

Community Use of School Facilities

General Guidelines

- A. The use of school facilities will be under the general supervision of the Business Manager. There will be no use of school facilities or grounds without a signed agreement.
- B. Initial arrangements for the use of school facilities will be conducted by the school principal. The principal shall be responsible for maintaining proper relationships with clients that make application to use the facility. The principal or his/her designee must always be on duty when a school building is being used by outside clients.
- C. Any client using school property shall, in writing, indemnify and save harmless the Board of Education, the individual members thereof, and any officials or employees, of and from any loss, damage, liability, or expense that may arise during, or be caused in any way, by such use or occupancy of school property.
 - In the event property loss is incurred as a result of the use of the facility the amount of damages shall be decided by the principal in consultation with the Director of Maintenance and Operations. The client will be billed for the damages. Such agreement shall be signed by an officer of the organization.
- D. Any organization using school property shall comply with the sex offender on school property provisions contained in NDCC 12.1-32-15, NDCC 12.1-20, and Administrative Policy 3435/7435.
- E. When one of the following conditions exists, the principal shall confer with the Business Manager before making a final decision regarding the use of the facility:
 - The client's purpose and objectives are not clearly identified, or
 - The program or its participants may cause unusual public concern or disturbance, or
 - There is questionable use in terms of the guidelines within this regulation.
- F. The principal may refer applications to other schools in the district if his/her facility is unavailable or another facility could better meet the request of the client.
- G. Continued use of school facilities is contingent upon the client taking proper steps to protect school property, to ensure complete safety, and to reimburse the Board of Education for expenses. If a principal feels the facility is being misused by any client, it is the duty of the principal to point out the problem to the client so that misuses will be stopped. If problems continue to occur, the principal shall report this to the Business Manager who will review the complaint and determine whether the client should be prohibited from any further use of the schools.
- H. Permits for the use of facilities shall be issued only if the client is organized and has responsible officers. When a client requests the use of school facilities, they may be required to submit additional information on the purposes and objectives of the organization and on the purpose of the requested use of facilities. The client shall also file the names, addresses and phone numbers of their officers or leadership personnel with the District.

All clients will pay the District for its out-of-pockets costs for usage including, but not limited to: direct labor, utilities and custodial supplies. No group delinquent in payment for use of a building will be approved for subsequent use of school facilities.
