

Tullahoma Virtual Academy
Grades 7-12
Student Handbook
2024-2025

Dr. Chris Treadway, Director
301 West Decherd Street
931-913-2874

Welcome to the Tullahoma Virtual Academy!

TVA was designed to allow our students to take ownership of their education. Each of us has our unique learning styles and find academic success through different modalities of instruction. Our asynchronous online courses and multiple enrollment options offer students unprecedented flexibility and choice. We seek new ways to individualize the educational experience for every student we serve and provide solutions that may otherwise not be available to the students of Tullahoma. We not only welcome your feedback, we request it. Never hesitate to call, email, or visit us with your questions, concerns, or ideas!

Have a great year!

Essential keys to success

We have identified three essential keys to student success in a virtual classroom. Committing to each of these items is something all successful TVA students share. Failing to do any one of these three things makes passing an online course extremely difficult.

- **Engage all course instructional content**—Watch the videos, read the content, do the practice exercises, and engage the teachers in the live meetings. This content is your lecture and “class” time.
- **Turn in all assignments on time**—turning in assignments after the due date devastates a student’s grade. It doesn’t reflect the student’s ability with the material. It simply says the student wasn’t responsible enough to finish their work on time.
- **Check email daily, read email, reply to email**—Email is the main form of communication for virtual education. It is vital for students to check and read their email regularly. Also make it a practice to reply to emails, if for no other reason than acknowledging it was received. This lets teachers and administrators know you are engaged with the course and have received the information.

Academic Integrity

Academic integrity is a core value of the Tullahoma Virtual Academy. We are a learning organization dedicated to helping students make decisions that will help them become productive and ethical adults and citizens.

We use a variety of tools to ensure the integrity of student work, such as:

- Online plagiarism detection to compare student work to work found on the Internet.
- Our teachers are experienced in the classroom and have extensive expertise in identifying the originality of student work.
- Instructors may at any time engage students in an informal oral assessment via phone or video chat to allow students to demonstrate mastery of content and verify that the student’s work is their own. Teachers may request a scheduled face-to-face unit test or exam at any time.

Generally, academic integrity violations fall into three broad categories:

Plagiarism

Representing work that has been copied or pasted from a published resource such as, but not limited to, Internet sites, printed media, or any other source without the proper credit.

Cheating

Representing any other person's work or work from any source, including hard drives, software, or answer banks (such as, but not limited to Yahoo!, ChatGPT, Answers, Craigslist, Quizlet, translator services, Photomath type apps, etc.) as your own. Examples include soliciting answers or help via any form of digital communication, documented inappropriate discussions, student-to-student cheating, and cheating in a lab classroom.

Sharing or selling work

The sharing of a virtual or hard copy file of any work, whether compensation occurs or not, or posting work to a secondary source, such as, but not limited to Facebook.

Consequences

A variety of consequences can be administered if students are caught cheating or plagiarizing, ranging from receiving an automatic zero for the assignment to expulsion from the Tullahoma Virtual Academy.

1st Offense: Automatic grade of zero for the assignment
Parent notified
TVA Director notified
Teacher/Student conference

2nd Offense: Automatic grade of zero for the assignment
Parent/student conference with TVA Director
Mandated proctored quizzes/tests

3rd Offense: Automatic grade of zero for the assignment
Expulsion from Tullahoma Virtual Academy
Student returned to in-person learning at his/her assigned school

Testing Procedures

All TVA courses require a minimum of an in-person mid-term and final exam. As we recognize students may be tempted to use online resources to assist with the completion of weekly assignments rather than engaging in the instructional content provided in the course, we feel it's essential that students demonstrate their learning progress and mastery at least twice during the course in a monitored environment. In addition to mid-term and final assessments, TVA teachers may require students to take additional tests in person as necessary. When students report to TVA to take a test, the following procedures must be followed.

