TOP NEWS OF THE MONTH

SPOTLIGHT FRUIT & FFV

Each October we like to showcase the apples from our local producers. We are serving them in our lunch program as well as our fresh fruit and vegetable program.

This year our students were served Red Delicious from Anderson Apple Ranch as well as Gypsy Red's and Golden Delicious apples from Gem Orchards.

Our FFV grant schools were served finger limes from the East coast of Australia, baby kiwi from Oregon, jack fruit, rambutans, pomegranate seeds, blood oranges and diced beets. The response for the diced beets was that they tasted like dirt! :)

Supply Chain Issues

We are still experiencing issues with getting domestic oranges. The hurricane only made matters worse.

California oranges should arrive soon.
