Introduction

Why Do We Have a Code of Conduct, Character, and Support?

The Northampton County Code of Conduct ensures all students' right to an education in a safe, caring, equitable, and supportive learning environment.

We see our schools as centers for culturally diverse learning where all students are educated to their fullest potential and as centers for our community around which we come together in support of education for everyone. The Code provides tools for ensuring that all stakeholders understand and appreciate the expectations of behavior within the school community.

Thus, the Code addresses both development of character and conduct for all stakeholders in the Northampton County community. An individual's character reflects the attitudes, attributes, and moral convictions that shape their conduct. Development of good character and social and emotional competencies are essential to each student's academic success in school today and their success in the future.

The Code defines a wide range of opportunities, supports and interventions that promote positive behavior, help students develop self-management and social and emotional efficacy, and enable students to improve and make responsible decisions while demonstrating positive behaviors.

This code applies to everyone when on school property, on a bus, or attending a school function.

Goals for the Code

The Northampton County Code of Conduct aims to:

1. Ensure that no student is subject to harassment, bullying, and/or discrimination based on their race, color, religion, sex, sexual orientation, gender identification, nationality or language.
2. Promote positive social behaviors, respectful and caring communication, and responsible decision making.
3. Clearly define rules and expectations for acceptable conduct on school property and at school functions for students, teachers, district personnel, and families.
4. Identify and ensure that adult stakeholders implement fair, clear, equitable, and timely consequences.
5. Implement restorative and accountable interventions that support students to self-management and social and emotional competencies.
6. Increase the capacity and accountability of teachers, administrators and student support specialists to create school communities that embrace all students, promote positive behaviors, and ensure equitable treatment of all students, which promote positive behaviors and equitable practices.
7. Work to intervene early and effectively to minimize impacts when students are struggling with challenges related to academic, attendance, behavioral and mental health, or family issues, particularly students who are experiencing multiple barriers to school success.

Why Knowing the Code Matters?

Students: The Northampton County Schools Code of Conduct, Character, and Support is your guide for behavior at school. Your principal, teachers, and other staff members will support your efforts to be successful in demonstrating the social and academic behaviors and emotional skills that are expected at school. When you follow the expectations and rules in the Code, you will be demonstrating your good citizenship and character and helping to make our school a safe, civil, caring, equitable, and supportive

learning environment for everyone. The Code describes specific behaviors that are unacceptable at school and explains the consequences and interventions that will be assigned when your conduct does not meet expected standards of behavior. This is a guide to understanding your rights and responsibilities.

Families /Guardians/Caregivers: The Code is your guide for understanding the social and academic behaviors and emotional skills that are expected of students at school and how school principals, teachers and staff will work with students and families to help them demonstrate positive behavior and experience academic success. The Code also provides information about your rights and responsibilities and your student's rights and responsibilities.

The Code identifies the kinds of behaviors that are not acceptable. Finally, the Code explains the interventions and consequences that will be enforced and implemented if a student violates school rules and policies. Please read the Code with your student and discuss any questions you have with administrators at your student's school. If you have concerns about your student's safety or behavior, please talk to an administrator at your student's school so that you can resolve any concerns and work with school staff to fully support your student's success.

School Staff: The Code is a guide for supporting positive student behavior at school. It will support staff accountability to prevent disciplinary problems through the use of effective strategies and systems. It will provide guidance for intervening effectively and appropriately when students don't meet expected standards of behavior or violate school rules and policies. If staff has concerns about safety or your school's climate, please talk to your school principal so that you and your school administration can work together to maintain a safe and orderly learning and work environment.

School Administrators: The Code is your guide for supporting a safe, orderly, and productive learning environment. It will help you to promote positive student behavior at school. It will support administrative accountability to ensure effective implementation of school-wide expectations, rules, policies, systems, and practices.

District Staff: The Code is your guide for supporting schools in developing a positive school climate that ensures student and staff safety and order. District staff are responsible for assisting in effective implementation of school-wide expectations, rules, policies, systems, and discipline and student support practices. District staff are responsible for assessing and reviewing all disciplinary data and school sanctions by race, ethnicity, disability, and gender of students.

Core Principles that Guide the Code of Conduct

The following principles form the foundation for creating safe, civil, caring, equitable, supportive and high achieving learning environments.

1. The District's social and emotional learning (SEL) vision aims to create collaborative school environments built on positive and supportive relationships, where students and staff feel safe, valued, respected, and encouraged to be curious, take risks, and learn from their mistakes.
2. The District will foster a community of students who are self-aware, compassionate, critical thinkers motivated to pursue their passions.
3. Social and emotional competencies contribute to improved academic and personal outcomes and enable students to learn and practice how to
 - Manage their emotions
 - Set goals

- Feel and show empathy for others
 - Develop positive relationships
 - Make good choices
4. All students are capable of achieving their personal best and, when necessary, improving their behavior with guidance, instruction, support, and coaching.
 5. Different students need different kinds and amounts of time, attention, instruction, and support to behave responsibly and succeed academically.
 6. Clear, fair, equitable, predictable, and timely consequences signal that a student's actions are deemed to be inappropriate and unacceptable.
 7. Restorative interventions involve a process where students and adults take responsibility for what they have said and done, reflect on the impact of their behavior, self-correct to right themselves, problem solve, make amends to repair the harm, learn new skills, and restore their good standing.
 8. Students are more likely to behave appropriately when:
 - They feel that staff members care about them and will help them learn and grow.
 - They understand the positive behaviors that are expected of them.
 - All school staff consistently use shared language and practices.
 - All staff provide recognition and feedback for students behaving appropriately, making their best effort, and completing high quality work.
 9. Effective discipline helps students become more self-managed and teaches students to become more socially and academically skillful.
 10. Adults – teachers, principals, administrators, school staff, families, and the larger community - have an obligation to help students learn to be good citizens and lead productive lives by:
 - Leading by example.
 - Enabling students to discern right from wrong.
 - Fostering in students the desire to do what is good.
 - Encouraging students to take responsibility for their words and actions.
 11. Student discipline and support policies and practices must be implemented in ways that are perceived as respectful and equitable. Interactions between and among district and school staff, students, and families must protect the dignity of each individual and ensure a tone of decency.
 12. Student discipline and support policies and practices must be implemented in ways that are ENFORCEABLE, VIABLE, AND EFFECTIVE.
 13. Every reasonable effort should be made to correct student misbehavior through guidance interventions that are accountable and restorative. It is essential that school personnel be sensitive to issues that may influence the behavior of students and respond in a manner that is most supportive of their needs.
 14. The Code of Conduct is informed by a multi-tiered system of supports (MTSS) that emphasizes the PROMOTION of positive behaviors and positive school and classroom cultures; PREVENTION of behaviors that disrupt students' learning, and effective INTERVENTION when students need additional supports to behave responsibly and succeed academically.

