James Briscoe, Director of Procurement Services

Memo:

To: Darin Crawford, Assist Superintendent for Support Services

From: James Briscoe, Director of Procurement Services

Subject: Award for Annual Contract 24-09-6460R-RFP Hazardous Waste Disposal

Date: 10/23/2024

At present, the Cypress-Fairbanks Independent School District (CFISD) is in the process of considering the award of the Hazardous Waste Disposal Annual Contract #24-09-6460R-RFP to Lone Star Hazmat Response LLC, as per the user department's assessment of overall best value to the District.

The proposed contract is set to commence on November 12, 2024, or upon Board Approval, and will run until September 30, 2025. The contract will remain in force for one (1) year through September 30, 2025, with the possibility of automatic annual renewal for two (2) additional one-year terms through September 30, 2027, unless either party provides thirty (30) days written notice of non-renewal. Subject to mutual agreement, proposed prices may be extended beyond the firm price offer date on a month-to-month basis for up to 6 months.

Given the substantial size and extensive geographical coverage of our District, we have encountered historical challenges with previous waste disposal service providers, resulting in additional charges beyond the contract and delayed service. In the past, the primary focus for best value was predominantly centered on price, potentially leading to vendors underbidding the service and consequently delivering subpar performance.

However, with the implementation of our N.E.R.D best value approach model, our selection process now prioritizes the best value for the District, necessitating environmental remediation crews equipped with the latest techniques and appropriate tools to manage a wide spectrum of soil disposal and other long-term waste cleanup projects.

Hazardous Waste Disposal is imperative for the proper elimination of waste, chemicals, specimens, batteries, etc., in adherence to federal, state, and local regulations. This activity is predominantly carried out at the secondary school level within the science departments. Lone Star Hazmat Response has met the criteria to effectively serve our District at the required level, ensuring compliance with regulations, upholding a positive image for the District, and ensuring the safety of our students, staff, and community.

Sincerely,

James Briscoe

Director of Procurement Services Cypress-Fairbanks ISD