- Students report to the TVA office and store their cell phones in a secure location.
- If the test is in Canvas, students must use a TCS-owned Chromebook. Students who do not have a TCS-owned Chromebook must check one out for testing.
- If taking a paper test, the student must store all electronic devices and non-approved materials before being handed the test.
- Students will test in areas designated by TVA staff.
- Students may not engage in conversation with other students while testing.
- Once a student begins a test, they must finish it before leaving. No test will be administered after 2:00 pm.

Students who violate testing procedures may be subject to enhanced testing procedures for future assessments and consequences per the academic integrity policy.

Attendance Procedures and Late Work

Students are expected to budget at least one hour per day for each TVA online class they are enrolled in. Though one of the primary benefits of asynchronous learning is the ability to customize your learning schedule, daily attendance remains a requirement. Students who strive to maintain a high GPA will need to budget more daily time depending on the classes they are enrolled in. One hour per day per class is the recommended expenditure of time. ***Students are reminded that the option to engage in classes virtually is a privilege and that privilege may be lost temporarily or permanently.***

In addition to time actively engaged in classes, the completion and on-time submission of assignments for each course taken is required to be considered present. Absences are calculated as a percentage of assignments submitted compared to the number of due assignments. This is done weekly. As an example, a student who only submits three out of five

possible assignments for a given week will be counted absent for two days of attendance that week in that course. A student who submits all of the due assignments will be counted as being present for the entire week.

Most student work for a given week must be completed and submitted by Friday by 11:59 PM. Some courses may require mid-week deadlines in addition to the Friday night deadline. Students may submit late assignments for one week after the due date for a maximum score of 60%. After that, the maximum possible score for late submissions is 40%. No late assignments will be accepted after the deadline for the 8th week of the quarter. Any work not completed and submitted by that time may be recorded as a zero.

Any unexcused school time missed will be accumulated and count toward truancy, including tardies and early dismissals.

Students and parents should email absence excuse notes to Mr. Young at mike.young@tcsedu.net

Exceptions and Extensions

An isolated internet or power outage at home does not excuse a student from meeting weekly deadlines. The TVA Cafe is open Monday through Friday from 8:00 AM to 3:30 PM. There are also several locations in town where students can access free WI-FI. Deadline extensions will only be granted during a lengthy mass internet or power outage.

With few exceptions, students can access at least nine weeks of TVA online course content and assignments simultaneously. Therefore, except in cases of long-term illness or incapacitation, students are expected to meet their weekly assignment deadlines for each online course they are enrolled in. Exceptions will be handled on an individual basis. The student must communicate with their teacher(s) as soon as they know an extension is necessary and provide appropriate documentation of doctor's visits, court, etc.

Truancy and Intervention

Any student accumulating five or more late assignments (total) will lose their virtual privileges and be grounded to the TVA facility for 10 school days or until they are completely caught up,

whichever occurs first. Students who cannot become current during that time will NOT be released from grounded status. A student needs to demonstrate the ability to be successful with the virtual format by the end of the semester and may be required to transfer back to in-person learning. Additionally, any student who fails to report to TVA or make contact with TVA administration within 48 hours after being notified by email of their grounded status may be required to transfer to in-person learning at the end of the semester.

The TVA director will begin the truancy intervention process when a student is identified as truant (5 or more unexcused absences) due to missing assignments. The student and their parent/guardian must meet with the TVA director to discuss the need for more engagement and develop an action plan. Data from the student's access records to the school's learning management system (Canvas) and TVA's other digital resources will be reviewed to determine if the student is simply not spending enough time engaging in their coursework or if there are other barriers to success.

