**Executive Summary**
**2024 Math Leaders Award**
**November 6, 2024**

The Georgia Department of Education has recognized the fundamental importance of mathematics in students' education and future careers by honoring schools with exceptional achievement or growth in mathematics as Math Leaders.

Fulton County Schools (FCS) has 30 schools recognized as Math Leader schools by GaDOE. This highlights our commitment to excellence in mathematics education. Fulton County had the third most schools identified as Math Leaders following Gwinnett and Cobb.

2023-24 is the first year for the Math Leaders Award. GaDOE is acknowledging schools for their achievement or growth in mathematics, with a particular emphasis on numeracy skills in fifth and eighth grades. The criteria required higher growth from schools with lower achievement levels, ensuring a comprehensive approach to improving mathematics education across the state.

GaDOE distributed awards at the elementary, middle, and high school levels. They based high school recognition on the Algebra: Concepts and Connections End-of-Course (EOC) assessment, the state test for mathematics in high school. A total of 624 schools met the qualifications to become Math Leaders, demonstrating significant progress in mathematics education.

You can find additional information about the qualifications here.

FCS Schools recognized as Math Leaders are listed below:

| School | Award(s) |
|---|---|
| **Summit Hill Elementary** | 3rd Grade Growth; 5th Grade Gateway Growth |
| **Hopewell Middle School** | HS Outstanding Achievement |
| **Hapeville Charter Career Academy** | HS Growth |
