

Hey Mr. Albizo,

Thank you for being a super funny, serious, calm, genuine, and nice teacher ALL AT THE SAME TIME .v. I don't know how you manage to always keep a straight face even when I'm half dying from laughter from your hilarious comments but you haven't changed at all even when I stop by occasionally during passing periods to talk to you. Although I only had Internet Engineering I with you, I thoroughly enjoyed your class. Thank you for encouraging girls to pursue the stem field and offering so many opportunities for us to succeed and improve. The effort you place in helping students and getting to know them personally is super admirable. I hope you continue teaching at Irvington because you really are a great teacher, mentor, and friend. I always laugh a lot because you never fail to make me laugh and also have a good time during class .v. I made a "smiley" card because I hope you remember me as the girl in the very corner of the class that laughs uncontrollably .v. I hope you have an amazing summer filled with cool stories to tell your students and make them laugh as much as I did! I'll be sure to come back and visit during college years .v. I'll miss you and I hope you continue to impact, inspire, and motivate students to do better and be there best! .v.

Jamie Liao
