

Job Title: Conformal Coating Operator**Job Function: Manufacturing****Job Summary:**

Conformal Coating Operator operates the coating and dispensing machines, masks and tapes the circuit boards, and inspects to ensure proper coating coverage. Reports to the Production and Warehouse Operations Manager located at Unigen HQ, Newark, CA

Primary Job Responsibilities

- Operate several different dispensing and coating machines to meet customer specifications.
- Properly mask and tape circuit boards in areas that are to be free of conformal coating or potting.
- Inspect assemblies to ensure proper coating coverage.
- Ensure proper operating conditions are met by regularly maintaining the coating and dispensing machines.
- Maintain consistently high-quality circuit boards by removing any excess coating and performing manual touch-ups on areas that the coating machine may miss.
- Transport racks of circuit boards from one destination to another to continue the manufacturing process.
- Ensure proper and efficient operation by changing/flushing the fluids and mixers and cleaning the machines as necessary.
- Foster a productive work environment by consistently upholding 5S cleanliness and organization in the workplace, keeping it clutter-free.
- Personal Protective Equipment (PPE) must always be worn during machine operation.
- Additional tasks may be assigned by the supervisor to accommodate fluctuating production requirements.

Required Education and Experience

- Prior knowledge of function is highly desirable.
- Demonstrate the ability to lift diverse weights (5lb - 20lb).
- Physical mobility is required, including sitting, standing, and/or walking for most of the shift.
- Must be able to always work safely and independently.
- Good dexterity and patience are a plus.

Salary Range: \$18.00 - \$26.00 / Hour