Positive Mindsets Promote School Success

Mindsets are deeply held beliefs and thoughts that make up the mental attitudes and inclinations that shape a person's interpretation and responses to events. Positive mindsets set the stage for academic engagement and foster social and emotional competence. Positive student mindsets boost students' confidence about their day-to-day experiences and fire up hope in their future. Positive adult mindsets promote caring, encouragement, and equitable treatment of all students.

Positive Student Mindsets and Adults Mindsets that Support Students

- I see myself as a learner.
- I belong to an academic community.
- I approach tasks with positive expectations and an open mind.
- I accept challenges, take academic risks, and push myself to excel.
- My ability and competence grow with my effort.

- I cultivate personal talents, values, and positive qualities of character.
- I have hope in a positive future I can make for myself.
- When I make mistakes, I can correct them.
- I think about my actions before I respond.
- I care more about the future than the past. I want to move forward.
- As an adult, I problem solve to reach solutions that meet important needs and the interests of everyone involved.
- As an adult, I depersonalize students' words and deeds.
- As an adult, I model the character traits and behaviors that I want to cultivate in students.
- As an adult, I consider a student's best interests in any decision.

Promoting a Positive School Climate and Culture

The district builds a positive climate and culture based on high expectations, respect, co-accountability, and equitable instruction, practices, resources, opportunities, and support.

Each individual school promotes a positive school climate and culture that provides students with a supportive environment in which to grow academically, socially, and emotionally. Effective social-emotional learning helps students develop fundamental skills for life success, including: recognizing and managing emotions; demonstrating empathy; establishing positive relationships; making responsible decisions; and handling challenging situations constructively and ethically.

Student engagement is essential to ensure responsible behavior and academic success. Examples of student engagement include: providing students with meaningful opportunities to share ideas and concerns and participate in school-wide initiatives; student leadership development; periodic recognition of students' achievements in a range of academic and cocurricular areas; using corrective feedback; and developing school-wide positive behavior systems.

Rights and Responsibilities of School Community Stakeholders

Family Educational Rights and Privacy Act

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

FERPA gives parents certain rights with respect to their children's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students."

- Parents or eligible students have the right to inspect and review the student's education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies.
- The parents/guardians or eligible student should submit to the building principal a written request that identifies the record(s) he wishes to inspect. The principal will make arrangements for access and will notify the parents/guardians or eligible student of the time and place where the records may be inspected.
- These rights are denied to any person against whom an order of protection has been entered concerning the students.
- Parents or eligible students have the right to request that a school correct record which they believe to be inaccurate or misleading. If the school decides not to amend the record, the parent or eligible student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the parent or eligible student has the right to place a statement with the record setting forth his or her view about the contested information.
- The parents/guardians or eligible student should submit to the building principal a written request and should clearly identify the record the parents/guardians or eligible student wants changed and the specific reason a change is being sought.
- If the school decides not to amend the record, the parent/guardian or eligible student then has the right to a formal hearing.
- The building principal will notify the parents/guardians or eligible student of the decision and advise him or his rights to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parents/guardian or eligible student when notified of the right to a hearing.
- After the hearing, if the school still decides not to amend the record, the parents/guardians or eligible student has the right to place a statement with the record setting forth his or her view about the contested information.
- Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):
 - School officials with legitimate educational interest; A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including school counselor, school nurse, school social worker, and school resource officer) or a person or company with whom the district has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist). A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his professional responsibility.
 - Other schools to which a student is transferring; Before information is released to these individuals, the parents/guardians or eligible student will receive prior written notice of the nature and substance of the information, and an opportunity to inspect, copy, and challenge such records. Academic grades and references to expulsions or out-of-school suspensions cannot be challenged at the time a student's records are being forwarded to another school to which the student is transferring.
 - Specified officials for audit or evaluation purposes; Disclosure is permitted provided that no student or parent/guardian can be identified.
 - Appropriate parties in connection with financial aid to a student;

- Organizations conducting certain studies for or on behalf of the school;
- Accrediting organizations;
- To comply with a judicial order or lawfully issued subpoena;
- Appropriate officials in cases of health and safety emergencies; and
- State and local authorities, within a juvenile justice system, pursuant to specific State law.

Schools may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance.

Any parent/guardian or eligible student may prohibit the release of any or all of the consent "directory" information by delivering a written objection to the building principal within 30 days of this notice.

Authority of School Personnel and Law Enforcement Involvement

Building Administrators

The principal has the authority and responsibility to investigate and take appropriate action regarding any credible allegations of student misconduct referred to him or her. Principals are authorized to develop school rules of conduct not inconsistent with this Code, and must notify students of any school rules that may result in out-of-school suspension. Principals are authorized to impose disciplinary consequences up to a ten day out-of-school suspension, and to make a recommendation to the Superintendent for long-term suspension or expulsion.

Teachers

Teachers have the responsibility and authority to maintain order and discipline within the classroom and in common areas. Teachers may not suspend students or permanently remove them from class, but should report serious misconduct to the principal or designee for appropriate disciplinary action.

Bus Drivers

The school bus driver, subject to the direction of the principal, shall have authority over and responsibility for the operation of the bus and the maintenance of good order and conduct on the bus and shall report promptly to the principal any misconduct or disregard or violation of the driver's instructions by any person riding on the bus.

All Personnel

All staff members have the responsibility to maintain order and safety in the school, and students must obey directives of all authorized school personnel. All school personnel have the authority to manage or remove disruptive or dangerous students. To the extent necessary and consistent with applicable law and training, school personnel may use reasonable force to control behavior or to restrain or remove a person from the scene in those situations when necessary:

1. To quell a disturbance threatening injury to others.
2. To obtain possession of a weapon or other dangerous object on the person, or within the control of a student.
3. For the protection of persons or property or for self-defense on educational property, in the classroom, or at a school-related activity on or off educational property.

