Article IV
Employee Evaluation Procedure

Section 1
Purpose and Principles

1. Professional growth and performance are assessed using Center for Educational Leadership 5D+ (CEL 5D+ Framework). The updated version of this tool(s) will be used when available.
2. Certificated educators want to improve their professional skills and their students' learning. Therefore, our evaluation system will:
 - a. Reflect the stages of professional growth and cycle of inquiry as outlined in the TPEP process.
 - b. Provide opportunities for self-reflection;
 - c. Recognize accomplishments and exemplary performance;
 - d. Encourage professional growth and guide staff development; and
 - e. Provide for reciprocal accountability.
3. Our evaluation system will be:
 - a. Framework or standards-based;
 - b. Interactive and collaborative in nature;
 - c. Reflective of different expectations for different job categories; and
 - d. Legal and supportive of certification requirements and termination processes.
4. There will be training for staff and administrators about the evaluation process.

Section 2
Responsibility for Evaluation

- A. An employee shall be evaluated by an administrator
 - B. If an employee disagrees with an evaluation report, the employee has the right to request an outside evaluator. The results from the outside evaluator will be taken in consideration with the appraisal from the district administrator.
 - C. No member of the bargaining unit shall evaluate any other member of the bargaining unit.
 - D. Any complaint made against an employee which may be used in evaluating the employee shall be called to the attention of the employee within ten working days. The employee has the right to answer such complaint within ten working days.
1. There shall be two types of evaluation processes:
 - a. Comprehensive Evaluation: A comprehensive evaluation must be completed at least once every

four years or in the event the employee's work performance does not meet minimum standards. A comprehensive evaluation assesses all CEL 5D+ Framework, or professional standards, which contribute to the summative performance rating.

- b. Focused Evaluation: After four years of proficient evaluating ratings, the administrator may assign the teacher to a focused evaluation. In years when a comprehensive evaluation is not required, a focused evaluation must be conducted. A focused evaluation must include an assessment of one of the identified CEL 5D+ Framework or professional standards. The evaluator must approve the selected professional standard. In order to include student growth, two state standards may be evaluated.
 - i. The focused evaluation for CEL 5D+ Framework will include the student growth measures of the selected criterion. If criterion 3, 6 or 8 is selected, evaluators will use those student growth rubrics. If criterion 1, 2, 4, 5 or 7 is selected, evaluators will use criterion 3 or 6 for student growth rubrics.

2. After four years on the focused evaluation, an employee will be evaluated using the Comprehensive process.
3. If an administrator wants to change evaluation type from Focused to Comprehensive for probationary purposes, the evaluator must identify areas of concern using the CEL 5D+ Framework rubric and/or appropriate professional standards rubric.
 - a. The evaluator will meet with the employee to review concerns and develop a reasonable program for improvement.
 - b. Written documentation will be provided to the employee.
4. The first observation for a certificated staff member new to the District shall be made within the first ninety (90) calendar days of commencement of their employment. A formal observation of at least thirty (30) minutes duration is required. The observation scripts will be sent to the employee and the Human Resources Supervisor within ten (10) working days of the observation. The remaining observations will follow the procedures for Comprehensive evaluations and be completed by May 30 of the school year.

Section 3

General Evaluation Procedures

1. Each school year the evaluation process begins with the teacher completing a self-reflection based on using CEL 5D+ Framework Teacher Evaluation Rubric or appropriate professional standards. All self-evaluation tools are for the sole purpose of discussion with the employee's evaluator and remain the property of the employee, unless the employee chooses to share a copy with his or her evaluator.
2. Formal observations require a minimum of fifteen (15) minutes, with script given to employee within ten (10) working days. In lieu of scripts, appropriate artifacts can be used as evidence for Professional Collaboration and Communication Dimension indicators.
3. Evidence may be gathered based on walk throughs, meetings, etc.
4. Procedures specific to CEL 5D+ Framework
 - a. Criterion Performance Scoring:
Each criterion shall be rated based on the components in that criterion using a preponderance of the evidence collected throughout the year.
 - b. Evidence:
The district philosophy through the adopted CEL 5D+ Framework is intended to seek evidence through observation. It is in the spirit of this framework philosophy, that the classroom teacher and evaluator will put the focus on observational evidence rather than artifacts.

