2023-24 Final General Fund Budget
June 19, 2023

Expenditure Summary by Function Area

The Function describes the activities for which a service or material is acquired. The functions of an LEA are classified into five broad areas: 1) Instruction, 2) Support Services, 3) Operation of Non-instructional Services, 4) Facilities Acquisition, Construction, and Improvement Services, and 5) Other Financing Uses. Functions consist of activities, which have somewhat the same general operational objectives. For example, the subfunctions (the first major subdivision of a function), of the function Support Services consist of such areas as transportation, pupil personnel services, administration, etc. The function for Instruction is broken down by program (e.g., regular, special, vocational, etc.). Construction of the functional coding structure beyond the subfunction classification is based on the principle that the classification of activities should be combinable, comparable, relatable, and mutually exclusive.

Expenditures by Function Area – Expanded View

This summarizes the activities for detail area where services are delivered. Functions consist of activities, which have somewhat the same general operational objectives. For example, the subfunctions (the first major subdivision of a function), of the function Support Services consist of such areas as transportation, pupil personnel services, administration, etc. The function for Instruction is broken down by program (e.g., regular, special, vocational, etc.). Construction of the functional coding structure beyond the subfunction classification is based on the principle that the classification of activities should be combinable, comparable, relatable and mutually exclusive. The expenditure and expense accounting system has been so structured that all the costs within the particular subdivisions of that function can be combined to form a summary total of related costs. Costs are recorded only once so that they are mutually exclusive.

	2021-22 Actual	2022-23 Budget	2023-24 Budget	Variance	% Change	% of Budget
<u>1000</u>	Instruction includes all those activities dealing directly with the interaction between teachers and students and related costs ¹ , which can be directly attributed to a program of instruction. Teaching may be provided for students in a school classroom, in another location such as a home or hospital, and in other learning situations such as those involving co-curricular activities. It may also be provided through some other approved medium such as web-based/ computerized, television, radio, telephone, and correspondence. Included here are the activities of aides or classroom assistance of any type (clerks, graders, teaching machines, etc.) that assist in the instructional process.

Sources of Revenue

This is a summary of anticipated revenue by revenue source: Local revenue is the amount of money produced within the boundaries of the LEA and available to the LEA for its use; and monies collected by a political subdivision, i.e., county, borough, etc. between the LEA and the State. State revenue originates from Commonwealth of PA appropriations and directly disbursed to the recipient. Federal revenue originates from the Federal government.
