

# Subscribing to Calendars: Outlook

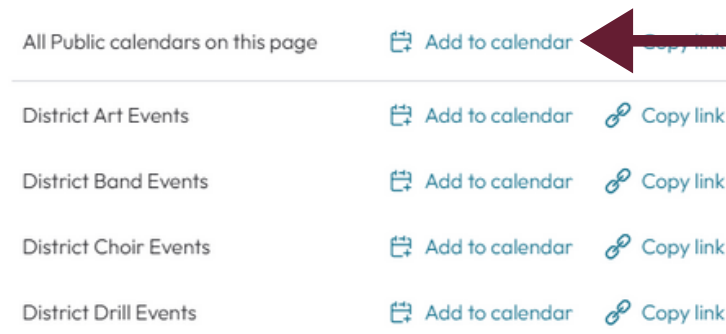

## Calendars

Go to a webpage with embedded calendars. Some calendar pages may have tabs to select the calendar of interest.

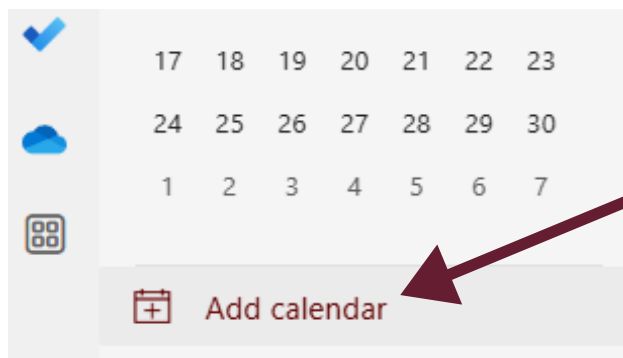

Click the gray "RSS" button to open the subscription pop-up.

You will see a list of calendars available. The top option "All Public calendars" subscribes you to all listed calendars.

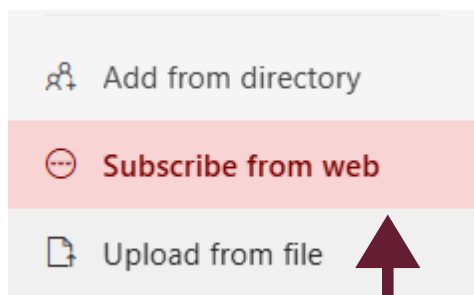

"Add to calendar" only works on Apple and iOS devices and will open the Calendar app. You will be prompted to subscribe and customize your selected calendar.

"Copy link" will only work for desktop users, and links will work for Google Calendars or Outlook. This walkthrough will address Outlook.

Go to your Outlook calendar. Note that this is how it appears in Outlook Web, not Outlook Desktop. Click "Add calendar" to the left under a mini-calendar.

If it's not displayed automatically, you may need to click a group of three lines next to "Home" and "View" at the top left.

## Subscribe from web

Paste the url for the calendar you would like to subscribe to below. It will be updated automatically.

[=49&calendar\\_ids\[\]=50&calendar\\_ids\[\]=45&calendar\\_ids\[\]=46](#)

Click "Subscribe from web" and paste the link into the field that appears. You will be prompted to name the calendar and to customize it, if needed.
