Donna Independent School District

A.P. Solis Middle School

2021-2022 Campus Improvement Plan

Mission Statement

The mission of A.P. Solis Middle School is to ensure a safe and challenging educational experience for all students. We will provide a researched-based curriculum that will stimulate intellectual curiosity and prepare our students for post secondary education.

Motto

We are the Best!

Table of Contents

Priority Problem Statements 13

Comprehensive Needs Assessment Data Documentation 14

Goals 16
- Goal 1: A.P. Solis will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in 6th-8th grade that will result in more students reading on or above grade level. 17
- Goal 2: A.P. Solis will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam identified in the Texas State Accountability report will increase from 35% to 60%. 24
- Goal 3: A. P. Solis will create an instructional environment that will enhance the learning and academic performance of all students and support the district's goal to increase the percentage of graduates demonstrating college/career/military readiness. 43
- Goal 4: AP Solis will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 51
- Goal 5: A.P. Solis will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 64
- Goal 6: A.P. Solis will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 88

Comprehensive Needs Assessment

Revised/Approved: June 15, 2021

Needs Assessment Overview

Needs Assessment Overview Summary

Our campus expectations reveal that quality instructional opportunities and experiences to develop all learners to be self-reliant, responsible contributors in our global community. Data reveals that through the implementation of the mentioned programs and intervention methods currently in place at A.P. Solis, low performing students continue to show gains steadily. It is through constant teamwork, action plans, differential classroom strategies, classroom structures, organization input and analyzing data that we aim at continuing to improve student performance for all. Keeping in mind that student performance is a work in progress we will continue to implement effective interventions that enhance low student performance throughout the year to prepare them for post secondary education.

NEEDS BY CRITICAL SUCCESS FACTORS

CSF1 - ACADEMIC PERFORMANCE

Math

- Math STAAR classes to help students meet standards
- Need for smaller class sizes in Math
- More Math rewards/incentives
- Math tutoring to help address learning loss due to COVID Pandemic.

Reading

- Reading tutoring to help in addressing learning loss due to COVID Pandemic.
- Student tutors to help in Reading (AVID)
- Specialized Reading (Guided Reading) instruction to help increase scores
- Co-reading teachers to assist with intervention and differentiated learning
- Smaller class sizes to help students meet standards.

CSF2 - QUALITY DATA TO DRIVE INSTRUCTION

- Provide incentives based on job description such as ELA, AR testing, STAAR Reading, STAAR Reading Camps
- Need to have more incentives for Writing and ELA teachers
- Have strategist model classes for teacher
- Math, Reading, Writing, Science, and Social Studies Camps

CSF3 - LEADERSHIP EFFECTIVENESS

- Economically disadvantaged, LEP, Sp. ED. are given the opportunity to participate in all academic, extra-curricular activities.
- Discipline referrals have increased from last year, as has our enrollment and our student to teacher ratio. Discipline efforts continue to encourage and motivate students to join a campus group(Leadership class).
- Increase opportunities for other elective classes to attract others that do not incline towards Band, Athletics, Art or Choir.
- Students in certain classes have taken the initiative to help beautify our campus and feel proud to be a student at A.P. Solis.

CSF4 - INCREASE LEARNING TIME

- High impact interventions for students
- Close educational gap of students
- Camps and tutorials that target students' needs

CSF5 - FAMILY AND COMMUNITY ENGAGEMENT

- More community involvement such as speakers, assemblies for students and parents. We need more Parent Volunteers
- Monetary Resources for functions
- Community needs to invest more in our childrens' education

CSF6 - SCHOOL CLIMATE

- Need to continue to improve with discipline.
- Need to continue to empower staff members.
- Need to continue to enforce DMP
- District consideration to incentives and stipends for other content areas impacting student performance.
- Instructional Planning Period for TEAMS

CSF7 - TEACHER QUALITY

- Effective Staff Development
- Communication and Collaboration with staff
- Implementation of programs

Demographics

Demographics Summary

A.P. Solis Middle School counts with a significantly higher percentage of students in all categories listed. (Economically Disadvantaged, Non-Educationally Disadvantaged, LEP/ELL, Students w/Disciplinary Placements, At-Risk, Mobility) Many students in our community come from nearby colonias and others come from the southern part of Donna. Our economically disadvantaged percent is increasing and is close to 100%. Our LEP/ELL percentage has also increased about 3%. The at-risk population and mobility rates have fluctuated slightly in the past three years. Our mobility rate is about 6% which is higher than the state average. Our total staff has declined from the start of 2019-2020 as the teams were downsized in 6th and 7th grade.

For 2020-21 the peak enrollment for A.P. Solis has been at 854 students consisting of: Hispanic: 99.30%; White: .004%; 1%; African American .001%; Male: 52%; Female: 48%

Breakdown by Ethnicity: 6th Gr. Black 1; Hispanics 268; White 2 7th Grade Hispanic 295 White 2 8th Grade: Hispanics 285 Asian 1

Breakdown by Gender: Solis Total: F 424 M 418

GT:122; LEP: 439; SpEd:108; GT:122; Migrant:42; Immigrants:25; 504:53; Ethnicity at our campus is 99% Hispanic, so

- 6th-grade enrollment 268; 7th-grade enrollment; 295; 8th-grade enrollment 285; TOTAL enrollment: 854 Based on the above information and compared to last year, we have about 140 more students this year. In 6th grade, we have 31 more students; 7th-66; and 8th-43. Enrollment has remained stagnant; however, we do have a high mobility rate because we are considered an "overflow" campus for other middle schools.
- Students in GT: 94; LEP 442: Spec. ED: 96; Migrant: 31; Immigrants: 5; 504: 47
- Categories that favor females: GT, Immigrants; and the category that was almost the same was: Migrant
- The majority of all our special pops are Hispanic. In reference to gender, the following categories have more males than females: 504, Sped, ESL.
- A high percentage of minority teachers
- Total staff is 90: 55 females and 35 males
- The Student-to-teacher ratio is about 25 to 1 in 6th Grade and 7th-grade Rdg. and Math, and 18 to 1 in 7th Grade Science, SS and Writing and 8th grade all subjects. These ratios have had a positive impact on our academic performance.
- 662 students are at At-Risk

Demographics Strengths

1. Low core teacher turnover rate.
2. Engagement and involvement in student learning.
3. A high percentage of minority teachers representative of student demographics.
4. Teachers are highly qualified to teach in their content area.
5. An environment that is structured and conducive to student learning.
6. Stability in the areas of administration, teacher, and discipline.
7. Teacher retainment above 85%.

Problem Statements Identifying Demographics Needs

Problem Statement 1: Decrease in funding to address instructional needs within some groups. **Root Cause:** Higher number of transfers contributes to loss of funding for the campus.

Problem Statement 2: Increase of student to teacher ratio that affects small group and targeted instruction. **Root Cause:** Reduction from 3 teams in each grade level to 2 in both 6th and 7th grade as well as 8th grade Math and 8th grade SS.

Problem Statement 3: Need for additional teachers for STEM. **Root Cause:** Attrition in the district will not allow for growth and additional teachers in these areas.

Student Learning

Student Learning Summary

Definition

Student Achievement data refers to the annual and longitudinal reviews from varied sources of formal and informal data. These data provide insights into the degree to which students are acquiring the knowledge and skills expected for each grade level and course of study. Data is disaggregated and teachers utilize Aware to target teach specific needs/weaknesses and students in need of intervention. Every six weeks teachers create Plans of Action that target specific TEKS and Instructional Strategies. Data reflects that the curriculum is aligned but instruction needs to be modified to ensure mastery of TEKS. Scores are slowly increasing with the interventions that were provided and successful. Our campus will continue to address student achievement by implementing effective interventions that enhance low student performance throughout the year to prepare them for post-secondary education.

In previous years academic growth was seen with different populations of students such as LEP and SPED across their diagnostic tests and within the classroom. Comparisons were made between assessments as the year progressed and this year's remote learning growth was mostly via the student's technical abilities and skills as the TEA gave options to participate on STAAR tests.

Prior to this virtual learning year, there had been a steady growth in the area of Math as indicated below (decline in 2021 is also shown:

6th grade: 2018 75.24% to 84.21% to 88.89% and in 2019 91%, LEP from 48.53% to 74% to 81.19% and in 2019 89% and SPED from 50% to 85% to 85.71% and in 2019 75% and now in 2020 a 91% approaches (2021 6th Grade STAAR 154 students participated 34.42% Approaches)

7th grade: 47.27% to 68.06% to 74.19% and in 2019 86% , LEP from 16.44% to 50.59% to 60.2% and in 2019 83% and SPED from 20% to 25% to 73.91% and in 2019 68% and now in 2020 am 86% approaches (2021 7th Grade STAAR 158 students participated 26.58% Approaches)

8th grade: 84.47% to 91.11% to 93.51% and in 2019 , LEP from 62.96% to 85.07% to 91.3% and in 2019 and SPED from 60% to 80% to 70% and in 2019 (2021 8th grade STAAR 97 students participated 14.43% Approaches)
For 2019 these scores were 91% LEP: 87% and SPED: 67%. In 2020 a 91%

In Reading the growth has been:
6th grade: 58.06% to 60% SPED from 50% to 84.21% declining to 28.57% 2019 62% LEP 53% and SPED 41%, In 2020 it has been based on bundles and assessments: 44% LEP 31% and SPED 9%, (2021 6th Grade STAAR 142 students participated 38.03% Approaches)

7th grade: 49.34% to 51.79% to 68.35% and In 2019: 63% LEP: 51% SPED: 28%. In 2020 it has been based on bundles and assessments: 47% LEP 37% and SPED 22%, (2021 7th Grade STAAR 149 students participated 40.27% Approaches)
8th grade: 73.01% to 83.26% to 79.52%, LEP from 30.36% to 56.16%, to 60% and SPED from 50% to 75% decreasing to 18.18% . In 2019: 78% LEP: 61% SPED: 37%. In 2020 it has been based on bundles and assessments: 45% LEP 29% and SPED 8.37%.
(2021 8th grade STAAR 115 students participated 40.87% Approaches)

In Science 8th grade has gone from 62.16% to 80.2% down to 75.21% and LEP from 27.78% to 57.63% down to 54.32%. In 2019: 83% LEP: 68% SPED: 53%. In 2020 it has been based on bundles and assessments: 57.3% LEP 54.28% and SPED 44.29%, (In 2021 8th Grade STAAR 102 participated and 32.35% approaches)

In Social Studies 8th grade has gone from 56.56% to 84.92% down to 75.21%, LEP from 24.53% to 66.07% down to 54.88% and SPED from 25% to 100% down to 50%. In 2019: 79% LEP: 66% and SPED: 65%. In 2020 it has been based on bundles and assessments: 78.84% LEP 71.99% and SPED 55.16%, (In 2021 8th Grade Social Studies STAAR 106 participated and 42.25% approaches).

NEEDS:
1. Need for more HQ core and elective teachers to reduce student to teacher ratio.
2. Need for 4 "working" computers in each classroom.
3 Need for tutors/retired teachers/college tutors to help address learning loss due to COVID pandemic
4. Additional elective teachers as 7th grade will be adding an elective.
5. Extra support clases in Reading and Math to help students become more successful.
6. Design and revise curriculum to align to produce more content specific engaging activities.
7. Restructure classrooms to become technology device friendly (outlet locations, furnitire, mounted projectors and access points)

Student Learning Strengths

1. All content areas have technology baseline equipment (Smartboard, Laptop, Projector, and document camera in the classroom).
2. Students have virtual access to library resources.
3. Three computer labs with printing access available.
4. In data review, there is projected growth in reviewing bundles, comprehensive and benchmark data as there was no STAAR data for comparison this school year. Data indicates growth and progress among both LEP and SPED populations.
5. Math LEP scores have shown gains each year.
6. Additional Co-Teachers in Reading and Math are needed to assist with the intervention and instruction of LEP students.
7. Intervention programs are helping in meeting the instructional needs of the students with LPE and SPED benefiting the most.
8. Targeted and focused Reading instruction has been used to help improve the Reading scores of Guided Reading students with the implementation of the intervention period, Guided Reading, Algebra Readiness Class, TTM/Imagine Math, and Istation.
9. Guided Reading teachers assist with the instruction and intervention of students.
10. Using 6th and 7th-grade data: Reading scores have shown slight improvement each year.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Special populations including LEP, SPED, and MIGRANT perform below the general population. **Root Cause:** Gaps exist with reading levels of incoming middle school students.

Problem Statement 2: Reading is the area with the least amount of growth. **Root Cause:** Reading level gaps are more than one year and do not have co-teachers as Math does.

Problem Statement 3: Need for differentiated curriculum that aligns to produce more content specific engaging activities. **Root Cause:** Although curriculum is aligned to TEKS, differentiated activities require additional planning so that alignment continues as well as targeted instruction.

School Processes & Programs

School Processes & Programs Summary

The curriculum/curricula collectively describes the teaching, learning, and assessment materials and resources available for a given course of study. These are aligned with the TEKS and other standards, incorporating instruction and assessment processes. The District Curriculum Collaborative provides evidence the curriculum is linked to the TEKS and other standards for student learning. Data is disaggregated and teachers utilize aware to target teach specific needs/weakness and students in need of intervention. Every six weeks teachers create Plans of Action that target specific TEKS and Instructional Strategies. Data reflects that curriculum is aligned but instruction needs to be modified to ensure mastery of TEKS. The curriculum and instruction utilized are rigorous, relevant and engaging that focus on knowledge acquisition and applicability. We also have district meetings called Professional Learning Communities (PLC's) where departments meet with teachers to ensure all learners are successful. The district and campus support learning by providing Professional Development that targets specific student populations and their needs. These staff developments are implemented to keep our staff up to date with local, state and federal mandates to meet our students' needs.

Staff Quality, Recruitment and Retention refers to the school organization's level of high-quality, highly-effective staff, particularly in high-poverty schools. This area is also focused on assessing the effect of recruitment and retention strategies on staffing patterns. A.P. Solis maintains a 100% highly qualified staff and the retention rate is within the state average. The majority of our teachers have taught for about 3-7 years. A small percentage of our teachers are relatively new to the profession. The District offers support to the new staff by providing a New Teacher Orientation and Campus Orientation. We continue to focus on retaining more teachers to change the percentages of new staff. The Professional Development and Campus Level Planning Committee (CLPAC) are in place to build capacity and support the notion of continuous improvement. Highly effective staff is assigned to work with the highest needs students by their performance, Certifications, Endorsements, ei. ESL, Sp. Ed. and AVID. A.P. Solis is further committed to introduce innovative implementation as set forth by the district to improve support and integration of instructional methodology and delivery. A. P. Solis is committed to increasing the number of teachers who are ESL, GT and AP certified through selective hiring and professional development with focus areas in Sheltered Instruction, KAGAN, AVID, PLC's, Inclusion Support Model for SPED, Technology and Quality Instruction. Furthermore, A. P. Solis is committed to introducing new implementations by the district to improve support and integrating instructional support.

A.P. Solis is focused on student needs and teachers represent a broad range of experience and skills. Our campus has made a commitment to dedicated time in the master schedule for professional learning communities to support conferencing and initiatives geared to meet the needs of students. Our professional development schedule provides all the opportunities for support to learn and focus on campus and curriculum initiatives. Our challenge is to develop a mindset among our staff focused on the learning questions of Professional Learning Communities. A.P. Solis is committed to help teachers by using the following data to improve professional learning: staff surveys and/or feedback, campus department and/or faculty meeting discussions, CLPAC and data, professional development needs assessment data, evaluations for professional development implementation, and teacher TTESS data will ensure staff retention, quality and support.

School Processes & Programs Strengths

1. A highly qualified staff.
2. Staff members receive ongoing professional development through campus/district initiatives.
3. Quick adaption to distance learning due to pandemic.
4. Increased school safety training and new security measures/red key.
5. A high percentage of minority teachers representative of the population served.
6. Collaboration of Assessment & Curriculum through instructional planning days allows for strategic plans and focus.
7. Curriculum updates are done every summer and adjustments made by teachers throughout the year to meet needs among the student population served.
8. Lessons plans are designed to include focused and targeted instruction and intervention.
9. Instructional design and delivery are key and a focus at A.P. Solis to increase student engagement and critical thinking.
10. Identified weak TEKS are spiraled into lesson plans to ensure mastery.
11. Desegregation of data is conducted periodically by teachers and campus followed by a realignment of target and focus.

12. RTI process ensures interventions are in place and progress monitoring is implemented with fidelity to provide necessary additional supports.
13. District/Campus provides staff development to meet the identified needs retrieved through data analysis and desegregation.
14. Bundle exams have been restructured to ensure TEKS are assessed within the instructional scope.
15. Camps and intervention periods are two methods currently used to target student needs.
16. Administrative support through the provision of resources.
17. Systemic models of learning such as the 5E to maximize learning.
18. Teachers have secured certification in their content/subject or currently enrolled in teacher certification programs.
19. Teachers working with GT/AP, ESL, and/or Special Education, also possess their required certification.
20. Instructional paraprofessionals working with students are also highly qualified and possess a minimum of 48 college hours.
21. Teachers are afforded the opportunity to explore context through professional development sponsored through other entities and future training to expand rigor.
22. A Professional Development schedule provides staff with the opportunity and support to learn and focus on campus and curriculum initiatives.
23. To improve staff quality, data and feedback is provided through walk-throughs and posted immediately on AWARE.
24. Incentives for teaching Math, Science, Special Education are offered by the district and supported by the campus.
25. Staff that has ESL and Special Education Certification and/or specific training are assigned to work with target populations.
26. Mentoring opportunities allow for new teachers to learn from veteran teachers.
27. New teachers are observed by mentors, strategists, admin., and meet daily with their assigned team for planning.
28. PLC's/after-school training also offer a means for clarification and feedback.
29. Opportunity for various time equivalency staff developments such as Atomic Learning, MTTs, GT updates, Kagan coaching, and Techie Tuesdays.
30. Surveys to establish a need and determine prof. dev. Training, evaluations after training,
31. Professional developments decided by administration, directors, and in some cases department heads.
32. Kagan coaching, sheltered instruction update, ExCell training update, PLCs, CPI, and Inclusion training.
33. Common conference time.
34. Teacher retention rate within state average.
35. The teacher evaluation system allows for growth through feedback.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Instructional time allotment is a contributing factor in performance. **Root Cause:** 50 minute instructional classes does not allow for sufficient focus on objectives tested.

Problem Statement 2: Develop a mindset among staff focused on the learning questions of Professional Learning Communities. **Root Cause:** Need for district wide systemic training on the identification, evaluation, intervention and aspects associated with PLC's and meeting student needs.

Problem Statement 3: Morale low among the staff. **Root Cause:** Reduction of funding in addition to reduction of staff contributes to less individualized support for students.

Perceptions

Perceptions Summary

School Culture and Climate refer to the organization's values, beliefs, traditions, and customs which shape the personality and climate of the organization. It determines how parents, community, staff, and students feel about the school and affect how people interact within the system. Our campus supports decision-making bodies to make it easy for teachers, parents. paraprofessionals, support staff, and students to be heard and, in turn, for all groups to be part of solutions to identified problems. Students/parents complete a student/parent climate survey an opportunity given to be heard and voice their opinions. Teachers/staff are given a climate survey where they can address their opinions. Our campus has an open door policy where various committees and decision-making bodies play a crucial role in providing solutions. Some committees are DLPAC, CLPAC, Parental Involvement Meetings, Faculty Meetings, and Parent Orientation Training, Other support school groups: AVID, Migrant, Safe Schools, Campus Counseling Services, Student Panel, and Parent Portal.

Students describe A.P. Solis as a school where high expectations in academics are expected, discipline and structure are implemented. The students understand that acknowledgment and praise for hard work in class, good attendance, and excellent behavior will be rewarded and strive to become part of that culture. Therefore, teachers follow guidelines and the school mission to expect the best from each student. Students and staff feel very physically safe at A.P. Solis Middle school.

Students feel that the academic expectations are exceptional. Students understand that the expectations at this campus are set high and that they are expected to meet those expectations. Staff feels that the academic expectations are set high for students and staff. Students and teachers feel that the behavioral expectation is set at a high standard which allows students and teachers to feel that they are safe at school. Students and staff feel that the extracurricular expectations are that students be involved in something, so they feel invested and feel ownership in their school.

Staff and students follow rules and guidelines set by the school and district. Students demonstrate this by attending class, completing assignments, projects, participating in class discussions, and student engagement activities. Staff demonstrates this by attending meetings, collaborating, calling parents, and participating in student engagement activities.

Data shows that classroom management and organization are good. Disciplinary referral counts are low. When this is compared to classroom achievement data, it demonstrates high achievement since students are learning and in the classroom a majority of the time.

Data reflects that gang, substance abuse, weapons, and other safe school areas are low. Students that were involved were affiliated with gangs and certain demographic areas. Students that had these issues received counseling with Licensed Professional Counselor.

Needs:

- Consistent disciplinary measures throughout grade levels and teams.
- Additional Incentives for students :(various opportunities for students to be recognized, each core area to recognize a student per six weeks instead of one student per team)
- Re-examine fairness in discipline consequences and a more relaxed structure during passing periods

Teacher Value:

- Admin to provide feedback via email about referrals and consequences for teacher's referrals especially when all steps have been made by the teacher
- Consequences for infractions outside of the classroom to be equal to infractions in the classroom

- A push for a stipend for reading teachers due to the additional duties they perform plus the reading is teaching two subjects
- Push for equality when scheduling during testing and training.
- Equality with moving conference periods to help better facilitate afterschool training
- Implement team planning to help eliminate issues regarding student issues that teacher need to be aware of

Perceptions Strengths

1. Feedback from the Teacher Survey demonstrates that a safe and positive environment is felt by both staff and students with specific strengths in camaraderie among the staff.
2. A.P. Solis promotes higher-level thinking, challenging curriculum, GT Fair, Science Fair, History Fair, therefore displaying the mission of challenging educational experiences for all students.
3. High academic and behavioral expectations
4. There is cohesiveness among the staff as evident through collaboration and building of strong professional relationships that build morale.
5. There is a sense of respect that has been built around high expectations and the belief that the campus is "THE BEST".
6. Students describe the school climate as a positive school to attend, exhibiting pride in their overall success.
7. Students buy into the daily positive reminders promoting Solis as the "best" middle school with the best teachers and students.
8. Discipline Referrals continue to drop as evident over the last 4 years.
9. Parents are happy with their children being at Solis.
10. Open Communication with Parents.
11. Administrative support regarding discipline and high behavioral expectations.
12. A variety of extracurricular activities for students to choose from.
13. Student recognitions such as A & B Honor Roll, Perfect Attendance, Imagine Math, AR, EOY Field Day, EOY Awards, Citizenship award, and individual team recognitions.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Culture is affected through accessibility and benefits of resources and incentives for teachers and teams based on accomplishments with direct impact on student achievement. **Root Cause:** District policies on stipends and incentives are not a campus based decisions.

Problem Statement 2: Climate and culture needs promotion with incentives such as shirts during drug awareness week. **Root Cause:** School climate is affected with the number of student incentives available.

Problem Statement 3: Disparity among overflow classrooms. **Root Cause:** With the downsize to 2.5 teams, sense of belonging is lost leading to unhealthy competition and relationships affecting team building.

Problem Statement 4: Increases in behavior related incidents impacting instruction. **Root Cause:** Increase of class size and ratio.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Accountability Distinction Designations
- Federal Report Card Data

Student Data: Assessments

- State and federally required assessment information
- (STAAR) current and longitudinal results, including all versions
- Student Success Initiative (SSI) data for Grades 5 and 8
- SSI: Think Through Math assessment data for Grades 3-8 and Algebra I (TEA approved statewide license)

Student Data: Student Groups

- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- EL/non-EL or LEP data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender, etc.
- Section 504 data
- Gifted and talented data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback
- Class size averages by grade and subject

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Capacity and resources data
- Budgets/entitlements and expenditures data

Goals

Goal 1: A.P. Solis will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in 6th-8th grade that will result in more students reading on or above grade level.

Performance Objective 1: A.P. Solis will focus on instructional improvement resulting in all students meeting goals for all accountability measures. Applies to all content instructional areas - Reading/ELA, Writing, Mathematics, Science, and Social Studies. Applies to District, State (STAAR, EOC, TELPAS, TPRI/Tejas LEE, PBMAS) and Federal/ESSA with a target goal of 70% Master's level on STAAR and an increase of one level's growth on TELPAS for all ELL students.

Evaluation Data Sources: STAAR Assessment Results (Masters Level 70%)
TELPAS Assessment Results (Increase by one level from previous year)

Goal 3: A. P. Solis will create an instructional environment that will enhance the learning and academic performance of all students and support the district's goal to increase the percentage of graduates demonstrating college/career/military readiness.

Performance Objective 6: GEAR UP: Pathways To The Future. Create an efficient educational pathway for 7 grade cohort students' through the delivery of effective academic strategies to ensure all students are college, career or military ready. Increase the academic performance to adequately prepare them for post-secondary education. Increase the rate of high school graduation and participation in post-secondary education of GEAR UP students through a systemic transformation of schools. Increase GEAR UP students' educational expectations and students' and their families' knowledge of post-secondary education, options, preparation and financing. Increase students'/parents' knowledge and skills, including STEM, remote learning, use of technology, and mental health services to create a pathway towards increasing their competence and aptitudes.

System Safeguards Missed Improvement Plan

Testing Dept.

A. P. Solis Middle School

Complete an improvement plan for each system safeguard you missed on each student population.

Note:

1. Create a committee/committees (along with administration) who will be in charge of monitoring the improvement plans and progress made
2. Clarify and prioritize the problem
3. Assess the root cause of the problem
4. Review data analysis
5. State problem statement, root cause, interventions, & monitoring
6. With the information stated above: complete the forms , implement the plan & monitor the progress

You will complete and implement these improvement plans due to your campus missing system safeguards. When completed, please keep these plans for your records (they may be asked for at any time). Please let me know if you have any questions.

Problem Statement 1:	40 % of our ELL's did not meet State standards on STAAR Reading or Writing.	Annual Goal:	95%
Root Cause 1:	ELL students not making a minimum of 1 year or more growth on TELPAS.	Strategy:	Embedded daily intervention period.

Interventions by Quarter

Q1 (Aug. - Oct.)		Q2 (Nov. - Jan.)		Q3 (Feb. & March)		Q4 (April – June)	
Q1 Goal:	65%	Q2 Goal:	75%	Q3 Goal:	85%	Q4 Goal:	95%
Q1 Interventions		**Q2 Interventions**		**Q3 Interventions**		**Q4 Interventions**	
ELPS accountability with LAP form periodic reviews.		Targeted focus on identified weak TEKS.		Readjustment of targeted intervention groups.		Readjustment of targeted intervention groups.	
Compass Learning to as intervention.		Continued spiraling of specific objectives.		Continued targeted focus and spiraling of identified weak TEKS.		Continued realignment of targeted objectives and activities.	
Curriculum collaboration and review.		Team planning with meaningful data conversations.		Continuation of Compass Learning intervention.			
Targeted groups for intervention period daily.		Integration of Compass Learning Program.		Team planning and data conversations.			
Data collected to monitor interventions in Q1.		**Data collected to monitor interventions in Q2.**		**Data collected to monitor interventions in Q3.**		**Data collected to monitor interventions in Q4.**

System Safeguards Missed Improvement Plan

Testing Dept.

A. P. Solis Middle School

Complete an improvement plan for each system safeguard you missed on each student population.

Note:

1. Create a committee/committees (along with administration) who will be in charge of monitoring the improvement plans and progress made
2. Clarify and prioritize the problem
3. Assess the root cause of the problem
4. Review data analysis
5. State problem statement, root cause, interventions, & monitoring
6. With the information stated above: complete the forms , implement the plan & monitor the progress

You will complete and implement these improvement plans due to your campus missing system safeguards. When completed, please keep these plans for your records (they may be asked for at any time). Please let me know if you have any questions.

Problem Statement 1:	40 % of our ELL's did not meet State standards on STAAR Reading or Writing.	Annual Goal:	95%
Root Cause 1:	ELL students not making a minimum of 1 year or more growth on TELPAS.	Strategy:	Embedded daily intervention period.

Interventions by Quarter

Q1 (Aug. - Oct.)		Q2 (Nov. - Jan.)		Q3 (Feb. & March)		Q4 (April – June)

Donna Independent School District

Veterans Middle School

2021-2022 Campus Improvement Plan

Mission Statement

The mission of Donna ISD is to ensure academic excellence for all students through a rigorous and supportive learning environment that provides a quality education in accordance with state and national standards.

Veterans Middle School Mission Statement: The academic community at Veterans Middle School will provide the most effective instructional environment for our students. "UNITED WE SHALL ACHIEVE EXCELLENCE".

Vision

We envision being an exemplary school district staffed with highly qualified individuals working collaboratively to graduate college-ready students who will be a powerful force for positive change in our community.

Philosophy

The Donna Independent School District recognizes its function to be that of providing a school environment that is conducive to the best teaching-learning experiences that help our students meet the standards of educational excellence. We believe that the public schools are our best hope for individual attainment and for the attainment of national strength and welfare. We continue to strive for a student-centered, teacher-led program in which needs are considered primary. In fulfilling this endeavor, we commit ourselves in helping our students develop the ability to think logically, independently, and creatively, and to communicate effectively. We recognize that as individual abilities and goals vary so must the instructional program of the individual.

- School Processes & Programs 7
- Perceptions 8

Priority Problem Statements 10

Goals 11
- Goal 1: Veterans Middle School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. The district will also implement a Math Proficiency Plan (MPP) for the early grade levels that will result in more students meeting grade level standards. 12
- Goal 2: Veterans Middle School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 19
- Goal 3: Veterans Middle School will create an instructional environment that will enhance the learning and academic performance of all students and increase the percentage of graduates demonstrating college/career/military readiness. 42
- Goal 4: Veterans Middle School will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 58
- Goal 5: Veterans Middle School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 71
- Goal 6: Veterans Middle School will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 89
- Goal 7: Veterans Middle School will establish a technological infrastructure that promotes communication and learning within the district and community. 93

Campus Funding Summary 102

Comprehensive Needs Assessment

Revised/Approved: June 21, 2021

Demographics

Demographics Summary

Veterans Middle School has 881 students enrolled which is an average of about 294 students per grade level. 6th grade currently has 288 students enrolled, 283 students enrolled in 7th grade and 8th grade has 310 students enrolled. These are typical numbers for our campus although enrollment is slightly below our competition, IDEA Academy and Vanguard. All three grade levels have a high percentage of LEP end economically disadvantaged students:

6th grade: LEP 216/288 (75%) ED 279/288 (96.9%)

7th grade: LEP 204/283 (72.08%) ED 276/283 (97.53%)

8th grade: LEP 219/310 (70.64%) ED 299/310 (96.45%)

100% of our students are Hispanic-Latino

53% male and 47% female

96.93% of our students are on free or reduced lunch participation, 10.87% participate in the Special Education program, 5.5% of students are classified as homeless and only 3.97% are Gifted and Talented

While Veterans Middle School has a low mobility rate, it has a high stability rate. VMS is over-represented in the LEP/ESL special programs and under-represented in the gifted and talented program. Over-representation in LEP/ESL is due to the large influx of Spanish-speaking immigrants migrating over from Mexico and the Northern Triangle. Many of these students' first language is Spanish. In elementary, a majority of students are enrolled in a bilingual education program. As these students transition to middle school, and if not exited out of the bilingual program in elementary, they are categorized as LEP and ESL. For most students at VMS, the English language is only used at school and many of those times with teachers only, lacking any peer English support. Spanish is the primary language spoken at home as well with student peers, in the community.

Demographics Strengths

- Veterans Middle School has a experienced staff that, for the most part, are accredited and trained to teach its large population of LEP students.

- Student population has a great potential in becoming successful bilingual adults.

- Leadership and staff are focused in meeting the needs of VMS students.

- VMS has met most of its goals to implement the technology needed to drive instruction. Teachers are given the opportunity to train and are assigned training to use various technology resources.

Problem Statements Identifying Demographics Needs

Problem Statement 1: The yearlong online instruction due to Covid-19 has made it hard to meet the adequate learning environment that students need and get in a live in person setting, especially when dealing with a large population of LEP students.

Problem Statement 2: Veterans MS must focus in determining what and how much loss of learning have students suffered, what setbacks we have, and how to move forward.

Problem Statement 3: Veterans MS must move full speed ahead to recover whatever learning was lost and make sure that our special populations are at par with our regular population.

Problem Statement 4: Strategies, resources, and technology is needed in order to maximize and recover loss of learning.

Student Learning

Student Learning Summary

Student data is disaggregated during department PLC's and team meetings using the Eduphoria Aware software system. Data from all bundle, benchmark, and the state STAAR exams can be accessed using the Aware systems. The STAAR reports data is broken down by demographics while the Aware software system breaks down the data by class periods, by student expectations with respect to the Readiness standards and Supporting standards. The Aware software is able to break down data by answer choice selected, and calculate percentages which gives teachers room to find strengths and weaknesses to meet student's needs. The data show us that Veterans Middle School is 100% Hispanic. We have about 881 students 411 of which are female and 470 are male. The population of Veterans middle school is approximately 97% economically disadvantaged. Our special education program has 95 students total, 29 migrants, and 18 immigrants. VMS has 639 total LEP and 35 GT students. Because STAAR testing was optional this year, many students elected not to participate in the testing process. We do, however, still have data from the end of last year that was collected prior to the COVID quarantine and distance learning protocols being implemented. Math data was available for all grade levels via the Math Benchmark which was tested across the district. In 6th grade math VMS was second in the district with "approaches", "meets", and "masters" coming in at 75.9%, 33.45%, and 9.35% respectively. This was less than 2% behind the leader. In 7th grade math VMS was second in the district with "approaches", "meets", and "masters" coming in at 74.67%, 37.33%, and 9.67% respectively. The gap to first place was about 12%. In 8th grade math VMS was third in the district with "approaches", "meets", and "masters" coming in at 74.23%, 21.92%, and 0.77% respectively. Although we were in third place in the district the gap to first place was a mere 6%. When compared to the 2019 Math STAAR results we get the following results, again, written as "approaches", "meets", and "masters": 14.79%, 13.66%, 3.45% increases for 6th grade, 8%, 17.89%, 6.5% increases for 7th grade, and-6.4%, -21.04%, -14.02% increases for 8th grade. Reading data was available for all grade levels via the Reading Benchmark which was tested across the district. In 6th grade Reading VMS was third in the district with "approaches", "meets", and "masters" coming in at 37.01%, 12.1%, and 4.98% respectively. This was approximately 17% behind the leader. In 7th grade Reading VMS was fourth in the district with "approaches", "meets", and "masters" coming in at 49.33%, 23.33%, and 8% respectively. The gap to first place was about 12%. In 8th grade Reading VMS was fourth in the district with "approaches", "meets", and "masters" coming in at 56.55%, 28.21%, and 6.21% respectively. Although we were fourth place in the district the gap to first place was again only 6%. When compared to the 2019 Reading STAAR results we get the following results, again, written as "approaches", "meets", and "masters": -7.09%, -0.4%, 1.16% increases for 6th grade, -10.52%, -6.22%, -6.77% increases for 7th grade, and -29.32%, -16.83%, -8.5% increases for 8th grade. When compiling the data the trend exposed shows 6th and 7th grade math increasing while the rest are decreasing, however, for the most part the decreases are small. Due to the change of teaching from in person to remote learning during the pandemic LEP and ED populations have not been improving this school year. In each subject, data has shown that the LEP and ED populations are not demonstrating projected growth in student achievement. Student achievement data across content areas indicates that we have shown a decrease in growth in 6th and 7th grade math. The 6th grade math scores went down from [approaches, meets, masters =total] 61%, 20%, 6%=87 to 17%, 1%, 0%=18. This is a 69 point decrease this year. The 7th grade math scores went down from 67%, 19%, 3%=89 to 31%, 19%, 4%=54. This is a 35point decrease. Social Studies has also shown a decline in growth from 71%, 31%, 14% =120 to 42%, 27%, 7% =76. That is a decrease of 44 points. Reading data from last year shows [approaches, meets and masters =total] 77%, 38%, 15%= 130 to this year, 35%, 14%, 1%= 50. This is a decrease of 80 points. Student data for science decreased from last year [approaches, meets, masters] 80%, 43%, 15% = 138 to 28%, 6%, 1% = 35. That is a decrease of 103 points. The 2019 STAAR results when compared to the 2021 STAAR results indicate that all content areas failed to make adequate academic achievement. This was mostly due to the Covid 19 pandemic.

Student Learning Strengths

- Motivated and well trained teachers
- Knowledge of the subject
- Low turnover rate

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Veterans MS is in need of intervention classes for Reading and Math in all grade levels to reduce the gap that Covid-19 created.

Problem Statement 2: Tutorials at Veterans MS are needed and should begin during the first semester.

Problem Statement 3: Veterans MS is also in need of more hands on activities to help students visualize and process learning that was lost due to remote learning.

Problem Statement 4: Veterans MS should plan to continue blended learning for the 21-22 school year.

School Processes & Programs

School Processes & Programs Summary

For the 2020-2021 school year, our biggest factor was the pandemic that the world faced and is still facing today. This of course completely turned our Academic/School world upside down. We need to keep this in mind as it affected every aspect of our school system. There are many strengths at Veterans Middle School such as having committees to address several factors. The committees consist of administration leaders, teachers and staff. This allows different perspectives to help address as many issues as possible. This year, our Technology Integration professional development was needed as we went to Online learning. It helped tremendously as teachers navigated and helped students become familiar with Google Classroom. Our parents were informed with the new application being used to communicate school information (REMIND application). As teachers, we have access to Eduphoria and we are able to see where our students are mastering skills and lacking skills, this allows us to plan properly and target those areas of need. Interventions were once again implemented for this school year to help students grow academically. Intervention is done during the school year and all staff helps with this endeavor, including elective teachers. VMS targets STAAR tested subjects in each grade level. This year, several Saturday tutorials were implemented to allow students to make up work and improve their grade for a failing six weeks. Some of the weakness that teachers feel we have at Veterans Middle School is the lack of 100% parent commitment to their child's success in school. This may be a language issue/lack of knowledge with technology/lack of time for our parents. VMS needs to work on a better system to help the parents of our students. This year, there was not enough time given to teachers to plan appropriately for upcoming six weeks. Also, most teachers agreed that a better communication system needs to be in place for staff and teachers about campus issues, district issues that should come from Campus Administration and Leaders. Addressing these strengths and needs will help our campus grow academically every year.

School Processes & Programs Strengths

-Committees made up of administration, teachers and staff

-Professional Development provided to help teachers adapt to online learning, meeting the needs of our student population

-Parental Involvement: Informing our parents improved due to REMIND app and via telephone (electronic/voice messages)

-Interventions provided during school hours to prepare students in areas of need;

-2020-2021 provided Saturday tutorials for grade recovery

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Better communication/More involvement of parents

Problem Statement 2: 2020-2021 no time allotted for teacher planning/self reflection on planning and student achievement

Problem Statement 3: 2020-2021 Improve communication with Administration Leaders to Teachers and Staff.

Perceptions

Perceptions Summary

In summary, Veterans Middle School strongly agrees that our school is safe and comfortable to all staff members, students, parents, and visitors. The way others sees our school is what is important, it is our image that speaks to people who or what we stand for. To continue to be safe, more security guards are needed with a better schedule rotation to ensure the safety and security of all staff members, students, parents, and visitors. If we could have outside help that could speak to some or all of our students on why its important to behave in or out of the classroom, it would be a good reflection on how we could be seen. This can consist of city police, behavior units/hospitals, juvenile facilities, crime/neighborhood watch, and counseling. The school highly recommended to follow all CDC guidelines, respect our Superintendent's wishes, looked at our staff and students health by implementing extra precautions and by following our 3Bs. This helped our school reduce the number of referrals given this year and hopefully continues next year as well. The use of technology was an issue at first as the staff had to learn every aspect of Google (be certified at level 1) and be able to share with their students. Learning how to use Google (Docs, Forms, Spreadsheets, Powerpoint, Classroom, Drive) and technology resources such as ClassKick, PearDeck, Quizizz, BrainPop, Blooket, EdPuzzle, Imagine Learning/Math, Schoology, and those we are waiting for IXL did make a difference but not knowing how to use them was a neccesity. The need or concern that teachers and students would encounter was the lack of training and/or familiarity on how it works. So, more technology trainings will be needed but at a slower pace (better understand the material), use the hands on approach (work on some lessons - practice), look at some content lessons that have been created, and insist that it continues every year. The way others sees our school is what is important, it is our image that speaks to people who or what we stand for. To continue to be safe, more security guards are needed with a better schedule rotation to ensure the safety and security of all staff members, students, parents, and visitors. If we could have outside help that could speak to some or all of our students on why its important to behave in or out of the classroom such as city police, behavior units/hospitals, juvenile facilities, crime/neighborhood watch, and counseling.

Perceptions Strengths

1. Students and Staff strongly agree that our school is safe and comfortable.

2. Our mission and vision does reflect that our school is aligned, have high quality educators, and expect our students to be a powerful force in our community.

3. Teacher are motivated and Students are eager to learn to the best of their ability

4. Referrals have decreased and the district has implemented the PBIS approach.

5. School promotes safety of students and staff that they took extra precaution by installing hand santizer in each room, required face mask and shield, 6ft apart, frequently reminders by announcements and posters, and thermometer check up once you walk in the building (staff had to use Dr. Owl) - following CDC guidelines

6. Continue working closely with School Counselors/Administrators, practice emergency plans (Emergency Response Words), monitor and supervise staff, students and visitors as they enter the school building (limited entry - key card, buzzer), sign in, and wear visitor badges.

7. Following the 3 Bs: Be Respectful. Be Responsible. Be Safe.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: A better and stronger internet connection (wifi)

Problem Statement 2: Technology trainings that will benefit the staff and the student to reflect our mission and vision in creating students to be successful

Problem Statement 3: More security guards to ensure the safety and security of the staff and students

Problem Statement 4: Be consistent with zero tolerance for student learning with all staff

Problem Statement 5: Continue and implement short term incentives for students meeting high learning expectations

Problem Statement 6: Find outside help to promote safety measures for students beyond school property (city police surveillance, counseling, behavior units/hospitals, and Neighborhood Watch programs).

Problem Statement 7: Provide students with access to anonymous reporting without the embarrassment of being labeled a snitch.

Priority Problem Statements

Goals

Goal 1: Veterans Middle School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. The district will also implement a Math Proficiency Plan (MPP) for the early grade levels that will result in more students meeting grade level standards.

Performance Objective 1: Veterans Middle School will focus on instructional improvement resulting in all students meeting goals for all accountability measures. The percentage of 6-8 students reading on or above grade level will increase by 6%.

Evaluation Data Sources: iStation, STAAR and STAAR EOC, TELPAS, PBMAS

Summative Evaluation: Met Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Continue implementation of computer based programs (I-Station, MyOn, Edmentum, Learning.com) and tutorials in the mornings or on Saturday's to target STAAR tested areas. **Strategy's Expected Result/Impact:** Report Card, Program Reports, STAAR assessment results, decrease in student failure report **Staff Responsible for Monitoring:** Campus Administration, Teachers **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	0%	50%	65%	

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Provide award and incentive for the six weeks, semester, end of school year such as: T-shirts, field trips, awards, incentives, celebrations, fun day, fundraisers for the following Team/Club: 6th Grade: 1, 2, 3 7th Grade: 1, 2, 3 8th Grade: 1, 2, 3 UIL, National Junior Society Student Council and Relay for Life **Strategy's Expected Result/Impact:** Awards, certificates, sign-in sheets **Staff Responsible for Monitoring:** Campus Administration, Counselors, Teachers	0%	10%	25%	

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Implement advanced courses offered at every school and during the summer, to include the Bridge to Enter Advanced Mathematics (BEAM) program. Increased expansion opportunities for dual credit and advanced placement. Increased opportunities for HS credit in Middle School such as, but not limited to, Project Lead the Way (PLTW) and Algebra I. **Strategy's Expected Result/Impact:** Increased enrollment numbers in advanced courses.	0%	60%	65%	→

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Contract Region One to assist in the area of Reading by working with a Reading Coach. **Strategy's Expected Result/Impact:** STAAR Scores will increase. **Staff Responsible for Monitoring:** Campus Administration Secretary **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5	0%	75%	100%	100%

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Veterans Middle School will purchase 30 Dell laptops for students to use as a way to collobrate with classmates and complete projects and assignments together. **Strategy's Expected Result/Impact:** Students will become more efficient in note taking and participate in group work. **Staff Responsible for Monitoring:** Campus Administration Campus Librarian Secretary Teachers **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5 - **TEA Priorities:** Improve low-performing schools - **ESF Levers:** Lever 4: High-Quality Curriculum, Lever 5: Effective Instruction **Funding Sources:** - Title I (211) - $33,000	0%	0%	0%	→

0% No Progress 100% Accomplished → Continue/Modify ✕ Discontinue

Goal 1: Veterans Middle School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. The district will also implement a Math Proficiency Plan (MPP) for the early grade levels that will result in more students meeting grade level standards.