Responding to Student Altercations and Other Threats to Safety

Employees have a duty to provide reasonable supervision of students. Employees shall be alert at all times and, at a minimum, immediately report situations that may pose a threat to the safety of students or any other person on school system property, at school events or any other situation in which students are under the authority of school employees. Employees with personal knowledge or actual notice of an altercation between students are expected to take reasonable measures to maintain a safe school environment. Reasonable measures include but are not limited to issuing verbal directives to end the altercation, immediately reporting the situation to administrative staff or other appropriate authority, using reasonable force, and removing bystanders from the area. Employees shall follow any additional instructions or guidance from supervisors in implementing this policy. For purposes of this policy, reasonable force is the use of limited physical contact or restraint to the extent necessary to re-establish a safe environment.

Law Enforcement Involvement

Principals may contact law enforcement to report suspected criminal activity on school grounds or at school events. If the principal has personal knowledge, a reasonable belief, or actual notice from school personnel that an act has occurred on school property involving assault resulting in serious personal injury, sexual assault, sexual offense, rape, kidnapping, indecent liberties with a minor, assault involving the use of a weapon, possession of a firearm in violation of the law, possession of a weapon in violation of the law, or possession of a controlled substance in violation of the law, the principal shall immediately report the act to the appropriate local law enforcement agency. School officials shall cooperate at all times with the efforts of law enforcement; however, school disciplinary measures will proceed independently of any criminal, juvenile investigation or prosecution.

Getting Help with a Problem

All school staff are here to help. When a problem arises, we encourage students to speak privately with an adult they trust.

School Problems

If students have a problem related to discipline, security or personal safety, the student should:

1. Tell the nearest adult staff member to speak with the principal and assistant principal right away. Tell the adult exactly what has happened or what the student has observed happening to someone else. Problems of discipline, security, and personal safety are considered very serious.
2. Share your feelings. It is natural to feel worried and upset. Ask to talk to someone who will listen and understand—such as teacher, school counselor, school psychologist, social worker, or an adult mentor.
3. Ask to talk to a school counselor, school psychologist, or social worker who can help you learn ways to deal with problems so that you may feel safer and more comfortable when faced with similar problems in the future.
4. In addition to alerting school personnel, tell your family about the problem.
5. A student may also contact the statewide Student Safety Hotline by visiting www.saysomething.net, calling 1-844-572-9669, or text by downloading the app.
6. It is important for students to know that when a report is made to the school about an incident of this nature, every effort will be made to keep their information and identity confidential.

Bullying, Cyberbullying, Harassment, Intimidation, Hazing, and Bias Behaviors

Bullying and cyberbullying, harassment and intimidation, hazing, and bias behaviors are unsafe and do not reflect respect for others as defined by the Code of Conduct.

If you or someone you know is a target of one of these behaviors, you can report it using the Bullying, Harassment, or Intimidation Report Form, available on the school website, in the main office, or the counseling office of your school. You can also tell a staff member, who will respond quickly and provide a practical, private, and safe place to report.

If You are Being Bullied...

- Calmly tell the student to stop...or say nothing and walk away
- Tell someone — a family member, a teacher, a counselor

If You Know Someone who is Being Bullied...

- If you feel safe in doing so, be an “Upstander”, a person who feels comfortable interrupting the incident in a way that is assertive and non-violent.
- Tell the bully to stop by saying, “We don’t do that at this school” or “It’s not right to treat someone like that.”
- Say words of support to the student being bullied. Be a friend!
- Don’t encourage the bully by laughing or joining in.
- Tell other bystanders how to help stop the bullying.

If It Doesn't Feel Safe to Intervene

- Tell an adult, and
- Encourage the bullied student to talk to someone.

If a building administrator determines that one of these behaviors has occurred, the students involved will receive support from a school counselor, school psychologist, school social worker, pupil personnel worker, or school health staff person to be sure everyone involved feels safe and supported and understands how to avoid these situations in the future.

Personal Problems

For help with personal problems that may affect a student's school life or activities, there are several options:

1. If possible, the student should discuss the problem with their family.
2. If a student and her/his family cannot solve the problem, there are a number of people in the school who may be able to offer additional help. The student may speak to a teacher with whom he/she feels comfortable.
3. School counselors, psychologists, and social workers at the school are trained to offer help with personal problems. They can also lead the student to other resources he/she may not be aware of.
4. The assistant principal and the principal will also be able to discuss the problem with the student and attempt to work on a solution. If they are unable to do so, they will seek the assistance of others.

Confidentiality in Counseling

When a student indicates that he or she is thinking about hurting himself or herself or other students, school personnel are required to act to ensure the safety of the student or other students. This action will include sharing of information with the building administrator, families, and may include other outside agencies.

No statement, oral or written, made by a student seeking counseling for any form of drug abuse may be used as admissible evidence against the student in any proceedings.

Academic Problems

Solving an academic problem requires the student's help, along with the help from teachers and sometimes the family, school counselor, and other school professionals. For help with an academic problem, the student should follow these steps:

1. See the teacher who teaches the subject. Students may seek out the teachers on an individual basis. Teachers routinely work with individual students who are having academic problems. The teacher will first conference with the student and may recommend help sessions or mentoring, or may make a referral for additional assistance. The teacher may ask for a conference with the student and his/her family /guardians.
2. If the teacher is unable to help the student resolve the problem to the student's satisfaction, the student can get further help from another teacher or the school counselor.
3. For problems that are still not resolved after the student has talked with the school counselor, the student should discuss the matter with his/her family /guardians and with the principal or assistant principal. Families may wish to join the student in discussions with the principal.

Extracurricular Problems

For help with problems involving extracurricular activities, the student should follow these steps:

1. See the activity advisor or athletic coach assigned to the activity at a time when he/she can give you her/his undivided attention.
2. If the activity involves athletics, see the athletic coach, then the Athletic Director.
3. If the student does not know who is assigned as advisor to the activity, the student should see an administrator.
4. If the student is unable to get help in solving the problem by doing the above, discuss the matter with family and with the building administrator (principal). Families may wish to join the student in a conference with the principal.

Group Problems

For help with a group problem related to discipline, security, personal safety, or welfare: If a group of students feels it shares a common problem, the best way to seek assistance is for the group to send two or three representatives to the teacher or building administrator involved and present the group's point of view on the matter. The most effective approach is one that involves a restorative conference that includes representatives of the groups impacted by the problem.

