

ARTS AND COMMUNICATION

[Graphic Design A \(1 + C\)](#) - Create it! The fundamentals of drawing and design are combined with computer software skills to produce original graphic design work and illustrations. Computers are used to produce high quality projects that are assembled into a personal portfolio.

[Graphic Design B \(1 + C\)](#) - Make It! Explore major printing processes from graphic design to digital imaging to final printed product. Using design thinking, students learn how to make, sell and distribute printed items like vinyl graphics, decals & signage.

[Media Communications \(1 + C\)](#) - Learn video production, editing, and broadcasting. Operate video cameras, sound and mixing boards, and lighting, in a production studio and on remote locations.

HEALTH SCIENCES

[Advanced Healthcare \(1\)](#) - Build on health foundations learned in the first year. Gain advanced skills in EKG, dressing changes, catheters, pre/post operative care, injection techniques, intravenous fluids, and phlebotomy (blood testing/drawing blood).

Open to seniors only.

[Dental Careers \(1 + C\)](#) - Become a chairside dental assistant and explore other careers including dentistry, dental hygienist, or dental lab technician.

[Emergency Medical Services \(1\)](#) - Train to become an Emergency Medical Technician. Learn to assess patients involved in different types of emergencies and trauma, and study treatment procedures. **Open to seniors only.**

[Health Careers/Certified Nurse Aide \(CNA\) \(1\)](#) - Gain the information and skills necessary to become a certified nurse aide. Document/report on patients, check vital signs, administer medications and/or treatments, apply dressings and bandages, and help keep patients clean.

[Health Careers/Patient Care Tech \(PCT\) \(1\)](#) - Learn skills you will need in a variety of healthcare settings including obtaining vital signs, CPR and First Aid, electrocardiograms, and earn a certification as a PCT.

[Health Careers/Phlebotomy \(1\)](#) - Investigate the healthcare system and related sciences, learning medical terminology, vital signs, communication, CPR and First Aid and safety in the workplace. In addition, you have the opportunity to earn a Phlebotomy (blood draws) certification.

[Surgical Tech \(NEW\) \(1\)](#) - An intro course offering training in surgical technology, as well as basic healthcare principles. Surgical technologists are medical professionals who specialize in preparing the operating room and assisting surgeons during surgery.

CONSTRUCTION

[Construction \(1 + R or C\)](#)

Build a house using the newest technology in green building, energy efficiency and material conservation. Learn blueprint reading, framing, roofing, siding and carpentry. Construction project management including scheduling, budgeting, and estimating will also be covered.

[Electrical \(1 + C\)](#) - Understand how electricity is transmitted as well as alternative methods of producing electricity including wind, solar, and hydro-electric. Gain experience in electrical installation methods for commercial, industrial, and residential applications.

[Plumbing & Water Systems \(1 + C\)](#)

Explore the newest technology in renewable/sustainable energy including geothermal, rainwater harvesting, and irrigation. Also, learn layout and design of water purification systems. Put skills to work at the "project house".

ENGINEERING/MANUFACTURING

[Engineering Design & Machine Technologies \(1 + C\)](#) Build and design custom parts and assemblies of products, tools, and machines used in the automotive, manufacturing, and construction industries. Use the latest engineering/design software and get experience programming CNC equipment. In addition, set-up and operate lathes, mills, and grinders.

[Mechatronics/Robotics \(1 + C\)](#) - Learn electronics, robotics, equipment controls and sensors, and programming used in electro-mechanical systems. Students design and build vex robotic systems and an electric race car.

[Welding \(1 + C\)](#) - Learn the basics of welding including design, layout and fabrication of metals, the identification of metal and alloy properties, and fluxcore and plasma arc cutting.

TRANSPORTATION

[Automotive Technology \(2\)](#) - Learn and apply the basics of auto service in the areas of tire service, exhausts, tune-ups, engines, brakes, suspensions, and electronics.

[Auto Body Repair \(1 + C\)](#) - Work on cars and trucks learning welding techniques, dent removal, panel replacement, surface preparation, and painting.

[Diesel/Heavy Equipment Mechanics \(2\)](#) - Operate, service, and repair diesel powered equipment found in heavy duty truck, construction equipment, and agricultural equipment applications.

HUMAN SERVICES

Cosmetology (1) - Learn many services offered in the cosmetology profession including hair cutting and styling, manicures, pedicures, and coloring. There is a fee for students which covers textbook, smock, and hair cutting tools. The Cosmetology program is offered at Tulip City Beauty School. **Open to seniors only.**

Teacher Academy (1 + R or C) - Discover the different ways in which children learn and grow. Learn the physical, social, cognitive, and emotional development of children as well as observation skills and lesson preparation.

Public Safety & Security Services (1 + C) - Train in the protection of people. Learn about law enforcement, public safety, and security services in the community. Areas of study include Michigan law, the court system, corrections, emergency procedures (CPR and first aid), and investigative procedures.

AGRICULTURE, FOOD & NATURAL RESOURCES

Agriculture/Animal Science (1 + R or C)
Gain an awareness of environmental, horticultural, and animal sciences. Areas of study include sustainable agriculture, horticulture, and greenhouse systems as well as animal anatomy/physiology, nutrition, reproduction, and health.

Environmental Field Studies (1 + C)
Students will explore the environment and how it's impacted by human interactions. Areas of study include forestry, soil chemistry, plant and wildlife identification and ecosystems.

ADDITIONAL PROGRAMMING

Career Learning Center (1)
CLC's main goal is to support students in exploring different career pathways of interest through involvement in a variety of ways, including industry tours, project-based learning in a lab setting, and career exploration through work-based learning experiences. CLC supports students in finding a career path that's a good fit for their future.

careerlinetech.org

BE SURE TO CHECK US

BUSINESS, MANAGEMENT, MARKETING & TECHNOLOGY

Business Management (1 + R or C) - Showcase your management and leadership skills by running the school store, Port 31. Students collaborate on all areas of the business as a staff.

Culinary Arts (1 + C) - Focus on the food and beverage industry, nutritional values of foods, proper cooking methods and sanitation.

Entrepreneurship & Global Business (1 + R or C)
Develop a business plan for your own business as well as manage a virtual, global business as a class, working with students from around the world.

IT: Network & Security (1 + R or C) - Learn the fundamentals in PC hardware & operating systems, PC repair & troubleshooting, and help desk/customer service. Get CompTIA certifications in A+, Network+, and more.

Pastry Arts & Baking (1) - Prepare cakes, cookies, pies, breads, and various baked items. Learn customer service by working in the Bakery store.

Software and Game Development (1 + R or C) - Learn how to develop software (web applications, console programs, and games) while earning CIW and CompTIA certifications and college credit.

TO APPLY

To begin the application process visit our website at www.careerlinetech.org. Click on **Student Services**, scroll down and click on **Student Online Application**. A parent/guardian must fill out the application.

Enrollment opens in mid-January for the following school year.

OPPORTUNITIES TO VISIT

- Fall Open House (October)
- Winter Open House (February)
- 10th Grade Observations

Open houses are a great way for students and parents to learn what all CTC has to offer and speak directly with the instructors. Follow our social media and website for open house information.

KEY FOR ALL PROGRAMS

- 1 = One year program**
- 1+ R = One year program with a second year option**
- 2 = Two year program (may be taken for one year)**
- C = Capstone opportunity**

Credits: Students will earn elective credit at their high school upon completion of the course. Please see a high school counselor (based on district decision) for eligibility towards 4th-year math-related credit, VPAA credit, and waived credits for third year science and second year world language.

Direct college credit and **Articulated** college credit are available in most classes.