Performance Objective 2: Veterans Middle School's Bilingual/ESL Dept.: Facilitate Reading Level Monitoring. 100% of teachers serving identified LEP students will receive support in the understanding of language, literacy, and content interdependence.

Evaluation Data Sources: Istation, Eduphoria (Workshop and AWARE), Master Schedules, TELPAS, PBMAS

Evaluation Data Sources: Meals served, checking campus cafeteria for safety & compliance of all meals prepared and served.

Summative Evaluation: Significant progress made toward meeting Objective

Goal 5: Veterans Middle School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 6: Student Support Services: Veterans Middle School will ensure our Middle School students will be psychologically and emotionally served to decrease the frequency of inappropriate and disruptive behavior by 20%.

Evaluation Data Sources: LPC reports

Summative Evaluation: Significant progress made toward meeting Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Veterans Middle School will provide clothing assistance to parents in need of school uniforms due to lack of monetary funds. **Strategy's Expected Result/Impact:** Ensure students in need of school uniforms are granted resources needed to comply with campus/district dress code. **Staff Responsible for Monitoring:** Campus Administration Counselors	0%	25%	50%	

0% No Progress | 100% Accomplished | Continue/Modify | Discontinue

Goal 5: Veterans Middle School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 7: Transportation department : Veterans Middle School will work with campus bus drivers that will transport students each morning on time. With a goal of all students arriving 15 minutes prior to the start of instructional day, in order to serve breakfast.

Evaluation Data Sources: Monitoring times busses arrive and depart the campus.

Summative Evaluation: Significant progress made toward meeting Objective

Goal 5: Veterans Middle School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 8: Fine Arts: Veterans Middle School will assist teachers and students to achieve the highest level of excellence in all interscholastic competitions.

Evaluation Data Sources: Professional development, Inventory reports, Lesson plans, Evaluation reports, Competition results, PEIMS enrollment reports, PEIMS endorsement reports.

Summative Evaluation: Significant progress made toward meeting Objective

Goal 5: Veterans Middle School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 9: Drop Out Prevention: Veterans Middle School will increase the attendance rate from 95.1 to 95.6 for all students.

Evaluation Data Sources: TAPR report/PBMAS

Summative Evaluation: Significant progress made toward meeting Objective

Goal 5: Veterans Middle School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 10: Physical Education: Veterans Middle School will require the Fitnessgram physical fitness assessment to be administered to 90% of all students enrolled in P.E. or course substituting for P.E. (athletics, band, ROTC) unless a student qualifies for valid exemption as per Fitnessgram testing policies.

Evaluation Data Sources: Fitness gram assessment, PEIMS enrollment schedules for PE

Summative Evaluation: Significant progress made toward meeting Objective

Goal 5: Veterans Middle School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 11: Advanced Academics: Veterans Middle School will ensure that 97% of all Gifted/Talented and students enrolled in an advanced course will meet the state standards on all areas of STAAR/EOC.

Evaluation Data Sources: STAAR/EOC data reports

Summative Evaluation: Significant progress made toward meeting Objective

Goal 5: Veterans Middle School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 12: Technology: Students 6-8th grade will learn about digital citizenship and cyberbullying using online curriculum.

Evaluation Data Sources: Learning.com Reports and Usage

Summative Evaluation: Significant progress made toward meeting Objective

Goal 5: Veterans Middle School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 13: Bilingual/ESL: Veterans Middle School will increase the percentage of ELLs progressing one performance level to 51%, increase the percentage of ELLs reaching Advanced High within the first 4 years of enrollment in US schools to 16%, and increase the percentage of ELLs at Advanced High after the fifth year of enrollment in US schools to 30%.

Evaluation Data Sources: TELPAS reports

Summative Evaluation: Significant progress made toward meeting Objective

Goal 5: Veterans Middle School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 14: Migrant: 50% of 6th-8th migratory students will improve their score by 5% on curriculum-based reading and math assessments.

Evaluation Data Sources: RDA & STAAR

Summative Evaluation: Significant progress made toward meeting Objective

Goal 5: Veterans Middle School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 15: Special Education: Veterans Middle School will improve its overall academic rating in the area of reading in 2020-2021 Texas Education Agency Results Driven Accountability, by one performance level indicator.

Evaluation Data Sources: RDA & STAAR

Summative Evaluation: Significant progress made toward meeting Objective

Goal 5: Veterans Middle School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 16: Academics: Increase opportunities for students to participate in and out of district academic enrichment programs.

Summative Evaluation: Significant progress made toward meeting Objective

Goal 5: Veterans Middle School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 17: Veterans Middle School will increase the safety measures at the campus by upgrading the locking mechanisms for classroom doors and upgrading security measures at the entry points of campuses.

Summative Evaluation: Significant progress made toward meeting Objective

Goal 5: Veterans Middle School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 18: Academic Support: Veterans Middle School will implement and monitor Positive Behavior and Intervention Supports (PBIS) throughout the school year to decrease student discipline by 5%.

Evaluation Data Sources: Discipline referrals
Campus counseling student progress monitoring
LPC student progress monitoring
LSSP student progress monitoring

Summative Evaluation: Significant progress made toward meeting Objective

Goal 6: Veterans Middle School will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process.

Performance Objective 1: CLPAC: Veterans Middle School will maintain the required members in the Campus Level Planning and Advisory Committee to oversee campus decisions, plans, and improvement activities at least 4 times per year.

Evaluation Data Sources: CLPAC meeting sign ins and agendas

Summative Evaluation: Significant progress made toward meeting Objective

Goal 6: Veterans Middle School will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process.

Performance Objective 2: Parental and Family Engagement Department: Veterans Middle School will increase the number of parent/community volunteers by 5% and increase the parent attendance by 10% at district meetings/events each year.

Evaluation Data Sources: Volunteer sign in at each site on a daily basis and the sign in at the district/campus meetings.

Summative Evaluation: Significant progress made toward meeting Objective

Goal 6: Veterans Middle School will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process.

Performance Objective 3: Parents and community members will be able to access educational services and information through available technology resources

Evaluation Data Sources: Parental Involvement

Summative Evaluation: Significant progress made toward meeting Objective

Goal 6: Veterans Middle School will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process.

Performance Objective 4: Solicit community input in the planning of technology integration

Evaluation Data Sources: Educator Preparation and Development

Summative Evaluation: Significant progress made toward meeting Objective

Goal 7: Veterans Middle School will establish a technological infrastructure that promotes communication and learning within the district and community.

Performance Objective 1: Design, install and maintain a technology and telecommunications for communications and services that ensures equitable access for all campus stakeholders and the community.

Evaluation Data Sources: Technology Infrastructure

Summative Evaluation: Significant progress made toward meeting Objective

Goal 7: Veterans Middle School will establish a technological infrastructure that promotes communication and learning within the district and community.

Performance Objective 2: Build Support for Internet Access through collaborative planning, education or other means.

Evaluation Data Sources: Technology Infrastructure

Summative Evaluation: Significant progress made toward meeting Objective

Goal 7: Veterans Middle School will establish a technological infrastructure that promotes communication and learning within the district and community.

Performance Objective 3: Strive to achieve and maintain a personal computing device ration of 1:1 for both students and professional educators.

Evaluation Data Sources: Technology Devices

Summative Evaluation: Significant progress made toward meeting Objective

Goal 7: Veterans Middle School will establish a technological infrastructure that promotes communication and learning within the district and community.

Performance Objective 4: Provide access to appropriately configured technology for all students and staff including students and staff with disabilities.

Evaluation Data Sources: ADA Technology Devices/equipment

Summative Evaluation: Significant progress made toward meeting Objective

Goal 7: Veterans Middle School will establish a technological infrastructure that promotes communication and learning within the district and community.

Performance Objective 5: Upgrade and maintain a high speed, high capacity statewide telecommunications network.

Evaluation Data Sources: Technology Infrastructure

Summative Evaluation: Significant progress made toward meeting Objective

Goal 7: Veterans Middle School will establish a technological infrastructure that promotes communication and learning within the district and community.

Performance Objective 6: Maintain policy to ensure maximum efficiency and use of technology for all students and faculty.

Evaluation Data Sources: Technology Infrastructure

Summative Evaluation: Significant progress made toward meeting Objective

Goal 7: Veterans Middle School will establish a technological infrastructure that promotes communication and learning within the district and community.

Performance Objective 7: Provide and maintain communication with students, parents, and the community members to have access of school news, educational resources and data.

Evaluation Data Sources: Telecommunications

Summative Evaluation: Significant progress made toward meeting Objective

Goal 7: Veterans Middle School will establish a technological infrastructure that promotes communication and learning within the district and community.

Performance Objective 8: Provide access to digital instructional tools that meet interoperability and data accessibility standards for instruction.

Evaluation Data Sources: Instructional Technology

Summative Evaluation: Significant progress made toward meeting Objective

Goal 7: Veterans Middle School will establish a technological infrastructure that promotes communication and learning within the district and community.

Performance Objective 9: Purchase technologies software and hardware to audit, secure and monitor network services and equipment.

Evaluation Data Sources: Technology Insfrastructure

Summative Evaluation: Significant progress made toward meeting Objective

Donna Independent School District

D.M. Sauceda Middle School

2021-2022 Campus Improvement Plan

Mission Statement

Mission Statement: The mission of Donna I.S.D. is to provide a rigorous and supportive learning environment with meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking that ensures educational excellence for all students.

Vision

Vision Statement: The Vision of Donna I.S.D. is to be a bold district at the forefront of educating all students to be passionate, motivated leaders who will be a powerful force for positive change in our community, state, and nation.

Core Beliefs

1. We believe that every student can perform at or above grade level and graduate prepared for college and/or the workforce. As a result, we are determined to:

- Provide a vertically aligned rigorous curriculum (PK-16).
- Provide well-planned student-centered instruction that focuses on project-based learning with real world connections.
- Provide accurate, meaningful and authentic assessment of students' mastery of knowledge and skills.

2. We believe that educators have the most powerful impact on student achievement. As a result, we are determined to:

- Attract and retain highly qualified staff.
- Provide ongoing targeted staff development.
- Provide the most current research-based and state of the art instructional resources.

3. We believe that educational equity and excellence will eliminate the achievement gap. As a result, we are determined to:

- Provide opportunities for every student to learn in a manner that is consistent with his/her learning style.
- Afford each student targeted instructional interventions to ensure academic success with a rigorous and relevant curriculum.
- Provide every student with equal access to outstanding, well-prepared teachers and high quality instructional resources.

4. We believe that every student must be educated in a safe, welcoming, effective, and innovative learning environment. As a result, we are determined to:

- Enforce the policies of the Donna Independent School District's adopted Student Code of Conduct.

- Provide security measures at all campuses to establish a learning climate of mutual respect.
- Ensure that every staff member, campus, and classroom is supportive of all students and their unique differences.

5. We believe that our school district must be a model for sound fiscal responsibility and integrity. As a result, we are determined to:

- Establish policies and procedures to promote ethical practices in all areas of fiscal management.
- Provide periodic audits to ensure that all staff and outside providers are committed to following sound fiscal practices.
- Provide staff training to encourage ethical conduct and a commitment to compliance with the state and federal laws.

6. We believe that engaged parents and guardians impact a student's academic and personal development. As a result, we are determined to:

- Schedule Parent Sessions to inform parents about the academic programs and instructional opportunities available to their child.
- Accommodate parents' work schedules when creating parent involvement opportunities.
- Keep parents informed of their children's performance and school activities (i.e. notes, telephone calls, newsletters, conferences, meetings, etc.).

7. We believe that a supportive community is fundamental to achieving and sustaining our success. As a result, we are determined to:

- Involve community members by inviting them to serve on school and district committees.
- Develop partnerships with business, civic, and academic organization to provide opportunities for students to develop leadership and citizenship skills.
- Ensure that our community is supportive of the district's goals by informing the community of pertinent school activities and successes.

8. We believe that communication, collaboration, and coordination at all levels are essential to district success. As a result, we are determined to:

- Work as unified team to find solutions to the district's most pressing issues.
- Require that every project specify the persons responsible to facilitate proper coordination of efforts.
- Develop a communication plan for every new initiative in order to ensure that all stakeholders are well informed.

Priority Problem Statements 28

Goals 29
- Goal 1: Goal 1: D.M. Sauceda will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The campus will implement a balanced literacy program that will result in more students reading on or above grade level. BG2 The percentage of students who achieve meets and/or masters performance level on the STAAR exam identified in the Texas State Accountability report will increase from 35% to 60%. 30
- Goal 2: D.M. Sauceda will create an inviting educational environment where the percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. BG2 The percentage of students who achieve meets and/or masters performance level on the STAAR exam identified in the Texas State Accountability report will increase from 35% to 60%. 78
- Goal 3: Goal 3: D.M. Sauceda will create an instructional environment that will enhance the learning and academic performance of all students and increase the percentage of graduates demonstrating college/career/military readiness. 90
- Goal 4: Goal 4: D.M. Sauceda will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 104
- Goal 5: Goal 5: D.M. Sauceda will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 112
- Goal 6: Goal 6: D.M. Sauceda will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 130
- Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 137

Campus Funding Summary 157

Comprehensive Needs Assessment

Demographics

Demographics Summary

Demographics Summary:

As a campus we are overrepresented in our ELL population and in our At Risk population due to the nature of our socio-economic and mobility rates in our district. ELL students exiting from the program has been a slow progression. The mass majority of our student populations come from rural neighborhoods.

Enrollment numbers indicate a decrease in our number of students of 762

- Breakdown by ethnicity, gender, or other category:
  - ELL: 493 students = 64%
  - Special Education: 100 students= 13%
  - Ethnicity: 762 Hispanic / 0 White = 100% Hispanic
  - Gender: 331Females/ 431? Males = 46.5%females/ 53.5% Male
  - At-Risk: 696 students= 91%
  - Gifted and Talented: 38 = 5%
  - Migrant: 41 students= 5.4%

Our 6th grade cohort decreased from last year because students attended charter campus in the area.

Population is as follows: 100% Hispanic

Dora M. Sauceda Middle School services 5 rural neighborhoods all of which are located on or around North Tower Road, North Val Verde Road, Border Road, Sioux Road and Minnesota Road.

Our At Risk population of students in our campus is composed of 696 (91%) Our students are labeled At Risk for the following reasons:

Category 1 ? SS1 ?	Student Success Initiative- label for student in 9th grade that were in our campus (STAAR for last year's 8th grader) ?
Category 2 ?	At-Risk code for student in 7th & 8th who did not maintain an average equivalent to 70 on a scale of 100 in 2 or more subjects: last year or this year ?
Category 3 ?	Was not advanced from one grade level to the next for one or more school years ?

Category 1 ? SS1 ?	Student Success Initiative- label for student in 9th grade that were in our campus (STAAR for last year's 8th grader) ?
Category 4 ?	Did not perform Satisfactory on an assessment instrument administered to the student and who has not in the previous or current school year subsequently performed on that instrument or another appropriate instrument at a level equal to at least 100% of the level of satisfactory performance on that instrument (STAAR s scores had been used) ?
Category 5 ?	IS pregnant or is a parent ?
Category 6 ?	Has been placed in an alternative education-program during the preceding or current school year ?
Category 7 ?	Has been expelled during the preceding or current school year ?
Category 8 ?	Is currently on parole, probation, deferred prosecution, or other conditional release ?
Category 9 ?	Was previously reported through the PEIMS to have dropped out of school ?
Category 10 ?	Is a student of Limited English Proficiency ?
Category 11 ?	Is in the custody or care of the Dept. of Protective and Regulatory Services or has, during the current school year, been referred to the department by a school official, officer of the juvenile court, or law enforcement officials ?
Category 12 ?	Is homeless ?
Category 13 ?	Resides in the preceding school year or resides in the current school year in a residential placement facility in the district, including a detention facility, substance abuse treatment facility, emergency shelter, psychiatric hospital, halfway house, or foster group home ?
Category 14 ?	Student has been incarcerated or has a parent/guardian who has been incarcerated within the lifetime of the student in a penal institution as defined by the penal code ?

Staff Demographics?:

- Staff Members: 98.5
- 1 Principal?
- 3 Administrators?
- 9.5 Support Staff?
- 51 Teachers?
- 7 Educational Aids?
- 1 drill instructor
- 1 Librarian?
- 2 Academic Counselors
- 1 LPC counselor
- 9 custodians
- 9 cafeteria
- 3 guards
- 1 police officer

Teacher Qualifications?:

Sauceda Middle School staff is highly qualified:?

51 Teachers hold a Bachelor's Degree?

13.5 Teachers hold a Master's Degree?

2 are transfer teachers to Sauceda?

21.0 teachers have 1-5 years of experience ?

18.4 teachers have 6-10 years of experience?

7 teachers have 11-20 years of experience?

5 teachers have over 20 years of experience

Staff Demographics?:

6th Grade Teachers?

- Number of students 265?
- Number of teachers 17?
- Student/Teacher ratio 16:1?
- 1 Teacher Assistant?
- 14 female teachers?
- 3 male teachers?
- 1 female teacher assistant

7th Grade Teachers?

- Number of students 270?
- Number of teachers 17?
- Student/Teacher ratio 16:1?
- 1 Teacher Assistants?
- 13 female teachers?
- 4 male teachers?

- 1 female teacher assistant

8th Grade Teachers?

- Number of students 293 ?
- Number of teachers 17?
- Student/Teacher ratio 17:1?

- 1 Teacher Assistants?
- 12 female teachers?
- 5 male teachers?
- 1 female teacher assistant?

Elective Teachers?

- There are 23 elective teachers?
- 10 female?
- 13 male?

Life Skills?

- 2 female teacher ?
- 2 male teacher assistants?
- 2 female teacher assistants

Student Teacher Rations for the past three years have gone up slightly.?

Students per Teacher?	
2017-18?	10.6?
2018-19?	11?
2019-20?	12.4?

- Performance on the Benchmark tests for Reading and Math have remained close each of the past three years.?

Average Benchmark Scores All Subjects All Grades?	
2017-18?	54.2?
2018-19?	56.2?
2019-20?	56.2?

- The Student/Teacher ratio has gone up slightly, but the student performance has stayed very close. ?
- **In conclusion, there is not enough variance in the quantitative data to show any definitive answer to how the student/teacher ratio affects performance.**

Demographics Strengths

Special program services include: Gifted and Talented, Advanced, Pre-AP, Special Education, Guided Reading, ESL, AVID, and Migrant. All programs continue to show

student progression as per assessment data

- After school tutorials for students needing extra help. The structure of tutorials made it possible to target specific groups of students, based on their needs with given objectives.
- ACE Program to help students with homework, and serves as tutorial time.
- Sports as a way to keep students focused: academics and discipline
- ELA teachers have an ESL co-teacher in the classroom.
- ESL teacher serves ESL and ELD 6th grade students
- 58% of students are Limited English Proficiency and 100% are being serviced
- Academic interventions (Reading, Math, Social Studies, and Science) have been very effective as a result of our teacher-to-student ratios.
- Writing and Reading allowed for effective and individualized instruction through intervention groups for 8th grade students.

Student Learning

Student Learning Summary

Student Academic Achievement

How is student achievement data disaggregated?

Data disaggregation refers to the breaking down of student data into smaller groupings, often based on characteristics such as grade level, subject, department, population (Sped, ELL, Econ. Disadvantaged), and faculty meeting data.

How does student achievement data compare from one data source to another?

In some areas, the team can access existing data. For example, they will be able to gather quantitative data such as student achievement results, reports, and demographic statistics from community-based or other organizations. The three data sources we use for student achievement are Eduphoria, the Texas Academic Performance Report (TAPR), and the School Report Card (SRC). Although they are all very useful, they provide us with different types of information. Eduphoria provides data based solely on the teacher's own students, whereas TAPR and SRC provide campus wide data by grade level, subject, and subpopulations. Also, Eduphoria provides us with continuous data throughout the year with Bundle, Comprehensive, and Benchmark Exam scores. TAPR and SRC only provide data based on STAAR results, but both can be used to monitor progress from one year to the next.

In the year 2018-19 Sauceda Middle School's overall accountability rating was a 73/C for acceptable performance by serving many students well but needs to provide additional academic support to many more students. Sauceda Middle School's state accountability ratings are based on three domains: Student Achievement 70/C, School Progress 81/B, and Closing the Gaps 53/F. Sauceda Middle School earned a distinction designation for Science.

Based on the TEA 2018-19 School Report Card, Economically Disadvantaged students made up 97.3% of Sauceda Middle School's enrollment compared to 60.6% at the state level. The ED population showed small progress in Reading, Writing, and Science; held steady in Mathematics; but went down in Social Studies. Special Education made up 10.5% of student enrollment compared to 9.6% for the state. Sped population performance went down in Reading, Mathematics, and Writing with a large drop in Science and Social Studies. English Learners comprise 63.8% of the school's population compared to 19.5% for the state. EL student performance made small increases in Reading and Mathematics, larger increases in Writing and Social Studies, and a drop in Social Studies.

All subject areas need to follow a detailed strategy to elicit continued growth in student achievement. Sauceda Middle School has set a goal for students to achieve Meets and Masters level on STAAR. According to the School Report Card, Sauceda Middle School remained at 69% for approaches, went down in Meets from 35% to 33%, and remained unchanged in Masters at 12%. The percent of students achieving Meets and Masters at Sauceda Middle School is significantly behind the state at 50% and 24%, respectively. This level of underachievement is a large reason for the campus receiving an F rating in Closing the Gaps.

What does the data indicate when disaggregated by ethnicity, gender, socioeconomic status, special program, or other category?

2019 STAAR Reading, Grade 6

??	May 2019 STAAR Reading, Grade 6?			
	Total Students?	Approaches?	Meets?	Masters?
Sauceda Middle School?	212?	37.74%?	8.49%?	0.47%?
?? Economic Disadvantage?	206?	37.38%?	7.77%?	0.49%?
?? Hispanic?	212?	37.74%?	8.49%?	0.47%?
?? Female?	98?	41.84%?	10.20%?	1.02%?
?? Male?	114?	34.21%?	7.02%?	0%?
?? LEP?	149?	27.52%?	3.36%?	0%?
?? Second Year of Monitoring?	5?	80%?	0%?	0%?
?? Special Ed Indicator?	30?	6.67%?	0%?	0%?

For 6th grade reading the data shows?a?decrease?in socioeconomic and ethnicity but in gender a?significantly?higher percentage of female students are?passing than male students.?Females have a higher percentage of?Approaches?and?Meets?performance.?The greater area of change is found in students who are LEP, Second Year Monitoring and Special Ed. LEP students are at?a?higher achievement rate than Special?Ed?but Second Year Monitoring students have the greatest percentage of achievement.?

2019 STAAR Mathematics, Grade 6

??	May 2019 STAAR Mathematics, Grade 6?			
	Total Students?	Approaches?	Meets?	Masters?
Sauceda Middle School?	219?	81.28%?	36.07%?	6.39%?
?? Economic Disadvantage?	212?	80.66%?	35.38%?	6.13%?
?? Hispanic?	219?	81.28%?	36.07%?	6.39%?
?? Female?	100?	79%?	35%?	6%?
?? Male?	119?	83.19%?	36.97%?	6.72%?

?? Female?	120?	68.33%?	25.83%?	5%?

??	May 2019 STAAR Mathematics, Grade 7?			
	Total Students?	Approaches?	Meets?	Masters?
?? Male?	138?	71.01%?	28.26%?	7.97%?
?? LEP?	171?	63.16%?	17.54%?	1.75%?
?? Second Year of?Monitoring?	3?	100%?	66.67%?	33.33%?
?? Special Ed Indicator?	27?	66.67%?	3.70%?	0%?

When comparing within the 2019 school year,?with?the?Limited English Proficient subpopulation?being about 61% of our campus demographics, LEP scored 6.61% percent lower than Sauceda campus?within?the 7th?grade mathematics. Although the Special Education program is?only 11% but none the less, the program scored higher than the LEP population, but still lower than Sauceda?campus?by 3.1%.

2019 STAAR Writing, Grade 7

??	May 2019 STAAR Writing, Grade 7?			
	Total Students?	Approaches?	Meets?	Masters?
Sauceda?Middle School?	253?	60.47%?	26.88%?	7.51%?
?? Economic Disadvantage?	244?	60.25%?	25.82%?	7.38%?
?? Hispanic?	253?	60.47%?	26.88%?	7.51%?
?? Female?	120?	71.67%?	33.33%?	10%?
?? Male?	133?	50.38%?	21.05%?	5.26%?
?? LEP?	169?	49.70%?	16.57%?	1.18%?
?? Second Year of Monitoring?	2?	100%?	50%?	0%?
?? Special Ed Indicator?	26?	11.54%?	0%?	0%?

The gap between female and male student achievement is quite large at all three levels with females outperforming their male classmates. Also, there are significant gaps between English Learners and the overall population at all three levels of achievement. Sped students are also far behind their classmates both for this year and the previous year.

2019 STAAR Reading, Grade 8

??	April 2019 STAAR Reading, Grade 8?			
	Total Students?	Approaches?	Meets?	Masters?
Sauceda Middle School?	270?	77.00%?	34.00%?	13.00%?
?? Economic Disadvantage?	261?	77.00%?	34.00%?	13.00%?
?? Hispanic?	269?	77.00%?	34.00%?	13.00%?
?? Female?	125?	85.60%?	40.80%?	18.40%?
?? Male?	145?	67.59%?	26.90%?	7.59%?
?? LEP?	162?	72.00%?	23.00%?	5.00%?
?? Special Ed Indicator?	12?	71.00%?	21.00%?	14%?

Year to year?there?continue?to be increases?for females across all three spectrums of approaches/meets/masters.?For our socioeconomic and LEP students?we see?slight changes from one year to the next?with the greatest change occurring with our?Sped students?who?experienced a large increase in achievement for approaches/masters from previous year. T he data show?an?increase in?female students?who are?passing than male students.?Another area of increase occurs within our Economic Disadvantage students?with a?higher achievement rate than LEP and Sped.?LEP students have a slight increase in achievement over Sped populations.?Overall, student achievement is very consistent with the previous year.

2019 STAAR Mathematics, Grade 8

??	April 2019 STAAR Mathematics, Grade 8?			
	Total Students?	Approaches?	Meets?	Masters?
Sauceda Middle School?	235?	93.00%?	48.00%?	6.00%?
?? Economic Disadvantage?	228?	93.00%?	49.00%?	5.00%?
?? Hispanic?	234?	93.00%?	48.00%?	6.00%?
?? Female?	108?	97.22%?	62.96%?	6.48%?
?? Male?	127?	88.98%?	33.86%?	3.15%?
?? LEP?	154?	91.00%?	44.00%?	3.00%?
?? Special Ed Indicator?	12?	79.00%?	21.00%?	14%?

For 8th grade Math the data shows?a slight?change?between?the LEP population,?socioeconomic and ethnicity.??Female students perform approximately 8% higher than male students.?The greater area of change is found in?the?Special Ed.?Population with?a 14% lower?achievement rate?than the total.? The Special Ed. Population, however, did have the?highest?achievement?rate?in the?Masters?category. There is a small increase in females outperforming males compared to the previous year.

2019 STAAR Science, Grade 8

??	May 2019 STAAR Science, Grade 8?			
	Total Students?	Approaches?	Meets?	Masters?
Sauceda Middle School?	265?	75.85%?	41.89%?	15.09%?
?? Economic Disadvantage?	256?	76.56%?	41.80%?	14.84%?
?? Hispanic?	264?	75.76%?	41.67%?	15.15%?
?? White?	1?	100%?	100%?	0%?
?? Female?	125?	80.80%?	44%?	17.60%?
?? Male?	140?	71.43%?	40%?	12.86%?
?? LEP?	157?	65.61%?	23.57%?	5.10%?
?? Second Year of Monitoring?	4?	100%?	100%?	75%?
?? Special Ed Indicator?	12?	33.33%?	8.33%?	8.33%?

Between 2018-2019 there was a slight growth in Approaches and a slight decline in Meets and Masters.?

Overall, approaches increased by 2.59% from the previous year. Overall, meets declined by 4.64% from the previous year. Overall, masters declined 6.44% from the previous year. F emale students are showing a higher level of mastery than all other populations across all three levels of achievement.

2019 STAAR Social Studies, Grade 8

?

??	May 2019 STAAR Social Studies, Grade 8?			
	Total Students?	Approaches?	Meets?	Masters?
Sauceda Middle School?	265?	48.30%?	18.87%?	9.81%?
?? Economic Disadvantage?	256?	47.66%?	18.75%?	9.77%?
?? Hispanic?	264?	48.11%?	18.94%?	9.85%?
?? White?	1?	100%?	0%?	0%?
?? Female?	126?	50.79%?	17.46%?	8.73%?
?? Male?	139?	46.04%?	20.14%?	10.79%?

??	May 2019 STAAR Social Studies, Grade 8?			
	Total Students?	Approaches?	Meets?	Masters?
?? LEP?	156?	32.05%?	7.69%?	4.49%?
?? Second Year of Monitoring?	4?	75%?	50%?	25%?
?? Special Ed Indicator?	12?	8.33%?	0%?	0%?

For 8th?grade Social?Studies?the?LEP students?are struggling a bit more?than?the overall population.?There is about a 16% difference between the two groups. The data also show that the student's economic status did not affect their performance as the difference was less than 1% when compared to students overall.?SPED students are also lagging behind with a 40% achievement gap.?There were decreases in all categories from 2018 to 2019 except in the LEP population.

2019 STAAR EOC, Algebra I

??	Spring 2019 STAAR EOC, Algebra I?			
	Total Students?	Approaches?	Meets?	Masters?
Sauceda Middle School?	51?	100%?	92.16%?	72.55%?
?? Economic Disadvantage?	49?	100%?	93.88%?	73.47%?
?? Hispanic?	51?	100%?	92.16%?	72.55%?
?? Female?	27?	100%?	88.89%?	66.67%?
?? Male?	24?	100%?	95.83%?	79.17%?
?? LEP?	10?	100%?	90%?	70%?

Algebra continues to show 100% of students at acceptable performance. In the higher Meets and Masters categories, males outperformed females in contrast to last year's results. The Economically Disadvantaged and English Learners groups both showed increases in Meets and Masters compared to the previous year.

In which areas are we showing growth? At what rate? Compared to which standard of achievement?

Sauceda Middle School did not perform well in terms of growth. According to the 2018-19 School Report Card, Sauceda Middle School's Academic Growth Score for Reading and Mathematics combined went down significantly from 69 to 61 compared to the state level of 69. Reading went down from 65 to 61 compared to 68 for the state, and Mathematics went down from 73 to 61 compared to 70 for the state.

In terms of student achievement, 6th grade Reading went down 6% and was 27% below the state. 6th grade Mathematics increased 2% and exceeded the state by 1%. 7th grade Reading grew by 8% but was still 9% below the state. 7th grade Mathematics remained at 70% but was 5% below the state. 7th grade Writing increased 5% but was 9% below the state. 8th grade Reading held steady at 77% but was also 9% below the state. 8th grade Mathematics decreased by 1% but exceeded the state by 5%. 8th grade Science went up 3% but trailed the state by 4%. 8th grade Social Studies decreased by 8% and fell behind the state by 20%. And Algebra I EOC continued to perform at 100% satisfactory and exceeded the state by 15%.

Which students are making progress? Why?

English Learners overall are making incremental progress with an increase of 2% from the previous year. Economically Disadvantaged students do not achieve at a significantly different level than the overall population due to the ED group making up such a large majority of enrolled students. Sped students saw a significant decrease of 7% from the previous year.

In contrast to Eduphoria, the TAPR and SRC do not disaggregate achievement data by gender. In general, female students are outperforming male students in all three grade levels of Reading, 7th Writing, and 8th Mathematics. Male students slightly outperform female students in 6th and 7th math and Algebra. The data is split in 8th Social Studies.

Progress of Prior-Year Non-Proficient Students shows STAAR performance rates for students who did not perform satisfactorily in 2017-18 but did in 2018-19. This measurement is limited to Reading and Mathematics due to the continuity of testing in these subjects. Sauceda Middle School showed significant progress in Reading, going from 30% in 2018 to 39% in 2019 but still falling behind the state average of 41%. Mathematics saw a drop from 64% in 2018 to 57% in 2019, but the campus continued to outperform the state at 45%.

What impact are intervention programs having on student achievement? Which students are benefitting or not? Why?

Intervention programs Sauceda Middle School provides include

- Ace
- Morning and afternoon tutorials
- Saturday reading and math camps
- Imagine Math
- I-Station
- Guided Reading elective course

- IXL.com writing program
- myON.com reading program
- Accelerated Reader
- Gear Up
- Migrant Lab elective course
- Peer tutoring

What does the longitudinal student achievement data indicate?

	2012	2013	2014	2015	2016	2017	2018	2019
6th Reading	45%	39%	61%	50%	46%	48%	47%	41%
6th Mathematics	52%	43%	76%	---	65%	75%	80%	82%
7th Reading	54%	48%	44%	51%	53%	60%	59%	67%
7th Mathematics	53%	45%	43%	---	57%	58%	70%	70%
7th Writing	46%	39%	47%	48%	55%	58%	56%	61%
8th Reading	55%	66%	67%	76%	76%	75%	77%	77%
8th Mathematics	58%	63%	78%	---	84%	87%	94%	93%
8th Science	54%	65%	56%	66%	75%	70%	74%	77%
8th Social Studies	47%	57%	41%	54%	67%	60%	57%	49%

Student Learning Strengths

Student Academic Achievement Strengths

1. Staff is willing to learn and implement different techniques and strategies to maximize student learning.
1. Data is thoroughly analyzed during planning for effective and targeted instruction, intervention, and tutorials.
1. Administration is collaborative and innovative in problem solving approaches.
1. Teachers collaborate in Professional Learning Communities for effective academic instruction in STAAR preparation.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Problem Statements Identifying Student Academic Achievement Needs Problem Statement 1: Technology and computer programs need to be implemented more in the classroom and at home. **Root Cause:** Root Cause: Sauceda Middle School has a very high percentage of Economically Disadvantaged students who do not have sufficient technology or access to Internet at home. Sauceda Middle School and Donna ISD do not provide electronic devices to all students. Recommendation: All students should be provided with technology they can use on campus and at home, and teachers should continue to receive relevant professional development on implementing technology in the classroom.

Problem Statement 2: Problem Statement 2: Sauceda Middle School students continue to underperform and the Meets and Masters levels. **Root Cause:** Root Cause: Students may have learning gaps that go back several years. Recommendation: Scheduling should allow teachers to implement targeted, small-group intervention during the school day to close the gaps in achievement.

School Processes & Programs

School Processes & Programs Summary

Follow-up data and teacher performance provided to teachers:

- Teachers and administrators meet once a week during Professional Learning Communities (PLC's) to ensure all learners are successful. Teachers work cooperatively to create Plans of Action that target specific TEKS and Instructional Strategies. Instruction is constantly modified to ensure mastery of the TEKS.
- The district director, strategist and campus administrators meet after comprehensive Assessments and Benchmark Assessments to analyze data for effective targeted instruction, intervention and tutorials.
- The two data sources we use for student achievement are Eduphoria and the Texas Academic Performance Report (TAPR). Eduphoria provides data based solely on the teacher's own students, and provides us with continuous data throughout the year with bundle, comprehensive and benchmark exam scores. TAPR reports provide campus wide data from the STAAR Test per grade level, by subject, and subpopulations

Recruiting Highly Qualified and Effective Staff:

- Donna ISD has a staffing plan to ensure that all new teachers are highly qualified through mentorship programs and in-district transfer methods securing and promoting consistency in all content areas.?
- Job fairs, district website, interview processes, recommendation letters, and teacher qualifications.?
- Department leaders, core teachers and administrators form the hiring committee responsible to ensure highly qualified teachers become part of the Sauceda team. Student and campus needs along with the candidates prior experience are considered and discussed after the interview process by the hiring committee members in order to concede that candidates meet the expectations of our campus.

Staff attendance, retention and turnover rate:

- Our campus staff turnover rate in the past 12 months is approximately 16.5 % Giving us a result of about 83.5 % retention rate for our campus. Replacing and/or adding by either hiring or transferring 7 additional staff in the past 12 months. Bringing our total staff for this year to 93 members. Due to district changes our staff count numbers went from 103 to 93 giving us an estimate calculation of 9.71 % staff member total decrease. ?
- Perfect attendance district incentive has kept teachers motivated to keep coming to work?.

HIGHLY EFFECTIVE STAFF:

Our campus has experienced and certified teachers and teacher assistants that work and support the Special Education, 504, and Recent Immigrant populations. Our school groups students into different teams based on their academic needs in their grade level to maximize the use of the certified teachers and support staff resources. One team is designated to focus and work with the special education population and the other team is working with the recent immigrant population.

Teacher mentor:

Mentor teachers are assigned to first year teachers. The mentor program has been somewhat helpful when it comes to policy and procedures needed to be implemented. New teachers can turn to their mentors to know what deadlines need to be met and paperwork turned in. Furthermore, the mentor can explain and show the new teacher how to properly get all this done. However, new teachers depend mostly on their immediate team members rather than their assigned mentors for help, in regards to their classroom experience.?

NEW STAFF:

For the 2019-2020 school year, new staff were mostly in-district transfers to our campus. They were supported by their supervisor or department head and colleagues. ?

SYSTEMS IN PLACE TO BUILD CAPACITY AND SUPPORT:

Continuous improvement takes place when teachers attend workshops and seminars to learn new techniques, expand our knowledge and refine our craft. Staff, grade level or team meetings are also ways continuous improvement takes place. Teacher improvement also happens through self reflection after data analysis and after feedback from administrators during walkthroughs or class observations. ?

PROFESSIONAL DEVELOPMENT:

The campus uses historical data from STAAR exams to determine which areas need to be improved upon.

- **Staff at Sauceda Middle school have attended various professional development depending their assignment on campus. These trainings attended would be to help them better serve their students and deliver instruction. Trainings were not limited to only content; some were for classroom management or for state assessment preparation or to obtain information regarding our special populations on campus.**?

?

- **Implementation for professional development is monitored by teachers reporting to their immediate supervisors to debrief what was learned, other times teachers shared with their co-workers via staff meeting. Teachers are sometimes observed in their classrooms by one of the administrators.**?

?

- **After attending professional development teachers have come back to their classrooms and implemented what they've learned.**?

?

- **Teacher's reported that the follow up was data submission more so if they implemented something that was shared at a P.D.**?

Parents and Community:

- **Home visits, teacher conference, parent meetings, site based committee, Health Advisory Council.**?
- **All parents are encouraged to attend, participate. Community members take part in Career Day and participate in the Health Advisory Council as well on the Site Based Committee and attend many district events.** ?
- **The trends that are observed are that we have limited participation/attendance from parents.**?

Each campus hosts different types of meetings where parents /community members are invited and are able to fill out surveys or questionnaires. This becomes helpful as we use feedback provided form both the parents and community members who do not have children within our school system. ?

At Sauceda Middle School, the following services are available: ?

- **The Donna ISD website is a service which parents may use to help keep abreast of current events, children's health insurance, vaccine requirements, student code of conduct, on-line registration, and interactive educational applications to name a few.** ?
  The Campus Parental Involvement Program helps train parents with learning how to speak and communicate in English, introduce and sharpen computer skills in

the hopes of assisting their children academically, and support and enhance teacher relationships. ?

- **The Campus ACE after school program assists families by supporting students with tutoring.** ?
- **The Campus NJHS program supports needy families with holiday food drives.** ?
- **The Campus Fellowship of Christian Athletes gathers weekly to help students develop healthy family relationships through song, prayer, and unity.** ?
- **The Campus Career Investigations field trips to Donna North High School help students prepare for a career to support a family.** ?
- **The Campus Migrant Education program facilitates and supports students become academically successful as students help the family.**?
- **Sauceda Middle School holds various gatherings such as, 6th Grade Orientation,**

Meet the Teacher Night, Open House, and Sauceda's Annual Fall Festival, to promote a positive and collaborative relationships between parent/child and parent/campus. ?

Spanish is the dominant language spoken by students and their families. For effective communication to the parents and community; we offer both English and Spanish when communicating with parents. Mass district text alerts, flyers and letters home are always translated in both English and Spanish. We also offer communication in both languages on the parent portal and the DISD and Sauceda website. In addition, campus staff speak in both English and Spanish and are able to communicate with parents effectively?

Community Partnerships:

- **Training sessions are provided monthly to parents and guardians of our students as well as members of the community for free. For example, the Parent Learning Academy provided by DISD Parental dept where agencies from our community are invited to provide services to Parents and Guardians.**
- **The Child Development Institute (CDI), provides childcare and educational services for our migrant population for children ages 6 weeks - 5 years old.**
- **Nuestra Clinica Del Valle provides health, nutrition, mental health, and dental services with a location now in our city to provide services to the community.**
- **Project Arize is located to the north of our city, where many of our families reside. It provides nutrition classes, E.S.L., baking, sewing, and budget management. It helps families prepare healthy inexpensive meals and takes referrals of families in case of any mental health issues our families may encounter**.

Special Programs:

The Donna ISD Special Education program has many services available to the special education population. Services available include Speech Therapy, Occupational Therapy, Physical Therapy, Counseling, Visual Impairment services, Autism Impairment Services and Social Worker Services.

Campuses have Inclusion, Co-Teaching models to aid students in the classroom, Resource, LifeSkills, and PPCD programs. PPCD programs provide early help to jumpstart education preparedness for Kindergarten and the school years beyond.

Educational Diagnosticians service each campus to provide assessment/reviews for the IEP process and Licensed Specialist in School Psychology (LSSP) that provide cognitive assessments for students.

Homebound services are an educational delivery for students with impairments that make them physically incapable of attending school.

Transition Fairs are available to 8th grade students transitioning to the High school to provide them with knowledge of the educational opportunities. Vocational on site job training is also available along with adult transition help for students turning 18 or 21.

Adequate Time:

- **Having PLC's for tested and non tested subjects.**
- **Small group ,rotation stations in classrooms.**
- **Afterschool and Saturday tutorials**
- **Computer Lab rotations.**
- **ACE afterschool program to assist students.**
- **Tutoring during elective periods.**

- **Provide guidance on virtual learning tools that can be used at home .**
- **Parent /Teacher conferences to discuss support at home.**

Decision making and school policies:

q **Teachers voice their opinions in decision making and school policies by participating in open ended survey questions (Survey Monkey). They are able to speak their mind and incorporate their opinions, teachers can directly contact admin for immediate decision making or set up a meeting.**

q **School policies are more at an administration level making or central office. If input is possible, it is done through dept. head meetings and Learning community leader meetings with teacher input.**

Assessments and Evaluations:

- **Most departments agreed that teachers are given full control and discretion over weekly or biweekly assessments their classroom except for ELA.**
- **Due to new TEKs and new textbook adoption, ELA teachers are encouraged to use weekly assessment provided by the book.**
- **Teachers have the flexibility to choose what type of assessment they will be giving students. These assessments can range from exit tickets, multiple choice, CFU, short answer response, project, group discussion and observation.**

When it comes to bundle assessments all departments agreed that district strategists decide upon and create the assessments in order to evaluate student's learning for the six weeks, although teacher input varies by department:

- **For ELA, students are assessed using textbook units, strategist decides what should be omitted or modified.**
- **Science 6th and 7th grade level teachers are allowed to view and provide suggestions or feedback to modify these assessments sometimes before and always after the test is administered. For 8th grade, teachers are allowed only to provide feedback on the assessment after test has been administered.**
- **In math teachers omit some questions if the TEK was not taught, but this is after test has been administered.**
- **For Social Studies teachers usually discuss potential test questions during curriculum writing. Since last year their teks completely changed they rewrote the entire curriculum, including assessments.**

Process for monitoring, evaluating and renewing the curriculum:

- **Students are assessed weekly on TEKS taught.**
- **Teachers use this weekly data for PLC's.**
- **PLC's are used to reflect and determine weak performing TEKS and to create a plan to target those TEKS the following week.**
- **Bundle assessments are aligned with curriculum. These assessments are created by the district's strategist and are based on TEKS. This enables teachers to measure student's mastery of the objectives taught.**
- **At the end of the six weeks data meetings take place where teachers meet with strategists and appraisers to set goals for each classroom and student.**
- **Around this time teachers also review LAP Forms and Rti forms to adjust any accommodations in order to ensure student success for the following six weeks.**
- **Department meetings are held at least once a month to monitor curriculum's effectiveness and to offer ideas on struggling concepts.**
- **Content teachers collaborate weekly with their own grade level to plan lessons**
- **When teachers are sent to trainings they are expected to return to their department and share anything learned from the training in order to help modify instruction and introduce new ideas in the class.**

School Processes & Programs Strengths

Students with special needs and served in special population groups are offered support by a core and co-teacher in the areas of Math and Reading.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Staff attendance, retention and turnover rate: Faculty and Staff absentee rate is high especially during the 2nd semester. **Root Cause:** Lack of self-care and management of time

Perceptions

Perceptions Summary

School ?
Climate:

Ninety-four percent of the students feel positive about the school climate compared to forty-three percent of the staff. One hundred thirty-two students responded to the survey. Seventy-two teachers answered the survey.?

vision and mission alignment:

According to data from the survey completed by 135 students, a majority of students felt that they themselves, as well as their teachers, aligned with the vision and mission of the school. ?