Student Support Services in Northampton County Schools

Behavior Standards for Transfer Students

Policy Reference: Policy 4115 (adopted December 3, 2012)

In accordance with state law, the parent, guardian or custodian of a transfer student must provide a statement made under oath or affirmation before a notary indicating (1) whether at the time of the admission request the student is under suspension or expulsion from attendance at a private or public school in this or any other state and (2) whether the student has been convicted of a felony in this or any other state. Based on this data and any other requested data as indicated in Policy 4115, the board may deny admission to a student. Alternatively, the board may place reasonable conditions on the admission of the student. Such conditions include, but are not limited to: behavior contracts, alternative school placement, limited free time, limited extracurricular activities, drug testing, and weapon searches.

Transfer students under a suspension or an expulsion who have been identified as having a disability pursuant to the Individuals with Disabilities Education Act and otherwise meet the requirements for enrollment are entitled to services to the extent mandated by federal and state law.

Unsafe School Choice Transfer

Policy Reference: Policy 4152 (adopted January 11, 2016)

The board is committed to providing an environment at each school that is safe, orderly and inviting. The board believes that in most cases, a student should attend the school that serves his or her domicile. Under certain circumstances or conditions, however, the board provides parents the opportunity to request that their child attend a school outside of his or her attendance area (see policy 4150, School Assignment). The board will allow a student who attends a school designated as a persistently dangerous school or a student who becomes the victim

of a violent criminal offense at his or her school to attend another school that the superintendent has identified as an eligible transfer school.

Northampton Alternative Program

Policy Reference: Policy 4305 Alternative Learning Programs/Schools (adopted December 3, 2012)

Alternative learning programs or schools are provided as an option for those instances in which a student's behavior management or academic performance needs cannot be met in a regular educational setting. The purposes of an alternative learning program or school are: (1) to intervene and address problems that prevent a student from achieving success in the regular educational setting; (2) to reduce the risk that a student will drop out of school by providing resources to help the student resolve issues affecting his or her performance at school; (3) to return a student, if and when it is practicable, to the regular educational setting with the skills necessary to succeed in that environment; and (4) to preserve a safe and orderly learning environment in the regular educational setting.

Education for Pregnant and Parenting Students Policy Reference: Policy 4023 (adopted December 3, 2012)

The board of education will provide all pregnant and parenting students with the same educational instruction as other students or its equivalent. Pregnant and parenting students will not be discriminated against or excluded from school or from any program, class or extracurricular activity because they are pregnant or parenting students. School administrators shall provide assistance and support to encourage pregnant and parenting students to remain enrolled in school and graduate. Students who are pregnant or parenting will be given excused absences from school for pregnancy and related conditions for the length of time the students' physicians find medically necessary. These absences include those due to the illness or medical appointment during school hours of a child of whom the student is the custodial parent. Homework and make-up work will be made available to pregnant and parenting students to ensure that they have the opportunity to keep current with assignments and avoid losing course credit because of their absence from school, and, to the extent necessary, a homebound teacher will be assigned.

Homeless Students

Policy Reference: Policy 4125 (adopted December 3, 2012; revised December 12, 2016)

The board will make reasonable efforts to identify homeless children and youth of school age located within the county, encourage their enrollment, and eliminate barriers to their receiving an education that may exist in school system policies or practices. Based on individual need, homeless students will be provided services available to all students, such as preschool, free or reduced-price school meals, services for English language learners, special education, vocational/technical education, gifted and talented services, and before and after school care.

Section I: Student Code of Conduct Overview

The mission of Northampton County Schools is to provide each student the opportunity to gain skills, knowledge, and values necessary to function effectively in society through a cooperative effort of school, family, and community in a safe and nurturing environment. In order to fulfill its mission, the Northampton County Board of Education requires the maintenance of good order in the schools.

All students shall comply with the *Northampton County Schools Code of Student Conduct*, state and federal laws, school board policies, and local school rules governing student behavior and conduct. This code of conduct applies to any student who is on school property, including school bus stops; who is in attendance at any school or any school-sponsored activity; who is under the direction and supervision of school personnel; or whose conduct at any time or place, on or off campus, has a direct and immediate impact on the orderly and efficient operation of the schools or the safety of individuals in the school environment. This code of conduct also applies to regular school buses, school activity buses, other school vehicles, or any private vehicle located on property owned by the Northampton County Board of Education.

This code of conduct also applies to students on any school sponsored field trip, including student conduct during travel times, in places of accommodation, and at all other times. Students may be disciplined for conduct not occurring on District property that violates the *Northampton County Schools Code of Conduct* and has or is reasonably expected to have a direct and immediate impact on the orderly and efficient operation of the schools or the safety of individuals in the school environment.

Students shall be informed of local school rules that, if violated, may result in suspension or expulsion or other disciplinary action. Parents and students shall receive a copy of the *Northampton County Schools Code of Student Conduct* when a child is first enrolled in the Northampton County Schools and at the beginning of each school year. The Northampton County Schools Code of Student Conduct is designed to assist parents/guardians, students and school executives/principals in understanding the student due process policies and procedures. Some policies referenced in this manual have been abbreviated. Entire policies can be found on the internet at http://www.northampton.k12.nc.us/board_of_ed/board_policy_manual or may be obtained upon request from the Northampton County Schools.

Violations of the *Northampton County Schools Code of Student Conduct*, board policies, regulations issued by the individual school, or the North Carolina General Statutes may result in disciplinary action including suspensions for ten (10) days or less (“short-term”); suspensions between eleven (11) days and the remainder of the school year (“long term”); suspensions for 365 calendar days; and/or expulsion. Students also may be assigned to an alternative program approved by the board for certain violations. All such assignments will be made by the superintendent on a case-by-case basis.

Many disciplinary consequences can occur with the student remaining in an educational environment. In-school disciplinary consequences available to school executives/principals include, for example: behavior contracts, peer mediation, in-school suspension, conflict resolution, detention, restitution, loss of privileges, and school or community service. **When, in the judgment of the school executive, a student’s behavior warrants an out-of-school suspension, the school executive may impose a short-term suspension or, for more serious violations of the Northampton County Schools Code of Conduct, may recommend a long-term suspension, a 365-day**

suspension, or expulsion. Suspensions of greater than ten days are reserved for serious misconduct which either threatens the safety of others within the school or threatens to substantially disrupt the educational environment.