c. Comprehensive Evaluation Scoring:

A classroom teacher shall receive a summative performance rating for each of the eight (8) state evaluation criteria. The overall summative score is determined by totaling the eight (8) criterion-level scores as follows:

8-14	Unsatisfactory
15-21	Basic
22-28	Proficient
29-32	Distinguished

The final summative score, including the student growth score, must be determined by an analysis of evidence. The analysis will be based on a holistic assessment of the teacher's performance over the course of the year.

d. Student Growth Measures:

At the beginning of the year, the teacher and evaluator shall discuss and agree upon student growth measures and student growth goals to be used for the year. Student growth data will be taken from multiple sources in the same school year and must be appropriate and relevant to the teacher's assignment. Student achievement data that does not measure growth between two points in time shall not be used to calculate a teacher's student growth criterion score.

e. Student Growth Rubric:

For a comprehensive evaluation, evaluators add up the raw score on the student growth components and the employee is given a score of low, average or high based on the rating categories below:

5-12	Low
13-17	Average
18-20	High

f. Low Student Growth Score:

Within two months of receiving the low student growth score or at beginning of the following school year, whichever is later, one of the following must be initiated by the evaluator:

- i. examine student growth data in conjunction with other evidence including observations and other student and teacher information based on appropriate classroom, school, district and state-based tools and practices;
- ii. examine extenuating circumstances which may include one or more of the following: goal setting process; content and expectations; student attendance; extent to which standards, curriculum and assessment are aligned;
- iii. schedule monthly conferences focused on improving student growth to include one or more of the following topics: student growth goal revisions, refinement, and progress; best practices related to instruction areas in need of attention; best practices related to student growth data collection and interpretation; or
- iv. create and implement a professional development plan to address student growth areas.

g. Focused Evaluation Scoring:

The summative performance rating for the teacher on a Focused evaluation shall be the rating for the criterion selected that year, including any chosen student growth criterion. A summative score is determined through the scoring of the instructional framework using preponderance of evidence and student growth rubrics for the criterion selected. If criterion 3, 6 or 8 is selected, evaluators will use those student growth rubrics. If criterion 1, 2, 4, 5 or 7 is selected, evaluators will use criterion 3 or 6 for

student growth rubrics. Although a teacher will be required to demonstrate knowledge and skills on the student growth components, there will not be a separate student growth score for a focused evaluation.

Section 4 **Provisional Status**

1. Provisional status for teachers is defined in RCW 28A.405.220.
2. Teachers new to the profession or new to Washington public school teaching generally remain in provisional status for the first three years of their employment. Teachers new to the profession may be granted continuing status at the end of their second year.
 - a. If a second-year provisional teacher is rated proficient or distinguished, the superintendent may move the employee to continuing contract status and Focused evaluation. If a second-year provisional teacher is rated unsatisfactory or basic, the employee may continue with a provisional status for one more year as determined by the evaluator.
 - b. If a new teacher with less than two (2) years in one district in the Washington public school system moves from another district, the provisional status starts again.
 - c. Teachers on continuing status in Washington public schools who move into a new district revert to provisional status for the first year of employment in the new district.

Section 5 **Support for Basic and Unsatisfactory Employees**

1. As soon as it is perceived that a certificated employee's performance may need additional support, the evaluator and employee shall work together to develop a mutually agreeable written plan designed to correct the documented deficiencies. If such a plan cannot be agreed upon, the evaluator shall prepare, deliver, and discuss a plan with the employee. Intervention strategies shall be implemented. These may include:
 - a. peer mentoring
 - b. mentor teachers
 - c. instructional coach
 - d. professional development
 - e. classroom visitation
 - f. framework specialist

Section 6 **Inquiry Cycle**

1. During each school year, all certificated employees shall be observed for the purposes of collecting evidence within the Inquiry Cycle. The Inquiry Cycle will occur twice within a school year.

