps Rhetoric and the American Identity	_____ 3 Hrs _____ 3 Hrs

Other college courses may or may not count for High School credit.

Students who wish to graduate with their college core complete will need one additional KINE course that will not count for high school credit.

Students who wish to graduate with an associate's degree will need an additional 19 hours. Course requirements may vary by major and may not be eligible for high school credit.

Advanced Placement Exam Credit Conversion

Colleges across the world have different systems and requirements for converting AP Exam scores to college credit. Public colleges and universities in Texas are required to give credit for a score of 3 or better, but there are no specific requirements for how much credit or how that credit will apply to a student's degree plan.

To check the AP Credit Policy for your chosen college or university, we recommend that you visit the AP Credit Policy Search site here: apstudents.collegeboard.org/getting-credit-placement/search-policies

AP Credit Search How-To Video (45 seconds): tinyurl.com/NISDCCMR-APHowTo

Advanced Placement Exams and Dual Credit

Students taking dual credit who plan to use AP exams to meet prerequisite requirements should be aware of the college score requirements for their exams. The table below highlights some common courses.

Visit www.tccd.edu/admission/testing-centers/advanced-placement/ for the complete list.

Advanced Placement, Dual Credit, and OnRamps Courses

	Dual Credit	Advanced Placement	Dual Enrollment

Courses in **BOLD** are part of the Texas Core Curriculum.

STEELE EARLY COLLEGE HIGH SCHOOL (ECHS)

James M. Steele Early College High School is an innovative approach for high school students to earn both a high school diploma and their college Associate's degree. Students can earn up to 60 college hours at no cost. At Steele ECHS, we work with students to focus on academics, industry certifications, internships/ experience, community service, leadership, and preparation for college. Steele is a small college campus experience focused on students working on a competitive advantage for their future.

Application Timeline

Wednesday, September 3, 2025	Steele ECHS enrollment request opens for Fall 2026
Sunday, October 12, 2025	Round One of enrollment requests closes at 11:59 pm
Monday, October 13, 2025	Round Two of enrollment requests begins
Friday, October 31, 2025	Round One students notified of placement decision
Sunday, November 16, 2025	Round Two of enrollment requests closes
Friday, December 12, 2025	Round Two of students notified of placement decisions

NOTICE: Students are encouraged to submit their ECHS applications as early in the process as possible as spots are not reserved for later rounds. If the ECHS fills every spot in an early round, the later rounds will continue in order to generate a waitlist. Students who are placed on the waitlist will be included in the weighted lottery.

Selection Process

Steele ECHS is able to accept a limited number of students each school year. In the event that there are more applicants than the campus can accommodate, enrollment selections will be made using a weighted-lottery system.

Texas Success Initiative Assessment (TSIA2)

All freshmen entering Steele ECHS are required to complete the TSIA ELAR before the start of their freshman year in order to take the required dual credit courses for the fall semester. Students who have not taken the TSIA by July 30, 2025 will lose their spot in the ECHS and their enrollment will be returned to their home campus.

Sample ECHS Student Schedule

Steele ECHS utilizes an innovative A-B Block schedule to support college dual credit coursework and academic learning. Students take four classes each day Monday through Thursday. Class periods 1, 3, 5, and 7 are Monday/Wednesday, while class periods 2, 4, 6, and 8 are Tuesday/Thursday. Students have all eight class periods on Friday. In addition, every day during the middle of the school day, we have Power Hour designed for clubs, organizations, tutorials, collaboration, lunch, and more.

The schedule below is a sample schedule that a typical ECHS student might have. Non-dual credit courses may differ based on each student's interests and graduation plan.

Sample 9th Grade Schedule:

1st Period	Honors English I
2nd Period	Dual credit college course, "Learning Frameworks"
3rd Period	Honors Biology
4th Period	Honors World Geography
5th Period	Honors Spanish I or II
6th Period	Elective course
7th Period	Math course (Honors Geometry, Honors Algebra I, or Honors Algebra II)
8th Period	Elective course

Steele ECHS "Student Life"

At Steele ECHS, we have three large student organizations that coordinate and lead all our school activities and events. The three student organizations are Student Council (StuCo), National Honor Society (NHS), and Distributive Education Clubs of America (DECA). Our students are actively involved in Broadcasting (Steele TV), Yearbook, Journalism (Steele Newspaper), Student Leadership, Debate, Art, Theatre, and our Steele Rock Band - "Permanent Flux". Steele students compete in UIL Academics, UIL Debate, UIL Oral Interpretation (OI), UIL One Act Play (OAP), eSports, and Certiport Microsoft Office Specialist. Steele students are Tarrant County College (TCC) students and have access to all events, programs, and extracurriculars through TCC.

Through our Business Information Management (BIM) program, students can earn numerous industry certifications and become a member of the National Technical Honor Society (NTHS). There are numerous opportunities for online high school and dual credit courses. Students are encouraged to volunteer in our community as part of the Green Cord program. We have a number of student created/led clubs at Steele, such as, the orchestra club, D&D club, dance club, sports clubs, and more.

A successful Early College High School program relies on our students progressing as a cohort through grades 9, 10, and most of grade 11. Because of this, NISD does not support summer dual credit enrollment for summer courses. Students who take a summer course will be responsible for any costs associated with the course including textbook fees.

Science

DC Biology for Non-Science Majors I (BIOL 1408) for Science, Institute of Higher Education Endorsed (IHE) A

Provides a survey of biological principles with an emphasis on humans, including chemistry of life, cells, structure, function, and reproduction. Laboratory activities will reinforce a survey of biological principles with an emphasis on humans, including chemistry of life, cells, structure, function, and reproduction. This course offering is a Texas Core Curriculum course and is only available to Steele Early College High School students. See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr

Course Numbers: SC.D902051 | IHE11200

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; high school Biology and Physics, TSIA2 Math & ELAR

DC Biology for Non-Science Majors II (BIOL 1409) for Science, Institute of Higher Education Endorsed (IHE) B

This course will provide a survey of biological principles with an emphasis on humans, including evolution, ecology, plant and animal diversity, and physiology. Laboratory activities will reinforce a survey of biological principles with an emphasis on humans, including evolution, ecology, plant and animal diversity, and physiology. This course offering is a Texas Core Curriculum course and is only available to Steele Early College High School students. See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr

Course Numbers: SC.D902052 | IHE11200

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; high school Biology and Physics, BIOL 1408, TSIA2 Math & ELAR

Social Studies

DC US History I (HIST 1301) for United States History A

A survey of the social, political, economic, cultural, and intellectual history of the United States from the pre-Columbian era to the Civil War/ Reconstruction period. United States History I includes the study of pre-Columbian, colonial, revolutionary, early national, slavery and sectionalism, and the Civil War/Reconstruction eras. Themes that may be addressed in United States History I include: American settlement and diversity, American culture, religion, civil and human rights, technological change, economic change, immigration and migration, and creation of the federal government. This course offering is a Texas Core Curriculum course and is only available to Steele Early College High School students. See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr. HIST 1301 and 1302 must be taken face-to-face at Steele High School during the normal fall and spring semesters. High school credit will not be awarded for HIST 1301 or HIST 1302 taken online or outside the regular school day at Steele ECHS.

Course Numbers: SS.D903011 | 03340100

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSI Math or TSIA-2 Mathematics and TSI met in Reading, Writing or TSIA-2 ELAR

DC US History II (HIST 1302) for United States History B

A survey of the social, political, economic, cultural, and intellectual history of the United States from the Civil War/Reconstruction era to the present. United States History II examines industrialization, immigration, world wars, the Great Depression, Cold War and post-Cold War eras. Themes that may be addressed in the United States History II include: American culture, religion, civil and human rights, technological change, economic change, immigration and migration, urbanization and suburbanization, the expansion of the federal government, and the study of US foreign policy. This course offering is a Texas Core Curriculum course and is only available to Steele Early College High School students. See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr. HIST 1301 and 1302 must be taken face-to-face at Steele High School during the normal fall and spring semesters. High school credit will not be awarded for HIST 1301 or HIST 1302 taken online or outside the regular school day at Steele ECHS.

Course Numbers: SS.D903012 | 03340100

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSI Math or TSIA-2 Mathematics and TSI met in Reading, Writing or TSIA-2 ELAR

Fine Arts

DC Introduction to Theatre (DRAM 1310) for Theatre I A and B

Survey of theater including its history, dramatic works, stage techniques, production procedures, and relation to other art forms. Participation in productions may be required. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course and is only available to Steele Early College High School students. See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr

Course Numbers: FA.D90401 | 03250100

Credits: 1

Grade Placement: 9-12

Semesters: 2

Prerequisite: TSIA-2 ELAR and Mathematics

LOTE

DC Intermediate Spanish I (SPAN 2311) for Spanish III A and B

The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world. Conversational practice based on selected readings and dialogues. Directed composition. Class conducted largely in Spanish. This course offering is a Texas Core Curriculum course and is only available to Steele Early College High School students. See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr

Course Numbers: LO.D90620 | 03440300

Credits: 1

Grade Placement: See prerequisite

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Spanish II, TSIA-2 ELAR and Mathematics

DC Intermediate Spanish II (SPAN 2312) for Spanish IV A and B

The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world. This course offering is a Texas Core Curriculum course and is only available to Steele Early College High School students. See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr

Course Numbers: LO.D90630 | 03440400

Credits: 1

Grade Placement: See prerequisite

Semesters: 1

Weighted GPA: Level 4

Prerequisite: DC Intermediate Spanish I (SPAN 2311)

Physical Education

DC Introduction to Physical Fitness & Wellness (KINE 1164) for PE Substitution

This course will provide an overview of the lifestyle necessary for fitness and health. Students will participate in physical activities and assess their fitness status. Students will be introduced to proper nutrition, weight management, cardiovascular health, flexibility, and strength training. Includes: scientific information concerning values and preventive medical benefits of exercise, individual (personal) evaluations and experiments to determine present health fitness status, and the development of a personal exercise program based on student's needs. **This course is available to ECHS students only.**

Course Numbers: PE.D9805 | PES00008

Credits: .5

Grade Placement: 9

Semesters: 1

Prerequisite: Parent, counselor, principal, and college approval; TSIA-2 ELAR and Mathematics

Personal and Community Health (KINE 1304) for PE Substitution

This course provides an introduction to the fundamentals, concepts, strategies, applications, and contemporary trends related to understanding personal and/or community health issues. This course also focuses on empowering various populations with the ability to practice healthy living, promote healthy lifestyles, and enhance individual well-being. **This course is available to ECHS students only.**

Course Numbers: PE.D9905 | PES00009

Credits: .5

Grade Placement: 10

Semesters: 1

Prerequisite: Parent, counselor, principal, and college approval; TSIA-2 ELAR and Mathematics

Other Electives

DC Learning Frameworks (EDUC 1300) for Methodology of Academic and Personal Success (MAPS)

A study of research and theory in the psychology of learning, cognition, and motivation; factors that impact learning, and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of the college-level student academic strategies. Students use assessment instruments (e.g. learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. This course offering is a Texas Core Curriculum course and is offered face-to-face for Steele Early College High School students. **This course is a college elective credit that does not fulfill the College Core Curriculum and is only available for dual credit through Steele Early College High School. See the NISD College and Career Readiness website for more details:**

Credits: .5

Grade Placement: 9

Semesters: 1

Prerequisite: Parent, counselor, principal, and college approval; TSIA-2 Reading, Writing, and Mathematics

CTE Business Courses

Project-Based Capstone - DECA

CTE Project-Based Capstone is a course designed to develop and enhance college-ready and career-ready professional skills while investigating real-world problems, issues, and interests. Students work independently & collaboratively with others across career fields. Students partner with a mentor or advisor to develop a project. Students conduct research, compile findings, implement project activities, and present their work to a relevant audience that may include industry experts. Students must be CCMR-Met to be eligible to take this course. CCMR-Met status can be earned through college ready or career ready eligibility criteria. Additional requirements include being on track to graduate. See Project-Based Capstone eligibility criteria. Approval to enroll in this course will be determined by district & campus staff.

NISD ENGLISH COURSE SEQUENCE

* Denotes that the course requires an End of Course Test.

** See Online or Off-Campus Dual Credit Opportunities

Important: Depending on the student's graduation plan and endorsement, a student may satisfy the fourth English credit by completing other approved English courses.

ENGLISH COURSES

Summer reading is required for all On-level, Honors, Honors/GT, AP, AP/GT, and OnRamps English courses. Summer reading lists are available at nisdtx.org

English I, II, III and IV

English I, II, III, and IV develop skills and concepts in the areas of reading, writing, speaking, and listening. Emphasis is placed on various domains of writing, the use of written and oral Standard English, study of literary genres, vocabulary enrichment, and the use of critical thinking skills. Research processes are developed as students produce various products and projects. Assignments are made for reading and writing both in class and outside of the classroom.

English I-IV Sheltered

Sheltered courses deliver the grade-appropriate curriculum (English 1-4) in a vocabulary- rich environment that supports emergent bilinguals (EBs) in developing content and English language proficiency.

- English is the language of instruction in sheltered classes.
- Primary language support is allowed to assist students in understanding the content.
- Students must be recommended for sheltered classes by the Language Proficiency Assessment Committee (LPAC).

English I

Course Numbers: 0021 | 03220100

Sheltered Instruction Course Numbers:

ELA.S0021 | 03220100

Credits: 1

Grade Placement: 9

Semesters: 2

Prerequisite: LPAC Recommendation for Sheltered

English II

Course Numbers: 0022 | 03220200

Sheltered Instruction Course Numbers:

ELA.S0022 | 03220200

Credits: 1

Grade Placement: 10

Semesters: 2

Weighted GPA: Level 2

Prerequisite: English I, LPAC Recommendation for Sheltered

English III

Course Numbers: 0023 | 03220300

Sheltered Instruction Course Numbers:

ELA.S0023 | 03220300

Credits: 1

Grade Placement: 11

Semesters: 2

Weighted GPA: Level 2

Prerequisite: LPAC Recommendation for Sheltered

English IV

Course Numbers: 0024 | 03220400

Sheltered Instruction Course Numbers:

ELA.S0024 | 03220400

Credits: 1

Grade Placement: 12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: LPAC Recommendation for Sheltered

Honors English I

Honors English I is designed for students who have shown exceptional mastery and understanding of the essential skills in grammar, writing, spelling, and reading. Honors English I includes an in-depth study of literary genres, models of writing, grammar as needed and in relation to composition, and vocabulary study. Students are expected to read outside of class in addition to completing the assignments in class.

Course Numbers: ELA.021H | 03220100

Credits: 1

Grade Placement: 9

Semesters: 2

Weighted GPA: Level 3

Prerequisite: None

Honors/GT English I

English I GT is designed to meet the needs of the GT student by incorporating cross-curricular connections, complex and abstract thought, and Problem-Based Learning. Emphasis is placed on in-depth studies of literary genres, models of writing, grammar in relation to composition, and vocabulary study. Students are expected to read outside of class in addition to completing the assignments in class.

Course Numbers: ELA.021GH | 03220100

Credits: 1

Grade Placement: 9

Semesters: 2

Weighted GPA: Level 3

Prerequisite: GT Identified

Honors English II

Honors English II is designed for students who have shown exceptional mastery and understanding of grammar, writing, spelling, and reading. Honors English II includes an in-depth study of literary genres, models of writing, grammar, composition, and vocabulary study. Students are expected to read outside of class in addition to completing assignments in class.

Course Numbers: ELA.022H | 03220200

Credits: 1

Grade Placement: 10

Semesters: 2

Weighted GPA: Level 3

Prerequisite: English I

Honors/GT English II

English II GT is designed to meet the needs of the GT student by incorporating cross-curricular connections, complex and abstract thought, and Problem-Based Learning. Emphasis is placed on in-depth studies of literary genres, models of writing, grammar in relation to composition, and vocabulary study. Students are expected to read outside of class in addition to completing assignments in class.

Course Numbers: ELA.022GH | 03220200

Credits: 1

Grade Placement: 10

Semesters: 2

Weighted GPA: Level 3

Prerequisite: English I and GT Identified

AP English III/AP English Language and Composition

AP English Language and Composition is an introductory college-level composition course. Students cultivate their understanding of writing and rhetorical arguments through reading, analyzing, and writing texts as they explore topics like rhetorical situation, claims and evidence, reasoning and organization, and style. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible.

Course Numbers: 0023A | 03220300

Credits: 1

Grade Placement: 11

Semesters: 2

Weighted GPA: Level 4

AP/GT English III English Language and Composition

AP English Language and Composition is an introductory college-level composition course. Students cultivate their understanding of writing and rhetorical arguments through reading, analyzing, and writing texts as they explore topics like rhetorical situation, claims and evidence, reasoning and organization, and style. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. Recommended Prerequisite: GT Identified

OnRamps Dual Enrollment English III (RHE 306/ENGL 1301 in the fall and RHE 309/ENGL 1302 in the spring) for ENG III A and B

This course is a dual enrollment course through UT Austin where students learn and practice well-established principles of rhetoric and argumentation in order to become more effective in analyzing and producing arguments. In particular, students examine arguments about the American identity and identity formation, both personal and cultural. The course is composed of 8 Big Ideas: Evaluating Sources, Rhetorical Situations, Analyzing Arguments, Conducting Research, Identifying Underlying Values, Formulating a Research Question, Giving and Receiving Feedback, and Drafting and Revising. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness OnRamps website for more details:** www.nisdtx.org/onramps. UT Austin tuition for this course is paid to Northwest ISD. See page 39 for details. Must successfully complete TSIA ELAR by the end of this course to be eligible to continue in OnRamps or Dual Credit after this course.

Course Numbers: D9023OR | 03220300

ENGLISH ELECTIVES

After the successful completion of English I, II, and III, the additional credit may be selected from English IV or a course denoted by an asterisk (*). For NCAA information regarding acceptable core English courses, please visit eligibilitycenter.org

Communication

Communication Applications

The student will learn to demonstrate knowledge of various communication processes in professional and social contexts. This course includes using appropriate interpersonal communication strategies, effective group communications, and the ability to deliver and evaluate formal and informal professional presentations.

Course Numbers: 0045 | 03241400

Credits: .5

Grade Placement: 9-12

Semesters: 1

Weighted GPA: Level 2

Prerequisite: None

Public Speaking

This course is a general introduction to fundamentals of oral communications. Students will gain experience preparing and giving speeches and presentations for various professional and social settings and will present using a variety of purposes and styles. This course includes individual speaking skills and discussion techniques. It emphasizes adjustment to the speaking situation, listening, body action when speaking, voice and diction when speaking, limited panel discussion and debate, and speaker-audience relationships.

Course Numbers: 0041 | 03240900

Credits: .5

Grade Placement: 9-12

Semesters: 1

Weighted GPA: Level 2

Prerequisite: None

Debate

Debate I, II and III

These courses are designed to teach formalized argument, professional communication, presentation, persuasion, theoretical analysis, critical thinking and the examination of rhetoric. In Debate I, students will survey a variety of competitive speech and debate events while learning to communicate in various contexts, prepare formal presentations, and demonstrate effective group communication in both formal and informal settings. These courses will also emphasize intensive research skills, critical thinking, written communication and case construction through preparation for participation in interscholastic competition. Participation in speech/debate contests and after school practices is expected each semester for students enrolled.

Debate I

Students who complete Debate I will be eligible for Communication Applications/Speech credit if this credit was not previously earned.

Course Numbers: 0071 | 03240600

Credits: 1

Grade Placement: 9-12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: None

Debate II

Course Numbers: 0072 | 03240700

Credits: 1

Prerequisite: Debate I

Debate III ***Course Numbers:** 0073 | 03240800**Credits:** 1**Grade Placement:** 11-12**Semesters:** 2**Weighted GPA:** Level 2**Prerequisite:** Debate II**Independent Study in Speech (Debate IV) ***

This is a course for the fourth year student in Debate. The student will plan and design an independent study project, conduct research to support and develop the approved project, and produce the final product. The student will present the final product and, along with other designated individuals, will evaluate the project.

Course Numbers: 0074 | 03241200**Credits:** 1**Grade Placement:** 12**Semesters:** 2**Weighted GPA:** Level 2**Prerequisite:** Debate III and teacher approval.

Journalism

Journalism

This course, an introduction to all forms of mass media, emphasizes the type of writing necessary for producing school publications. The class helps the student to evaluate current events and newspaper articles and develops the student's awareness of his/her responsibility in learning to meet deadlines. Students also learn public relation skills.

Course Numbers: 0064 | 03230100**Credits:** 1**Grade Placement:** 9-12**Semesters:** 2**Weighted GPA:** Level 2**Prerequisite:** None**Advanced Journalism: Newspaper I, II and III**

Students are instructed in the elements and processes used in producing a school newspaper. Students are provided opportunities to develop personal skills in communication and cooperation, work within time constraints and budget limitations, plan and implement advertising and circulation campaigns, apply skills in covering events and in writing articles which reflect school and community life. Students are instructed in photography as it pertains to newspaper production.

Advanced Journalism: Newspaper I**Course Numbers:** 0051 | 03230140**Credits:** 1**Grade Placement:** 9-12**Semesters:** 2**Weighted GPA:** Level 2**Prerequisite:** Journalism or teacher approval**Advanced Journalism: Newspaper II****Course Numbers:** 0052 | 03230150**Credits:** 1**Grade Placement:** 10-12**Semesters:** 2**Weighted GPA:** Level 2**Prerequisite:** Newspaper I**Advanced Journalism: Newspaper III *****Course Numbers:** 0053 | 03230160**Credits:** 1**Grade Placement:** 11-12**Semesters:** 2**Weighted GPA:** Level 2**Prerequisite:** Newspaper II

Independent Study in Journalism (Newspaper IV) *

This is a course for the fourth year student in Newspaper. The student will plan and design an independent study project, conduct research to support and develop the approved project, and produce the final product. The student will present the final product and, along with other designated individuals, will evaluate the project.

Course Numbers: ELA.0066 | 03231000

Credits: 1

Grade Placement: 12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Newspaper III and teacher approval.

Oral Interpretation

Oral Interpretation I, II and III

These courses are designed for students interested in learning and improving performance-related skills while competing in interscholastic speech tournaments. First year students will survey each of the competitive interpretation events, while second and third year competitors will focus on selection, development and performance of prose, poetry, dramatic interpretation, humorous interpretation, duo interpretation, duet, original oratory, storytelling, Reader's Theater, monologues, and one act plays. Students will also learn how to choose and cut performance literature as well as write transitions and introductions. In addition, students will do in depth study and analysis of characters while incorporating movement (blocking) into competitive performance. Participation in speech contests and after school practices is expected each semester for students enrolled. Third year students will be expected to prepare for state and national qualifying competitions, as scheduled throughout the year.

Oral Interpretation I

Students who complete Oral Interpretation I will be eligible for Communication Applications/ Speech credit if this credit was not previously earned.

Course Numbers: 0076 | 03240200

Credits: 1

Grade Placement: 9-12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: None

Oral Interpretation II

Course Numbers: 0077 | 03240300

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 2

Oral Interpretation III *

Course Numbers: 0078 | 03240400

Credits: 1

Grade Placement: 11-12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Oral Interpretation II

Independent Study in Speech (Oral Interpretation IV) *

This is a course for the fourth year student in Oral Interpretation. The student will plan and design an independent study project, conduct research to support and develop the approved project, and produce the final product. The student will present the final product and, along with other designated individuals, will evaluate the project.

Course Numbers: ELA.0079 | 03241200

Credits: 1

Grade Placement: 12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Oral Interpretation III and teacher approval.

Other English Electives

Business English*

In Business English, students enhance communication and research skills by applying them to the business environment, in addition to exchanging information and producing properly formatted business documents using emerging technology. **This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org**
Course Numbers: CT.0025 | 13011600

Credits: 1

Semesters: 1

Weighted GPA: Level 2

Prerequisite: English III

Business English Online or Off-Campus Dual Credit Opportunity

See page 221 for more information about this opportunity.

DC Technical & Business Writing (ENGL 2311) for Business English A and B

College Preparatory English*

In this college-preparatory course, students will improve integrated critical reading and writing skills through engagement with a variety of texts across content areas and genres. As a result, students will be able to develop and express ideas clearly and effectively to communicate with various audiences for various purposes and occasions. This course is not a dual enrollment course, but meeting the course requirements and successfully receiving credit will help prepare students to meet the TSIA-2 requirements in ELA, Reading and Writing for TCC for the next year.

Course Numbers: 0084 | CP110100

Credits: 1

Grade Placement: 12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Administrator approval

Creative Writing *

This course is designed to develop and enhance writing ability by focusing on the creative and imaginative aspects of composition forms such as poetry, short stories, and character sketches.

Course Numbers: 0029 | 03221200

Credits: 1

Grade Placement: 9-12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: None

Literary Genres (Introduction to Mythology and Heroes of Mythology) *

This course will begin by examining the myths and legends of Western civilizations from the ancient Greeks to the contemporary American Indians. This class will focus on these myths as a reflection of their cultures and times, as well as their influence on the development of modern literature. The student will further advance into the study of the hero myths with an emphasis on traditional and modern epics.

Course Numbers: ELA.0025 | 03221500

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: None

Practical Writing Skills

This course is designed to develop and support students that have not yet mastered the English I and/or English II EOC. High leverage writing, reading, and thinking strategies will be implemented in order to strengthen the writing, reading, and thinking of the students in this course. This course is for elective credit only. This course does not substitute for an English credit.

Course Numbers: ELA.0015 | 03221300

*** This course is not an advanced math and does not meet NCAA eligibility for student-athletes.

MATHEMATICS COURSES

Algebra I

In Algebra I, students will build on the knowledge and skills from mathematics in Grades 6-8, which provide a foundation in linear relationships, number and operations, and proportionality. Students will study linear, quadratic, and exponential functions and their related transformations, equations, and associated solutions. Students will connect functions and their associated solutions in both mathematical and real-world situations. Students will use technology to collect and explore data and analyze statistical relationships. In addition, students will study polynomials of degree one and two, radical expressions, sequences, and laws of exponents. Students will generate and solve linear systems with two equations and two variables and will create new functions through transformations.

Course Numbers: 0104 | 03100500

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Pre-Algebra

Honors Algebra I

Honors Algebra I includes the same course of study designed for Algebra I. In addition, students will develop advanced problem solving and symbol manipulation skills. Honors students will be expected to take course concepts to advanced levels of development, understanding, and justification.

Honors assignments and assessments will be designed to model AP exam formatting.

Course Numbers: M.0104H | 03100500

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 3

Prerequisite: Pre-Algebra

Geometry

In Geometry, students will build on the knowledge and skills for mathematics in Kindergarten-Grade 8 and Algebra I to strengthen their mathematical reasoning skills in geometric contexts. Within the course, students will begin to focus on more precise terminology, symbolic representations, and the development of proofs. Students will connect previous knowledge from Algebra I to Geometry through the coordinate and transformational geometry strand. Though this course is primarily Euclidean geometry, students should complete the course with an understanding that non-Euclidean geometries exist. Students will use deductive reasoning to justify, prove and apply theorems about geometric figures.

Course Numbers: 0112 | 03100700

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Algebra I or Honors Algebra I; may be taken concurrently with Algebra II with teacher recommendation.

Honors Geometry

Honors Geometry includes the same course of study designed for Geometry. In addition, students will develop advanced problem solving and symbol manipulation skills. Honors students will be expected to take course concepts to advanced levels of development, understanding, and justification. Honors assignments and assessments will be designed to model AP exam formatting.

Course Numbers: M.0112H | 03100700

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 3

Prerequisite: Algebra I or Honors Algebra I; may be taken concurrently with Algebra II with teacher recommendation.

Honors/GT Geometry

Honors/GT Geometry is designed to meet the needs of gifted students by combining Honors strategies with enhanced depth, complexity, and pacing of the Mathematics curriculum. Thinking skills, exploratory learning, and leadership qualities are promoted. Honors/GT Geometry includes the same course of study designed for Geometry. In addition, students will develop advanced problem solving and symbol manipulation skills. Honors/GT students will be expected to take course concepts to advanced levels of development, understanding, and justification. Honors/GT assignments and assessments will be designed to model AP exam formatting.

Course Numbers: M.0112GH | 03100700

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 3

Prerequisite: Algebra I or Honors Algebra I; may be taken concurrently with Algebra II with teacher recommendation.

Financial Mathematics

Financial mathematics is a course about personal money management. Students will apply critical-thinking skills to analyze personal financial decisions based on current and projected economic factors.

This course will integrate career and postsecondary education planning into financial decision making. Students will be encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations. **This course does not meet NCAA eligibility for student-athletes.**

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Algebra I or Honors Algebra I

Algebraic Reasoning

Students will build on the knowledge and skills for mathematics in Kindergarten - Grade 8 and Algebra 1, and deepen a foundation for studies in subsequent mathematics courses. Students will broaden their knowledge of functions and relationships, including linear, quadratic, square root, rational, cubic, cube root, exponential, absolute value, and logarithmic functions. Students will study these functions through analysis and application that includes explorations of patterns and structure, number and algebraic methods, and modeling from data using tools that build to workforce and college readiness such as probes, measurement tools, and software tools, including spreadsheets.

This course is recommended for students that need to pass the Algebra I EOC or build foundational skills prior to taking Algebra II.

This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org

Course Numbers: 0125 | 03102540

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Algebra I or Honors Algebra I

Algebra II

In Algebra II, students will build on the knowledge and skills for mathematics in Kindergarten-Grade 8 and Algebra I. Students will broaden their knowledge of quadratic functions, exponential functions, and systems of equations. Students will study logarithmic, square root, cubic, cube root, absolute value, rational functions, and their related equations. Students will connect functions to their inverses and associated equations and solutions in both mathematical and real-world situations. In addition, students will extend their knowledge of data analysis and numeric and algebraic methods.