In determining the appropriate consequence for a violation of the code of conduct, school executives shall consider all aggravating or mitigating circumstances they deem relevant. Examples of aggravating or mitigating circumstances that may be considered include but are not limited to

- The student's age;
- The student's intent;
- The student's disciplinary history, including number of infractions and prior discipline for the same violation;
- The student's academic history;
- Whether the conduct caused a threat to safety;
- Whether school property or personal property was damaged;
- Whether the conduct caused a substantial disruption of the educational environment;
- Whether a weapon was involved and whether any injury resulted.

School executives and other school officials are authorized to involve law enforcement in serious violations in any category of Code of Conduct violation and are required to involve law enforcement in cases of certain alleged criminal acts. In such cases, school officials shall cooperate fully with the law enforcement agency. Internal disciplinary proceedings shall take place independently from the criminal investigation and prosecution.

Section II: Overview of the Disciplinary Response and Process Treatment of School Executives, Teachers, and Staff

A student who commits an infraction against or involving a school executive, teacher, or other district staff member will be subject to a heightened response under five different levels. However, the heightened response will not exceed the listed penalty for the appropriate level.

Participation in an Expectation Violation

A student who participates or conspires with another to violate one of the numbered expectations may be found in violation of the expectation. If so, the student will be subject to the full disciplinary consequence for the level of (?) expectation violation.

Conduct Away from School Property

Students may be disciplined for conduct away from Northampton County Schools' property that violates the *Northampton County Schools Code of Student Conduct* and that has or is reasonably expected to have a direct and immediate impact on the orderly and efficient operation of the schools or the safety of individuals in the school environment.

Truancy

Students between ages 7 and 16 are required by law to attend school. In addition to the consequences outlined in Expectation 1, the student will be required to make up the work missed and may be subject to the district's recovery procedures. For students with more than 10 unexcused absences, the student and/or parent may be referred for prosecution.

Possession of Illegal Substances

The unlawful possession, use or distribution of illicit drugs and/or alcohol by students on school property or at any school function is prohibited. In addition to school consequences, such actions will be reported to local law enforcement and may be required to be reported to the Department of Motor Vehicles.

Possession of Weapons

The possession of weapons by students on school property or at any school function is prohibited. In addition to school consequences, such actions will be reported to local law enforcement and may be required to be reported to the Department of Motor Vehicles.

Personal Technology Devices

A personal technology device (PTD) is a portable Internet-accessing device that is not the property of the district that can be used to transmit communications by voice, written characters, words or images, share information, record sounds, process words, and/ or capture images, such as a laptop computer, tablet, smartphone, cellular telephone, personal digital assistant or E-Reader. A student may possess and use a PTD on school property, at after-school activities and at school-related functions, provided that during school hours and on a school bus the PTD may be used as long as it does not disrupt the bus or it remains off and put away. With the approval of the superintendent, a school executive may permit students to possess and use PTDs during the school day for educational purposes. "Educational purposes" include student education, research and career development. Possession of a PTD by a student is a privilege, which may be revoked for violations of the *Northampton County Schools Code of Student Conduct*. Violations may result in the confiscation of the PTD (to be returned only to a parent) and/or other disciplinary actions. The district is not responsible for

theft, loss or damage to PTDs or other electronic devices brought onto Northampton County Schools property. Students permitted to use PTDs during the school day must follow all rules set forth in Policy 7320 *Technology Acceptable Use* and sign the *Student Internet Use Agreement*.

Reports to Law Enforcement Agencies

Pursuant to state law, school executives/principals are required to report the following acts to law enforcement: “assault involving serious personal injury, sexual assault, sexual offense, rape, kidnapping, indecent liberties with a minor, assault involving the use of a weapon, possession of a firearm in violation of the law, possession of a weapon in violation of the law or possession of a controlled substance in violation of the law.” N.C.G.S. § 115C-288 (g).

Reports to Department of Social Services

Pursuant to state law, school personnel are required to report any suspected cases of child abuse or neglect to the Department of Social Services.

Reports to Department of Motor Vehicles

Pursuant to state law, school executives/principals are required to report the following acts to the Department of Motor Vehicles: possession or sale of alcoholic beverages or illegal controlled substances; bringing, possessing or using a weapon or firearm on school property; and physical assault on school staff when the conduct results in a suspension in excess of 10 days or the student is assigned to an alternative educational setting.

School Plan for Management of Student Behavior

School board Policy 4302 requires each school to have a School Plan for Management of Student Behavior. This school management student behavior plan should address three components: (1) the process by which student behavior will be addressed, including any use of a disciplinary committee and the means by which students at risk of repeated disruptive or disorderly conduct are identified, assessed and assisted, (2) positive behavioral interventions and possible consequences that will be used, and (3) parental involvement in issues related to their child’s behavior (see Policy 4341, Parental Involvement in Student Behavior Issues, adopted December 3, 2012).

Exceptional Children

Disciplinary actions for students identified as exceptional children according to North Carolina law will conform to *Policies Governing Services for Children with Disabilities* as adopted by the State Board of Education. If the *Policies Governing Services for Children with Disabilities* manual does not fully address a particular issue, the director of exceptional children will develop any necessary protocols consistent with state and federal law. (See Policy 4307, Disciplinary Action for Exceptional Children/Students with Disabilities, adopted December 3, 2012).

School-Level Investigations

Policy Reference: Policy 4340 School Level Investigations (adopted December 3, 2012)

Any student who has violated a board policy, school standard, school expectation or the Code of Student Conduct must accept the consequences for his or her misbehavior. All consequences must be administered in a fair and nondiscriminatory manner. The school administrator shall take the following steps in addressing all cases of alleged misbehavior appropriately referred to his or her office:

1. investigate the facts and circumstances related to the alleged misbehavior;
2. offer the student an opportunity to be heard on the matter; and
3. determine whether a board policy, school standard, school expectation or the Code of Student Conduct has been violated.

If a violation has occurred, the school administrator shall implement an appropriate consequence in accordance with the school's plan for managing student behavior, the Code of Student Conduct, or applicable board policy. Parents are to be notified and involved in accordance with policy 4341, Parental Involvement in Student Behavior Issues. When the misbehavior may result in a suspension or an expulsion from school, procedures provided in related board policies also will apply.