LIVE Points

Though we believe the virtual learning format is a better fit for some students, we know that human interaction and connection are vital for students' well-being. Therefore, students enrolled as full-time virtual students are required to accumulate LIVE points to maintain their full-time virtual status. Students must earn at least 18 LIVE points each (9) week grading period (6 live hours per quarter for 8th grade). Failure to meet this requirement may result in temporarily losing virtual privileges (grounded to the TVA office) and ultimately require returning to in-person classes. LIVE points can be earned by:

- Engaging in a live discussion with one of your TVA teachers (not including weekly live assessments)
- Visiting the TVA Cafe and engaging in a discussion with the Career and Graduation coach and/or TVA Director
- Participating in a study group at the TVA Cafe
- Attending a student advisory team meeting
- Attending a THS sporting event
- Attending a THS fine arts performance
- Participating in extracurricular activities

- Other activities/events as approved by the TVA Director

LIVE points are recorded by completing the form at <https://forms.gle/ycZG7aWjbp4suum98> and clicking on the Location link after submitting the form. Please record your location to receive credit for the event/activity. Students participating in a weekly sport, activity, or organization meeting may request an exemption from recording LIVE points.

Maintaining Virtual Status

Students who choose to engage in virtual learning must demonstrate the ability to be successful with the online format to remain a virtual student. Ideally, every virtual student would be self-disciplined, organized, and intrinsically motivated to learn. However, with those three characteristics, students can engage and achieve satisfactorily to maintain their status as a virtual learner.

Criteria for maintaining virtual status include:

- Logging (at least) an hour per day actively working in each enrolled course
- Meeting weekly assignment submission deadlines
- Maintaining passing averages for the majority of enrolled classes
- Responding to teacher and staff emails
- Attending required synchronous (LIVE) sessions
- Successfully earning the required number of LIVE points each quarter
- Adhering to all TVA guidelines for behavior and academic integrity

TVA Cafe

Any student enrolled in at least one TVA class can utilize the Cafe. The Cafe is open every day from 8:00 AM to 3:30 PM. When visiting, please use the doors at the south end of the building on Franklin Street. Ring the doorbell when you arrive, and someone will let you in. Any guests must be enrolled in a TCS school. The Cafe is primarily intended as a quiet space for students to complete their coursework. Though students are welcome to simply hang out, we ask that all visitors be respectful of those trying to complete coursework. Disruptive visitors will be asked to

leave. Though the Cafe will often provide food and beverages for visiting students, there is no wait-staff. Please clean up after yourself.

Food Services

TVA does not have a daily food service. However, TVA students may order lunches through TVA and have them delivered to the Cafe. This also applies to students who qualify for the free or reduced program. Please notify the TVA director if you want more information on school lunches.

Discipline Policy

Students enrolled in Tullahoma Virtual Academy courses are expected to practice appropriate digital citizenship at all times. Inappropriate written or spoken communication with teachers, classmates, and/or TCS personnel will not be tolerated. The TVA video conferencing guidelines must be followed when engaging via video conferencing. Students utilizing the Cafe are expected to behave appropriately and follow the Cafe usage guidelines. When attending events sponsored by other TCS schools, students enrolled in the Tullahoma Virtual Academy are subject to the rules of the sponsoring school. Choosing not to adhere to the above rules or violating the terms of the TVA Student Code of Conduct will result in the following consequences:

First offense:	Warning
Second offense:	Parent Notification
Third offense:	Conference with TVA Director
Fourth offense:	Reverse Suspension - Grounded to TVA Office
Fifth offense:	Removal from Tullahoma Virtual Academy

*In response to a severe offense, the TVA administration reserves the right to move directly to suspension and/or removal from the virtual learning program.

TVA Student Code of Conduct (Acceptable Use Policy)

Internet access is required for all Tullahoma Virtual Academy (TVA) students to be able to complete classwork. Still, access must be used responsibly, safely, efficiently, ethically, and legally. With expanded access to electronic information, the availability of improper material is not uncommon. Content on school computers is filtered; however, we cannot guarantee complete filtration. The full Parent/Guardian and Student Digital Device Agreement can be accessed by clicking [HERE](#).