Section 7

General Evaluation Procedures

1. Certificated staff members are subject to evaluation in their total assignment, but will not be placed on probation or a plan of improvement based on knowledge of content or curriculum when the staff member is assigned a subject outside his or her certificated endorsement or outside of the subjects, curriculum or grade levels the teacher has taught in recent years. Staff members will not be evaluated on tasks or activities that fall outside the employee's contractual responsibilities.
2. No evaluation will be made without following the minimum observation and/or monitoring as stated herein. Employee and evaluator will schedule the initial observation. Subsequent observations are not required to be scheduled.
3. Any reports, complaints, comments, data or observations submitted to an evaluator by a third party shall be substantiated by the evaluator before being referenced in the written comments section of an evaluation report.
4. The process of evaluation is subject to the grievance procedure of this Agreement. The actual evaluation finding is not a grievable matter.
5. Nothing in this evaluation Article shall prohibit groups of certificated staff members from working with their administrators in mutually seeking and implementing innovative evaluation procedures, provided all provisions of this Article are followed.
6. All evaluations and evaluation conferences are to be completed annually. Such evaluations and conferences are to be completed no later than May 30 of the year in which the evaluation takes place.
7. After receiving an evaluation report which will be placed in the employee's personnel file, the certificated staff member may submit signed comments concerning his/her evaluation report which shall be attached to the report in his/her personnel file.
8. If the administrator contemplates recommending that a certificated staff member be placed on probation, a complete Comprehensive evaluation report shall be given to the employee at least ten (10) working days before the recommended probation period begins. Probation shall be administered in accordance with state law, RCW 28A.405.100.

10. Within the scope of the adopted evaluative criteria, all employees shall be guaranteed the right and accept the responsibility to use multiple instructional modalities and techniques in delivery of instruction as appropriate to meet individual needs of students. Any employee may challenge a perceived lack of permissible flexibility in instructional modalities and techniques by discussions in pre-conference and post-conference meetings with his or her evaluator.

Section 8

Comprehensive Summative Performance Rating

1. The evaluating administrator shall complete the Comprehensive Summative Performance no later than May 30th of each school year.
2. Basic is not to be considered a negative mark for evaluation purposes unless it becomes a perpetual mark that characterizes lack of effort towards improvement.
3. When an area of deficiency has been identified, the evaluator must address the criteria of concern(s) with the employee, allowing time to make appropriate changes/growth before a final Summative Performance Rating is completed.
4. All performance ratings are derived from a preponderance of evidence based on rubric language. Rubric language will guide the improvement required.
5. At any time after October 31st, an employee whose work is not judged to be satisfactory based on district evaluation criteria shall be notified in writing of the specific areas of deficiencies. The evaluator and employee will create a reasonable program for improvement. The Comprehensive Summative Evaluation performance ratings that require a reasonable program for improvement are:
 - a. Unsatisfactory; or
 - b. Basic if the classroom teacher is a continuing contract employee with more than five (5) years of teaching experience and if the Basic Comprehensive Evaluation performance rating has been received for two (2) consecutive years or for two (2) years within a consecutive three (3) year time period.
 - i. During the period of probation, the employee may not be transferred from the supervision of the original evaluator. A probationary period of sixty (60) school days shall be established. Days may be added if deemed necessary to complete a program for improvement and evaluate the probationer's performance, as long as the probationary period is concluded before May 30th of the same school year. The probationary period may be extended into the following school year if the probationer has five (5) or more years of teaching experience and has a Comprehensive evaluation performance rating as of May 30th of Unsatisfactory.
 - ii. The purpose of the probationary period is to give the employee opportunity to demonstrate improvements in his or her areas of deficiency.
 - (a) During the probationary period the evaluator shall meet with the employee at least twice monthly to supervise and make a written evaluation of the progress, if any, made by the employee.
 - (b) The evaluator may authorize one (1) additional certificated evaluator to evaluate the probationer and to aid the employee in improving his or her areas of deficiency.
 - (c) The probationer may request that an additional certificated evaluator assigned by the Olympic Educational Service District selected from a list of evaluation specialists.
 - (d) The probationer must be removed from probation if he or she has demonstrated improvement to the satisfaction of the evaluator in those areas specifically detailed in his or her initial notice

