Lawrence Elementary
Winter 2024

Engineering with K'nex

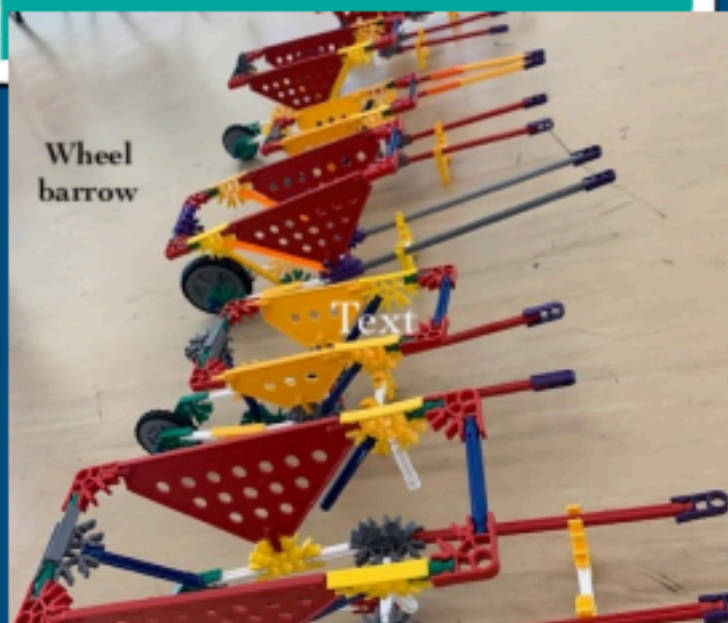

This inquiry-based class uses K'nex to explore STEM concepts that are aligned to national educational standards.

Students learn to problem-solve and discover concepts in physics.

Building and investigating different designs, students learn principle of simple machines such as levers and pulleys.

Also, participants learn concepts in engineering by building different types of bridges and trouble shooting their strengths and weaknesses - all while working together in a non competitive but learning environment.