Course Numbers: 0109 | 03100600

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Algebra I or Honors Algebra I, may be taken concurrently with Geometry with teacher recommendation.

Honors Algebra II

Honors Algebra II includes the same course of study designed for Algebra II. In addition, students will develop advanced problem solving and symbol manipulation skills. Honors students will be expected to take course concepts to advanced levels of development, understanding, and justification. Honors assignments and assessments will be designed to model AP exam formatting.

Course Numbers: M.0109H | 03100600

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 3

Prerequisite: Algebra I or Honors Algebra I, may be taken concurrently with Geometry or Honors Geometry with teacher recommendation.

Honors/GT Algebra II

Honors/GT Algebra II is designed to meet the needs of gifted students by combining Honors strategies with enhanced depth, complexity, and pacing of the Mathematics curriculum. Thinking skills, exploratory learning, and leadership qualities are promoted. Honors/GT Algebra II includes the same course of study designed for Algebra II. In addition, students will develop advanced problem solving and symbol manipulation skills. Honors/GT students will be expected to take course concepts to advanced levels of development, understanding, and justification. Honors/GT assignments and assessments will be designed to model AP exam formatting.

Course Numbers: M.0109GH | 03100600

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 3

Prerequisite: Algebra I or Honors Algebra I, may be taken concurrently with Geometry or Honors Geometry with teacher recommendation.

OnRamps Dual Enrollment College Algebra (M301) for Algebra II A and B

OnRamps College Algebra is a dual enrollment course concerned with the basic facts and techniques of algebra that are used over and over again in almost every college-level mathematics course, as well as in other courses and everyday mathematics. Students will develop a clear understanding of these concepts. Content includes the rational, real and complex number systems; the study of functions including polynomial, rational, radical, exponential, and logarithmic functions and related equations; inequalities; systems of linear equations; and sequences and counting theory. OnRamps College Algebra is a dual enrollment partnership with the University of Texas at Austin. Students must demonstrate their ability to do college level work in order for the opportunity to earn college credit during the spring semester. **See the NISD College and Career Readiness OnRamps website for more details: www.nisdtx.org/onramps.** UT Austin tuition for this course is paid to Northwest ISD. See page 39 for details. Must successfully complete TSIA math by the end of this course to be eligible to continue in OnRamps or Dual Credit after this course.

Course Numbers: M.D9109OR | 03100600

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; Algebra I and Geometry

Advanced Quantitative Reasoning

In Advanced Quantitative Reasoning, students will develop and apply skills necessary for college, careers, and life. Course content consists primarily of applications of high school mathematics concepts to prepare students to become well-educated and highly informed 21st century citizens. Students will develop and apply reasoning, planning, and communication to make decisions and solve problems in applied situations involving numerical reasoning, probability, statistical analysis, finance, mathematical selection, and modeling with algebra, geometry, trigonometry, and discrete mathematics.

Course Numbers: 0107 | 03102510

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Algebra I or Honors Algebra I, Geometry or Honors Geometry, and Algebra II or Honors Algebra II

Advanced Quantitative Reasoning Online or Off-Campus Dual Credit Opportunity

DC Contemporary Mathematics (MATH 1332) for Advanced Quantitative Reasoning A and B

DC Contemporary Mathematics (MATH 1332) for Independent Study in Math A or B

Precalculus

Precalculus is the preparation for calculus. The course approaches topics from a function point of view, where appropriate, and is designed to strengthen and enhance conceptual understanding and mathematical reasoning used when modeling and solving mathematical and real-world problems. Students systematically work with functions and their multiple representations. The study of Precalculus deepens students' mathematical understanding and fluency with algebra and trigonometry and extends their ability to make connections and apply concepts and procedures at higher levels. Students investigate and explore mathematical ideas, develop multiple strategies for analyzing complex situations, and use technology to build understanding, make connections between representations, and provide support in solving problems.

Course Numbers: 0126 | 03101100

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Algebra I or Honors Algebra I, Geometry or Honors Geometry, and Algebra II or Honors Algebra II

AP Precalculus

AP Precalculus prepares students for other college-level mathematics and science courses. Through regular practice, students build deep mastery of modeling and functions, and they examine scenarios through multiple representations. The course framework delineates content and skills common to college precalculus courses that are foundational for careers in mathematics, physics, biology, health science, social science, and data science. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible. Students can not receive credit for both AP Precalculus and OnRamps Dual Enrollment Precalculus Mathematics.

Course Numbers: M.00126AP | A3100100

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Algebra I or Honors Algebra I, Geometry or Honors Geometry, and Algebra II or Honors Algebra II

OnRamps Dual Enrollment Precalculus Mathematics (M305/MATH 2312) for Precalculus A and B

This course is a dual enrollment course through UT Austin where students learn through creation, exploration, communication and criticism under the guidance of the instructor through PBL. The course is divided into seven units, each unit consists of a series of explorations designed to engage students and empower them to develop their problem-solving skills. In each exploration students will create connections with prior concepts in developing the current topic. Precalculus OnRamps is a dual enrollment partnership with the University of Texas at Austin. Students must demonstrate their ability to do college-level work in order for the opportunity to earn college credit during the spring semester. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness OnRamps website for more details: www.nisdtx.org/onramps.** UT Austin tuition for this course is paid to Northwest ISD. See page 39 for details. Students can not receive credit for both AP Precalculus and OnRamps Dual Enrollment Precalculus Mathematics. Must successfully complete TSIA math by the end of this course to be eligible to continue in OnRamps or Dual Credit after this course.

Course Numbers: M.D9126OR | 03101100

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; Algebra II or Honors Algebra II

AP Calculus AB

AP Calculus AB is an introductory college-level calculus course. Students cultivate their understanding of differential and integral calculus through engaging with real-world problems represented graphically, numerically, analytically, and verbally and using definitions and theorems to build arguments and justify conclusions as they explore concepts like change, limits, and the analysis of functions. Learn more about this course on the [College Board website](https://collegeboard.org/ap-calculus-ab). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible. Concurrent enrollment in AP Calculus AB and AP Calculus BC is not permitted. Students who have earned credit in AP Calculus BC have met the standards for this course and are not eligible for enrollment.

Course Numbers: 0117A | A3100101

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Precalculus or Honors/AP Precalculus

Precalculus Online or Off-Campus Dual Credit Opportunity

See page 221 for more information about this opportunity.

DC Precalculus Mathematics (MATH 2412) for Precalculus A and B

AP Calculus BC

AP Calculus BC is an introductory college-level calculus course. Students cultivate their understanding of differential and integral calculus through engaging with real-world problems represented graphically, numerically, analytically, and verbally and using definitions and theorems to build arguments and justify conclusions as they explore concepts like change, limits, and the analysis of functions. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible. Concurrent enrollment in AP Calculus AB and AP Calculus BC is not permitted.

Course Numbers: 0119A | A3100102

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Precalculus or Honors/AP Precalculus

Multivariable Calculus

This course is designed as an additional math course for those students who have successfully completed AP Calculus BC and have an interest in continuing their mathematical studies while in high school. Multivariable Calculus takes the concepts learned in the single variable calculus course and extends them to multiple dimensions. Topics discussed include: vector algebra; applications of the dot and cross product; equations of lines, planes, and surfaces in space; converting between rectangular, cylindrical, and spherical coordinates; continuity, differentiation, and integration of vector-valued functions; application of vector-valued functions such as curvature, arc length, speed, velocity, and acceleration; continuity, limits, and derivatives of multivariable functions, tangent planes and normal lines of surfaces; applying double and triple integrals to multivariable functions to find area, volume, surface area, mass, center of mass, and moments of inertia; vector fields; finding curl and divergence of vector fields; line integrals; conservative vector fields, conservation of energy; Green's Theorem; parametric surfaces, including normal vectors, tangent planes, and areas; orientation of a surface; Divergence Theorem; and Stokes's Theorem. There is no Advanced Placement test or other college credit associated with this course.

Course Numbers: M.0118 | N1110018

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 4

Prerequisite: AP Calculus BC

AP Statistics

AP Statistics is an introductory college-level statistics course that introduces students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Students cultivate their understanding of statistics using technology, investigations, problem solving, and writing as they explore concepts like variation and distribution; patterns and uncertainty; and data-based predictions, decisions, and conclusions. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible. Students can not receive credit for both AP Statistics and OnRamps Dual Enrollment Elementary Statistical Methods.

Course Numbers: 0128A | A3100200

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Algebra II or Honors Algebra II

OnRamps Dual Enrollment Elementary Statistical Methods (SDS 302/MATH 1342) for Independent Study in Math A and B

OnRamps Statistics is a dual enrollment data analysis course for high school juniors and seniors seeking to develop the quantitative reasoning skills and habits of mind necessary to succeed in the higher education environment. This course will focus on simulation to support understanding of high-level concepts including lessons on experimental design and a high school research poster project to provide hands-on practical understanding opportunities. Statistics OnRamps is a dual enrollment partnership with the University of Texas at Austin. Students must demonstrate their ability to do college-level work in order for the opportunity to earn college credit during the spring semester. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness OnRamps website for more details: www.nisdtx.org/onramps.** UT Austin tuition for this course is paid to Northwest ISD. See page 39 for details. Students can not receive credit for both AP Statistics and OnRamps Dual Enrollment Elementary Statistical Methods. Must successfully complete TSIA math by the end of this course to be eligible to continue in OnRamps or Dual Credit after this course.

Course Numbers: M.D928OR | 03102501

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; Algebra II or Honors Algebra II

Strategic Learning for High School Mathematics

This course is intended to create strategic mathematical learners from under-prepared mathematics students. The basic understandings will stimulate students to think about their approach to mathematical learning. These basic understandings will include identifying errors in the teaching and learning process, input errors, physiological concerns, and key cognitive skills. The essential knowledge and skills will foster a deeper understanding of the task of learning mathematical concepts, including and targeting the concepts in the Algebra 1 curriculum. Use of personal data and statistical analysis will establish relevance and aid in creation of individualized learning plans (ILP's). This course will not count for a required high school math credit; however, students will receive an elective credit upon successful completion.

Recommended for students currently enrolled in Algebra I.

Course Numbers: M.1029 | N1110030

Credits: 1 (Elective)

Grade Placement: 9-10

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Grade Placement Committee

Algebra I Lab

The Algebra 1 Math Lab is designed to support students in meeting individual math goals necessary for achieving success in Algebra 1 and on the Algebra 1 EOC. Consecutive semester enrollment is recommended.

Course Number: LC.0104L

Credits: .5 - 1 (Local)

Grade Placement: See prerequisites

Semesters: 1 - 2

Weighted GPA: NA

Prerequisite: Administration approval required

Manufacturing Engineering Technology II

Students will reinforce, apply, and transfer knowledge and skills to develop systems using electrical controls and pneumatics or hydraulics devices, troubleshoot programmable logic controls for robot systems and develop a product on a CNC machine/lathe. Coursework will include using mathematical processes to analyze mathematical relationships, communicate ideas, and justify mathematical ideas/arguments using precise language in both written and oral communication. Students will have the opportunity to FANUC Robot Operator I Certification. This course counts as a Math credit. **This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org.**

Course Numbers: CT.4106 | 13032950

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 2

Required Prerequisite: Manufacturing Engineering Technology I

Recommended prerequisite: Algebra II, Computer Science I, or Physics

College Preparatory Mathematics

Topics include real numbers, basic geometry, polynomials, factoring, linear equations, inequalities, quadratic equations, rational expressions, factoring techniques, radicals, algebraic fractions, complex numbers, graphing linear equations and inequalities, quadratic equations, systems of equations, graphing quadratic equations and an introduction to functions. Emphasis is placed on algebraic techniques, in order to successfully complete an entry-level college mathematics course. This course is not a dual enrollment course, but meeting the course requirements and successfully receiving credit will help prepare students to meet the TSIA-2 requirements in mathematics for TCC for the next year.

Course Numbers: 0085 | CP111200

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Three years of high school mathematics courses

Independent Study in Math Online or Off-Campus Dual Credit Opportunities

Mathematical Models with Applications

Mathematical Models with Applications is designed to build on the knowledge and skills for mathematics in Kindergarten-Grade 8 and Algebra I. Students learn to apply mathematics through experiences in personal finance, science, engineering, fine arts, and social sciences. Students use algebraic, graphical, and geometric reasoning to recognize patterns and structure, model information, solve problems, and communicate solutions. In Mathematical Models with Applications, students will use a mathematical modeling cycle to analyze problems, understand problems better, and improve decisions. A basic mathematical modeling cycle includes identifying essential features of a problem and formulating a model that describes relationships; analyzing and performing operations to draw conclusions; interpreting the results of the mathematics; confirming conclusions by comparing and revising as necessary; and reporting on the conclusions and the reasoning behind the conclusions.

Course Numbers: 0108 | 03102400

Credits: 1

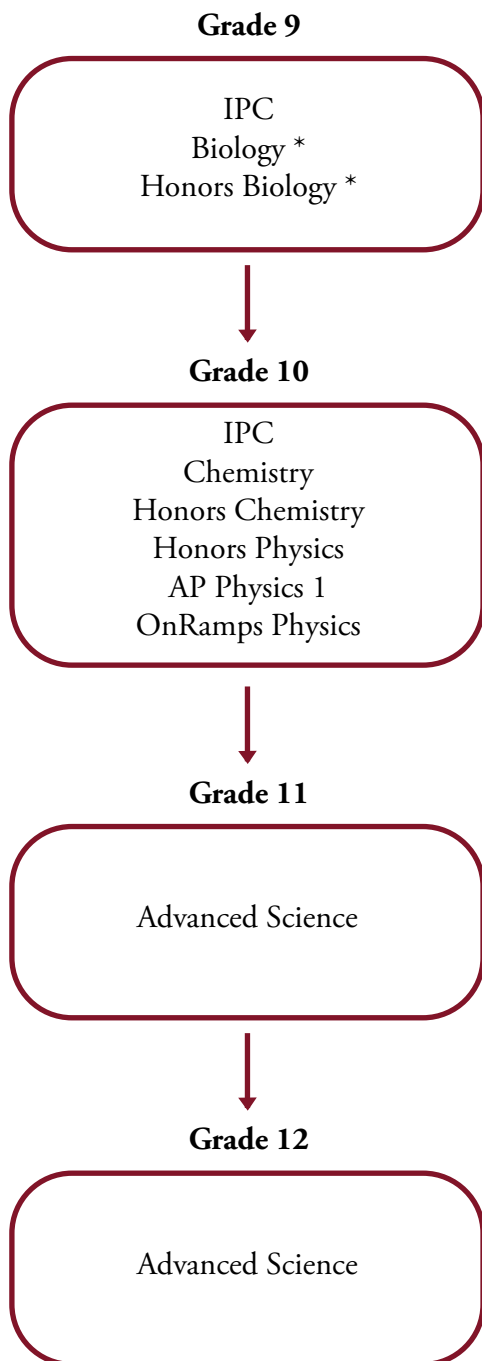

Grade Placement: 10-11

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Algebra I. This course must be taken before receiving credit for Algebra II.

SCIENCE COURSES

Integrated Physics and Chemistry

Integrated Physics and Chemistry (IPC) is the study of physical and chemical interactions of matter. Semester I covers introductory concept in Physics, while Semester II covers introductory concepts in Chemistry. This course provides an excellent foundation in science for students who are not pursuing a STEM endorsement and need to build capacity in science. **This course may not be taken after the completion of chemistry or physics.**

Course Numbers: 0214 | 03060201

Credits: 1

Grade Placement: 9-10

Semesters: 2

Weighted GPA: Level 2

Prerequisite: None

Biology

Biology is the study of the structure, growth, and function of the life systems of organisms. Students learn the basics of structures and functions of living things and how those structures and functions change. Data collection and analysis is a key skill emphasized in Biology in preparation for the End of Course (EOC) Exam that is required for graduation.

Course Numbers: 0205 | 03010200

Credits: 1

Grade Placement: 9-10

Semesters: 2

Weighted GPA: Level 2

Prerequisite: None

Honors Biology

Biology is the study of the structure, growth, and function of the life systems of organisms. Students learn the basics of structures and functions of living things and how those structures and functions change. Data collection and analysis is a key skill emphasized in Biology in preparation for the End of Course (EOC) Exam that is required for graduation. This course will have an emphasis on lab experiences that provide opportunities for students to engage in gathering and processing complex data in order to produce high quality technical conclusions based on that data. Additional emphasis is placed on technical writing.

Course Numbers: SC.0205H | 03010200

Credits: 1

Grade Placement: 9-10

Semesters: 2

Weighted GPA: Level 3

Prerequisite: None

Chemistry

Chemistry is the study of the composition of substances and the changes they undergo. Chemistry focuses on the skills of gathering and analyzing both qualitative (observational) and quantitative (numerical) data. A conceptual understanding of fundamental mathematical concepts is needed for this course as the same type of thinking is required.

Course Numbers: 0207 | 03040000

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Biology or Honors Biology, and Algebra I or Honors Algebra I

Honors Chemistry

Honors Chemistry includes an in-depth study of basic concepts taught in Chemistry with emphasis on problem solving and laboratory. Honors Chemistry provides students opportunities to engage in higher level lab experiences that emphasize collection and analysis of complex data in order to produce high quality technical conclusions based on the data. Additional emphasis is placed on technical writing.

Course Numbers: SC.0207H | 03040000

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 3

Prerequisite: Biology or Honors Biology, and Algebra I or Honors Algebra I.

Recommended Prerequisite: Completion or concurrent enrollment in Honors Geometry, Algebra II or Honors Algebra II

Chemistry Online or Off-Campus Dual Credit Opportunities

See page 221 for more information about these opportunities.

Endorsed (IHE) B**

Honors Physics

Honors physics explores the intricate connections between matter and energy, challenging students with advanced problem-solving scenarios and data analysis exercises. Beyond the fundamentals, we explore real-world applications, incorporating state-of-the-art data collection devices to provide students with a comprehensive understanding of physics in the modern world. This course is designed for students with a strong math background.

Course Numbers: SC.0209H | 03050000

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 3

Prerequisite: Biology or Honors Biology, and Algebra I or Honors Algebra I

Recommended Prerequisite: Concurrent enrollment in Precalculus

**DC College Physics II (PHYS 1402)
for Science, Institute of Higher Education
Endorsed (IHE) B**

AP Biology

AP Biology is an introductory college-level biology course. Students cultivate their understanding of biology through inquiry-based investigations as they explore topics like evolution, energetics, information storage and transfer, and system interactions. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible.

Course Numbers: 0205A | A3010200

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Biology or Honors Biology, and Chemistry, Honors Chemistry, or concurrent enrollment in Chemistry or Honors Chemistry

AP Physics 1

AP Physics 1 is an algebra-based, introductory college-level physics course. Students cultivate their understanding of physics through classroom study, in-class activity, and hands-on, inquiry-based laboratory work as they explore concepts like systems, fields, force interactions, change, and conservation. This course is ideal for students wishing to pursue science-related majors/careers. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible.

Course Numbers: 0217A | A3050003

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Algebra II, Honors Algebra II, or concurrent enrollment in Algebra II; it is strongly recommended that Algebra II be completed as concurrent enrollment can create inconsistencies in skills needed for success.

AP Physics C: Mechanics

AP Physics C: Mechanics is a calculus-based, college-level physics course, especially appropriate for students planning to specialize or major in one of the physical sciences or engineering. Students cultivate their understanding of physics through classroom study and activities as well as hands-on laboratory work as they explore concepts like change, force interactions, fields, and conservation. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible.

Course Numbers: 0215A | A3050006

Credits: 1

Grade Placement: 11-12

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Honors/AP Precalculus or concurrent enrollment in Honors/AP Precalculus; it is strongly recommended to have credit or be concurrently enrolled in AP Calculus AB or BC.

AP Physics C: Electricity and Magnetism

AP Physics C: Electricity and Magnetism is a calculus-based, college-level physics course, especially appropriate for students planning to specialize or major in one of the physical sciences or engineering. Students cultivate their understanding of physics through classroom study and activities as well as hands-on laboratory work as they explore concepts like change, force interactions, fields, and conservation. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible.

Course Numbers: 0219A | A3050005

Credits: 1

Grade Placement: 12

Semesters: 2

Weighted GPA: Level 4

Prerequisite: AP Physics C: Mechanics credit or concurrent enrollment in AP Physics C: Mechanics and AP Calculus BC

OnRamps Physics Dual Enrollment Physics (PHY 302K/PHYS 1301)

OnRamps Physics is a dual enrollment course that focuses on mechanics, heat, and sound aspects of Physics during the first semester and completes the requirements of a general physics technical I course. OnRamps Physics is dual enrollment partnership with the University of Texas at Austin. Students must demonstrate their ability to do college level work during the fall semester in order for the opportunity to earn college credit during the spring semester.

See the NISD College and Career Readiness OnRamps website for more details: www.nisdtx.org/onramps. UT Austin tuition for this course is paid to Northwest ISD. See page 39 for details.

OnRamps Physics Dual Enrollment Physics (PHY 302K/PHYS 1301) for Physics A and B

Course Numbers: SC.D921OR | 03050000

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; Algebra I, Geometry, Recommended: Algebra II or Precalculus

OnRamps Physics Dual Enrollment Physics (PHY 302K/PHYS 1301) for IHE A and B

Course Numbers: SC.D931OR | IHE11200

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; Algebra I, Geometry, Recommended: Algebra II or Precalculus

AP Chemistry

AP Chemistry is an introductory college-level chemistry course. Students cultivate their understanding of chemistry through inquiry-based lab investigations as they explore the four Big Ideas: scale, proportion, and quantity; structure and properties of substances; transformations; and energy. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible.

Course Numbers: 0207A | A3040000

Credits: 1

Grade Placement: 11-12

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Honors Chemistry, and Algebra II or Honors Algebra II

AP Environmental Science

Students cultivate their understanding of the interrelationships of the natural world through inquiry-based lab investigations and field work as they explore concepts like the four Big Ideas; energy transfer, interactions between earth systems, interactions between different species and the environment, and sustainability. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible.

Course Numbers: 0212A | A3020000

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Algebra I and two years of science courses, preferably Biology or Honors Biology, and Chemistry or Honors Chemistry, or concurrent enrollment

Advanced Animal Science

Students will learn, reinforce, apply, and transfer their knowledge and skills in a variety of settings. This course examines the correspondence of human, scientific, and technological aspects of animal science through field and laboratory experience. Students must meet the 40% laboratory and fieldwork requirement. This course satisfies a high school science graduation requirement and will be included in the calculation of the weighted GPA.

This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org

Course Numbers: 08182 | 13000700

Credits: 1

Grade Placement: 11-12

Semesters: 2

Weighted GPA: Level 2

Required Prerequisite: Biology and Chemistry or Integrated Physics and Chemistry (IPC); Algebra I and Geometry; and Livestock Production

Recommended Prerequisite: Veterinary Medical Applications

Anatomy and Physiology

Anatomy and Physiology is designed for students interested in biological, medical, and health oriented programs. Students will study the structures and functions of the human body. The body's systems will be investigated as to the body's responses to forces, maintenance of homeostasis, electrical interactions, transport systems, and energy systems. The topics will be presented through an integration of biology, chemistry, and physics. In this laboratory course, the students conduct laboratory investigations, perform dissections, use scientific methods during investigations, and make informed decisions using critical thinking and problem solving. This course satisfies a high school science graduation requirement and will be included in the calculation of the weighted GPA.

Course Numbers: 0211 | 13020600

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Biology or Honors Biology, and a second science credit; a course from the Health Science Career Cluster is recommended.

Anatomy and Physiology Online or Off-Campus Dual Credit Opportunities

See page 221 for more information about these opportunities.

**DC Anatomy and Physiology (BIOL 2401)
for Anatomy and Physiology A**

**DC Anatomy and Physiology (BIOL 2402)
for Anatomy and Physiology B**

Astronomy

In Astronomy, students conduct laboratory and field investigations, apply scientific methods, and make informed decisions through critical thinking. They explore topics such as astronomy's historical significance, celestial patterns, our place in space, the moon, seasonal variations, planets, the sun, stars, galaxies, cosmology, and space exploration. Completing the Astronomy course equips students with a solid knowledge framework, observational skills, collaborative experience, and enhanced critical thinking.

Course Numbers: SC.0203 | 03060100

Credits: 1

Grade Placement: 11-12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Algebra I and Integrated Physics and Chemistry or Chemistry.

Environmental Systems

Environmental Systems is a laboratory course covering basic principles of ecology, energy, and the environment. Topics include local environmental systems, source and energy flow, populations and environmental changes. Decision making relating to the balance of nature and the impact of man will also be addressed.

Course Numbers: 0213 | 03020000

Credits: 1

Grade Placement: 11-12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Biology and IPC, Chemistry, or Physics

Environmental Systems Online or Off-Campus Dual Credit Opportunity

See page 221 for more information about this opportunity.

DC Environmental Biology (BIOL 2406) for Environmental Systems A and B

Forensic Science

Forensic Science is a course that introduces students to the application of science to connect a violation of law to a specific criminal, criminal act, or behavior and victim. Students will learn terminology and procedures related to the search and examination of physical evidence in criminal cases as they are performed in a typical crime laboratory. Using scientific methods, students will collect and analyze evidence such as fingerprints, bodily fluids, hairs, fibers, paint, glass, and cartridge cases. Students will also learn the history and the legal aspects as they relate to each discipline of forensic science. This course satisfies a high school science graduation requirement and will be included in the calculation of the weighted GPA. This course is offered in blended format and may not be available on all campuses. Check with your campus counselor for availability.

Course Numbers: 08591 | 13029500

Blended Course Numbers: CT.B08591 | 13029500

Credits: 1

Grade Placement: 11-12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Biology or Honors Biology and Chemistry or Honors Chemistry

Scientific Research and Design Science, Technology, Engineering, and Mathematics

In this PLTW course, students investigate and design solutions in response to real-world challenges related to clean and abundant drinking water, food supply, and renewable energy. This course satisfies a high school science graduation requirement and will be included in the calculation of the weighted GPA.

SRD-BL-STEM

Course Numbers: CT.B418AC | 13037200

Credits: 1

Grade Placement: 11-12

Semesters: 2

Weighted GPA: Level 2

Required Prerequisite: PLTW IED; Academy facilitator approval; Biology, Chemistry, Integrated Physics and Chemistry (IPC), or Physics

** See Online or Off-Campus Dual Credit Opportunities

SOCIAL STUDIES COURSES

World Geography Studies

It is recommended to participate in this course during the 9th grade year. The scope of this course will include physical, economic, and cultural geography. Emphasis will be placed on understanding the impact that environment has on the social, cultural, and economic life of a region. Stressed also will be an examination of uses, abuses, and preservation of natural resources and the physical environment.

Course Numbers: 0302 | 03320100

Credits: 1

Grade Placement: 9

Semesters: 2

Weighted GPA: Level 2

Prerequisite: None

Honors World Geography Studies

Students in Honors World Geography study the physical, economic, environmental, and cultural aspects of geography in greater depth and complexity. There will be an emphasis on critical thinking, problem solving, essay writing, and analytical reading of primary as well as secondary source documents. Students will participate in collaborative groups and class presentations that focus on developing communication and higher-level thinking skills.

Course Numbers: SS.0302H | 03320100

Credits: 1

Grade Placement: 9

Semesters: 2

Weighted GPA: Level 3

Prerequisite: None

AP or AP/GT Human Geography

AP Human Geography is an introductory college-level human geography course. Students cultivate their understanding of human geography through data and geographic analyses as they explore topics like patterns and spatial organization, human impacts and interactions with their environment, and spatial processes and societal changes. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible.

Course Numbers: 0322A | A3360100

GT Course Number: 0322G | A3360100

Credits: 1

Grade Placement: 9-12

Semesters: 2

Weighted GPA: Level 4

Prerequisite: None

World History Studies

It is recommended to participate in this course during the 10th grade year. Beginning with the ancient river valley civilizations. World History traces the development of both Western and non-Western cultures. Throughout the study, an emphasis is placed upon the role of geography in shaping history. The course culminates with a study of developments in the world during the 20th century beginning with the world wars and ending with the problems of the 21st century.

Course Numbers: 0303 | 03340400

Credits: 1

Grade Placement: 10

Semesters: 2

Weighted GPA: Level 2

Prerequisite: None

Honors World History Studies

Beginning with the ancient river valley civilizations. World History traces the development of both Western and non-Western cultures. Throughout the study, an emphasis is placed upon the role of geography in shaping history. The course culminates with a study of developments in the world during the 20th century beginning with the world wars and ending with the problems of the 21st century. There will be an emphasis on critical thinking, problem solving, essay writing, and analytical reading of primary as well as secondary source documents. Students will participate in collaborative groups and class presentations that focus on developing communication and higher level thinking skills.

Credits: 1

Grade Placement: 10

Semesters: 2

Weighted GPA: Level 3

Prerequisite: None

AP or AP/GT World History

AP World History: Modern is an introductory college-level modern world history course. Students cultivate their understanding of world history from c. 1200 CE to the present through analyzing historical sources and learning to make connections and craft historical arguments as they explore concepts like humans and the environment, cultural developments and interactions, governance, economic systems, social interactions and organization, and technology and innovation. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible.

Course Numbers: 0303A | A3370100

GT Course Numbers: 0303G | A3370100

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 4

Prerequisite: It is recommended to have credit for World Geography, Honors World Geography, or AP Human Geography.

United States History Studies since Reconstruction

It is recommended to participate in this course during the 11th grade year. Beginning with the ancient river valley civilizations, World History traces the development of both Western and non-Western cultures. Throughout the study, an emphasis is placed upon the role of geography in shaping history. The course culminates with a study of developments in the world during the 20th century beginning with the world wars and ending with the problems of the 21st century.

Course Numbers: 0301 | 03340100

Credits: 1

Grade Placement: 11

Semesters: 2

Weighted GPA: Level 2

Prerequisite: It is recommended to have credit for World Geography, Honors World Geography, or AP Human Geography and/or World History or AP World History.

