## OUR PHILOSOPHY

QSI International School of Malta embraces the mastery learning educational philosophy, leading to appropriately challenging instruction within a positive and enjoyable learning environment. Studies are tailored to meet each students needs.

## OUR CURRICULUM

QSI International School of Malta follows an American college preparatory curriculum including Advanced Placement (AP) classes. The language of instruction is in English. Graduating students earn an American High School diploma. To guide students toward healthy lifestyles and good citizenship, QSI curriculum includes instruction in Success Orientations-seven areas of character development.

## Grading

Mastery of each essential unit is evaluated with an A or B (mastery grades). B denotes mastery of learning outcomes at a high level of understanding. A represents mastery where the student demonstrates higher order thinking skills. Mediocre or poor work, resulting in Cs and Ds, is not acceptable, and students will re-engage until they demonstrate mastery. Students who master a unit with a B evaluation may attempt to demonstrate a higher level of mastery at a later time, within that current school year, to change the evaluation to an A. Time periods (quarters, semesters, and terms) are not evaluated. Assessment is continuous and student performance is assessed on learning outcomes and units of study.

### GPA and Rank in Class

Due to the nature of our school and the small class sizes, QSI International School of Malta does not rank students. The cumulative GPA on the student's transcript only reflects courses taken at QSI. Courses from previous schools are not included in the GPA but they are listed on student transcripts.

### Graduation Requirements

The school offers three American High School diplomas.
