

Job Opening: **Electro-Mechanical Assembler / Technician**

Tooltek Engineering Corp. is located in Fremont. We design and manufacture automated solutions and equipments for Hi Tech industries such as semiconductor, biotech, solar, etc. for over 35 years. Our culture is focused on innovative design and quality manufacturing with continuous improvement, collaboration, and teamwork. Tooltek also offers benefits such as paid holidays, paid personal time (PTO), medical, dental, 401k, profit sharing. Pay rate is hourly based and depends on experience.

**Position Responsibilities:**

Electro-mechanical assembly of components and control panels, including tube bending and electrical assembly (power/signal wiring). We make a lot of custom products, so the work doesn't get repetitive! If you have done electro-mechanical assembly of custom products utilizing detailed blueprints, or are interested in learning about assembly, check out this opportunity!

**Position Requirements:**

- Mechanical and electrical assembly skills – tubing, piping, and wiring.
- Ability to read basic blueprints, electrical schematics, measuring devices, and work instructions.
- Willing to learn
- Reliable
