Hi Mr. Albizo,

I hope that you and your family are doing well during this crazy time.

I just wanted to thank you for taking time out of your schedule to write me a letter of recommendation for my college applications. It's been a stressful time applying and waiting for the results, and I really appreciate that you were willing to help me through this process. I also want to thank you for the letters of recommendation that you wrote for both the Cisco externship opportunity and the LAM Research Scholarship.

You've also been a great teacher and I learnt a lot in both Internet Engineering 1 and 2. Your classes have definitely been a break from all the stress of my other ones, and I appreciate all the time that you've taken to understand what your students are struggling with, and your consequent attempts to make the class more flexible for us. I'm definitely thankful for all the extensions and makeup assignments that you offered when I wasn't able to get something in by the due date.

I'm also delighted to say that I am the 2020 recipient for the LAM Research Scholarship for Irvington High School! I received the news in June, which was a lot later than I expected, but nevertheless a great piece of news for me and my family during this time. Thank you for the time you took to write the letter of recommendation for me for this scholarship, as it definitely helped with what happened afterward.

This was not how I expected my high school career to end, but I'm very happy to say that I have officially committed to UIUC for Computer Engineering! They have opened for the fall semester, but I may be doing distance learning as the majority of my classes have moved online.

Again, thank you, and I hope we can keep in touch.

Sincerely,
Shreya