of deficiency and subsequently detailed in his or her program for improvement.

- (e) Lack of necessary improvement during the established probationary period, as specifically documented in writing with notification to the probationer, constitutes grounds for a finding of probable cause under RCW 28A.405.300 or 28A.405.210.
- c. When a continuing contract employee with five (5) or more years of experience receives a Comprehensive Summative Evaluation performance rating below Level 2 for two (2) consecutive years, the school district shall, within ten (10) days of the completion of the second Comprehensive Summative Evaluation or May 15th, whichever occurs first, implement the employee notification of discharge as provided in RCW 28A.405.300.

It is further agreed that all such notices shall be consistent with appropriate state statutes and this Agreement.
- E. The purpose of the probationary period is to give the employee the opportunity to demonstrate improvement in her/his area of deficiency.
 - 1. Upon the employee's receipt of a probationary letter, written by the superintendent, the evaluator shall hold a conference with the employee to discuss performance deficiencies and the remedial measures to be

taken as provided for and documented within the probationary letter. A copy shall be placed in the employee's personnel file, with a copy of the Evaluation Report(s) and Observation Form(s) attached.

In the event that the superintendent determines that there exists probable cause or causes to non-renew the contract of the employee due to failure to achieve the necessary improvement, the superintendent shall provide a written notice thereof to the employee with a copy to the Association president on or before May 15 pursuant to the requirements of RCW 28A.405.210 and related statutes.
- H. The employer agrees that in the application of this procedure adverse evaluations will only be given when good cause exists.

- J. This evaluation procedure will be applied fairly and consistently and, further, no employee shall be evaluated in an area outside the scope of her/his primary designated work assignments as defined in Article IX of this Agreement.
- K. Nothing in the Agreement prohibits the Superintendent from performing evaluations and taking action to place an employee on probation or take personnel actions under RCW 28A.405.210, RCW 28A.405.220 or RCW 28A.405.300 based on evaluation findings.

Student Discipline

"Discipline" means any action taken by the school district in response to behavioral violations. Discipline is not necessarily punitive, but can take positive and supportive forms. Data show that a supportive response to behavioral violation is more effective and increases equitable educational opportunities. The purposes of this policy and accompanying procedure include:

- Engaging with families and the community and striving to understand and be responsive to cultural context
- Supporting students in meeting behavioral expectations, including providing for early involvement of parents
- Administering discipline in ways that respond to the needs and strengths of students and keep students in the classroom to the maximum extent possible
- Providing educational services that students need during suspension and expulsion
- Facilitating collaboration between school personnel, students, and parents, and thereby supporting successful reentry into the classroom following a suspension or expulsion
- Ensuring fairness, equity, and due process in the administration of discipline
- Providing every student with the opportunity to achieve personal and academic success
- Providing a safe environment for all students and for district employees

The Superintendent shall establish and make available rules of student conduct, designed to provide students with a safe, healthy, and educationally sound environment. Students are expected to be aware of the district's rules of student conduct, including behavior standards that respect the rights, person, and property of others. Students and staff are expected to work together to develop a positive climate for learning.

Minimizing exclusion, engaging with families, and supporting students

Unless a student's presence poses an immediate and continuing danger to others or an immediate and continuing threat to the educational process, staff members must first attempt one or more forms of other forms of discipline to support students in meeting behavioral expectations before imposing classroom exclusion, short-term suspension, or in-school suspension. Before imposing a long-term suspension or expulsion, the district must first consider other forms of discipline.