?

Approximately **81% of students** feel that they do things daily and consistently during their school day that align with the vision and mission statements of the Sauceda Middle School. **94% of those same students** feel that their teachers promote High Academic Achievement for ALL students. ?

?

Based on a separate survey, completed by staff, **82% of participants** believe that the campus does have High Expectations of students. ?

Graph A: The data shows that staff feels respected by colleagues and students, supported by colleagues, and their attitudes do not affect their relationships with students & colleagues.?

Graph B: The data reflects that students feel respected by teachers and peers, have support from their teachers and peers, and they feel their attitudes affect their relationships with teachers and their peers.

Graph C shows how the two groups responded. Of the total students (108) participating in extra-curricular activities and are female or male feel respected by teachers and peers. Of these 108, the females feel less respected by their peers than the males do. The females also feel their attitudes affect their relationships with peers more than the males do. The females feel more supported by teachers and their peers more than the males do.

Student behaviors and discipline:

The data shows us that the number of written referrals from teachers has decreased. We can determine that student behavior has decreased in the recent years. ?

academic, behavioral, social?
extracurricular

- · 98% of students believe that the school has high expectations from them. While 81% of the staff believe the school has high expectations.?

?

- · 93% of students believe the school promotes a positive behavior. While 87% of the staff believe the school promotes positive behavior?

?

- · 94% of the students believe that the school offers a variety of extracurricular activities. While 83% of the staff believe that the school offers a variety of extracurricular activities.?

school's culture and climate:

Of 132 students surveyed:?

- 80% of students were in extracurricular activities and 20% were not. ?
- ?
- 94 % feel positive about school culture and climate while 6% feel negative about it. ?
- ?

- 91% are motivated by extracurricular activities ; 9% are not motivated ?

student ?
achievement :

The data indicates that 69 percent of the staff feel that having good classroom management reflect good grades and STAAR results.

Safe School Data:

17 Students – Under the Influence / Possession of Controlled Substance?
5 Students – Involved in student to student assault?
3 Students – Involved in student to staff assault. ?

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Technology equipment, wireless access and training for students, staff and parents are a great need.

Priority Problem Statements

Goals

Goal 1: Goal 1: D.M. Sauceda will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The campus will implement a balanced literacy program that will result in more students reading on or above grade level.

BG2 The percentage of students who achieve meets and/or masters performance level on the STAAR exam identified in the Texas State Accountability report will increase from 35% to 60%.

Performance Objective 1: Performance Objective 1: The campus will focus on instructional improvement resulting in all students meeting goals for all accountability measures. Applies to all content instructional areas - Reading/ELA, Writing, Mathematics, Science, and Social Studies. Applies to District, State (STAAR, EOC, TELPAS, PBMAS) and Federal/NCLB (AYP).

Summative Evaluation: Met Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Core Content teachers will use the district curriculum and instruction guide as their primary source of instructional direction for all subject areas. (BG2) **Strategy's Expected Result/Impact:** Increased number of students meeting or exceeding STAAR standards per core content area. **Staff Responsible for Monitoring:** Campus Principals, DEANS, Curriculum Specialists, Campus Administration **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	30%	100%	100%	100%

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Develop, implement, and monitor daily instructional schedules to ensure all subject areas are taught everyday the appropriate allocated minutes and implement and monitor required lesson plans for Reading, Writing, Math, Science, and Social Studies (BG2) **Strategy's Expected Result/Impact:** Increased student performance as measured by District and State assessments. **Staff Responsible for Monitoring:** Campus Principals, DEANS, Curriculum Specialist, Campus Administration. **Schoolwide and Targeted Assistance Title I Elements:** 2.4	30%	100%	100%	100%

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Obtain and provide program manipulatives, models, consumable, non-consumable materials (textbooks/magazines) and any other classroom instructional materials or resources for all core content areas and all student populations. Including Physical Education equipment, library resources, and media. Library Author Visit. Library T- Shirts. Supplies and materials for Robotics class. ABYDOS Writing Curriculum. Supplies for AVID students. Program software such as IXL for writing, Edusmart for Science, Reading ESL Smart, applied Computer Systems, Inc- Software needed for computer Lab Management and Instruction and any other needed computer software. Calculators for math and science classes. Laptops for student instructional use. Contracted Services for student training and development. PBIS student rewards / behavior management. (BG2) **Strategy's Expected Result/Impact:** Inventory aligned to core curriculum materials and purchase orders. Increased percentage of all students meeting District, State, and Federal Standards (STAAR, TELPAS, TPRI, Tejas Lee, & PBMAS. **Staff Responsible for Monitoring:** Campus Administration, Executive Directors, and Core Content Directors. **Schoolwide and Targeted Assistance Title I Elements:** 2.4 **Funding Sources:** - Title I (211) - 211.11.6399.00.047.24.0.00 - $12,024, - Title IV 289 - 289.11.6412.00.047.11.0.00 - $8,504, - Local (199) - $6,500, - Project Lead The Way (489) - $6,750, - State Comp.(164) - $3,627, - Teacher/Principal (255) - $2,000, - GT (168) - $2,000, - Title IV 289 - 289.11.6399.00.047.11.0.00 - $9,000				

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Provide research based staff development aligned to performance data measured by District, State, and Federal accountability indicators to include: job embedded training, response to intervention (RTI), data utilization, technology, core state adopted textbooks, supplemental programs, research based strategies for ELLs, research based instructional strategies for CCRS, classroom management, and discipline (teaching)for appropriate behavior. Consultant for Reading and Writing such as Kaye Price. Region One training, Diana Ramirez, STAAR Social Studies Training. Math Links Garland Training, RGVCTM. CAST science training, RGVSA science training, and James Madison Legacy Project Social Studies such as Margarita Calderon. AVID training/conference. Training to support librarian and aide. Ed Connective PD online training. TASSP Summer Workshop (administrators) NSTA Houston National Conference. Registration, entry fees, travel to attend and participate in professional development. Contracted services from signed interpreter. (BG2) **Strategy's Expected Result/Impact:** Professional Development Plan, training agendas, and sign-ins. Increased instructional effectiveness and student performance as measured by grades and state assessment outcomes, decreased at risk learners, decrease in referrals, and decrease in behavior referrals. **Staff Responsible for Monitoring:** Executive Directors, Core Content Directors, District Staff Development Coordinator, Campus Administration, Department Chairs, Head Teachers,Technology Director and Bilingual Director. **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** - State Comp.(164) - 164.11.6399.00.047.30.0.00 - $2,000, - Title III (263) - 263.13.6291.00.047.25.0.00 - $2,000, - Title I (211) - 211.11.6399.00.047.24.0.00 - $2,000, - Teacher/Principal (255) - 255.13.6411.00.047.24.0.00 - $2,715.50, - Local (199) - $2,800, - Teacher/Principal (255) - 255.13.6329.00.047.24.0.00 - $2,000, - Project Lead The Way (489) - $2,500, - Teacher/Principal (255) - $4,000, - Title I (211) - 211.13.6411.00.047.24.0.00 - $10,000, - State Comp.(164) - 164.13.691 - $5,000, - Title IV 289 - 289 - $3,000, - Teacher/Principal (255) - 255.23.6411.00.047.24.0.00 - $2,713

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 3: Insurance: The District will ensure that 100% of all employees, students, and facilities have insurance coverage during the full contract period.

Evaluation Data Sources: Insurance policies to employees and students.

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 4: Nursing/Health Services: The District will ensure that 100% of all students enrolled will be screened for Vision, Hearing, Scoliosis and Acanthosis Nicrigans and ensure that 100% of all student's immunizations are up to date before submitting Annual Immunization report in October.

Evaluation Data Sources: Screening report from each campus, ImmTrack2 for the immunizations, requisitions for vision and hearing.

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 5: Nutrition/Food Services: The District will provide nutritional meals to 100% of all PK3-12th grade students to support academic success.

Targeted or ESF High Priority

Evaluation Data Sources: Meals served, checking campus cafeterias from for safety & compliance of all meals prepared and served.

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 6: Student Support Services: The District will ensure our Middle School and High School students will be psychologically and emotionally served to decrease the frequency of inappropriate and disruptive behavior by 20%.

Evaluation Data Sources: LPC reports

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 7: Transportation department : 88 bus drivers will transport students each morning on time. With a goal of all students arriving 15 minutes prior to the start of instructional day, in order to serve breakfast. District GPS system will measure routes and time to campuses. The district goal is 99.8% without any incidents.

Evaluation Data Sources: Utilizing our GPS locator devices. this will be our tool to evaluate our time of location stops and measure or time of delivery of student at campuses.

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 8: Fine Arts: The District will assist teachers and students to achieve the highest level of excellence in all interscholastic competitions and increase the overall percentage of high school students on track to obtaining Arts and Humanities endorsement by 10%

Evaluation Data Sources: Professional development, Inventory reports, Lesson plans, Evaluation reports, Competition results, PEIMS enrollment reports, PEIMS endorsement reports.

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 9: Drop Out Prevention: The District will increase the attendance rate from 95.1 to 95.6 for all students.

Evaluation Data Sources: TAPR report/PBMAS

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 10: Physical Education: The District will require the Fitnessgram physical fitness assessment to be administered to 90% of all students enrolled in P.E. or course substituting for P.E. (athletics, band, ROTC) unless a student qualifies for valid exemption as per Fitnessgram testing policies.

Evaluation Data Sources: Fitness gram assessment, PEIMS enrollment schedules for PE

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 11: Advanced Academics: The District will ensure that 97% of all Gifted/Talented and students enrolled in a Pre-AP or AP courses will meet the state standards on all areas of STAAR/EOC.

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 12: Technology: Students K-12th grades will learn about digital citizenship and cyberbullying using online curriculum.

Evaluation Data Sources: Learning.com Reports and Usage

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 13: Bilingual/ESL: The District will increase the percentage of ELLs progressing one performance level to 51%, increase the percentage of ELLs reaching Advanced High within the first 4 years of enrollment in US schools to 16%, and increase the percentage of ELLs at Advanced High after the fifth year of enrollment in US schools to 30%.

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 14: Migrant: Migrant population will increase the Meets passing rate by 5% in the content areas.

Evaluation Data Sources: RDA & STAAR

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 15: Special Education: The District will improve its overall academic rating in the area of reading and writing in 2020-2021 Texas Education Agency Results Driven Accountability, by one performance level indicator.

Evaluation Data Sources: RDA & STAAR

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 16: Academics: Increase opportunities for students to participate in and out of district academic enrichment programs.

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 17: Donna ISD will increase the safety measures at each campus by upgrading the locking mechanisms for classroom doors and upgrading security measures at the entry points of campuses.

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 18: Transportation Director

Evaluation Data Sources: Fleet Vision

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 19: Fleet vision is a software system that will upgrade our inventory and communicate with our mechanic's. Our goal is to have accountability with parts being used and a faster process with handling mechanical work. Our fleet vision team has trained our bus drivers to input information using a computer and the information will give a estimated count to our inventory clerk. The information provided by the bus driver will also be relayed to our head mechanic. Work orders are then created and given to the mechanic that specializes in the area that is wrong with the school bus. Fleet Vision will help with spending and cost organization. When Fleetvision is at full used at full capacity it will change the department into a computer oriented department.

Summative Evaluation: Met Objective

Goal 7: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 20: Academic Support: Implement and monitor Positive Behavior and Intervention Supports (PBIS) throughout participating campuses to decrease student discipline by 5%.

Evaluation Data Sources: Discipline referrals
Campus counseling student progress monitoring
LPC student progress monitoring
LSSP student progress monitoring

Summative Evaluation: Met Objective

Donna Independent School District

W. A. Todd Middle School

2021-2022 Campus Improvement Plan

Mission Statement

W.A. Todd will ensure academic excellence for all students through a rigorous and supportive learning environment that provides a quality education in accordance with state and national standards.

Vision

Through reflection, hard work, and collaboration, W.A. Todd will be the middle school to attend in Donna I.S.D. due to its academic excellence and quality of instruction it provides to all its students.

Motto

"Creating a Culture of Excellence by Expecting Success"

Table of Contents

Comprehensive Needs Assessment 4
- Needs Assessment Overview 4

- Student Learning 5
- School Processes & Programs 6
- Perceptions 7

Priority Problem Statements 9

Comprehensive Needs Assessment Data Documentation 10

Goals 12
- Goal 1: W. A. Todd will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and or masters performance level the STAAR exam will increase. 13
- Goal 2: W. A. Todd will create an instructional environment that will enhance the learning and academic performance of all students and increase the percentage of graduates demonstrating college/career/military readiness. 20
- Goal 3: W. A. Todd will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, and well-maintained facilities to promote increased student achievement. 26
- Goal 4: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 33
- Goal 5: W. A. Todd will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 57
- Goal 6: Donna I.S.D. will establish a technological infrastructure that promotes communication and learning within the district and community. 66

Campus Funding Summary 68

Comprehensive Needs Assessment

Needs Assessment Overview

Needs Assessment Overview Summary

Educational needs of the students are a gradual increase for preparation for high school. Material needs are met for everyone. Building is being expanded with the addition of the new wing for 8th graders. Main building is being painted and tended to gradually to provide a safe, comfortable and enjoyable environment for students, teachers, staff and visitors.

Demographics

Demographics Summary

Todd Middle School makes attempts to stay in contact with parents and all stakeholders of our community and campus by way of Parent Center/Parental INvolvement, blackboard, and CLPAC. Increased communication between the campus and parents will be a focus.

Demographics Strengths

Todd Middle School serves a diverse group of students. We serve LEP, GT, Economically Disadvantaged, etc... Teachers at Todd MS provide a strong educational foundation that students will carry onto HS.

Problem Statements Identifying Demographics Needs

Problem Statement 1: Need ESL Math teachers and one ESL reading teacher. **Root Cause:** ESL Math teachers were disseminated to other areas leaving ESL Math students unprovided for, along with one of the reading teachers was transferred to another campus, not

Student Learning

Student Learning Summary

In order to meet the goals of the campus/district, students must be motivated to excel in their school programs and both campus and district assessments. Incentives for both individual and class achievement on intervention programs; providing transportation and snack for tutorials; admin follow up on teacher accountability; teacher and admin attendance at teacher district trainings, etc.- is needed to help motivate and ensure our students are successful with the appropriate support.

Student Learning Strengths

• A wide-range of intervention programs were provided such as: RTI, tutoring, Guided Reading, co-teachers in testing subjects and technologies programs including; Imagine Math, Istation, and MyOn.

• Our district has a vast majority of demographics that has stayed consistent and has allowed us to help predict and adjust how we teach from year to year.

• District supplied STAAR aligned curriculum and scope and sequence, weekly PLC meetings, and data talks at district and campus level to assess, respond, and reflect on the student needs based on our collected data to spiral in weak TEKS.

• Motivated teachers and positive classroom environments throughout the W.A. Todd Middle School.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Due to the larger of LEP students teachers would like additional training. **Root Cause:** Additional training on teaching ELL's learners.

Problem Statement 2: Sixth graders are struggling with the rigorous objectives of math and reading. **Root Cause:** The elementary objectives are basic.

School Processes & Programs

School Processes & Programs Summary

Instructional processes and timelines are developed during Curriculum Writing for each academic department and grade level. Teachers follow the Curriculum provided on Sharepoint.

At this point, with attrition, we are restructuring and rearranging personnel as needed within the campus as personnel leaves either to other districts or campuses.

School Processes & Programs Strengths

The lower grade levels are providing a solid foundation for success in the 8th grade. This is crucial for promotion to the high school.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Six grade core subjects need to provide more intervention instruction to solidify academic growth in 7th grade. **Root Cause:** Classroom management needs restructuring.

Perceptions

Perceptions Summary

Some stakeholders are not content with the current school environment. The data directly correlates between the number of teachers not wanting to come to school (37% sometimes or never wanting to come to work) and the number of students not wanting to come to school (41% sometimes or never wanting to come to school). In order to create an environment and culture that allows our campus to realize the maximum possible academic, social, and community success we need to focus on the following:

· Implement, and continually re-enforce the mission and vision of Todd Middle School.

· Build a culture and learning environment that aligns to the mission and vision of Todd including programs that are fun, challenging, and consistently applied.

- Have staff and admin recognize everyones contributions every day, negatively or positively, to the success of our students, and therefore comes to campus everyday ready to make a difference in the lives of our students.

· Provide constant career stimulation through challenges, training, recognition, and reward of everyone involved.

- Promoting extracurricular activities and organizations as well as creating relevant organizations may increase students' sense of belonging. When students have a sense of belonging, it translates to academic success.

- Building a Discipline Committee to focus on rethinking current practices in student discipline that lead to classroom exclusion for students, which include in-school/out-of-school suspensions. The redesign of how to handle student discipline should include the restorative justice framework along with incorporating the district focus of PBIS.

Resources used:

surveys

questionaires

interviews and feedback

Perceptions Strengths

Teachers have access to a computer throughout the day.

Overall perception of technology use is favorable.

78% of teachers like using technology to enhance lesson development and delivery.

Based on the students who completed the survey, they do not see a problem with the rules and expectations that are expected of them in the classroom, outside of the classroom, or in extracurricular activities.

Students are motivated when they use technology in the classroom, for example, just having them do Istation or MyOn (which are required by the district) on the Ipads get them engaged.

Our campus holds a rigorous and competitive athletic program for our students to compete in

Support - Almost all students felt that they had the support of their teachers. They noted that if they needed help on an assignment or tutoring, their teachers were willing to help. All teachers helped students throughout lessons and through tutoring. Students were reminded daily that if any assistance was required to please ask. Most teachers also mandated tutorials if they felt students needed of further assistance.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Accountability Distinction Designations
- Federal Report Card Data

Student Data: Assessments

- State and federally required assessment information
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- Student Success Initiative (SSI) data for Grades 5 and 8
- SSI: Istation Indicators of Progress (ISIP) accelerated reading assessment data for Grades 3-5 (TEA approved statewide license)
- SSI: Think Through Math assessment data for Grades 3-8 and Algebra I (TEA approved statewide license)
- Running Records results

Student Data: Student Groups

- Dyslexia data

Student Data: Behavior and Other Indicators

- Annual dropout rate data
- Mobility rate, including longitudinal data
- Discipline records

Employee Data

- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Budgets/entitlements and expenditures data

Goals

Goal 1: W. A. Todd will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and or masters performance level the STAAR exam will increase.

Performance Objective 1: The campus will focus on instructional improvement by carrying out data driven instruction to ensure all students reach and or surpass their expected growth.

Donna Independent School District

B.G. Guzman Elementary

2021-2022 Campus Improvement Plan

Mission Statement

Campus Mission Statement

The mission of Donna I.S.D. and B.G. Guzman Elementary is to ensure academic excellence for all students through a rigorous and supportive learning environment that provides a quality education in accordance with state and national standards.

Vision

Guzman Elementary Vision

We envision being an exemplary school staffed with highly qualified individuals working collaboratively to prepare PK-5th Grade students who will be a powerful force for positive change in our community and our world.

Core Beliefs

Motto

"Watch Us All Shine!"

Core Beliefs

1. We believe that every student can perform at or above grade level and graduate prepared for college and/or the workforce. As a result, we are determined to

- Provide a vertically aligned rigorous curriculum (PK-16).
- Provide well-planned student-centered instruction that focuses on project-based learning with real world connections.
- Provide accurate, meaningful and authentic assessment of students' mastery of knowledge and skills.

2. We believe that educators have the most powerful impact on student achievement. As a result, we are determined to

- Attract and retain highly qualified staff.
- Provide ongoing targeted staff development.
- Provide the most current research-based and state of the art instructional resources.

3. We believe that educational equity and excellence will eliminate the achievement gap. As a result, we are determined to

- Provide opportunities for every student to learn in a manner that is consistent with his/her learning style.
- Afford each student targeted instructional interventions to ensure academic success with a rigorous and relevant curriculum.
- Provide every student with equal access to outstanding, well-prepared teachers and high quality instructional resources

4. We believe that every student must be educated in a safe, welcoming, effective, and innovative learning environment. As a result, we are determined to

- Enforce the policies of the Donna Independent School District's adopted Student Code of Conduct.
- Provide security measures at all campuses to establish a learning climate of mutual respect.
- Ensure that every staff member, campus, and classroom is supportive of all students and their unique differences.

5. We believe that our school district must be a model for sound fiscal responsibility and integrity. As a result, we are determined to

- Establish policies and procedures to promote ethical practices in all areas of fiscal management.
- Provide periodic audits to ensure that all staff and outside providers are committed to following sound fiscal practices.
- Provide staff training to encourage ethical conduct and a commitment to compliance with the state and federal laws.

6. We believe that engaged parents and guardians impact a student's academic and personal development. As a result, we are determined to

- Schedule Parent Sessions to inform parents about the academic programs and instructional opportunities available to their child.
- Accommodate parents' work schedules when creating parent involvement opportunities.
- Keep parents informed of their children's performance and school activities (i.e. notes, telephone calls, newsletters, conferences, meetings, etc.).

7. We believe that a supportive community is fundamental to achieving and sustaining our success. As a result, we are determined to

- Involve community members by inviting them to serve on school and district committees.
- Develop partnerships with business, civic, and academic organization to provide opportunities for students to develop leadership and citizenship skills.
- Ensure that our community is supportive of the district's goals by informing the community of pertinent school activities and successes.

8. We believe that communication, collaboration, and coordination at all levels are essential to district success. As a result, we are determined

to

- Work as unified team to find solutions to the district's most pressing issues.
- Require that every project specify the persons responsible to facilitate proper coordination of efforts.
- Develop a communication plan for every new initiative in order to ensure that all stakeholders are well informed.

Goal 2: B. G. Guzman Elementary will create an inviting educational learning environment for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve MEETS and/or MASTERS performance level on the STAAR exam will increase. 47
Goal 3: B. G. Guzman Elementary will create an instructional environment that will enhance the learning and academic performance of all students and increase the percentage of graduates demonstrating college/career/military readiness. 59
Goal 4: B.G. Guzman Elementary will follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate and adequate resources, technology, and well-maintained facility to promote increased student achievement. 72
Goal 5: B. G. Guzman will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive all student populations. 77
Goal 6: B. G. Guzman Elementary will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 84
Campus Funding Summary 90

Comprehensive Needs Assessment

Demographics

Demographics Summary

Balthazar Gonzalez Guzman Elementary is located in Donna, Texas. B. G. Guzman Elementary is one of 14 elementary schools in Donna ISD. The student population at B. G. Guzman Elementary School is approximately 406 and serves students in grades PK-3 through 5th. According to the PEIMS Data Review of our campus profile, 353 of the student population is Hispanic, 253 are identified as At-Risk, 349 are identified as Economically Disadvantaged, 12 are identified migrant, 19 homeless, and 122 LEP.

The students of B. G. Guzman Elementary School are recipients of a well-balanced curriculum offered by our District.

The current staff at B. G. Guzman Elementary School is composed of 2 campus administrators, 24 teachers (includes Coach and Music Teacher), 1 counselor, 1 librarian, 1 Community In School staff memeber, 1 library aide, 1 secretary, 1 parent educator, 1 nurse and 1 nurse aide, 2 clerks, 3 custodians, 1 security officer and 16 educational aides.

Demographics Strengths

•Demographics Strengths
1. B. G. Guzman Elementary serves all day PK 3-5th students.
2. B. G. Guzman Elementary has after school programs. (Ex. tutorials, R.Generation Clubs, ACES afer school program)
3. Boosted technological literacy for both students, staff and family due to the constant training provided by the district.
4. Teachers communicate with parents via Class Dojo, text, phone calls, email, face to face conferences, other application. (Google meets, Zoom, Chat box)
5. Teaching personnel is 100% Hispanic.

Problem Statements Identifying Demographics Needs

Problem Statement 1: Attendance rate has decreased post COVID years. **Root Cause:** Due to COVID

Problem Statement 2: Parent involvement has decreased. **Root Cause:** Due to Covid very limited visitors can step inside campus.

Problem Statement 3: Students aren't able to interact with each other like in the past. **Root Cause:** Due to Covid

Student Learning

Student Learning Summary

Assessment tools are used to improve both teaching and student learning. For example, quizzes, tests, writing assignments, and other assessments teachers administer on a regular basis in their classrooms (Formative and Summative assessments). Also differentiating the assignments and providing hands-on activities. These are tools that B.G. Guzman Elementary has available for their students. B.G. Guzman students have shown academic gains throughout the 2021-2022 school year.

Students are broken up into five different groups ALL, Economic Disadvantage, Special Education, English Emergent, Hispanic. Students are successful with instructional supports such as accommodations through small groups, oral administration on assessments, math manipulatives, supplemental aids, and spelling assistance. Students are supported throughout activities in blended learning lessons. For example, peer guidance, teacher guidance, guided practice, hands - on activities, visual aids, and district computer programs with activities that are prescribed to individual student needs.

Student Learning Strengths

- Increased focus on data-driven instructional interventions and differentiated instruction in an effort to meet student needs and improve student performance among all low-performing groups;
- Instruction is aligned to state standards
- Instruction is aligned with assessments.
- Online STAAR practice as a whole at the computer labs.
- Intervention blocks since the beginning of school year embedded in the master schedule
- Implementation of Capturing Kids Hearts
- Implementation of Positive Behavior Intervention and Supports (PBIS).
- Early "at-risk dyslexia indicator with assessing with Amplify.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: STAAR scores for 3rd - 5th grades in all subjects tested dropped significantly compared to pre-COVID years. **Root Cause:** Teachers need to monitor students' academic growth and student attendance with fidelity. Same students were constantly absent. Parents of those students were indifferent about sending students to school on time or with frequency.

Problem Statement 2: Students deviated from district academic programs. **Root Cause:** Some teachers do not plan engaging lessons to captivate students' attention or teachers do not use Go Guardian program to monitor students when using electronic devices.

Problem Statement 3: This school year we experience a low participation of student/ parent involvement. **Root Cause:** Due to Covid and other district protocols parents and students were limited to participate in school activities.

Problem Statement 4: Students are not reading at grade level. **Root Cause:** Teachers need to plan and deliver differentiated instruction with fidelity.

School Processes & Programs

School Processes & Programs Summary

The Guzman Elementary staff works as an unified team. We do the best to ensure a successful campus, but we recognize that there is so much room for overall growth and development. With continuous collaboration and communication at all levels, our staff is focused on striving for maximum school improvement. Our goal is to increase collaboration with students and parents so that the academic achievements for each student may increase. With this in mind, all staff members work together to implement best teaching practices for students. These efforts are geared towards helping all students learn to their maximum capabilities. All teachers work together and assist one another with certain instructional strategies and the implementation of programs such as section 504, RTI program, Special Education services, reviewing and evaluating the CIP and CNA, and LPAC committee. Our reading programs help students make gains in the area of phoncis, phonemic awareness, fluency, vocabulary and reading comprehension.

In the process of monitoring and evaluating the curriculum, teachers use Eduphoria Forethought to plan their lesson plans, administrators conduct daily walkthroughs with quality feedback. Teachers used this feedback as professional development to improve their teaching practices. Teachers set their professional goals and professional development (GSPD) yearly with constant revisits throughout the year.

For the most part, parents and students have a positive perception of the campus and staff in which they feel that a safe and effective learning environment is provided. Donna ISD promotes and enforces the belief that when working together as a team, we all help maintain a safe and positive school environment for every child and staff. With school success being our number one priority, we understand the need for constant adaptation in our school system. Donna ISD works together to empower the learners and leaders of tomorrow with the intention to positively impact the world.

School Processes & Programs Strengths

- The campus uses a hiring committee composed of administrators and teachers to make hiring determination
- Professional Development is based on CIP and CNA
- All grades levels meet weekly/quarterly to discuss student data and to collaborate on lessons
- Periodically grade level meeting and CLPAC with administrators
- Teachers have access teaching resources and tools
- Class size and schedule are beneficial to maximize student learning
- Teachers use best practices to deliver lessons
- Teachers are qualified to serve our students
- Emergency classroom door lock
- Testing procedures in place (BOY, MOY, EOY, & benchmark)
- Project Wisdom is carried out daily through our morning announcements by our principal

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Teachers and staff at B.G. Guzman reach out to parents, in an effort to get them more involved. However, it is often difficult to obtain parental involvement. Increase student attendance, academic achievement, and the social/emotional well-being of the learner. **Root Cause:** Parental involvement at B. G. Guzman, tends to be low. Student involvement.

Problem Statement 2: Staff feels school back entrance is not secure and suggest automatic/electronic pad door lock for back gate entrance(safety). **Root Cause:** Back entrance is not secure and access to the school: students, parents, and staff is easily accessible.

Perceptions

Perceptions Summary

Based on data almost 86% of teachers/staff feel campus is physically is a good and safe place to work. Some of safety procedures suck as RaptorWare which scans visitors ID cards to allow them to come into the school, the placard system that is used for parents to pick up their child, key access card issued out to authorized school personnel, emergency lock system in classrooms in case of a lockdown, and camera/speaker system located at the front so that the office staff speak to visitors without the need to step outside or open door. According to school survey teachers/staff feel administrators, professional, and paraprofessional conduct themselves professionally towards students, parents, and others. The campus has several commitees that allow staff, teachers, and parents to participate in the decision making for the best interest of staff, teachers, and students. Some of these committees include Language Proficiency Assessment committee, 504 Committee, Campus Level Planning and Advisory Committe. Even though we were facing COVID parent involvement was a priority. Contest like the Pumpkin contests still took place this year. Communication with parents was still important. Messages through Classdojo, Blackboard Message system, flyers, google classroom were being sent and translated to Spanish so that everyone would receive and understand messages.

Perceptions Strengths

Safety procedures are in place to keep our staff and students safe. These procedures include:

-RaptorWare which scans visitors ID cards to allow them to come into the school.

-Placard system that is used for parents to pick up their child.

-Key access card issued out to authorized school personnel.

-Emergency lock system in classrooms in case of a lockdown.

-Camera/speaker system located at the front so that the office staff speak to visitors without the need to step outside or open door.

The campus has several commitees that allow staff, teachers, and parents to participate in the decision making for the best interest of staff, teachers, and students. Some of these committees include Language Proficiency Assessment committee, 504 Committee, Campus Level Planning and Advisory Committe.

Campus support teachers with a mentor program who have less than two years of teacher experience in the subject or grade level to which the teacher is assigned.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Student attendance has been declining post COVID years. **Root Cause:** Lack of parent support and fears to send students to school due to COVID.

Problem Statement 2: Teacher/staff retention rate has been steadily declining. **Root Cause:** Teacher and staff are in leaving the classroom or the profession to pursue career advancements, medical condition, and or retirement.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- Covid-19 Factors and/or waivers for Assessment, Accountability, ESSA, Missed School Days, Educator Appraisals, etc.
- Covid-19 Factors and/or waivers

Accountability Data

- Texas Academic Performance Report (TAPR) data

Student Data: Assessments

- State and federally required assessment information (e.g. curriculum, eligibility, format, standards, accommodations, TEA information)
- (STAAR) current and longitudinal results, including all versions
- State of Texas Assessments of Academic Readiness (STAAR) current and longitudinal results, including all versions
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Student Success Initiative (SSI) data for Grades 5 and 8
- SSI: Istation Indicators of Progress (ISIP) accelerated reading assessment data for Grades 3-5 (TEA approved statewide license)
- SSI: Think Through Math assessment data for Grades 3-8 and Algebra I (TEA approved statewide license)
- Running Records results
- Istation Indicators of Progress (ISIP) reading assessment data for Grades PK-2
- Prekindergarten Self-Assessment Tool
- Texas approved PreK - 2nd grade assessment data
- State-developed online interim assessments

Student Data: Student Groups

- Dyslexia Data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Class size averages by grade and subject

Employee Data

- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data

Goals

Goal 1: B. G. Guzman Elementary will create an inviting educational learning environment that enhances student learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards that will result in more students reading on or above grade level.

Performance Objective 1: The campus will focus on instructional frameworks to help all students meet state and local goals for all accountability measures. Applies to all content instructional areas - Reading/ELA, Writing, Mathematics, Science, and Social Studies. Applies to District, State (STAAR, TELPAS, PBMAS) and Federal/NCLB (AYP).

Evaluation Data Sources: STAAR Reading, Math, Writing, Science, RTI, TELPAS, Pre-LAS, LAS, and district benchmarks.

Summative Evaluation: Met Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: The campus will implement the district curriculum guide as their main source of instruction for all subject areas and all student populations. Teachers will implement all state-mandated TEKS as well as spiral all TEKS in the re-teach and review daily lesson cycles. **Strategy's Expected Result/Impact:** Bundle Tests, Six Weeks Tests, Weekly Assessments, Benchmark Tests, STAAR Tests, Progress Reports, Report Cards, PK-Pre/Post Tests, Guided Reading, TELPAS. **Staff Responsible for Monitoring:** Principal, Curriculum Specialist, Teachers **Comprehensive Support Strategy** **Funding Sources:** - State Comp.(164) - 164.11.6399 - $5,000, - Local (199) - 199.23.6499 - $1,130	75%	90%	100%	100%

Performance Objective 10: Improve student academic performance and enhance literacy skills by providing students with quality library skills instruction. Library program will encourage parental involvement to ensure student success. Library program will encourage literacy and celebrate student success by various means such as:
1. Expanding and updating library resources at the campus level to help support curriculum through diverse books, magazines, journals, and newspaper subscriptions.
2. Hosting literacy nights, book fairs, and author visits
3. Expanding technology awareness and introducing students and teachers to new tech resources through training and the campus website.
4. Providing students rewards/incentives every six weeks for those meeting the TOP READER goals designated by the campus library program.
5. Providing the librarian with opportunities to attend various staff development workshops and conferences throughout the year to help expand knowledge in literature, technology, acquisition, copyright laws, etc. These workshops/conferences may include Region One Fall Media Conference, Region One Spring Extravaganza, the Texas Library Association annual conference.

Evaluation Data Sources: Student population will participate in various reading programs such as Accelerated Reader (80 % participation with students earning 85% or better); Battle of the Books for elementary.

Goal 1: B. G. Guzman Elementary will create an inviting educational learning environment that enhances student learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards that will result in more students reading on or above grade level.

Performance Objective 11: Provide research based staff development aligned to performance data measured by District, State, and Federal accountability indicators to include: response to intervention, RTI, data utilization, technology, core state adopted textbooks, supplemental programs, research based instructional strategies for classroom management and discipline (teaching) for appropriate behavior.

Evaluation Data Sources: RtI minutes for SuccessED, Lesson Plans, walk-throughs, classroom visits, progress monitoring, and student academic outcomes.

Summative Evaluation: Met Objective

Goal 2: B. G. Guzman Elementary will create an inviting educational learning environment for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve MEETS and/or MASTERS performance level on the STAAR exam will increase.

Performance Objective 1: Student Support Services: The campus will ensure our elementary students will be psychologically and emotionally served to decrease the frequency of inappropriate and disruptive behavior.

Evaluation Data Sources: Analyze amount of referrals given to students throughout the campus and offer alternatives to help decrease disruptive behavior.

Summative Evaluation: Met Objective

Donna Independent School District

Truman Price Elementary

2021-2022 Campus Improvement Plan

Mission Statement

Truman Price Elementary School, in partnership with its students, families, community and Donna Independent School District, guarantees each child a superior education by providing quality instruction and challenging learning experiences in a safe an orderly environment which will foster life-long learning and responsible citizenship.

Vision

Modeling excellence and inspiring students to learn, perform, and excel.

Value Statement

1. We believe that every student can perform at or above grade level and graduate prepared for college and/or the workforce. As a result, we are determined to:

Provide a vertically aligned rigorous curriculum (PK-5)

Provide well-planned student-centered instruction that focuses on project-based learning with real world connections

Provide accurate, meaningful and authentic assessment of students' mastery of knowledge and skills

2. We believe that educators have the most powerful impact on student achievement. As a result, we are determined to:

Attract and retain highly qualified staff

Provide ongoing targeted staff development

Provide the most current research-based and state of the art instructional resources

3. We believe that educational equity and excellence will eliminate the achievement gap. As a result, we are determined to:

Provide opportunities for every student to learn in a manner that is consistent with his/her learning style

Afford each student targeted instructional interventions to ensure academic success with a rigorous and relevant curriculum

Provide every student with equal access to outstanding, well-prepared teachers and high quality instructional resources

4. We believe that every student must be educated in a safe, welcoming, effective, and innovative learning environment. As a result, we are determined to:

Enforce the policies of the Donna Independent School District's adopted Student Code of Conduct

Provide security measures at our campus to establish a learning climate of mutual respect

Ensure that every staff member, campus, and classroom is supportive of all students and their unique differences

5. We believe that our school district and campus must be a model for sound fiscal responsibility and integrity. As a result, we are determined to:

Establish policies and procedures to promote ethical practices in all areas of fiscal management

Provide periodic audits to ensure that all staff and outside providers are committed to following sound fiscal practices

Provide staff training to encourage ethical conduct and a commitment to compliance with the state and federal laws

6. We believe that engaged parents and guardians impact a student's academic and personal development. As a result, we are determined to:

Schedule Parent Sessions to inform parents about the academic programs and instructional opportunities available to their child

Accommodate parents' work schedules when creating parent involvement opportunities

Keep parents informed of their children's performance and school activities (i.e. notes, telephone calls, newsletters, conferences, meetings, etc.)

7. We believe that a supportive community is fundamental to achieving and sustaining our success. As a result, we are determined to:

Involve community members by inviting them to serve on school committees

Develop partnerships with business, civic, and academic organization to provide opportunities for students to develop leadership and citizenship skills

Ensure that our community is supportive of the district and campus' goals by informing the community of pertinent school activities and successes

8. We believe that communication, collaboration, and coordination at all levels are essential to district success. As a result, we are determined to:

Work as unified team to find solutions to the campus' most pressing issues

Require that every project specify the persons responsible to facilitate proper coordination of efforts

Develop a communication plan for every new initiative in order to ensure that all stakeholders are well informed

Table of Contents

Comprehensive Needs Assessment 5
- Demographics 5
- Student Learning 7
- School Processes & Programs 10
- Perceptions 13

Priority Problem Statements 18

Comprehensive Needs Assessment Data Documentation 19

Goals 22
- Goal 1: Truman Price Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The campus will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. 23
- Goal 2: Truman Price will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 37
- Goal 3: Truman Price will create instructional environment that will enhance the learning and academic performance of all students and increase the percentage of graduates demonstrating college/career/military readiness. 54
- Goal 4: Truman Price Elementary will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 57
- Goal 5: Truman Price Elementary will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 70
- Goal 6: Truman Price Elementary will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 91

Campus Funding Summary 94

Comprehensive Needs Assessment

Demographics

Demographics Summary

Demographic data are very important for us to understand as they are part of our educational system over which we have no control, but from which we can observe trends and learn for purposes of prediction and planning. - Victoria Bernhardt

Data Sources:

Campus Special Education Listing

Gifted and Talented Listing

Homeless/unaccompanied youth verification

LEP/BIL/ESL Listing

504 Listing

Ethnicity Counts

Student Listing by Gender

Immigrant Report

Migrant Listing

At Risk Listing

Teacher-Student Ratios

Course/Class Assignments

Findings/Analysis:

STUDENTS

The 2019-2020 Truman Price Elementary student data indicates a total enrollment of 433 students as of May 2020. Based on demographic reports, there are 213 females students and 256 males students. Of those students, 100% are Hispanic/Latino students. This year there was a decline in student population. The enrollment for the 2017-2018 school year was

525. This is an 11% decrease in student population. Students are being enrolled in IDEA schools, charters schools, and other open enrollment school districts. Of the 56 students that were lost, 85% - 90% of them attend Donna ISD schools. Most of our students come from rural areas (colonias-outside city limits).

There are 272/469 (148 males, 124 females, all Hispanic) "At Risk" students. Students identified At Risk if they are 504. recent immigrants, LEP, migrant, in the Special Education programs, homeless/unaccompanied, dyslexic, reading below grade level, and students that did not pass the STAAR assessments, students who have been retained and economically disadvantaged.

There are 10 students under the 504 program.

There are 5 recent immigrants.

There are 197 bilingual students.

There are 27 migrant students (12 boys, 14 girls, all Hispanic)

There are 28 students in the Special Education program.

There are 67 students that are homeless or unaccompanied.

There are 2 dyslexic students.

There are 17 students in the Gifted and Talented program.

STAFF

Truman Price Elementary has 9 male staff members and 52 female staff members. One staff member is identified as white and 60 are Hispanic. There are 20 para-professionals, 34 professionals, and 9 staff members are part of the custodial and cafeteria staff.

The teacher/student ratio is 22:1. The requirements for earning a teaching certificate vary by state. The process typically requires passing a battery of exams and completing an approved teacher education program, earning a bachelor's degree, and passing a background check. Teacher candidates must complete an alternative educator preparation program if they do not have a bachelor's in interdisciplinary studies. Candidates must pass the appropriate teacher certification exams, and they must submit a state application after meeting all other requirements. Teacher candidates must be fingerprinted as part of a national criminal background check.

Educational paraprofessionals are required to have at least two years of college or an associate's degree. Associate's degree programs, such as the Associates of Applied Science in Paraprofessional Education, can prepare students to play a variety of supportive roles in the classroom.

Teachers at Truman Price Elementary keep up with their GT Certification every year. Teachers are part of the DLPAC and CLPAC committees. Every year, teachers attend district trainings, TELPAS trainings, STAAR trainings and summer workshops.

Over time special programs such as 504, and RTI have gradually been successful as far as data goes. Bundle tests and STAAR scores show that some of the 504 and RTI population can pass their exams and the rest have scores that are not meeting satisfactory levels to pass, but continue to gradually progress on their scores.

In order for students to be eligible to exit special programs, students must meet certain requirements. Students who progress in their six weeks' scores, bundle exams, and are successful in Istation exams are eligible to exit from programs such as RTI. Patterns in data show that students who meet all the requirements listed above are successfully exited from special programs.

Programs available for At Risk students are ACE Programs, Migrant tutorials, 504, RTI, & Saturday Tutorials. Students are targeted by their reading levels, bundle assessment, benchmark assessment, teacher observation, & formal/informal assessments. Also used are both state and local indicators such as LEP Retention Lists, & Reading Levels.

Attendance rates are low on a daily basis. Attendances has dropped over the past several years. Interventions used to promote attendance are technology days, dances, weekly incentives, recognition daily during announcements, and parent contact by attendance clerk, teachers, & PEIMS clerk.

Demographics Strengths

- Teachers are certified by TEA.
- Most teachers are Bilingual certified.
- ELL students are provided with accommodations.
- There is staff development for teachers.
- Implementation of Priceville
- New vision for the district
- 3 year old full day program
- 4 year old full day program
- open enrollment
- We have a life skills class.
- Our school hosted A.C.E (an after-school program)
- We have a dance team.
- We have a school garden.
- Teamwork among staff members through vertical and horizontal alignment
- Teachers follow best instructional accommodations through RTI.
- Students are provided with tutorials when needed.

Problem Statements Identifying Demographics Needs

Problem Statement 1: There are not enough extra-curricular activities during the school year in which students can explore passions and interests.

Problem Statement 2: We do not provide enough opportunities for family engagement.

Problem Statement 3: There is a lack of parental involvement.

Problem Statement 4: We need to provide opportunities for GT students to be involved in more challenging activities as well as provide challenges for all students.

Problem Statement 5: We do not have a STEM/Robotics team/club.

Problem Statement 6: There are not enough engaging activities throughout the school year to involve students and provide exciting educational experiences in and out of the classroom.

Problem Statement 7: Our school data shows that daily student attendance is low.

Student Learning

Student Learning Summary

Student Learning data refers to a variety of data of student learning that is collected from multiple sources to understand students' learning needs.

Data Sources:

Student Indicator Report

Enrollment

Attendance

Survey

State Assessment Data 2018-2019 and 2020-2021

Eduphoria-Aware

Findings/Analysis:

Third Grade reading campus performance resulted in 30% satisfactory includes all students assessed.

- All third grade reading - 30%

Five out of 5 GT students met *meets standard*, while 3 out of 5 received *masters* on the reading STAAR. Nineteen out of 36 LEP students received at least *approaches*, 6 out of 36 received at least *meets*, and 4 out of 36 received *masters* on the reading STAAR. No migrant students received at least an *approaches* on the reading STAAR. Three out of 11 students in SpEd received *approaches* on the reading STAAR.

Most populations showed growth. However, the migrant population showed no growth this previous year and continues to have 0% of students passing the STAAR at an *approaches* level. There was a 1 point drop on the third grade *meets* of all 3rd grade students. However, the *masters* showed a five point increase.

