

## **2024 Louisiana Caring Communities Youth Survey Passive Consent Parent Letter**

November 11, 2024

Dear Parent:

During the month of December 2024, your school district will administer a survey to the students in grades 6, 8, 10, and 12 at your child's school. By participating, our students are taking part in an important survey on substance abuse, school dropout, delinquency and violence conducted by the Bach-Harrison L.L.C. through the Picard Center of ULL. The survey is called the Louisiana Caring Communities Youth Survey.

The purpose of the survey is to gather information needed to plan prevention and intervention programs in our community and schools. These programs will address problems of alcohol, tobacco, and other drug use, school dropout, delinquency and violence in our schools and communities. Information will also help judge the effectiveness of current prevention and intervention efforts. I have a copy of the survey instrument at the school office if you wish to stop by and review it. A copy of the survey is posted on the UL Lafayette Picard Center's website and Bach Harrison's website. **You can view by visiting the link below.**

→ [Current Survey | Louisiana CCYS](#)

The survey is entirely anonymous and confidential. Students will not put their names or any other identifying information on the survey booklet. All results from the survey will be presented only in group summary form, like many opinion polls.

The survey asks questions about behaviors students or students' friends may or may not have done. It is important to remember that the survey is anonymous, so no student's response will ever be able to be connected with that student. For the survey, students will be asked to respond to questions such as "How wrong do you think it is for someone your age to pick a fight with someone at school?" "Which of the following activities for people your age are available in your community?" "On how many occasions (if any) have you used marijuana in the past 30 days" "If you skipped school, would you be caught by your parents?"

Your child's participation in the survey is completely voluntary. Each child will be given the option of leaving blank any question that he or she prefers not to answer. You may decline to have your child participate if you wish. Please remember this survey offers your child the opportunity to share his or her confidential opinions on very important issues being faced by our youth today. If you do decline, your son or daughter will be allowed to read or participate in some other alternative activity while his or her classmates are taking the survey.

The survey is being conducted by Bach-Harrison L.L.C., under contract with The Louisiana Office of Behavioral Health (OBH). The project director for this survey is Ariana Callahan (801-791-7746) (ariana@bach-harrison.com). Please feel free to contact her or Ray Biggar (337-482-1547) (ray.biggar@louisiana.edu) if you have any questions regarding the survey.

Please let your child's school principal know only if you do not wish your son or daughter to participate in the study. You may do this by sending them a short letter requesting your child not participate. Feel free to call me (337)909-2836 if you have any other questions about this important study.

Sincerely,

Khristy Hulin. Safe Schools Coordinator  
St. Martin Parish School Board