AP or AP/GT United States History

AP United States History is a college-level history AP U.S. History is an introductory college-level U.S. history course. Students cultivate their understanding of U.S. history from c. 1491 CE to the present through analyzing historical sources and learning to make connections and craft historical arguments as they explore concepts like American and national identity; work, exchange, and technology; geography and the environment; migration and settlement; politics and power; America in the world; American and regional culture; and social structures. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible.

Course Numbers: 0301A | A3340100

GT Course Numbers: 0301G | A3340100

Credits: 1

Grade Placement: 11

Semesters: 2

Weighted GPA: Level 4

Prerequisite: It is recommended to have credit for World Geography, Honors World Geography, or AP Human Geography and/or World History or AP World History.

**OnRamps Dual Enrollment US History
(HIS 315K/HIST 1301 in the fall and
HIS 315L/HIST 1302 in the spring)
for US History A and B**

US History OnRamps dual enrollment through UT Austin will provide students the opportunity to attempt college-level work in the study of the History of the United States. Students will experience the curricular expectations, writing requirements and study of American history in the same coursework as students enrolled at UT Austin but with the course support of NISD instructors. US History OnRamps is a dual enrollment partnership with the University of Texas at Austin. Students must demonstrate their ability to do college-level work in order for the opportunity to earn college credit during the spring semester. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness OnRamps website for more details: www.nisdtx.org/onramps.** UT Austin tuition for this course is paid to Northwest ISD. See page 39 for details.

Course Numbers: SS.D903OR | 03340100

Credits: 1

Grade Placement: 11

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval

US Government

This course is designed to explain the foundations, developments, structures, and functions of the United States political system. Students will be provided opportunities to compare types of governments and reasons for their establishment. Students will study the evolution of the government, the United States Constitution, the Bill of Rights, and important Supreme Court decisions. In US Government courses, students will complete requirements for Instruction on Proper Interaction with Peace Officers (TAC), §74.39.

Course Numbers: 0304 | 03330100

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 2

Prerequisite: United States History Studies since Reconstruction or AP United States History, or concurrent enrollment.

AP or AP/GT US Government and Politics

AP U.S. Government and Politics is an introductory college-level course in U.S. government and politics. Students cultivate their understanding of U.S. government and politics through analysis of data and text-based sources as they explore topics like constitutionalism, liberty and order, civic participation in a representative democracy, competing policy-making interests, and methods of political analysis. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible. In all AP US Government courses, students will complete requirements for Instruction on Proper Interaction with Peace Officers (TAC), \$74.39 in the spring semester.

Course Numbers: 0304A | A3330100

GT Course Numbers: SS.G0304A | A3330100

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: United States History Studies since Reconstruction or AP United States History, or concurrent enrollment.

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal and college approval; Algebra II recommended

Personal Financial Literacy and Economics

The Personal Financial Literacy and Economics Course emphasizes the economic way of thinking, which serves as a framework for the personal financial decision-making opportunities introduced in the course. Students will demonstrate the ability to anticipate and address financial challenges as these challenges occur over their lifetime. In addition, students are introduced to common economic and personal financial planning terms and concepts. As a result of learning objective concepts and integrating subjective information, students gain the ability to lead productive and financially self-sufficient lives.

This course does not meet NCAA eligibility for student-athletes. For more information visit eligibilitycenter.org.

FINE ARTS

Physical Education Substitutions - Several courses that include physical activities may be substituted for the one required unit of PE. These courses are Athletics, Drill Team, Cheerleading, Dance I and/or Marching Band, Technical Theatre II and Musical Theatre I. See specific course for further information.

Art

Art I

Art I is an introduction to the use of the elements and principles of design, and the different materials used for self-expression. The student will be given opportunities to design and create original works of art. This course may require an Art fee.

Course Numbers: 0411 | 03500100

Credits: 1 Fine Art

Grade Placement: 9-12

Semesters: 2

Prerequisite: None

Art Online or Off-Campus Dual Credit Opportunity

See page 221 for more information about this opportunity.

DC Art Appreciation (ARTS 1301) for Art I, Appreciation

Art II, Drawing I (2D Drawing/Painting/Mixed Media)

This course is a continuation of the use of the elements and principles of design. Students will be provided an opportunity to work in drawing, painting, mixed media, and more while gaining an understanding of self and others through creative expression. This course may require an Art fee.

Course Numbers: 0412 | 03500500

Credits: 1 Fine Art

Grade Placement: 9-12

Semesters: 2

Prerequisite: Art I

Art II, Ceramics I (3D Ceramics/Sculpture)

This course is a continuation of the use of the elements and principles of design in three dimensional issues. Students will be provided an opportunity to work in ceramics, sculpture, and three dimensional mixed media while gaining an understanding of self and others through creative expression. This course may require an Art fee.

Course Numbers: 0420 | 03500900

Credits: 1 Fine Art

Grade Placement: 9-12

Semesters: 2

Prerequisite: Art I

Art III, Drawing II (2D Design/Drawing/Painting/Mixed Media)

In this course students will demonstrate their abilities to work on a wide variety of drawing/design problems. This course may require an Art fee.

Course Numbers: 0414 | 03501300

Credits: 1 Fine Art

Grade Placement: 10-12

Semesters: 2

Prerequisite: Art II, Drawing I

Art III, Ceramics II (3D Design/Ceramics/Sculpture)

This course is a continuation of the use of the elements and principles of design in three dimensional issues. Students will be provided an opportunity to work in ceramics, sculpture, and three dimensional mixed media while gaining an understanding of self and others through creative expression. This course may require an Art fee.

Course Numbers: 0417 | 03501800

Credits: 1 Fine Art

Grade Placement: 10-12

Semesters: 2

Prerequisite: Art II, Ceramics I

Art IV, Drawing III (2D Design/Drawing/Painting/Mixed Media)

This course is a continuation of the use of the elements and principles of design. Students will demonstrate advanced abilities through work in drawing, painting, mixed media, and creative expression.

Course Numbers: FA.0776 | 03502300

Credits: 1 Fine Art

Grade Placement: 11-12

Semesters: 2

Prerequisite: Art III, Drawing II

Art IV, Ceramics III (3D Design/Ceramics/Sculpture)

This course is a continuation of the use of the elements and principles of design in three dimensional issues. Students will be provided an advanced opportunity to work in ceramics, sculpture, and three dimensional mixed media.

Course Numbers: FA.0777 | 03502700

Credits: 1 Fine Art

Grade Placement: 11-12

Semesters: 2

Prerequisite: Art III, Ceramics II

AP Studio Art: 2D Design (AP 2-D Art and Design)

AP 2-D Art and Design is an introductory college-level two-dimensional design course. Students refine and apply 2-D skills to ideas they develop throughout the course. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible. This course may require an Art fee.

Course Numbers: 0413A | A3500400

Credits: 1 Fine Art

Grade Placement: 10-12

Semesters: 2

Recommended Prerequisite: Art II: 2D Drawing/Painting/Mixed Media

AP Studio Art: Drawing (AP Drawing)

AP Drawing is an introductory college-level drawing course. Students refine and apply drawing skills to ideas they develop throughout the course. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible. This course may require an Art fee.

Course Numbers: 0415A | A3500300

Credits: 1 Fine Art

Grade Placement: 10-12

Grade Placement: 10-12

Semesters: 2

Recommended Prerequisite: Art II: 2D Drawing/
Painting/Mixed Media or Art II: 3D Ceramics/
Sculpture

Floral Design I

This course is designed to develop students' ability to identify and demonstrate the principles and techniques related to floral design as well as develop an understanding of the management of floral enterprises. This course satisfies the graduation requirement for Fine Arts. This course will equip students to take the Texas State Florist's Association Floral Skills Knowledge Based Certification and the Texas State Floral Association Student Certification Floral Design Level I.

Course Numbers: 0827 | 13001800

Credits: 1

Grade Placement: 10-12

Semesters: 2

Recommended Prerequisite: Principles of Agriculture, Food, and Natural Resources

Certification: Texas State Florist's Association Floral Skills Knowledge Based Certification, Texas State Floral Association Student Certification Floral Design Level I

Band

Band I, II, III and IV

Through large group, small group, and individual instruction, students are taught instrumental technique, creative self-expression, perception skills, and historical/cultural heritage in a performance-based classroom. Enrollment in this class requires full participation in marching band, summer band camp, early morning and evening rehearsals, and extracurricular performances (football games, marching contests, parades, etc.). Students' grades are based on musical performance on their instrument. UIL also requires a physical prior to participation in marching band.

Band I

Students receive .5 Physical Education credit (fall semester only), and 1 Fine Arts credit. The Physical Education credit will be awarded on a Pass/Fail basis. An audition is required for class placement.

Course Numbers: 0421 | 03150100

Credits: 1 Fine Art and .5 Physical Education

Grade Placement: 9-12

Semesters: 2

Prerequisite: Previous band experience required.

Band II

Students receive .5 Physical Education credit (fall semester only), and 1 Fine Arts credit. The Physical Education credit will be awarded on a Pass/Fail basis.

Course Numbers: 0422 | 03150200

Credits: 1 Fine Art and .5 Physical Education

Grade Placement: 10-12

Semesters: 2

Prerequisite: Band I

Band III

Course Numbers: 0423 | 03150300

Credits: 1 Fine Art

Grade Placement: 11-12

Semesters: 2

Prerequisite: Band II

Band IV

Course Numbers: 0424 | 03150400

Credits: 1 Fine Art

Grade Placement: 12

Semesters: 2

Prerequisite: Band III

Jazz Band I, II, III and IV

Jazz Band is an advanced level performance oriented instrumental ensemble. The course content provides for reinforcement of the Texas Essential Knowledge and Skills for band. Special emphasis is placed on jazz styles and rhythms and other similarly related musical idioms. The study of improvisation, music theory and history are a vital part of the stage band curriculum. After-school rehearsals and performances as scheduled by the director are required.

Credits: 1 Fine Art

Grade Placement: 9-12

Semesters: 2

Prerequisite: An audition and concurrent enrollment in band or orchestra required (exceptions to this requirement are only made for students who play electric bass, guitar or piano).

Jazz Ensemble II (Jazz Band II)

Course Numbers: 0432 | 03151400

Credits: 1 Fine Art

Grade Placement: 10-12

Semesters: 2

Prerequisite: Jazz Band I and concurrent enrollment in band or orchestra required (exceptions to this requirement are only made for students who play electric bass, guitar or piano).

Jazz Ensemble III (Jazz Band III)

Course Numbers: 0433 | 03151500

Credits: 1 Fine Art

Grade Placement: 11-12

Semesters: 2

Prerequisite: Jazz Band II and concurrent enrollment in band or orchestra required (exceptions to this requirement are only made for students who play electric bass, guitar or piano).

Jazz Ensemble IV (Jazz Band IV)

Course Numbers: 0434 | 03151600

Credits: 1 Fine Art

Grade Placement: 12

Semesters: 2

Prerequisite: Jazz Band III and concurrent enrollment in band or orchestra required (exceptions to this requirement are only made for students who play electric bass, guitar or piano).

Instrumental Ensemble I, II, III and IV

Through large group, small group, and individual instruction, students are taught instrumental technique through the performance of a variety of instrumental literature. Students will perform at concerts, solo and ensemble contests, as well as community events.

Instrumental Ensemble I

Course Numbers: 0465 | 03151700

Credits: 1 Fine Art

Grade Placement: 9-12

Semesters: 2

Prerequisite: An audition and concurrent enrollment in band or orchestra required.

Instrumental Ensemble II

Course Numbers: 0466 | 03151800

Credits: 1 Fine Art

Grade Placement: 10-12

Semesters: 2

Prerequisite: Instrumental Ensemble I and concurrent enrollment in band or orchestra required.

Instrumental Ensemble III

Course Numbers: 0467 | 03151900

Credits: 1 Fine Art

Grade Placement: 11-12

Semesters: 2

Prerequisite: Instrumental Ensemble II and concurrent enrollment in band or orchestra required.

Instrumental Ensemble IV

Course Numbers: 0468 | 03152000

Credits: 1 Fine Art

Grade Placement: 12

Semesters: 2

Prerequisite: Instrumental Ensemble III and concurrent enrollment in band or orchestra required.

AP Music Theory

AP Music Theory is an introductory college-level music theory course. Students cultivate their understanding of music theory through analyzing performed and notated music as they explore concepts like pitch, rhythm, form, and musical design. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible.

Course Numbers: 0460A | A3150200

Credits: 1 Fine Art

Grade Placement: 9-12

Semesters: 2

Prerequisite: Students must be able to read and write basic music notation and have basic skills in voice or instrument. Must be taken concurrently with a band, choir or orchestra class.

Color Guard I, II, III and IV

Students are taught the fundamentals of dance, flags, and rifles in preparation for performance with the marching band. Students enrolling in this class must be available outside of school rehearsals, all marching performances, football games and competitions as scheduled by the band department.

Band I (Color Guard I)

Students receive .5 Physical Education credit and .5 Fine Arts credit. The Physical Education credit will be awarded on a Pass/Fail basis.

Course Numbers: 04351 | 03150100

Credits: .5 Fine Art and .5 Physical Education

Grade Placement: 9-12

Semesters: 1 (fall only)

Prerequisite: Audition required

Band II (Color Guard II)

Students receive .5 Physical Education credit and .5 Fine Arts credit. The Physical Education credit will be awarded on a Pass/Fail basis.

Course Numbers: 04361 | 03150200

Credits: .5 Fine Art and .5 Physical Education

Grade Placement: 10-12

Semesters: 1 (fall only)

Prerequisite: Color Guard I

Band III (Color Guard III)

Course Numbers: 04371 | 03150300

Credits: .5 Fine Art

Grade Placement: 11-12

Semesters: 1 (fall only)

Prerequisite: Color Guard II

Band IV (Color Guard IV)

Course Numbers: 04381 | 03150400

Credits: .5 Fine Art

Grade Placement: 12

Semesters: 1 (fall only)

Prerequisite: Color Guard III

Winter Guard I, II, III and IV

Students are taught the fundamentals of dance, flags, and rifles in preparation for Winter Guard competitions and performances. Students enrolling in this class must be available for competitions and after school rehearsals as scheduled by the Winter Guard instructor.

Band I (Winter Guard I)

Course Numbers: 04352 | 03150100

Credits: .5 Fine Art

Grade Placement: 9-12

Semesters: 1 (spring only)

Prerequisite: Audition required

Band II (Winter Guard II)

Course Numbers: 04362 | 03150200

Credits: .5 Fine Art

Grade Placement: 10-12

Semesters: 1 (spring only)

Prerequisite: Winter Guard I

Band III (Winter Guard III)

Course Numbers: 04372 | 03150300

Credits: .5 Fine Art

Grade Placement: 11-12

Semesters: 1 (spring only)

Prerequisite: Winter Guard II

Band IV (Winter Guard IV)

Course Numbers: 04382 | 03150400

Credits: .5 Fine Art

Grade Placement: 12

Semesters: 1 (spring only)

Prerequisite: Winter Guard III

Choir

Choir I, II, III and IV

This choir is open to any interested student. Members of this performing group will study basic singing technique and music reading skills. The variety of music performed will provide students' knowledge of music in a historical and cultural context. Students will be required to participate in three major concerts during the school year.

Choir I

Course Numbers: 0441 | 03150900

Credits: 1 Fine Art

Grade Placement: 9-12

Semesters: 2

Prerequisite: None

Choir II

Course Numbers: 0442 | 03151000

Credits: 1 Fine Art

Grade Placement: 10-12

Semesters: 2

Prerequisite: Choir I

Choir III

Course Numbers: 0443 | 03151100

Credits: 1 Fine Art

Grade Placement: 11-12

Semesters: 2

Prerequisite: Choir II

Choir IV

Course Numbers: 0444 | 03151200

Credits: 1 Fine Art

Grade Placement: 12

Semesters: 2

Prerequisite: Choir III

Vocal Ensemble I, II, III and IV

Through large group, small group, and individual instruction, students are taught choral technique through the performance of madrigals and popular music. Students will perform at concerts, solo and ensemble contests, as well as community events.

Vocal Ensemble I

Course Numbers: 0461 | 03152100

Credits: 1 Fine Art

Grade Placement: 9-12

Semesters: 2

Prerequisite: An audition and concurrent enrollment in choir required.

Vocal Ensemble II

Course Numbers: 0462 | 03152200

Credits: 1 Fine Art

Grade Placement: 10-12

Semesters: 2

Prerequisite: Vocal Ensemble I and concurrent enrollment in choir required.

Vocal Ensemble III

Course Numbers: 0463 | 03152300

Credits: 1 Fine Art

Grade Placement: 11-12

Semesters: 2

Prerequisite: Vocal Ensemble II and concurrent enrollment in choir required.

Vocal Ensemble IV

Course Numbers: 0464 | 03152400

Credits: 1 Fine Art

Grade Placement: 12

Semesters: 2

Prerequisite: Vocal Ensemble III and concurrent enrollment in choir required.

Dance

Dance I, II, III and IV

This course addresses the elements of advanced dance skills in the areas of Ballet, Jazz, Drill Team, Lyrical and Modern Dance. Students are taught creative expression through movement, awareness of space, time and energy as design factors in dance technique and composition. Focus is on development of self-confidence and an appreciation of dance as an art form. Participants have opportunities to perform, choreograph, and compete in the area of dance, and view other dancers of their age group as well as professional dancers.

Dance I, Principles of Dance I

Students will receive 1 Fine Arts credit and 1 Physical Education credit if the student's circumstances allow. The Physical Education credit will be awarded on a Pass/Fail basis, and will only be given to those who are not already earning a Physical Education credit in athletics or in any other class that earns a Physical Education/Lifetime Fitness and Wellness Pursuits credit.

Course Numbers: 0711 | 03830100

Credits: 1 Fine Art and 1 Physical Education

Grade Placement: 9-12

Semesters: 2

Prerequisite: None

Dance II, Principles of Dance II

Course Numbers: 0712 | 03830200

Credits: 1 Fine Art

Grade Placement: 10-12

Semesters: 2

Prerequisite: Dance I

Dance III, Principles of Dance III

Course Numbers: 0713 | 03830300

Credits: 1 Fine Art

Grade Placement: 11-12

Semesters: 2

Prerequisite: Dance II

Dance IV, Principles of Dance IV

Course Numbers: 0714 | 03830400

Credits: 1 Fine Art

Grade Placement: 12

Semesters: 2

Prerequisite: Dance III

Drill Team I, II, III and IV

This is a select group of students who perform at community and athletic events demonstrating their dance techniques.

Dance I, Performance Ensemble I (Drill Team I)

Students receive .5 Physical Education credit and 1 Fine Arts credit. The Physical Education credit will be awarded on a Pass/Fail basis for the fall semester and is given for outside of school participation.

Course Numbers: 0775 | 03833300

Credits: 1 Fine Art and .5 Physical Education

Grade Placement: 9-12

Semesters: 2

Prerequisite: Audition and director approval required.

Dance II, Performance Ensemble II (Drill Team II)

Students receive .5 Physical Education credit and 1 Fine Arts credit. The Physical Education credit will be awarded on a Pass/Fail basis for the fall semester and is given for outside of school participation.

Course Numbers: 0716 | 03833400

Credits: 1 Fine Art and .5 Physical Education

Grade Placement: 10-12

Semesters: 2

Prerequisite: Drill Team I, audition and director approval required.

Dance III, Performance Ensemble III (Drill Team III)

Course Numbers: FA.0779 | 03833500

Credits: 1 Fine Art

Grade Placement: 11-12

Semesters: 2

Prerequisite: Drill Team II, audition and director approval required.

Dance IV, Performance Ensemble IV (Drill Team IV)

Course Numbers: FA.0780 | 03833600

Credits: 1 Fine Art

Grade Placement: 12

Semesters: 2

Prerequisite: Drill Team III, audition and director approval required.

Theatre

Theatre Arts I, II, III and IV

These courses are acting courses that enhance performance skills and techniques used by the actor on stage. Students will explore methods of characterization, research, and role preparation. Emphasis placed on the development of essential acting techniques includes characterization, objectives, action, and script analysis. The study of vocal exercises is used to improve vocal ability and training in the use of dialects. Students have the opportunity to perform in this course.

Theatre Arts I

Course Numbers: 0401 | 03250100
Credits: 1 Fine Art
Grade Placement: 9-12
Semesters: 2
Prerequisite: None

Theatre Arts II

Course Numbers: 0402 | 03250200

Grade Placement: 11-12
Semesters: 2
Prerequisite: Theatre Arts III

Technical Theatre I, II, III and IV

Technical Theatre I, II, III and IV are advanced level courses. They are practical and academic courses that focus on direct support of the productions. Students are expected to participate in all Theatre Department productions.

Technical Theatre I

Course Numbers: 0405 | 03250500
Credits: 1 Fine Art
Grade Placement: 9-12
Semesters: 2
Prerequisite: None

Technical Theatre II

Fine Art Course Numbers: 0406 | 03250600
PE Course Numbers: PE.0406 | 03250600
Credits: 1 Fine Art or 1 Physical Education
(Students electing to use this course as their required PE credit will have the course coded with a "7" on the transcript to fulfill that requirement.)
Grade Placement: 10-12
Semesters: 2
Prerequisite: Technical Theatre I and director approval required.

Technical Theatre III

Course Numbers: 0407 | 03251100
Credits: 1 Fine Art
Grade Placement: 11-12
Semesters: 2
Prerequisite: Technical Theatre II and director approval required.

Technical Theatre IV

Course Numbers: 04071 | 03251200
Credits: 1 Fine Art
Grade Placement: 12
Semesters: 2
Prerequisite: Technical Theatre III and director approval required.

Theatre Production I, II, III and IV

Theatre Production I, II, III and IV are advanced level courses. They are practical and academic courses that focus on direct support of the productions. Students are expected to participate in all Theatre Department productions.

Theatre Production I

Course Numbers: 0408 | 03250700

Credits: 1 Fine Art

Grade Placement: 9-12

Semesters: 2

Prerequisite: Director approval required.

Theatre Production II

Course Numbers: 0409 | 03250800

Credits: 1 Fine Art

Grade Placement: 10-12

Semesters: 2

Prerequisite: Theatre Production I and director approval required.

Theatre Production III

Communication is the overarching goal of world languages instruction.

Northwest ISD offers the AVANT Language Proficiency Test as a credit-by-examination option for students with experience in languages other than English. If students have prior experience with a language other than English, we encourage the students to register and take the test before the school year starts. This will help determine the best placement level in a language other than English. For more details, please visit the district's [CBE webpage](#).

*When considering a language other than English (LOTE) for college admission, please confirm your LOTE choice with your potential college/university. Not all colleges/universities accept American Sign Language or Computer Science to fulfill world language requirements.

Spanish I

Spanish I is an introductory course. Students will explore the language and culture of Spanish speaking countries by speaking, writing, listening, and reading in real-world situations. Students will use Spanish in the interpersonal, interpretive, and presentational communication modes. Students will express meaning in highly predictable contexts through the use of memorized and recalled words and phrases. Students will understand cognates, borrowed words, high-frequency words, and highly contextualized words and phrases with repetition. Students will gain an understanding of sentence-length information within highly contextualized situations and sources. Students in Spanish I are expected to reach a novice mid to novice high level of language proficiency at completion of study.

Course Numbers: 0601 | 03440100

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: None

Spanish I Honors

Spanish I Honors deepens and exceeds the traditional Spanish I level course by including a more in-depth and faster pace study of the Spanish language. Students will explore the language and culture of Spanish speaking countries by speaking, writing, listening, and reading in real-world situations. Students will use Spanish in the interpersonal, interpretive, and presentational communication modes. Students will express meaning in highly predictable contexts through the use of memorized and recalled words and phrases. Students will understand cognates, borrowed words, high-frequency words, and highly contextualized words and phrases with repetition. Students will gain an understanding of sentence-length information within highly contextualized situations and sources. Students in Spanish I Honors are expected to reach a novice mid to novice high level of language proficiency at completion of study.

Course Numbers: LO.0601H | 03440100

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 3

Prerequisite: None

Spanish II

Spanish II is a continuation of exploring the language and culture of Spanish speaking countries. In this course, students will express meaning in straightforward and personal contexts by combining and recombining what they know, what they read, and what they hear in short statements and sentences. They are able to understand information from simple connected statements in oral or written sources. Students will communicate in presentations, interpersonally, and interpretively. Students in Spanish II are expected to reach a novice high to intermediate low level of language proficiency at completion of study.

Course Numbers: 0602 | 03440200

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Spanish I or Spanish I Honors

Spanish II Honors

Spanish II Honors exceeds the traditional Spanish II level course by including a more in-depth and faster pace study of the language, Spanish history, geography, culture, and literature. A focus on student's oral proficiency level is developed through age-level and culturally authentic resources to enable students to participate in significantly longer dialogues about familiar situations, express and support opinion or preferences using expanded vocabulary, through short statements and complex sentences in written and oral responses. Authentic materials will be read, and longer, directed compositions will be written. This course is enhanced with a variety of print, digital, audio, and audiovisual materials to support language development. Students in Spanish II Honors are expected to reach a novice high to intermediate low level of language proficiency at completion of study.

Course Numbers: LO.0602H | 03440200

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 3

Prerequisite: Spanish I or Spanish I Honors

Spanish III Honors

Spanish III Honors develops students' proficiency in the Spanish language and prepares students for the AP Spanish Language & Culture exam in 12th grade. Students in this course will express meaning in straightforward and personal contexts by easily combining and recombining what they know, what they read, and what they hear in statements, and a mixture of sentences and strings of sentences. They are able to understand information from connected statements in oral or written sources. Students in Spanish III Honors are expected to reach an intermediate low to intermediate mid level of language proficiency at completion of study. Upon successful completion of this course, students are expected to continue to Spanish IV AP Language And Culture.

Course Numbers: LO.0603H | 03440300

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 3

Prerequisite: Spanish II or Spanish II Honors

Spanish IV AP Language and Culture

AP Spanish Language and Culture is equivalent to an intermediate level college course in Spanish. Students cultivate their understanding of Spanish language and culture by applying interpersonal, interpretive, and presentational modes of communication in real-life situations as they explore concepts related to family and communities, personal and public identities, beauty and aesthetics, science and technology, contemporary life, and global challenges. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the AP Spanish Language and Culture exam.

Prerequisite: Spanish III Honors

Performance Acknowledgment in Bilingualism and Biliteracy

*See page 19 for details

Spanish V AP Literature

AP Spanish Literature is equivalent to a college level introductory survey course of literature written in Spanish. Students continue to develop their interpretive, interpersonal, and presentational skills in Spanish language as well as critical reading and analytical writing as they explore short stories, novels, plays, essays, and poetry from Spain, Latin America, and U.S. Hispanic authors along with other non-required texts. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the AP Spanish Literature and Culture exam.

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 4

Prerequisite: Spanish IV AP Language and Culture

Spanish I-II for Spanish Speakers

Spanish I-II for Spanish Speakers is specifically designed for students who demonstrate oral language proficiency in the Spanish language. This course provides opportunities for improvement in Spanish literacy in reading and writing through the study of complex grammatical structures, vocabulary, Hispanic culture, and cultural pride and awareness. This course is enhanced with a variety of print, digital, audio, and audiovisual materials to support language development. Students will have the opportunity to progress to Spanish III Honors the following year and continue to advanced levels of language study, if they wish. This course is equivalent to Spanish I and II credit. Students in Spanish I-II for Spanish Speakers are expected to reach a novice high to intermediate low of language proficiency at completion of study.

Course Numbers I (Fall): 0620 | 03440110

Course Numbers II (Spring): 0620 | 03440220

Credits: 2

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Spanish oral and written fluency - there is a placement test required.

French I

French I introduces students to the French language and francophone culture. Communication focuses on using the four basic language skills of listening, speaking, reading, and writing so students have ample opportunities to experience and practice French in meaningful ways to hold brief conversation. A student's proficiency level is developed through age-level appropriate and culturally authentic resources, high frequency vocabulary, and language structures to negotiate meaning through spoken and written text, and participate and respond to everyday life situations. This course is enhanced with a variety of print, digital, audio, and audiovisual materials to support language development. Students in French I are expected to reach a novice mid to novice high level of language proficiency at completion of study.

Note: This course may be offered as a NISD Distance Learning course where students will use technology such as Chromebooks and Zoom to connect with their teacher and classmates digitally on a daily basis.

Course Numbers: 0607 | 03410100

Credits: 1

German I Honors

German I Honors deepens and exceeds the traditional German I level course by including a more in-depth and faster pace study of the German language. German I Honors introduces students to the German language and German culture. Communication focuses on using the four basic language skills of listening, speaking, reading, and writing so students have ample opportunities to experience and practice German in meaningful ways to hold brief conversations. A student's proficiency level is developed through age-level appropriate and culturally authentic resources, high frequency vocabulary, and language structures to negotiate meaning through spoken and written text, and participate and respond to everyday life situations using a mixture of words and phrases and simple sentences. This course is enhanced with a variety of print, digital, audio, and audiovisual materials to support language development. Students in German I Honors are expected to reach a novice mid to novice high level of language proficiency at completion of study. **Note:** This course may be offered as a NISD Distance Learning course where students will use technology such as Chromebooks and Zoom to connect with their teacher and classmates digitally on a daily basis.

Weighted GPA: Level 3

Prerequisite: None

German II

German II reviews what was learned in German I and continues to build the skills across all four language skills: listening, speaking, reading, and writing, with emphasis on the ability to communicate orally. A student's proficiency level is developed through age-level and culturally authentic resources to enable students to participate in dialogues about familiar situations, express and support opinion or preferences using expanded vocabulary, through short statements and complex sentences in written and oral responses. This course is enhanced with a variety of print, digital, audio, and audiovisual materials to support language development. Students in German II are expected to reach a novice high to intermediate low level of language proficiency at completion of study.