Please review the following TVA **expectations** carefully:

- **Students are responsible for good behavior** on all school-provided networks. Devices should always be used in a way that shows consideration and respect. It is unacceptable to use obscene, profane, threatening, or disrespectful language.
- We take the **integrity and authenticity of student work** very seriously. Do not cut, copy, or plagiarize Internet content or the work of your online classmates. TVA instructors utilize technologies to check for the authenticity of all online work completed. Copying, knowingly allowing others to copy your work, and/or misusing Internet content will result in removal from the course.
- **It is illegal to create harmful computer viruses**, and offenders will be punished to the full extent of the law.
- **Email is NOT private**. Never say anything via email that you don't mind school officials seeing.
- **Beware of emails from anyone, particularly adults you do not know**, asking for personal information, attempting to arrange a meeting or engaging in personal contact. Alert your teacher and TVA Director of any message you receive that is inappropriate or makes you feel uncomfortable.
- **All TCSEDU.Net emails should be class related**. Use your school issued email for all communications within your online course. This includes all communication between you, your online teacher, and other TVA personnel. Do not allow any other person to use your TCS email account. You are responsible for all emails sent from your email account
- **Protect your password**. Keep it secret from everyone except your parents. Keep a copy

of your username and password in a safe place in case you forget it.

TVA and the Tullahoma City School System administrators will cooperate fully with local, state, or federal officials in any investigation related to any illegal activities conducted through Internet access. If there is a claim in which you have violated this policy, you will be notified of the suspected violation and have the opportunity to present an explanation. Any violations will result in removal from TVA course(s) and disciplinary or legal action to the full extent of the law.

Bullying and Harassment

It is an expectation that all TVA students and employees shall use all equipment and programs for the intended educational purpose. TVA is committed to protecting its students and employees from bullying, harassment, or inappropriate uses of TVA computers or programs to participate in bullying behavior. Bullying and Harassment will not be tolerated and shall be just cause for disciplinary action.

Conduct that constitutes bullying or harassment, as defined herein, is prohibited.

Bullying, harassment, cyberbullying, and cyberstalking is defined as inflicting physical or psychological distress, communicating words, images, or language using electronic mail or social media that causes emotional distress and for which there is no legitimate purpose.

Any action by a student or parent deemed inappropriate will be fully investigated by the appropriate school administrator.

Consequences for students' actions that violate the policy on bullying and harassment shall be determined by the administrative staff of TVA and may include:

- * Student//parent/TVA director conference
- * Suspension of email privileges
- * Removal from TVA courses

If you experience bullying or harassment in any form, please contact your TVA instructor or the TVA director for assistance.

STUDENT MEDIA ACCESS OPT-OUT/STUDENT PRIVACY INFORMATION

All student records are stored in the office. Access to any student's record is limited to persons directly responsible for the child's educational needs.

The United States Department of Education provides protection of student records under the Family Educational Rights and Privacy Act (FERPA).

TULLAHOMA CITY SCHOOLS
Class of 2026 & Class of 2027
Industry 4.0

Diploma Distinction

Industry 4.0 Diploma Distinction Allows Students to Pursue a High-Skill, High-Need Industry While in High School

Industry 4.0 Diploma Distinction Requirements

- *Enroll in at least one Work-Based Learning (WBL) or Dual Enrollment (DE) course multiple years & enroll in WBL or DE courses for senior year.
- *Meet no less than once per month with a career coach.
- *Earn at least 9 credits of WBL or DE prior to graduation.
- *May earn 1 science credit or the 4th math credit through WBL or DE courses.