Criminal Behavior

Policy Reference: Policy 4335 Criminal Behavior (adopted January 11, 2016; revised December 12, 2016)

School officials shall cooperate fully with any criminal investigation and prosecution. School officials shall independently investigate any criminal behavior that also violates school rules or board policy. The student will continue to be provided with educational opportunities unless and until the student is found to have violated board policy or school rules and is suspended or expelled in accordance with procedures established in board policy.

Section III: Expectations for Model Student Behavior

The *Student Code of Conduct Expectations* and *Model Student Profile* are divided into five levels, indicating the severity of the violation and the type of consequence. The school executive shall inform students of local school expectations that, if broken, may result in suspension from school. Section IV: Infractions and Related Character Traits

Note: Violations of Northampton County Schools' Rules may also support violations of state and federal laws for which students can be charged. Within each level, the school executive has the discretion to impose the consequences deemed most appropriate to address the infraction. In the instances where an infraction falls within multiple levels, it is within the discretion of the school executive to determine level assignment for the infraction.

Level I Infractions - Rules 1, 2, 3, 4, 5 (except where violations of Rule 1 may result in a Rule 7 violation).

Rule 1: Attendance (Citizenship/Responsibility):

A student must attend every class every day unless there is a lawful reason for the absence. Students who are tardy, cut school or class or have excessive unexcused absences (more than 10) are in violation of this rule. In addition to any administrative response, students with excessive absences may be required to comply with the district's recovery procedures. Repeated violations of this rule may also result in Level II consequences, with the condition that any out-of-school suspension imposed for conduct related solely to violation of this rule is limited to two days per violation. (Students who engage in insubordinate behavior towards an authorized staff member attempting to enforce this rule may also be in violation of Rule 7 and may be punished accordingly, without the two-day limitation on out-of-school suspensions.)

Rule 2: Food/Beverages (Responsibility/Honesty):

A student will eat and drink only in authorized areas of the school.

Rule 3: Medications (Responsibility/Honesty):

(All other items will be confiscated and returned to the parent at a mutually agreed upon time, not to exceed one calendar week.) The following are among the list of items that may be prohibited:

1. Personal Technology Devices: A personal technology device (PTD) is a portable Internet-accessing device that is not the property of the district that can be used to transmit communications by voice, written characters, words or images, share information, record sounds, process words, and/or capture images, such as a laptop computer, tablet, smartphone, cellular telephone, personal digital assistant or EReader. With the approval of the superintendent, a school executive may permit students to possess and use PTDs during the school day for educational purposes. "Educational purposes" include student education, research and career development. Possession of a PTD by a student is a privilege, which may be revoked for violations of the *Northampton County Schools Code of Student Conduct*. Violations may result in the confiscation of the PTD (to be returned only to a parent) and/or other disciplinary actions. The district is not responsible for theft, loss, or damage to PTDs or other electronic devices brought onto Northampton County Schools property. Students permitted to use PTDs during the school day must follow all rules set forth in Policy 7320 and sign the Student Internet Use Agreement.

Section V: Procedures Relating to Disciplinary Action or Re-entry

To protect student rights, certain procedures are followed with regard to disciplinary actions. These procedures are developed as suggested or required by law or regulation. School and classroom discipline in areas not covered by these specific procedures are encouraged.

Procedures for Short-term Suspensions (1-10 days)

A student accused of misconduct, which in the opinion of the principal (including principal's designee) would require a short-term suspension from school, shall be afforded the procedures below. A student must be given an opportunity to complete assignments, take textbooks home, and take major tests or exams missed during the period of suspension. Details of the processes to be followed are provided in Policy 4351, Short-term Suspension.

1. The student must be told by the school executive/designee of the reason(s) for the consideration of suspension.
2. The student must be given the opportunity to have an informal hearing with the school executive and to present his/her version of the events and to identify witnesses to the incident. The informal hearing will typically occur immediately after the student is informed of the charges, but may be delayed if the student's continued presence on campus is a safety concern or if it substantially disrupts or interferes with the education of other students.
3. The school executive/designee shall make a determination as to whether or not a student is guilty of the misconduct, and if so, what disciplinary response will be imposed. Initial notices to impose suspension may be communicated orally to the parent; written notification must follow.
4. The school executive/designee shall report each suspension in writing to the student's parent/guardian and to the central services representative. This report shall be sent to the parent by email, regular mail or other reliable means by the end of the day of the suspension when reasonably possible. Otherwise, it must be sent no more than 2 days later. Reasonable efforts shall be made to contact parents or guardians prior to the start of the suspension. If parents or guardians cannot be reached prior to the start of the suspension, the school executive/designee may determine to start the suspension without contacting parents/guardians, but continued reasonable efforts shall be made. School officials shall maintain a copy of the written notice in the student's educational record.
5. At the discretion of the school executive, a written behavior contract may be required upon the return of the student to school.
6. Students are not entitled to appeal a school executive's decision to impose a short-term suspension to the superintendent or the Board of Education.

Removal of Student During the Day

Policy Reference: Policy 4352 Removal of Student During the Day

The school executive may remove from school grounds a student who has been suspended during the school day, under any of the following circumstances:

1. the parent has been notified and is able to make arrangements for the student to leave the school or agrees to the student's using public transportation or driving himself or herself home;
2. the parent has been notified and is available to receive the student, and the principal is able to arrange for transportation from the school to the home; or
3. the principal involves law enforcement in the removal of the student from school grounds because such action is necessary to provide a safe, orderly school environment.

If none of these circumstances exists, the suspension will begin on the next school day

Procedures for Long-term Suspensions (more than 10 days) or 365-day Suspensions

A student accused of a willful violation of the Code of Student Conduct which, in the opinion of the school executive or designee, may require a long-term suspension or 365-day suspension from school, shall be afforded the procedural safeguards described below. A suspension of more than 10 days is appropriate only when the student willfully engages in conduct that threatens the safety of students, staff or school visitors, or threatens to substantially disrupt the educational environment. The procedures for a short-term suspension must be employed, as well as the following additional steps, prior to the imposition of a long-term suspension. Only the superintendent or his/her designee may impose a period of long-term suspension or 365-day suspension. Details of the processes to be followed are provided in Policy 4353, Long-term Suspension.