3rd grade math campus performance resulted in 76% satisfactory. This includes all students assessed.

- All third grade math 76%
- GT 100%
- LEP 86%
- SpEd 64%
- Migrant 63%

Five out of 5 GT students met at least an *approaches* level, while 3 out of 5 GT students received at least a *meets* level, and 2 out of 5 GT students received a *masters* level on the math STAAR. Thirty-one out of 36 LEP students received at least *approaches*, 15 out of 36 received at least *meets*, and 11 out of 36 received *masters* on the math STAAR. Five out of 8 students received an *approaches* level on the STAAR. No migrant students received *meets* or *masters* on STAAR. Seven out of 11 students in SpEd received *approaches* on the reading STAAR.

Although math STAAR scores are higher than reading scores, there were some major drops. There was a 30% drop in all students who met the *meets* standard. This includes a 15% drop of GT students who did not meet the *met standard*. There was a 35% decrease in numbers of GT students who did not meet the *masters* standard. Sixty-three percent of

migrant students met *approaches*, but none received *meets* or *masters*.

4th Grade Data

in math: 39%

The LEP population is making a small improvement. The GT group is up to par year by year. Tutoring, small group instruction, and one-to-one instruction is beneficial for our students. Longitudinal data 2017-2018 indicates that students are being successful in writing. However, students need to be pushed more and there needs to be a strategic plan of action in order to improve math and reading. There is a slight growth from year to year. The level of rigor across the curriculum needs to be increased. Our LEP students have shown improvement. Our GT students are making projected growth. Projected TEKS were used, and each test is aligned to test standards.

5th Grade Data

Overall, Math 2020 STAAR results were at a 36%.

Based on the most recent 5th Grade STAAR data, there was an overall decrease in math and an increase in reading scores. A contributing factor the decrease in math scores can be attributed to the fact that students were taught by a substitute teacher for a brief amount of time. A permanent teacher was not introduced into the classroom until mid-October. Another factor that could contribute to the decrease is the fact that there were less students being tested overall. There was an uneven correlation between percentages across the years. The increase in reading can be attributed to consistency (same teacher) throughout the entire year.

A survey taken by teachers revealed that teachers would like training in the following:

- Google Chrome
- Microsoft Publisher
- Excel
- PowerPoint
- Publisher
- Blueprint
- Reasoning Minds
- Data retrieval for AR
- Eduphoria for T-TESS and RTI
- Smart Board Applications

Student Learning Strengths

- Above 90% of the students are proficient on Istation, Think Through Math, and MyOn
- Above 85% of the teachers are proficient in Microsoft Office

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Below 10% of the students at Truman Price Elementary are proficient in Microsoft Office.

Problem Statement 2: Below 65% of teachers know how to retrieve data from student programs (e.g. Istation and TTM).

Problem Statement 3: District wide trainings being offered have been rated ineffective because there is a lack of software, hardware, in depth-training, or do not address the needs of the students in the classroom.

School Processes & Programs

School Processes & Programs Summary

School Processes define what teachers are doing to get the results that we are getting. For example, how is reading being taught at grade two, or math at grade six? School Processes include programs, instructional strategies, and classroom practices. To change the results schools are getting, teachers and school personnel must begin to document these processes and align them with the results they are getting in order to understand what to change to get different results, and to share their findings.

Data Sources:

Findings/Summary:

At Truman Price Elementary, we ensure that all staff that is considered for a position comes with a highly qualified educational background in their area or specialty as required by federal mandates as well as is knowledgeable and touches on important elements that may be involved in their daily duties. They must possess certification in their specific grade level and carry the bilingual endorsement or certification. Applicants undergo a thorough background check through our Human Resources department to make certain that applicants have the necessary certifications before being sent to campuses to interview. Applicants undergo a ten-question interview process where a hiring committee made up of campus administrators, teachers, and other support staff use a rubric to rate applicants based on their responses. We look at years of experience, familiarity with educational programs, best practices, and other factors are also considered.

Our staff attendance rate is about 94%. The retention rate of staff members is very good. Only two teachers retired and two instructional aides for this school year.

Highly effective staff is assigned to work with the highest need students. Teachers who have had a good number of their students pass the STAAR are able to work with a smaller group of students who still have not yet passed the exam. Smaller groups are easier to work with and the teacher can target those skills not yet mastered. Those students who passed are able to participate in enrichment activities.

Currently, we do not have mentor teachers, but according to surveys teacher work collaboratively to ensure student success. New staff members are supported through grade level support, observations with feedback, and staff development.

At Truman Price Elementary we have systems in place to build capacity and support the notion of continuous improvement. These systems include the CLPAC, parent center, tutorials, assistance/mentoring from district personnel (strategists), district surveys, and staff development. Administrators use walkthroughs and student data to determine if professional development is needed for staff. Professional development is provided to staff members upon request. Collective and individual decisions regarding professional development is determined by the content and grade level that teachers are teaching, by the numbers of years of experience, by requirements for refreshers on content areas, the need for more training in technology, the number of advance students and the number of low performing/struggling students, and the number of yearly required hours. Recent professional development includes workshops for conducting MOY and EOY assessments, technology, science, SpEd/CPI, GT share fair, Child Abuse, Mental Health, and CyberBullying. The need for professional development is monitored on Strive, by school district personnel, and by campus administration.

Student learning and achievement increases when educators engage in effective professional development focused on the skills educators need in order to address students' major learning challenges. Follow-Up is one of the most important parts of making sure PD is being implemented in the classroom. Administrators make sure we are provided with feedback and assistance to help us grown in that new learning. Every teacher is expected to utilize strategies learned during professional development and show positive results. Follow ups provide consistent feedback for teachers.

In order to encourage parental involvement, we have literacy nights in which grade levels set up literacy activities in which parents are given the opportunity to interact with their children. We also have six weeks honor roll and perfect attendance parades, Donuts with Dad, Muffins with Mom, the GT Fair Share, Field Day, a Christmas program, ACE family night, parent educator sessions, and our Dance team is active in the community.

Truman Price Elementary has 1 parent representative in the CLPAC. This parent representative can speak, vote, and help the committee make decisions. Other services available to promote healthy family relationships include, SpEd symposiums, District Career Readiness Fair, Career Day at school, literacy nights, STAAR trainings for parents, parent educator trainings for parents, and fliers from the Nursing department that are created to spread awareness for certain illnesses or health conditions. We also support parents by providing fliers, notes, Black Board messages, and Class Dojo messages in Spanish. We have partnerships in the community that help us by providing physical education development games, by donating during Christmastime, by coming to make presentations during career day, by being guest speakers during literacy nights and author nights, through the ACE program, by providing donations during Thanksgiving and Relay For Life, and by assisting us in the implementation of the fresh-fruit and vegetable program.

We support students in special programs by providing services such as SpEd services, Dyslexia (Ravo) strategies, computer book programs, migrant tutoring, Lexia for ELs and RTI. A like skills class is avaialble for students with severe disabilities.

The school district does support the needs of schools as needed and within the budget, with federal and local funding. They also provide teachers with an online curriculum that offers quick and easy access to data. Professional development is available and district strategists are assigned to different campuses to assist teachers as needed.

At Truman Price Elementary the students are group by language in order to best provide EL support to students based on their needs. For example, second grade had to non-LEP classes and two bilingual classes. The students in the two bilingual classes where divided by their English language proficiency. One teacher had students who were beginners and intermediates on the TELPAS test results from the previous year. The second bilingual teacher had students who scored at the advanced and advanced high levels on TELPAS the previous year. Our class schedules allot more time for core subjects, and in order to support those subjects in which students perform poorly, we have tutorials, Istation, ACE, tutoring camps during the last month before testing, Saturday tutoring camps, and tutoring from support staff like classroom paraprofessionals, librarian, and school administrators.

Aside from district policies and mandates, school decisions are made by CLPAC members who bring information from their grade level team. Teachers may also voice opinions during staff meetings, through climate surveys, comprehensive needs assessments, and our school administration has an open door policy. These processes for decision making make it easy for every staff member to take part and be heard, making decisions and coming up with solutions to solve problems.

Teachers play an important role in deciding what assessments to use with their students. They decide whether to use an individualized approach or assess the whole group depending on the needs of the students being assessed. For example, in reading, teachers can assess students individually by conducting running records, or they may assess the whole group with exams like the ones provided by our school district every six weeks. Teachers can assign assessments through Istation and can administer weekly assessments/quizzes.

In order to monitor, evaluate, and renew the curriculum, teachers are required to attend Year at a Glance meetings at the school district. Here, teachers evaluate the effectiveness of the curriculum guide. Teachers also take part in creating the curriculum for the upcoming school year. Embedded in the curriculum are strategies for diverse learners as well as special populations. Strategists working for the district oversee the curriculum writing process and make changes as needed.

Summary of Needs:

Our campus is in need of more targeted trainings for our teachers. We need more student resources that are up to par with assessment materials. We would also benefit by having computers or other electronic devices that work properly when needed. We would benefit from having different committees such as a committee that will assist in time of crisis or emergency.

School Processes & Programs Strengths

- Our campus is very good in connecting with parents, students, and the community through meaningful activities.
- We have several teachers who do curriculum writing in the summer. This is good for our campus because we are updated with changes made to the curriculum.
- We are able to update student information or current student progress on Eduphoria. This provides teachers with immediate data
- Teachers collaborate with eah other ans share ideas and teaching skills across grade levels.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: We do not have a committee that will enable our campus to respond immediately and appropriately in a crisis or emergency.

Problem Statement 2: We need more targeted training/professional development.

Problem Statement 3: Consumables need to be updated and up to par with what is being taught and assessed on a six weeks basis.

Problem Statement 4: Too much time is spent on assessments.

Problem Statement 5: There are not enough Spanish resources as there are English resources.

Problem Statement 6: Computers do no always work needed. They should be updated periodically so that deadlines are met for student progress and assessments in Think Through Math, Istation, Reasoning Minds, TELPAS, GT testing, etc.

Perceptions

Perceptions Summary

Perceptions data help us understand what students, parents, teachers, and others think about the learning environment. Perceptions are important since people act in congruence with what they believe, perceive, or think about different topics. –Victoria Bernhardt

Data Sources:
Student Surveys
Family Surveys
Teacher/Staff Surveys
Student Discipline Incident Count Report
Student Discipline Incident Summary Report
Student Attendance Data (all tardies and absences)

Findings

To obtain the most current and accurate data, we surveyed students, families, and teachers and compared our findings across the three groups. Our survey questions measured safety, academic rigor, student support, student-teacher relationships, the physical environment, and parental involvement. Over 90 percent of our student population was surveyed, we received 28 staff surveys and 153 family surveys.

Families

Our family survey questions measured parents' perceptions of the degree to which they feel their student enjoys and is successful at school (Teaching and Learning), parents' perceptions of their student's safety at school (School Safety), parents' perceptions of the degree to which their student is supported and treated fairly by adults and peers within the school (Interpersonal Relationships), parents' perceptions of the maintenance and resources of their student's school (Institutional Environment), and parents' perceptions of the degree to which they are involved in their student's education (Parental Involvement). We had about 35 percent participation from our families with an even distribution of surveys received from each grade level.

Teaching and Learning

According to the responses, our families feel that their students enjoy school and that the teachers work hard to promote academic success for all students. Most families feel that our school sets clear rules for behavior, although, it has been recommended by the committee that school rules be clear and concise across the grade levels and posted around the school along with posters/charts that promote good behavior through positive reinforcement and reminders of incentives.

School Safety

The majority (between 75-80 percent) of families feel that their child is safe at school and going to and from school. Recommendations by families on this measure included increasing the number of security guards and providing aides on the buses.

Interpersonal Relationships

The survey data showed that there is some improvement needed in the area of interpersonal relationships. Only sixty – five to 71 percent of families responded positively to the survey questions in this subscale. According to the responses, some families do not feel that school rules and procedures are fair and some families feel that not all students are treated fairly and with respect. Some parents disagree that students are frequently recognized for good behavior.

Institutional Environment

Families agree that teachers at our school keep their classrooms clean and organized, and the school building is well-maintained. Only 3 families strongly disagreed on this measure. When survey about resources such as extra-curricular activities, 27 parents from across the grade levels feel that our school does not offer extra-curricular activities. Most of these responses were from families of students in the grades Pre-K to Second Grade.

Parental Involvement

Most families feel comfortable talking to teachers, and most feel that staff at our school communicate well with parents. Although families feel that there is good communication from staff members, more than half of the families surveyed feel that they are not actively involved in their child's school. Forty-eight percent say that they do not attend parent-teacher conferences .

Students

Our student survey questions were written to provide the school with an overall understanding of how the students perceive school climate while measuring school connectedness, school safety, school orderliness, and peer and adult relations. We had over 90 percent participation from our students in grades 1-5.

Support for Learning

Students feel supported by their teachers. They feel that the school wants for them to do well. They like their classroom, and they feel that they have the support they need for learning.

School Safety

The students feel that there are clear rules set for behavior, and most of the students say that they feel safe at school. There is improvement needed in the subscale of school safety because students feel that there is a problem with students being teased, picked-on, bullied, and/or threatened.

Interpersonal Relationships

Students feel comfortable in seeking an adult at school when assistance is needed. They feel that they are respected by staff members, but they would like more recognition from staff members for good behavior.

School Connectedness

Most students agree that the teachers have high expectations and want the students to do well. Although, despite teachers' high expectations, many students feel that they can improve on grades.

Institutional Environment

Most students feel that the school building is in good condition. They say the hallways of the school display student work, and the students like their classroom. Students would like to see more extra-curricular activities offered at our school.

Teachers/Staff

Our staff survey questions measured staff perceptions of the degree to which they feel they fit it and are a part of their school (Staff Connectedness), staff perceptions of the degree to which they feel their colleagues treat students fairly, have high expectations, and set clear rules (Structure for Learning), staff perceptions of their own safety at school (School Safety), staff perceptions of maintenance of school grounds and resources (Physical Environment), staff perceptions of how students interact with peers and adults in their school (Peer/Adult Relations), and staff perceptions of the degree to which parents are involved in their student's education (Parental Involvement). There was 100 per percent participation from teachers.

Staff Connectedness

According to the responses, our teachers/staff feel that they contribute to the success of their students. Our teachers get along well with other staff members, enjoy working in teams, and they feel that they "belong." Two teachers strongly disagree that they are supported by other teachers at our school.

Structure for Learning

Teachers at our school feel that their teaching has impacted their students positively, and their students have been successful. According to the responses most staff members feel that teachers and staff treat others fairly regardless of race, ethnicity, or culture. Staff members feel that we are successful in promoting academic success for all students. Although most teachers agree that they can handle any behavior problem, some teachers agree that there is room for improvement in classroom management. Some improvement is needed in having students and staff collectively align with the vision and mission of the school. A recommendation by the committee is to post the vision and mission of the school in areas such as the front lobby, school cafeteria, and/or displayed in the classrooms. A low scoring question/statement for us in this measure is that teachers do feel that some students demonstrate behaviors that do no allow teachers to teach and students to learn.

School Safety

Staff surveys show that staff members feel that physical conflicts among students is a problem at our school. Most staff members report feeling physically safe, and the 1-2 percent who said that they do not feel physically safe feel comfortable reporting dangerous behaviors.

Physical Environment

The majority of staff (83%) surveyed agree that the physical building is well-maintained and instructional materials are up to date and in good condition. Based on the surveys, though, there is a need for more extra-curricular activities.

Peer/Adult Relations

Teachers agree that students feel comfortable reporting a bullying incident to a teacher or staff member. Teachers agree that students at school would help another student who was being bullied. Four staff members disagree with this. Most teachers believe that students treat each with fairly regardless of race, ethnicity, culture, or academic ability and that students are respectful to one another. Eighteen percent of teachers disagree that students are respectful to one another.

Parental Involvement

According to the surveys received, there is a great need for more parental involvement. Staff members feels that there are not many parents attending meetings or parent/teacher

conferences. Parents do not frequently volunteer to help with special projects, and they do not frequently attend school activities.

Technology

Most teachers agree that they have the access to technology that they need to teach, and most teachers feel comfortable using technology in the classroom, yet teachers feel that they need more training.

Perceptions Strengths

Strengths:

- Teachers promote high standards for achievement.
- Teachers work hard to ensure student success and promote academic success for all students.
- Parents feel comfortable talking to teachers.
- Teachers keep their classrooms neat and organized.
- Teachers set clear rules for behavior.
- Peer/adult relations are strong at school.
- Teachers get along with one another and enjoy working in teams.
- Students and staff members feel safe at school.

Weaknesses:

- Parents do not consistently attend parent-teacher conferences or school activities, and there is a need for parent volunteers to help with special projects.
- There are not enough extra-curricular activities.
- Parents feel that school rules are not always fair.
- Many parents feel that students are not recognized for good behavior.
- Students feel that there is an issue with bullying.
- Students and teachers feel that there are some behavior problems that impede learning in the classroom.
- Students agree that our school has an issue with attendance and tardies.
- Teachers feel that they need more training in technology.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Parents do not consistently attend parent-teacher conferences or school activities, and there is a need for parent volunteers to help with special projects.

Problem Statement 2: There are not enough extra-curricular activities.

Problem Statement 3: Parents feel that school rules are not always fair.

Problem Statement 4: Many parents feel that students are not recognized for good behavior.

Problem Statement 5: Students feel that there is an issue with bullying.

Problem Statement 6: Students and teachers feel that there are some behavior problems that impede learning in the classroom.

Problem Statement 7: Students agree that our school (student population) has an issue with attendance and tardies.

Problem Statement 8: Teachers feel that they need more training in technology.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Covid-19 Factors and/or waivers for Assessment, Accountability, ESSA, Missed School Days, Educator Appraisals, etc.
- Planning and decision making committee(s) meeting data
- State and federal planning requirements
- Covid-19 Factors and/or waivers

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Federal Report Card Data
- RDA data
- Local Accountability Systems (LAS) data

Student Data: Assessments

- State and federally required assessment information
- State and federally required assessment information (e.g. curriculum, eligibility, format, standards, accommodations, TEA information)
- (STAAR) current and longitudinal results, including all versions
- State of Texas Assessments of Academic Readiness (STAAR) current and longitudinal results, including all versions
- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Observation Survey results
- Istation Indicators of Progress (ISIP) reading assessment data for Grades PK-2
- Prekindergarten Self-Assessment Tool
- Texas approved PreK - 2nd grade assessment data
- Texas approved Prekindergarten and Kindergarten assessment data
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically Disadvantaged / Non-economically disadvantaged performance, progress, and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- EL/non-EL or LEP data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender, etc.
- Section 504 data
- Homeless data
- Gifted and talented data
- Dyslexia Data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Violence and/or violence prevention records
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact
- TTESS data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation

- Communications data
- Capacity and resources data
- Budgets/entitlements and expenditures data
- Study of best practices
- Action research results
- Other additional data

Goals

Goal 1: Truman Price Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The campus will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 1: Truman Price Elementary will focus on instructional improvement resulting in all students meeting goals for all accountability measures.
The percentage of KG -5th students reading on or above grade level will increase each month to reach campus and district grade level goals.

Evaluation Data Sources: Imagine Reading

Summative Evaluation: Some progress made toward meeting Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Teachers will use the district curriculum and instruction guide as their primary source of instructional direction for all subject areas. **Strategy's Expected Result/Impact:** Increased number of students meeting or exceeding STAAR standards per core content area. **Staff Responsible for Monitoring:** Campus Administration **Schoolwide and Targeted Assistance Title I Elements:** 2.5 - **TEA Priorities:** Build a foundation of reading and math	35%	50%	70%	

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Develop, implement and monitor daily instructional schedules to ensure Reading taught everyday at the appropriate allotted minutes. Also, implement and monitor required lesson plans for Reading, ELA, SLA, and Writing and ensuring that students' reading levels are targeted through differentiated instruction and grouping. **Strategy's Expected Result/Impact:** Increased student performance as measured by District and State assessments. **Staff Responsible for Monitoring:** Campus Administration Teachers **Schoolwide and Targeted Assistance Title I Elements:** 2.5 - **TEA Priorities:** Build a foundation of reading and math	45%	60%	70%	

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Obtain and provide instructional materials, including resources, technology, student head phones, classroom consumables, non-consumable materials, teacher supplies, campus supplies, and instructional field trips for ELA and all student populations. **Strategy's Expected Result/Impact:** Inventory aligned to core curriculum materials and purchase orders. Increased percentage of students meeting or exceeding District, State, and Federal standards. **Staff Responsible for Monitoring:** Campus Administration Computer Lab Manager **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** - Title I (211) - 211.11.6399.00.103.24.0.00 - $2,500, - Local (199) - 199.11.6399.00.103.11.0.00 - $5,000, - State Comp.(164) - 164.11.6399.00.103.30.0.00 - $3,000	30%	60%	75%	

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Provide/attend research based staff development and training aligned to performance data measured by District, State, and Federal accountability indicators to include: job embedded training, CAST conference, ABYDOS conference, response to intervention (RTI), data utilization, technology, core state adopted textbooks, supplemental programs, research based instructional strategies for CCRS, classroom management and discipline (teaching) for appropriate behavior. Teachers will attend training's/conferences to enhance their core area instruction. Counselor will attend annual TCA conference. Administrators will attend TASA, TEPSA conference in the summer. Campus Administration and Counselor will attend professional development opportunities at Region One. **Strategy's Expected Result/Impact:** Professional Development District Plan, teacher portfolios, training agendas, sign-in sheets and increased instructional effectiveness and student performance as measured by grades and state assessment outcomes. **Staff Responsible for Monitoring:** Campus Administration Campus Counselor Teachers **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** - Title I (211) - 211.13.6239.00.103.24.0.00 - $2,000, - Title I (211) - 211.31.6239.00.103.24.0.00 - $300, - Teacher/Principal (255) - 255.23.6411.00.103.24.0.20 - $3,000, - Title I (211) - 211.31.6411.00.00.103.24.0.00 - $110, - State Comp.(164) - 164.13.6411.00.103.30.0.00 - $500	20%	25%	60%	

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Support struggling readers by improving interventions, resources, training, and tracking those interventions in documented meetings, lessons, parent contacts, team meetings, data analysis, and revolving follow-up. **Strategy's Expected Result/Impact:** Decrease the number of struggling students requiring intervention. **Staff Responsible for Monitoring:** Campus Administration Teachers Support Staff **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6				

Strategy 6 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 6: Implement district initiatives such as Guided Reading, 5E Model, Anchor Charts, Word Walls, Vocabulary Development, Interactive Notebooks, Literacy Stations, technology, journals, Imagine Reading & Literacy, Imagine Math, Accelerated Reading, Student Portfolios, MyOn, STEMScopes, Reasoning Minds, Reading A-Z, Abydos, DLM Kits, Sing, and Sheltered Instruction and College Readiness Activities. **Strategy's Expected Result/Impact:** Walk-throughs, observations and increased student student performance as measured by District and State Assessments. **Staff Responsible for Monitoring:** Campus Administration Teachers **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6				

Strategy 7 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 7: Develop, implement, and monitor a literacy plan where every student is provided the support, personalized instruction, and resources to guarantee reading on level or make a 2 years growth in reading level if a student is below grade level. **Strategy's Expected Result/Impact:** Reading levels and STAAR academic assessments **Staff Responsible for Monitoring:** Campus Administration Teachers **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6				

Strategy 8 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 8: Develop a campaign to encourage students to be present at school regularly and stay in school through enhanced attendance efforts. Incentives will be provided for students who meet attendance goals twice per six weeks. End of year field trip for students who maintain perfect attendance for the year. **Strategy's Expected Result/Impact:** Texas Academic Performance Report, daily attendance percentages will increase, purchase orders will reflect incentives. **Staff Responsible for Monitoring:** Campus Administration Attendance Helper PEIMS/Attendance Clerk Teachers Attendance Committee Members **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** - Local (199) - 199.11.6498.00.103.11.0.00 - $700, - Local (199) - 199.11.6499.00.103.11.0.00 - $314, - Title I (211) - 211.11.6499.00.103.24.0.00 - $500	30%	45%	60%	

Strategy 9 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 9: Ensure the District's research based program is implemented, supported and monitored for ELL's needs to have a positive impact in all content areas. **Strategy's Expected Result/Impact:** ELL's will progress one proficiency level or more on TELPAS state assessments. **Staff Responsible for Monitoring:** Campus Administrations Teachers **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	25%	45%	70%	100%

Strategy 10 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 10: Students and parents will be provided with cultural experiences and celebrations. The campus will celebrate student successes and accomplishments through six week's parades, festivals, literacy fairs, parades, and presentations by accomplished authors. Celebrate drug prevention week by bringing in guest speakers. Transportation will be funded via student activity account. Student will pay for entry fee. The campus will host Career Day to ensure Students are exposed to the various professions and outcome of staying in school and being successful. **Strategy's Expected Result/Impact:** Increased student performance as measured by District and State assessments. **Staff Responsible for Monitoring:** Campus Administration Counselor Teachers Librarian Secretary **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** - Title IV 289 - 289.31.6291.00.103.11.0.00 - $400, - Title IV 289 - 289.31.6299.00.103.11.0.00 - $600, - Title IV 289 - 289.31.6499.00.103.11.0.00 - $668, - Local (199) - 199.31.6498.00.103.99.0.00 - $104	30%	45%	55%

				Budgeted Fund Source Amount	$52,650.00
				+/- Difference	$14,150.00
				Grand Total Budgeted	$150,558.00
				Grand Total Spent	$124,385.21
				+/- Difference	$26,172.79

Donna Independent School District

A.M. Ochoa Elementary

2021-2022 Campus Improvement Plan

Mission Statement

The administration and staff at Ochoa Elementary will establish an environment of learning shaped by our school's culture and will inspire personal growth and success by giving students the skills needed to endure our evolving society and the knowledge that the education they chose to receive has the power to transcend the limits the world has set.

Vision

The vision of Ochoa Elementary is for *ALL STUDENTS* to reach the highest level of academic success through a rigorous and supportive academic learning environment that provides the highest quality education aligned with state and national standards.

Value Statement

We believe that every student can perform at or above grade level and be prepared for the future.

- Providing a vertically aligned rigorous curriculum
- Providing well planned student-centered instruction focused on real world connections.
- Provide meaningful, and authentic assessments for student mastery.

We belive that every student must be educated in a safe, welcoming,effective learning enviroment:

- Enforcing the campus procedures and class expectations
- Providing safety measures to establish a safe learning climate of respect
- Ensure that every staff member,and classroom is supportive of all students needs

We believe that engaged parents impact student's academic and personal development:

- Schedule Parent involvment meetings at convient times
- Keep parents informed through a variety of information systemts(Facebook, Twitter...)
- Accmadate parents work schedules to create better oppurtunities for parental involvement.

Priority Problem Statements 18

Goals 19
- Goal 1: *A.M. Ochoa Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. 20
- Goal 2: *A.M. Ochoa Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 44
- Goal 3: *A.M. Ochoa Elementary will create an instructional environment that will enhance the learning and academic performance of all students and increase the percentage of graduates demonstrating college/career/military readiness. 48
- Goal 4: *A.M. Ochoa Elementary will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 50
- Goal 5: *A.M. Ochoa Elementary will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 61
- Goal 6: *A.M. Ochoa Elementary will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 69

Campus Funding Summary 73

Comprehensive Needs Assessment

Demographics

Demographics Summary

Demographics Data

Question 3: How has the enrollment changed over the past three years?

Strengths: Stability in professional staff has remained consistent throughout the years. Students getting instruction in behavior unit are producing more class work.

Needs/Weakness: Family mobility rate. Resources for behavior unit need to be allocated for student success.

Summary:

Our total membership enrollment numbers for the past three years has fluctuated. They are as follows:

2016 = 471 2017 = 436 2018 = 510 2019 = 435 Currently (4/22/20) = 419

Our enrollment has varied due to fluctuating numbers in: District transfers (15) Out of district transfers (8) Open enrollment (4)

The mobility rate in our area is great, this is due to the amount of rental properties in our zoned area.

Families have been moving to other locations because they have found better housing opportunities. We did add a behavior unit to our campus. In doing so, our enrollment number did go up.

Question 6: What does the data regarding students who exit from special programs indicate? How many? Who are they? What trend or pattern do we see?

Strengths: 17 out of 27 teachers are Bilingual Certified.

Donna ISD offers Bilingual Certification trainings thru Region One and other agencies.

RTI, guided reading and instructional interventions demonstrate a supportive learning environment.

Needs/Weakness: We need to continue to close the language gap in our bilingual students. Staff needs to attend bilingual trainings offered by the district. There is a need to attend trainings and implementation of a range of collaborative learning and differentiated instructional models for teachers.

Summary: There were zero (0) LEP exits**.** In the area of SPED/504 exit, there were 3 total students. The three students were2 male students who qualified for sped services and 1 female student whose parents felt she did not need 504 accommodations anymore (parent denial). Our findings indicated zero (0) students exited from SPED. In the area of RTI there was one student (1) who qualified for sped services (male student) three (3) who met exit criteria. The trend is that a small percentage exits the above programs each year.

Question 9: What is the mobility rate for this campus? What is the stability rate? How are these numbers represented for Migrant students?

Strengths: Highly qualified teacher. Teachers are GT certified.

Needs/Weakness: Student mobility rate (rental homes, moving to other surrounding campuses such as: LeNoir, IDEA, districts).

Summary: The teachers employed at our school are all highly qualified teachers. Most of the teachers are bilingual certified as well. Teachers are GT certified, with the exception of one teacher at A.M. Ochoa Elem. We all are required to attend a yearly 6 hr. GT Training that our district provides.

One of our needs is maintaining student ratio on our campus. Our student mobility rate fluctuates. Our total membership enrollment numbers for the past three years have fluctuated: 2019= 435; 2018 = 510; 2017 = 436 and 2016 = 471. Our current enrollment is 419 as of (4/22/20).

As a committee, we had staff answer 2 questions to help address this issue last school year 2018-2019:

1. What ideas do you have to recruit/keep students at this campus?

2. How do we go about implementing your ideas based from question 1?

1. Ideas to recruit/keep students:

--Continue with incentives/rewards for students

--Celebrate their achievements

--Offer after school activities

- Clubs that students could be a part of

--Focus on building a positive school/community relationship

--More parental involvement

This was also something that was put into practice this year and we received positive feedback. In response, we decided to continue with this procedure since we saw improvements.

2. To implement these ideas we need to start at the beginning of the year by:

--Motivating the staff, parents, and students.

--To start the clubs we need to be able to have supplies/materials to have students engaged and participate in.

--Parent contact is crucial as well.

We plan on using social media to keep parents informed through:

Facebook, Twitter, Class Dojo.

(This year was different due to COVID-19; we had to look for online ways of communication with parents and students. The entire staff had to use different online apps to communicate. Apps such as Dojo, Edmodo, Google Voice, and Google Classroom were utilized.)

We implemented these goals this year and concluded that we will continue with the same goals for next year 2020-2021.

Question 12: What are the teacher/student ratios? How do these ratios compare to performance? (*Student learning)

Strengths: All teachers hold a Texas Teacher certification and have been GT trained. Teachers attend a yearly 6 hour GT updates. Teacher and Coaches attend CPI trainings.

Needs/Weakness: Teacher assistant schedules could be modified/flexible in order to assist upper grades with small groups during guided reading. There is a need for a greater cultural awareness and diversity training (Struggling,SPED,Discovery Unit students) to ensure a supportive learning environment for all staff.

Summary: The average ratio varies by grade level. They are as follows:

Pre-K has 39 students to 2 teachers (2 teacher assistants)

Kinder has 48 students to 3 teachers (3 teacher assistants)

1st grade has 68 students to 3 teachers (1 teacher assistant)

2nd grade has 58 students to 3 teachers

3rd grade has 67 students to 3 teachers

4th grade has 60 students to 4 teachers

5th grade has 82 students to 4 teachers

Life Skills has 12 students to 1 teacher (2 teacher assistants)

Discovery Unit has 6 students to 1 teacher (3 teacher assistants)

Special Education Inclusion has 19 students to 1 teacher (1 teacher assistant)

Music has 422 students to 1 teacher

P.E. has 422 students to 1 teacher (1 teacher assistant)

Each grade level has students who may be struggling with reading or may be reading below grade level. It would benefit the students if they were to work in small groups with the teacher and a teacher assistant during guided reading. If teacher assistants had a flexible schedule to help in the area, the students will be successful. Teachers and teacher assistance would benefit from cultural awareness and diversity training (SPED/Discovery Unity students) to be able to meet the needs of all students.

Question 13: What are the teacher qualifications, certifications, etc.? Paraprofessionals?

Strengths: All 27 teachers hold a Texas Teacher Certification. Teachers attend yearly 6-hour GT updates. 17 out of 27 are Bilingual Certified. 4 teachers hold a Master's degree.

Donna ISD offers teachers training for bilingual certification thru Region One and other agencies.

Needs/Weakness: District needs to continue providing educational support for teachers throughout the year. The district also needs to continue providing tutorials for teachers and

teacher assistants who are trying to obtain their bilingual certification.

Summary: At our school we currently have 27 teachers. All 27 teachers are certified, and 17 of them are Bilingual Certified. From the 27 teachers, 4 have a Master's degree. All the Para-Professionals are Texas Certified Teacher Aides. One teacher assistant holds a Texas Teacher Certification. One teacher assistant holds a TEFL (Teaching English as a Foreign Language) Certification.

Demographics Strengths

- Stability in professional staff has remained consistent throughout the years. Students getting instruction in behavior unit are producing more class work.
- 17 out of 27 teachers are Bilingual Certified. Donna ISD offers Bilingual Certification trainings thru Region One and other agencies. RTI, guided reading and instructional interventions demonstrate a supportive learning environment.
- Highly qualified teacher. Teachers are GT certified.
- All teachers hold a Texas Teacher certification and have been GT trained. Teachers attend a yearly 6 hour GT updates. Teachers and Coaches attend CPI trainings.
- All 27 teachers hold a Texas Teacher Certification. Teachers attend yearly 6-hour GT updates. 17 out of 27 are Bilingual Certified. 4 teachers hold a Master's degree. Donna ISD offers teachers training for bilingual certification thru Region One and other agencies.

Problem Statements Identifying Demographics Needs

Problem Statement 1: Our enrollment has varied due to fluctuating numbers: **Root Cause:** The mobility rate in our area is great, this is due to the amount of rental properties in our zoned area. Families have been moving to other locations because they have found better housing opportunities. We did add a behavior unit to our campus. In doing so, our enrollment number did go up.

Student Learning

Student Learning Summary

Administrators and teachers evaluate student achievement data by analyzing and evaluating state testing data results reports using Aware. Teachers desegregate student data to identify the strengths and weaknesses of students to determine specific concerns and areas of need.

Question #3: What does the data indicate when disaggregated by ethnicity, gender, socioeconomic status, special program, or other category?

- In K-2nd grade reading there were slight decreases in most of the categories except Kinder English reading which had significant increases in all categories and in all populations. There were slight increases in K Spanish and first reading for the Economic Disadvantage and LEP population.
- In PK-2nd grade math significant increases in PK and Kinder SPED for all categories, although there were no LEP in the PK English math and no SPED in either PK class. In K and 2nd there were slight increases for the meets and masters categories. In the approaches for K-2nd there was a slight decrease and a slight decrease in all of 1st grade categories except LEP population with the meets and masters and the SPED population for the masters.

Question #4: In which areas are we showing growth? At what rate? Compared to which standard of achievement?

Important Factors When comparing STAAR test, by TEST as a school.

1) 2019 School did not have a set Administrator.

2) 2019 3 students with BIA's, creating unstable classrooms, One in 2nd grade and 2 in 3rd grade.

3) 2019 2nd grade class 1 teacher has left after 1st semester and students are left with permanent sub for most of 2nd semester. This same class went without a permanent teacher for 6 weeks of Pre-Kinder when they went through that grade.

4) 2020 3 students with BIA's 1st Semester. Students in class with a student with BIA expressed fear of being in class.

5) 2020 Discovery unit started 2nd semester creating a distraction to instruction in surrounding classrooms.

6) 2020 total number of students has increased by 10.

As a school we struggle more with reading than math. Science seems to be doing well. Writing is holding its own even when students come in with minimal to no writing instruction. Special Education needs to change, no growth is noted.

Imagine Math

1) Average total math time (HH:MM) of 206 students enrolled

11:43 at school / 00:36 at home/ 12:19 average

2) Student performance

Below grade level 58%

On grade level 62%

Istation: Pre-K they all start even across the levels for the most part. Reading starts to climb by Kinder. There is a significant drop in 1st grade ,2nd grade starts to show gain, 3rd drops a little, 4th grade got 100% Tier 1, 5th grade got high results as well.

Istation Assessment completion to March 2020: Assessment completion to March (only 87% of students assessed) Passing Indicates Pre-k had 100%, Kinder 96%, 1st Grade 97%, 2nd grade 96% , there was a drop in 3rd Grade 71% (May have something to do with behavior problems 3rd Grade had this year, also one class lost a teacher ½ the year last year) 4th grade 74% (This class had the major behavior problems with 2 BIA's most of 1st Semester) 5th grade went up to 84%. Attendance in the higher-grade levels may also be an issue.

Rate of improvement in Istation: Data shows we are showing high progress in the two lowest levels in I station (Level one high progress 26 students, level 2 high progress 30 students) Moderate progress in level 3-5 for tier 1.(Level 3 moderate progress 23 students, Level 4 moderate progress 21 students, level 5 moderate progress 24 students) All areas show progress.

Questions # 9 & #10: **What does the data indicate when disaggregated at various levels of depth? Which students are making annual progress? Which ones are making projected growth? Who are these students? How does this data compare across programs, content areas, subgroups, etc.?**

When the data is disseminated at different levels of depth we can clearly see where the gains are being made and where help is needed.

3rd grade Reading

In 3rd grade Reading, there was a decrease in all areas from 2018 to 2019. In the approaches there was a decrease of -17%, decrease of -5% in the meets, and a decrease of -13% in the masters area.

- The student population that showed an increase of 100% in the 3 domains was the Gifted and Talented students.
- On the other hand the LEP, Migrant, and Special Education special pops showed a decrease.
- LEP population showed a decrease of -12 in approaches, -3 in the meets, and -10% in the masters.
- Migrant population showed a decrease o f-47 in approaches, -60 in the meets, and -60% in the masters.
- Sp Ed population remained the same in the approaches and meets, but showed a -50% in the masters.

From 2018 to 2019 there was a decrease of 19 students in the grade level.

The benchmark exam was taken in February 2020. It shows little to no progression, the number of students stayed about the same as last school year. It is evident that we need to continue to provide interventions to our special population groups. Please keep in mind that this was taken 2 ½ months before the actual STAAR. Due to the COVID-19 the 2020 STAAR was cancelled.

4th grade Reading

From 2018 to 2019 there were small decreases in all areas. In approaches there was a decrease of -6%, a decrease of -8% in meets, and a decrease of -9% in masters.

- Gifted and talented students decreased in the meets and masters from 2018 to 2019
- The number of LEP student's population increased from 2018 to 2019. There was an increase of +5 in the approaches, a decrease of -2% in the meets, and a decrease of -3% in the masters.
- The migrant population remained close from year to year, there was an increase of +50% in approaches, there was no change in the meets, and a decrease of -50% in the masters.
- The special population showed a decrease of -28% in approaches, a decrease of -11% in meets, and the masters remained the same at 33%.

The benchmark exam was taken in February 2020. The scores are about the same when compared to the 2019 STAAR. Please keep in mind that this was taken 2 ½ months before the actual STAAR. Comparing this data to the previous Benchmark data, the gains are evident. A 10-20% increase is expected from the Benchmark to the real STAAR, due to the COVID-19 the 2020 STAAR was cancelled.

5th grade Reading

5th grade reading is the grade level that outperformed the others. From 2018 to 2019 there were significant gains in the meets and masters groups. In 2019 STAAR there was a small decrease of -4% in approaches, a gain of +5% in the meets, and a significant gain of +10% in the masters.

- Gifted and Talented students remained the same in the approaches at 100%, There was an increase of +14% in meets, and an increase of +57% in the masters.
- The LEP students showed gains in the approaches and meets areas with +10% in the approaches and a +8% in the meets. There was a decrease of -2% in the masters.
- The migrant population remained the same in approaches at a 100% passing. It showed a -17% in the meets, but showed a +17% in the masters.
- In the special education population there was a decrease of -16% in the approaches group, an increase +14% in the meets and an increase of 11% in the masters.

The benchmark exam was taken in January 2020. The scores are about the same when compared to the 2019 STAAR. Please keep in mind that this was taken 3 months before the actual STAAR. Comparing this data to the previous Benchmark data, the gains are evident. A 10-20% increase is expected from the Benchmark to the real STAAR, due to the COVID-19 the 2020 STAAR was cancelled.

4th grade Writing

From 2018 to 2019 there were small decreases in the approaches and meets areas. In approaches there was a decrease of -11%, a decrease of -8% in meets, and the masters percentage stayed the same.

- The gifted and talented population remained the same in the approaches level at 100%. There was a decrease of -14% in the meets area and an increase of +53% in the masters.
- The LEP population showed increase in all areas; there was an increase of +6% in the approaches, an increase of +7% in the meets, and an increase of +5% in the masters.
- In the Migrant population there was a small decrease. The approaches area remained the same at 100% in the approaches, there was a decrease of -50% in the meets, and masters remained the same at 0% passing.
- The Sp Ed population showed a decrease of -23% in the approaches, meets remained the same at 0% passing, and a decrease of -11% in the masters.

The benchmark exam was taken in January 2020. The scores are about the same when compared to the 2019 STAAR. Please keep in mind that this was taken 3 months before the actual STAAR. Comparing this data to the previous Benchmark data, the gains are evident. A 10-20% increase is expected from the Benchmark to the real STAAR, due to the COVID-19 the 2020 STAAR was cancelled.

ELAR Summary

In summary, there was little to no progress from 2018 to 2019 STAAR, with the exception of 5th grade. The most notable decline was in 3rd grade Reading, the population that showed the most regression was the bilingual group. The GT population has been showing consisted increase throughout the years. In 4th and 5th grades the bilingual students have been showing a steady increase. Special Education population fluctuates between grades, but for the most part it's a decline in all 3 grades.

Overall we are seeing a small increases throughout the different populations. It is evident that we must continue providing sheltered instruction and accommodations to our bilingual students. We must continue with targeted interventions in order for students to continue to grow academically.

3rd Grade Math

2018 3rd grade Math STAAR vs. 2019 3rd grade Math STAAR

In 3rd grade math, there was an overall decrease from 2018 to 2019 STAAR scores. There is a 15% decrease in approaches. There is an 8% decrease in meets. There is an 8% decrease in masters.

- GT remained the same at 100% approaches and meets. GT decreased 10% in masters.
- LEP decreased 8% in approaches, increased 4% in meets and decreased 6% in masters.
- Migrant decreased 13% in approaches, decreased 80% in meets and 60% decrease in masters.
- SpEd decreased 38% in approaches, stayed the same at meets and decreased 50% in masters.

2019 3rd grade Math STAAR vs. 2020 3rd grade Math Benchmark

In 3rd grade math, there was a 11% increase in approaches, 5% increase in meets and a 3% decrease in masters.

- GT remained the same at approaches, decreased 25% in meets and 25% decrease in masters.
- LEP decreased 5% in approaches, 9% in meets and 100% in masters.
- Migrant decreased 42% in approaches, increased 25% in meets and remained the same in masters.
- SpEd decreased 100% in approaches, and remained the same in meets and masters.

4th Grade Math

2018 4th grade Math STAAR vs. 2019 4th grade Math STAAR

In 4th grade math, there was an overall decrease from 2018 to 2019 STAAR scores. There is a 29% decrease in approaches. There is a 23% decrease in meets. There is a 10% decrease in masters.

- GT remained the same in approaches, increased 12% in meets and remained the same in masters.
- LEP decreased 26% in approaches, decreased 16% in meets and decreased 9% in masters.
- Migrant remained the same in approaches, increased 50% in meets and 100% in masters.
- SpEd decreased 23% in approaches, stayed the same at meets and decreased 11% in masters.

2018 4th grade Math STAAR vs. 2020 4th grade Math Benchmark

In 4th grade math, there was a 2% decrease in approaches, remained the same in meets and a 5% decrease in masters.

- GT remained the same in approaches and meets and increased 50% in masters.
- LEP increased 1% in approaches, decreased 5% in meets and decreased 5% in masters.
- Migrant decreased 100% in approaches, meets and masters.
- SpEd remained the same in approaches and meets and decreased 100% in masters.

5th Grade Math

2018 5th grade Math STAAR vs. 2019 5th grade Math STAAR

In 5th grade math, there was a 4% decrease in approaches, 5% increase in meets and a 10% increase in masters.

- GT remained the same in approaches, increased 14% in meets and increased 57% in masters.
- LEP increased 10% in approaches, increased 8% in meets and decreased 2% in masters.
- Migrant remained 100% in approaches, decreased 17% in meets and increased 17% in masters.
- SpEd decreased 16% in approaches, increased 14% in meets and increased 10% in masters.