Semesters: 2

Weighted GPA: Level 2

Prerequisite: German I or German I Honors

German II Honors

German II Honors exceeds the traditional German II level course by including more in-depth and faster pace study of the language, German history, geography, culture, and literature. A focus on student's oral proficiency level is developed through age-level and culturally authentic resources to enable students to participate in significantly longer dialogues about familiar situations, express and support opinion or preferences using expanded vocabulary, through short statements and complex sentences in written and oral responses. Authentic materials will be read, and longer, directed compositions will be written. This course is enhanced with a variety of print, digital, audio, and audiovisual materials to support language development. Students in German II Honors are expected to reach a novice high to intermediate low level of language proficiency at completion of study.

German III Honors

German III Honors presents a wider variety and significantly more complex skills to help the student maintain audiovisual abilities, increase vocabulary, improve writing skills, and sustain dialogue under timed conditions. A student's proficiency level is developed through language structures, advanced vocabulary, and cultural aspects that are enhanced with a variety of print, digital, audio, and audiovisual materials to support language development. Students in German III Pre-AP are expected to reach an intermediate low to intermediate mid level of language proficiency at completion of study. Upon successful completion of this course, students are expected to continue to German IV AP Language And Culture.

German IV AP Language and Culture

AP German Language and Culture is equivalent to an intermediate level college course in German. Students cultivate their understanding of German language and culture by applying interpersonal, interpretive, and presentational modes of communication in real-life situations as they explore concepts related to family and communities, personal and public identities, beauty and aesthetics, science and technology, contemporary life, and global challenges. Learn more about this course on the [College Board website](#). The district expectation is that the student will take the AP German Language and Culture exam.

American Sign Language I*

American Sign Language I emphasizes all areas of language study: receptive, expressive, comprehension, culture and grammar. Student awareness and appreciation of a new culture and its history are developed. Sentence structure is developed and expounded upon from simple to complex sentence lengths. Students are expected to perform signed projects with each unit covered.

Course Numbers: 0660 | 03980100

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: None

American Sign Language II*

This course is designed to continue development of ASL skills with primary focus on refining the use of basic ASL sentence types. Pronominalization (the process of using pronouns in Diexis), classifiers, spatial referencing, pluralization (using classifiers), and temporal and distributional aspects are introduced. Students will learn routine communicative functions of the language: asking, requesting, providing clarification, giving and asking for directions. Information about the Deaf Community and Deaf Culture will be included. This course applies knowledge of ASL grammar and vocabulary to the description of increasingly complex constructs, processes and situations. Students incorporate multiple character role shifting into medium-length stories, narratives and the discussion of hypothetical issues. Information on cultural values and attitudes as they relate to the Deaf Community is also examined.

Course Numbers: 0661 | 03980200

Credits: 1

Grade Placement: See prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: ASL I

Honors American Sign Language III*

This course is designed to continue the development of ASL skills with emphasis on improvements in speed and fluency along with reinforcement of appropriate grammar usage and conversation skills. In this course, students will participate in a variety of activities in order to: engage in direct signed communication with others without voice, demonstrate an understanding of receptively viewed communication, present to an audience, make comparisons of the American Deaf culture with their own, and use ASL to make connections to other subject areas and to acquire information.

Prerequisite: ASL II

Honors American Sign Language IV*

This is an advanced course designed to further enhance students' proficiency in American Sign Language. This course will continue to prepare students to interact with native signers in academic and professional settings, fostering both language mastery and cultural competence. This course emphasizes nuanced communication, complex grammatical structures, and increased fluency through diverse authentic materials and real-life scenarios. Students will explore advanced conversational topics, such as abstract ideas, current events, and personal viewpoints.

***When considering a language other than English (LOTE) for college admission, please confirm your LOTE choice with your potential college/university. Not all colleges/universities accept American Sign Language or Computer Science to fulfill world language requirements.**

Computer Science I/ Honors Computer Science I*

This course will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will understand Computer Science through the study of technology operations, systems and concepts using TechSmart Curriculum. Course studies include the coding language Python, analyzing and designing algorithms, and demonstrating proficiency in digital citizenship. Professional skills, like collaboration and communication, portfolio building are key elements. Certifications will be earned in Microsoft Word and Microsoft Technology Associate- Intro to Programming Using Python and can be earned as Certified Entry-Level Python Programmer (PCEP).

This course may be used as a Language Other than English credit and will be included in the calculation of the weighted GPA. **This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org**

PHYSICAL EDUCATION

Lifetime Fitness and Wellness Pursuits

The Lifetime Fitness and Wellness Pursuits course offers current approaches for the foundation of personal fitness, physical literacy, lifetime wellness, and healthy living. This course equips students to assess individual fitness levels according to the five components of physical fitness: cardiovascular health, muscular strength, muscular endurance, flexibility, and body composition. Personal fitness assessments encourage students to design fitness programs to meet their individual fitness goals and develop skills needed to achieve lifetime wellness.

Course Numbers: PE.0707 | PES00051

Credits: 1

Grade Placement: 9-12

Semesters: 2

Prerequisite: None

Skill Based Lifetime Activities

The Skill-Based Lifetime Activities course offers students the opportunity to demonstrate mastery in basic sport skills, basic sport knowledge, and health and fitness principles. Students experience opportunities that promote physical literacy and lifetime wellness. Students participate in a minimum of one lifelong activity from each of the following five categories during the course. Those are: A) Target games (B) Striking and fielding (C) Fitness activities (D) Rhythmic activities and (E) Innovative games and activities with international significance.

Course Numbers: PE.0703 | PES00056

Credits: 1

Grade Placement: 9-12

Semesters: 2

Prerequisite: None

Lifetime Recreation and Outdoor Pursuits

The Lifetime Recreation and Outdoor Pursuits class provides students opportunities to develop competency in recreational and outdoor activities such as disc golf, pickleball, badminton, orienteering, archery, etc. Students will participate in games that promote physical literacy and respect for nature as well as encourage students to select activities to be enjoyed for a lifetime.

Course Numbers: PE.0704 | PES00053

Credits: 1

Grade Placement: 9-12

Semesters: 2

Prerequisite: None

ATHLETICS

We encourage all students to participate in some of our athletic program. Through participation in athletics, the student will become a more well-rounded individual. Team work, discipline, the development of a good work ethic and learning to cope with success as well as disappointment are all experiences that help to prepare our students to be productive members of society. Athletics requires a great deal of time and personal sacrifice. Practice times may be scheduled on Saturdays, student holidays, or before and after school. Athletes will be required to participate in all practice sessions and competitions as scheduled by the coaching staff. In most cases, transportation to and from workouts will be the responsibility of the athlete.

The courses listed under Athletics are sports that compete under the guidelines of the U.I.L. These courses are intended to develop competitive teams that represent Northwest Independent School District in district level contests. In some cases and especially in those sports where fewer numbers can participate at any given time in a game, some students may not make a team. If a student is going to participate in more than one sport, he/she should sign up for the first one he/she will be participating in for the year. The month(s) listed for each sport are the times of competition. Otherwise, the students are in off-season and will be required to abide by all rules set by the coaching staff. All students must have an annual U.I.L. physical from a physician on file with

the Athletic Office, along with all necessary signatures that can be found at the NISD athletic webpage prior to participation in any athletic contest, practice or try-out session. All athletes are expected to be enrolled and participate in an athletic period.

Physical Education Substitutions - Several courses that include physical activities may be substituted for the one required unit of PE. These courses are Athletics, Drill Team, Cheerleading, Dance I, Musical Theatre I, Technical Theatre II and/or Marching Band. No more than FOUR units of credit in physical education may be applied toward state graduation requirements.

UIL rules specifically prohibit students from being enrolled in more than one physical education and/or athletic class; Exception: PE Class - Lifetime Recreation and Outdoor Pursuits; PE Substitute - Cheerleading, Drill Team, and Marching Band.

Sports Medicine I, II, and III

Sports Medicine is an introduction to practical techniques in athletic training protocols and procedures. Student athletic trainers will be trained to assist certified trainers in treatment and rehabilitation of athletic injuries. Students will be assigned to a specific athletic sport or setting. Student athletic trainers will be required to participate in all practice sessions and competitions before and after school as scheduled by the head athletic trainer. This course does not provide PE credit. **This class requires after-school hours and travel to sporting events.**

Prerequisite: None

NATIONAL COLLEGIATE ATHLETIC ASSOCIATION (NCAA)

The National Collegiate Athletic Association (NCAA) is the governing body for college athletics. Students wishing to participate in any college sport must meet eligibility requirements, as defined in the NCAA Eligibility Center (<https://web3.ncaa.org/ecwr3/>). Eligibility requirements depend on the Division and are based on the unweighted GPA in core classes, as compared to SAT/ACT scores.

NCAA Division I and II require 16 core courses

Division I

- 4 years of English.
- 3 years of mathematics (Algebra I or higher).
- 2 years of natural/physical science (1 year of lab if offered by high school).
- 1 year of additional English, mathematics or natural/physical science.
- 2 years of social science.
- 4 years of additional courses (from any area above, foreign language or comparative religion/philosophy).
- Complete 10 core courses, including seven in English, math or natural/physical science, before the start of the seventh semester. Once students begin their seventh semester, they must have more than 10 core courses completed to be able to repeat or replace any of the 10 courses used in the preliminary academic certification.
- Earn at least a 2.3 GPA in their core courses.
- Earn an SAT combined score or ACT sum score matching their core-course GPA on the Division I sliding scale, which balances their test score and core-course GPA. If students have a low test score, they will need a higher core-course GPA to be eligible. If they have a low core-course GPA, they will need a higher test score to be eligible.

Division II

- 3 years of English.
- 2 years of mathematics (Algebra I or higher).
- 2 years of natural/physical science (1 year of lab if offered by high school).
- 3 years of additional English, mathematics or natural/physical science.
- 2 years of social science.
- 4 years of additional courses (from any area above, foreign language or comparative religion/philosophy).

Important: Any student seeking to participate in NCAA sports should consult with their school counselor before taking **any** course online, through correspondence, or in any other non-traditional means. The NCAA does not recognize certain types of non-traditional instruction and this can impact student eligibility.

TEA CTE Completer Guide

Program of Study Accountability

Completion of a program of study is among the indicators used for evaluating the performance of high school campuses and districts that include high school campuses.

Completer

A student served by an LEA who completes, passes, and receives credit for three or more high school CTE courses for four or more credits, including at least one level 3 or level 4 course, from within the same program of study.

A CTE completer must meet all of the criteria, from within the same program of study:

- 3 or more CTE courses for
- 4 or more credits, with at least
- One course (or more) at Level 3 or 4

CTE Level 1

Learning ABOUT Work

Build awareness of the variety of careers available and the role of postsecondary education; broaden student options.

CTE Level 2

Learning ABOUT Work

Explore career options and postsecondary for the purpose of motivating students and to inform their decision making in high school and postsecondary education.

CTE Level 3

Learning THROUGH Work

Apply learning through practical experience that develops knowledge and skills necessary for success in careers and postsecondary education.

CTE Level 4

Learning FOR Work

Train for employment and/or postsecondary education in a specific range of occupations.

ANIMAL SCIENCE

Animal Science: Enhance your passion working within diverse animal industries using preventative medicine, advanced therapeutic techniques, and injury treatment.

Potential Careers: Veterinary Assistant, Veterinary Technician, or Veterinarian
(Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

				
Recommended Course Sequence	Principles of Agriculture, Food, and Natural Resources (1 credit)	Livestock Production (1 credit)	Veterinary Medical Applications (1 credit)	Advanced Animal Science (1 credit) or Practicum in Agriculture (2 credits) <i>[NOTE: Practicum is highly recommended.]</i>

Principles of Agriculture, Food, and Natural Resources

In this introductory course, students will learn about the wonderful career opportunities available in Agriculture, through experiences in leadership development (FFA), plant science, animal industry, food technology, and agriculture mechanics. Students will have the opportunity to complete the OSHA 10 Hour training program.

Course Numbers: 0812 | 13000200

Credits: 1

Grade Placement: 9-10

Semesters: 2

Required Prerequisite: None

Livestock Production

Livestock Production explores the health and nutrition, reproduction, and management of livestock and poultry. Students will develop skills to evaluate livestock, learn breeds, feed types and feeding techniques, breeding innovations and animal management. Live animals may be used in this course.

Course Numbers: CT.0818 | 13000300

Credits: 1

Grade Placement: 10-12

Semesters: 2

Recommended Prerequisite: Principles of Agriculture, Food, and Natural Resources

Veterinary Medical Applications

Veterinary Medical Applications is a hands-on introduction to the concepts and skills related to the veterinary science industry while preparing students for a Veterinary

Assistant Level 1 certification exam. Students develop competencies in the health, nutrition and safe handling of small and large animals, as well as the regulations for surgical preparations, vaccine predation and injection technique, and medical terminology in relation to the anatomy, physiology, and infectious diseases of animals. Live animals will be used in this class for skill development.

Course Numbers: 0837 | 13000600

Credits: 1

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Livestock Production

Certification: Elanco Veterinary Medical Applications

Advanced Animal Science

Students will learn, reinforce, apply, and transfer their knowledge and skills in a variety of settings. This course examines the correspondence of human, scientific, and technological

aspects of animal science through field and laboratory experience. Students must meet the 40% laboratory and fieldwork requirement. This course satisfies a high school science graduation requirement and will be included in the calculation of the weighted GPA. **This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org**

Course Numbers: 08182 | 13000700

Credits: 1

Grade Placement: 11-12

Semesters: 2

Weighted GPA: Level 2

Required Prerequisite: Biology and Chemistry or Integrated Physics and Chemistry (IPC); Algebra I and Geometry; and Livestock Production

Recommended Prerequisite: Veterinary Medical Applications

Certification: Elanco Fundamentals of Animal Science

Practicum in Agriculture, Food, and Natural Resources (Internship)

Practicum experiences can occur in a variety of locations appropriate of the nature and level of experience such as off-campus internships, mentorships or campus-based laboratories.

PRACI-BL-AFNR

Course Numbers First Time Taken:

CT.B08121 | 13002500

PRACII-BL-AFNR

Course Numbers Second Time Taken:

CT.B0822 | 13002510

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Eligibility verification at district level is required.

Recommended Prerequisite: A minimum of one credit from the advanced courses in the Agriculture, Food, and Natural Resources Career Cluster

Certification: Veterinary Medical Assistant Level I

APPLIED AGRICULTURAL ENGINEERING

Applied Agricultural Engineering: Create one-of-a-kind metal art designs from start to finish for a wide variety of customers using large scale machines.

Potential Careers: Welder, CNC Machine Technician, or Structural Designer
(Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

				
Recommended Course Sequence	Principles of Agriculture, Food, and Natural Resources (1 credit)	Agricultural Mechanics and Metal Technologies (1 credit)	Agricultural Equipment Design and Fabrication with Lab (2 credits)	Practicum in Agriculture (2 credits)

Principles of Agriculture, Food, and Natural Resources

In this introductory course, students will learn about the wonderful career opportunities available in Agriculture, through experiences in leadership development (FFA), plant science, animal industry, food technology, and agriculture mechanics. Students will have the opportunity to complete the OSHA 10 Hour training program.
Course Numbers: 0812 | 13000200

Credits: 1

Grade Placement: 9-10

Semesters: 2

Required Prerequisite: None

Agricultural Mechanics and Metal Technologies

This hands on laboratory based course curriculum, will prepare students for entry level skills needed for Applied Agriculture Engineering Career such as safety practices, tool operation, carpentry, welding, plumbing, concrete and electrical wiring.

Course Numbers: 0816 | 13002200

Credits: 1

Grade Placement: 10-12

Semesters: 2

Recommended Prerequisite: Principles of Agriculture, Food, and Natural Resources

Agricultural Equipment Design and Fabrication with Lab

This project based course in Agricultural Equipment Design and Fabrication, will help students develop knowledge and skills needed for a career in mechanized Agriculture. The students will take the skills learned in the Agriculture Mechanics and Metal Technology and design and fabricate projects in Agricultural Equipment. The course offers an opportunity to earn an AWS Welding certification.

Course Numbers: CT.0819 | 13002360

Credits: 2

Grade Placement: 11-12

Semesters: 2

Recommended Prerequisite: Agricultural Mechanics and Metal Technologies or Teacher approval

Practicum in Agriculture, Food, and Natural Resources (Internship)

Practicum experiences can occur in a variety of locations appropriate of the nature and level of experience such as off-campus internships, mentorships or campus-based laboratories.

PRACI-BL-AFNR

Course Numbers First Time Taken:

CT.B08121 | 13002500

PRACII-BL-AFNR

Course Numbers Second Time Taken:

CT.B0822 | 13002510

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Eligibility verification at district level is required.

Recommended Prerequisite: A minimum of one credit from the advanced courses in the Agriculture, Food, and Natural Resources Career Cluster

PLANT SCIENCE

Plant Science: Create innovative art using flowers imported from around the world.

Potential Careers: Floral Design Assistant, Wholesale Designer, or Landscape Architect
(Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

			 	
Recommended Course Sequence	Principles of Agriculture, Food, and Natural Resources (1 credit)	Horticulture Science (1 credit)	<ul style="list-style-type: none"> Floral Design 1 (1 credit) or Greenhouse Operations and Production (1 credit) 	Advanced Floral Design (1 credit) and/or Practicum in Agriculture (2 credits)

Principles of Agriculture, Food, and Natural Resources

In this introductory course, students will learn about the wonderful career opportunities available in Agriculture, through experiences in leadership development (FFA), plant science, animal industry, food technology, and agriculture mechanics. Students will have the opportunity to complete the OSHA 10 Hour training program.

Course Numbers: 0812 | 13000200

Credits: 1

Grade Placement: 9-10

Semesters: 2

Required Prerequisite: None

Horticultural Science

This hands-on course prepares students to produce, process, and market horticulture plants used primarily for ornamental, recreational, and aesthetic purposes.

Course Numbers: 0821 | 13002000

Credits: 1

Grade Placement: 10-12

Semesters: 2

Recommended Prerequisite: Principles of Agriculture, Food, and Natural Resources

Floral Design I

This course is designed to develop students' ability to identify and demonstrate the principles and techniques related to floral design as well as develop an understanding of the management of floral enterprises. This course satisfies the graduation requirement for Fine Arts. This course will equip students to take the Texas State Florist's Association Floral Skills Knowledge Based Certification and the Texas State Floral Association Student Certification Floral Design Level I.

Course Numbers: 0827 | 13001800

Credits: 1

Grade Placement: 10-12

Semesters: 2

Recommended Prerequisite: Principles of Agriculture, Food, and Natural Resources

Certification: Texas State Florist's Association Floral Skills Knowledge Based Certification, Texas State Floral Association Student Certification Floral Design Level I

Greenhouse Operations and Production

This course is designed to develop an understanding of greenhouse production techniques and practices. Students will gain an understanding of common horticulture management practices as they relate to food and ornamental plant production. Students will have the opportunity to work in the school's greenhouse.

Course Numbers: CT.2050 | 13002050

Credits: 1

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: Principles of Agriculture, Food, and Natural Resources

Advanced Floral Design

In this course, students build on the knowledge and skills learned in Floral 1 and are introduced to more advanced floral design concepts, with an emphasis on specialty designs and specific occasion planning. Students will have the opportunity to work within a functioning school floral design studio. Students will be trained and prepared for a Texas Floral Association Student Level II Certification.

Course Numbers: CT.0862 | N1300270

Credits: 1

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Floral Design I and Texas State Floral Association Student Certification Floral Design Level I

Certification: Texas State Floral Association Student Certification Floral Design Level II

Practicum in Agriculture, Food, and Natural Resources (Internship)

Practicum experiences can occur in a variety of locations appropriate of the nature and level of experience such as off-campus internships, mentorships or campus-based laboratories.

CT.B0822 | 13002510

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Eligibility verification at district level is required.

Recommended Prerequisite: A minimum of one credit from the advanced courses in the Agriculture, Food, and Natural Resources Career Cluster

ARCHITECTURAL DESIGN

Architectural Design: Visualize, design, and construct 3D models and generate a wide range of full-color prototypes, prints, and 3D computer-aided drawings.

Potential Careers: AutoCAD Drafter, Interior Technical Designer, or Architectural Designer
 (Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

				
Recommended Course Sequence	Principles of Architecture (1 credit)	Architectural Design I (1 credit)	Architectural Design II (2 credits)	Computer Aided Drafting for Architecture (1 credit)

Principles of Architecture

This course provides an overview to the various fields of architecture, interior design, and construction management. Students will develop professional skills, investigate career

opportunities and the skills necessary to work in this industry. Course studies will include project-planning, hand-drawing, reading plans, identifying appropriate materials, creating models and portfolio development. Students will have the opportunity to complete the OSHA 10 Hour training program.

Course Numbers: 0828 | 13004210

Credits: 1

Grade Placement: 9-12

Semesters: 2

Required Prerequisite: None

Architectural Design I

This course focuses on the knowledge and skills needed to enter a career in architecture or construction. Students will learn about design, design history, techniques and tools related

to both residential and nonresidential buildings. Professional skills including communication and time management will be key parts of Architectural Design I. Course products will include drawings, renderings, site plans, elevations, scale models and a professional portfolio. The first semester will focus on hand-drawing while the second semester will utilize AutoDesk Revit software. Students will earn their Microsoft PowerPoint certification and prepare for the Revit certification.

Course Numbers: 0826 | 13004600

Credits: 1

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: Algebra I, English I

Recommended Prerequisite: Principles of Architecture, Geometry

Architectural Design II

This advanced course will build on previous knowledge and immerse students in a workplace environment. Course studies will include working

with clients, interpreting and

evaluating design decisions, working on large scale CAD projects with design plans, models and presentations. Students will demonstrate professional and employability skills, such as communication skills, teamwork, work habits and maintain a professional portfolio. Students will earn their Revit certification.

Course Numbers: 08241 | 13004700

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Architectural Design I, Geometry, and Computer Aided Drafting for Architecture (can be concurrently enrolled)

Computer Aided Drafting for Architecture

This course focuses on learning industry standard drafting skills through AutoDesk Revit. Course studies include setting up a CAD workstation and working with

software ribbons to increase design skills. Students will increase their depth of knowledge in the software and gain the skills of a drafter. Students will work on large scale design projects using Gantt Charts, bubble diagrams and more to simulate the professional work of an architect. CAD students may earn their certification AutoCad.

Course Numbers: CT.0616 | N1300429

Credits: 1

Grade Placement: 10-12

Semesters: 2

Recommended Prerequisite: Architectural Design I

Additional Opportunities

Practicum in Architectural Design

Professional skills, like problem solving, project management and client communication, combined with Architectural Design experience and knowledge will be a key part of this course. The course could include an on-campus internship, off-campus internship or mentorship with an industry professional. Students will work with their mentor to work on a large-scale design project to include architectural drawings and other design board elements. A project portfolio will be presented to a panel of professionals using formal presentation skills. Students will also continue to develop a professional portfolio showcasing their accomplishments, knowledge and skills, certifications and artifacts. *Students will work with their teacher, mentor and coordinator to plan their year.* See page 210 for additional information on internships or visit our website at www.nisdtx.org/cte.

PRACI-BL-ARCH

Course Numbers: CT.B08242 | 13004800

Required Prerequisite: Architectural Design II;
Eligibility verification at district level is required.

CONSTRUCTION ACADEMY

Construction Academy: Description

Potential Careers: List

(Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

				
Recommended Course Sequence	Principles of Construction (1 credit)	Building Maintenance Technology I (2 credits) Course Available in 2026-2027	Building Maintenance Technology II (2 credits) Course Available in 2027-2028	Practicum in Construction Technology (2 credits) Course Available in 2028-2029

Principles of Construction

This course provides knowledge of construction safety, construction mathematics, and common hand and power tools. Students will identify and develop professional skills required to

work in the construction industry. Course studies include safety standards, recognizing hazards, construction mathematics and measurements, the use and maintenance of hand and power tools, reading construction drawings, material handling, and verbal and written jobsite communication. Students will have the opportunity to complete the OSHA 10-hour training program and earn the NCCER Core certifications.

Course Numbers: CT.0701AC | 13004220

Credits: 1

Grade Placement: 9

Semesters: 2

Required Prerequisite: None

Building Maintenance Technology I

This course focuses on the knowledge and skills needed to enter a career in building maintenance and construction. Building Maintenance Technology I will continue to build

students' understanding of professional standards and employability skills, worksite safety guidelines and regulations, and reading construction drawings and commercial documents such as architectural, engineering, and shop drawings. Students will gain knowledge and develop skills in plumbing; electrical; and heating, ventilation and air conditioning (HVAC). Students will also learn methods for drywall installation and repair; roofing; insulation systems; installing cabinetry and countertops; and selecting and installing flooring. Students will demonstrate the skills necessary to safely use and maintain hand tools, power tools, and the latest construction technologies.

Course Numbers: CT.0101AC | 13005400

Credits: 2

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: Principles of Construction

Building Maintenance Technology II

This course builds on Building Maintenance Technology I to provide advanced knowledge and skills needed to enter a career in building maintenance and construction.

Building Maintenance Technology II will provide students with knowledge and skills in safety standards; safety devices in electrical circuits; maintenance of electrical HVAC; and concepts of historical preservation. Students will learn how to interpret blueprints; install lamps and lighting fixtures; use and maintain common electrical testing equipment; and install, select, prepare, join, and support copper and plastic pipes.

Course Numbers: CT.0102AC | 13005500

Credits: 2

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: Building Maintenance Technology I

Practicum in Construction Technology

This advanced course will immerse students in a workplace environment to develop professional, technical and project management skills.

Course studies will include developing a management plan for a project; applying applicable codes, laws, standards and regulations to a research and development project; describe project expectations through a flow chart; use critical thinking to solve problems and make decisions related to research, design, and development; develop a project budget and describe costs associated with the project; and use advanced technology, tools, materials, and processes to complete construction projects.

Course Numbers: CT.0901AC | 13005250

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Building Maintenance Technology II

CREATIVE MEDIA PRODUCTION ACADEMY (NHS)

The CMP Academy aligns with three Programs of Study:

Digital Communications: Audio/Video Production

Design and Multimedia Arts: Commercial Photography and Graphic Design and Illustration

Additional Non-Academy Pathway: Yearbook (Commercial Photography)

Potential Careers: Television Producer, Graphic Designer, or News Anchor

(Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

Students in this academy can take any course in the academy as long as they have met the prerequisite for the course. For example, students must take a career exploration course before taking the corresponding career preparation course.

			
Principles of Arts, Audio/Video Technology, and Communications	Audio/Video Production I	Audio/Video Production II (NHSTV)	Practicum in Audio/Video Production (NHSTV) (Internship)
	Commercial Photography I	Commercial Photography II	Practicum in Commercial Photography (Internship)
	Graphic Design and Illustration I	Graphic Design and Illustration II	Practicum in Graphic Design and Illustration (Internship)

Principles of Arts, Audio/Video Technology, and Communications

This course is the introductory course for the Creative Media Production Academy. The course includes an introduction to audio and video production, graphic design and illustration, and principles of animation. Adobe Creative Cloud Applications, such as Photoshop, Illustrator, Premiere, and Lightroom will be used in the course.

Course Numbers: 0875 | 13008200

Credits: 1

Grade Placement: 9-12

Semesters: 2

Required Prerequisite: None

Audio/Video Production

Audio/Video Production I

This course will explore the Audio and Video production industry and its post-secondary educational and career opportunities. Students will gain job-specific training for entry level employment in audio, video, television, and film. Professional equipment and Adobe Creative Cloud software will be used in the creation of student productions. Students will be involved in every aspect of several class and small group audio, video, and film style production projects with emphasis on live multi-camera video and film style production projects. This course will prepare students to work at the school television station, NHSTV.

Course Numbers: 2202AC | 13008500

Credits: 1

Grade Placement: 9-12

Semesters: 2

Required Prerequisite: Facilitator approval

Audio/Video Production II/ Audio/Video Production II Lab (NHSTV)

Students in this course will work as employees for the award winning television station, NHSTV. Students will produce a live TV show each and every day in our state of the art HD television production facility. Students will work as reporters, anchors, producers and crew members. Students will work on several audio and/or video productions created for television, cable television, education, radio, entertainment, business and/or industry.

Course Numbers: CT.0864AC | 13008610

Credits: 2

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: Audio/Video Production I; Eligibility verification at district level is required. See Academy facilitator for more information.

Practicum in Audio/Video Production (NHSTV) (Internship)

Students in this class will develop advanced knowledge and skills in their chosen field of study related to audio and video production. Students will develop their portfolio of work that will assist them in gaining entry level employment, earning admittance into college film/video, television/radio broadcasting, and audio production programs, as well as securing post-secondary scholarships. Additional time beyond regular school hours is required for productions. See page 210 for additional information on internships or visit our website at www.nisdtx.org/cte.

PRACI-BL-AAV-AVP

Course Numbers First Time Taken:

CT.B215AC | 13008700

PRACII-BL-AAV-AVP

Course Numbers Second Time Taken:

CT.B225AC | 13008710

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Audio/Video Production II; Eligibility verification at district level is required. See Academy facilitator for more information.

Commercial Photography

Commercial Photography I

This course provides students with the foundations for success in a photography career. Here, students will learn the basics of camera operation, including utilizing the exposure triangle via creative and manual camera modes, basic photo composition, and concepts for successful photography in multiple genres. They will explore lighting techniques both in the studio and in natural light settings, and how to make better use of available light. Students will also learn basic retouching and editing via Photoshop and Lightroom. With an exploration into photography history, copyright, and basic business practices, they will garner a knowledge of photography beyond simply effective image capture.

Course Numbers: 2106AC | 13009100

Non-Academy Course Numbers:

0854 | 13009100

Credits: 1

Grade Placement: 9-12

Semesters: 2

Required Prerequisite: Eligibility verification at district level is required. See Academy facilitator for more information.

