

# Subscribing to Calendars: Google Calendars

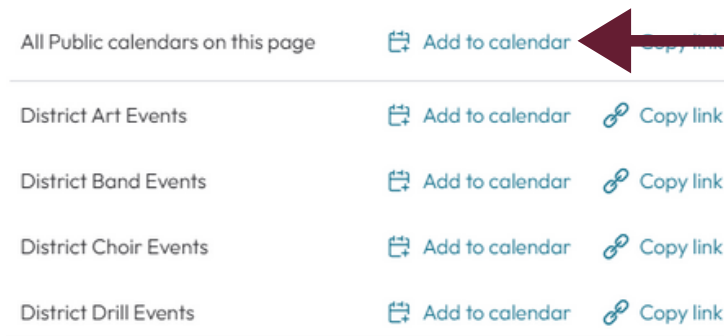

## Calendars

Go to a webpage with embedded calendars. Some calendar pages may have tabs to select the calendar of interest.

Click the gray "RSS" button to open the subscription pop-up.

You will see a list of calendars available. The top option "All Public calendars" subscribes you to all listed calendars.

"Add to calendar" only works on Apple and iOS devices and will open the Calendar app. You will be prompted to subscribe and customize your selected calendar.

"Copy link" will only work for desktop users, and links will work for Google Calendars or Outlook. This walkthrough will address Google Calendars.

## My calendars

## Other calendars

## Browse resources

## Browse calendars of interest

## From URL

## Import

Go to your Google Calendar. Look for "Other calendars" on the left side and hit the "+" next to it. Then click "From URL."

URL of calendar  
<https://shermanisdnet.finalsite.com/fs/calcr>

Paste the URL into the field that appears and then click the "Add calendar" button

Make the calendar publicly accessible

You can add a calendar using the iCal format by its address.
