

PBIS GUIDELINES 2024-2025

It is the goal of Tinker School to create a safe, positive learning environment where all students have a clear understanding of our behavioral expectations.

We will hold quarterly incentives (Fall Ball, Winter Olympics, and Spring Olympics) and our end of the year "Field Day" as our culminating activity.

Quarterly incentives are designed to acknowledge those students who always do what's right and follow all Tinker Tiger expectations:

Respectful, Organized, Academic, Responsible, Safe, and Kind.

A suspension, whether in school or out, will result in an automatic loss of the incentive for that quarter. In addition, for daily classroom behaviors, being able to participate yet sitting out of a rotation or two will be at the discretion of the teacher. The goal is to help students make better choices and improve their behavior to earn the quarterly incentive. These guidelines also apply to field trips that are planned during the year for all grade levels.

Please discuss the above with your child. Sign and return the form below acknowledging that you have read and understand our guidelines. Please keep the guidelines for your reference. We truly appreciate parental support of our program.

Home and school can achieve great things when we work together!!

Thank you,

Tinker's PBIS Team