Commercial Photography II

In this course, students will build upon the concepts established in the previous class. They will uncover more advanced camera capabilities and photographic composition concepts.

A further study of natural and studio lighting will unlock greater creative possibilities, including an exploration of off-camera flash. Opportunities for very specific event coverage will arise, and advanced techniques with regards to certain genres will be explored. Finally, students will learn and prepare more details plans for a sound photography business.

Course Numbers: 2108AC | 13009200

Non-Academy Course Numbers:

CT.2108 | 13009200

Credits: 1

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: Eligibility verification at district level is required. See Academy facilitator for more information.

Semesters: 2

Required Prerequisite: Commercial Photography I and Commercial Photography I Lab; Eligibility verification at district level is required. See Academy facilitator for more information.

Recommended Prerequisite: Commercial Photography II

Graphic Design and Illustration

Graphic Design and Illustration I

In this course, students will learn the basics of Adobe Illustrator and Adobe Photoshop. Students will be expected to work together and by themselves on several projects that will teach

them the basic principles of design, advertising and marketing. Students will learn about color, composition, drawing, texture, photo editing and typography.

Course Numbers: 2102AC | 13008800

Credits: 1

Grade Placement: 9-12

Semesters: 2

Required Prerequisite: Eligibility verification at district level is required. See Academy facilitator for more information.

Graphic Design and Illustration II/

Graphic Design and Illustration II Lab

Course Numbers: CT.0862AC | 13008910

Credits: 2

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: Graphic Design and Illustration I; Course must be taken concurrently with Graphic Design and Illustration II; Eligibility verification at district level is required. See Academy facilitator for more information.

Practicum in Graphic Design and Illustration (Internship)

This course is a portfolio building and client based class. Students will consistently work for different clients to help build their portfolio, perfect their style and understand the graphic design market. Students will be provided feedback by the teacher, peers and clients. Students will learn responsibility, time management and how to engage and communicate with a client. Students will leave this course with a portfolio, resume and letters of recommendation that will help them to either be future ready, career ready or college ready. See page 210 for additional information on internships or visit our website at www.nisdtx.org/cte.

Yearbook

Printing and Imaging Technology

This course is a year-long class which has as its main focus the production of the school yearbook. Students will work in a digital environment, creating page layouts utilizing the online tools.

Students will learn the fundamentals of good design concepts for page layouts as well as the fundamentals of good photography. Students will learn the importance of meeting deadlines and working in a team to accomplish a goal. Students will also learn how to use a variety of Photoshop/Lightroom, and Illustrator techniques to create original graphic designs.

Semesters: 2

Required Prerequisite: None

Audio/Video Production I with Lab

This lab will allow an option for a student enrolled in Audio Video Production I to have an additional credit working in the school television station, for video announcements.

Course Numbers: CT.0864 | 13008510

Credits: 2

Grade Placement: 9-12

Semesters: 2

Required Prerequisite: None

Audio/Video Production II

This course is for students who want to take a second year of BobcatTV (BNHS) or EGLTV (EHS). Students in this course will work as employees for the television station. Students

will produce a live TV show each and every day in our state of the art HD television production facility. Students will work as reporters, anchors, producers and crew members. Students will work on several audio and/or video productions created for television, cable television, education, radio, entertainment, business and/or industry.

Course Numbers: CT.2203 | 13008600

Credits: 1

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: Audio/Video Production I; by approval only

Audio/Video Production II/

Audio/Video Production II Lab

Course Numbers: CT.0865 | 13008610

Credits: 2

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: Audio/Video Production I; by approval only

Practicum in Audio/Video Production (Internship)

Students in this class will develop advanced knowledge and skills in their chosen field of study related to audio and video production. Students will develop their portfolio of work that will assist them in gaining entry level employment, earning admittance into college film/video, television/radio broadcasting, and audio production programs, as well as securing post-secondary scholarships. Additional time beyond regular school hours is required for productions. See page 210 for additional information on internships or visit our website at www.nisdtx.org/cte.

ACCOUNTING AND FINANCIAL SERVICES

Accounting and Financial Services: Discover how to manage personal wealth and financial stability for business. Investigate financial principles, systems, and processes for business operations and personal financial responsibility.

Potential Careers: Accountant and Auditor, Bookkeeper, Financial Account Representative
(Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

				
Recommended Course Sequence	Principles of Business, Marketing and Finance (1 credit)	Accounting I (1 credit)	Financial Analysis (1 credit)	Securities and Investments (1 credit)

Principles of Business, Marketing, and Finance

In this course students explore basic business operations for the sale of goods and services, advertising strategies businesses use, and financial management for business.

Course Numbers: CT.0868 | 13011200

Credits: 1

Grade Placement: 9-11

Semesters: 2

Required Prerequisite: None

Accounting I

Students investigate the field of accounting, and the processes of recording, reporting, and disclosing financial information for a business. Students formulate and interpret

financial information for use in management decision making.

Course Numbers: 0506 | 13016600

Credits: 1

Grade Placement: 10-12

Semesters: 2

Recommended Prerequisite: Principles of Business, Marketing, and Finance

Certification: Intuit QuickBooks Certified User

Financial Analysis

Students apply knowledge and technical skills in the economic, financial, technological, international, social, and ethical aspects of business to become competent consumers, employees, and entrepreneurs. Students will develop analytical skills by actively evaluating financial results of multiple businesses, interpreting results for stakeholders, and presenting strategic recommendations for performance improvement.

Course Numbers: CT.920 | 13016800

Credits: 1

Grade Placement: 11-12

Semesters: 2

Prerequisite: Algebra I and Accounting I

Securities and Investments

This course is designed to provide students with a fundamental understanding of the world of finance, stocks, bonds, investments, and investment strategies. Whether you dream of becoming a Wall Street wizard or just want to make informed financial decisions, this course will equip you with the knowledge and skills to navigate the exciting world of securities and investments.

Course Numbers: CT.9211 | 13016400

Credits: 1

Grade Placement: 10-12

Semesters: 2

Recommended Prerequisite: Principles of Business, Marketing, and Finance

Additional Opportunities

Business Information Management I

Students develop technical skills creating word-processing documents, spreadsheets, presentations, and using email client/personal information manager using Microsoft Office software. Students will be expected to complete Microsoft Certification exams throughout the course.

Course Numbers: 0839 | 13011400

Credits: 1

Grade Placement: 9-12

Semesters: 2

Required Prerequisite: None

Industry-Based Certifications: Microsoft Office Specialist Certifications: Word Associate, Excel Associate, Outlook Associate, and PowerPoint Associate

Financial Mathematics

Financial mathematics is a course about personal money management. Students will apply critical-thinking skills to analyze personal financial decisions based on current and projected economic factors. This course will integrate career and postsecondary education planning into financial decision making. Students will be encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations. **This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org**

Course Numbers: 0122 | 13018000

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Algebra I or Honors Algebra I

BUSINESS MANAGEMENT AND ENTREPRENEURSHIP ACADEMY (EHS)

Business Management and Entrepreneurship Academy: Build a business as part of the next generation of socially responsible entrepreneurs and global business leaders seeking and finding innovative solutions to today’s challenges.

Potential Careers: Venture Capitalist, Entrepreneur, Event and Marketing Specialist
(Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

				
Recommended Course Sequence	<p>BME Fundamentals Principles in Business, Marketing, and Finance (1 credit)</p>	<p>BME Operations Entrepreneurship I (1 credit)</p>	<p>BME Innovation Entrepreneurship II (1 credit)</p>	<p>BME Capstone Practicum in Business Management/VEI (2 credits) or Business Management Project-Baesd Capstone (1 credit)</p>

Principles of Business, Marketing, and Finance (BME Fundamentals)

This course is designed to provide students with a fundamental understanding of the business world through the lens of innovation and entrepreneurship. Students explore the sale of goods and services, advertising and marketing strategies businesses implement, and financial management for a business. Students begin skill training in Microsoft Office and additional industry recognized certification opportunities.

Course Numbers: CT.0868AC | 13011200

Credits: 1

Grade Placement: 9 (or 10 by Facilitator Approval)

Semesters: 2

Required Prerequisite: Academy facilitator approval

Entrepreneurship I (BME Operations)

In this unique hands-on business startup experience, students will understand the components of a business plan, determine feasibility of an idea using research, and develop and present a business concept. Students gain the knowledge, develop the skills, and learn the key concepts necessary to begin and operate a business. Students continue their pursuit of Microsoft Office and additional industry recognized certifications.

Course Numbers: 8104AC | 13011101

Credits: 1

Grade Placement: 10

Semesters: 2

Required Prerequisite: Academy facilitator approval

Entrepreneurship II (BME Innovation)

Students continue to hone their passion for problem solving and innovation as they develop skills necessary to start, operate, and grow a small business. Includes essential management skills, how to prepare a business plan, accounting, financial needs, staffing, marketing strategies, and legal issues. Students explore case studies in global business to learn strategies for success in business. Students continue their pursuit of Microsoft Office and additional industry recognized certifications.

Course Numbers: CT.0502AC | 13011102

Credits: 1

Grade Placement: 11

Semesters: 2

Required Prerequisite: Academy facilitator approval

VEI Business Management and Practicum in Business Management (BME Capstone) (Internship)

Student teams develop a business plan for a virtual start-up business and participate in marketing and selling their product in the Virtual Enterprises International virtual economy. In this student led and operated virtual business, students assume specific job roles and responsibilities for “their VEI firm.” Students incorporate a broad base of knowledge that includes the legal, managerial, marketing, financial, ethical, and international dimensions of business to make appropriate business decisions. In order to participate in internships or Virtual Enterprises International students will need prior approval from the academy facilitator. See page 210 for additional information on internships or visit our website at www.nisdtx.org/cte.

Practicum in Business Management/VEI Team (BME Capstone) (Internship)

PRACI-BL-BUSM (VEI)

Course Numbers First Time Taken:

CT.B865AC | 13012200

Credits: 2

Grade Placement: 12

Semesters: 2

Required Prerequisite: Academy facilitator recommendation and approval; Eligibility verification at district level is required. See Academy facilitator for more information.

Practicum in Business Management/Extended/ VEI Team (BME Capstone) (Internship)

Credits: 3

Grade Placement: 12

Semesters: 2

Required Prerequisite: Academy facilitator approval; Eligibility verification at district level is required.

Project-Based Capstone - Business Management

This course is designed to familiarize students with the concepts related to business management as

well as the functions of management including, planning, organizing, staffing, leading, and controlling. Partnering with their teacher and/or mentor, students will complete an independent research project relevant to the functions of business management. Students conduct research, compile findings, implement project activities appropriate to student contribution, and formally present their work to a relevant audience that may include industry experts.

Course Numbers: CT.0911AC | 12701101

Credits: 1

Grade Placement: 12

Semesters: 2

Required Prerequisite: Academy facilitator recommendation and approval; Eligibility verification at district level is required. See Academy Facilitator for more information.

Additional Opportunities

Accounting I

Students investigate the field of accounting, and the processes of recording, reporting, and disclosing financial information for a business.

Students formulate and interpret financial information for use in management decision making.

Course Numbers: CT.0506AC | 13016600

Credits: 1

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: None

Certification: Intuit QuickBooks Certified User

Business Law

Students will analyze various aspects of the legal environment of business including ethics, the judicial system, contracts, patents, trademarks, personal property, sales, agency and

employment, business organization, real property, and business risk management.

Course Numbers: CT.0504 | 13011700

Credits: 1

Grade Placement: 11-12

Semesters: 2

Recommended Prerequisite: None for BME Academy students

Financial Analysis

Students apply knowledge and technical skills in the economic, financial, technological, international, social, and ethical aspects of business to become competent consumers,

employees, and entrepreneurs. Students will develop analytical skills by actively evaluating financial results of multiple businesses, interpreting results for stakeholders, and presenting strategic recommendations for performance improvement.

Course Numbers: CT.920 | 13016800

Credits: 1

Grade Placement: 11-12

Credits: 1

Grade Placement: 10-12

Semesters: 2

Recommended Prerequisite: Principles of Business, Marketing, and Finance

BUSINESS MANAGEMENT

Business Management: Develop foundational business knowledge, industry recognized skills, and explore the responsibilities and rewards of being a manager for an organization.

Potential Careers: Chief Executive Officer, Purchasing Manager, Executive Assistant
(Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

				
Recommended Course Sequence	Principles of Business, Marketing and Finance (1 credit)	Business Management (1 credit)	Business Information Management I (1 credit)	Business Law (1 credit) or Business Information Management II (1 credit)

Principles of Business, Marketing, and Finance

In this course students explore basic business operations for the sale of goods and services, advertising strategies businesses use, and financial management for business.

Course Numbers: CT.0868 | 13011200

Credits: 1

Grade Placement: 9-11

Semesters: 2

Required Prerequisite: None

Industry-Based Certifications: Professional Communication Skills (CCS)

Business Management

This course is designed to familiarize students with the concepts related to business management as well as the functions of management including, planning, organizing, staffing, leading, and controlling. Students also demonstrate communication and interpersonal skills to accomplish management objectives.

Course Numbers: CT.8101 | 13012100

Credits: 1

Grade Placement: 10-12

Semesters: 2

Recommended Prerequisite: Principles of Business, Marketing, and Finance

Industry-Based Certification: Entrepreneurship and Small Business

Business Information Management I

Students develop technical skills creating word-processing documents, spreadsheets, presentations, and using email client/personal information manager using Microsoft Office software. Students will be expected to complete Microsoft Certification exams throughout the course.

Course Numbers: 0839 | 13011400

Credits: 1

Grade Placement: 9-12

Semesters: 2

Required Prerequisite: None

Industry-Based Certifications: Microsoft Office Specialist Certifications - Word Associate, Excel Associate, and PowerPoint Associate

Business Law

Students will analyze various aspects of the legal environment of business including ethics, the judicial system, contracts, patents, trademarks, personal property, sales, agency and employment, business organization, real property, and business risk management.

Course Numbers: CT.0504 | 13011700

Credits: 1

Grade Placement: 11-12

Semesters: 2

Recommended Prerequisite: Business Management

Business Information Management II

Students apply technical skills to address business applications of emerging technologies, create complex word-processing documents, develop sophisticated spreadsheets using charts and graphs, and produce advanced electronic presentations using appropriate multimedia software. Students will be expected to complete advanced Microsoft Certification exams throughout this course.

Course Numbers: 0840 | 13011500

Credits: 1

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: Business Information Management I

Industry-Based Certifications: Microsoft Office Specialist Certifications - Word Expert and Excel Expert

Additional Opportunities

Practicum in Business Management (Internship)

Practicum in Business Management is designed to give students supervised practical application of previously studied knowledge and skills in business. Practicum students apply business technical skills they have learned in a work-place environment. Students are placed in a variety of locations appropriate to the nature and level of student experience. See page 210 for additional information on internships or visit our website at www.nisdtx.org/cte.

Required Prerequisite: None

Corequisite: Career Preparation General or Career Preparation for Programs of Study

Recommended Prerequisite: At least one credit in a career and technical education course.

Certifications: Microsoft Office Specialist Certifications - Word Associate, Excel Associate, Outlook Associate, PowerPoint Associate, Word Expert, Excel Expert, Entrepreneurship and Small Business, and OSHA - 10

EARLY LEARNING

Early Learning: Explore the fascinating world of working with children ages zero to four.

Potential Careers: Assistant Childcare Provider, Toy Design Consultant, or Child Life Specialist
(Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

Route 1: Recommended Course Sequence		
9th Grade		Principles of Education and Training (1 credit)
10th Grade		Child Development (1 credit)
11th Grade		Child Guidance (2 credits)
12th Grade		Practicum in Early Learning (2 credits)

Route 2: Recommended Course Sequence		
8th Grade		Principles of Human Services (1 credit)
9th Grade		Principles of Education and Training (1 credit)
10th Grade		Child Development (1 credit)
11th Grade		Child Guidance (2 credits)
12th Grade		Practicum in Early Learning (2 credits)

Principles of Human Services

Principles of Human Services uses knowledge and skills in family studies and human development to enhance personal development, foster quality relationships, promote wellness

of family members, and manage multiple adult roles. This course introduces students to careers in counseling and mental health, child development, family and community, personal care services and consumer services.

Course Numbers: 0801 | 13024200

Credits: 1

Grade Placement: 9-11

Semesters: 2

Required Prerequisite: None

Principles of Education and Training

This course covers a variety of topics including learning processes, education theory, classroom management, child development and lesson planning. Students will

research careers and topics in education including teacher training, interview processes and ethics in the workplace. Students will experience field-based teaching observation opportunities and create a portfolio that will serve as a foundation for future education courses.

Course Numbers: 08071 | 13014200

Credits: 1

Grade Placement: 9-11

Semesters: 2

Required Prerequisite: None

Child Development

This course examines the development of children focusing on common physical, cognitive, emotional, and social developmental milestones from conception through adolescence.

Students participate in a Reality Works Baby Simulator project, prepare nutritious kid-friendly snacks, investigate careers that work with children and have the opportunity to certify in infant, child and adult CPR.

Course Numbers: CT.0810 | 13024700

Credits: 1

Grade Placement: 10-12

Semesters: 2

Recommended Prerequisite: Principles of Human Services or Principles of Education and Training

Certification: Heartsaver CPR and First Aid Certification

Child Guidance (Internship)

This course is an internship course that addresses the knowledge and skills related to child growth and guidance. Students use these skills to promote the well-being and healthy development of children, strengthen a culturally diverse society, and pursue careers related to the care, guidance, and education of children, including those with special needs.

Course Numbers: CT.B0820 | 13024800

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Child Development; Eligibility verification at district level is required.

Certifications: AAFCS Early Childhood Education credential, Child Development Associate (CDA) certification (begin two-year process to certify)

Practicum in Early Learning (Internship)

Practicum provides a unique experience that allows students the opportunity to participate in a learning environment that combines classroom instruction with real

business and industry career experiences through an internship. Students will gain academic and career preparation to pursue high demand and high skill careers. See page 210 for additional information on internships or visit our website at www.nisdtx.org/cte.

Course Numbers: CT.B8081 | 13014520

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Child Guidance. Eligibility verification at district level is required.

Certifications: Educational Aide I, Child Development Associate (CDA) certification (complete two-year process to certify)

Practicum in Early Learning/Extended Practicum in Early Learning

PRAC-EXI-BL-EDTR

Course Numbers First Time Taken: CT.BX8081 | 13014525

Credits: 3

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Child Guidance; Eligibility verification at district level is required.

Corequisite: Practicum in Early Learning. This course must be taken concurrently with Practicum in Early Learning and may not be taken as a stand-alone course.

Certifications: Educational Aide I Child Development Associate (CDA) certification (complete two-year process to certify)

TEACHING AND TRAINING

Teaching and Training: Teach and coach side-by-side with professional educators in a variety of school settings.

Potential Careers: Camp Assistant, Personal Trainer, or Elementary/Secondary Teacher
(Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

Route 1: Recommended Course Sequence		
9th Grade		Principles of Education and Training (1 credit)
10th Grade		Child Development (1 credit)
11th Grade		Instructional Practices (2 credits)
12th Grade		Practicum in Education and Training (2 credits)

Certification: Heartsaver CPR and First Aid Certification

Instructional Practices (Internship)

This course is a field-based internship in which students work under the joint direction of their course instructor and a mentor teacher on an NISD Elementary, Middle or High School campus. Students learn to plan and direct instruction, develop materials for educational environments, assist with record keeping, and complete other responsibilities of teachers, trainers, paraprofessionals, and other educational personnel.

Course Numbers: CT.B0808 | 13014400

Credits: 2

Grade Placement: 11-12

Semesters: 2

Recommended Prerequisites: Principles of Education and Training and Child Development

DC Introduction to the Teaching Profession (EDUC 1301) for Instructional Practices

The course provides students with opportunities to participate in early field observations at all levels of K-12 schools with varied and diverse student populations and provides students with support from college and school faculty, preferably in small cohort groups, for the purpose of introduction to and analysis of the culture of schooling and classrooms. Course content should be aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards; and the course must include a minimum of 16 contact hours of field experience in P-12 classrooms. This course requires 16 hours of field observation internship. Criminal background check required prior to enrolling. Field experience required. Along with Tarleton State University requirements for course completion; students must meet additional NISD course expectations and internship responsibilities in order to receive credit for this course. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr.

Course Numbers: CT.D909075 | 13014400

PLTW Introduction to Engineering Design (IED)

In this course, students dig deep into the engineering design process, applying math, science, and engineering standards to hands-on projects. They work both individually and in teams to design solutions to a variety of problems using 3-D modeling software, and use an engineering notebook to document their work.

Course Numbers: 08413AC | N1303742

Credits: 1

Grade Placement: 9-11

Semesters: 2

Required Prerequisite: Academy facilitator approval

Engineering Design and Presentation I (EDPI)

Through problems that engage and challenge, students explore a broad range of engineering topics, including mechanisms, the strength of structures and materials, and automation. Students develop skills in problem solving, research, and design while learning strategies for design process documentation, collaboration, and presentation. This course is a required STEM course.

Course Numbers: CT.4203 | 13036500

Credits: 1

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: PLTW Introduction to Engineering Design (IED); Algebra I

Engineering Design and Presentation II (EDPII)

Through implementation of the design process, students will transfer advanced academic skills from previous courses to this course focused in mechatronics and robotics. Students will design, model, build and test prototypes. Course work will include robotic coding and building to meet an objective.

Course Numbers: CT.4204 | 13036600

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: PLTW Introduction to Engineering Design (IED); EDPI (POE), Algebra I and Geometry

PLTW Aerospace Engineering (AE)

This course propels students' learning in the fundamentals of atmospheric and space flight. As they explore the physics of flight, students bring the concepts to life by designing an airfoil, propulsion system, rockets, and robot systems.

Course Numbers: CT.9108AC | N1303745

Credits: 1

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: PLTW Introduction to Engineering (IED); Academy facilitator approval

PLTW Civil Engineering and Architecture (CEA)

Students learn important aspects of building and site design and development. They apply math, science, and standard engineering practices to design both residential and commercial projects and document their work using 3-D architectural design software.

Course Numbers: CT.9109AC | N1303747

Credits: 1

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: PLTW Introduction to Engineering (IED); Academy facilitator approval

Digital Electronics (DE) (PLTW)

This course provides a foundation for students who are interested in electrical engineering, electronics, or circuit design. Students explore the foundations of computing by engaging in circuit design processes to create combinational logic and sequential logic (memory) as electrical engineers do in industry. This course is an elective course and is in addition to the four math credits required of STEM Academy students. It will not be included in the calculation of the weighted GPA.

Course Numbers: CT.9116AC | 13037600

Credits: 1

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: PLTW IED, Algebra I and Geometry, Academy facilitator approval

Honors Computer Science I

This course will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will understand Computer Science through the study of technology operations, systems and concepts using TechSmart Curriculum. Course studies include the coding language Python, analyzing and designing algorithms, and demonstrating proficiency in digital citizenship. Professional skills, like collaboration and communication, portfolio building are key elements. Certifications will be earned in Microsoft Word. This course may be used as a Language Other than English credit and will be included in the calculation of the weighted GPA. **Please note, not all colleges/universities accept Computer Science to fulfill world language requirements. This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org**

Course Numbers: CT.0849 | 03580200

Weighted GPA: Level 2

Course Numbers: CT.0849H | 03580200

Weighted GPA: Level 3 (Class of 2026 and beyond)

Credits: 1

Grade Placement: 9-12

Semesters: 2

Required Prerequisite: Algebra I

Scientific Research and Design Science, Technology, Engineering, and Mathematics (Environmental Sustainability)

In this PLTW course, students investigate and design solutions in response to real-world challenges related to clean and abundant drinking water, food supply, and renewable energy. This course satisfies a high school science graduation requirement and will be included in the calculation of the weighted GPA.

SRD-BL-STEM

Course Numbers: CT.B418AC | 13037200

Credits: 1

Grade Placement: 11-12

Semesters: 2

Weighted GPA: Level 2

Required Prerequisite: PLTW IED; Academy facilitator approval; Biology, Chemistry, Integrated Physics and Chemistry (IPC), or Physics

PLTW Engineering Design and Development (EDD)

The knowledge and skills students acquire throughout PLTW Engineering come together in this capstone course as they identify an issue and then research, design, and test a solution, ultimately presenting their solution to a panel of engineers. Students apply the professional skills they have developed to document the design process and solution.

Course Numbers: CT.9110AC | N1303749

Credits: 1

Grade Placement: 12

Semesters: 2

Required Prerequisite: PLTW Introduction to Engineering (IED), PLTW Principles of Engineering (POE); Academy facilitator approval

Practicum in Science, Technology, Engineering, and Mathematics (STEM Academy) (Internship)

This course is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. See page 210 for additional information on internships or visit our website at www.nisdtx.org/cte.

PRACI-BL-STEM

Course Numbers First Time Taken:

CT.B911 | 13037400

PRACII-BL-STEM

Course Numbers Second Time Taken:

CT.B922 | 13037410

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Algebra I, Geometry, Academy facilitator approval; Eligibility verification at district level is required. See Academy facilitator for more information.

Recommended Prerequisite: Two Engineering courses

Engineering Design and Problem Solving (EDPS)

In this course, students will work in a simulated work environment to complete large scale projects designed by the teacher and student or client. Coursework will include some observation or industry mentor opportunities. Students will build a professional portfolio showcasing their knowledge and skills. Certifications will be earned in OSHA 30 and other advanced industry based certifications. *This course is an optional STEM course and is in addition to the four science credits required of STEM Academy students. It will be included in the calculation of the weighted GPA.

Course Numbers: CT.4103 | 13037300

Credits: 1

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: PLTW Introduction to Engineering (IED), PLTW Principles of Engineering (POE); Academy facilitator approval

Additional Opportunities

Honors Computer Science II

This course includes exploration into creating, modifying, and testing the codes, forms and scripts that allow computer applications to run. Students will use the programming language Python and TechSmart Curriculum to work both individually and collaboratively to solve problems. Course studies will include locating, analyzing, processing and organizing data, comparing operating systems, software applications, hardware platforms and programming languages. Certifications will be earned in Certified Entry-Level Python Programmer (PCEP). This course may be used as a Language Other than English credit and will be included in the calculation of the weighted GPA. **Please note, not all colleges/universities accept Computer Science to fulfill world language requirements. This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org**

Course Numbers: CT.0859HAC | 03580300

Weighted GPA: Level 3 (Class of 2026 and beyond)

Credits: 1

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: Algebra I, Computer Science I

Honors Computer Science III

Students will build on previous knowledge and skills in this advanced computer science course. Course studies include comparing and contrasting high-level programming languages, model ethical acquisition and use of digital information, developing algorithms to solve problems. Curriculum will include TechSmart and incorporate HTML/CSS. Certifications will be earned in Microsoft Office and industry based certifications. This course may be used as a Language Other than English credit and will be included in the calculation of the weighted GPA. **Please note, not all colleges/universities accept Computer Science to fulfill world language requirements. This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org**

Course Numbers: CT.0869HAC | 03580350

Credits: 1

Grade Placement: 11-12

Semesters: 2

Weighted GPA: Level 3

Required Prerequisite: Computer Science II

Foundations of Cybersecurity (PLTW Cybersecurity [CS])

This course introduces the tools and concepts of cybersecurity and encourages students to create solutions that allow people to share computing resources while protecting privacy.

Course Numbers: CT.9115 | 03580850

Credits: 1

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: PLTW IED, Computer Science I; Academy facilitator approval

BIOMEDICAL SCIENCES ACADEMY (BNHS)

The Biomedical Sciences Academy aligns with the
Biomedical Science Program of Study.

Biomedical Sciences Academy: The Biomedical Sciences program of study focuses on the study of biology and medicine in order to introduce CTE learners to the knowledge and skills necessary to be successful in the healthcare field, such as researching and diagnosing diseases, pre-existing conditions, or other determinants of health.

Potential Careers: Patient Care Technician, DNA Analyst, or Microbiologist
(Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

	9th Grade	10th Grade	11th Grade	12th Grade
PLTW Academy Courses	 PLTW Principles of Biomedical Sciences (PBS) (1 credit)	 PLTW Human Body Systems (HBS) (1 credit)	 PLTW Medical Interventions (MI) (1 credit)	 PLTW Biomedical Innovation (BI) (1 credit)
Suggested Courses	Honors Biology	Honors Chemistry	AP Biology or AP Chemistry	Advanced Animal Science, Forensic Science, or Statistics

PLTW Principles of Biomedical Sciences

Principles of Biomedical Sciences is an exciting and rigorous course where students explore concepts of biology and medicine as they take on roles of different medical professionals to solve real-world problems. Over the course of the year, students are challenged in various scenarios including investigating a crime scene to solve a mystery, diagnosing and proposing treatment to patients in a family medical practice, to tracking down and containing a medical outbreak at a local hospital, stabilizing a patient during an emergency, and collaborating with others to design solutions to local and global medical problems.

Course Numbers: 3100AC | N1302092

Credits: 1

Grade Placement: 9

Semesters: 2

Required Prerequisite: Academy facilitator approval

PLTW Human Body Systems

Human Body Systems is a dynamic, lab based course that examines how our bodies function and maintain homeostasis. Students use interactive labs to investigate the structures and functions of the human body, and use data acquisition software to monitor body functions such as muscle movement, reflex and voluntary action, and respiration. Exploring science in action, students build organs and tissues on a skeletal manikin, work through interesting real world cases and often play the roles of biomedical professionals to solve medical mysteries.

Course Numbers: 3105AC | N1302093

Credits: 1

Grade Placement: 10

Semesters: 2

Required Prerequisite: Principles of Biomedical Sciences; Academy facilitator approval

PLTW Medical Interventions

Medical Interventions allows students to investigate a variety of interventions involved in the prevention, diagnosis and treatment of disease as they follow the life of a fictitious family. The course is a “How-To” manual for maintaining overall health and homeostasis in the body. Students explore how to prevent and fight infection; screen and evaluate the code in human DNA; prevent, diagnose and treat cancer; and prevail when the organs of the body begin to fail. Through these scenarios, students are exposed to a range of interventions related to immunology, surgery, genetics, pharmacology, medical devices and diagnostics.

