

# 3<sup>rd</sup> Grade E-LEARNING DAYS

## (NO DEVICES AT HOME)

In this folder, you will find activities for third grade e-learning days when devices **ARE NOT** sent home. For each e-learning day, please have your child complete the information in the packet from the specific e-learning day we are on. For example, if it is our second e-learning day without devices at home, your child would complete the work for each subject (math, science, language arts, and social) for Day 2. The teachers will communicate via Facebook, email, and/or Seesaw which specific day's work your child should be completing.

Upon returning to school (after the e-learning day-s), your child should just return the completed work. No need to send the whole envelope back to school. Please keep each packet of work stapled together when returning so this helps us keep things organized at school. Thanks so much! 😊

### Additional Activities (Several activities do require a device.)

#### \*IXL

username and password found in folder

\*Practice multiplication fact cards

or go on [multiplication.com](https://www.multiplication.com) for games.

#### \*Maths Frame

Username: minneota

Password: math123
