

# Capturing Your Interests~

Finding your fit for your classes, career,  
college, or just being YOU!

---

Follow your strengths and do what you love! Remember,  
whatever career you may have will not define you as a person,  
but it can sure help to get paid and be successful in something  
you enjoy!

# Let's Begin to EXPLORE!

Start with celebrating yourself, and focusing on what makes you

## Begin with the end in mind:

- What are your goals, values and wants?
- What are your interests, abilities, classes you like, your learning style?

## Identify your interests, then:

- **Explore** Careers that fit your results
- **Discover** what requirements those jobs have
- Fit similar classes into your current ICAP
- **Plan** ahead and find the schools that offer those programs
- Remember what G.P.A and test scores those schools want