1. Except for serious violations of the Code of Student Conduct for which the superintendent may recommend that the student be expelled.
2. The student or student's parent may request a hearing before the superintendent within three (4) days of receiving notice from the principal of the recommendation for a long-term suspension, 365-day suspension or expulsion. If parents/guardians miss the deadline or if they waive the right to a hearing by failing to appear for a duly scheduled hearing, the superintendent shall review the circumstances of the recommended long-term suspension and act pursuant to the options specified in Policy 4353.
- a 3. If the student or parent makes a timely request for a hearing, written notice will be sent to parents/guardians advising them of the date, time and location of the hearing. The notice will also describe the hearing process and advise parents/guardians of the student's rights under law. Details of the notice are provided in Policy 4353, Long-term Suspension, 365-Day Suspension, Expulsion. The notice will be sent by e-mail, US mail, hand delivery or other reliable means. For children in foster care, notice must also be sent to the foster parents. If neither the student nor the parent appears at the scheduled hearing, they will be deemed to have waived the right to the hearing.
4. The due process hearing will be held at the central services office or other designated location and the student will be able to exercise the rights identified in the notice, including the right to have an opportunity to present his/her version of the events, provide witnesses (or written witness statements) on his/her behalf, question the witnesses presented by the school administration, and be represented by counsel (at the parent's own expense). Students shall also have the right to review before hearing the evidence that may be presented by the district, as allowed by federal and NC law.
5. The superintendent/designee shall make a final decision regarding the long-term or 365-day suspension after the due process hearing has occurred or, if no request is received, after the deadline has passed for requesting a hearing. The superintendent/designee will not review the initial 10-day (short-term) suspension. A student shall be informed of the determination promptly.
6. If the student disagrees with the decision of the superintendent/designee to impose a suspension of more than 10 days, he/she is entitled to appeal to the Board of Education. This appeal must be requested within 3 days of the date of the superintendent's decision letter. The disciplinary consequence remains in effect throughout all appeals (A form for this purpose is located in the back of this book.)

The Board hearing will be conducted and a decision rendered within 30 days of the submission of the appeal

Procedures for Expulsion

Pursuant to N.C.G.S. § 115C-390.11, the Board of Education may expel any student, over 14 years of age, whose behavior indicates that the student's continued presence in the school constitutes a clear threat to the safety of other students or employees or who is subject to the Jessica Lunsford Act (a registered sex offender) and the student's continued presence in school constitutes a clear threat to the safety of other students or employees.

1. When a principal recommends expulsion to the superintendent, the principal must identify the basis for determining that there is clear and convincing evidence of the student's continued presence constitutes a clear threat to the safety of other students or employees. The procedures describe above for a hearing on a recommended long-term suspension or a 365-day suspension are to be applied to students facing expulsion, and the principal must provide the student or parent written notice of the recommendation for expulsion, except that the decision to expel a student by the Board of Education must be based on clear and convincing evidence. The student or parent may request a hearing before the superintendent within three days of receiving notice from the principal.
2. After the hearing described above, if the superintendent/designee determines that expulsion is appropriate, the superintendent/designee shall make a recommendation to the Board of Education that the student be expelled and the basis for the recommendation must be set out, along with any proposal for alternative education services. A period of long-term suspension may also be imposed pending the Board decision on the expulsion recommendation.
3. The parent/guardian will receive written notice of the superintendent's/designee's recommendation and the parent/guardian may request a hearing before a panel of the Board of Education within five days of the receipt of the notice.
4. Following the request for a hearing, the superintendent shall notify the student and parent of the date, time and location of the hearing, a summary of the charge being levied against the student, the information to support the charge and the student's rights at this proceeding.
5. If a hearing is requested, the student and parent will have the opportunity to explain why his/her presence is not a clear threat to the safety of others, provide witnesses (or written witness statements) on his/her behalf, question the information presented by the superintendent/designee and be represented by counsel, at the parent's expense.
6. If the Board of Education determines that expulsion is appropriate, the Board will document the basis for its determination that there is clear and convincing evidence that the student's behavior indicates that the student's continued presence in school constitutes a clear threat to the safety of other students or employees. The Board will also consider and make a written determination of whether alternative education services are to be provided.
7. The written decision of the Board of Education will be sent to the student and parent via certified mail, notification of what information will be included in the student's official record, the procedure for expungement of information under NCGS 115C-402, and notice of the right to petition for readmission under NCGS 115C-390.12.

Procedures for Re-entry of Expelled Students or Students Suspended for 365 Days

Following the Board of Education's decision to expel a student, the student shall have no right to attend Northampton County Schools until such time as the student can demonstrate that he/she no longer constitutes a threat to the safety of other students and staff. A student who has been expelled shall have a right to request that the Board of Education reconsider the decision to expel any time after 180 days after the decision to expel. Similarly, students subject to a 365-day suspension may petition the Board for readmission after 180 days from the start of the suspension.

For students serving a 365-day suspension, following request for readmission, the superintendent/designee shall offer the student an opportunity for an in-person meeting to be held within five days. At the meeting, the student may provide documents in support of the request such as ones verifying that the student is participating in or has completed counseling or rehabilitation programs. Within 30 days of the student's request, the superintendent/designee shall provide written notice of the decision whether to readmit to the student, the student's parent, and the Board. If the superintendent/designee rejects the request for readmission, the notice will advise the student and parent of the right to appeal the decision to the Board. Any appeal to the Board must be made in writing within five days of receipt of the superintendent's/designee's decision. The Board hearing shall be conducted in accordance with Policy 2500. After the hearing, the Board will provide the student and parent a written decision within 30 days of receiving the appeal. If the request for readmission is denied, no subsequent requests from that student will be considered during that 365-day suspension.

For students who have been expelled, the Board hearing following the request for readmission shall be conducted in accordance with Policy 2500. After considering the student's request and the superintendent's/designee's recommendation regarding readmission, the Board will readmit the student if the Board determines that the student has

satisfactorily demonstrated that his or her presence in school no longer constitutes a clear threat to the safety of other students or employees. After the Board hearing, the Board will provide the student and parent a written decision within 30 days of the submission of the request for readmission. If the expelled student's request for readmission is denied, the Board will not consider a subsequent request for readmission of the student until six months after the submission of the previous request.

Procedures for Suspension of Students with Disabilities

Please see the *Handbook on Parents Rights* for the additional procedural safeguards to be followed for students with disabilities. If you need a copy of this handbook, please contact the school executive at your school or obtain a copy through the Northampton County Schools Office of Exceptional Children.