Course Numbers: 3106AC | N1302094

Credits: 1

Grade Placement: 11

Semesters: 2

Required Prerequisite: Human Body Systems; Academy facilitator approval

PLTW Biomedical Innovation

Biomedical Innovation offers students the opportunity to design innovative solutions for the health challenges of the 21st century. They work through progressively challenging open-ended problems, addressing topics such as clinical medicine, physiology, biomedical engineering, and public health. They have the opportunity to work on an independent research design project with a mentor from a university, medical facility, or research institution. An examination for BLS CPR, BACE and Microsoft Excel is required by the end of the course. *Additional requirements and documents for this course.

Course Numbers: 3107AC | N1302095

Credits: 1

Grade Placement: 12

Semesters: 2

Required Prerequisite: Medical Interventions; Eligibility verification at district level is required. See Health Science Coordinator for more information.

Certifications: Biotechnician Assistant Certification, Basic Life Support (BLS) CPR, and Microsoft Excel

HEALTH SCIENCE

Health Science: The health science program of study focuses on occupational and educational opportunities associated with diagnosing and treating acute, episodic, or chronic illness independently or as part of a healthcare team. This program of study includes exploration of patient treatment and rehabilitative programs that help build or restore daily living skills to persons with disabilities or developmental delays.

Potential Careers: Clinical Medical Assistant, EKG Technician, Emergency Medical Technician, Nurse, Physician, or Infection Control Consultant.

(Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

				
Recommended Course Sequence	Principles of Health Science (1 credit)	Health Science Theory (1 credit)	Anatomy and Physiology (1 credit)	Practicum in Health Science (CCMA or EMT) (2 credits)

Principles of Health Science

The Principles of Health Science course is designed to provide an overview of the therapeutic, diagnostic, health informatics, support services, and biotechnology research and development systems

of the healthcare industry. Course content includes interpersonal relationships, anatomy and physiology, ethical/legal responsibilities, health care team concept, medical terminology, basic medical emergency practices, and investigation of various health service related careers. Students will have the opportunity to complete the OSHA 10 hour training program.

Course Numbers: 0890 | 13020200

Credits: 1

Grade Placement: 9-10

Semesters: 2

Required Prerequisite: None

Certifications: Heartsaver CPR

Health Science Theory

This course will foster hands-on exploration through 15 two week modules using Paxton Patterson curriculum which will provide students the opportunity to

increase their awareness of the various healthcare careers and skills needed to successfully prepare for the healthcare industry and work toward industry certifications in the future practicum courses.

Course Numbers: 0895 | 13020400

Credits: 1

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: Biology and a course from the Health Science Career Cluster.

Anatomy and Physiology

Anatomy and Physiology is designed for students interested in biological, medical, and health oriented programs. Students will study the structures and functions

of the human body. The body's systems will be investigated as to the body's responses to forces, maintenance of homeostasis, electrical interactions, transport systems, and energy systems. The topics will be presented through an integration of biology, chemistry, and physics. In this laboratory course, the students conduct laboratory investigations, perform dissections, use scientific methods during investigations, and make informed decisions using critical thinking and problem solving. This course satisfies a high school science graduation requirement and will be included in the calculation of the weighted GPA.

Course Numbers: 0211 | 13020600

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 2

Required Prerequisite: Biology or Honors Biology, and a second science credit; a course from the Health Science Career Cluster is recommended.

Practicum in Health Science (EMT & EKG) (Internship)

This course is designed to give students practical application of previously studied knowledge and skills in order to become an industry certified EMT. Practicum experiences

can occur in a variety of clinical locations appropriate to the nature and level of experience. An examination for CPR, EKG and Emergency Medical Technician- Basic is required by the end of the course. See page 210 for additional information on internships or visit our website at www.nisdtx.org/cte. ***Additional requirements and documents for this course.**

PRACI-BL-HST-EMT

First Time Taken Course Numbers:

CT.B0897 | 13020500

PRACII-BL-HST-EMT

Second Time Taken Course Numbers:

CT.B0997 | 13020510

Credits: 2

Grade Placement: 12

Semesters: 2

Required Prerequisite: Health Science Theory and Biology; Eligibility verification at district level is required.

Recommended Prerequisite: Anatomy and Physiology

Certifications: Emergency Medical Technician-Basic, Certified EKG Technician and Adult/Child/Infant BLS CPR

Practicum in Health Science (CCMA & EKG) (Internship)

Practicum in Health Science is a course designed to give students practical application of previously studied knowledge and skills.

Practicum provides a unique experience that allows students the opportunity to participate in a learning environment that combines classroom instruction with real business and industry career experiences in a professional medical setting. There is an emphasis on phlebotomy, CPR, vital signs, and nursing skills. An examination for CPR, CCMA and EKG is required by the end of the course. See page 210 for additional information on internships or visit our website at www.nisdtx.org/cte. ***Additional requirements and documents for this course.**

PRACI-BL-HST-CMA

First Time Taken Course Numbers:

CT.B0988 | 13020500

PRACII-BL-HST-CMA

Second Time Taken Course Numbers:

CT.B0998 | 13020510

Credits: 2

Grade Placement: 12

Semesters: 2

Required Prerequisite: Health Science Theory and Biology; Eligibility verification at district level is required.

Recommended Prerequisite: Anatomy and Physiology

Certifications: Certified Clinical Medical Assistant, Certified EKG Technician, and Adult/Child/Infant BLS CPR

Additional Opportunities

Medical Terminology (Online only - outside of the school day)

Medical Terminology is a course that uses the human body as a guide to familiarize students with vocabulary concerning abbreviations, symbols, medical procedures and pathological conditions. Students will gain knowledge of medical terminology through the course of study by identifying word parts and the meanings of the words parts. This course is taken outside of the school day where students work at their own pace; however, the student must complete the course in the same semester in which it was started.

Course Numbers: 0891 | 13020300

Credits: 1

Grade Placement: 9-12

Semesters: 2

Required Prerequisite: Students in the Health Science Program of Study only

CULINARY ARTS AND HOSPITALITY ACADEMY (BNHS)

CAHA aligns with the Culinary Arts Program of Study.

Culinary Arts and Hospitality Academy: Craft innovative dishes alongside professional chefs using advanced industry equipment.

Potential Careers: Event and Catering Manager, Restaurant Manager, or Executive Chef
(Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

				
Recommended Course Sequence	Principles of Hospitality & Tourism (1 credit)	Intro to Culinary Arts (1 credit)	Culinary Arts (2 credits)	Practicum in Culinary Arts/Extended Practicum in Culinary Arts (3 credits)

Culinary Arts Dual Credit Scheduling	College Course Title	College Hours
Freshman Year Principles of Hospitality and Tourism (1 HS Credit)	Principles of Food & Beverage Operations (HAMG 2301)	3
Sophomore Year Introduction to Culinary Arts (1 HS Credit)	Dining Room Service (RSTO 1304), Sanitation and Safety (CHEF 1305)	6
Junior Year Culinary Arts (2 HS Credits)	Basic Food Preparation (CHEF 1301), Purchasing for Hospitality (RSTO 1325), Fundamentals of Baking (PSTR 1301)	9
Senior Year Practicum in Culinary Arts/ Extended Practicum in Culinary Arts (3 HS Credits)	Intermediate Food Preparation (CHEF 2301), Principles of Healthy Cuisine (CHEF 1302)	6

Student will Complete the Culinary Arts I Certificate and have 24 hours toward their Culinary Arts AAS

Principles of Hospitality and Tourism A

Students learn knowledge and skills focusing on communication, time management, and customer service that meet industry standards.

Students will explore the history of the hospitality and tourism industry and examine characteristics needed for success in that industry.

Course Numbers: 7101AC | 13022200

Credits: 1

Grade Placement: 9

Semesters: 2

Certification: ServSafe Food Handlers

DC Principles of Food and Beverage Operations (HAMG 2301) for Principles of Hospitality and Tourism B

An overview of food and beverage management in various hospitality environments. Emphasizes cost controls from procurement to marketing & sales. Examines

forecasting, menu planning and pricing, logistical support, production, purchasing, and quality assurance.

Course Numbers: CT.D9710 | 13022200

Credits: 1

Grade Placement: 9

Semesters: 2

DC Sanitation and Safety and Dining Room Service (CHEF 1305 and RSTO 1304) for Introduction to Culinary Arts

Sanitation and Safety is a study of personal cleanliness; sanitation practices in food preparation; causes, investigation, control of illness caused by food contamination (Hazard

Analysis Critical Control Points); and work safety standards. Dining Room Service introduces the principles, concepts, and systems of professional table service. Topics include dining room organization, scheduling, and management of food-service personnel.

Course Numbers: 7103AC | 13022550

Credits: 1

Grade Placement: 10

Semesters: 2

Recommended Prerequisite: Principles of Hospitality and Tourism

DC Basic Food Preparations, Purchasing for Hospitality, and Fundamentals of Baking (CHEF 1301, RSTO 1325, and PSTR 1301) for Culinary Arts

Basic Food Preparations is the study of the fundamental principles of food preparation and cookery to include Brigade System, cooking techniques, material handling, heat transfer, sanitation, safety, nutrition, and professionalism. Purchasing for Hospitality is the study of purchasing and inventory management of foods and other supplies to include development of purchase specifications, determination of order quantities, formal and informal price comparisons, proper receiving procedures, storage management, and issue procedures. Emphasis on product cost analysis, yields, pricing formulas, controls, and record keeping at each state of the purchasing cycle. Fundamentals of Baking covers the fundamentals of baking including dough, quick breads, pies, cakes, cookies, tarts. Instruction in flours, fillings, and ingredients. Topics include baking terminology, tool and equipment use, formula conversions, functions of ingredients, and the evaluation of baked products.

Course Numbers: D7104AC | 13022600

Credits: 2

Grade Placement: 11

Semesters: 2

Required Prerequisite: Parent, counselor, principal, and college approval; CHEF 1305

DC Intermediate Food Preparation and Principles of Healthy Cuisine (CHEF 2301 and 1302) for Practicum in Culinary Arts/Extended Practicum in Culinary Arts (Internship)

Intermediate Food Preparation is the continuation of previous food preparation course. Topics include concept of pre-cooked food items, as well as scratch preparation. Covers full range of food preparation techniques. Master the identification of spices, herbs, oils, and vinegars; discuss and prepare various proteins; discuss and prepare various fruits, vegetables, and starches; discuss and prepare sandwiches and salads. Principles of Healthy Cuisine is an introduction to the principles of planning, preparation, and presentation of nutritionally balanced meals. Adaptation of basic cooking techniques to lower the fat and caloric content. Alternative methods and ingredients will be used to achieve a healthier cooking style. Modify recipes and substitute ingredients to reduce calories, sugar, fat, and sodium; create recipes using healthy techniques; identify common food allergies and special dietary needs; relate nutritional guidelines to diets and recipe production.

Course Numbers: CTD7200AC | 13022705

Credits: 3

Grade Placement: 12

Semesters: 2

Required Prerequisite: Parent, counselor, principal, and college approval; Eligibility verification at district level is required. See Academy facilitator for more information; Fall: CHEF 1301 and CHEF 1305, Spring: CHEF 2301

COSMETOLOGY ACADEMY (NHS)

The Cosmetology Academy aligns with the Cosmetology and Personal Care Services Program of Study.

Cosmetology Academy: Operate and experience a full-service interactive salon and spa environment.

Potential Careers: Licensed Cosmetologist, Licensed Esthetician, Salon/Spa Manager, or Dermatology/Medical Spa Assistant. (Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

				
Recommended Course Sequence	No 9th Grade course offered.	No 10th Grade course offered.	<ul style="list-style-type: none"> • Cosmetology I with Lab (3 credits) and • Intro to Cosmetology (1 credit) 	<ul style="list-style-type: none"> • Cosmetology II with Lab (3 credits) and • Intro to Cosmetology (1 credit for 25-26 only)

Intro to Cosmetology

Students will coordinate integration of academic, career, and technical knowledge and skills in this laboratory instructional sequence course designed to provide job-specific training for employment in cosmetology careers. Instruction includes sterilization and sanitation procedures, hair care, nail care, and skin care and meets the Texas Department of Licensing and Regulation (TDLR) requirements for licensure upon passing the state examination. Analysis of career opportunities, license requirements, knowledge and skills expectations, and development of workplace skills are included. Students will receive 1 additional credit for Intro to Cosmetology which will be awarded on a Pass/Fail basis upon successful completion of Cosmetology I with Lab.

Course Numbers: CT.0886AC | 13025100

Credits: 1

Grade Placement: 11-12

Semesters: 2

Cosmetology I with Lab

Students will coordinate integration of academic, career, and technical knowledge and skills in this laboratory instructional sequence course designed to provide job-specific training for employment in cosmetology careers. Instruction includes sterilization and sanitation procedures, hair care, nail care, and skin care and meets the Texas Department of Licensing and Regulation (TDLR) requirements for licensure upon passing the state examination. Analysis of career opportunities, license requirements, knowledge and skills expectations, and development of workplace skills are included. Students will receive 1 additional credit for Intro to Cosmetology which will be awarded on a Pass/Fail basis upon successful completion of Cosmetology I with Lab.

Course Numbers: CT.9112AC | 13025210

Credits: 3

Grade Placement: 10-11

Semesters: 2

Cosmetology II with Lab

Students will demonstrate proficiency in academic, technical, and practical knowledge and skills. The content is designed to provide the occupational skills required for licensure. Instruction includes advanced training in professional standards/employability skills; Texas Department of Licensing and Regulation (TDLR) rules and regulations; use of tools, equipment, technologies and materials; and practical skills.

Course Numbers: CT.9113AC | 13025310

Credits: 3

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Cosmetology I

Certification: Cosmetology License and an opportunity for dual license in Cosmetology and Class A Barber with successful completion of Cosmetology II

FAMILY AND COMMUNITY SERVICES

Family and Community Services: Investigate complex social and emotional challenges to understand their effects on individuals, communities, and society.

Potential Careers: Community Health Worker, Family Therapist, or Social Worker
(Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

Route 1: Recommended Course Sequence		
9th Grade		Principles of Human Services (1 credit)
10th Grade		Family and Community Services (1 credit)
11th Grade		Counseling and Mental Health (1 credit)
12th Grade		Practicum in Human Services (2 credits)

Route 2: Recommended Course Sequence		
7th Grade		Lifetime Nutrition Wellness (.5 credit) / Interpersonal Studies (.5 credit)
8th Grade		Principles of Human Services (1 credit)
9th Grade		Family and Community Services (1 credit)
10th Grade		Counseling and Mental Health (1 credit)
11th Grade		Practicum in Human Services (2 credits)
12th Grade		Extended Practicum in Human Services (3 credits)

Principles of Human Services

Principles of Human Services uses knowledge and skills in family studies and human development to enhance personal development, foster quality relationships, promote wellness

of family members, and manage multiple adult roles. This course introduces students to careers in counseling and mental health, child development, family and community, personal care services and consumer services.

Course Numbers: 0801 | 13024200

Credits: 1

Grade Placement: 9-11

Semesters: 2

Required Prerequisite: None

Family and Community Services

Family and Community Services is a laboratory course that prepares students for employment in counseling and mental health, family and community services, personal

care, and consumer services. Students will plan, develop, implement, and evaluate community and service-learning activities that benefit individuals, families, or the community. Emphasis is placed on developing organizational and leadership skills.

Course Numbers: CT.0100 | 13024900

Credits: 1

Grade Placement: 9-12

Semesters: 2

Recommended Prerequisite: Principles of Human Services

Counseling and Mental Health

Counseling and mental health investigates careers in counseling, mental health and social work. This class explores material in counseling and mental health as it relates to

health & wellness across the life span. Students will study the psychological effects of chemical dependency, mental health issues and apply knowledge of ethical and legal responsibilities for counseling and mental health professionals.

Course Numbers: 0893 | 13024600

Credits: 1

Grade Placement: 10-12

Semesters: 2

Recommended Prerequisite: Principles of Human Services and Family and Community Services

Practicum in Human Services (Internship)

Practicum provides a unique experience that allows students the opportunity to participate in a learning environment that combines classroom instruction with real

business and industry career experiences through an internship. Students will gain academic and career preparation to pursue high demand and high skill careers. See page 210 for additional information on internships or visit our website at www.nisdtx.org/cte.

PRACI-BL-HUMS

Course Numbers First Time Taken:

CT.B0801 | 13025000

PRACII-BL-HUMS

Course Numbers Second Time Taken:

CT.B0885 | 13025010

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Eligibility verification at district level is required.

Certification: Community Health Worker

Practicum in Human Services/Extended Practicum in Human Services (Internship)

See page 210 for additional information on internships or visit our website at www.nisdtx.org/cte.

PRAC-EXI-BL-HUMS

Course Numbers First Time Taken:

CT.B876AC | 13025005

PRAC-EXII-BL-HUMS

Course Numbers Second Time Taken:

CT.B0886 | 13025015

Credits: 3

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Facilitator approval; Eligibility verification at district level is required. Must enroll concurrently in Practicum in Human Services.

Certification: Community Health Worker

NETWORKING SYSTEMS

Networking Systems: Design, install, and troubleshoot complex network systems.

Potential Careers: Helpdesk Technician, Cloud Architect, or Computer Hardware Engineer
 (Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

				
Recommended Course Sequence	No 9th Grade course offered.	Computer Maintenance (1 credit)	Networking (1 credit)	Practicum in Information Technology (2 credits)
				Independent Study in Technology Applications (1 credit)

Computer Maintenance

Students will apply technical skills to address the IT industry and emerging technologies using TestOut Curriculum. The course will include knowledge of computer maintenance,

hardware design & operation, operating systems, installation of software, evaluation of software applications and configuration of network systems. Students will work through IT maintenance simulations to troubleshoot computer software and hardware problems to diagnose issues. Course work will include certifications in PC Pro and Microsoft Word. Students may prepare for the CompTIA A+ exam.

Course Numbers: CT.918 | 13027300

Credits: 1

Grade Placement: 10–12

Semesters: 2

Required Prerequisite: Principles of Information Technology

Networking

Students will develop knowledge and skills related to data networking technologies and practices to apply them in personal or career development using TestOut

Curriculum. Course studies will include professional skills such as communication and problem solving as well as working with a customer. Students will be able to analyze telecommunications and data network services to address industry needs. Course work will include creating a network design plan with appropriate documentation and a preventative maintenance plan. Certifications will be earned in Network Pro and Microsoft Excel. Students may prepare for the CompTIA Network+ exam.

Course Numbers: CT.919 | 13027400

Credits: 1

Grade Placement: 10–12

Semesters: 2

Required Prerequisites: Computer Maintenance

Independent Study in Technology Applications

In Independent Study in Technology Applications, students will work in a simulated work environment in the field of IT to complete large scale projects designed by the teacher and

mentor. Students will identify a problem in IT and work to research, create solutions and design a product or service that solves the problem. The final presentation will include a project portfolio presented to a panel of professionals using formal presentation skills. Certifications will be earned in Microsoft Excel Expert and a CompTIA certification. *Students will work with their teacher, mentor and coordinator to plan their year.*

INDSTUDY-IT

Course Numbers: 0834 | 03580900

Credits: 1

Grade Placement: 12

Semesters: 2

Required Prerequisite: Eligibility verification at district level is required.

Recommended Prerequisite: A minimum of one credit from the courses in the Information Technology Career Cluster

Practicum in Information Technology

Professional skills, like critical thinking and problem solving, combined with IT experience and knowledge will be a key part of this course. The course could include an on-campus internship, off-campus internship or mentorship with an industry professional. Students will work with their mentor to identify a problem in the IT field, conduct research, create a solution, develop a strategy to address the problem, then design a product or service that solves the problem. A project portfolio will be presented to a panel of professionals using formal presentation skills. Students will also continue to develop a professional portfolio showcasing their accomplishments, knowledge and skills, certifications and artifacts. Certifications will be earned in Microsoft Excel Expert and a CompTIA certification. *Students will work with their teacher, mentor and coordinator to plan their year.*

Course Numbers First Time Taken:

CT.B0833 | 13028000

PRACII-BL-IT

Course Numbers Second Time Taken:

CT.B0843 | 13028010

Credits: 2

Grade Placement: 12

Semesters: 2

Required Prerequisite: A minimum of two high school information technology (IT) courses; Eligibility verification at district level is required.

Additional Opportunities

Computer Science I/ Honors Computer Science I

This course will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will understand Computer Science through the study of technology operations, systems and concepts using TechSmart Curriculum. Course studies include the coding language Python, analyzing and designing algorithms, and demonstrating proficiency in digital citizenship. Professional skills, like collaboration and communication, portfolio building are key elements. Students will prepare for the Certified Entry-Level Python Programmer (PCEP) certification. This course may be used as a Language Other than English credit and will be included in the calculation of the weighted GPA. **Please note, not all colleges/universities accept Computer Science to fulfill world language requirements. This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org**

Course Numbers: CT.0849 | 03580200
Weighted GPA: Level 2
Course Numbers: CT.0849H | 03580200
Weighted GPA: Level 3 (Class of 2026 and beyond)
Credits: 1
Grade Placement: 9-12
Semesters: 2
Required Prerequisite: Algebra I

PROGRAMMING AND SOFTWARE DEVELOPMENT

Programming and Software Development: Work individually and in teams to develop and engineer the code that powers the modern world.

Potential Careers: Tech Support, Java Developer, or Network Engineer
 (Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

				
Recommended Course Sequence	Computer Science I/Honors Computer Science I* (1 credit)	Computer Science II/Honors Computer Science II* (1 credit)	Honors Computer Science III* (1 credit)	Practicum in Information Technology (2-3 credits)
				Independent Study in Technology Applications (1 credit)

*NOTE: Computer Science I, II, and III satisfy state requirements for Languages other than English (LOTE)

Computer Science I/ Honors Computer Science I

Grade Placement: 9-12
Semesters: 2
Required Prerequisite: Algebra I

Computer Science II/ Honors Computer Science II

This course includes exploration into creating, modifying, and testing the codes, forms and scripts that allow computer applications to run. Students will use the programming language Python and TechSmart Curriculum to work both individually and collaboratively to solve problems. Course studies will include locating, analyzing, processing and organizing data, comparing operating systems, software applications, hardware platforms and programming languages. Certifications will be earned in Certified Entry Level Python Programmer (PCEP). This course may be used as a Language Other than English credit and will be included in the calculation of the weighted GPA. **Please note, not all colleges/universities accept Computer Science to fulfill world language requirements. This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org**

Weighted GPA: Level 3 (Class of 2026 and beyond)
Credits: 1
Grade Placement: 10-12
Semesters: 2
Required Prerequisite: Algebra I, Computer Science I

Honors Computer Science III

Students will build on previous knowledge and skills in this advanced computer science course. Course studies include comparing and contrasting high-level programming languages, model ethical acquisition and use of digital information, developing algorithms to solve problems. Curriculum will incorporate HTML/CSS. Certifications will be earned in Microsoft Office and industry based certifications. This course may be used as a Language Other than English credit and will be included in the calculation of the weighted GPA. **Please note, not all colleges/universities accept Computer Science to fulfill world language requirements. This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org**
Course Numbers: CT.0869H | 03580350
Credits: 1
Grade Placement: 11-12
Semesters: 2
Weighted GPA: Level 3
Required Prerequisite: Computer Science II

Practicum in Information Technology

Professional skills, like critical thinking and problem solving, combined with IT experience and knowledge will be a key part of this course. The course could include an on-campus internship, off-campus internship or mentorship with an industry professional. Students will work with their mentor to identify a problem in the IT field, conduct research, create a solution, develop a strategy to address the problem, then design a product or service that solves the problem. A project portfolio will be presented to a panel of professionals using formal presentation skills. Students will also continue to develop a professional portfolio showcasing their accomplishments, knowledge and skills, certifications and artifacts. Certifications will be earned in Microsoft Excel Expert and Advanced Industry Based Certification. *Students will work with their teacher, mentor and coordinator to plan their year.*

PRACI-BL-IT

Course Numbers First Time Taken:

CT.B0833 | 13028000

PRACII-BL-IT

Course Numbers Second Time Taken:

CT.B0843 | 13028010

Credits: 2

Grade Placement: 12

Semesters: 2

Required Prerequisite: A minimum of two high school information technology (IT) courses; Eligibility verification at district level is required.

Independent Study in Technology Applications

In Independent Study in Technology Applications, students will work in a simulated work environment in the field of IT to complete large scale projects designed by the teacher and mentor. Students will identify a problem in IT and work to research, create solutions and design a product or service that solves the problem. The final presentation will include a project portfolio presented to a panel of professionals using formal presentation skills. Certifications will be earned in Microsoft Excel Expert and advanced industry based certifications. *Students will work with their teacher, mentor and coordinator to plan their year.*

INDSTUDY-IT

Course Numbers: 0834 | 03580900

Credits: 1

Grade Placement: 12

Semesters: 2

Required Prerequisite: Eligibility verification at district level is required.

Recommended Prerequisite: A minimum of one credit from the courses in the Information Technology Career Cluster

ADVANCED MANUFACTURING

Advanced Manufacturing: Partner with structural, mechanical, electrical, and industrial engineering firms to gain real-world experience.

Potential Careers: Engineering Technician, Metal Model Maker, or Mechanical Engineer
 (Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

				
Recommended Course Sequence	Principles of Manufacturing (1 credit)	Manufacturing Engineering Technology I (1 credit)	Manufacturing Engineering Technology II (1 credit)	Practicum in Manufacturing (2 credits)

Principles of Manufacturing

This course is an introduction to manufacturing processes and technology used to solve problems. Students will learn about the tools, technology and processes used to influence manufacturing practices. Students will learn sketching techniques to create multi-view drawings and interpret blueprint drawings including dimensions, notes, symbols, sections and auxiliary views. Professional employability skills like teamwork, communication, safety and portfolios will be a key element in this course. Students will have the opportunity to complete the OSHA 10 hour training program and be certified in C-101 Certified Industry 4.0 Associate_Basic Operations.

Course Numbers: CT.0892 | 13032200

Credits: 1

Grade Placement: 9-10

Semesters: 2

Required Prerequisite: None

Manufacturing Engineering Technology I

In this course, students will gain knowledge and skills in the application, design, production, and assessment of products, services, and systems and how they are applied to manufacturing. Course studies will include working in CAD to complete designs, writing programmable logic controls for robot systems, designing products using a CNC machine/lathe, working with mechanical, fluid, thermal and electrical systems. Students will understand quality-control systems through the use of industrial standards and Pareto charts. Professional employability skills like teamwork, communication, safety and portfolios will be a key element in this course. Students will have the opportunity to earn the SolidWorks CSWA Certification.

Course Numbers: CT.4105 | 13032900

Credits: 1

Grade Placement: 10-12

Semesters: 2

Required Prerequisite: None

Recommended Prerequisite: Principles of Manufacturing

Manufacturing Engineering Technology II

Students will reinforce, apply, and transfer knowledge and skills to develop systems using electrical controls and pneumatics or hydraulics devices, troubleshoot programmable logic controls for robot systems and develop a product on a CNC machine/lathe. Coursework will include using mathematical processes to analyze mathematical relationships, communicate ideas, and justify mathematical ideas/arguments using precise language in both written and oral communication. Students will have the opportunity to FANUC Robot Operator I Certification. This course counts as a Math credit. **This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org.**

Course Numbers: CT.4106 | 13032950

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 2

Required Prerequisite: Manufacturing Engineering Technology I

Recommended Prerequisite: Algebra II, Computer Science I, or Physics

Practicum in Manufacturing

This course is designed to provide practical application of knowledge and skills gained in prior courses. Students will work to build a professional portfolio showcasing their knowledge and skills while working with their instructor and workplace mentor to plan a large-scale project planning, managing and performing the processing of materials into final products for the course.

Course Numbers First Time Taken:

CT.B0992 | 13033000

Course Numbers Second Time Taken:

CT.B0993 | 13033010

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: None

Practicum in Manufacturing/ Extended Practicum in Manufacturing

This course is designed to provide practical application of knowledge and skills gained in prior courses. Students will work to build a professional portfolio showcasing their knowledge and skills while working with their instructor and workplace mentor to plan a large-scale project planning, managing and performing the processing of materials into final products for the course.

Course Numbers First Time Taken:

CT.BX992 | 13033005

Course Numbers Second Time Taken:

CT.BX993 | 13033015

Credits: 3

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: None

AVIATION ACADEMY (EHS)

The Aviation Academy aligns with three Programs of Study:

Aviation Maintenance
Aviation (Flight)
Drone (Unmanned Flight)

Aviation Academy: Explore modern military and commercial aviation in a high-demand, high-wage field meeting Federal Aviation Administration (FAA) standards.

Potential Careers: Aircraft Maintenance Technician, Pilot, Drone (UAS) Pilot, Airworthiness Inspector, or Air Traffic Controller (Find more potential careers on the NISD CTE website at www.nisdtx.org/cte.)