2019 5th grade Math STAAR vs. 2020 5th grade Math Benchmark

In 5th grade math, there was a 23% decrease in approaches, 7% decrease in meets and a 8% decrease in masters.

- GT remained the same in approaches, increased 14% in meets and increased 4% in masters.
- LEP decreased 42% in approaches, 16% in meets and 2% in masters.
- Migrant remained the same in approaches, increased 50% in meets and decreased 100% in masters.
- SpEd decreased 100% in approaches, meets and masters.

Math Summary

In summary, while there have been little spurts of progress from 2018 – 2020, there remains a steady decline especially in the special populations for 3rd – 5th grade Math. 3rd Grade GT and all 3rd – 5th grade Migrant students have had small increases that will decrease following years. SpEd students have had a steady decline throughout all 3 grade levels in the subject of math. Only 4th and 5th grade GT students have had a constant increase throughout all 3 years.

5th grade Science

In 5th grade Science, there was a increase in all areas from 2018 to 2019. In the approaches there was a increase of +3%, an increase of +21% in the meets, and an increase of +8% in the masters.

- The Gifted and Talented remained the same in the approaches at 100% passing; increase +17% in the meets, and an increase +45% in the masters.
- The LEP population showed a decrease of -5 in the approaches, an increase of +20% in the meets, and an increase of +2% in the masters.
- The Migrant population showed an increase in all domains, +33% in approaches, +67 in the meets, and a +17% in masters.
- The Special education populations showed an overall decrease; -3% decrease in the approaches, meets remained the same at 0%, and -9% decrease in the masters.
- From 2018 to 2019 the number of students remained about the same.

The benchmark exam was taken in February 2020. It shows regression as opposed to the previous year., the number of students increased. The student population that showed the most regression was the GT, LEP, and Sp.Ed population. Please keep in mind that this was taken 2 ½ months before the actual STAAR. Due to the COVID-19 the 2020 STAAR was cancelled.

Question #12: **How is the data used to inform curriculum, instruction, and assessment decisions?**

Teachers and administration use all data collected through Istation, Imagine Math, Science Stemscopes, district benchmarks, and STAAR to properly progress monitor students' performance. When disaggregated, all data can be used to identify patterns in student learning. By doing so, teachers and administrators are able to focus on areas of needed development at the individual level and allows the campus to plan accordingly to better serve each student.

Student Learning Strengths

- There were slight increases in Kinder Spanish and First grade reading for the Economic Disadvantage and LEP population.
- In PK-2nd grade math significant increases in PK and Kinder SPED for all categories, although there were no LEP in the PK English math and no SPED in either PK class. In K and 2nd there were slight increases for the meets and masters categories.
- Istation: Data shows we are showing high progress in the two lowest levels in I station, Moderate progress in level 3-5 for tier 1. Level 3 moderate progress, Level 4 moderate progress, level 5 moderate progress. All areas show progress.
- Imagine Math: Student performance Below grade level 58% and on grade level 62%
- ELAR: GT students are being successful. Teachers are up to date with the new TEKS. Bilingual students are showing increase in 4th and 5th (helps with accountability).
- Science: GT and migrant populations are doing very well, percent passing is consistent through years and masters level increased.
- Math: Only 4th and 5th grade GT students have had a constant increase throughout all 3 years.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: There is a decrease in benchmark scores, reading levels and math scores ranging from PreK-4th grade **Root Cause:** Students need supports put in place for test prep and closing performance gaps when transitioning to a testing grade level; Students are lacking many fundamental skills, such as fluency, decoding, comprehension, and reading stamina; The TEKS are not being addressed to the extent needed for students to show success and teacher may have ineffective procedures in place.

Problem Statement 2: Tutors will be hired to increase levels of achievement on state assessment tests for 3rd, 4th, and 5th grades.

School Processes & Programs

School Processes & Programs Summary

Personnel-Policy and Procedures:

80. What is the process for recruiting and retaining high quality staff? (Explain the recruitment, hiring, placement, development, evaluation, and advancement of high quality staff, including highly qualified paraprofessionals.)

The school district allows employees or applicants the opportunity to apply for open professional positions, and posts notices of job vacancies in the district's website or through Region One Education Center. The school has a committee which consists of the principal, curriculum specialist, counselor, 2 teachers and/or librarian for the hiring of job vacancies that are needed. The principal and curriculum specialist assign a mentor to guide, share skills, knowledge, and expertise. The school district uses the T-TESS which is a new teacher evaluation system designed to support teachers in their professional development and help them grow and improve as educators.

Professional Practices:

81. What is planned for professional development? Describe how professional development is planned and the current impact it provides.

Professional development helps us improve our skills and, in turn, we boost student outcomes. The district provides planning days, professional development days, and after-school trainings. The district also has several instructional strategists for each core subject to provide teachers with support, guidance, and new developments to improve student experiences and student achievement. In some instances, there are Region-One presenters and other consultants to help us enhance or better our teaching to have the best student achievement.

82. How are decisions made in our district? Describe how PLCs or other leadership groups participate in decision-making.

Decisions in our district are made by a board of trustees that oversee the management of the district and ensure that the superintendent implements and monitors plans, procedures programs and systems to achieve appropriate, clearly defined, and desired results in the major areas of district operations. Continuous communication between administration, staff and parents, teachers can contribute to the improvement of student success through the DLPAC, CLPAC, grade level meeting, head teacher meeting, staff meetings, and email.

87. Is the campus focused on improving student academic achievement? Is there a sense of urgency and strong commitment? What processes are in place to ensure that the daily demands of the campus do not overshadow a focus on improvement?

The campus has always been focused on improving student academic achievement, but there is a sense of urgency and strong commitment due to the fact of our D-Rating. Ochoa Elementary has a team composed of lead teachers PK to 5th called the Campus Leadership Team. The team along with the principal, curriculum specialist, and counselor identifies areas of need and improvement and strengths and growth. Each person contributes and many ideas have been implemented at Ochoa. In the group the PLC agenda form was elected and the standard of meeting once a week about student performance and how better to familiarize ourselves with the content we are teaching are students has created a stronger team and focused teachers. The CLT also discusses what is in the best interest of the students (testing: I Station, TELPAS, STAAR, etc...). The campus also has consultant Ms. D. Contreras that is assisting with the school improvement plan. Tutors have also been assigned to help classroom teachers and teachers providing after-school tutoring and adjusting their schedules to have an intervention period to meet the demands of struggling students. Teachers must also attend any after school trainings offered by the district to support all student's academic achievement.

Programs and Opportunities for Students:

89. Is there evidence of how the curriculum and instruction increase student achievement? Discuss the well-rounded program of curriculum and instruction and how all students, especially those at risk, are given opportunities to meet challenging state academic standards.

The academic department is continuously working together with teachers and administrators to meet the needs of all students. The district offers the Dual Language Model - Simultaneous Biliteracy program. It is offered at PreK-2nd the program provides instruction for all subjects in English and Spanish and structured where both languages alternate every other day. Literacy is tracked for both languages monthly. Students who participate in the dual language model for 5 consecutive years will receive one high school Language Other Than English (LOTE) credit.

90. How do our special programs meet the needs of students? Explain anything significant with enrollment and participation in special education, bilingual/ESL and gifted/talented and dyslexia treatment.

A.M. Ochoa Elementary is an inner-city school with a population compromised of 99.36% Hispanic and 0.64% White. The gender population is made up of 48.72% female and 51.28% male students. Sub-populations include: 7% Migrant, 75% At Risk, 15% Special Education, 43% Limited English Proficiency, 5% Gifted and Talented, 98% Economically Disadvantaged and 2% Homeless. The school has been part of the Biliteracy Program for the past 3 years, Identified Gifted/Talented students participate in various extra-curricular activities such as: UIL, Spelling Bee, Battle of the Books, and Summer Reading Project but due to pandemic these were not performed. Teachers also need to have the 6-Hour GT update on a yearly basis. Mrs. Garza inclusion teacher is dyslexia certified and services students using the program RAVE-O. Dyslexia screener was done on lower grades by teachers and students at risk have been identified.

94. What is our personal technology plan for each student? Explain data for personalized or blended learning experiences supported by technology.

School is now able to provide one device per student. In addition, this the school has two Ipad carts--25 each (issued to Pre-K classroom instruction), 5 iPads for the Pre-k classroom and 6 Samsung Tablets for GT students. Students have access to programs such as:

Accelerated Reader, MyOn, MackinVia, BrainPop, RazKids, Imagine Math, and Spanish Istation, Imgaine Literacy. Teachers can assign individualized activities in I-Station according to their reading level and in AR teachers are also able to adjust students' levels to meet their needs. The school did have difficulties meeting the 85% average on AR throughout the school year and 80% participation student testing. The school was also piloting Imagine Learning (reading) in the following grades 2nd, 4th, and 5th. Pre-k uses the Ipads for I-Station, Imagine math and different alphabet/number apps that have already been installed.

Procedures:

97. Do we have a plan for the integration of technology? Explain findings on how technology is integrated into instructional and administrative programs.

The district invested almost $6 million this year to fund technology devices for students, teachers, and other employees. The district provided iPads and Chromebooks for all students from kindergarten to 12th grade. Students in second grade and below received iPads while third graders and received Chromebooks. All teachers were given a laptop and a monitor as well. The decision to invest in the technology was made after the coronavirus pandemic forced the district's curriculum online. All adoptions provide a wide variety of activities that the teacher can assign, so that students can complete and turn in digitally. Donna ISD spent ($6 million) on wifi and 12 towers. Hotspots available in library as needed.

101. What is our classroom management plan? Discuss significant findings in classroom management and explain procedures used to reduce overuse of discipline practices that remove students from the classroom.

The district has a Disciplinary Management Plan available for schools to follow, here at A.M. Ochoa each teacher creates a Classroom Management Plan in the beginning of the school year. In lower grades, there are not that many infractions committed but we do see more infractions in the upper grades. Teachers contact parents and a referral is made if needed, the principal then decides what action is needed depending on infraction. We perceive a need for additional consequences or other forms of discipline for repeated offenders. An incentive system must be developed to help reinforce positive behavior to alleviate constant discipline issues.

School Processes & Programs Strengths

These are the School Processes & Programs Strengths:

- Provides opportunities for job vacancies
- Versatile hiring committee
- Provide Mentor
- T-TESS for growth and improvement
- Pay raise given last year to teachers ($2000)
- After school-trainings
- Instructional Strategies for all subjects
- Consultants
- Virtual professional development
- Self-paced Google certification during summer
- On demand-PD Modules
- Blended learning professional development webpage
- Board of trustees oversee the management and implementation
- Communication through different groups
- PLC meetings weekly (grade-level)
- Campus Leadership Team
- Consultant Ms. D. Contreras
- Tutors
- Intervention periods
- After-school trainings
- Social worker/counselor (Sasha Ramirez) worked for 6 months

- Simultaneous Biliteracy Program
- Share point has all resources
- Biliteracy Program for past 3 years
- Virtual book club
- 6-Hour GT update for all teachers
- Inclusion teacher dyslexia certified
- Dyslexia testing on lower grades
- Programs availability
- Individualized activities I-Station and AR
- New implementation of Imagine Learning
- One to one device
- Google classroom.
- Istation in Spanish
- Ipads for K-2
- Chrome Books 3-12
- Teacher laptops and monitors

- Adoption access to assign individualized digital assignments to students
- WiFi Towers
- HotSpots as needed
- Teacher creates classroom management plan in the beginning of school
- Less behavior problems due to lower amount of students in school

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: A.M. Ochoa Elementary or district were not fully prepared for pandemic and many students were not successful in completing assignments due to not having good internet connection. **Root Cause:** A.M. Ochoa or district did not have internet towers completed early in the school year. Connection was a frequent problem for those student learning at school and at students' homes.

Perceptions

Perceptions Summary

The results from surveys provided to our school community produced positive results in several key areas. According to the surveys, parents feel safe sending their sons/daughters to our school because they see we have safety procedures in place. They also believe our campus is welcoming and it has a set culture geared towards student success. Parents are able to see learning taking place and that it's engaging and fun. Another factor yielded by the survey is that children enjoy coming to school and feel respected. The results from the survey paint a picture of our interaction with the community and how important this is. We must continue working aggressively to make sure those percentages stay up and that significant improvements are made in other areas as well.

Perceptions Strengths

-
    -
        - We have Safety Procedures in Place
        - Our campus is welcoming according to survey results
        - We have a set culture on our campus geared towards student's success
        - Parents are able to see Learning taking place and that is fun and visible
        - Children enjoy coming to school and feel respected at school
        - Teacher retention is exceptional. Almost 100 % of our teachers come back every year unless they have special circumstances. Other reasons include: competitive pay, administration support, district, curriculum resources, planning days, among others.
        - We have a Mentor program for new teachers. We assigned a teacher to that new teacher but it doesn't stop there. Our staff overall is very supportive and provides helps to incoming teachers.
        - We have different ways in which teachers are involved in decision making (District and Campus surveys, PLCs, tracking meetings, CNA meetings, Head teacher meetings)
        - Several opportunities for parents to come to school: Annual parent meetings, parent's night, open house, Literacy nights, Awards Parade, etc)
        - Bullying awareness (counselor's lessons, teacher's, different speakers, etc) / Students struggling with behavior (individual conferencing, *restorative discipline*)
        - We are in constant contact with the community with the use of letters, flyers, our Facebook page
        - Most if not all documents are translated into Spanish
        - Decrease in the number of referrals (aggressive behavior) which has a direct impact on instruction

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Parental participation and attendance are factors which have a direct impact on student's performance **Root Cause:** The lack of support to our school activities and the low attendance are issues that hinder student's learning. This is the case of a considerable percentage of our student population. We must find ways to eradicate these type of behaviors in order to improve.

Priority Problem Statements

Goals

Goal 1: *A.M. Ochoa Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 1: A. M. Ochoa Elementary will focus on instructional improvement resulting in all students meeting goals for all accountability measures.
Applies to all content instructional areas - Reading/ELA, Writing, Mathematics, Science, and Social Studies.
Applies to District, State (STAAR, EOC, TELPAS, IStation, PBMAS) and Federal/NCLB (AYP). Teachers will be provided with incentives for STAAR testing.

Evaluation Data Sources: Teachers will be provided with incentives through out the school year.

Summative Evaluation: Some progress made toward meeting Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Teachers will use the district curriculum and instruction guide as their primary source of instructional direction for all subject areas. Pre-Las and LAS Links testing. **Strategy's Expected Result/Impact:** Increased number of students meeting or exceeding STAAR standards per core content area. **Staff Responsible for Monitoring:** Campus Principal and Curriculum Specialists. **Funding Sources:** - Title I (211) - 31.6339 - $1,000	15%	45%	65%	

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Develop, implement, and monitor daily instructional schedules to ensure all subject areas are taught everyday the appropriate allocated minutes and implement and monitor required lesson plans for Reading, ELA, Writing, Math, Science, and Social Studies **Strategy's Expected Result/Impact:** Increased student performance as measured by District and State assessments. Daily Walkthroughs with feedback if necessary. **Staff Responsible for Monitoring:** Campus Principal and Curriculum Specialists. District Strategists	15%	45%	70%	100%

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Obtain and provide program manipulatives, models, consumable, non-consumable materials and any other classroom instructional materials or resources for all core content areas and all student populations. Obtain and provide programs; books;games for consequences; mixed emotion; social skills; classroom behavior. A variety of games for students on how to cope with behavior in the classroom and to help them with mental health. **Strategy's Expected Result/Impact:** Inventory aligned to core curriculum materials and purchase orders. Increased percentage of all students meeting District, State, and Federal Standards (STAAR, TELPAS, IStation, & PBMAS. Classroom instruction **Staff Responsible for Monitoring:** Campus administration **Funding Sources:** - Title III (263) - 11.6399 - $216, - Title I (211) - $3,772	25%	60%	75%	100%

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: System Safeguard Strategy Provide research based staff development aligned to performance data measured by District, State, and Federal accountability indicators to include: job embedded training (common departmental planning), response to intervention (RTI), data utilization, technology, core state adopted textbooks, supplemental programs, research based strategies for ELLs, research based instructional strategies for CCRS, classroom management, and discipline (teaching)for appropriate behavior. **Strategy's Expected Result/Impact:** Professional Development District Plan, training agendas, and sign-ins. Increased instructional effectiveness and student performance as measured by grades and state assessment outcomes, decreased at risk learners, decrease in referrals, and decrease in behavior referrals. 2017 Multidisciplinary Conference on Child Abuse Tip of Texas Counseling Institute **Staff Responsible for Monitoring:** Campus Administration Head Teachers Counselor	25%	50%	70%	100%

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Monitor implementation of best instructional practices presented during professional development and all staff training. **Strategy's Expected Result/Impact:** Lesson Plans, walkthroughs, classroom visits, progress monitor documentation and student academic outcomes. **Staff Responsible for Monitoring:** Campus Administration Teachers	30%	45%	65%	100%

Strategy 6 Details	Reviews

Priority Problem Statements 23

Goals 24
- Goal 1: Runn Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. 25
- Goal 2: Runn Elementary will create an inviting educational climate that enhance learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 55
- Goal 3: Runn Elementary will create an instructional environment that will enhance the learning and academic performance of all students and create an awareness in order to increase the percentage of graduates demonstrating college/career/military readiness when they reach the high school level. 75
- Goal 4: Runn Elementary will follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 86
- Goal 5: Runn Elementary will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 102
- Goal 6: Runn Elementary will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process 119

Campus Funding Summary 128

Comprehensive Needs Assessment

Demographics

Demographics Summary

Demographic Data

1.What do enrollment numbers indicate?

Our enrollment has been decreasing over the years due to high mobility rate. We have 236 students enrolled at Runn Elementary.

2. What is the breakdown by ethnicity, gender or other category?

Gender / Ethnicity	Hispanic	Black
Male	131	0
Female	105	0

3. How has the enrollment changes over the past three years?

School Yr	PK (# of students)		K-5TH		Total		
2017-2018	15(AM) + (7) PM	+	287	=	309	**No. Change**	**% Rate of change**
2018-2019	35	+	260	=	295	14	4.7%
2019-2020	25	+	248	=	273	22	8.0%
2020-2021	13	+	223	=	236	37	15%
						73	27%

Based on our data, enrollment has been decreasing over the past three years. From 2017-2018 school year to 2018-2019, the school enrollment decreased, losing 14 students. From 2018-2019 to 2019-2020, it also decreased by 22 students and in 2019-2020 to 2020-2021, it decreased by 37 students.

4. What is the number of students in each special program?

How do these program numbers look broken by ethnicity, gender, or other category?

Are we over-or underrepresented in certain groups? Why?

GRADE	GENDER		Ethnicity	# of students	ELs	SpEd	GT	MIG	ED
	M	F	HSP						
PK	9	4	13	13	10	0	0	0	12
KINDER	16	11	27	27	18	1	0	1	27
1ST	16	29	45	45	32	0	8	1	43
2nd	21	15	36	36	22	4	2	0	35
3rd	19	12	31	31	24	2	2	1	30
4th	30	17	47	47	29	2	3	1	30
5th	20	17	37	37	26	1	2	0	35
TOTAL	131	105	236	**236**	161	10	17	4	212

Runn is currently serving 236 students in bilingual education, 131 males and 105 females. 236 students are Hispanic. Out of the 236 students, 161 are ELs.

4.2% of our school population is Sped. 7.2% of our students are in the GT program and only 1.6% of our school population are migrant.

89% are economically disadvantaged.

Based on our data, we are underrepresented in most of the groups except ELs population because of location and low enrollment as compared to the district and state.

According to our data for the last three years, student enrollment has been decreasing; around 20 students each year. Even though, staff and teachers had made a great effort to promote our school in social media, our numbers show a significant decline on enrollment every year. Rezoning some of the streets to our Campus could be the solution to the problem.

Teacher/student ratio might also affect students' performance.

Another disadvantage is that most of our students come from low income households. 98.9% of the students that live in rural neighborhoods are economically disadvantage.

5. What is the data for special programs over time?

Special Education Program:

2017-2018/ 19 Sp. Ed students enrolled at Runn Elementary

2018-2019/ 22 Sp. Ed students enrolled at Runn Elementary

2019-2020/ 12 Sp. Ed. students enrolled at Runn Elementary

2020-2021/9 Sp. Ed. Students enrolled at Runn Elementary

6. What does the data regarding students who exit from the special program indicate? How many? Who are they? What trend or pattern do we see?

The data regarding students indicate that regularly students do not exit from special ed. programs during elementary school. During the school year 2020-2021, no students were exited from special ed. Program. In other words, this school year 2020-2021, 0 out of 9, which is 0% exited the special ed. programs. During elementary school, regular education students are referred to get evaluated and tested. For example, during the school year 2020-2021 there were approximately a total of 0 referred students to get evaluated. Most of the students who are referred go first through the RTI process. The pattern is that most of the students who get tested and qualify are placed into the Sp. Ed. program to receive the appropriate services and accommodations to meet their needs.

7. Who are our at-risk students? What is their at-risk category?

Our at risk students are; 12 in Pre-k. 26 in Kindergarten, 42 in 1st grade, 34 in, 2nd grade, 29 in 3rd grade, 39 in 4th grade, 30 in 5th grade.

The students at-risk category are based on the following; 001- Did not perform satisfactorily on readiness test, 003- Not advanced from 1 grade level to the nest for 1 or more school years, 010- Is a student of limited English proficiency (TEC 29.052), 012- Is homeless (NCLB, TITLE X, PART C, SECTION 725(2)), 014- Has been incarcerated or P/G who has been incarcerated, RD4- Not performing satisfactorily on reading assessment and not met 110% rule, V001- Not advanced from 1 grade level to the nest for 1 or more school years, V003- Did not perform satisfactorily on assessment instrument and not met 110% rule, V004- PK/K/01/02/03- Did not perform satisfactorily on readiness test.

	001	003	010	012	014	RD4	V001	V003	V004
Pre-K	0	0	10	2	0	0	0	0	12
Kinder	0	0	18	2	0	0	0	0	24
1st grade	0	0	32	5	1	0	0	0	40
2nd grade	0	0	22	7	2	0	2	0	32
3rd grade	1	0	24	4	3	0	2	0	23
4th	0	1	29	10	3	0	3	28	1
5th	0	0	26	3	1	2	2	3	0
Total	1	1	161	33	10	2	9	31	132

8. Who are our Migrant students?

There are currently a total of four migrant students enrolled in our campus:

Pre-K has 0 students

Kindergarten has 1 student

1st grade has 1 student

2nd grade has 0 students

3rd grade has 1 student

4th grade has 1 student

5th grade has 0 students

We currently have 11 less students than last year; most of our migrant students return to our campus during the month of October.

9. What is the mobility rate for this campus? What is the stability rate? How are these numbers represented for Migrant students?

The mobility rate for Runn Elementary is 20.3% as of 2018-2019. Therefore, the Stability rate for Runn Elementary is about 79.7%.

There were 19 total Migrant students registered for the 2019-2020 Academic School Year and 4 withdrew. However, there are 4 total Migrant students registered for the 2020 -2021 Academic School Year and 0 withdrawn from Runn Elementary as of March 29, 2021.

10. What area of the community do these students come from?

These students are from a rural area made of "colonias" and country roads. The majority are Spanish Speakers from low income households. 240 out of 250, a percentage of 96% of the population in this community is economically disadvantaged, a percentage of 90.4% at risk students.

11. What are the staff demographics?

There are 17 teachers with certifications as required by the state of Texas. The Gender breakdown is 10 females and 7 males. The group is comprised of 16 Teachers of Hispanic/Latin American descent and 1 of mixed race. The age range is from 28 to 55 as of 2020 -2021 Academic School Year.

There are 5 paraprofessionals, 1 degree in Education, 2 have college hours & 2 are grandfathered. The Gender breakdown is 4 females and 1 male. The group is of Hispanic/Laitn American descent. The age range is from 30 to 50.

Counselor 1, Counselors Clerk 1, Attendance/PEIMS Clerk 1, Attendance Helper 1 Librarian 1, Librarian Clerk 1, Parent Educator 1, ACE 1, Custodians 3, Security 1, School Secretary 1, School Nurse 1, Curriculum Specialist 1, Principal 1.

12. What are the teacher/student ratios? How do these ratios compare to performance? (*Student Learning)

There are a total of 14 teachers who teach core subjects and 250 students. The Ratio is 1 teacher for every 22 students for PK - 4th and 1 teacher for every 25 students for 5th grade. PK has a higher teacher to student (17 to 1) ratio than Kinder (16 to 1). 1st grade has a higher teacher to student (22 to 1) ratio than second grade (19 to1). 3rd and 4th grade have a teacher to student (17 to 1) ratio. 5th grade has a teacher to student (20 to 1) ratio.

The performance regarding teacher to student ratio has shown that smaller classroom size is not a factor in student Achievement. Performance based on Interim Assessments is as follows: 3rd Grade English Reading Students are at a 20.41% at the Approaches level, 3.76% at the Meets level and 1.12 at the Masters level. Spanish Reading Students are at a 23.57% at the Approaches level, 5.93% at the Meets level and a 1.21 at the Masters level. 3rd Grade English Math Students are at a 17.17% at the Approaches level, 5.67% at the Meets level and a 4.23% at the Masters level. Spanish Math Students are at a 1% all across. 4th Grade English Reading students are at a 38.85% at the Approaches level, 17.48% at

the Meets level and 8.44% at the Masters level. Spanish Reading Students are at a 24.45% at the Approaches level, 8.05% at the Meets level and a 4.55% at the Masters level. 4th Grade Math Students are at a 43.27% at the Approaches level, 12.58% at the Meets level and a 7.83% at the Masters level. 5th Grade English Reading Students are currently at a 49.96% at the Approaches level, 16.84% at the Meets level and a 9% at the Masters level. Spanish Reading Students are at a 27.5% at the Approaches level, 18.32% at the Meets level and a 4.79% at the Masters level. 5th Grade English Math Students are at a 57.68% at the Approaches level, 18.32% at the Meets level and a 4.79% at the Masters level. Spanish Math Students are at a 31% at the Approaches level, 20.6% at the Meets level and a 20.3% at the Masters level. 5th Grade English Science Students are at a 21.72% at the Approaches level, 6.34% at the Meets level and a 1.59% at the Masters level. Spanish Science Students are at a 15% at the Approaches level, 11.29% at the Meets level and a 3.14% at the Masters level.

Academic Performance for grades K-2nd is as follows: Kindergarten has a total of 3 students above reading level, 3 students at level and 24 students below reading level. 1st Grade has 13 students above reading level, 7 students at level and 20 students below reading level. 2nd Grade has 7 students reading on level and 26 students below reading level.

13.What are the teacher qualifications, certifications, etc? Paraprofessionals?

Core Teachers: 14, P.E./Health: 1, Fine Arts: 1, Special Ed./Inclusion: 1. All teachers are bilingual certified and have a Bachelor's Degree.

Classroom Instructional Aids: 3, P.E. Aid: 1, Computer Lab Manager: 1. One Paraprofessional with a degree on Education, 2 Paraprofessionals have college hours (based on the ‘new hire’ criteria), and 2 Paraprofessionals are grandfathered (do not need to meet the ‘new hire’ criteria).

14. What does the general data reflect regarding teacher Quality on campus? TESS/TTES?

All teachers are evaluated using the T-TESS criteria. For 2020-2021 Academic School Year all were evaluated. At the beginning of the year, all teachers are required to submit their Student Learning Objective(SLO) goals and T-TESS Professional goals. Throughout the year, teachers are to work on achieving the goals as set by the teacher and approved by the appraiser. The Curriculum Specialist is evaluated using T-PESS by the Principal. The Principal is also evaluated using the T-PESS by the Assistant Superintendent and Superintendent.

Demographics Strengths

1. District has provided to our 236 students Electronic Devices and Internet Service to let them be connected in their online classes from their homes or classrooms (Tablets, Laptops, Hotspots, Internet Towers, etc.)

2. One of our major strengths is that all of our teachers are bilingual certified serving our student population who are 100% Hispanic at Runn Elementary.

3. Open enrollment allows parents to register their child in any nonresident school, either within or outside the district of residence.

4. A very large amount of our students advance to the next grade level. More than half of the students enrolled are bilingual and transition on to English later on elementary.

5. All 14 core Teachers at Runn Elementary are Bilingually certified and the majority of our Community is dominantly Spanish speaking; therefore, allowing our students to receive a more affective education.

6. Three Teacher Assistants have College hours and one has a degree in Education.

7. The student to teacher ratio in the upper grades appropriate. Allowing teachers to better target children in need and allowing children with academic needs to receive that one to one instruction that allows for academic growth.

8. Hot Spots (fixed wireless connection) were provided to all Runn Elementary students.

Problem Statements Identifying Demographics Needs

Problem Statement 1: Some parents, staff, and students don't know how to setup and change the settings of the electronic devices. Internet service is not efficient in our zone (school and houses) and students loose internet connectivity. Some power chargers of our students don't charge properly the devices and the device is turned off for several minutes or hours. At the end, students don't take online classes, do **Root Cause:** Our staff has not received trainings about how to solve common problems with the electronic devices and internet, for example: changing some settings regarding the browser, the tablet, the apps, etc. Students have not received an internet service 100% reliable and stable. Students have not updated the power chargers with charging problems due the power charger have damaged or now working proper

Problem Statement 2: Low enrollment: Over the past 4 years student enrollment has gradually drop, from 4.7% rate change in 2018-2019 school year to 27% rate change in 2020-2021. There has also been a decrease on the number of migrant students, 11 less student than last year due to rezoning and mobility rate. **Root Cause:** Even though we have open enrollment and campus staff/teachers have made a great effort to recruit students. Our data shows that the percentage rate change of withdrawals has been increasing, meaning that we are losing a significant number of students every year. Some of the causes are rezoning and mobility rate.

Problem Statement 3: More academic assistance is needed in reading, writing, and math through all grade levels, PK-5th grade. Such as, updated technology, better internet access, new computer, computer programs, tutors and instructional aids. Our students are enrolling late into the school year (October). **Root Cause:** In order to continue being successful and increase the passing percentage of students every school year all grade levels need to be provided with the academic assistance they need. This will reflect in all the subjects across the

school and less students to none will be labeled as not passing or need extra assistance. There are 4 Students enrolled for our 2020-2021 school year in October 2020

Problem Statement 4: There are insufficient Teacher Assistants in the lower grade levels to enhance one on one, small group and Guided Reading instruction; therefore, leading to difficulties reading in the upper grades and lower academic performances at the STAAR level. **Root Cause:** Teacher Assistants are very affective especially if academically trained in Education. Younger children are in greater need of small group and guided reading instruction; therefore, it is absolutely necessary that these children are affectively taught not only by the Teacher but the Teacher Assistant as well. It is important that all lower grades have the in-class support of an Instructional

Problem Statement 5: The Pre-K student to teacher ratio is above the state mandated ratio of 11 students to 1 teacher. The Kindergarten ratio of 23 students to 1 teacher is rather high especially considering the lower grades do not always have Teacher Assistants. **Root Cause:** There is a appropriate student to teacher ratio in the upper grades; however, the Pre-K and Kindergarten grade levels are above the student to teacher campus average of 18 students to 1 teacher. Leading to more ineffective instruction and academic delays.

Problem Statement 6: Our Community is lacking most of the technological resources to keep up with the demands of virtual and on-line instruction. Our community is barely functioning through DSL (oldest and slowest connection) or a fixed wireless connection for those whom are actually within distance of a cell tower or satellite. Hot Spots are definitely "better than nothing"; however, not only did they solve our **Root Cause:** Hot Spots are serving a basic purpose for our students. During these times having adequate technology is vital and our colonias are in need of greater support in order to receive the resources needed to provide successful virtual instruction.

School Processes & Programs

School Processes & Programs Summary

1. How are follow-up data regarding teacher performance provided to teachers?

* After each benchmark, teachers are able to obtain test data from Aware. Through Aware, teachers obtain the needed reports: passing rate, demographics, weak TEKS, etc.

* Grade level meetings are held to discuss the data from Aware (bundle exams) and monthly I-Station progress results for LEP Students for all grade levels, Amplify is for Kinder, 1st and 2nd. Galileo All Grade Levels. Imagine Learning for all grade levels and including LEP and NonLEP Students. Imagine Math for all grade levels.

* Teachers write an action plan that targets weak TEKS (those below 70%).

* During instructional planning day, teachers plan instruction for the following six weeks and plan activities that re-teach, review, and reinforce the TEKS in the action plan.

2. How are we recruiting highly qualified and effective staff? (*Demographics)

A committee meets and interviews all candidates to find a candidate that is proficient in both English and Spanish. Candidates must have an EC – 5th grade certificate and be bilingually certified. Committee discusses the strengths and weaknesses of all candidates, selects the best candidate, and makes the necessary recommendation to the district. For the 2020-2021 school year, one new teacher and teacher assistant were hired. All staff was highly qualified as per Human Resources criteria.

3. What is our staff attendance rate? Retention rate? Turnover rate?

- Staff attendance rate: 1% of all staff had 0 absences (Absences increased due to Covid & Covid exposure.) There were teachers that were rated developing in Domain IV of T-TESS due to the amount of absences and tardies they had during the school year
- Retention rate: Usually staff choose to remain at Runn. One Instructional aide asked for a transfer and was replaced with another district employee. One third grade teacher left the district to pursue a career and was replaced with another first year teacher. P.E. the instructional aide deceased throughout the school year was replaced with a prior district employee. A fifth grade teacher was not bilingual certified so went to another school within the district, was not replaced based on not needing another fifth grade teacher.
- Turnover rate: Most of the staff has 2 years or more teaching experience, except our first year teacher.

4. How is highly effective staff assigned to work with the highest need students? (*Demographics & Student Learning)

The highest need students from PK to 5th grade are provided through intervention and/or guided reading for 45 minutes daily. An afterschool program called A.C.E. is offered to students in need of attendance compliance and academic support.

5. What is the impact/effect of our teacher mentor program?

In the school year 2020-2021, we have a Mentor Teacher mentoring a new teacher, guiding the professional with the school process and lessons, providing the new teacher with more

effective performance in the classroom.

6. How is new staff supported? What feedback do they provide?

New staff are given training, a mentor, and a lead teacher for day to day information. New staff can meet with administration and provide feedback through evaluations and emails. Currently we have one mentor teacher at the campus who meets with a new teacher on a weekly basis.

7. What systems are in place to build capacity and support the notion of continuous improvement?

The systems to support improvement for teachers, staff, students, and parents are evaluations, surveys for staff, campus, and parents (meetings, parental involvement, etc.), assessments, and data analysis. Staff members also have the opportunity to lead committees such as CNA to assess the needs of the campus and work with staff members. Leadership opportunities are given. For example, the spring survey. It is about Title I and gives opportunities to parents to provide feedback about school and district. Parent educators give hard copies to students, and provide incentives to motivate parental response. Due to COVID-19, parent meetings are held through computers. Online virtual meetings are held. PAC committee is a group of parents to provide feedback on COMPACT and parental policy.

8. How are we using data to determine professional development for staff? (*Student Learning)

Based on previous STAAR assessments, reading levels, writing levels and areas that are in need, the staff is trained to target those capacities in need. The district provides surveys for professional development then asks staff where help is needed. The district also provides professional development to target bundles/TEKS every six weeks in Reading and Math.

9. How are collective and individual decisions regarding professional development determined?

The CLPAC committee and administration meets and makes decisions based on campus needs. Also, coordinator and directors from different departments collect surveys and provide feedback for teachers to provide more targeted training as needed.

10. What types of professional development has staff attended? How is implementation monitored? What impact has it had on performance? What is the follow up?

Most of the courses attended were focused in the core subjects of Reading, Writing, Math, Science. Other courses staff attended were Special Education, Technology application (I Pads, Apple and Google training),On demand Professional Development Modules dealing with virtual instruction best practices and SuccessEd program.

The implementation of the professional development is monitored through our supervisors- Principal, Curriculum Specialists, Bilingual Department, SB Program Director, Special Ed. Department, Strategists, etc. by

- Lesson Plans
- Walkthroughs
- Formal/Informal Observations

- Meetings

The impact on performance has been positive due to feedback, sharing of ideas, suggestions, and recommendations from our supervisors.

Professional development kept taking place through online webinars and trainings to assist and equip teachers in assisting students and parents in a virtual learning manner.

11. What evidence exists that families and community members are involved in meaningful activities that support student's learning? What are the activities? Which parents and community members are involved? What trends and patterns do we observe? (*Demographics & Student Learning)

Virtual Literacy Meetings, Virtual Parent Meetings, Virtual Grade Level Meetings, Academic Celebrations: Most of the Runn Community is involved and participation is very high. The patterns that are observed during these activities are very good participating when there is student involvement. For example, some incentives are given to involve student participation to celebrate student learning to measure progress using different educational computer programs such as MyOn, Imagine Math and Istation. Literacy Involvement is promoted through ClassDojo and Runn Elementary Media and virtual online meetings with authors, parents and students. For example, world-renowned authors, poets and professors have live sessions with parents. Due to COVID-19, in person activities are put on hold, but will resume as soon as we come back face-face.

12. How are families and the community members involved in school decisions?

Parents and community members can be part of the CLPAC, CNA and PAC, also participate in surveys and questionnaires to voice their concerns. A parent representative is also part of the ELLA (LPAC) committee decisions. For example, Run Elementary parental involvement committee holds online virtual meetings using Runn Elementary policy and COMPACT to provide feedback on school decisions.

13. What types of services are available to support families, community members, and students to encourage healthy family relationships?

At Runn Elementary Ms. Hinojosa has an open-door policy. There are also counseling services, and if additional services are needed, we have various agencies such as Nuestra Clinica Del Valle, Hidalgo County Health and Human Services, Tropical are just a few among our long list of providers. Our school's Parental Department also provides programs such as P.A.S.O.S., RHCK (parental classes) and PLA (Parent Learning Academy) held monthly. Runn Elementary media and ClassDojo provide virtual informative flyers and virtual character ed lessons to promote values and character development to encourage healthy family relationships.

14. If families speak languages other than English, what are these languages? How does the school communicate in those languages? (*Demographics)

Spanish is a second language in our district. However, the school communicates in English and Spanish when sending information home. The campus is a bi-literacy campus and all of our teachers are bilingually certified. Therefore, teachers can communicate with families through Emails, text, technology, and phones in both languages.

15. What types of services are available to support students in special programs? What are the results? (*Demographic and Student Learning)

Mainstream/Inclusion is provided to support students in special programs. The results are based on their Individual Education Plan (IEPs). There is a specific criterion indicated in the report such as Mastered, Good Progress, etc. An accelerated instruction Intensive Plan of Instruction (IPI) is also provided for students who are failing a core subject or a STAAR test. For example, they receive guided reading or small group instruction to target their specific needs to their grade level and distance learning is also available. The results are based on

the Progress Report, Report Card, and I station. It is monitored using the Student Action Plan by collaboration with general education teachers, parents, and special education teachers.

16. What types of community partnerships exist to support families and students?

We have various community partners that offer support such as Love of Christ, Paradise Park, Victoria Palms, Whataburger and Peter Piper to support families and students. For example, Love of Christ provided food baskets during Thanksgiving and Christmas. Also, Love of Christ donated gifts to our families and students.

17. To what degree does the district/school support the organization and how?

Our district/school appreciates and supports our community partners and works together to make it a success. Due to COVID 19, Run Elementary was not able to provide an appreciation lunch for Love of Christ. Nor, the students make appreciation letters and musical presentations. However, as soon as we come back face-face, this activity will resume.

18. What does the data reflect about classes, schedules, and student/staff teams?

Data Ratio show small classes (1:22) Estimate on the daily basis

GRADE	ONSITE	ONLINE	TOTAL
PK	4	13	17
KINDER	9	23	32
1ST. GRADE	14	30	44
2ND. GRADE	13	25	38
3RD. GRADE	12	19	31
4TH. GRADE	10	39	49
5TH. GRADE	12	26	38

Master Schedule shows Guided Reading for PK and Intervention ELD/SLD for K-5th being implemented for all grade levels.

Grade level teams are made up of

- PK-2ND (Self contained)
- 3rd.-5th. (Made up of 2-3 teachers)

19. How is adequate time devoted to subjects in which students perform poorly? (*Student Learning)

PreK 45 minutes Reading and 60 minutes Guided Reading 105 total

Kinder	180 minutes RLA and 45 minutes Intervention/ELD/SLD	225 total
First	150 minutes RLA and 45 minutes Intervention/ELD/SLD	195 total
Second	180 minutes RLA and 45 minutes Intervention/ELD/SLD	225 total
Third	45 mins Guided Reading and 105 mins RLA and 45mins Intervention/ELD/SLD	195 total
Fourth	80 minutes RLA and 55 minutes Intervention/ELD/SLD	135 total
Fifth	90 minutes RLA and 60 minutes Intervention/ELD/SLD	150 total

20. How do teachers have a voice in decision making and school policies?

Teachers are invited to take part in leadership committees,such as CLPAC, CNA, school staff meetings, grade level meetings and lead teacher meetings where we make our school decisions.

21. What role do teachers have in deciding what assessments will be used to evaluate individual students or the program as a whole?

The school district creates and provides benchmark and bundle assessments to evaluate individual students and decides how the program is evaluated. This school year the school used the STAAR Online program to practice, this will help the students prepare for the STAAR Assessment which will be required by the State to be taken online. Teachers only have a say so in teacher made tests for example, teachers use weekly or biweekly tests to help them evaluate and check for understanding (Google Forms, Jamboard, Kahoot, Google Slides).

22. Do school committees and decision-making bodies make it easy for teachers, parents, paraprofessionals, support staff, and students to be heard and, in turn, for all groups to be a part of solutions to identified problems?

Yes, concerns are presented by different bodies and discussed to come up with a solution for all.

23. What evidence is there that there is a process for monitoring, evaluating, and renewing the curriculum to meet the needs of all learners?

During PLC Teachers from the same grade level in the district get together and voice their concerns (GOR Meetings “Gonzalez ES, Ochoa ES and Runn ES). Exams are given on a weekly or six weeks frequency to assess the taught curriculum. The district has Sharepoint available for the teachers to explore the curriculum and get resources and materials to meet the needs of all learners.

School Processes & Programs Strengths

1. Minimal to no turnover in staff from year to year

2. Bilingual Teachers with bilingual certifications

3. Veteran Teachers are utilized as a resource for the campus. These include a lead teacher mentoring strategy, collaboration, and sharing lesson plans through Eduphoria.

4. Guided Reading with a small group assisted by Support Staff Based on the data of: District Benchmark, Imagine Language and Literacy, and Istation

5.MyOn book completed and minutes read and District Benchmarks

6. Accessibility of virtual small group intervention throughout contents/Classroom observations, Bundles, I station reports, Imagine learning and Imagine Math

7. Campus provides ACE Program.

8.Parents attend ARD's meetings Via Online/Phone

9.Services are provided for the community and parents. Runn Elementary provides counseling services, and if additional services are needed, we have a number of various agencies such as Mexican Consulate, Tropical, a list of MOUs, and parenting classes such as PASOS/RHCK.

10.Flyers and presentations are uploaded virtually in English and Spanish.

11.Different services target students in special programs. -Title 1, Part A Compliance Report

12. Love of Christ Winter Texans Charity

*Love of Christ has been a very strong supporter of Runn Elementary for decades. They provide students with donations of clothing and school supplies, food baskets for both Thanksgiving and Christmas, gifts for every single student. Also Paradise Park provides handmade quilts (Linus Project).

13. Career Day –Teachers and Staff invite presenters for Career Day via Google Meets. Presenters are recruited by teachers to present to grade levels.

14. Administration and staff collaborate, cooperate, and communicate. - Communication

15. Schedules are manageable and flexible. - School Structure

16. Administration is visible throughout the campus. - School Structure

17. Different methods of instruction to meet the students' needs (Guided reading block, Intervention period, Daily use of technology). - School Structure

18.Vertical alignment/planning time. - School Structure

Vertical alignment is a strength. Teachers meet every 6 weeks consistently to review data analysis. Teachers analyze data and create lesson plans to target student’s needs to improve student performance.

19. Parental and community virtual involvement, including CLPAC virtual meetings -Program Support Services

20. Networked and wireless access for Internet - DISD Technology Report such as on campus or Hot spots at home.

21. Progress in equipping all classrooms with technology tools and programs available -Technology inventory

22. Willingness of staff and students to become proficient users of technology -Teacher Self Report

23. Staff that is capable of training

24. Pre-Registration Online is a success with 100% pre-registered students.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Teachers continuously monitor student's performance and growth through data analysis meetings, progress reports, Imagine Learning, I station, Imagine Math, benchmarks, bundles, and report cards. However, teachers need to continue documenting progress, follow up on RTI status and share successes with other colleges. **Root Cause:** Teachers need to document, interpret data, and follow up with the RTI referral process and share successes with other teachers. However, due to Covid19 referrals are a challenge for this year.