Procedures for Re-entry of Students from Alternative Settings

The school placement for students transitioning from alternative settings or treatment facilities, mental health centers, etc. will be determined by a Multidisciplinary Transition Team. The team will consist of representatives from various Northampton County Schools departments, the relevant alternative or treatment facility, and the judicial system, where applicable. An individual designated by the superintendent will facilitate the appeal process for school placement decisions made by the Multidisciplinary Transition Team.

Point of Exit is Point of Entry

Withdrawing from and later re-enrolling in Northampton County Schools will not circumvent a reassignment to an alternative school for disciplinary purposes. Students who are reassigned to an alternative school or mandatory program for a specified amount of time must regularly attend and successfully complete this reassignment before returning to the regular school environment. Such students who leave Northampton County Schools and return at a later date will automatically be assigned to the alternative school or program upon returning to the system.

In making determinations regarding exemptions to the Dress Code Policy, the principal or principal's designee shall not attempt to determine whether the religious beliefs are valid but only whether they are sincerely held. To assist in deciding whether an exemption is warranted, the principal or principal's designee may request the parent/guardian to provide information in writing demonstrating: (1) that the objection to the requirements of the Dress Code Policy is grounded in religious tenets rather than mere personal preference; (2) that the religious beliefs are sincerely held; and (3) that compliance with the requirements of the Dress Code Policy will interfere with the exercise of those beliefs.

REFERENCE B: Medical Exemption

Upon written request from the parent/guardian of a student, the principal or principal's designee may, as a reasonable accommodation under the Dress Code Policy, exempt the student from the requirements of the Dress Code Policy when medical necessity prevents a student's compliance with the Dress Code Policy. Policy Code: 4400 Attendance Acknowledgement

Attendance in school and participation in class are integral parts of academic achievement and the teaching-learning process. Through regular attendance, students develop patterns of behavior essential to professional and personal success in life. Regular attendance by every student is mandatory. The State of North Carolina requires that every child in the State between the ages of 7 (or younger if enrolled) and 16 attend school. Parents and legal guardians are responsible for ensuring that students attend and remain at school daily.

A. Attendance Records

School officials shall keep accurate records of attendance, including accurate attendance records in each class. Attendance records will be used to enforce the Compulsory Attendance Law of North Carolina.

Students will be considered in attendance if present at least half of the instructional day on-site in the school or at a place other than the school attending an authorized school-related activity. Students are expected to be at school on time and to remain at school until dismissed. During the school day, students are expected to be present at the scheduled starting time for each class and to remain until the class ends. When a student must be late to school or leave school early, a written excuse signed by a parent or guardian should be presented upon the student's arrival at school. Tardies or early departures may be excused for any of the reasons listed below in Section C.

Any disciplinary consequences for unexcused tardiness or unexcused early departures from school or class will be consistent with Section D of policy [4300](#), Student Behavior Policies. The superintendent or designee shall list in the Code of Student Conduct the specific range of consequences that may be imposed on a student for such offenses. Consequences may not exceed a short-term suspension of two days.

B. Excused Absences

When a student must miss school, a written excuse signed by a parent or guardian must be presented to the student's teacher on the day the student returns after an absence. Absences due to extended illnesses may also require a statement from a physician. An absence may be excused for any of the following reasons:

1. personal illness or injury that makes the student physically unable to attend school;
2. isolation ordered by the State Board of Health;
3. death in the immediate family;
4. medical or dental appointment;
5. participation under subpoena as a witness in a court proceeding;
6. a minimum of two days each academic year for observance of an event required or suggested by the religion of the student or the student's parent(s);
7. participation in a valid educational opportunity, such as travel or service as a legislative or Governor's page, with prior approval from the principal;
8. pregnancy and related conditions or parenting, when medically necessary; or
8. visitation with the student's parent or legal guardian, at the discretion of the superintendent or designee, if the parent or legal guardian (a) is an active-duty member of the uniformed services as defined by policy 4050, Children of Military Families, and (b) has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat support posting.
9. In the case of excused absences, short-term out-of-school suspensions, and absences under [G.S. 130A-440](#) (for failure to submit a school health assessment form within 30 days of entering school) the student will be permitted to make up his or her work. (See also policies 4110, Immunization and Health Requirements for School Admission, and 4351, Short-Term Suspension.) The teacher will determine when work is to be made up. The student is responsible for finding out what assignments are due and completing them within the specified time period.

C. School-Related Activities

All classroom activities are important and difficult, if not impossible, to replace if missed. Principals shall ensure that classes missed by students due to school related activities are kept to an absolute minimum. The following school-related activities will not be counted as absences from either class or school:

1. field trips sponsored by the school;
2. job shadows and other work-based learning opportunities, as described in [G.S. 115C-47](#)(34a);
3. school-initiated and -scheduled activities;
4. athletic events that require early dismissal from school;
5. Career and Technical Education student organization activities approved in advance by the principal; and 6. in-school suspensions.

Assignments missed for these reasons are eligible for makeup by the student. The teacher will determine when work is to be made up. The student is responsible for finding out what assignments are due and completing them within the specified time period.

D. Excessive Absences

Class attendance and participation are critical elements of the educational process and may be taken into account in assessing academic achievement. Students are expected to be at school on time and to be present at the scheduled starting time for each class.

The principal shall notify parents and take all other steps required by [G.S. 115C378](#) for excessive absences. Students may be suspended for up to two days for truancy.

If a student is absent from school for five or more days in a semester, the principal or a committee established by the principal shall consider whether the student's grades should be reduced because of the absences. The principal or committee shall review other measures of academic achievement, the circumstances of the absences, the number of absences, and the extent to which the student completed missed work. A committee may recommend to the principal and the principal may make any of the following determinations:

1. the student will not receive a passing grade for the semester;
2. the student's grade will be reduced;
3. the student will receive the grade otherwise earned; or
4. the student will be given additional time to complete the missed work before a determination of the appropriate grade is made.

Students with excused absences due to documented chronic health problems are exempt from this policy. In addition, for students experiencing homelessness (see board policy 4125, Homeless Students), school officials must consider issues related to the student's homelessness, such as a change of caregivers or nighttime residence, before taking disciplinary action or imposing other barriers to school attendance based on excessive absences or tardies.

Excessive absences may impact eligibility for participation in interscholastic athletics.