	1st Year	2nd Year	3rd Year	4th Year
Aviation Maintenance* (TCCD)	Introduction to Aerospace and Aviation [1 HS Credit]	Introduction to Aircraft Technology [1 HS Credit]	DC Aircraft Airframe Tech (Dual Credit) [3 HS Credits]	DC Aircraft Powerplant Technology/Advanced Transportation Systems Laboratory (Dual Credit) [3 HS Credits]
Drone (Unmanned Flight)	Introduction to Aerospace and Aviation [1 HS Credit]	Introduction to Aircraft Technology [1 HS Credit]	Introduction to Unmanned Aerial Vehicles [1 HS Credit]	Practicum in Transportation Systems First Time Taken [2 HS Credits]
Aviation (Flight)** (EHS/TCCD)	Introduction to Aerospace and Aviation [1 HS Credit]	Introduction to Aircraft Technology [1 HS Credit]	Aviation Ground School [1 HS Credit] (EHS)	Private Pilot (TCCD)
				Practicum in Transportation Systems/Extended Practicum in Transportation Systems First Time Taken (Dual Credit) [3 HS Credits]
				Private Pilot (Simulator)
				Practicum in Transportation Systems First Time Taken [2 HS Credits] (EHS)

Seniors in the Aviation Academy wanting to take PBC/senior release must have completed all online dual credit courses, edgenuity courses for original credit, or edgenuity Academic Coaching Program (ACP) courses. Dual Credit Private Pilot Students must also pass the FAA Private Pilot written exam administered in quarter two of their senior year.

Dual Credit Courses offered throughout the program will be determined by the college in partnership with the Academy Facilitator.

* During their junior and senior years, students in the Aviation Mechanics Pathway will take two dual credit courses each semester. Completion of TSIA-2 ELAR and Mathematics is required for TCC enrollment. In addition, many of these courses require a high-stakes FAA regulated exam that must be passed in order to pass the class.

** During their senior year, students in the TCC Private Pilot Pathway will take two dual credit courses each semester. Completion of TSIA-2 ELAR and Mathematics may be required for TCC enrollment. In addition, many of these courses require a high-stakes FAA regulated exam that must be passed in order to pass the class.

Introduction to Aerospace and Aviation

Provides the foundation for advanced exploration in the areas of professional pilot, aerospace engineering, and unmanned aircraft systems. Students will learn about the history of

aviation, from Leonardo da Vinci's ideas about flight to the Wright brothers and the space race.

Course Numbers: CT.9109 | N1304672

Credits: 1

Grade Placement: 9-10

Semesters: 2

Required Prerequisite: Aviation Academy students only; Academy facilitator approval

Introduction to Aircraft Technology

Students will develop an understanding of the theory of operation of aircraft airframes, powerplants, and associated maintenance and repair practices.

Maintenance and repair practices include knowledge of the function, diagnosis, and service of general curriculum subjects, airframe structures, airframe systems and components, powerplant theory and maintenance, and powerplant systems and components of aircraft.

Course Numbers: CT.9104AC | 13039350

Credits: 1

Grade Placement: 9-12

Semesters: 2

Required Prerequisite: Aviation Academy students only; Academy facilitator approval.

Mandatory for all Academy of Aviation students.

Practicum in Transportation Systems

Students will develop an understanding of practical application of knowledge and skills. Course will consist of several Dual Credit course options taken each semester

from Tarrant County College and the Center for Excellence in Aviation, Transportation and Logistics.

PRACI-BL-TDL

Course Numbers First Time Taken:

CT.B915AC | 13040450

PRACII-BL-TDL

Course Numbers Second Time Taken:

CT.B925AC | 13040460

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Facilitator approval; Eligibility verification at district level is required. See Academy facilitator for more information.

Recommended Prerequisite: Introduction to Aircraft Technology

DC Practicum in Transportation Systems/ Extended Practicum in Transportation Systems

Extended Practicum in Transportation Systems is designed to give students supervised practical application of knowledge and skills. Course will consist of several Dual Credit course options taken each semester from Tarrant County College and the Center for Excellence in Aviation, Transportation and Logistics.

PRAC-EXI-BL-TDL

Course Numbers First Time Taken:

CT.B916AC | 13040455

PRAC-EXII-BL-TDL

Course Numbers Second Time Taken:

CT.B926AC | 13040465

Credits: 3

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Facilitator approval; Eligibility verification at district level is required. See Academy facilitator for more information.

Certification: Any of the Transportation Systems Career Cluster Certifications that correlate to the student's pathway.

Project-Based Capstone Transportation, Distribution, and Logistics

Project-Based Capstone is a course for students to research a real-world problem. Students are matched with a mentor from the business or professional community to develop an original project on a topic related to career interests. Students use scientific methods of investigation to conduct in-depth research, compile findings, and present their findings to an audience that includes experts in the field. To attain academic success, students must have opportunities to learn, reinforce, apply, and transfer their knowledge and skills in a variety of settings.

PBCI-BL-TDL

Course Numbers First Time Taken:

CT.B0925 | 12701101

PBCII-BL-TDL

Course Numbers Second Time Taken:

CT.B0926 | 12701102

PBCIII-BL-TDL

Course Numbers Third Time Taken:

CT.B0927 | 12701103

Credits: 1

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Facilitator approval

Principles of Transportation Systems

Students will gain knowledge and skills in the safe application, design, production, and assessment of products, services, and systems. This knowledge includes the history, laws and regulations, and common practices used in the transportation industry. Students should apply knowledge and skills in the application, design, and production of technology as it relates to the transportation industries. This course allows students to reinforce, apply, and transfer their academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings.

Course Numbers: CT.9102AC | 13039250

Credits: 1

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Facilitator approval

Aviation Ground School

This course is designed to extend student interests in all aspects of aviation while preparing students to take the formal ground requisite exam for the Federal Aviation Administration (FAA) FAA Airman Knowledge Test which is required to obtain a private pilot's license. The rigor of the course challenges students with complex aeronautical, engineering, weather, management and judgment concepts. Rules, regulations, obligations, and commitments to discipline and focus are foundational throughout the course. The ability to grasp flight without actually flying a real aircraft extends well beyond the classroom as students learn navigation, weather science, attention to detail (mathematical fuel and load planning), health and mental well-being related to flight planning and piloting aircraft.

Course Numbers: CT.9209 | N1304675

Credits: 1

Grade Placement: 11-12

Semesters: 2

Prerequisite: Facilitator approval

Introduction to Unmanned Aerial Vehicles (UAV)

The Introduction to Unmanned Aerial Vehicles (UAV) Flight course is designed to prepare students for entry-level employment or continuing degrees in piloting UAV operations.

This course is designed to instruct students in UAV flight navigation, industry laws and regulations, and safety regulations.

Course Numbers: CT.9106 | N1304670

Credits: 1

Grade Placement: 11-12

Semesters: 2

Prerequisite: Intro to Aerospace & Aviation, Intro to Aircraft Technology

DC Aircraft Airframe Technology/Advanced Transportation Systems Laboratory

Students will develop an understanding of the theory of operation of aircraft airframes and associated maintenance and repair practices. Airframe maintenance and repair practices include knowledge of the function, diagnosis, and service of airframe structures, systems, and components of aircraft. Course will consist of several Dual Credit course options taken each semester from Tarrant County College and the Center for Excellence in Aviation, Transportation and Logistics. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr.

Course Numbers: CT.D94210 | 13039410

Credits: 3

Grade Placement: 11-12

Semesters: 2

Prerequisite: Introduction to Aircraft Tech; Academy Facilitator, parent, counselor, principal, and college approval

DC Aircraft Powerplant Technology/Advanced Transportation Systems Laboratory

Students will develop an understanding of the theory of operation of aircraft powerplants and associated maintenance and repair practices. Powerplant maintenance and repair practices include knowledge of the theory, function, diagnosis, and service of powerplant, systems, and components of aircraft. Course will consist of several Dual Credit course options taken each semester from Tarrant County College and the Center for Excellence in Aviation, Transportation and Logistics.

Course Numbers: CT.D4212AC | 13039510

Credits: 3

Grade Placement: 11-12

Semesters: 2

Prerequisite: Introduction to Aircraft Tech;
Academy Facilitator and College Approval

Aviation Academy Dual Credit Courses

Tarrant County College – Professional Pilot and Aviation Maintenance Technology Courses

The following information is from the Tarrant County College, Erma C. Johnson Hadley Northwest Center of Excellence for Aviation, Transportation and Logistics website. Students are encouraged to work with their Academy Facilitator and the TCC staff to ensure that the courses they choose match their academic goals. Please visit the TCC website for a complete list of courses, program requirements, and fees.

Some courses may not be available each semester.

Professional Pilot Dual Credit Courses

Private Flight

Flight and ground training to prepare student for completion of the Federal Aviation Administration Private Pilot Certificate.

See the TCC website for information concerning projected flight costs.

Course Number: AIRP 1215

TCC Semester Hours: 2

Lecture Hours: 0

Laboratory Hours: 4

Intermediate Flight

Provides students with flight hours and skills necessary to fulfill cross-country hours required for the Federal Aviation Administration Commercial Pilot certificate. See the TCC website for information concerning projected flight costs.

Course Number: AIRP 1255

TCC Semester Hours: 2

Lecture Hours: 0

Laboratory Hours: 5

Air Navigation

Instruction in visual flight rules navigation in the National Airspace System. Topics include, flight computers, plotters, navigation logs, and publications.

Course Number: AIRP 1301

TCC Semester Hours: 3

Lecture Hours: 3

Laboratory Hours: 0

Aviation Meteorology

Coverage of meteorological phenomena affecting aircraft flight. Topics include basic concepts of aviation meteorology in the study of temperature, pressure, moisture, stability, clouds, air masses, fronts, thunderstorms, icing, and fog. Also includes analysis and use of weather data for flight planning.

Course Number: AIRP 1307

TCC Semester Hours: 3

Lecture Hours: 3

Laboratory Hours: 0

Introduction to Aviation

A study of the historical development of the aviation industry, including key events in civil, military, and space exploration and an overview of legislation relating to aviation.

Course Number: AIRP 1313

TCC Semester Hours: 3

Lecture Hours: 3

Laboratory Hours: 0

Private Pilot Ground School

Ground school for the Federal Aviation Administration Private Pilot Certificate, providing the student with the necessary aeronautical knowledge that can be used for Private Pilot Certification. Topics include principles of flight, radio procedures, weather, navigation, aerodynamics, and Federal Aviation Administration regulations.

Course Number: AIRP 1317

TCC Semester Hours: 3

Lecture Hours: 3

Laboratory Hours: 0

Advanced Air Navigation

Skill development in advanced airplane systems and performance including radio navigation and cross-country flight planning. Includes an introduction to instrument flight operations and navigation.

Course Number: AIRP 1341

TCC Semester Hours: 3

Lecture Hours: 3

Laboratory Hours: 0

Aerodynamics

Study of the physical laws of flight. Topics include physical terms and the four forces of flight. Aircraft design, stability control, and high-speed flight characteristics are also included.

Course Number: AIRP 1343

TCC Semester Hours: 3

Lecture Hours: 3

Laboratory Hours: 0

Aviation Safety

A study of the fundamentals essential to the safety of flight. A survey of the aviation industry including decision-making factors, accident reporting, accident investigation, air traffic systems, aircraft technologies, and accident case studies.

Course Number: AIRP 1345

TCC Semester Hours: 3

Lecture Hours: 3

Laboratory Hours: 0

Instrument Ground School

A study of basic instrument radio and navigation fundamentals used in instrument flight. Topics include a description and practical use of navigation systems and instruments, charts used for instrument flight, and Federal Aviation Administration regulations.

Course Number: AIRP 1451

TCC Semester Hours: 4

Lecture Hours: 4

Laboratory Hours: 0

Recommended Corequisite: AIRP 2250

Aircraft Systems

Study of the theory, operation, and application of pneumatic, hydraulic, electrical, fuel, environmental, protection, and warning systems. Emphasis on subsystems and control systems.

Course Number: AIRP 2333

TCC Semester Hours: 3

Lecture Hours: 3

Laboratory Hours: 0

Commercial Ground School

A study of advanced aviation topics used for Federal Aviation Administration certification at the commercial pilot level. Preparation for the Federal Aviation Administration Airman Certification Standards for Commercial Pilot Certificate.

Course Number: AIRP 2337

TCC Semester Hours: 3

Lecture Hours: 3

Laboratory Hours: 0

Instrument Flight

Preparation for the Federal Aviation Administration Airman Certification Standards for the Instrument Rating.

See the TCC website for information concerning projected flight costs.

Course Number: AIRP 2250

TCC Semester Hours: 2

Lecture Hours: 0

Laboratory Hours: 4

Aviation Maintenance Technology Dual Credit Courses

Introduction to Aviation

An overview of aviation maintenance including the history of aviation, the mechanic's roles and duties, and nomenclature of aircraft and safety.

Course Number: AERM 1101

TCC Semester Hours: 1

Lecture Hours: 1

Laboratory Hours: 0

Weight and Balance

An introduction to Federal Aviation Administration (FAA) required subjects relating to the weighing of aircraft, the performance of weight-and-balance calculations, and appropriate maintenance record entries.

Course Number: AERM 1205

TCC Semester Hours: 2

Lecture Hours: 1

Laboratory Hours: 2

Required Prerequisite/Corequisite: AERM 1208

Federal Aviation Regulations

A course in the use and understanding of the Federal Aviation Administration (FAA) and aircraft manufacturers' publications, forms, and records; and the exercise of mechanic privileges within prescribed limitations. Regulations and research via CD-ROM.

Course Number: AERM 1208

TCC Semester Hours: 2

Lecture Hours: 1

Laboratory Hours: 3

Shop Practices

An introduction to shop safety, the correct use of hand tools, equipment and precision measurement, identification of aircraft hardware, and the fabrication of fluid lines and tubing. Emphasis on procedures for testing, heat treating, and inspection of aircraft structures.

Course Number: AERM 1303

TCC Semester Hours: 3

Lecture Hours: 2

Laboratory Hours: 3

Ground Operations

An introductory course in fuels, servicing methods, safety procedures, aircraft movement, securing and operations of aircraft, external power equipment, aircraft cleaning, and corrosion control.

Course Number: AERM 1310

TCC Semester Hours: 3

Lecture Hours: 2

Laboratory Hours: 3

Basic Electricity

A study of aircraft electrical systems and their requirements including the use of the ammeter, voltmeter, and ohmmeter; series and parallel circuits; inductance and capacitance; magnetism; converting alternating current (AC) to direct current (DC); controlling devices; maintenance and servicing of aircraft batteries; and reading and interpreting aircraft electrical diagrams to include solid state devices and logic functions. Fundamentals of safety also addressed.

Course Number: AERM 1314

TCC Semester Hours: 3

Lecture Hours: 2

Laboratory Hours: 4

Aviation Science

Fundamentals of mathematics, physics, and drawing as they apply to aircraft principles and operations as required by the Federal Aviation Administration (FAA) for airframe and powerplant mechanics.

Course Number: AERM 1315

TCC Semester Hours: 3

Lecture Hours: 2

Laboratory Hours: 2

Aircraft Propellers

Fundamentals of propeller design, function and construction. Skill development in inspection, servicing, and repair of fixed-pitch, constant-speed, and feathering propellers and governing systems. Instruction in removal, balancing, installation of propellers, and safety procedures are also addressed.

Course Number: AERM 1340

TCC Semester Hours: 3

Lecture Hours: 2

Laboratory Hours: 2

Aircraft Reciprocating Engines

Reciprocating engines, their development, operating principles, and theory. Includes engine instruments, lubrication, and exhaust systems. Also addresses fundamentals of safety.

Course Number: AERM 1344

TCC Semester Hours: 3

Lecture Hours: 2

Laboratory Hours: 3

Aircraft Turbine Engine Theory

General principles of theory, history, and servicing of turbine engines to include lubrication, instrumentation, auxiliary power units, and exhaust systems. Fundamentals of safety procedures are also addressed.

Course Number: AERM 1351

TCC Semester Hours: 3

Lecture Hours: 2

Laboratory Hours: 3

Aircraft Powerplant

General principles of theory, operation, and maintenance of powerplant electrical systems including ignition, starting, and fire protection systems. Fundamentals of safety procedures will also be addressed.

Course Number: AERM 1456

TCC Semester Hours: 4

Lecture Hours: 2

Laboratory Hours: 6

ADDITIONAL CTE ELECTIVES

Professional Communications

This course blends written, oral, and graphic communication in a career-based environment. Careers in the global economy require individuals to be creative and have a strong background in computer and technology applications, a strong and solid academic foundation, and a proficiency in professional oral and written communication. Within this context, students will be expected to develop and expand the ability to write, read, edit, speak, listen, apply software applications, manipulate computer graphics, and conduct Internet research. This course satisfies a speech credit or skills graduation requirement.

Course Numbers: 0046 | 13009900

Credits: .5

Grade Placement: 9-12

Semesters: 1

Required Prerequisite: None

Professional Communications Online or Off-Campus Dual Credit Opportunity

See page 221 for more information about these opportunities.

DC Business and Professional Communications (SPCH 1321) for Professional Communications

Financial Mathematics

Financial mathematics is a course about personal money management. Students will apply critical-thinking skills to analyze personal financial decisions based on current and projected economic factors. This course will integrate career and postsecondary education planning into financial decision making. Students will be encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations. **This course does not meet NCAA eligibility for student-athletes.**

For more information, visit eligibilitycenter.org

Course Numbers: 0122 | 13018000

Credits: 1

Grade Placement: 10-12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Algebra I or Honors Algebra I

Student to Industry Connection

This course provides students with the opportunity to develop professional relationships with experienced individuals within the student's chosen program of study and to demonstrate necessary skills for an online virtual workplace. Students will learn acceptable virtual etiquette and professionalism for a teleworking environment. The central focus of this course is to prepare students to be 21st century career ready through interaction with a seasoned workplace mentor. The course may include a work-based learning component. Instruction will support students with marketable skills attainment.

Course Numbers: CT.10571 | N1270154

Credits: 1

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: ARD Committee Recommendation

Forensic Science

Forensic Science is a course that introduces students to the application of science to connect a violation of law to a specific criminal, criminal act, or behavior and victim. Students will learn terminology and procedures related to the search and examination of physical evidence in criminal cases as they are performed in a typical crime laboratory. Using scientific methods, students will collect and analyze evidence such as fingerprints, bodily fluids, hairs, fibers, paint, glass, and cartridge cases. Students will also learn the history and the legal aspects as they relate to each discipline of forensic science. This course satisfies a high school science graduation requirement and will be included in the calculation of the weighted GPA. This course is offered in blended format and may not be available on all campuses. Check with your campus counselor for availability.

Course Numbers: 0859 | 13029500

Blended Course Numbers: CT.B08591 | 13029500

Credits: 1

Grade Placement: 11-12

Semesters: 2

Weighted GPA: Level 2

Required Prerequisite: Biology or Honors Biology and Chemistry or Honors Chemistry

CAREER DEVELOPMENT

Career Preparation

Career Preparation General

This course provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with business and industry employment experiences. The goal is to prepare students with a variety of skills for a changing workplace. Students will have the opportunity to complete the OSHA 10 Hour training program. Students must have verified and approved employment that meets approved Training Station Guidelines.

Course Numbers First Time Taken:

1300 | 12701111

Course Numbers Second Time Taken:

1400 | 12701112

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: None

Recommended Prerequisite: At least one credit in a career and technical education course.

Certifications: Microsoft Office Specialist Certifications - Word Associate, Excel Associate, Outlook Associate, PowerPoint Associate, Word Expert, Excel Expert, Entrepreneurship and Small Business, and OSHA - 10

Career Preparation General Extended

Course Numbers First Time Taken:

CT.1301 | 12701131

Course Numbers Second Time Taken:

CT.1401 | 12701132

Credits: 3

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: None

Corequisite: Career Preparation General or Career Preparation for Programs of Study

Recommended Prerequisite: At least one credit in a career and technical education course.

Certifications: Microsoft Office Specialist Certifications - Word Associate, Excel Associate, Outlook Associate, PowerPoint Associate, Word Expert, Excel Expert, Entrepreneurship and Small Business, and OSHA - 10

Career Preparation for Programs of Study

Career Preparation for Programs of Study provides additional opportunities for students to develop business and industry employment experiences, **which must be related to the student's current program of study alongside advanced classroom instruction.** This course provides a continuing focus on collaborative feedback between the employer, teacher, and student. Career Preparation for Programs of Study expands on Career Preparation General by increasing rigor, supporting student attainment of academic standards, and effectively preparing students for college and career success. Students will have the opportunity to complete the OSHA 10 Hour training program. Students must have verified and approved employment that meets approved Training Station Guidelines.

Course Numbers First Time Taken:

CT.1500 | 12701121

Course Numbers Second Time Taken:

CT.1600 | 12701122

Credits: 2

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: Requires transcript review by counselor - at least one Level 2 or higher career and technical education course

Certifications: Microsoft Office Specialist Certifications - Word Associate, Excel Associate, Outlook Associate, PowerPoint Associate, Word Expert, Excel Expert, Entrepreneurship and Small Business, and OSHA - 10

Career Preparation for Programs of Study Extended

Course Numbers First Time Taken:

CT.1700 | 12701141

Course Numbers Second Time Taken:

CT.1800 | 12701142

Credits: 3

Grade Placement: 11-12

Semesters: 2

Required Prerequisite: None

Corequisite: Career Preparation General or Career Preparation for Programs of Study

Recommended Prerequisite: At least one credit in a career and technical education course.

Certifications: Microsoft Office Specialist Certifications - Word Associate, Excel Associate, Outlook Associate, PowerPoint Associate, Word Expert, Excel Expert, Entrepreneurship and Small Business, and OSHA - 10

Project-Based Capstone

CTE Project-Based Capstone is a course designed to develop and enhance college-ready and career-ready professional skills while investigating real-world problems, issues, and interests. Students work independently & collaboratively with others across career fields. Students partner with a mentor or advisor to develop a project. Students conduct research, compile findings, implement project activities, and present their work to a relevant audience that may include industry experts. Students must be CCMR-Met to be eligible to take this course. CCMR-Met status can be earned through college ready or career ready eligibility criteria. Additional requirements include being on track to graduate. See Project-Based Capstone eligibility criteria. Approval to enroll in this course will be determined by district & campus staff.

Course Numbers First Time Taken:

CT.B0771 | 12701101

Course Numbers Second Time Taken:

CT.B0772 | 12701102

Course Numbers Third Time Taken:

CT.B0773 | 12701103

Credits: 1

Grade Placement: 12

Semesters: 2

Required Prerequisite: Eligibility verification at district & campus level is required.

Project-Based Capstone Enrollment Criteria

- Must be a Senior
- 90% Attendance
- Passing all STAAR exams
- On track to graduate with HS Credits
- CCMR-Met - see chart on next page for criteria
- Students must have transportation to release off campus during their release periods
- Students must maintain 90% attendance & passing grades each quarter in Project- Based Capstone to continue to receive their release period.
- Placement at DAEP results in a loss of release periods for the duration of the DAEP placement. When a student returns to their home campus, administration will review eligibility for release.

CCMR-Met Criteria

In order to be eligible for Project-Based Capstone, students must be College Ready or Career Ready based on the below measurements by checking at least ONE of the boxes below.

Your counselor can help you determine where you are on your path to CCMR-Met.

College Ready Criteria	Career Ready Criteria	Additional Eligibility
<ul style="list-style-type: none"> <input type="checkbox"/> Dual-Credit Course Credit - 3 hours in Math or English; or 9 hours in any dual-credit. <input type="checkbox"/> AP Advanced Placement - Meet criteria of a 3 on an AP examination <input type="checkbox"/> OnRamps - Completion of one OnRamps Course <input type="checkbox"/> Meet TSI-Met Criteria - Earn the minimum score on English & Math on any test below. <p>SAT</p> <ul style="list-style-type: none"> • English: 480 • Math: 530 <p>ACT</p> <ul style="list-style-type: none"> • English: 40 • Math: 22 <p>TSIA 2</p> <ul style="list-style-type: none"> • English: 945 • Math: 950 • Essay: 5 <p>TSI-Met can be a combination of more than one exam. For example, achieving SAT English 480 and ACT Math 22 = TSI-Met.</p>	<ul style="list-style-type: none"> <input type="checkbox"/> CTE Completer (complete 3 CTE courses for a total of 4 or more credits in an aligned Program of Study - you can be concurrently enrolled in your last CTE credit your senior year & take the PBC course) 	<p>Students who receive Special Education Services:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Graduate with a complete IEP & workforce readiness* (code 54) <input type="checkbox"/> Complete IEP & mastered specific employability & self help skills* (code 55) <p>*See your special education case manager for more information.</p>
<p>Bonus - CCMR-Met achievement also qualifies students for a CCMR Graduation Honor Cord</p>

Semesters: 2

Required Prerequisite: Approval of the student's Senior Project-Based Capstone application

INTERNSHIP NOTE

The Internship/Practicum program is designed to introduce students to real world work environments and develop skills that will prepare them to make decisions about their post-secondary future. It is the capstone course for students that are completing a coherent sequence of courses within their specific career pathway and it is divided into three important components: classroom instruction, workplace instruction, and credentialing certifications.

Internship Program Objectives:

- To assist students in making career choices - This includes exploring today's job market, setting personal goals, and developing an individual career portfolio.
- To assist students in basic workplace practices - This includes safety, workplace ethics, communication skills, and professionalism training.
- To assist students in professional development - This includes work relationship training, leadership skill development, problem-solving and thinking-skill development, technology applications, and time management skill development.
- Students will work toward industry recognized certifications in their field of study

Depending on the nature of the program of study and level of experience, internships may be offered in a variety of locations such as: on-campus, off-campus or through a mentorship with an industry professional.

Eligibility verification at district level is required.

Must enroll concurrently in Practicum in Practicum
in Transportation Systems.

NON-DISCRIMINATION NOTICE

English

The Northwest Independent School District offers career and technical education programs in Agriculture, Food & Natural Resources, Architecture & Construction, Arts, A/V Technology & Communications, Business, Marketing & Finance, Education & Training, Health Science, Hospitality & Tourism, Human Services, Manufacturing, Information Technology, STEM, and Transportation, Distribution & Logistics. Admission to these programs is based on open enrollment for all pathways. School of choice academies require additional requests.

It is the policy of the Northwest Independent School District not to discriminate on the basis of race, color, national origin, sex or handicap in its vocational programs, services or activities as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Education Amendments of 1972; and Section 504 of the Rehabilitation Act of 1973, as amended.

It is the policy of Northwest Independent School District not to discriminate on the basis of race, color, national origin, sex, handicap, or age in its employment practices as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Education Amendments of 1972; the Age Discrimination Act of 1975, as amended; and Section 504 of the Rehabilitation Act of 1973, as amended.

The Northwest Independent School District will take steps to assure that lack of English language skills will not be a barrier to admission and participation in all educational and vocational programs.

For information about your rights or grievance procedures, contact the Title IX Coordinator, Mary Seltzer, at mseltzer@nisdtx.org, 817-215-0968, and/or the Section 504 Coordinator, Victoria Cole, at victoria.cole@nisdtx.org, 817-698-1067.

Español

Northwest Independent School District ofrece programas de educación técnica y vocacional en Agricultura, Alimentos y Recursos Naturales, Arquitectura y Construcción, Artes, Tecnología A/V y Comunicaciones, Negocio, Márketing y Finanzas, Educación y Capacitación, Ciencias de la Salud, Hospitalidad y Turismo, Servicios Humanos, Fabricación, Tecnología de la Información, Ciencia Tecnología, Ingeniería y Matemáticas y Transporte, Distribución y Logística. La admisión a estos programas se basa en la inscripción abierta para todas las vías. Las academias de la escuela de elección requieren solicitudes adicionales.

Es norma de Northwest Independent School District no discriminar en sus programas, servicios o actividades vocacionales por motivos de raza, color, origen nacional, sexo o impedimento, tal como lo requieren el Título VI de la Ley de Derechos Civiles de 1964, según enmienda; Título IX de las Enmiendas en la Educación de 1972, y la Sección 504 de la Ley de Rehabilitación de 1973, según enmienda.

Es norma de Northwest Independent School District no discriminar en sus procedimientos de empleo por motivos de raza, color, origen nacional, sexo, impedimento o edad, tal como lo requieren el Título VI de la Ley de Derechos Civiles de 1964, según enmienda; Título IX de las Enmiendas en la Educación, de 1972, la ley de Discriminación por Edad, de 1975, según enmienda; y la Sección 504 de la Ley de Rehabilitación de 1973, según enmienda.

Northwest Independent School District tomará las medidas necesarias para asegurar que la falta de habilidad en el uso del inglés no sea un obstáculo para la admisión y participación en todos los programas educativos y vocacionales.

Para información sobre sus derechos o procedimientos de quejas, comuníquese con el Coordinador del Título IX, Mary Seltzer, en mseltzer@nisdtx.org, 817-215-0968, y/o el Coordinador de la Sección 504, Victoria Cole, at victoria.cole@nisdtx.org, 817-698-1067

COMPREHENSIVE SPECIAL EDUCATION

Students experiencing difficulties in school may be referred for services in special education. Before a student can receive special education and/or related services for the first time, an initial evaluation must be conducted. Decisions regarding the provision of special education services are made by an Admission, Review, and Dismissal (ARD) committee. If a student is determined to be eligible for services in accordance with the Texas Education Agency guidelines, an individualized education plan is developed. Instruction that is designed to meet a student's unique educational needs may be provided in a variety of settings. Instructional settings may include (a) general education classroom with accommodations, (b) general education classroom with support, (c) resource classroom, (d) self contained classroom, or (e) a separate campus. Related services necessary for the student to benefit from special education may also be provided.

English

Applied English I, II, III, and IV

These courses modify English I through IV content to meet the individual learning requirements of students as determined by the ARD committee. Applied English I, II, III and IV develop skills and concepts in the areas of reading, writing, speaking, and listening. Emphasis is placed on various domains of writing, the use of written and oral Standard English, study of literary genres, vocabulary enrichment, and the use of critical thinking skills. Research processes are developed as students produce various products and projects. Assignments are made for reading and writing both in class and outside of the classroom. Placement in this course is determined by the ARD committee. *English I and II students are required to pass the State of Texas Assessments of Academic Readiness (STAAR) end-of-course (EOC) English I and II exams to meet part of the graduation requirements.