Problem Statement 2: Parents are in need of technology help. As a school-community support, the school provides a registration team to help parents register via phone conference. **Root Cause:** Parents lack technology skills.

Perceptions

Perceptions Summary

1.How do students describe the school climate? How does this compare to staff?

The students and the staff describe the school climate in a positive way. We conducted a survey to collect data with the following questions:

The students and the staff describe the school climate in a positive way. We conducted a survey to collect data with the following questions:

66 students answered the following question: Do you enjoy coming to school?

- 48 students or 73 % = Do enjoy coming to school.
- 15 students or 23 % = Somewhat enjoy coming to school.
- 3 or 5% = Do not enjoy coming to school.

28 staff members answered the following question: Would you recommend this school as a great place to work?

- 1 staff or 3.6% = Do not recommend working at this school.
- 3 staff or 10.6%= Recommend working at this school.
- 24 staff or 85.7% = Highly recommend working at this school.

2. What evidence is there that students and staff are collectively aligned with the vision and mission of the school?

28 staff members answered the following question:

Q: How familiar are you with the mission and vision of the school?

Staff: 82.1% Very Familiar

17.9% Somewhat Familiar

56 students answered the following question:

Q: How familiar are you with the mission and vision of the school?

Students: 53.6% Yes

35.7% Somewhat

10.7% No

3. How do students and staff describe attitudes, respect, relationships, belonging, support, etc.? How does this data compare across groups? Which groups respond in which manner?

The majority of students from 3rd-5th grade and campus staff strongly feel they work together as a team.

4. What does the data reflect regarding student behavior, discipline, etc.?

Do you know your behavior expectations while you are at school?

- 90% yes
- 8% somewhat
- 2% No

5.To what degree do students and staff feel physically safe?

Staff members and students participated in a survey to answer how safe they feel coming to school in person with the previous and new covid 19 procedures.

Survey indicates that the majority of the staff and students feel physically safe in school.

6.Student: Do you know your behavior expectations while you are at school? Do you know your goals and expectations for your academic success? Staff: Do you understand your expectations as to your job requirements? ORIGINAL QUESTION: What do students and staff indicate about expectations: academic, behavioral, social, extracurricular, etc.? NOTE: Questions have been updated for student & staff survey, no parent questions.

54 out of 68 (79%) of the students know their behavior and academic expectations as a student at Runn.

12 out of 68 (18 %) of the students somewhat know their behavior and academic expectations.

2 out of 68 (3%) of the students DO NOT know their behavior and academic expectations

28 out of 28 staff members know their job requirements and expectations.

7. Which students are most satisfied with the school's culture and climate? How does this compare to the students' attendance, tardies, and other behaviors?

Based on responses, our 3rd grade students feel most satisfied with our school's culture and climate.

Attendance Percentage (September 8, 2020 - June 4, 2021)

3rd Grade - 99.33%

4th Grade - 99.99%

5th Grade - 98%

No Behavior Reports

8. Do you feel that classroom management and organization are an important aspect of teaching?

28 out of 28 (100%) staff members feel that classroom management is an important aspect of teaching.

52 out of 53 (98%) parents agree that a student's behavior in the classroom is imperative to ensure their learning.

63 out of 67 (94%) of the students agree that managing behavior is crucial in school.

We are on target for next year's PBIS implementation.

9. Do you feel that gangs, substance abuse and/or weapons are a problem at our school?

100% of the staff, 88.5% of the parents, and 64.8% of the students do not feel that gangs, substance abuse, and/or weapons are a problem at Runn Elementary. Based on discipline referrals, there was no mention of gangs or gang related activities on campus. Responses may be based on community perceptions outside of school since this is not a topic/area of concern on behalf of the campus.

10. What students are involved in extracurricular activities, clubs and other areas? Who are these students? What do these students' achievements reflect about these students versus others who are not involved?

At Runn Elementary every student from Pre k – 5th grade has the opportunity to participate in the school or other schools activity or competition. Due to the Pandemic we have had a few competitions like Attendance, Reading, and Math with other Elementary schools.

District Elementary Attendance

Elementary Reading Competition

MyOn results which show Runn #1 for most minutes read and books completed for the week.

Imagine Math

Runn Elementary has been having competitions and incentives within the school for the students. Students from any grade level can participate.

Runn Elementary competitions and activities:

Runn Elementary after school program

What do these students' achievements reflect about these students versus others who are not involved?

Students that are not involved in VS. Students that are involved in activities

activities

? have low self- esteem ?improve academically

?, undecided on what they want ? high self-esteem

?they are tired and bored easily ?learn more skills

? no positive attitudes ? prepare themselves for college

11. What are the students' and staff' perceptions of facilities and physical environment?

The students and the staff describe the school facilities in a positive way. We conducted a survey to collect data with the following questions:

66 students answered the following question: Do you feel the school is clean and well maintained?

· 55 students or 83.3 % = Believed the school was clean.

· 10 students or 15.2 % = Believed the school was somewhat clean

· 1 student or 1.5 % = Believed the school was not clean.

28 staff members answered the following question: Do you feel the school is clean and well maintained?

· 24 staff or 85.7% = Believed the school was clean and well maintained.

· 4 staff or 14.3 %= Believed the school was somewhat clean and well maintained.

· 0 staff or 0 % = Believed the school was not clean and well maintained.

12. How does staff feel about technology?

28 staff members responded to the following question through a survey: How comfortable are you with technology and using all the new resources such as google classroom, meets, docs, sheets,...? ¿Qué tan cómodo se siente utilizando tecnología y todos los nuevos recursos, como google classroom, meets, docs, sheets, ..?

19 out of 28 (68%) staff members feel very confident using the new resources in technology. O% of the staff members do not feel comfortable using technology.

13. What are the students', parents', and community perceptions of the school.

In the survey completed by students, staff and parents the following questions would most likely reflect the perceptions of the school.

Parents: Do you feel welcome at the school?

Students: Would you recommend the school to your friends?

Staff: Would you recommend the school as a great place to work?

53 out of 54 parents or 100 %: Feel welcomed at the school.

63 of 67 students or 96 %: Would recommend or somewhat recommend this school to a friend.

27 of 28 staff or 96,4%: Would recommend this school as a good place to work.

Perceptions Strengths

-Strengths: Most of our students and staff feel that Runn Elementary is a great place to work and to learn.

- Strengths: About 82% of staff members are very familiar with the school vision and mission.

-Strengths: About 96% of staff members are very familiar with the school vision and mission.

-Strengths: 92.5% of the students in 3rd-5th grade enjoy or somewhat enjoy coming to school and feel they are a part of a team. 100% of the teachers feel they are able to work as a team to achieve our goals.

-Strengths: The majority of students are aware of the behavior expectations they should display at school.

-Strengths: 23 out of 28 (82%) staff members answered they feel very safe working in this campus. 52 out of 67 (79%) of the students feel safe while in school.

-Strengths: From 3rd-5th Grade students surveyed, 3rd grade is most satisfied with the school's culture and climate.

- Strength: 28 out of 28 (100%) staff members feel that classroom management is an important aspect of teaching.

-52 out of 53 (98%) parents agree that a student's behavior in the classroom is imperative to ensure their learning.

-63 out of 67 (94%) of the students agree that managing behavior is crucial in school.

-Strengths: 100% of the staff and 88.5% of the parents do not feel that gangs, substance abuse, and/or weapons are a problem at Runn Elementary.

-Strengths: Most staff and students believe that the school is well maintained.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Only about 54% of students are familiar with the school vision and mission. **Root Cause:** The mission and vision of the school is not displayed for everyone to see. The school should periodically review the mission and vision so that all students and staff members are very familiar with the school goals.

Problem Statement 2: 7.5% of the students in 3rd-5th grade do not enjoy coming to school and feel they are not part of a team. **Root Cause:** Minimal interaction with peers and teachers due to Covid- 19 regulations in school.

Problem Statement 3: 4 out of 28 staff members (14%) feel somewhat safe and 1 (4%) staff member doesn't feel safe working from school. 10 out of 67 (15%) of the students feel somewhat safe. 4 out of 67 (6%) students do NOT feel safe in school. **Root Cause:** The fear of the Covid-19 pandemic. It has affected families in many ways. Staff members and students are afraid to contract the virus since there is daily contact with other staff members and other students.

Problem Statement 4: Problem: 5th grade has more unsatisfied students. **Root Cause:** Root: COVID-19 Pandemic

Problem Statement 5: Problem: 31.5% of Students and 9.6% of Parents feel that gangs, substance abuse, and/or weapons are a problem at Runn Elementary. **Root Cause:** Root: Elements of gangs, substance abuse and/or use of weapons in the home environment and/or in the surrounding area may cause parents and students to feel that this could be a problem that filters into our school.

Problem Statement 6: Problem: 9 out of 28 (32%) staff members feel somewhat comfortable with technology and the new resources. **Root Cause:** Root: This year the district had a lot of training targeting technology usage for teachers and students. Staff members who are not in the classroom also need to be provided with intensive training to become more comfortable using technology resources.

Problem Statement 7: Problem: 4 out of 67 (6%) would NOT recommend this school to a friend. **Root Cause:** Root: Although we do not have a definite answer to the reason why there would be a negative perception of the school, we can assume that the limited interaction among teachers and peers.

Priority Problem Statements

Goals

Goal 1: Runn Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 1: The district will focus on instructional improvement resulting in all students meeting goals for all accountability measures. The percentage of K-2 students reading on or above grade level will increase by 4%.

Summative Evaluation: Significant progress made toward meeting Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Teachers will use the district curriculum and instruction guide as their primary source of instructional direction for all subject areas. *Textbooks **Strategy's Expected Result/Impact:** Increased number of students meeting or exceeding STAAR standards per content area **Staff Responsible for Monitoring:** Principal, Curriculum Specialist, Assistant Principal and Teachers **Funding Sources:** Textbooks - Local (199) - 199.11.6321.00.105 - $300	5%	45%	60%	100%

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Develop, implement, and monitor daily instructional schedules to ensure all subject areas are taught everyday. In addition the appropriate allocated minutes will be implemented and monitored, required lesson plans for Reading, ELA, Writing, Math, Science, and Social Studies will be monitored. **Strategy's Expected Result/Impact:** Increased number of students meeting or exceeding District and State Assessments. **Staff Responsible for Monitoring:** Campus Administration	35%	70%	80%	100%

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Provide educational program requirements, supplies and support for academically under-performing classrooms,and provide autonomy and empowerment for high-performing classes. **Strategy's Expected Result/Impact:** District Assessment Results and State Assessment Results **Staff Responsible for Monitoring:** Campus Administration

C. Stainke Elementary

2021-2022 Campus Improvement Plan

Mission Statement

The mission of C. Stainke Elementary is to nurture and educate students who are prepared, responsible, attentive and ready to embrace their future in a safe and supporting environment.

Vision

The vision of C. Stainke Elementary is to create a place where all students are encouraged to strive for excellence academically, socially, and emotionally in a safe and supportive atmosphere to prepare them to be responsible and productive global citizens.

Goals 31
- Goal 1: Stainke Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. 32
- Goal 2: Stainke Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 41
- Goal 3: Stainke Elementary will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 48
- Goal 4: Stainke Elementary will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations including field trips and out door activities. 67
- Goal 5: Stainke Elementary will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 91

Campus Funding Summary 101

Comprehensive Needs Assessment

Demographics

Demographics Summary

How do we describe our school?

C. Stainke Elementary is an elementary school in Donna, Texas in the Donna I.S.D. school district. The campus houses Pre- Kinder -5th grade including a PPCD unit and a self-contained unit. It currently has a total of 478 students enrolled for the 2020-2021 school year. Stainke elementary is dedicated to ensuring all students receive a quality education. Stainke Elementary is considered a neighborhood school where most of our students are bussed or dropped off at the campus. The district is an open enrollment district and has been for the past 2 years, this allows parents to have a choice as to what school their children are enrolled in. Stainke elementary is a forerunner in setting itself apart from the other elementary schools in the district. The campus initiated afterschool clubs not offered at other elementary campuses. These clubs included but were not limited to; Chess club, Culinary club, Folkloric, Spelling club, Book club, Gardening club and Robotics. The Stainke robotics team is leading the district by garnering state recognition in competitions, by winning the NASA Mars rover challenge, they continue to set themselves apart.

Who are our stakeholders and are they included in the planning process as authentic, valuable, contributing partners in the development and implementation of the improvement plan?

The individuals who are invested in our campus include, the administration, teachers, staff members, parents, families, school board members, community members and local business members. These stakeholders understand the importance of having a successful campus and therefore encourage participation in activities that take place on our campus. Activities that the parents are invited to participate in include RtI, ARD and 504 meetings, celebration parades for students, meet the teacher, and CLPAC and DLPAC including parent participation and input. By supporting campus events, this guarantees the success of the campus.

Do our special programs align with the needs and desires of our students, parents, and community?

C. Stainke Elementary aligns its philosophy and beliefs to the needs and desires of our students, parents and community. Our mission is to nurture and educate in order to prepare students to embrace the future by providing a safe and supporting environment. We create a place where all students are encouraged to excel academically, socially, and emotionally preparing responsible, and productive global citizens. Special programs like the Gifted/Talented program allow for those students who achieve beyond the norm to be identified and then accommodated in the regular classroom setting, teachers implement lessons that challenge and encourage higher order thinking in these select students. The Bilingual program stands as a platform to help the English language learners in our school community. The bilingual program that has been implemented in the lower grades is Biliteracy, this seems to be a replica of the Dual language program which we the teachers were familiar with. The upper grades levels are working with the Early exit model and giving supports to the students in their language during instruction. The Special Education program that is implemented on our campus, includes the resource program, the Special Education teacher works with the student in the classroom setting allowing the child to continue to feel a part of the classroom. Stainke Elementary also supports a Pre-K program, students ranging from the ages of 3-4 years old get an early start in their academic journey. At C. Stainke Elementary teachers encourage all students to continuously do their best.

School environment Data

What are the student behavior trends including discipline referrals, suspensions, and expulsions? How are discipline issues affecting students and learning?

The current school year had no discipline referrals, suspensions, and expulsions. Due to Covid-19 pandemic and average of 67% of students were learning from home, and a 33% of

students were on campus. Students on campus were limited to their mobility in the classroom and this reflected in the student. This ensured the students kept in their own bubble and this resulted in less interaction, therefore limiting the chance of any misbehavior in the classroom.

What is the student's mobility and rate? What systems are in place to assist these students? Where do students go and come from?

Students mobility rate for the current school year was not yet available. The most current information available is from the 2018-2019 school year which was at 14.8%. The PEIMS clerk calls to determine the reason for the withdraw then it has to be coded on TEAMS. These students go and come from other states, and or school districts, this year we had 7 students who were withdrawn and left to Mexico, and one students family relocated to Japan.

What is the average class size, student-to-teacher ratio and student-to-staff ratio?

At Stainke Elementary the average class size is 20 students per teacher.

What are the attendance/tardy, truancy and drop-out/ retention rates? What trends are seen over the last 3-5 years? What strategies are in place to promote high attendance? What are the campus procedures to track and respond to unexcused absences, tardiness and other practices to improve attendance? What does the student level data reveal about excused absences, and unexcused absences and tardiness?

The attendance rate over the past five years has fluctuated. Data shows that from the year 2017 to 2021 C. Stainke has had an average attendance rate of 96.9% and this year the average is 98.73%. Monitoring attendance has been different this year. Due to the covid-19 pandemic and online learning teachers have undertaken the responsibility to ensure students login into classes daily and on a timely manner. When students fail to do so, the teachers are to immediately make contact with the parents via any means available. Teachers posted attendance by 9:45 A.M. if the teacher was not able to communicate with the parent the students were marked absent. Parents had until the end of the day to communicate with the teacher, if teacher was able to make contact with the parent by the end of the day and classwork was turned in, the students un-excused absence was changed to RAP. When there was no response from the parent's students are marked absent and then the attendance clerk will try to make contact with the parents as well. Our campus procedures to track and respond to unexcused absences our principal, counselor, and curriculum specialist made multiple home visits throughout the year and visited with those students who had multiple un-excused absences or making contact was difficult. Teachers in the classroom continued to contribute and promote perfect attendance and rewarded their students.

Students

Race/ Ethnicity (7 groups)

How many students do we serve by race/ethnicity? List the percentage of each group: African American, Asian, Hispanic, White, American Indian, Pacific Islanders, Two-or-More Races/

At C. Stainke 99.58% of the student population served are Hispanic and 0.19% are two or more races.

How do the number of males compare with females by grade level?

According to the data gathered 53% of the student population are males, and 47% of the population are females for the current school year.

How does this information differ from the previous 3-5 years?

Throughout previous years the student population has remained constant due to our area being Hispanic dominant.

Student Groups

The student groups we serve at C. Stainke are:

- Economically Disadvantage: 447 students, 93.51%
- English Language Learners: 227 students, 47.49%
- Migrants: 14 students, 2.93%
- Special Education: 48 students, 10.04%
- At- Risk: 377 students, 72.87%
- Title 1: 478 students, 100%
- Homeless: 20 students, 4.18%
- Foster Care: None
- Dyslexia: None
- Gifted and Talented: 40 students, 8.37%

What do we know about the needs of each of the groups of students we serve, especially those who are failing or at risk of failing?

C. Stainke has a total of 377 students who are At-Risk. The current coronavirus pandemic is having a profound impact, such as the closure of our schools to try and contain the spread of the virus. Due to this all of this we saw the greatest impact on our students, but especially on the most vulnerable ones who are more likely to face additional barriers. All of our student groups were deprived of physical learning opportunities, social and emotional support available in schools. Although our school did re-open in the fall of 2020 many students did not return to school, parents decided to keep their children at home and that they continue with online learning for the entire school year. For students who were attending school virtually, there may have been a parent, adult, or older sibling at home who was able to help them, yet others did not have that stability of someone offering that support that they needed.

Who are our staff members? How do their skills, training and certification align with our students' needs and demographics? Discuss the percentage of state certified (traditional certification and alternative certification methods), number years' experience, race/ethnicity, school leaders preparation and leadership capabilities. and how these differ from previous years.

C. Stainke Elementary is a school that has a very low staff mobility rate, staff members are content and this is noticeable by the fact that staff only moves when it is necessary, as per the district or when someone retires. This is in part to the school culture and climate, the staff is comfortable where they are and have a sense of loyalty to the school. The staff that makes up Stainke Elementary include, teachers, custodians, administration, cafeteria and other staff. There are currently 64 staff members at Stainke Elementary. The professional staff or teachers are numbered at 28, out of these 28 teachers 18 or 64% were certified through the traditional certification and 10 or 36% were certified by alternative certification. Teachers at Stainke Elementary are predominantly of Hispanic origin, 25 out of the 28 teachers are female and 3 out of the 28 are male. Teachers at Stainke Elementary take their professional development very seriously. This year because of the pandemic most professional development was done online. Some of the trainings attended were the Academic Digital Summit, Bilingual ESL Educational Summit (these continued throughout the semester), there was the T.E.A. Science Safety Training, Content Area Writing with Kim Carlton, Technical Assistance for Guided Reading, and Writing Instruction in Virtual Classrooms, just to name a few. These trainings were an added support for everything that had to be done this year. As stated before the campus has a low mobility rate, so therefore the teachers that stay have acquired a number of years under their belt. There are teachers who have 31 years of experience, 15 years of experience, and even some with as little as 5 years of experience. Most teachers though are veteran teachers with more than 10 years of experience. Teachers at Stainke Elementary hold a Bachelor's degree from an accredited university, and the percentage of teachers who hold a Master's degree or higher is very low. The percentage of teachers who have a Master's degree is about 14%. Again as mentioned before due to the nonexistent mobility rate, the trends have remained the same.

What is our community like and who are the residents? Describe the community and residents, including parents. Details might include major professions, labor markets, age, status of community (growing, declining), languages spoken, diversity, family income levels, family education levels, homeowners' vs renters, crime rates, emergency services, recreation centers…

The community of Donna, where Stainke Elementary is located has a population of 17,161 (as of July 2020). The community usually commutes to work to Weslaco or McAllen for their jobs. The biggest employers in the City of Donna include Wal-Mart, Donna Independent School District and currently the Immigrant children's center. Living arrangements are as followed, there are a total of 6,465 housing units, out of these 3,232 are home owners, 1,802 are renters occupied and 1,430 are vacant. This means that 62.3% are home owners and 37.7% are renters. The average household income in the city of Donna is about $43,729, this puts Donna at a 36 on the Wealth index, way below the wealth index level. The population of Donna is made up of 83.7% White (Hispanic), 11.38% some other races, 4.15% two or more other races, 0.57% Asian, and 0.17% Black. When it comes to language 16.76% of the residents in Donna speak only English, while 83.24% speak another language, this language being Spanish. The labor force includes the following, 51.6% Labor Force Participation, 48.8% Employment Rate, and 5.3% Unemployment Rate. 81.45% of Donna residents were born in the United States, with 70.29% having been born in Texas. 11.69% of residents are not US citizens. Of those not born in the United States, the largest percentage are from Latin America. Donna had a crime index of 3, when compared to other cities of similar size and population, this rate is very high. Information about education and need, can be established as a source for the crime in the city. The city of Donna does have its own police department and fire department, but has to depend on the other cities for hospital care. The closest hospital is Knapp Medical center in Weslaco, located 4.8 miles away.

Demographics Strengths

1. A community school-students are a legacy (families will stay and all children will attend).

2. Low Staff Mobility rate, loyalty of teachers to the school and the students.

3. School clubs and activities (on pause because of Covid pandemic, but teachers and students can't wait for next year).

4. Technology use this year (online classes, meetings)

Student Learning

Student Learning Summary

1. Did all students, at a minimum, receive the same score as the previous year? Identify students who are designated as “Does Not Meet”, “Approaches”, “Meets”, and “Masters”. If not, why?

STAAR Assessment (May 2021):

3rd Grade

- Math: Approaches 17%, Meets 7%, Masters 2%
- Reading English/Spanish: Approaches 46%, Meets 11%, Masters 4%

4th Grade

- Math: Approaches 24 %, Meets 13%, Masters 0%
- Reading English/Spanish: Approaches 40%, Meets 21%, 5 Masters %
- Writing English: Approaches 29%, Meets 9%, Masters 3%

5th Grade

- Math: Approaches 43%, Meets 16%, Masters 10%
- Reading English/Spanish: Approaches 57%, Meets 25%, Masters 14%
- Science: Approaches 22%, Meets 4%, Masters 0%

The STAAR assessment was cancelled for Texas students for the 2019-2020 school year. Texas schools opted for distance learning due to COVID-19 pandemic, therefore there is no STAAR data this school year to compare with the previous year’s.

2. What are the results on other assessments? Include comparison with other relevant assessments including district/campus-based assessments.

TELPAS: Pending results from TEA.

Kinder, second, and third grade students showed an increase in students testing at the Monitor level, while first, fourth and fifth grade students showed a decrease at this level.

Kinder, first, third, and fifth grade students showed a decrease in the number of students who tested at the Support level, while second and fourth grade students showed an increase at this level.

Kinder, first and second grade students showed a decrease in the number of students who tested at the Enrich level, while third, fourth and fifth grade students showed an increase at this level.

3. Which student groups are staged in the Results Driven Accountability (RDA)? Why? Is there a significant difference between the performances of different student groups? Why?

No STAAR and TELPAS results from 2019-2020 school year due to COVID-19 pandemic.

(Pending results from 2020-2021 TELPAS scores)

4. What trends and patterns are identified when student performance scores on state assessments and RDA are compared over a period of 3-5 years? How do the same students perform as they progress from grade to grade? From subject to subject?

No STAAR and TELPAS results from 2019-2020 school year due to COVID-19 pandemic.

(Pending results from 2020-2021 TELPAS scores)

5. How are individual student needs identified? How are student-specific services and interventions determined, implemented, monitored, adjusted and evaluated? What structures, including RtI, are in place to support each student?

Response to Intervention is implemented every six weeks. Teachers are able to monitor students who are struggling in the areas of math and reading. Teachers provide interventions such as guided reading, small group instruction, Action plans, Imagine Math, Imagine Literacy, Istation, CLI Engage, MClass Amplify. Supplementary instruction is documented through IPIs (Intensive Plan of Instruction).

Migrant tutorials are provided from Kinder through 5th grade by Dora Ruiz, Diana Rivera, and Angela Soto. Migrant tutors assisted students with mathematics and reading. Tutorial services were provided to all students who were in need of assistance. Students classified as migrants were eligible to participate in migrant tutorials.

6. How do achievement rates of special education students compare with non-special education students? What plans are in place to support special education students? Their teachers?

Teachers deliver instruction to reach all students, while implementing needed accommodations to facilitate the learning process to even the neediest of learners. However, even with these accommodations in practice, special education students usually have a lower success rate compared to their peers. Students in our special education group usually score lower than our non-special education students. Some plans of instruction are resource classes, inclusion, intense tutoring for those failing, and targeted action plans are developed at the end of every six weeks based on their needs. Teachers then implement these plans in the classroom to better prepare our students. Students are more successful when proper accommodations are in place.

When a special education student receives a failing grade in a core content area, the general education teacher and the special education teacher must create a Student Action plan. The plan outlines the reason(s) for the failing grade, student statement, and plan of action teachers will take to prevent students from failing the next grading period. The plan is sent home for parent signature. This is implemented every progress and report card period.

Special education students who did not meet state standards in the state assessments will receive an Intensive Plan of Instruction (IPI) in the failed subject area the following school year as per IEP. The plan targets specific areas of weakness based on assessment results, outlines the form of instruction (computer program or direct tutorials), and indicates the staff responsible, the frequency and duration of the session. This is to ensure special education students receive support and make progress in specifically targeted areas. Implementation is documented with service logs.

STAAR Online tutorials give additional language support. Students can practice..

7. How do achievement rates of Section 504 students and students in other special programs compare with all other students? What plans are in place to support them? Their teachers?

Our 504 students and other special programs students at times do score lower than the rest of the students. The plan of instruction for these students is intense tutoring for those failing such as, small group instruction, reteach, peer tutoring, one to one, targeted action plans, special tutors (migrant/inclusion/LEP) who work with them closely to become successful. Teachers also modify the classroom environment, adjust their teaching strategies, or make other adjustments to meet the students' needs. Teachers communicate with parents effectively with parents to keep them informed of student progress.

8. How do achievement rates of students in the six state special allotment programs (gifted/talented, CTE, Bilingual/ESL, SCE, High School Allotment, and Special Education) and the federal Title programs compare with all other students? What plans are in place to support them? Their teachers?

Masters	0%	N/A	%	0%

The STAAR test was cancelled for the 2019-2020 school year in light of the pandemic, therefore a comparison cannot be made.

9. What interventions are in place to support students who are not successful? Does the data confirm that the interventions are working?

Some interventions that take place at our campus are targeted action plan, small group instruction, reteaching, peer tutoring, one to one tutoring, special tutors (migrant/inclusion/LEP), extended in person and online tutorial, RTI interventions, guided reading period, Imagine Math, Istation, Imagine Learning, and intervention period.

Although there was an increase in Imagine Learning/Galileo from the BOY to the EOY assessments, there is still room for improvement as indicated by STAAR data.

10. Are the SSI, ARD, LPAC, 504 and other committee decisions concerning state assessments and interventions appropriate and beneficial for students?

Yes, students benefit from committee decisions and interventions concerning state assessments. These interventions allow students to receive more individualized instruction therefore students' academic performance increases. Components discussed in the meetings are teachers' observations, bundles grades, comprehensive exams, benchmarks, reading levels, and state exams. Members discuss and analyze data based on individual student needs. The committee decisions concerning state assessments, interventions and accommodations are put into action by classroom teachers.

11. How is Response to Intervention (RtI) being implemented? How are students identified and placed in RtI? Are the RtI processes and implementation effective? How is the RtI process affecting referrals to special education?

Students who show minimal or no improvement after accommodations are regularly implemented are considered for referral to special education for testing.

The RTI committee consists of teachers, counselor, and administrators. The committee meets every six weeks for students on Tier I and Tier II and every 3 weeks for students on Tier III. Documentation is kept by teachers and uploaded on SuccessEd. Documentation should be updated every six weeks by the teacher and counselor.

The committee analyzes data such as report cards, assessments, attendance, and behavior. After identifying the struggling students, the committee makes contact with the parents to let them know about the committees' action plan to provide the student additional instruction support. Teachers utilized an action plan to meet the needs of the students identified as needing support. Teachers provide students with instruction aligned to data, differentiated instruction, extended day tutorial, reteach, and intervention period to target the needs of the students.

The process is effective when teachers routinely implement and monitor recommendations made by the committee. Students who are ultimately referred regularly meet criteria for special education identification. Parental support is crucial when students are moved through the RTI process.

12. What tools are available to ensure that strategies are designed to improve student performance?

Teachers use the program Eduphoria which contains students' information, state mandated assessments, and district assessments. Teachers utilize this program to identify target students' areas of need and plan lessons based on individual students' needs.

SuccessEd program is another tool that teachers use to monitor students every six weeks. Teachers track compliance and services provided to students in special education, section 504, RTI and EL (ELLA). Teachers maintain LPAC meeting information, parent letters and reporting.

Teachers stay after school for online and in person extended day tutorials Monday through Wednesday. Teachers provide tutorials based on students' data such as reading levels, bundle exams, district exams, and computer programs.

Teachers have PLC meetings once a week. These meetings allow teachers to work collaboratively on planning for instruction, intervention, analyzing data, and suggesting and or sharing ideas of content area implementation.

Teachers utilize the following technology programs to help individualize instruction: Istation, Imagine Math, Imagine Learning. These programs assist the students to practice in areas that they struggle.

In addition, other tools teachers use are supplemental aids and guided reading to facilitate learning.

13. How many students fail one or more courses each year? What subjects? How many students are retained?

The majority of course failures are in the areas of Reading and Math.

14. What do classroom observations reveal about class sections with high course failures?

Observations reveal that teachers are not implementing Guided Reading, Phonics and computer programs consistently at scheduled times as evidence in District personnel feedback. Teacher assistants need to stay daily in the classroom to provide support to students.

Lack of a system such as motivational activities or incentives and/or classroom routines are needed to keep students engaged in their learning. Ineffective classroom management and high student and staff absenteeism rates are all contributing factors to high course failures. As a campus, we need a system in place to target these areas.

15. How does the campus systemically address reteaching for students who are absent, particularly for students who are at-risk of failing?

Teachers deliver instructional support to students that are absent or at risk of failing by providing extended day tutorials and intervention time daily.

As a campus, we need a system in place to target those students who are consistently absent or tardy.

Student Learning Strengths

Student Academic Achievement Strengths:

1. Students successfully learned and utilized a new learning management system and multiple programs to receive instruction, review objectives, and remain engaged in their learning.
2. Students benefited from their participation in tutorials.
3. Students interacted appropriately during online learning.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: The RtI process has not reached its full potential due to lack of fidelity. **Root Cause:** Meetings are not being held in a timely manner.

Problem Statement 2: Reading scores are not comparable to math. **Root Cause:** A lack of fidelity to guided reading and Sing, Spell, Read and Write and an inconsistency in PK -2nd literacy routines.

Problem Statement 3: The correlation between classroom grading and local bundles varies. **Root Cause:** The nature of the assignments in the classroom, report grades may not be in the same range as the assessment.

Problem Statement 4: Students are not mixed by academic ability within their grade level. **Root Cause:** Not all teachers are bilingual certified.

Problem Statement 5: Students are not reaching Meets and Masters level. **Root Cause:** Curriculum is lacking resources to spiral reading skills adequately.

School Processes & Programs

School Processes & Programs Summary

What is the process for recruiting and retaining high quality staff? Explain the recruitment, hiring, placement, development, evaluation, and advancement of high-quality staff, including highly qualified paraprofessionals. (Note: Some districts or charters might consider this to be a district-level or charter-level responsibility and not a campus responsibility.)

Highly qualified applications come from central office. Once in place school/campus staff interview based on campus needs. Then hired teachers are placed where they are needed and or are certified to teach. They are evaluated using Strive on Eduphoria and TTESS and are given immediate feedback if standards are not met. Administration also assigns a mentor teacher to help and guide the newly recruited staff. All new teachers must be in compliance with state and district requirements. All DISD teacher are almost always offered ways to maintain their high quality education, such as through achieving their masters through district initiative. All paraprofessionals are screened and placed in the same way teachers are hired, they also must abide district and campus expectations.

What is planned for professional development? Describe how professional development is planned and the current impact it provides.

Professional development is usually planned by administrators or central office personal based on the need of the subject area or campus. Data is gathered and analyzed to determine appropriate needed. The impact of PD's are to help teachers and administrators see different views on how to teach, approach and target the needed area in a diverse perspective and raise the bar a step higher than the previous year. Once implanted the effects are usually positive and students are successful. Some PD's teachers attended this year were geared mostly towards virtual teaching, however with the return to campus staff would like to attend the following professional developments: Reading/Writing-Diana Ramirez (Pre K-2nd and 3rd-5th) and any new computer software programs that can be utilized in the classroom to help with instruction.

How are decisions made in our district? Describe how PLCs or other leadership groups participate in decision-making.

Decision in our district are made through the following committees: At district level- DLPAC, Superintendent/ Board Meetings, Principal meetings. At campus level- CLPAC, grade level meetings, LPAC, CNA committees, ARD, 504, RTI. At classroom level- principal, teacher, parents/students.

Our superintendent/School board members (made up of community members) make decisions about priorities and goals. A Directors/principals has to align priorities/goals with the district. Directors/strategies/teachers make up our PLC professional learning. At meetings strategist and teachers review what they have learned, evaluate the school year and get training to promote positive student outcomes.

Do we include teachers and other staff in decision making? Discuss methods used for seeking meaningful consultation from teachers and others on how best to improve student achievement.

Yes, everyone is included in the decision making process, through CLPAC committee, grade level meetings, LPAC, CAN committees, ARD, 504, RTI and DLPAC representatives. At these meetings teachers and administration collaborate on ways to help the different student groups in our school, by discussing grades, benchmark, comprehensive & STAAR scores, student grouping, resources needed are for grades K-5th:

***STAAR review materials((English/Spanish),**

*** STAAR coach((English/Spanish))**

***Forde-Ferrier-fastfocus (Eng./Span.)**

*** Mentoring minds (English/Spanish)**

*** Staar Ready (Eng./Span.)**

*** Kamico (Eng./Span.)**

*** Think-up (Eng./Span.)**

***Classroom Libraries**

***Dictionaries (Eng./Span.) (Electronic)**

***Sing, Spell, Read and Write (All grade levels)**

*** The writing notebook (All grade levels)**

*** Tutors (migrant & bilingual), Tutorial (during school/afterschool/Saturdays), and possible teacher trainings in and outside of the district for the different subject area especially but not limited to Reading, Writing, Math, and Science.**

What are the goals for the campus and the district? What are the target areas and how will they be stated as measurable performance objectives? What data sources will be used throughout the year to monitor progress? How often?

DISD district goals are:

In the area of reading in grades K-2nd is to have students reading at or above grade level at the end of the year (K-80%, 1st-70%, 2nd- 75%). The goal is to increase the percentage each year successfully within the next 4 year.

In the area of Math in grades K-2nd is to have students master math at or above grade level at the end of the year (K-20%, 1st-26%, 2nd-20%). The goal is to increase the percentage each year successfully within the next 4 years.

Campus Goals:

Campus goals are similar to the district goals however they are tailored to our campus needs and populations of our student community. Students in K-2nd are still expected to surpass or maintain the district reading goals as well as 3rd-5th on their STAAR test scores/reading & math level goals. Each year our grade level scores change based on student performance the pervious year. These goals are not limited to STAAR and Reading levels as there is also tailored to TELPAS, Circle Time, weekly assessments, benchmarks/comprehensive exams, etc. Teacher and administration also set goals for these cumulative assessments.

Data used:

Some of the data observed in these goals come from readiness assessments (K-2nd), Circle time (Pre-k), mClass Amplify (K-2nd), STAAR/ benchmarks/comprehensive/Diagnostic exams/ weekly assessments (3rd-5th), TELPAS (ALL grades), Istation Spanish & Imagine literacy (3rd-5th) Imagine math (3rd-5th).

How are the goals, performance objectives and strategies communicated? What expectations exist for formative and summative reviews?

At the district level goals, performance objectives and strategies are discussed at weekly/monthly meetings with directors and strategist, professional developments, out of and in district trainings, it is there expectations are reviewed and sporadic walk throughs are accompanied. At campus level goals are communicated through grade level meeting and staff meetings, they are then followed up by walk-through, formal observations, T-tess observations, SLO documentations, STAAR Scores, and Istation (Spanish)/ Imagine Reading/Imagine Math. All of these expectation reviews can be found on Eduphoria and Strive.

How will the campus and/or district ensure that needs are analyzed until root causes are identified and that only problems within the sphere of influence are addressed? How are needs prioritized?

We do this through our CNA. We analyze the data, determine needs and strengths, and then do the root cause when we input into Plan4 Learning. We also make sure that it is reflected in our CIP. As far as prioritizing our needs we just try to address them all and keep up with where we are at throughout the year by monitoring the progress on our CIP Formative Reviews.

Is the campus focused on improving student academic achievement? Is there a sense of urgency and strong commitment? What processes are in place to ensure that the daily demands of the campus do not overshadow a focus on improvement?

As a campus at the beginning of the year and throughout we collaborate on ways that we can improve and motivate students to achieve academically, such as acknowledging student success in honor roll by rewarding them with an incentive and placing their name on the hall of fame wall, we also recognize top students in the classroom each six weeks with a Super Star parade, for perfect attendance we award them with no uniform, electronic day or a small treat/goodie bags. Our campus also showcases top students and classrooms in Ar, Istation, Imagine Math, STAAR, and benchmark tests by displaying graphs and goals met down our main hallways, from time to time students also receive small incentives for their great work. These rewards really help our students look forward to that goal and will work hard to meet it. These processes are in place throughout all grade levels and when students travel from grade to grade already know what the daily demands need to be met and are what they need to focus on to improve in a certain area.

Is a school improvement monitoring calendar in place allowing the campus or district to revisit its strategies through a formative assessment process and make mid-course adjustments? Note: The HB3 Plans require a monitoring calendar for when each progress measure and goal result will be reported to the board. This can be one and the same.

Yes, our school district offers different times throughout the year to monitor formative assessments, which allows teachers to access data and revisit strategies and classroom tactics. At the end of each six weeks and semester teachers and administration meet and collaborate to see what changes if any should be made to help students be more successful in meeting our goals. For example, we use data from Reading Readiness which is measured at the BOY, MOY, and EOY, also Istation/Imagine/Reasoning Math, mClass Amplify which are measured monthly to evaluate student's math and reading skills. Finally, we use the six week, diagnostic/comprehensive, STAAR, TELPAS assessments throughout the year to see if students are showing growth. As assessments are prescribed and data is read it is at that time that proper adjustments are made.

Is there evidence of how the curriculum and instruction increase student achievement? Discuss the well-rounded program of curriculum and instruction and how all students, especially those at-risk, are given opportunities to meet challenging state academic standards. Consider data for increasing the amount and quality of learning time and providing enrichment and acceleration.

Currently there is no evidence that our curriculum has increase student achievement, the number remain the same as in years past and there seem to be no change to the curriculum. We are preparing for new ELA curriculum for the 2021-2022 school year and we hope to get extra support in our area of LEP, RTI students, and special education. This group of student is not showing progression since years past and teacher are struggling to show gains and are in need of extra resources such as

***STAAR review materials((English/Spanish),**

*** STAAR coach((English/Spanish))**

***Forde-Ferrier-fastfocus (Eng./Span.)**

*** Mentoring minds (English/Spanish)**

*** Staar Ready (Eng./Span.)**

*** Kamico (Eng./Span.)**

*** Think-up (Eng./Span.)**

***Classroom Libraries**

***Dictionaries (Eng./Span.) (Electronic)**

***Sing, Spell, Read and Write (All grade levels)**

*** The writing notebook**

*** Tutors (migrant & bilingual), Tutorial (during school/afterschool/Saturdays), and possible teacher trainings in and outside of the district for the different subject area especially but not limited to Reading, Writing, Math, and Science.**

PK does have the CL1 program, they are getting special training to be able to incorporate it into their teaching.

How do our special programs meet the needs of students? Explain anything significant with enrollment and participation in special education, bilingual/ESL, gifted/talented (include AP/IB and advanced graduation plans), career and technical education (CTE) and dyslexia treatment.

Some of our special programs receive the attention from teachers, bilingual, regular, and migrate tutors, teacher aid who are in PK, Kinder and 1st help out throughout the day. The students in these programs receive tutoring, inclusion, one to one instruction and any special service needed to help our students. We do have a significant amount of LEP and special education students. At times with our special education students it's hard to give that special attention with only 1 teacher and 2 helpers at our campus.

GT: teachers keep up to date, Curriculum specialist work with GT with 2 projects for fall and spring.

1 identified with Dyslexia get services with 504 reading intervention program.

High number of special Education due to the campus having, the PPCD unit, Life Skills, and inclusion program. This also includes the Speech only, and OT only.

Bilingual: every 6 wks. we update the LAP Checklist to provide accommodations.

Do we have a plan to implement and improve instruction in STEAM? Include a statement on the status of programming in science, technology, engineering, art and mathematics (STEAM), as appropriate.

A plan or guideline is accessible to help improve instruction in STEAM. The curriculum on SharePoint provides a plan that science and math educators may implement. The TEKS are used to guide instruction in technology. Our campus is currently using Learning.com to help implement these TEKS. Our after school robotics club/team is assisting in the area of science, technology and engineering.

How do we provide equitable services to all students? Discuss the status of equity of services for all students.

We did not have a class size reduction in any grade level. Class sizes remained steady at about 18 students per teacher, but teachers were moved due to decreased grade level size.

What effective transition activities do we provide at various grade transitions? Explain data findings on procedures to support students during all transitions: early childhood into elementary, elementary into middle/junior high or junior high into high school, high school to postsecondary.

Due to covid we did not have extracurricular activities , however we plan to have activities after school such as: Clubs such as chess, folklorico, arts and crafts, choir, culinary, robotics, Cheer and book club were added for all grade levels. 5th grade students participate in afterschool athletics activities such as volleyball and basketball.

Grade levels 3rd thru 5th have students representing them in Student Council.

We have seen an increase in more parent request testing for special education. Earlier detection of special needs allows a student to obtain services at an earlier age

increasing allowing them to succeed.

What is our classroom management plan? Discuss significant findings in classroom management and explain procedures used to reduce overuse of discipline practices that remove students from the classroom.

This year our district/ Our school follows our District and classroom management plans. In the classroom teachers have a set of rules and expectations that students must follow. We also have a district management plan in place if teachers need to write referrals. The plan is used to make documentation, make parent contact, teacher consequence action and finally a referral of the behavior observed. Sever cases result in suspension in and out of school and or expulsion. After many discipline referrals a student is sent to DAEP, but not until all measures have been taken. Teachers must have a case serve enough to write a classroom referral.

What is our plan for school safety? Discuss data for bullying, drug, violence and suicide prevention, as appropriate.

School safety is a priority at our campus, to off set any issues we supply the staff and students with an abundance of helpful information. This is done through presentations by our community and counselor (TED E. BEAR/Border Patrol- drug abuse, Happy the comedian-self esteem, Career day-future goals, Transportation- bus safety, Oscar Munoz). This addresses the topics of bullying, drug use prevention, violence, and fire preventions. We also have monthly fire drills and periodic lock down practices to prepare our students for any emergency. We also have a new camera system in the entrance of the school and now have locks in the inside of each classroom.

What is our plan for school safety drills? How do we know that students and staff are well-trained? (Note: Be careful about not revealing too many details about safety plans since the CIP/DIP is a public document.

At our campus teachers begin the year reviewing our emergency exit plans which are present in each classroom. These are practiced periodically and students are trained on what to do. Staff also get extra professional development trainings on new or updated practices and then relate the plans to their students.

How do we address safety issues to reduce the number of incidents that occur? Discuss data on unwanted physical or verbal aggression, sexual harassment, dating violence, sexual abuse, sex trafficking, and other maltreatment of children, again, as appropriate.

Our staff gets trained yearly to be able to handle or identify situation that may occur on campus. They also get familiarized with how to recognize issues with student who may make outcries or show signs of distress and how to report it.

School Processes & Programs Strengths

1. Online professional developement on usage of technology in the classroom.

2. Consistent feedback with Adminstrators to discuss data

3. The purchase of some classroom libraries and new dictionaries for students and staff.

5. Teacher were able to do after school tutoring

6. Teachers recieved new laptops

7. Teachers learned how to teach online through distance learning professional development ideas

8. Students recieved chromebooks

9. The purchase of student resources such as but not limited to books/supplies/classroom materials for reading, writing, science, and math

10. Consistant student incentives and rewards

11. Newly installed safety inside door locks for all office and classroom.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Reading levels were low across all grade levels and campus did not meet their EOY goals **Root Cause:** At home learning and lack of fidelity to guided reading, sing-spell-read-write, inconsistency of monitoring during testing

Problem Statement 2: Old technology devices need to be updated. Ex. Projectors/smart boards **Root Cause:** lack of funding

Problem Statement 3: Updated STAAR material for RLA, Science, and Math **Root Cause:** new STAAR test will be administered 2021-2022

Perceptions

Perceptions Summary

42. Do our students attend school daily? Define the attendance rate and if lower than desired, disaggregate it by the seven race/ethnicity groups.

