

Job description

Pharmacy Technician Contribute to our mission to improve Health and Wellness in your community
Become a Rite Aid Pharmacy Technician, today! As a Pharmacy Technician, you will assist the Pharmacist and Pharmacy Manager with serving customers and maintaining the Pharmacy department. Your purpose is to provide timely, knowledgeable, and courteous help where needed in the Pharmacy department.

Why you will THRIVE here: You love to help people. You have an innate need to find answers where they aren't obvious. You have a way of making people feel comfortable. You enjoy an organized environment. You always remember details. Your email and phone etiquette are top-notch.

Day-in-the-Life of a Pharmacy Technician: • Enter prescription information including but not limited to patient searches, prescriber searches, drug selection, prescription interpretation, insurance billing, and basic documentation. • Accept customer and prescription information required to process new and refill prescriptions, including refill authorization from doctor offices. • Retrieve medication from inventory. • Create prescription labels and put them on prescription containers. • Place medication into prescription containers. • Complete paperwork related to filling prescriptions and input customer and prescription data into the computer. • Assist with maintaining the Pharmacy department by keeping it clean and in order. • Assist in inventory management processes including order review, inventory returns, restocking shelves, and physical inventory preparation. • Administer Rite Aid programs including: FlavoRx, Living More, etc.

Taking care of patients is not a 9-5 job. Our Pharmacy Technicians come into this role knowing that they will be working weekdays, weekends, evening shifts, and some holidays. Because we work as a team, we all work together to be reasonably flexible to make all of our schedules work. It is because of the friendly, team-oriented, and welcoming attitude of our Pharmacy Technicians that make Rite Aid the pharmacy of choice for our customers and patients and for our employees.
Education and/or Experience: • H.S. Diploma or General Education Degree (GED) required. • Pharmacy Technician state and/or national certification.

What's in it for you? In an effort to improve and sustain the health and wellness of our employees, we offer competitive health plans, generous paid time off, 401K matching, and career growth opportunities! From the moment you join our team, we provide an environment that inspires and motivates you to work here and reach your full potential. We support personal growth and celebrate achievements. We dedicate ourselves to creating an experience for all our associates that is easy, exciting, and engaging.
