## **MajorClarity**

## Introduce your child to more careers, then help them make plans to get there.

With MajorClarity, students have access to 150+ activities that go deeper than textbooks, giving them exposure to a wide range of career pathways while connecting students to academics & workforce opportunities in later grades.

It's been proven—students that use our platform are **189%** more likely to enroll in a career-aligned academic pathway.

And for parents, you get all the access you need to see your child's career interests and support their academic career plans.

**Explore** 

Identify

Students start with **personality** & learning style assessments that guide them to aligned career test-drives that include videos, simulations, and job profiles.

Students then use their career interests to create **academic and postsecondary plans**, including selecting aligned courses and **exploring colleges** and **internships**. Plans can be shared by parents!