School attendance goal at our campus was 98% percent. Student attendance for this year was 99.73. The ethnicity group attendance is as follows, Hispanic 99.58, white/other 0.21% & two or more 0.21%

43. How does student behavior impact instruction? Describe what is significant in the data about behavior, disciplinary patterns, disciplinary alternative education placements (DAEP) and any differences between the seven race /ethnicity groups and five student groups.

Our student behavior has been very positive. No referrals.

44. What strategies are in place to reduce the threat of bullying? Does the data confirm the strategies are working?

Our school district has adopted the- Administrator's Anti-Bullying Toolkit which is available for all staff. Our campus provided activities throughout the year to promote anti-bullying. Our school counselor provided Anti-Bullying Read Aloud to all grade levels during lunch time. The following are school activities that were implemented to promote "No Bullying" at our school. The district also has adopted the Learning.com cyberbullying program which also helps students stay safe.

1. Anti-Bullying Sessions for all grade levels were provide in person and through remote learning by school counselor and librarian.

2. Red Ribbon Week

3. Online recognition to Super Star students was provided to students.

45. What percentage of students are sent to the DAEP or juvenile justice alternative education program (JJAEP) for discretionary purposes? Mandatory purposes? For what offenses? Is one student group more heavily represented than others?

Our overall student behavior was good. We had 0%

46.What support do we provide students struggling with behavior? Discuss results of any mentoring, peer mediation, etc. or other ways of reducing conflict.

Students who are having behavioral problems are referred to the counselor

47.Do our students successfully graduate in a timely manner? Describe the dropout rate or graduation rate and differentiate it by the seven race/ethnicity groups and five student groups. (Middle and High Schools)

N/A

48.How do students describe their campus? How does this differ from teachers' descriptions?

Comparing this data to the staff it does slightly differ. Although most said that they feel the campus is friendly and inviting. Others go on to state that the campus is an Excellent place. Although we did have many positive responses it is important to state that of the 37 staff members that were surveyed several did say that the roof needs to be repaired. Every time it rains, we have new leaks across the campus. Another did mention that it is old, and it can use an update.

49.How do students describe campus life with regards to respect, relationships, behavior, support, belonging, etc.? Do all student groups have the same perceptions? How does this perception compare with their teachers' perceptions?

After surveying our students and staff, both students and teachers describe campus life as inviting, supportive, positive, and a safe place to learn and work.

50.Are effective procedures in place to promote safety? Do students feel safe? How do we know?

Our campus, we have different procedures in place according to the severity. It was important to establish a one main entrance and a secured door at the back entrance for P.E. purposes to reduce the amount of parents and visitors to maintain our overall campus safety and to monitor anyone entering through the back entrance. Our district initiated school safety this past school year by installing a security door identification system with a camera and door lock. This heightened the security at our campus, making it effective for secretaries and front office personnel to be vigilant of incoming visitors. Safety of our students and staff was our main concern, all staff were issued security cards to enter the building. No official survey was given to students but verbal observations let staff know that students felt safe while at school. Safety procedures are practiced throughout the year.

51. Do we retain teachers long term? Explain the turnover rate and how this compares with previous years.

Stainke Elementary is recognized as a friendly, positive campus which is the main reason that our teacher retention is low. Most teachers have no desire to transfer. Stainke Elementary teachers have made this campus their ideal place to work, the following are years that teachers have worked at this campus: The following are the years' teachers have working at our campus:

1-5 yrs. -4 teachers

6-10 yrs.-11 teachers

11-20 yrs.-12 teachers

20 or more- 2 teachers

52. How do we support inexperienced teachers? Discuss any staff mentoring results.

If teachers are new they have the support of the principal, curriculum specialist, lead teacher and are also offered a mentor teacher to help them adjust to the new teaching life. New teachers receive new teacher orientation through the district and they are paired up with a mentor teacher on campus. This year we had a new teacher who was able to be mentored and did well incorporating new learning methods in the classroom as well as her knowledge as a teacher.

53. How do teachers view the climate and culture of the district and campuses? Summarize any climate and culture survey reports.

After summarizing the teachers' overall view of campus and district, most teachers viewed a strong family engagement in student learning. Family is a priority at our campus and district. Family interaction and reaching out to our community is top priority.

54. What are teachers' expectations for parental involvement? How do we know?

Teachers would like to see more parental involvement during and after school activities; which is one thing that is still improving at our campus. Our new parent educator, Mrs. Gonzales is willing to work diligently to better support teachers and parents for the upcoming school year. This year she had 3 to 4 consistent parent volunteers working almost daily making copies, decorating our hallways, sending notices, and helping her prepare for her meeting with other parents. This is the most parental involvement in years.

55. Are effective procedures in place to promote safety? Do staff members feel safe? How do we know?

Effective safety procedures are routinely practiced to help students and staff be better prepared in case of an emergency. Those procedures practiced are lock-down, and monthly fire-drills. Our staff is also equipped with current staff development training's on safety that have been very helpful. All staff personnel were issued this past school year with key-less entry cards to be able to enter campus. These procedures were incorporated to promoting safety.

56. What procedures are in place to involve staff in improvement planning? How are they included in decisions? PARENT/GUARDIAN and COMMUNITY ENGAGEMENT

To improve campus planning, Stainke elementary has staff members in CLPAC and DLPAC who gather information, then CLPAC group disseminates the information to grade levels. The grade-levels then have meetings to discuss any improvements need to be made. We also have weekly staff meetings, grade level meetings, Professional Learning Committees (PLC's) and staff development to discuss ways to improve our students learning. At the end of the year our CNA group is divided into 1 of 4 groups. CNA groups collect and analyze information to update our CIP.

57. How do parents participate in the education of their child? Explain how participation rates are measured and the current data findings.

During the school year, parents participate by attending the following events; G.T. showcase- TPSP (fall-spring) summer book challenge, meet the teacher night, open house, literacy night, club performances (Fine-Arts), music performances (Mr. Guerra), showcase parade, food drives. Sign-In sheets are kept as proof of participation. Especially this year parents served as teachers to their children during distance learning due to Covid 19 and they were able to participate and engage 94% of the assignments and lessons that their child/children needed to do.

58. What are parents' perceptions of the school's effectiveness? Do they feel welcome? How do we know?

No survey was sent out due to Covid 19, however in observation of messages and comments on our campus Facebook page and Class Dojo page we do have parents who express their thoughts and opinions and the majority of messages are positive. Parents still felt needed and welcomed by our school, even if it is through social media for the mean time. Parents also maintained communication with teachers and staff through phone calls and texts.

59. How effective are communications such as the schools' website, mobile app, letters, newspaper articles, etc.? How do we know?

Some effective forms of communication at campus level are: Stainke Facebook page, District Facebook page, ClassDojo, other school information sent through; monthly calendars, parent letters, brochures, blackboard (bilingual), blackboard messages are also sent and received through email. Majority of parents use the Stainke Facebook page, District Facebook page, classdojo app, and receive messages through blackboard.

60. Are communications translated into languages other than English when needed?

Yes, most of our flyers, brochures, monthly calendars, parent letters, school events, blackboard, classdojo, remind, parent invitations, parent training's etc. are in both languages. Many teachers' notes are also typed in both languages as well.

61. Do parents and community members participate in the site-based planning committee? How are they selected? Do they feel their participation is necessary and important? How do we know?

Parents and community members are always welcomed to participate in site-based planning committees. They participate in the CLPAC and are asked to volunteer, in which they then get voted in by the CLPAC committee. The parents and community DLPAC committee members are voted in through the district. The parents feel like their input is important.

Priority Problem Statements

Goals

Goal 1: Stainke Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards.

Performance Objective 1: Stainke Elementary will focus on instructional improvement resulting in all students meeting goals for all accountability measures. The percentage of K-2 students reading on or above grade level will increase by 4%.

Evaluation Data Sources: Istation, STAAR, TELPAS, & PBMAS

Summative Evaluation: Some progress made toward meeting Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Develop, implement, and monitor a literacy plan where every student is provided the support, personalized instruction, and resources to guarantee reading on level or make a 2 years growth in reading level if student is below grade level. **Strategy's Expected Result/Impact:** Increased Reading Levels on Istation and approaches/meets/masters levels on STAAR **Staff Responsible for Monitoring:** Principal & Teachers **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	20%	75%	85%	

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Teachers will use the district curriculum and instruction guide as their primary source of instructional direction for all subject areas. **Strategy's Expected Result/Impact:** Increased number of students meeting or exceeding STAAR standards per core content area. **Staff Responsible for Monitoring:** Principal & Curriculum Specialist **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	85%	90%	100%	100%

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Develop, implement, and monitor daily instructional schedules to ensure all subject areas are taught every day the appropriate allocated minutes and implement and monitor required lesson plans for Reading, Writing, Math, Science, and Social Studies **Strategy's Expected Result/Impact:** Increased student performance as measured by District and State assessments. **Staff Responsible for Monitoring:** Principal & Curriculum Specialist **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	95%	85%	95%	100%

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Obtain and provide program manipulatives, models, consumable, non-consumable materials and any other classroom instructional materials or resources for all core content areas and all student populations. Give students Tshirts for STAAR testing days and spirit and universerity shirs. **Strategy's Expected Result/Impact:** Inventory aligned to core curriculum materials and purchase orders. Increased percentage of all students meeting District, State, and Federal Standards (STAAR, TELPAS, & PBMAS.) **Staff Responsible for Monitoring:** Campus Administration **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** - Title I (211) - $6,000, - State Comp.(164) - $1,536, - Bilingual (162) - $2,000, - Title III (263) - $800	50%	70%	90%	100%

Goal 5: Stainke Elementary will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process.

Performance Objective 5: CLPAC and DLPAC: Stainke will maintain 100% of the required members in both District and Campus Level Planning and Advisory Committees to oversee all improvement activities at least 5 times per year.

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Replace members whose term has ended through nomination and voting process. **Strategy's Expected Result/Impact:** Meeting Attendance and Sign-ins **Staff Responsible for Monitoring:** Campus Administration and Teachers				

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Members will attend meetings throughout the year as needed to oversee all improvement activities. **Strategy's Expected Result/Impact:** Meeting Attendance and Sign-ins **Staff Responsible for Monitoring:** Campus Administration and Teachers				

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: CLPAC will ensure a parent and business representative serve in the committee as outlined in CLPAC policy. **Strategy's Expected Result/Impact:** Sign in sheets **Staff Responsible for Monitoring:** Campus Administration				

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Campus personnel will be provided with campus orientation to include: handbook, campus improvement plan, master schedule, duty schedules, committees (CIP, CNA, HB5, etc.). **Strategy's Expected Result/Impact:** Sign in sheets **Staff Responsible for Monitoring:** Principal				

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Conduct a thorough comprehensive needs assessment that draws from both quantitative and qualitative data sources. **Strategy's Expected Result/Impact:** Sign in sheets, agendas, CNA narrative **Staff Responsible for Monitoring:** Campus Administration, committees composed of teachers, teacher assistants and stakeholders

Donna Independent School District

J.W. Caceres Elementary

2021-2022 Campus Improvement Plan

Mission Statement

The mission of J.W. Caceres Elementary is to collaboratively work with students, staff, administration, and parents to build strong instructional opportunities for success and increased academic performance for all students.

Vision

We will inspire dreams in our students through pride, unity, and the pursuit of excellence in order to become the change we are expected to be.

Priority Problem Statements 12

Comprehensive Needs Assessment Data Documentation 14

Goals 17
- Goal 1: J. W. Caceres Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet and exceed state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. 18
- Goal 2: J. W. Caceres Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 26
- Goal 3: J. W. Caceres Elementary will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and supports a healthy lifestyle and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 31
- Goal 4: J. W. Caceres Elementary will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 43
- Goal 5: J. W. Caceres Elementary will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning process and increased parental involvement. 49

Demographics

Demographics Summary

The 2020-2021 school year was a difficult and learning school year for students and teachers. Due to Covid-19 many adjustments and decisions had to be made in order to better serve the students that were remote learning all year. Student and staff safety was priority and going forward the campus will need to keep that in mind. The need for individual manipulatives and headphones will need to be looked at and discussed until it is safe for students. User-friendly platforms will also need to be looked at if not by the campus then by the district.

J. W. Caceres is a school working hard to help each and everyone of our kids achieve success. We go to great lengths in providing academic help to the struggling students and support the students who are at or above grade level improve even further. We use the help of any willing parent and community member, whether individual or an organization, to improve the experience and academics of our students. Although J.W.C. has worked hard at creating a strong community within and outside our walls, we are still in need of greater parental involvement. We should look into how to better improve this aspect to our community, as our parents are the number one influencers of our students. Another area of need is improved professional development for campus teachers. Although we do participate in district tranings from our district personnel; however, many are repetitive and/or provide old information and outside presenters are very rarely contracted. Finally, improving communication, both within the CLPAC and out to the rest of the school faculty, could have a greater impact in how our day-to-day, weekly, monthly, and yearly goals are accomplished. Another area of need is to find a way to maintain our enrollment numbers without losing students to neighboring districts and maintaining an attendance average of 98% or higher. Losing students will affect the number of teachers that are maintained and hired to service our students. Furthermore, there is a need to boost our attendance rate, attendance matters and is essential to student success. Also, there is a need to find a way to close the gap for our at-risk students since there is a high population on campus. Being able to help these students succeed academically will lower their at-risk percentage rate. J.W.C. already has a strong foundation and clear goals, we must tackle these areas of needs to improve our campus.

While reviewing the information we discovered that the school has seen a decrease in student population over the past 4 years. We need to find different methods to incentivize students and promote the campus. The students are represented in a variety of programs and each teacher is aware of the strengths and weaknesses of the students. We do need for teachers and support staff to be trained on different methods to deliver material. For example, if a new program is put in place to help in reading then the staff should be trained on how to adequately determine what are the needs of the students especially the students in the special programs such as bilingual, SpEd. or 504. We also should be aware of the social and emotional component of students, especially after COVID. There should be more training on the social emotional needs that students exhibit while in school. Sometimes the difficulty is not in the material, but environmental or behavioral issue.

Demographics Strengths

- Computer Programs that assist in reading comprehension
- Tutoring/Tutors to assist the migrant population and all students (although started 2nd Semster)
- Strategies to assist bilingual students in reading
- Bilingual materials that assist students in the second language acquisition

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Attendance matters and is essential to student success. **Root Cause:** Due to COVID, and the amount of students who were virtual learners, it was difficult for staff to follow through with truancy and/or excessive attendance patterns. Parents are unaware and/or not held accountable for their child's attendance based on the state's "Don't Break the Law" policy, J.W.C. struggles to meet the state attendance goal and falls below the district expectation.

Problem Statement 2 (Prioritized): J. W. C. lacks training on how to help students who exhibit behavioral/social emotional issues, so that all staff can assist. **Root Cause:** Because more and more students might exhibit behavioral/social emotional issues post-COVID, not all staff is familiar and how to deal with these types of issues.

Problem Statement 3: J. W. C. is behind and at times not in compliance (in a timely manner) with SpEd observations/testing when students are referred. **Root Cause:** Because the Sp.Ed. Dept. is not consistent with making observations/testing in a timely manner, thus students are left in limbo.

Problem Statement 4 (Prioritized): Closing the gap for at-risk students is necessary to increase academic achievement. **Root Cause:** Because a high number of students on this campus are identified as at-risk and below grade level, time and treatment is not being adequately used to meet their needs.

Student Learning

Student Learning Summary

J. W. Cáceres Elementary continues to offer a challenging academic environment for all students. Despite dealing with the Covid 19 pandemic, the time allotted to teaching is well utilized at our campus and schedules are flexible and may change throughout the year depending on students' needs. Teachers frequently communicate with administration on the curricular needs of all students. Campus and district work together towards the same goal, student success.

Although all classrooms are equipped with updated materials that address the new TEKS, technology in the form of updated white boards for interactive learning continues to be a need. Supplemental materials in all core areas such as Sharon Wells, STAAR workbooks, and a phonics program/fluency checks in the lower grades are essential in order to close gaps caused by the pandemic this school year for all student populations. Student's progress noted this year can be attributed to teachers providing tutorials after school. In order for this to continue in the 2021-2022 school year funding will be needed even more so than before to address the gaps caused by the Covid 19 pandemic. Professional development in the areas of bilingual and gifted and talented is needed by all staff in order to ensure these populations of students meet their potential as well. Hands-on opportunities for students to engage in higher learning is vital to continue to challenge them. Resources that address STEM and STEAM activities could be used to reinforce learning and motivate students to learn.

Student Learning Strengths

- *Teachers collaborate through PLCs
- *Teacher professional development in Google and IPAD platforms
- *Technology (one to one device)
- *Teacher communication with parents (Class dojo, Google voice)
- *Remote learning packets made available to all students in need
- *Updated reading material
- *Think UP by Mentoring Minds (Digital & Hard Copy for 3rd-5th)
- *After school tutorials provided by campus teachers
- *Migrant tutor

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): J.W.C. lacks a sound Guided Reading/Phonics program/curriculum in grades KG-2nd Grade to help students reach/surpass their reading levels. **Root Cause:** Because J.W.C. does not have a structured GR curriculum, teachers are left with each getting/using different material.

Problem Statement 2 (Prioritized): Interactive boards need to be updated in order to help foster instruction. **Root Cause:** Interactive (SMART) boards are obsolete, out of date, and are no longer compatible, so cannot be used.

Problem Statement 3: Software and computer updates need to be performed and maintained on a regular (prompt) basis. **Root Cause:** Administration nor teachers have access to performing updates. Work-orders must be made in order for the technology department to come in and perform computer updates, which can be a lengthy wait.

Problem Statement 4 (Prioritized): J.W.C. lacks a variety of hands-on material to help enhance student learning. **Root Cause:** Teachers are found scrambling to purchase this items personally or scrambling with each other to find materials.

Problem Statement 5: J.W.C. lacks a para-professional (TA) to assist in providing services for our Special Education Inclusion program. **Root Cause:** Because of counts and funding as outline by the district, J.W.C. does not qualify for a SpEd Resource TA.

Problem Statement 6 (Prioritized): Supplemental Math (Sharon Wells) curriculum is not in place to help build the math program and student success. **Root Cause:** J.W.C. has showed a pattern in decreasing math scores and lacks the support of a supplemental math curriculum to help foster student success.

School Processes & Programs

School Processes & Programs Summary

Although we have had PD offered from the district and Safe Schools, we lack PD on a campus based approach. We need to work with administration in order to incorporate more PD at the campus level. As a campus we have a variety of needs which include professional development and resources. They are as follows: Classroom and behavior management, PBIS, CPI, Autism trainings, effective reading strategies, literacy work stations (English and Spanish), manipulatives, Spanish phonics materials for the lower grade levels, wider selection of Spanish books for the library, and professional development trainings during the school day offered through Region One for all grade levels (based off of needs). During grade level meetings, PLCs, Content Area meetings, and CLPAC Meetings our administration and teachers should discuss what professional development and resources are needed based on exam data, diagnostic tests, observations, guided reading levels, student achievement, reading levels, and needs. In order to meet the needs of all students JWC needs more funding to properly begin tutorials early and target students' weaknesses and close the gaps early. In order to help boost Reading Levels, JWC should Structure Guided Reading and have a campus wide tracker/documentation in place for consistency and fidelity.

School Processes & Programs Strengths

- JWC follows T-TESS guidelines after all walkthroughs/observations with teachers, teachers and admins collaboratively look for recommendations that will help assist in the classroom, and teachers have the flexibility to meet with administration when needed to ensure that students are receiving the best instruction. This year, the Teacher Leader Program also assisted our STAAR Grade levels, with coaching and collaboration. Administration provides coaching rotations to assist teachers in STAAR areas, or those in need.
- At J. W. Caceres the majority of our teachers are highly qualified with the majority of teachers with 5+ years of experience. JWC is composed of 15 bilingually certified teachers, 5 of them with a masters, 3 general education teachers, and 2 special education teachers. To assist our professionals, the campus counts on 8 qualified paraprofessionals which have 60 college hours along with a TEA certification. Our retention rate this year is 100%.
- JWC is focused on and open communications platform. JWC strives on open communication with both students/staff and parents through meetings, emails, and discussions, open door policy/communication with principal, CLPAC, PLCs, Teacher Leader STAAR Coaching, lead teachers/grade level experienced teachers assist in transition, with vertical and horizontal alignment within the campus and grade levels. JWC provides parents with up to date information on a continuous basis. All information sent out to parents via memos, BlackBoard, and/or our social media accounts is sent out in both English and Spanish. The ClassDojo app also has an integrated feature that translates posts for parents as well.
- High expectation for student-school structure
- Mutual respect and collaboration among staff
- Representation of personnel on CLPAC-DLPAC

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): J.W.C. was unable to provide tutorials/tutors to struggling students early off in the year. **Root Cause:** Because the district was limited in funds for tutors/tutorial, tutorials began in the 2nd semester for struggling students.

Problem Statement 2 (Prioritized): J.W.C. was unable to provide campus PD for staff, in order to assist academic concerns. **Root Cause:** Because the district was limited in funds

J.W.C. was unable to offer PD on campus.

Problem Statement 3 (Prioritized): J.W.C. lacks a structured Guided Reading/Phonics program/curriculum as well as a campus wide tracker/running record to ensure students reach/surpass their reading levels. **Root Cause:** Because J.W.C. does not have a structured GR curriculum, teachers are left with each getting/using different material.

Perceptions

Perceptions Summary

> *Victoria Bernhardt states that "perception data helps us understand what students, parents, teachers, and others think about the learning environment." With a series of survey questions, we were able to collect data to understand the perception our students and staff have of our campus. The data is as follows.*

In respect to academic expectations, 92% of the participating students felt their teachers gave daily expectations on their assignments. When it came to behavior expectations, 95% of the participating students felt their teachers would set daily behavior expectations. In respect to social expectations, 95% of the participating students feel that they understand the rules and regulations on campus. However, only 77% of the participating students felt that the consequences for violating school rules and regulations were applied consistently. For extracurricular expectations, only 47% of the participating students felt there were after school clubs or activities to participate in such as sports, chess, checkers, book clubs etc.

In the area of academic expectations, 92% of the participating staff felt they set high expectations for their students. In regards to social and behavior expectations, 71% of the participating staff felt they implemented a strong set of rules and consequences. When asked about extracurricular expectations, only 14% of the participating staff felt there were enough extracurricular activities for students.

In the areas attitudes, respect, relationships and support, 72% of the participating students feel they can talk to a teacher, principal, counselor, librarian or teacher assistant about anything. 78% of the participating students feel they receive emotional support when a situation has come up. 87% of the participating students feel they receive assistance on their assignments. In regards to support, 88% of the participating students felt they had access to computers, iPads and other technologies on campus. 97% of the participating students feel that J.W. Caceres is a friendly environment, and 80% of the participating students feel they are respected by their classmates.

In regards to attitudes, respect, relationship and belonging, 71% of the participating staff feel comfortable talking to other staff members on campus. 100% of the participating staff members feel respected by their peers on campus. In regards to support, 78% of the participating staff felt they had the adequate technology to implement lessons. In the areas of attitudes, respect, relationships and support, only 85% of the participating staff felt the consequences for violating school rules and regulations were applied consistently. In respect to belonging, 71% of the participating staff members are highly satisfied being part of the campus; 21% are satisfied being part of the campus; 7% are indifferent about being part of the campus.

In respect to physical safety, 98% of the participating students felt their teachers made them feel physically safe and welcomed on campus. 91% of the participating students felt their classmates made them feel physically safe and welcomed on campus.

In regards to the facilities and physical environments, 84% of the participating students felt that school building, cafeteria, library and playground area were safe. Whereas 86% of the participating staff members felt the inside and outside of the school building was physically safe.

In conclusion, after reviewing the data, I feel that most interaction between teachers, staff and students is caring, responsive, supportive, and respectful. However, there is room for improvement. When speaking about extracurricular activities, we are emphasizing activities that take place after school, perhaps implementing an A.C.E. program like other elementary schools in our district. This will provide a healthy outlet for students to let out their energy and serve as an incentive to achieve academy and disciplinary readiness. In creating an A.C.E. program, the staff feels they will be more successful implementing campus expectation such as: classroom, hallway, restroom, cafeteria, library, and computer lab etiquette. The A.C.E. program will also allow the staff to maintain

consistency with the forthcoming campus P.B.I.S behavioral plan.

Additionally, morale is high among staff members having an innovative administrator leading us in the right technological direction. Since the start of this academic year, the campus's safety has improved by implementing numerous health protocols such as the Dr. Owl (COVID-19) self-assessment for both students and staff alike. Along with rapid COVID-19 tests for both students and staff. In addition, our campus now has a 1 to 1 device ratio supported by routers added in each classroom for better internet connection. Parent teacher communication has improved drastically since opening access through social media and education outlets. Conversely, with the rise of technology the staff feels the need for compatible attachments for laptops such as HDMI cables compatible with the projectors that are available on campus. An issue that we notice is parents do not return the nurses' emergency clothing when loaned out to students. A simple solution to this issue would be a uniform donation drive to collect emergency clothing for the academic year. There is an urgent need to set morning drop off regulations on our campus since students are being dropped off before any staff member is available to supervise them. There are students that are left unsupervised inside the cafeteria on a daily basis. Setting a mandatory 6:45 a.m. drop off policy and keeping the cafeteria locked until set hour can help avoid this issue. While on the topic of morning drop off, the east entrance used for drop offs needs to have a 3 to 1 watch ratio. 1 staff member to watch the school door and 2 to open car doors. The reason is that in the past there have been instances where parents and former students enter the campus without authorization. Finally, due to COVID-19 there is need for parents to be efficient while accessing their children's online distant learning material. With this in mind, parents need to be trained on how to access and navigate websites and online tools.

Perceptions Strengths

- Innovative Administrator: Directs us in the right technology direction
- Security Entrance with call button
- Communication to Parents through FB, Twitter, Instagram, Classdojo, Google Classroom, Class Dojo, and School Messenger
- 1 to 1 device (Access to technology)
- Routers added in classrooms for better internet connection
- Health protocols due to COVID

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): J.W.C. is not consistent with implementing a behavioral plan and B.E. S.M.A.R.T. rules. **Root Cause:** Because J.W.C is not consistent with a behavior plan, students follow what is put in place at the time depending on grade level/staff member.

Problem Statement 2: Students who are interested in the arts do not have ways to discover their creativity. **Root Cause:** Since J.W.C. does not have an art program.

Problem Statement 3: Students get dropped off on or before 6:45 a.m. **Root Cause:** Because J.W.C. lacks morning drop of expectations.

Problem Statement 4: Staff does not feel physical safe when a shelter in place or lockdown occurs. **Root Cause:** Because classroom doors do not lock from the inside.

Problem Statement 5 (Prioritized): Students do not have access to extracurricular activities. **Root Cause:** Because J.W.C. does not offer and ACE program afterschool.

Priority Problem Statements

Problem Statement 1: Attendance matters and is essential to student success.

Root Cause 1: Due to COVID, and the amount of students who were virtual learners, it was difficult for staff to follow through with truancy and/or excessive attendance patterns. Parents are unaware and/or not held accountable for their child's attendance based on the state's "Don't Break the Law" policy, J.W.C. struggles to meet the state attendance goal and falls below the district expectation.

Problem Statement 1 Areas: Demographics

Problem Statement 11: J.W.C. lacks a sound Guided Reading/Phonics program/curriculum in grades KG-2nd Grade to help students reach/surpass their reading levels.

Root Cause 11: Because J.W.C. does not have a structured GR curriculum, teachers are left with each getting/using different material.

Problem Statement 11 Areas: Student Learning

Problem Statement 9: J.W.C. was unable to provide tutorials/tutors to struggling students early off in the year.

Root Cause 9: Because the district was limited in funds for tutors/tutorial, tutorials began in the 2nd semester for struggling students.

Problem Statement 9 Areas: School Processes & Programs

Problem Statement 8: J.W.C. is not consistent with implementing a behavioral plan and B.E. S.M.A.R.T. rules.

Root Cause 8: Because J.W.C is not consistent with a behavior plan, students follow what is put in place at the time depending on grade level/staff member.

Problem Statement 8 Areas: Perceptions

Problem Statement 6: J. W. C. lacks training on how to help students who exhibit behavioral/social emotional issues, so that all staff can assist.

Root Cause 6: Because more and more students might exhibit behavioral/social emotional issues post-COVID, not all staff is familiar and how to deal with these types of issues.

Problem Statement 6 Areas: Demographics

Problem Statement 10: Interactive boards need to be updated in order to help foster instruction.

Root Cause 10: Interactive (SMART) boards are obsolete, out of date, and are no longer compatible, so cannot be used.

Problem Statement 10 Areas: Student Learning

Problem Statement 15: J.W.C. was unable to provide campus PD for staff, in order to assist academic concerns.

Root Cause 15: Because the district was limited in funds J.W.C. was unable to offer PD on campus.

Problem Statement 15 Areas: School Processes & Programs

Problem Statement 16: J.W.C. lacks a structured Guided Reading/Phonics program/curriculum as well as a campus wide tracker/running record to ensure students reach/surpass their reading levels.

Root Cause 16: Because J.W.C. does not have a structured GR curriculum, teachers are left with each getting/using different material.
Problem Statement 16 Areas: School Processes & Programs

Problem Statement 18: Closing the gap for at-risk students is necessary to increase academic achievement.
Root Cause 18: Because a high number of students on this campus are identified as at-risk and below grade level, time and treatment is not being adequately used to meet their needs.
Problem Statement 18 Areas: Demographics

Problem Statement 13: J.W.C. lacks a variety of hands-on material to help enhance student learning.
Root Cause 13: Teachers are found scrambling to purchase this items personally or scrambling with each other to find materials.
Problem Statement 13 Areas: Student Learning

Problem Statement 17: Students do not have access to extracurricular activities.
Root Cause 17: Because J.W.C. does not offer and ACE program afterschool.
Problem Statement 17 Areas: Perceptions

Problem Statement 14: Supplemental Math (Sharon Wells) curriculum is not in place to help build the math program and student success.
Root Cause 14: J.W.C. has showed a pattern in decreasing math scores and lacks the support of a supplemental math curriculum to help foster student success.
Problem Statement 14 Areas: Student Learning

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Covid-19 Factors and/or waivers for Assessment, Accountability, ESSA, Missed School Days, Educator Appraisals, etc.
- Planning and decision making committee(s) meeting data
- State and federal planning requirements
- Covid-19 Factors and/or waivers

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Federal Report Card Data

Student Data: Assessments

- State and federally required assessment information
- State and federally required assessment information (e.g. curriculum, eligibility, format, standards, accommodations, TEA information)
- (STAAR) current and longitudinal results, including all versions
- State of Texas Assessments of Academic Readiness (STAAR) current and longitudinal results, including all versions
- STAAR released test questions
- STAAR EL progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Running Records results
- Observation Survey results
- Istation Indicators of Progress (ISIP) reading assessment data for Grades PK-2
- Prekindergarten Self-Assessment Tool
- Texas approved PreK - 2nd grade assessment data
- Texas approved Prekindergarten and Kindergarten assessment data

- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- EL/non-EL or LEP data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender, etc.
- Section 504 data
- Homeless data
- Gifted and talented data
- Dyslexia Data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact
- TTESS data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data

- Capacity and resources data
- Budgets/entitlements and expenditures data
- Study of best practices
- Action research results

Goals

Goal 1: J. W. Caceres Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet and exceed state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 1: J.W.C. will focus on instructional improvements resulting in all students meeting goals for all accountability measures. The percentage of K-5 students reading on or above grade level will increase by 12%. ELL students will show growth increase of at least 1 proficiency level. PK-5 Reading Level Monitoring through continuous tracking (monthly). 100% of teachers serving identified ELL students will receive support in the understanding of language, literacy, and content interdependence.

Evaluation Data Sources: iStation, iLearning, Guided Reading Running records, TELPAS, PBMAS, STAAR, AE Local Reading Level Tracker, Eduphoria (Workshop and AWARE), Master Schedules

Summative Evaluation: Exceeded Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Teachers will use the district curriculum and instruction guide as their primary source of instructional direction for Guided Reading. Teachers will track and monitor progress by continuously updating the AE Local Reading Level Tracker and Guided Reading Student Tracker (running record). Implement Teddy Bear Press, Sight Book Reads, & Sing, Spell, Read, & Write Curriculum for Guided Reading in Grades KG-2nd Grade. **Strategy's Expected Result/Impact:** Increased number of students reading on or above grade level. **Staff Responsible for Monitoring:** C&I Department Bilingual Director S. Perez R. Martinez **TEA Priorities:** Build a foundation of reading and math - **ESF Levers:** Lever 5: Effective Instruction - **Comprehensive Support Strategy - Targeted Support Strategy - Additional Targeted Support Strategy** **Problem Statements:** Student Learning 1				

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Develop, implement, and monitor daily instructional schedules to ensure all subject areas are taught everyday with the appropriate allocated minutes, as well as the Time & Treatment for ELL students. Implement and monitor required lesson plans. Provide assistance through Guided Reading and/or Intervention instruction. **Strategy's Expected Result/Impact:** Increased student performance as measured by District and State assessments. Increased number of students reading on or above grade level. Increase of at least 1 proficiency level for ELL students. **Staff Responsible for Monitoring:** R. Cisneros RLA Teachers S. Perez R. Martinez **ESF Levers:** Lever 2: Effective, Well-Supported Teachers, Lever 5: Effective Instruction **Problem Statements:** Demographics 4 - Student Learning 1 - School Processes & Programs 3				

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Obtain and provide program manipulatives, models, consumable, non-consumable materials, technology devices and any other classroom instructional materials or resources for reading and math for all student populations. **Strategy's Expected Result/Impact:** Inventory aligned to core curriculum materials and purchase orders. Increased percentage of all students meeting District, State, and Federal Standards (STAAR, TELPAS, & RDA.) Increased number of students reading on or above grade level. **Staff Responsible for Monitoring:** S. Perez R. Martinez **ESF Levers:** Lever 4: High-Quality Curriculum, Lever 5: Effective Instruction **Problem Statements:** Student Learning 1, 2				

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Provide research based staff development aligned to performance data measured by District, State, and Federal accountability indicators to include: job embedded training, response to intervention (RtI), data desegregation and utilization, technology, core state adopted textbooks, supplemental programs, and research based strategies for ELs. Implement SMART. **Strategy's Expected Result/Impact:** Professional Development District Plan, training agendas and sign-ins. Increased instructional effectiveness and student performance as measured by grades and state assessment outcomes, decreased at risk learners, decrease in referrals, and decrease in behavior referrals. **Staff Responsible for Monitoring:** C&I Department and Directors Bilingual Director S. Perez R. Martinez R. Cisneros R. Flores J.W.C. Team Leaders **TEA Priorities:** Improve low-performing schools - **ESF Levers:** Lever 1: Strong School Leadership and Planning, Lever 2: Effective, Well-Supported Teachers **Problem Statements:** Perceptions 1 **Funding Sources:** Conference - TASA - Teacher/Principal (255) - $3,726, Martha Morales Training - Teacher/Principal (255) - $900	10%	50%	90%	

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Improve supports for struggling learners by providing tutors for English as well as Spanish, resources, training, and articulate those interventions in documented meetings, lessons, parent contacts, team meetings, data analysis, and revolving follow up. **Strategy's Expected Result/Impact:** Decreasing number of struggling students requiring tutoring and or intervention. Increase reading levels and English proficiency. **Staff Responsible for Monitoring:** S. Perez R. Martinez Teachers, C&I Department Staff, Support Staff, Bilingual Director, Special Programs Director **TEA Priorities:** Improve low-performing schools - **ESF Levers:** Lever 4: High-Quality Curriculum - **Comprehensive Support Strategy - Targeted Support Strategy - Additional Targeted Support Strategy** **Problem Statements:** School Processes & Programs 1 **Funding Sources:** Tutorials KG-5th Grade - ESSER III (282) - $28,286.41	5%	45%	80%	

Strategy 6 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 6: The campus will implement a standards based grading system. All teachers will identify the standard associated with the posted grade. Reteach/recovery guidelines will be reviewed/implemented with all teachers and will be monitored by administrators. **Strategy's Expected Result/Impact:** Gradebook **Staff Responsible for Monitoring:** C&I, Content Directors, S. Perez, R. Martinez, E. Leyva, and Classroom Teachers.	20%	50%	90%	100%

Strategy 7 Details	Reviews

Performance Objective 1 Problem Statements:

Demographics
Problem Statement 4: Closing the gap for at-risk students is necessary to increase academic achievement. **Root Cause**: Because a high number of students on this campus are identified as at-risk and below grade level, time and treatment is not being adequately used to meet their needs.

Student Learning
Problem Statement 1: J.W.C. lacks a sound Guided Reading/Phonics program/curriculum in grades KG-2nd Grade to help students reach/surpass their reading levels. **Root Cause**: Because J.W.C. does not have a structured GR curriculum, teachers are left with each getting/using different material.
Problem Statement 2: Interactive boards need to be updated in order to help foster instruction. **Root Cause**: Interactive (SMART) boards are obsolete, out of date, and are no longer compatible, so cannot be used.
Problem Statement 4: J.W.C. lacks a variety of hands-on material to help enhance student learning. **Root Cause**: Teachers are found scrambling to purchase this items personally or scrambling with each other to find materials.

School Processes & Programs

Problem Statement 1: J.W.C. was unable to provide tutorials/tutors to struggling students early off in the year. **Root Cause**: Because the district was limited in funds for tutors/tutorial, tutorials began in the 2nd semester for struggling students.

Problem Statement 3: J.W.C. lacks a structured Guided Reading/Phonics program/curriculum as well as a campus wide tracker/running record to ensure students reach/surpass their reading levels. **Root Cause**: Because J.W.C. does not have a structured GR curriculum, teachers are left with each getting/using different material.

Perceptions

Problem Statement 1: J.W.C. is not consistent with implementing a behavioral plan and B.E. S.M.A.R.T. rules. **Root Cause**: Because J.W.C is not consistent with a behavior plan, students follow what is put in place at the time depending on grade level/staff member.

Goal 1: J. W. Caceres Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet and exceed state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 2: J.W.C.'s Library Services will facilitate and monitor usage of key literacy programs in J.W.C., including Accelerated Reader (AR) and myON for grades PK-5th. J.W.C. will utilize 100% of available Accelerated Reader (AR) licenses and increase the total word count and student passing rate of 85% correct or higher for the school year by 5%. myON will be implemented continuously throughout J.W.C. with a 50% increase in usage.

Goal 2: J. W. Caceres Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 1: The percentage of students in grades 3-5 who achieve meets and/or masters performance level on the STAAR exam will increase by the following for all students: Meets 38% and Masters 15%. Increase GT students achieving the meets and/or masters grade level standard on STAAR by 10%. Increase Special Education students achieving the meets and/or masters grade level standard on STAAR by 2%. Increase ELL students achieving the meets and/or masters grade level standard on STAAR by 30%.

Performance Objective 1 Problem Statements:

Student Learning
Problem Statement 1: J.W.C. lacks a sound Guided Reading/Phonics program/curriculum in grades KG-2nd Grade to help students reach/surpass their reading levels. **Root Cause**: Because J.W.C. does not have a structured GR curriculum, teachers are left with each getting/using different material.
Problem Statement 4: J.W.C. lacks a variety of hands-on material to help enhance student learning. **Root Cause**: Teachers are found scrambling to purchase this items personally or scrambling with each other to find materials.

Student Learning

Problem Statement 6: Supplemental Math (Sharon Wells) curriculum is not in place to help build the math program and student success. **Root Cause**: J.W.C. has showed a pattern in decreasing math scores and lacks the support of a supplemental math curriculum to help foster student success.

School Processes & Programs

Problem Statement 1: J.W.C. was unable to provide tutorials/tutors to struggling students early off in the year. **Root Cause**: Because the district was limited in funds for tutors/tutorial, tutorials began in the 2nd semester for struggling students.

Problem Statement 2: J.W.C. was unable to provide campus PD for staff, in order to assist academic concerns. **Root Cause**: Because the district was limited in funds J.W.C. was unable to offer PD on campus.

Problem Statement 3: J.W.C. lacks a structured Guided Reading/Phonics program/curriculum as well as a campus wide tracker/running record to ensure students reach/surpass their reading levels. **Root Cause**: Because J.W.C. does not have a structured GR curriculum, teachers are left with each getting/using different material.

Goal 3: J. W. Caceres Elementary will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and supports a healthy lifestyle and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 1: The campus will ensure that an Emergency Operations Plan meets all elements outlined by the Texas School Safety Center is in place by first six weeks.

0% No Progress 100% Accomplished → Continue/Modify ✕ Discontinue

Performance Objective 4 Problem Statements:

Demographics
Problem Statement 1: Attendance matters and is essential to student success. **Root Cause**: Due to COVID, and the amount of students who were virtual learners, it was difficult for staff to follow through with truancy and/or excessive attendance patterns. Parents are unaware and/or not held accountable for their child's attendance based on the state's "Don't Break the Law" policy, J.W.C. struggles to meet the state attendance goal and falls below the district expectation.

Goal 3: J. W. Caceres Elementary will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and supports a healthy lifestyle and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 5: JWC will administer the Fitness Gram physical fitness assessment to all 3rd-5th grade students enrolled in P.E. unless a student qualifies for valid exemption as per Fitness Gram testing policies.

Donna Independent School District

M. Rivas Elementary

2021-2022 Campus Improvement Plan

Mission Statement

Mission

M. Rivas Elementary and the community will educate all students to be self-motivated, responsible, trustworthy, and committed individuals who will lead and have a positive impact in our community.

La primaria M. Rivas y la comunidad educarán a todos los alumnos para que sean individuos auto-motivados, responsables, confiables y compreometidios que serán lideres y tendrán un impacto positivo en nuestra comunidad.

Vision

Vision

M. Rivas students, staff, and community working together towards academic excellence.

Los alumnos, personal de M. Rivas y la comunidad trabajando juntos para alcanzar la excelencia académica.

Value Statement

Core Values

If we believe all students can be successful and we want to accomplish our goals and be productive, then we should be:

Doing:

Positive Work Ethic, Reliable, Be Productive, Trustworthy, Honesty, Team Player/Work, Committed, Recognize Progress and Achievement

Seeing:

Student Centered, Collaborative Work, Student Driven Classrooms, Student Engagement, Intentional LEssons, Team Planning (on-going), Collaborative/Sharing Ideas, Individual Student Growth

Valores Fundamentales

Si creemos que todos los alumnos pueden tener exito y queremos lograr nuestros objectivos y ser productivos, entonces debemos ser:

Hacer

Tener etica de trabajo positiva, ser de confianza, ser productivo, ser condiable, ser honesto, ser jugador de equipo/de trabajo, ser comprometido, reconocer el progreso y el logro

Ver

Centrado en el alumno, trabajo colaborativo, aulas dirigidas por alumnos, participacion estudiantil, lecciones intencionales, planificacion de equipo (en curso), colaboracion/compartiendo ideas, crecimiento individual del alumno.

- Student Learning 5
- School Processes & Programs 6
- Perceptions 7

Priority Problem Statements 8

Comprehensive Needs Assessment Data Documentation 9

Goals 11
- Goal 1: M. Rivas will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. 12
- Goal 2: M. Rivas will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 40
- Goal 3: M. Rivas will create an instructional environment that will enhance the learning and academic performance of all students and increase the percentage of graduates demonstrating college/career/military readiness. 70
- Goal 4: M. Rivas will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 77
- Goal 5: M. Rivas will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 91
- Goal 6: M. Rivas will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 124

Campus Funding Summary 134

Comprehensive Needs Assessment

Demographics

Demographics Summary

Although the demographic data shows our population growth in our area has decreased, our GT students identification has increased. Student decrease in the migrant program, from last year to this year, was based on students moving from elementary to middle school. Student ratio has changed based on the ending of the TTIPS grant and losing teachers funded under the grant increasing the teacher/student ratio. Students are supported in their STAAR RLA exams.

Demographics Strengths

- GT Program has increased student identification.
- 96% teachers are highly qualified.
- Paraprofessionals are also highly qualified.

Problem Statements Identifying Demographics Needs

Problem Statement 1: Student ratio increased. **Root Cause:** TTIPS grant has ended and the grant teachers contracts were not renewed.

Problem Statement 2: Student population decreased. **Root Cause:** The population has continued to decrease through the years. There has not been any rezoning or new residential zoning in the perimeters that pertain to M. Rivas.

Problem Statement 3: Number of students exiting bilingual program. **Root Cause:** Student ratio has decreased, therefore not many students are enrolled at M. Rivas School of the Arts. Since the ratio has decreased, different special populations have decreased as well.