Contact the School Counseling Office for More Information

Industry 4.0 Distinction Diploma

Letter of Intent for Parent/Guardian Signature

Student Name: _____

Student Current Grade Level: _____

High School Name: _____

Listed below are the requirements for students seeking to pursue the Industry 4.0 Diploma Distinction:

- (1)** Before the end of the student's sophomore year:
 - Notify the student's counselor or school principal of the student's intent to pursue an Industry 4.0 diploma distinction;
 - Provide the student's counselor or school principal with documentation signed by the student's parent or legal guardian indicating that the student's parent or legal guardian is aware of the requirements for the parent's or legal guardian's student to obtain an Industry 4.0 diploma distinction and consenting to the student's participation;
 - Register with a regional American Job Center or other career counseling or community partner approved by the student's school; and
 - Enroll in work-based learning or dual enrollment courses for the student's junior year.
- (2)** Beginning in the student's junior year, meet, no less than once per month, with a career coach who meets the requirements of the subsection and who has been approved to provide career coaching services by the student's school
- (3)** Before the end of the student's junior year, enroll in work-based learning or dual enrollment courses for the student's senior year (must earn at least 9.0 credits of WBL or DE by end of the senior year); and
- (4)** Successfully complete all coursework required for graduation.

× You consent to and intend for your student to participate in the activities required to earn the Industry 4.0 Diploma Distinction.

× My student does not intend to participate in the activities required to earn the Industry 4.0 Diploma Distinction.

By signing below, you acknowledge that you have been informed of the requirements of the student & parent to earn the Industry 4.0 Diploma Distinction.

Parent/Guardian Printed Name: _____

Parent/Guardian Signature: _____ Date: _____

Industry 4.0 Diploma Distinction Overview for Classes of 2026 & 2027

Overview

The Industry 4.0 Diploma Distinction is a diploma distinction that allows students to pursue a career in a high-need, high-skill industry while in high school, as outlined in T.C.A. 49-6-420. The Industry 4.0 Diploma Distinction was developed for high school students interested in pursuing a career in a high-need, high-skill industry after graduation.

Students who earn the Industry 4.0 Diploma Distinction will complete at least nine dual enrollment or work-based learning (WBL) credits aligned with their career goals. They will receive monthly career coaching and counseling to better prepare them for the transition into the workforce. Additionally, they will have the option to substitute a WBL or dual enrollment credit, as approved by the State Board of Education, for one math credit and one science credit.

Student and Parent Requirements

Students interested in pursuing an Industry 4.0 Diploma Distinction must provide the counselor or school principal with documentation signed by the student's parent or legal guardian indicating that the parent or legal guardian is aware of the requirements for the student to obtain the diploma distinction and consenting to the student's participation. Students must also register with a regional American Job Center (AJC) or other career counseling or community partner, known as a career coach, and enroll in at least one WBL or dual enrollment course for the student's junior year.

Tulahoma City Schools has a work-based learning coordinator, school counselors, and a career coach available to serve as the career coach for these students.

Students must meet with their career coach no less than once per month during the school year to help the student develop the personal attributes required for success in the workforce, assist the student in applying for dual enrollment grants and other available financial aid opportunities, identify the best combination of dual enrollment and WBL courses, and help the student prepare for standardized assessments. A combination of stakeholders who meet the career coach requirements may collaboratively provide these services to students.

Grade 11

Student Requirements

The student must be enrolled in at least one WBL or dual enrollment course and enroll in WBL or dual enrollment courses for the student's senior year. The student must also meet no less than once per month during the school year with a career coach.

**Grade 12****Student Requirements**

The student must successfully complete all coursework required for graduation for his/her diploma type. Students may earn at least one science credit and at least one math credit through course substitutions approved by the State Board of Education, including, but not limited to, dual enrollment and WBL courses aligned to a student's chosen career path. These substitutions may only fulfill the student's third credit of science or fourth credit of math. A list of WBL and dual enrollment courses that qualify as science and math substitutions will be published upon State Board of Education approval.

By the end of the student's senior year, the student must earn at least nine credits of dual enrollment or WBL, meet no less than once monthly during the school year with a career coach, and fulfill all other graduation requirements to earn the Industry 4.0 Diploma Distinction.
