

INSTRUCTIONAL NEEDS OF EACH INDIVIDUAL STUDENT

The Governor Wentworth Regional School Board recognizes that each student has unique and distinctive learning styles, and that not all students will excel in traditional classroom settings. To that end, the administration will design the District's instruction and curricular program to meet the instructional needs of students with diverse talents, interests, and development.

Administrators and teachers will collaborate to consider and address students' varied talents, interests, and academic development when planning the District's educational programs and curriculum.

In order to meet the instructional needs of students with diverse talents and affinities, administrators and staff will explore alternative learning programs such as extended learning opportunities, alternative learning plans, distance education, technical education, and others.