These other forms of discipline may involve the use of best practices and strategies included in the state menu for behavior developed under RCW 28A.165.035. The accompanying procedure will identify a list of other forms of discipline for staff use. However, staff members are not restricted to that list and may use any other form of discipline compliant with WAC 392-400-025(9).

School personnel must make every reasonable attempt to involve parents and students to resolve behavioral violations. The district must ensure that associated notices, hearings, conferences, meetings, plans, proceedings, agreements, petitions, and decisions are in a language the student and parents understand; this may require language assistance. Language assistance includes oral and written communication and further includes assistance to understand written communication, even if parents cannot read any language. The district's use of suspension and expulsion will have a real and substantial relationship to the lawful maintenance and operation of the school district, including but not limited to, the preservation of the health and safety of students and employees and the preservation of an educational process that is conducive to learning.

As described in the procedures, the district will offer educational services to students during suspension or expulsion. When the district administers a long-term suspension or expulsion, the district will timely hold a reengagement meeting and collaborate with parents and students to develop a reengagement plan that is tailored to the student's individual circumstances, in order to return the student to school successfully. Additionally, any student who has been suspended or expelled may apply for readmission at any time.

Staff authority

District staff members are responsible for supervising students during the school day, during school activities, whether on or off campus, and on the school bus. Staff members will seek early involvement of parents in efforts to support students in meeting behavioral expectations. The Superintendent has general authority to administer discipline, including all exclusionary discipline. The Superintendent will identify other staff members to whom the Superintendent has designated disciplinary authority. After attempting at least one other form of discipline, teachers have statutory authority to impose classroom exclusion for behaviors that disrupt the educational process. Because perceptions of subjective behaviors vary and include implicit or unconscious bias, the accompanying procedures will seek to identify the types of behaviors for which the identified district staff may administer discipline.

Ensuring fairness, providing notice, and an opportunity for a hearing

When administering discipline, the district will observe all of the student's constitutional rights. The district will notify parents as soon as reasonably possible about classroom exclusion and before administering any suspension or expulsion. The district will provide opportunities for parent participation during an initial hearing with the student. The district will provide parents with written notice, consistent with WAC 392-400-455, of a suspension or expulsion no later than one school business day following the initial hearing. As stated above, language assistance includes oral and written communication and further includes assistance to understand written communication, even if parents cannot read any language. The district has established procedures for review and appeal of suspensions, expulsions, and emergency expulsions, consistent with WAC 392-400-430 through 392-400-530.

The district has also established procedures to address grievances of parents or students related to other forms of discipline, classroom exclusion, and exclusion from transportation or extra-curricular activity. The grievance procedures include an opportunity for the student to share his or her perspective and explanation regarding the behavioral violation.

Development and review

Accurate and complete reporting of all disciplinary actions, including the behavioral violations that led to them, is essential for effective review of this policy; therefore, the district will ensure such reporting. The district will periodically collect and review data on disciplinary actions taken against students in each school. The data will be disaggregated into subgroups as required by RCW 28A.300.042, including students who qualify for special education or Section 504. The data review will include classroom exclusion, in-school and short-term suspensions, and long-term suspensions and expulsions. The district will invite school personnel, students, parents, families, and the community to participate in the data review. The purpose of the data review is to determine if disproportionality exists; if disproportionality is found the district will take action to ensure that it is not the result of discrimination and may update this policy and procedure to improve fairness and equity regarding discipline.

Distribution of policies and procedures

The school district will make its discipline policies and procedures available to families and the community. The district will annually provide its discipline policies and procedures to all district personnel, students, and parents, which may require language assistance for students and parents with limited-English proficiency under Title VI of the Civil Rights Act of 1964. The school district will ensure district employees and contractors are knowledgeable of the discipline policies and procedures.