Applied English I

Course Numbers: 0021R | 03220100

Credits: 1

Grade Placement: 9

Semesters: 2

Weighted GPA: Level 2

Prerequisite: ARD Decision

Applied English II

Course Numbers: 0022R | 03220200

Credits: 1

Grade Placement: 10

Semesters: 2

Weighted GPA: Level 2

Prerequisite: English I, ARD Decision

Applied English III

Course Numbers: 0023R | 03220300

Credits: 1

Grade Placement: 11

Semesters: 2

Weighted GPA: Level 2

Prerequisite: English II, ARD Decision

Applied English IV

Course Numbers: 0024R | 03220400

Credits: 1

Grade Placement: 12

Semesters: 2

Weighted GPA: Level 2

Prerequisite: English III, ARD Decision

Math

Applied Algebra I

This course modifies Algebra I content to meet the individual learning requirements of students as determined by the ARD committee. Applied Algebra I builds and develops on the knowledge and skills from mathematics in Grades 6-8, which provide a foundation in linear relationships, number and operations, and proportionality. Students will study linear, quadratic, and exponential functions and their related transformations, equations, and associated solutions. Students will connect functions and their associated solutions in both mathematical and real-world situations. Students will use technology to collect and explore data and analyze statistical relationships. In addition, students will study polynomials of degree one and two, radical expressions, sequences, and laws of exponents. Students will generate and solve linear systems with two equations and two variables and will create new functions through transformations. Placement in this course is determined by the ARD committee.

Algebra I students are required to pass the State of Texas Assessment of Academic Readiness (STAAR) end-of-course (EOC) Algebra I exam to meet part of the graduation requirements.

Course Numbers: 0104R | 03100500

Credits: 1

Grade Placement: See Prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Pre-Algebra, ARD decision

Applied Geometry

This course modifies Geometry content to meet the individual learning requirements of students as determined by the ARD committee. In Applied Geometry, students will build on the knowledge and skills for mathematics in Kindergarten-Grade 8 and Algebra I to strengthen their mathematical reasoning skills in geometric contexts. Within the course, students will begin to focus on more precise terminology, symbolic representations, and the development of proofs. Students will connect previous knowledge from Algebra I to Geometry through the coordinate and transformational geometry strand. Though this course is primarily Euclidean geometry, students should complete the course with an understanding that non-Euclidean geometries exist. Students will use deductive reasoning to justify, prove and apply theorems about geometric figures. Placement in this course is determined by the ARD committee.

Course Numbers: 0112R | 03100700

Credits: 1

Grade Placement: See Prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Algebra I or Honors Algebra I, ARD decision

Applied Algebraic Reasoning

This course modifies Algebraic Reasoning content to meet the individual learning requirements of students as determined by the ARD committee. Applied Algebraic Reasoning students will broaden their knowledge of multiple representations and linear, quadratic, square root, rational, cubic, cube root, exponential, absolute value, and logarithmic functions. Students will study these functions through analysis and application that includes explorations of patterns and structure, number and algebraic methods, and modeling from data using tools that build to workforce and college readiness such as probes, measurement tools, and software tools, including spreadsheets. Placement in this course is determined by the ARD committee.

Course Numbers: 0125R | 03102540

Credits: 1

Grade Placement: See Prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Algebra I or Honors Algebra I, ARD decision

Applied Financial Mathematics

This course modifies Financial Mathematics content to meet the individual learning requirements of students as determined by the ARD committee. Financial mathematics is a course about personal money management. Students will apply critical thinking skills to analyze personal financial decisions based on current and projected economic factors. This course will integrate career and postsecondary education planning into financial decision making. Students will be encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations. Placement in this course is determined by the ARD committee.

This course does not meet NCAA eligibility for student-athletes. For more information, visit eligibilitycenter.org

Course Numbers: CT.0122R | 13018000

Grade Placement: See Prerequisites

Semesters: 2

Weighted GPA: Level 2

Prerequisite: Algebra I or Honors Algebra I, ARD decision

Applied Algebra II

This course modifies Algebraic Reasoning content to meet the individual learning requirements of students as determined by the ARD committee. In Applied Algebra II, students will build on the knowledge and skills for mathematics in Kindergarten-Grade 8 and Algebra I. Students will broaden their knowledge of quadratic functions, exponential functions, and systems of equations. Students will study logarithmic, square root, cubic, cube root, absolute value, rational functions, and their related equations. Students will connect functions to their inverses and associated equations and solutions in both mathematical and real-world situations. In addition, students will extend their knowledge of data analysis and numeric and algebraic methods. Placement in this course is determined by the ARD committee.

Course Numbers: 0109R | 03100600

Applied Strategic Learning for Math

This course has been developed to offer essential knowledge and support for students as they progress towards achieving grade-level proficiency in math skills. It is specifically tailored for students whose assessment scores indicate that they are currently performing at multiple grade levels below their expected grade level in math. The course activities are centered around enhancing a deeper understanding of grade-level math concepts that are both aligned with and crucial for mastering the current grade level standards. Applied Strategic Learning for High School Mathematics is for elective credit only and does not substitute for Math credit.

Course Numbers: M.10290 | N1110030

Semesters: 2

Weighted GPA: Level 2

Prerequisite: ARD decision

Electives

Applied Reading

This course has been designed to support struggling readers in achieving grade-level proficiency in reading skills. It is specifically tailored for students whose assessment scores indicate that they are currently reading at multiple grade levels below their expected grade level. The course curriculum places a strong emphasis on enhancing comprehension skills, with a primary focus on phonics. Throughout the course, students will acquire high-impact reading and critical thinking strategies that can be applied effectively to a wide variety of both fiction and non-fiction texts. Applied Reading is for elective credit only and does not substitute for English credit.

Applied Reading I

Course Numbers: ELA.00055 | 03270700

College Transition

College Transition is designed to equip students with the knowledge, skills, and abilities necessary to be active and successful learners, both in high school and in college. Students examine numerous research based learning strategies that are proven to lead to academic success such as goal setting, effective time management, handling stress, note taking, active reading, test-taking strategies, and conducting research. In the College Transition course, students will research financial scholarships and grant opportunities, complete applications, and explore technical schools, colleges, and universities. Students will understand the changes in the law as they move from IDEA to ADA and learn how to access accommodations on a post-secondary education campus. Placement in this course is determined by the ARD Committee.

Course Numbers: EL.0711 | N1290050

Credits: 1

Grade Placement: 11-12

Semesters: 2

Prerequisite: ARD Committee Recommendation

Path College Career I

All students deserve academic and social support to help prepare them for the challenges they must face after high school graduation. This course advances intellectual curiosity, conscientiousness, dependability, emotional stability and perseverance through tasks that foster deeper levels of thinking and reasoning. It focuses on developing the habits and skills that are expected in the workforce.

Placement in this course is determined by the ARD Committee.

It focuses on developing the habits and skills that are expected in the workforce.

Placement in this course is determined by the ARD Committee.

Course Numbers: EL.039 | N1290052

Credits: 1

Grade Placement: 12

Semesters: 2

Prerequisite: ARD Committee Recommendation;
Path College Career I

Strategies for Success

All students deserve academic and social support to help prepare them for the challenges they must face after high school graduation. This course advances intellectual curiosity, conscientiousness, dependability, emotional stability and perseverance through tasks that foster deeper levels of thinking and reasoning. It focuses on developing the habits and skills that are expected in the workforce.

Placement in this course is determined by the ARD Committee.

Course Numbers: LC.69110 | 85000SFS

Credits: 1 (local)

Grade Placement: 9-12

Semesters: 2

Prerequisite: ARD Committee Recommendation

Student to Industry Connection

The Student to Industry Connection course provides students with the opportunity to develop professional relationships with experienced individuals within the student's chosen program of study and to demonstrate necessary skills for an online virtual workplace. Students will learn acceptable virtual etiquette and professionalism for a teleworking environment. The central focus of this course is to prepare students to be 21st century career ready through interaction with a seasoned workplace mentor. The course may include a work-based learning component. Instruction will support students with marketable skills attainment.

Course Numbers: CT.10571 | N1270154

Credits: 1

Grade Placement: 10-12

Semesters: 2

Prerequisite: ARD Committee Recommendation

ONLINE OR OFF-CAMPUS DUAL CREDIT OPPORTUNITIES

Tuition varies by partner institution and is based on cost per credit hour (determined by county of residence) + textbooks AND fees. Most, but not all, dual credit courses are 3 credit hours. All dual credit courses require successful completion of the TSIA ELAR and mathematics tests or TSIA exemption based on SAT or ACT scores as indicated. Successful completion of dual enrollment or Advanced Placement exams will not provide an exemption from the testing requirements.

English

DC Composition I (ENGL 1301)

Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course and is offered face-to-face for Steele Early College High School students. **See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr**

DC Composition I (ENGL 1301) for ENG III A, Grade Placement: 11

Course Numbers: ELA.D9231 | 03220300

Credits: .5

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSI Math or TSIA-2 Mathematics and TSI met in Reading and Writing or TSIA-2 ELAR

DC Composition I (ENGL 1301) for ENG IV A, Grade Placement: 12

Course Numbers: D00241 | 03220400

Credits: .5

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSI Math or TSIA-2 Mathematics and TSI met in Reading and Writing or TSIA-2 ELAR

DC Composition II (ENGL 1302)

Intensive study of and practice in the strategies and techniques for developing research-based expository and persuasive texts. Emphasis on effective and ethical rhetorical inquiry, including primary and secondary research methods; critical reading of verbal, visual, and multimedia texts; systematic evaluation, synthesis, and documentation of information sources; and critical thinking about evidence and conclusions. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course and is offered face-to-face for Steele Early College High School students.

See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr

**DC Composition II (ENGL 1302)
for ENG III B, Grade Placement: 11**
Course Numbers: ELA.D9232 | 03220300
Credits: .5

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; ENGL 1301.

**DC Composition II (ENGL 1302)
for ENG IV B, Grade Placement: 12**
Course Numbers: D00242 | 03220400
Credits: .5

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; ENGL 1301.

DC British Literature I (ENGL 2322)
A survey of the development of British literature from the Anglo-Saxon period to the Eighteenth Century. Students will study works of prose, poetry, drama, and fiction in relation to their historical, linguistic, and cultural contexts. Texts will be selected from a diverse group of authors and traditions. To complete registration for all dual credit courses, students must apply and register through the college. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr.

**DC British Literature I (ENGL 2322)
for ENG IV A and B**
Course Numbers: ELA.D90275 | 03220400
Credits: 1

Grade Placement: 12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; ENGL 1301 and 1302

Corequisite: Must enroll in a dual credit course in the fall or spring of the same school year in which they take this course.

**DC British Literature I (ENGL 2322)
for Independent Study in English A or B**
Course Numbers: ELA.D90265 | 03221800
Credits: .5

Grade Placement: 12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; ENGL 1301 and 1302

Corequisite: Must enroll in a dual credit course in the fall or spring of the same school year in which they take this course.

**DC American Literature II
(ENGL 2328)**

A survey of American literature from the Civil War to the present. Students will study works of prose, poetry, drama, and fiction in relation to their historical and cultural contexts. Texts will be selected from among a diverse group of authors for what they reflect and reveal about the evolving American experience and character. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr.

**DC American Literature II
(ENGL 2328) for ENG IV A and B**
Course Numbers: ELA.D9037 | 03220400
Credits: 1

Grade Placement: 12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; ENGL 1301 and 1302

Corequisite: Must enroll in a dual credit course in the fall or spring of the same school year in which they take this course.

**DC American Literature II
(ENGL 2328) for Independent Study in English
A or B**

Course Numbers: ELA.D90365 | 03221800

Credits: .5

Grade Placement: 12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; ENGL 1301 and 1302

Corequisite: Must enroll in a dual credit course in the fall or spring of the same school year in which they take this course.

English Electives

**DC Introduction to Speech Communication
(SPCH 1311) for Communication Applications**

This course provides an introduction to basic human communication and theories embedded in various contexts, including interpersonal, small group, and public speaking. See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr

Course Numbers: D91075 | 03241400

Credits: .5

Grade Placement: 9-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSI Reading, Writing, and Math or TSIA-2 ELAR and Mathematics

**DC Technical & Business Writing (ENGL 2311)
for Business English A and B**

Intensive study of and practice in professional settings. Focus on the types of documents necessary to make decisions and take action on the job, such as proposals, reports, instructions, policies and procedures, email messages, letters, and descriptions of products and services. Practice individual and collaborative processes involved in the creation of ethical and efficient documents. **This course does not meet NCAA eligibility for student-athletes.**

For more information, visit eligibilitycenter.org

NOTE: Completion of this class does not meet the prerequisite requirements to take ENGL 2322 or ENGL 2328. **See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr.**

Course Numbers: CT.D90025 | 13011600

Credits: 1

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; ENGL 1301

Math

DC College Algebra (MATH 1314)

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course. See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr.

DC College Algebra (MATH 1314) for Independent Study in Math A or B

Course Numbers A: M.D90105 | 03102500

Course Numbers B: M.D90106 | 03102500

Credits: .5

Grade Placement: See prerequisites

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; Algebra II or Honors Algebra II; TSI Reading and Writing or TSIA-2 ELAR and TSI met in Math or TSIA -2 Mathematics.

DC Precalculus Mathematics (MATH 2412)

In-depth combined study of algebra, trigonometry, and other topics for calculus readiness. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course. See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr.

DC Precalculus Mathematics (MATH 2412) for Precalculus A and B

Course Numbers: M.D92044 | 03101100

Credits: 1

Grade Placement: See prerequisites

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; MATH 1314 (College Algebra)

DC Precalculus Mathematics (MATH 2412) for Independent Study in Math A or B

Course Numbers: M.D90127 | 03102500

Credits: .5

Grade Placement: See prerequisites

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; MATH 1314 (College Algebra)

DC Elementary Statistics (MATH 1342) for Independent Study in Math A or B

Collection, analysis, presentation and interpretation of data, and probability. Analysis includes descriptive statistics, correlation and regression, confidence intervals and hypothesis testing. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr.

Course Numbers: M.D90128 | 03102500

Credits: .5

Grade Placement: See prerequisites

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; Algebra II or Honors Algebra II; TSI met in Reading, Writing, and Math, or TSIA-2 ELAR and Mathematics

DC Contemporary Mathematics (MATH 1332)

Intended for Non STEM (Science, Technology, Engineering, and Mathematics) majors. Topics include introductory treatments of sets and logic, financial mathematics, probability and statistics with appropriate applications. Number sense, proportional reasoning, estimation, technology, and communication are embedded throughout the course. Additional topics may be covered. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr.

DC Contemporary Mathematics (MATH 1332) for Advanced Quantitative Reasoning A and B

Course Numbers: M.D901074 | 03102510

Credits: 1

Grade Placement: See prerequisites

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSI Reading and Writing or TSIA-2 ELAR and TSI met in Math or TSIA -2 Mathematics

DC Contemporary Mathematics (MATH 1332) for Independent Study in Math A or B

Course Numbers: M.D901084 | 03102500

Credits: .5

Grade Placement: See prerequisites

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSI Reading and Writing or TSIA-2 ELAR and TSI met in Math or TSIA -2 Mathematics

Science

DC Anatomy and Physiology (BIOL 2401) for Anatomy and Physiology A

A study of the structure and function of human anatomy, including the neuroendocrine, integumentary, and musculoskeletal, digestive, urinary, reproductive, respiratory, and circulatory systems. Content may be either integrated or specialized. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr.

Course Numbers: SC.D902111 | 13020600

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSI met in Reading, Writing, and Math or TSIA-2 ELAR and Mathematics

DC Anatomy and Physiology (BIOL 2402) for Anatomy and Physiology B

A study of the structure and function of human anatomy, including the neuroendocrine, integumentary, and musculoskeletal, digestive, urinary, reproductive, respiratory, and circulatory systems. Content may be either integrated or specialized. A continuation of BIOL 2401. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr.

Course Numbers: SC.D902112 | 13020600

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; BIOL 2401

**DC Environmental Biology (BIOL 2406)
for Environmental Systems A and B**

Principles of environmental systems and ecology, including biogeochemical cycles, energy transformations, abiotic interactions, symbiotic relationships, natural resources and their management, lifestyle analysis, evolutionary trends, hazards and risks, and approaches to ecological research. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr

Course Numbers: SC.D90206 | 03020000

Credits: 1

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSI met in Reading, Writing, and Math or TSIA-2 ELAR and Mathematics; Math 1314 recommended

DC General Chemistry I (CHEM 1411)

Fundamental principles of chemistry for majors in the sciences, health sciences, and engineering; topics include measurements, fundamental properties of matter, states of matter, chemical reactions, chemical stoichiometry, periodicity of elemental properties, atomic structure, chemical bonding, molecular structure, solutions, properties of gases, and an introduction to thermodynamics and descriptive chemistry. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course and is offered face-to-face for Steele Early College High School students. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr

**DC General Chemistry I (CHEM 1411)
for Chemistry A**

Course Numbers: SC.D902071 | 03040000

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; MATH 1314 (College Algebra), IPC recommended

**DC General Chemistry I (CHEM 1411)
for Science, Institute of Higher Education
Endorsed (IHE) A**

Course Numbers: SC.D903071 | IHE11200

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; high school Chemistry and Physics, MATH 1314 (College Algebra)

DC General Chemistry II (CHEM 1412)

Chemical equilibrium; phase diagrams and spectrometry; acid-base concepts; thermodynamics; kinetics; electrochemistry; nuclear chemistry; an introduction to organic chemistry and descriptive inorganic chemistry. A continuation of CHEM 1411. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course and is offered face-to-face for Steele Early College High School students. **See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr**

DC General Chemistry II (CHEM 1412) for Chemistry B

Course Numbers: SC.D902072 | 03040000

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; CHEM 1411 (General Chemistry I)

DC General Chemistry II (CHEM 1412) for Science, Institute of Higher Education Endorsed (IHE) B

Course Numbers: SC.D903072 | IHE11200

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; CHEM 1411 (General Chemistry I)

DC College Physics I (PHYS 1401)

Fundamental principles of physics, using algebra and trigonometry; the principles and applications of classical mechanics and thermodynamics, including harmonic motion, mechanical waves and sound, physical systems, Newton's Laws of Motion, and gravitation and other fundamental forces with emphasis on problem solving. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness website for more details: www.nisdtx.org/ccmr**

DC College Physics I (PHYS 1401) for Physics A

Course Numbers: SC.D902161 | 03050000

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; MATH 1314 and MATH 2412 (College Precalculus)

DC College Physics I (PHYS 1401) for Science, Institute of Higher Education Endorsed (IHE) A

Course Numbers: SC.D92161 | IHE11200

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; high school Physics, MATH 1314 (College Algebra) and MATH 2412 (College Precalculus)

DC College Physics II (PHYS 1402) for Physics B

Fundamental principles of physics, using algebra and trigonometry; the principles and applications of electricity and magnetism, including circuits, electrostatics, electromagnetism, waves, sound, light, optics, and modern physics topics; with emphasis on problem solving. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr.

DC College Physics II (PHYS 1402) for Physics B

Course Numbers: SC.D902162 | 03050000

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; PHYS 1401 (College Physics I)

DC College Physics II (PHYS 1402) for Science, Institute of Higher Education Endorsed (IHE) B

Course Numbers: SC.D92162 | IHE11200

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; PHYS 1401 (College Physics I)

DC Stars and Galaxies (PHYS 1403) for Astronomy A

Study of stars, galaxies, and the universe outside our solar system. Laboratory requires night observations. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr

Course Numbers: SC.D902031 | 03060100

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSIA2 ELAR and MATH

DC Solar System (PHYS 1404) for Astronomy B

Study of the sun and its solar system, including its origin. Laboratory requires night observations. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr

Course Numbers: SC.D902032 | 03060100

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSIA2 ELAR and MATH

Social Studies

DC US Government (GOVT 2305)

Origin and development of the US Constitution, structure and powers of the national government including the legislative, executive, and judicial branches, federalism, political participation, the national election process, public policy, civil liberties and civil rights. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course and is offered face-to-face for Steele Early College High School students. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr

Course Numbers: SS.D90304 | 03330100

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSI Math or TSIA-2 Mathematics and TSI met in Reading and Writing or TSIA-2 ELAR

DC Economics (ECON 2301)

An analysis of the economy as a whole including measurement and determination of Aggregate Demand and Aggregate Supply, national income, inflation, and unemployment. Other topics include international trade, economic growth, business cycles, and fiscal policy and monetary policy. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course and is offered face-to-face for Steele Early College High School students. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr

Course Numbers: SS.D90305 | 03310300

Credits: .5

Grade Placement: 11-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSI Reading, Writing, and Mathematics or TSIA-2 ELAR and Mathematics

Social Studies Electives

DC Psychology (PSYC 2301)

General Psychology is a survey of the major psychological topics, theories, and approaches to the scientific study of behavior and mental processes. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course and is offered face-to-face for Steele Early College High School students. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr

Course Numbers: SS.D90314 | 03350100

Credits: .5

Grade Placement: 10-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSI Math or TSIA-2 Mathematics and TSI met in Reading and Writing or TSIA-2 ELAR

DC Sociology (SOC1 1301)

The scientific study of human society, including ways in which groups, social institutions, and individuals affect each other. Causes of social stability and social change are explored through the application of various theoretical perspectives, key concepts, and related research methods of sociology. Analysis of social issues in their institutional context may include topics such as social stratification, gender, race/ethnicity, and deviance. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr

Course Numbers: SS.D90315 | 03370100

Credits: .5

Grade Placement: 10-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSI Math or TSIA-2 Mathematics and TSI met in Reading and Writing or TSIA-2 ELAR

DC Texas Government (GOVT 2306) for Special Topics in Social Studies

Origin and development of the Texas constitution, structure and powers of state and local government, federalism and inter-governmental relations, political participation, the election process, public policy, and the political culture of Texas. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course and is offered face-to-face for Steele Early College High School students. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr

Course Numbers: SS.D90306 | 03380002

Credits: .5

Grade Placement: 10-12

Semesters: 1

Weighted GPA: Level 4

Prerequisite: Parent, counselor, principal, and college approval; TSI Math or TSIA-2 Mathematics and TSI met in Reading and Writing or TSIA-2 ELAR

Fine Arts

DC Art Appreciation (ARTS 1301) for Art I, Appreciation

A course open to all students directed toward understanding the elements and principles of art as applied to the visual arts: painting, sculpture and architecture as well as printmaking, ceramics, metal work and weaving. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course and is offered face-to-face for Steele Early College High School students. **See the NISD College and Career Readiness website for more details:** www.nisdtx.org/ccmr

Course Numbers: FA.D904605 | 03500110

Credits: 1

Grade Placement: 9-12

Semesters: 1

Prerequisite: Parent, counselor, principal, and college approval; TSI Reading, Writing, and Mathematics or TSIA-2 ELAR and Mathematics

Other Electives

DC Business and Professional Communications (SPCH 1321) for Professional Communications

Study and application of communication within the business and professional context. Special emphasis will be given to communication competencies in presentations, dyads, teams and technologically mediated formats. To complete registration for all dual credit courses, students must apply and register through the college. This course offering is a Texas Core Curriculum course. **See the NISD College and Career Readiness website for more details:**

www.nisdtx.org/ccmr

Course Numbers: D0047 | 13009900

Credits: .5

Grade Placement: 11-12 recommended

Semesters: 1

Prerequisite: Parent, counselor, principal, and college approval; TSI Reading, Writing, and Mathematics or TSIA-2 ELAR and Mathematics

OTHER ELECTIVES

Academic Decathlon

A nationally recognized and highly prestigious academic competition made up of a team of three students with GPAs between 3.0/4.0 and 3.75/4.0, and three students with GPAs 2.99/4.0 and below. The students study a directed curriculum covering subject matter in social studies, language and literature, science, economics, math, fine arts, and music. They must also present a prepared speech, give an impromptu talk on a given topic, and have an interview with three judges. One of the subjects each year will be tested in a quiz show type format. The regional competition takes place in January, state competition in April, and national competition in May. Students should have a sense of curiosity about many diverse topics, be able to absorb a lot of information in a relatively short period of time, and work well with others as a team. They must enjoy being challenged and must have a competitive nature. In addition to classroom time, the student must also be available on some Saturdays and on some evenings to prepare for the competition.

Course Number: 0308

Credits: 1 (Local)

Grade Placement: 9-12

Semesters: 2

Prerequisite: Teacher recommendation and coach's approval

AP Seminar

This foundational course provides students with opportunities to think critically and creatively, research, explore, pose solutions, develop arguments, collaborate, and communicate using various media. Students explore real-world issues through a cross curricular lens, consider multiple points of view to develop deep understanding of complex issues, connect these issues to their own lives, and work both collaboratively and independently to explore real world issues. Students in AP Seminar will be eligible to participate in the second course (new 2017-2018), AP Research. Students who earn scores of 3 or higher in AP Seminar and AP Research and on four additional AP Exams of their choosing will receive the AP Capstone Diploma. Alternatively, students who earn scores of a 3 or higher in AP Seminar and AP Research will receive the AP Seminar and Research Certificate signifying their attainment of college level academic and research skills. The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible.

Course Numbers: 5011A | N1130026

Credits: 1

Grade Placement: 10-12

Semesters: 2

Prerequisite: Honors English I or AP Human Geography recommended

AP Research

The second course in the Capstone experience allows students to design, plan, and conduct a year-long research based investigation on a topic of individual interest. Through this mentored inquiry and investigation, students demonstrate the ability to connect scholarly understanding to real-world problems and issues. Students further their skills acquired in the AP Seminar Course by understanding research methodology, employing ethical research practices, accessing, analyzing, and synthesizing information as they address a research question. The course culminates in a mentored academic thesis paper and a presentation, performance, or exhibition with an oral defense. Students who earn scores of 3 or higher in AP Seminar and AP Research and on four additional AP Exams of their choosing will receive the AP Capstone Diploma. Alternatively, students who earn scores of a 3 or higher in AP Seminar and AP Research will receive the AP Seminar and Research Certificate signifying their attainment of college level academic and research skills. The district expectation is that the student will take the appropriate AP Exam for each AP course in which he/she is enrolled. NISD will continue to financially partner with families in this effort and bring the total per exam price as low as possible.

Course Numbers: EL.A5012 | N1100014

Credits: 1

Grade Placement: 11-12

Semesters: 2

Prerequisite: AP Seminar

AVID I, II, III and IV

AVID (Advancement Via Individual Determination) prepares students in the academic middle for college eligibility and success. Students receive instruction in writing, inquiry, collaboration and reading strategies in addition to note-taking and organizational skills that are necessary for academic success. AVID students must enroll in at least one Honors, dual credit, dual enrollment, or AP course in addition to the AVID elective class. Tutors are provided during the AVID class to support student success in all courses.

AVID I

Course Numbers: 98303 | N1290001

Credits: 1

Grade Placement: 9-12

Semesters: 2

Prerequisite: Student must be identified for AVID through an Application/Nomination process including an interview.

AVID II

Course Numbers: 9831 | N1290002

Credits: 1

Grade Placement: 10-12

Semesters: 2

Prerequisite: AVID I; student must be identified for AVID through an Application/Nomination process including an interview.

AVID III

Course Numbers: 9832 | N1290030

Credits: 1

Grade Placement: 11-12

Semesters: 2

Prerequisite: AVID II; student must be identified for AVID through an Application/Nomination process including an interview.

AVID IV

Course Numbers: 9833 | N1290033

Credits: 1

Grade Placement: 12

Semesters: 2

Prerequisite: AVID III; student must be identified for AVID through an Application/Nomination process including an interview.

AVID Student Tutor

This course is designed to provide recommended AVID tutors an opportunity to lead tutoring groups or collaborative study groups in and out of AVID elective classrooms.

Course Number: 09041

Credits: 0.5-1.0 (Local)

Grade Placement: 12

Health

This one-semester course explores a variety of health issues which influence the wellbeing of an individual throughout the life cycle. Health education offers students an opportunity to study concepts and skills related to physical, mental and social well-being of individuals or groups. This course also provides practical instruction in cardiopulmonary resuscitation (CPR/AED) and first aid. Health issues included relevant to students are basic human anatomy and physiology, mental/emotional health, use and abuse of drugs, tobacco, alcohol, human sexuality, communicable diseases, environmental and consumer health.

Course Numbers: 0700 | 03810100

Credits: .5

Grade Placement: 9-12

Semesters: 1

Prerequisite: None

Partners in Physical Education

Partners in PE is a success oriented PE program using supervised peer tutors and individualized learning and instruction. Peer tutors will interact with students with disabilities, develop leadership skills, and learn more about possible careers involving individuals with disabilities.

Course Number: LC.101

Credits: .5-1 (Local)

Grade Placement: 9-12

Semesters: 1-2

Prerequisite: Administrator or counselor approval

Methodology for Academic and Personal Success (MAPS)

The Methodology for Academic and Personal Success course focuses on the skills and strategies necessary for the students to make a successful transition into high school and an academic career. Students will explore the options available in high school, higher education, and the professional world in order to establish both immediate and long-range personal goals. After identifying their individual learning styles and abilities, students will build on these abilities by developing critical time management, organization, and study skills. The course focuses on self-understanding, decision-making, resiliency, attitude, character education, and leadership to help students maximize personal achievement. Students will develop the specific strategies necessary to achieve their personal and professional goals. The course emphasizes proactive problem solving, self-determination, and independent thinking and learning skills. In addition, students will explore and experience collaboration as a tool for creative problem solving. As part of the goal setting and leadership activities, students may complete an outside community service learning experience in addition to class assignments.

Course Numbers: EL.1001 | N1130021

Credits: 1

Grade Placement: 9-10

Semesters: 2

Prerequisite: None

Leadworthy the Course

Leadworthy the Course is a course in which students develop leadership, professional, and business skills. Students will learn to establish healthy relationships, understand the concept of personal responsibility, teamwork, organization of projects, and self-awareness. Students perform student council projects involving health, safety, energy, environment, school pride, and community service.