Student Learning

Student Learning Summary

Student learning at M. Rivas Elementary has decreased in Mathematics and Reading for the 2020-2021 school year. Due to Covid-19, new obstacles were faced, which allowed opportunities for growth in technological development. Resolutions were provided through professional developments, construction of internet towers, and acquisition of technology devices for all students and staff. Although these did assist in increasing student attendance, student scores did not increase in benchmark data or six weeks assessment largely contributed by the change of learning environments. Small group interventions/tutorials/tutors and accelerated learning will continue to support all students in core areas including guided reading.

Student Learning Strengths

-1:1 technology devices for all students and staff.

-Wi-fi is more accessible to students working from home.

-Professional developments focused on technology offered throughout the school year led to teachers adapting to virtual instruction.

-Explicit Direct Instruction strategies consistently implemented in every grade level provided differentiation.

-Computer programs (Galileo, Imagine Math, Imagine LEarning) supported student success.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Students performance scores decreased in reading and math. **Root Cause:** Regression due to Covid-19 pandemic.

Problem Statement 2: SPED and subpopulations are not increasing performance scores. **Root Cause:** Changes of learning environment and interventions due to Covid-19 pandemic.

Problem Statement 3: Back-to-back assessments did not allow time to reteach or review skills. **Root Cause:** Testing calendar set by the district.

School Processes & Programs

School Processes & Programs Summary

M. Rivas adopted programs (Imagine Learning, Imagine Math, Lonestar, Galaxy, Learning.com, Istation, Mentoring Minds Program, SAAVAS, STEMSCOPES), but in order to successfully help our students be more effective in their learning is to have quality trainings for both teachers and teacher assistants. Teachers were provided with trainings such as DISD Blended Learning, RSSP Modules Virtual Learning, Region One PDP, Apple (Blended Learning Tracks, Reading Academy), which, were at times, introductory and provided demonstrations through videos. This had professionals unsure of how to use the program to maximize use. Another way for our students to also be successful is to have consistent support from our parents through our parental involvement center.

School Processes & Programs Strengths

- School committees are a strong support for the campus because it helps identify problems and find interventions that support the need identified.
- High teacher retention.
- Community support (Popeyes, Pizza Hut (Book It), Burger King, H-E-B).
- Support for students with special services.
- Strong administrative team (focus on what we need, student achievement).
- District support (PLC's, materials).

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Teachers and Paraprofessionals need quality trainings and additional support, such as techonology representative, to have effective student learning. **Root Cause:** 1.) Rushed training; 2.) Training (techonology) not aligned to teachers needs; 3.) Inadequate needs assessments (district/region one surveys); 4.) Lack of engagement.

Problem Statement 2: There are too many technology programs introduced in our campus, which then leads to inconsistency. **Root Cause:** 1.) Too many programs introduced; 2.) Trainings were provided through videos; 3.) Underestimating resources; 4.) Lack of accountability.

Problem Statement 3: There is a lack of parental involovement that is leading student effectiveness in a negative way. **Root Cause:** 1.) Covid precautions; 2.) Parents are working/babysitting at home; 3.) No transportation; 4.) Lack of technology; 6.) Unreliable Wi-Fi (Towers).

Perceptions

Perceptions Summary

In these disruptive times, technology has made it possible to teach students virtually, which allowed for more flexibility. All stakeholders were required to comply with health risk prevention. Some challenges that arose from virtual teaching were parental support, student engagement, and student performance. Therefore, there is a need for student incentives, parent/student tutorials on technology care, and parent/student activities and events in the future.

Perceptions Strengths

- Improved technology skills
- Student independence
- Health Risk Prevention
- Variety of Extracurricular Specials
- Flexibility

Problem Statements Identifying Perceptions Needs

Problem Statement 1: The level of student engagement during instrucion is low. **Root Cause:** : Students are not interested in what they are learning and/or have no incentives to work towards.

Problem Statement 2: One of the challenges teachers face is parental support and communication. **Root Cause:** Parents do not have resources and/or time to assist their child with their academics.

Problem Statement 3: Parental involvement is low. **Root Cause:** There are not enough school events/activities that parents and students can participate in.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- State and federal planning requirements
- Covid-19 Factors and/or waivers

Student Data: Assessments

- SSI: Istation Indicators of Progress (ISIP) accelerated reading assessment data for Grades 3-5 (TEA approved statewide license)
- SSI: Think Through Math assessment data for Grades 3-8 and Algebra I (TEA approved statewide license)
- Student failure and/or retention rates
- Local benchmark or common assessments data
- Istation Indicators of Progress (ISIP) reading assessment data for Grades PK-2

Student Data: Student Groups

- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Section 504 data
- Homeless data
- Gifted and talented data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data

- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Study of best practices

Goals

Goal 1: M. Rivas will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 1: The campus will focus on instructional improvement resulting in all students meeting goals for all accountability measures. The percentage of K-3 students reading on or above grade level will increase by 2%.

Evaluation Data Sources: Imagine Learning, STAAR and TELPAS

Summative Evaluation: Some progress made toward meeting Objective

Goal 1: M. Rivas will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 2: Bilingual/ESL: The campus will facilitate K-3 Reading Level Monitoring. Increase educators' awareness of language, literacy, and content interdependence.

Donna Independent School District

Capt. D. Salinas Elementary

2021-2022 Campus Improvement Plan

Mission Statement

The administration, staff and community will strive toward excellence in providing the highest quality of education for students through community and unity. The students should endeavor responsibly with the same ideal to attain academic success within a safe environment conducive to student achievement.

Vision

The vision of Salinas Elementary is for ALL students to reach the highest level of academic success through a rigorous and supportive learning environment that provides a quality education in accordance with state and national standards.

Motto

"Salinas Sailors Today, World Captains Tomorrow"

Table of Contents

Comprehensive Needs Assessment 4
Perceptions 4
Priority Problem Statements 9
Comprehensive Needs Assessment Data Documentation 10
Goals 12
Goal 1: Capt. D. Salinas II Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. 13
Goal 2: Capt. D. Salinas II Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 21
Goal 3: Capt. D. Salinas II Elementary will create an instructional environment that will enhance the learning and academic performance of all students and increase the percentage of graduates demonstrating college/career/military readiness. 30
Goal 4: Capt. D. Salinas II Elementary will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 33
Goal 5: Capt. D. Salinas II Elementary will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 41
Goal 6: Capt. D. Salinas II Elementary will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 50
Campus Funding Summary 53

Comprehensive Needs Assessment

Perceptions

Perceptions Summary

Student Engagement

Do our students attend school daily? Define the attendance rate and if lower than desired, disaggregate it by the seven race/ethnic groups.

Attendance at Captain Daniel Salinas II Elementary is at 98%, this meets our district and state desired rate.

How does student behavior impact instruction? Describe what is significant in the data about behavior, disciplinary patterns, disciplinary alternative education placements (DEAP) and if any differences between the seven races/ethnicity groups and five student groups.

We know student behavior impacts instruction, whether it be virtually or in person. The fact that teachers implement effective classroom management systems reduces the number of student behavior concerns. We do not have any referrals for this 2020-2021 school year, the data shows that there is indeed effective implementation of classroom behavior management systems in place.

What strategies are in place to reduce the threat of bullying? Does the data confirm the strategies are working?

Student self-referrals, students, parents & teacher’s referrals as well as the district’s anonymous alerts system are available as a strategy to reduce the threat of bullying. Teachers' classroom lessons and counselor’s lessons of Pillars of Character Education delivered through the morning announcements are also tools to reduce bullying in our campus. In addition, October was recognized as National Anti-bullying Month with virtual activities taking place. This school year 2020-2021 no bullying incidents have occurred, virtually or in person.

What percentage of students are sent to DAEP or juvenile justice alternative education program (JJAEP) for discretionary purposes? Mandatory purposes? For what offenses? Is one student group more heavily represented than others?

In these past 2 years, only one student was sent to DAEP for aggressive/threatening behavior against other students. Although this is not representative of our campus discipline patterns, interventions were implemented to aid the child when he returned via social worker/counseling sessions. There is not sufficient evidence that a particular group is

represented due to extremely low incidences. No students were sent to either alternative center for mandatory purposes or reasons.

What support do we provide students struggling with behavior? Discuss results of any mentoring, peer mediation, etc. or other ways of reducing conflict.

Students struggling with behavior are supported by our campus counselor, District LPC's and District LSSP's. Behavior contracts, lessons, parent conferences, and observations are some ways students are addressed to deter behavior. Counseling, mentoring, and meditation have been effective in the past. This 2020-2021 school year we did not need to put this into play because of zero reports of this type.

How do students describe their campus? How does this differ from teachers' descriptions?

Of the 245 students that were surveyed, 35% of the students describe the learning environment at the campus as very positive, 49% describe the learning environment as positive, 11% describe the learning environment as slightly positive, and 5% describe the learning environment as not positive. Thus, most of the students surveyed felt positive about the learning environment of the campus.

Of the 59 Staff members that were surveyed, 25% describe the learning environment as very positive, 75% describe the learning environment as positive, 0% describe the learning environment as negative, and 0% describe the learning environment as very negative. Thus, all the staff members surveyed felt positive about the learning environment of the campus.

How do students describe campus life with regards to respect, relationships, behavior, support, belonging, etc.? Do all student groups have the same perceptions? How does this perception compare with their teachers' perceptions?

Of the 245 students that were surveyed, 32% describe campus life with regards to respect, relationships, behavior, support, belonging, etc. as strongly agreed, 53% describe campus life with regards to respect, relationships, behavior, support, belonging, etc. as agree, 9% describe campus life with regards to respect, relationships, behavior, support, belonging, etc. as disagree, and 5% describe campus life with regards to respect, relationships, behavior, support, belonging, etc. as strongly disagree.

Of the 59 staff members surveyed 25% described campus life as very positive, 75% described campus life as positive, 0% described campus life as negative, and 0% described campus life as very negative.

Both groups, students and staff members, have similar results regarding our campus climate.

Are effective procedures in place to promote safety? Do students feel safe? How do we know?

Of the 245 students surveyed, 37% strongly agree that they feel safe in our campus, 50% agree that they feel safe in our campus, 11% disagree that they feel safe in our campus, and only 3% strongly disagree that they do not feel safe in our campus.

Staff Engagement

Do we retain teachers' long term? Explain the turnover rate and how this compares with previous years.

Data findings gathered from the Texas Academic Performance Reports (see table below) show that there has been a slight decrease in teacher retention. This is due to factors such as a decline in student population within the past 3 years and the loss of a teacher due to Novel Coronavirus-2019.

School Year	2017-2018	2018-2019	2019-2020	2020-2021
Total Teachers	36	33	33	32

How do we support inexperienced teachers? Discuss any staff mentoring results.

New hired inexperienced teachers have a mentor that collaborates with them and guides them throughout the year. We also have head teachers in every grade level to assist grade level teachers with any concerns they may have. Head teachers are the voice of the grade level in meetings with administration and convey any messages and concerns. Administrators also hold weekly staff meetings with any information that needs to be delivered to staff and welcome any feedback or concerns from staff. This year we have a new initiative with content coaches. Ms. V. Rodriguez and Ms. S. Cepeda were hired to assist teacher's 3rd through 5th grade with reading and math contents. They hold coaching meetings and assist teachers with ideas in promoting better virtual learning.

How do teachers view the climate and culture of the district and campuses? Summarize any climate and culture survey reports.

Of the 59 staff members that were surveyed, 25% describe the campus climate as very positive, 75% describe the campus climate as positive, 0% describe the campus climate as negative, and 0% describe the campus climate as very negative.

Of the 59 staff members that were surveyed 15% describe the district climate as very positive, 78% describe the district climate as positive, 5% describe the district climate as negative, and 2% describe the district climate as very negative.

Of the 59 staff members that were surveyed 37% describe the campus culture as very positive, 61% describe the campus culture as positive, 2% describe the campus culture as negative, and 0% describe the campus culture as very negative.

Of the 59 staff members that were surveyed 17% describe the district culture as very positive, 83% describe the district culture as positive, 0% describe the district culture as negative, and 0% describe the district culture as very negative.

What are teachers' expectations for parental involvement? How do we know?

Of the 59 staff members that were surveyed, 22% expect parents to be extremely involved, 58% expect parents to be involved, 19% expect parents to be somewhat involved, and 2% expect parents to not be involved.

Are effective procedures in place to promote safety? Do staff members feel safe? How do we know?

Of the 59 staff members that were surveyed, 51% responded that effective procedures are in place to promote safety as always, 32% responded that effective procedures are in place to promote safety as sometimes, 17% responded that effective procedures are in place to promote safety as often, and 0% responded that effective procedures are in place to promote safety as never.

What procedures are in place to involve staff in improvement planning? How are they included in decisions?

We have CNA committees that include all Salinas staff. Staff members take surveys that include concerns and or comments regarding campus climate, performance etc. For planning purposes, head teachers hold grade level meetings that allow planning for future events or assignments. Weekly staff meetings allow administrators to convey valuable information to staff that allows planning accordingly and with time. Administrators welcome any feedback from teachers or concerns.

Parent/Guardian and Community Engagement

How do parents participate in the education of their child? Explain how participation rates are measured and the current data findings.

A parent survey was made available to all parents from Salinas Elementary to participate. Of the 51 parents that answered the survey, 77% attended Open House, 59% had Parent/Teacher conferences, 31% participated in school wide events, and 2% volunteered at Salinas Parent Education Center.

What are parents' perceptions of the school's effectiveness? Do they feel welcome? How do we know?

The parents' perception about the school's effectiveness in their child's education according to the 51 surveyed responses were as follows: 41% described it as very effective, 49% described it as effective, 8% described it as somewhat effective, and 2% described it as not effective.

Of the 51 parents surveyed, 88% said they feel welcome to Salinas Elementary School, 10% said they do not feel welcomed, and 2% answered maybe they feel welcomed.

How effective are communications such as the schools' website, mobile app, letters, newspaper articles, etc.? How do we know?

According to the results gathered from the 51 Parent Surveys, the communication of the school's website, mobile app, letters, newspaper articles, etc., were as follows: 47% said that the communication was very effective, 43% said that communication was effective, 8% said that it is somewhat effective, and only 2% said that it is not effective.

Is communication translated into languages other than English when needed?

Captain Daniel Salinas II Elementary is a biliteracy campus and therefore all types of communication translate in two languages, English and Spanish. This is how all parents are kept informed of any news happening at school, including their child's academic progress or performance. Of the 51 parents surveyed, 96% said Yes to receiving communication translated into languages other than English and only 4% said No to receiving communication translated into languages other than English.

Do parents and community members participate in the site-based committee? How are they selected? Do They feel their participation is necessary and important? How do we know?

Parents participate in a site-based committee. Parents are selected based on their involvement at school and how well they communicate with the community.

Parents' participation is necessary because they assist with decision making that benefits students. They are the voice for other parents and their involvement is mandated by the state to Title 1 campuses.

Perceptions Strengths

Our campus perception strengths for the 2020-2021 school year according to the data gathered indicate that students, parents/guardians, and staff describe the

campus environment as positive and safe. A significant percentage of teachers expect parental involvement in their child's education. This is correlated with how parents participate in the education of their child's education such as attending open house, parent/teacher conferences, school wide events, and volunteering at the school's Parent Education Center. It is evident that teachers implement effective classroom management systems and keep close communication with student's parent/guardian as this year we do not have any student discipline referrals. Student attendance for this year has meet our district and state desired rate.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: A low percentage of our campus students described our campus learning environment as slightly or not positive. **Root Cause:** This might have to do with the change of teaching methods that had to be implemented because of the Novel Corona Virus-Covid 19.

Problem Statement 2: A low percentage of our campus students disagreed that they feel safe in our campus. **Root Cause:** This might have to do with Novel Corona Virus-Covid 19 and their fear of getting infected at school.

Problem Statement 3: A low percentage (7%) of staff members view the district climate as negative. **Root Cause:** This might have to do with the negative information that is being published on social media about the district.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Federal Report Card Data

Student Data: Assessments

- State and federally required assessment information
- (STAAR) current and longitudinal results, including all versions
- STAAR released test questions
- STAAR EL progress measure data
- Student Success Initiative (SSI) data for Grades 5 and 8
- SSI: Istation Indicators of Progress (ISIP) accelerated reading assessment data for Grades 3-5 (TEA approved statewide license)
- SSI: Think Through Math assessment data for Grades 3-8 and Algebra I (TEA approved statewide license)
- Student failure and/or retention rates
- Observation Survey results
- Istation Indicators of Progress (ISIP) reading assessment data for Grades PK-2
- Prekindergarten Self-Assessment Tool
- Texas approved PreK - 2nd grade assessment data

Student Data: Student Groups

- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Dyslexia Data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Attendance data
- Mobility rate, including longitudinal data

- Discipline records
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data

Employee Data

- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact
- TTESS data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Capacity and resources data
- Budgets/entitlements and expenditures data
- Study of best practices
- Action research results
- Other additional data

Goals

Goal 1: Capt. D. Salinas II Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 1: Percentage of Kinder through 2nd grade students that MEET grade level quintile score for Math and are reading at or above grade level based on computer adaptive program will increase.

HB3 Goal

Evaluation Data Sources: Imagine Math, Imagine Learning, I Station

Summative Evaluation: Significant progress made toward meeting Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: GPM 2.3: Percentage of Kindergarten students reading on or above grade level based on adaptive computer program will increase from 69%% to 72% by 2021-2022. **Strategy's Expected Result/Impact:** 72% of Kinder students reading on grade level. **Staff Responsible for Monitoring:** District and campus staff **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	10%	30%	40%	

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: GPM 2.2: Percentage of first grade students reading on or above grade level based on computer adaptive program will increase from 31%% to 41% by 2021-2022. **Strategy's Expected Result/Impact:** 41% of 1st grade students reading on grade level. **Staff Responsible for Monitoring:** District and campus staff **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	10%	25%	40%	100%

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: GPM 2.1: Percentage of second grade students reading on or above grade level based on computer adaptive program will increase from 40% to 48% by 2021-2022. **Strategy's Expected Result/Impact:** 48% of 2nd grade students reading on grade level. **Staff Responsible for Monitoring:** District and campus staff **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	10%	35%	55%	100%

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: The campus will implement the district curriculum guide as their main source of instruction for all subject areas and all student populations **Strategy's Expected Result/Impact:** Reading levels, Six Weeks Exams, Benchmarks, STAAR results, TELPAS results **Staff Responsible for Monitoring:** Teachers, Administrators **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	20%	50%	70%	100%

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Develop, implement, and monitor daily instructional schedules to ensure all subject areas are taught everyday the appropriate allocated minutes and implement and monitor required lesson plans for Reading, ELA, Writing, Math, Science, and Social Studies **Strategy's Expected Result/Impact:** Reading levels, Six Weeks Exams, Benchmarks, STAAR results, TELPAS results. **Staff Responsible for Monitoring:** Teachers, Administrators **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5 - **Comprehensive Support Strategy**	10%	30%	80%	100%

Strategy 6 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 6: Provide research based staff development aligned to performance data measured by District, State, and Federal accountability indicators to include: job embedded training, response to intervention (RTI), data utilization, technology, core state adopted textbooks, supplemental programs, research based strategies for ELLs, research based instructional strategies for CCRS, classroom management, and discipline (teaching)for appropriate behavior. **Strategy's Expected Result/Impact:** Reading levels, six weeks tests, benchmarks, STAAR results, TELPAS results **Staff Responsible for Monitoring:** Teachers, Administrators **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 - **Comprehensive Support Strategy**	10%	25%	50%	100%

Strategy 7 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 7: Monitor implementation of best instructional practices presented during professional development and all staff training. **Strategy's Expected Result/Impact:** Reading levels, six weeks tests, benchmarks, STAAR results, TELPAS results **Staff Responsible for Monitoring:** Teachers, Administrators **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	20%	35%	75%	100%

Strategy 8 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 8: Improve supports to struggling learners by improving interventions, resources, and training, and articulate those interventions in documented meetings, lessons, parent contacts, team meetings, data analysis, and revolving follow up.Student Outcome Goal # 1 **Strategy's Expected Result/Impact:** Reading levels, six weeks tests, benchmarks, STAAR results, TELPAS results **Staff Responsible for Monitoring:** Teachers, Administrators **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 - **Comprehensive Support Strategy**	25%	45%	70%	100%

Strategy 9 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 9: Implement district initiatives such as Guided Reading, 5E Model, Anchor Charts, Word Walls, Vocabulary Development, Interactive Notebooks, Literacy Stations, Technology, Journals, Softwares, Accelerated Reading, MyOn, Student Portfolios, Sheltered Instruction, and College Readiness Activities. Student Outcome Goal #1, 2, & 3 **Strategy's Expected Result/Impact:** Reading levels, six weeks tests, benchmarks, STAAR results, TELPAS results **Staff Responsible for Monitoring:** Teachers, Administrators **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	25%	40%	60%	100%

Strategy 10 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 10: The district will implement a standards based grading system. All teachers will identify the standard associated with the posted grade. Reteach/recovery guidelines will be reviewed/implemented with all teachers and will be monitored by administrators. **Strategy's Expected Result/Impact:** Reading levels, six weeks tests, benchmarks, STAAR resluts, TELPAS results **Staff Responsible for Monitoring:** Teachers, District Administrators **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5	15%	30%	55%	100%

Donna Independent School District

P.S. Garza Elementary

2021-2022 Campus Improvement Plan

Accountability Rating: Not Rated: Declared State of Disaster

Mission Statement

P. S. Garza Elementary School, in partnership with its children, families, community, and Donna Independent School District, guarantees each child a superior education by providing quality instruction and challenging learning experiences in a safe and orderly environment which will foster life-long learning and responsible citizenship.

Vision

Modeling excellence and inspiring students to learn, perform, and excel.

Value Statement

"Every student matters, every moment counts!"

- Student Learning 8
- School Processes & Programs 14
- Perceptions 20

Priority Problem Statements 25

Goals 26
- Goal 1: Patricia S. Garza Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. 27
- Goal 2: Patricia S. Garza Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 33
- Goal 3: Patricia S. Garza Elementary will create an instructional environment that will enhance the learning and academic performance of all students and create an awareness in order to increase the percentage of graduates demonstrating college/career/military readiness when they reach the high school level. 43
- Goal 4: Patricia S. Garza Elementary will provide students and all stakeholders with a safe and nurturing school environment that supports academic success. 46
- Goal 5: Patricia S. Garza Elementary will follow sound managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 54
- Goal 6: Patricia S. Garza Elementary will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 63

Campus Funding Summary 66

Comprehensive Needs Assessment

Revised/Approved: June 18, 2021

Demographics

Demographics Summary

Demographic Summary

Demographics refer to the characteristics or make-up of the school and help us understand who we are currently working with and how we implement strategies, initiatives, programs and services to meet their needs.

1. What do enrollment numbers indicate?

There was a change in the number of students enrolled in our campus this year. As per snapshot on 10/27/17 we had 606 students. This years snapshot was on 10/26/18 there were 625.

2. What is the breakdown by ethnicity, gender, or other category?

At Garza, as per TAPR 2018-2019 we served 625 students. 0 white and 625 Hispanics:

PK-86 , K-72, 1st- 82, 2nd-86, 3rd- 103, 4th- 104, 5th- 92

3. How has the enrollment changed over the past three years?

•Population increased depending on grade level
•GT population decreased from 8 to 6.
•Sped. Population increased from 44 to 52 students.

4. What is the number of students in each special program? How do these program numbers look broken up by ethnicity, gender, or other category? Are we over- or underrepresented in certain groups? Why?

• Bil. Program 520 students

• Special Ed. 52 students

• G. T. 6 students

In the Bilingual program we serve what is expected due to the number of Hispanics that live in this area. In the Sp. Ed program we increased from 44 to 52 students. We decreased

from 8 to 6 GT students this school year.

5. What is the data for special programs over time?

Numbers are consistent throughout the years with the exception of our GT and special ed. populations.

6. What does the data regarding students who exit from special programs indicate? How many? Who are they? What trend or pattern do we see?

The trend has been to exit students from the Bilingual program in 3rd, 4th and 5th grade when they have met state expectations by passing the STAAR and they get a TELPAS score of Advanced High in Reading, Writing, Listening, and Speaking. However, with the new adopted Bilingual Model our plan has changed to exiting students in the earlier grade levels when they meet the TELPAS criteria.

18-19- 1st yr. follow ups = 0

2nd yr. follow ups =0

7. Who are our at-risk students? What is their at-risk category?

•Bilingual

•Retainees

•At-Risk- 525 students

•McKinney Vento Student

•STAAR – Not Met Standards

•Pre-K-2nd – Not Meeting Standards on Circle, I-station

•Foster Kids

8. Who are our Migrant students?

Migrant students are those whose parents relocate for any period of time during the year to work. We have a total of students---------

9. What is the mobility rate for this campus? What is the stability rate? How are these numbers represented for Migrant students?

The mobility rate for 17-18 according to the Texas Academic Performance Report was 20.7% at the campus level which is 112 students. The mobility rate at the district level was 18.2%

10. What area of the community do these students come from?

The majority of our school community come from rural poverty stricken areas.

11. What are the staff demographics?

•Teachers: 35.3

•Para- professionals: 15.0

•Administrators: 2.9

•Professional Support: 6.6

•Counselors: 2

•Librarian: 1

•Nurses: 1

•Nurse Asst. 1

•Security: 1

•Clerks: 2

•Secretary: 1

•Cafeteria Staff: 6

•Custodians: 5

12. What are the teacher/student ratios? How do these ratios compare to performance?

Texas Academic Report 2018-19 indicates the following

Class Size Average by Grade

KG 17.9, 1st -18.5 2nd -20.5, 3rd -16.6, 4th -20.3, 5th -22.4

With a high percentage of At-Risk students, it will be beneficial to maintain the teacher/student ratio in order to improve performance. teacher/student ratio was slightly higher than the state.

•Findings/Analysis Look for patterns in the data that reveal trends or insights about the district/school. A brief statement for each of the dimensions helps introduce or frame the discussion of trends which emerge in the data, particularly across data sources. Identify below statements about the strengths, as well as the priority need areas of the district/school.

13. What are the teacher qualifications, certifications, etc.? Paraprofessionals?

Teachers are fully certified with a bilingual certification with the exception of 5 teachers. Six teachers hold a Master's Degree. All paraprofessionals hold at least 45 college hours, para's who don't have to pass a district assessment provided by Human Resources.

14. What does the general data reflect regarding teacher quality on the campus?

Data shows an overall slight increase in 3rd grade Reading and Math 2018-2019. Data shows Reading stayed the same in approaches, 7% increase in meets, and a 5% increase in Masters. Math 12% increase in Approaches, 8% decline Meets, 5% increase Masters. Fourth grade data shows a decline Reading and Math. Reading a 1% increase in Approaches, 2% decline Meets, and a decline of 4% Masters. Fourth Grade Writing 7% decline from 17-18 to 18-19 in Approaches, 13% decline in Meets and 3% increase in Masters. Data for Fifth grade Reading and Math had an overall decline. Reading had 8% decline in Approaches, 9% decline in Meets, and 3% decline in Masters. Fifth grade Math had 3% gains in Approaches, Meets 3% decline, Masters 5% decline. 5th grade Science 17% decline in Approaches from 17-18 to 18-19, 2% increase in Meets and 2% incrrease in Masters.

15. Demographic Strengths Data Source

1. Having a computer lab for RTI -Special program participation/reports

2. Intervention -STAAR, RTI, I-station, Imagine Math(TTM)2nd -5th, Reasoning Mind PreK-1st, MyON, Reading A-Z/RazKids, StemScopes, BrainPop

3. Migrant Tutorials -STAAR, RTI, I-station, Imagine Math(TTM)

4. Guided Reading Groups – I-station Reports, Reading A-Z/RazKids

5. Outside tutor - Test Scores

6. ACE Program- Flocabulary, tutor support-Homework

16. Demographics Needs Data Source

1. We need to continue with the Spanish, Writing, Reading, Science, and Migrant tutors for 3rd – 5th for our ELL's -RTI & ELL students.

2. Due to our high number of at-risk students we need additional parental involvement –refer to At-risk report.

3. Provide monies/incentives to increase number of academic achievement, behavior and attendance -Attendance records and A&B reports.

*Incentives for 1st- 5th SW incentives: perfect attendance, honor roll, behavior.

*EOY incentives: trophies for all grade levels for honor roll, perfect attendance, GT

Demographics Strengths

Demographic Strengths

- Patricia S. Garza Elementary has had roughly around the same number of enrollments (500-600 students) every year. In addition, the same demographics when it comes to the populations that are being served which is typically low social economic and at risk students. The campus has a strong foundational perspective of the population it is serving, an it can determine what needs are going to be consistently needed every year. Whether it is finding funding for budgeting to allocate for the needs of the students, more resources and incentives to promote student progress, the campus is at an advantage of knowing who exactly they are serving.
- The campus notes and tracks attendance to monitor the success rate of at risk students. This is typically of crucial importance because at risk students make up 93.76% of the school population.
- Students in all special programs are closely monitored through TIER evaluations where adjustments to the students' education delivery is done effectively to ensure their success.

Problem Statements Identifying Demographics Needs

Problem Statement 1: Problem Statement 1: Students at Patricia S. Garza accumulate a high rate of absences throughout the school year. **Root Cause:** Parents are not being held accountable and simply not educated on the correlations between higher absences equal to a high probability that the student will fail.

Problem Statement 2: Problem Statement 2: Teacher/Student Ratios are not meeting the needs of students. **Root Cause:** Allocate budget for hiring additional staff is not being made and there is no sense of urgency to lower down the number of students being allocated in the classrooms. Not only is there a need to provide that extra support due to the ratios on campus, but for the special needs students as well. Being that the case loads increased this past year, we can say with ease that the campus is not meeting state recommended ratios.

Student Learning

Student Learning Summary

1. How is the student achievement data disaggregated?

According to the ISTATION EXECUTIVE SUMMATIVE REPORT from September 2019 to March 2020:

-The student achievement data is disaggregated in two categories, each one with their respective subcategories, as shown below:

EARLY READING (Pre-Kinder, Kinder, Ist, 2nd and 3rd grade)

*Listening comprehension, Letter Knowledge, Phonemic and Phonological Awareness, Alphabetic Decoding, Comprehension, Vocabulary reading Comprehension, Written Communication

ADVANCED READING (4th and 5th grade)

*Comprehension, Word Analysis, Vocabulary, Reading Comprehension

According to the ENGLISH READING, SPANISH READING AND MATH BUNDLES TESTS:

-The student achievement data is disaggregated in three categories:

* A-Approaches

* M- Meets

* Ma- Masters

2. How does the student achievement data compare from one data source to another?

Evidence is found in district curriculum. District curriculum clearly states which TEKS are being targeted for the week as weekly objectives and are spiraled throughout the year. Teachers are attendings TEKS clarification meetings every six weeks.

3. What does the data indicate when disaggregated by ethnicity, gender, socioeconomics, status, special program, or another category?

Students are showing limited growth in bundle tests, Imagination Math, and Istation.

4. In which areas are we showing growth? At what rate? Compared to which standard of achievement?

Comparing the English Istation results, grades pre k through 5th showed growth on most grade levels and only 4th and 5th grade remained constant. While on English reading bundles only one grade level (4th) showed a decrease and the rest showed limited growth. Comparing the Spanish Istation results all grade levels pre-k through 5th grade showed growth

along with the Spanish bundles throughout pre-k through 5th grade. Comparing kinder through 5th grade bundles all grade levels showed growth as well as imagination math from 1st through 5th. (Double the numbers minimum, the rate of increase could not be determined based on info provided.)

5. Which students are making progress? why?

The ELL students are showing limited growth as they are closing the gap with all student Bundle test, Istation, and Imagination Math. Non LEP students are showing limited growth progress.

6. What impact are interventions programs having on student achievement? Which are the students benefitting or not?

Programs such as Istation, Imagination Math have helped students show some success. These programs adapt to student needs by administering adaptive assessments by adjusting to student skill level. Once student reaches masters concept, program will add/teach new concepts.

7. What does the longitudinal student achievement data indicate?

Students at P.S. Garza Elementary have shown limited growth as they close the gaps in regard to Istation reading levels and Imagine Math benchmarks. This growth, although limited, has shown some gains in reading levels that are pertinent to success in upcoming state assessments.

8. What does the data reflect within and among content area?

In the area of Math and Reading, ELLS and NON LEP had the same constant growth in both areas.

9. What does the data indicate when disaggregated at various level of depth?

The ELL and NON LEP students are showing limited constant in the areas on Math and Reading.

10. Which students are making annual progress? Which ones are making projected growth? Who are these students? How does this data compare across program, content areas, subgroups, etc?

Reading and Math, has shown little to no gains for all grades for comprehensive benchmarks for the current school year 2019-2020.Writing testing was combined with the reading.

11. What evidence exists to determine that the curriculum is clearly linked to the TEKS and other standards for student learning?

The scope and sequence of the district curriculum is well designed and directly aligned to meet state standards (TEKS). It is continuously being modified to ensure compliance with changes that are forthcoming from the state. The curriculum provides specific lesson plans with the required materials and resources all aligned to the TEKS.

12. How is data used to inform curriculum, instruction, and assessment decisions? (School Process)

Teachers analyze testing results, comparing data to those with in the same grade level throughout the district. Teachers and Administration would then identify lowest TEKS to Spiral into current six weeks. Teacher would then administer weekly assessments to ensure mastery of problematic TEKS. Students struggling to master concept then regrouped into small group for intervention.

13. What does the data reflect about how curriculum, instruction, and assessment are aligned? How are they focused on supporting and challenging all students?

The overall Istation data shows that the students had little or no progress across all grade levels. Based on the Math Bundle Scores, the data shows progress in 1st, 2nd, and 4th grades.

14. How are curriculum, instruction, and assessment aligned with 21st Century Learning skills?

Our curriculum, instruction and assessment are aligned to the 21st Century Learning skills by creating a curriculum using the TEKS,(Texas Essential Knowledge and Skills), one that is student centered and focuses on student success. There is evidence that assessments are aligned with clearly specified and appropriate achievement expectations. The benchmark assessments are developed by the school district and the STAAR is developed by the State of Texas. There is software available for Math, Reading, and Science. The students have the following programs, Istation for pre-k thru 5th grade, Pre-k thru 1st grade, and Imagine Math for 2nd thru 5th grade. Science has the Stem-Scopes program, plus Learning.com. The programs available in our technology department reinforce what the students learns in the classroom. The programs show student's usage, growth, and is monitored on a monthly basis. The software programs are used to assess and measure student progress in all grade levels. The design of the network is user friendly and it provides tutorials. In this manner, technology is supporting curriculum, instruction, and assessment integration.

15. How are instructional strategies and activities aligned with student learning needs and expected outcomes for achievement: How consistent is this across the district/school? What is the impact on specific student groups? (*School Process & Demographics)

Teachers analyze testing results, comparing data to those with in the same grade level throughout the district. Teachers and Administration would then identify lowest TEKS to Spiral into current six weeks. Teacher would then administer weekly assessments to ensure mastery of problematic TEKS . Students struggling to master concept then regrouped into small group for intervention.

16. What evidence supports the implementation of high impact/high yield additional interventions for students who need assistance beyond primary classroom instruction? Which students need to type of instruction? What has the effect been over time? (*Demographics)

Planned and purposeful instruction that addresses the needs of students is reflected in the teacher lesson plans and in the delivery of instruction in the classroom. Students are first engaged in a whole group instruction setting through discussion, participation and hands on activities with the implementation of the 5E model and Gradual Release Approach. Learning centers and cooperative groups are then used to give students multiple opportunities to practice the concepts that have already been taught. Most teachers use higher order thinking skills/depth of knowledge which allows for a full rigorous instruction. Sheltered instruction is also utilized in order to assist teachers to better instruct the ELL population.

17. How does instructional design and delivery maximize student engagement, a positive learning climate, higher order thinking skills, problem solving, critical thinking, etc?

Teachers develop a planned and purposeful instruction that addresses the needs of the students is reflected in the teachers clear and well-organized lesson plans and in the delivery of instruction in the classroom. Students are first in a whole group instruction setting through discussion, participation, and hands on activities with the implementation of the 5E model and gradual release approach. Learning centers and cooperative groups are then used to give students multiple opportunities to practice the concepts that they have already been taught and are learning. Most teachers use higher order thinking skills/ depth of knowledge which allows for a full rigorous instruction. Sheltered instruction is also utilized in order to assist teacher to better instruction the ELL population. Teachers consistently checking for understanding, give immediate feedback, and make lesson plan adjustments, as necessary.

18. Is there evidence that assessments are aligned with clearly specified and appropriate achievement expectations? How are they developed and linked to measure the effect of curriculum and instruction?

District created assessments (bundle tests, Reading Readiness test) are aligned and linked to the Texas Essential Knowledge and Skills. Benchmarks (release test) prove to be accurate in predicting what students will score on state assessments. Bundle assessments provide the data that guides teacher's instruction in the classroom. Most importantly, although students have individual needs, assessments provide a reflection of the instruction being provided in the classroom. Teachers also create their own formal and informal assessments to provide a better picture of students' needs.

19. How do we know assessments are designed, developed, and used in a fair and equitable manner that eliminates biases? How do students perceive these assessments?

Donna Independent School District creates bundles, six-weeks tests, and diagnostic tests which are aligned with the TEKS (Texas Essential Knowledge and Skills). Assessments contain skills which are spiraled continuously though out the year. Students that require accommodations are provided with such accommodations to meet their individual needs. Some students were not tested in their home language which made it difficult for students to understand in the areas of math.

20. How does the scope of assessments provide a comprehensive and representative sampling of student performance that allows for confident conclusion about achievement?

Assessments are extremely important to providing a comprehensive and representative sampling of student performance. There are many different assessments that measure the growth the students have accomplished. They are given classroom exams both written and oral, use computer programs, district bundle tests, standardized tests that allow teachers to understand where the student's growths and needs.

21. What technology do we have for student learning? (*School Process)

Students are provided the following programs to enhance their learning: Istation, Imagine Math, Stemscopes, Learning.com, Starfall, MyOn, Raz-kid, Reading A-Z, Code.org, Students also have access to computers in their classrooms, library and computer labs.

22. What is the technology proficiency for staff and students? (*School Process & Demographics)

Teachers have and student have a limited proficiency in technology at home based on demographic area, income, community. Internet has not yet reached many areas in which our

students reside. Unstable internet, provided though cell phone, is still a challenge for many families. Technology is still an issue at the campus level due to computer to student ratio, thus creating lack of practice and expectations.

23. What are some barriers that potentially prevent effective use of technology? When it's working, why is that so? When it's not working, why not?

There are some barriers that may prevent the effective use of technology. For example, lack of technology resources, such as, I pads, clickers, new laptops or computers, eno board, smartboard. due to update computer OS update. Another barrier is few professional development trainings. Currently teachers are undergoing technology training for google classroom apple trainings, seesaw, shadow puppet, etc. due to COVID-19 .

24. What types of technology professional development have we provided? What was the impact for staff and students?

Some types of technology for professional development were:

· Varieties of webinars (Atomic Learning, Edmodo, ClassDojo, Clever, Google Classroom, etc.)

· Istation

· Imagine Math

· Science (Stemscope)

· Technology

· Writing Developments

Technology for professionals also depends on the elected developments for each staff member. Some professional joined more trainings compared to others. For some professionals it depends on the subject taught. As for the impact on students; it would be contingent on their grade level and the programs used for each grade. Educator's become knowledgeable as to the technical programs' students are utilizing, which are TEKS aligned.

25. In which content areas are we using technology and how? What is the effect?

Technology is used thru all content areas, Reading, Math, Science and Social Studies, through computer programs, teacher used technology in the classroom and home-based computer program through district school web page on the clever web page.

26. How does the design of the network provide for the users it supports?

Applications are easily accessible from home through clever. Although one of many obstacles students face is the lack of internet based on location and on hand technology to implement usage district programs.

27. How is technology utilized to support curriculum, instructions, and assessment integration and implementation?

Teachers have access to assessment reports through Eduphoria. Teachers use reports to differentiate individual student needs. Teachers have access to share point, which is the districts online curriculum portal.

Student Learning Strengths

Student Learning Strengths

- Pre-K 4 had IPAD to help with Istation and Imagination math time usage.
- Majority of time Istation did identify correct reading level of students.
- Multiple opportunities to log into Istation, and Imagination Math during the week.
- Students had access to the library and lab computers in the morning, during lunch, and in the classroom.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: * Problem Statement 1: More student access to computers. Computer lab shut down due to testing(Telpas, BOY, MOY, EOY) **Root Cause:** Lack of computers for students use during testing.

Problem Statement 2: * Problem Statement 2: Istation sometimes is not truly reflective of students' Guided reading level. **Root Cause:** Depending on the situation, a student can score higher on Istation reading level, yet student is at a different level based on teacher's running record.

Problem Statement 3: * Problem Statement 3: Lack of adequate/reliable headphones. **Root Cause:** The quality of headphones being used, ultimately broke throughout the year and were not replaced. Either one side of the head was working, or it was the headphone jack.

Problem Statement 4: * Problem Statement 4: Lack of transitional time between testing groups. Testing was rushed due time schedule. **Root Cause:** Classes scheduled back to back.

Problem Statement 5: * Problem Statement 5: Students need to be trained with usage of Istation prior to assessment. **Root Cause:** Students at the lower level have little to no experience with the program being used to access reading levels.

School Processes & Programs

School Processes & Programs Summary

1.How are follow-up data regarding teacher performance provided to teachers?

Follow-up data regarding teacher performance is provided to teachers on STRIVE. Teachers can access STRIVE at any time and review information regarding walkthroughs and formal evaluations made by principals or other administrative staff. Strategists also provide teachers with suggestions that can be incorporated in a lesson based on an observation that was conducted.

2. How are we recruiting highly qualified and effective staff?

A look at qualifications is considered before recruiting an individual. One on one interviews are also conducted. Our district participates at job fairs but it is mainly performed by the HR department.

3. **What is our staff attendance rate? Retention rate? Turnover rate?**

Staff attendance rate is 97%. Retention rate is 94%. Turnover rate is 5%

4. How is highly effective staff assigned to work with the highest need students?

P.S. Garza has highly qualified personnel that help meet the needs of the highest need students. At P.S. Garza, there are 47 professionals including administration. Of the 47, ten possess Master's Degree. All 37 teachers have their Bachelor's Degree and 25 are bilingual certified. There are 17 para-professionals and 9 possess a Bachelor's Degree. Of the nine, one possesses a Master's Degree. P.S. Garza has highly qualified personnel that help meet the needs of the highest need students.

5. What is the impact/effect of our teacher mentor program?

The teacher mentor program is used for all new teachers. Teachers are assigned a teacher mentor from their grade level. These teacher mentors are required to participate in a Region One training or depending on the Alternative Certification Program they must fulfill the necessary requirements. This teacher mentor program is important for beginning teachers because it provides them with an extra resource to help them provide an effective instruction.

6. How is new staff supported? What feedback do they provide?

Professional development is provided for new staff. Campus administrators offer their support in anything that may be needed. Staff is offered to observe and learn from others within the campus or another campus if needed.

7. What systems are in place to build capacity and support the notion of continuous improvement?

At Patricia S. Garza we have implemented various systems to build capacity and support for both staff and students. Our goal is to ensure each student is future ready and community strong.

For staff:

- District provides on going professional development to re-energize sustainability
- Collaborate Team focus on a PLC model
- Staff meeting once a month
- Monitoring student growth monthly
- Using engagement strategies

For students:

- A goal setting trackers
- 5 B's model
- Celebrations for meeting goals
- Continues support daily

8. How are we using data to determine professional development for staff? (*Student Learning)

Students' test scores have helped decide the training needed for school staff on different subjects. Teachers are able to participate in professional development training to enhance their knowledge on state mandated assessments for students like STAAR and TELPAS. Training to use online media like Edmodo, is based on the need for communication with parents and enhance student learning.

9, How are collective and individual decisions regarding professional development determined?

-Data scores in exams (bundles, staar tests)

-New to grade level

-Subjects taught

-Behavior problems

-Classroom observations

-Same structure across the grade level

10. What types of professional development has staff attended? How is implementation monitored? What impact has it had on performance? What is the follow-up?

Donna I.S.D sends staff to trainings, such as Telpas, Staar, IStation, Writing, Math, and Guided Reading, that is required. Professional development provides staff opportunities to continue training for the purpose of advancing in the education field. Professional development trainings cater to classroom setting approaches and technological skills that staff can use to adapt to current trends. For example, the effects of COVID-19 have allowed staff to utilize computer applications to teach their students on a regular basis to continue the fiscal year's curriculum. The use of staff's professional development influences students' engagement and application within the classroom, as well as staff's incorporation of techniques learned in their everyday routine. The consistent attendance in professional development trainings allows staff to follow up on skills that are always evolving in the education field.

11. What evidence exists that families and community members are involved in meaningful activities that support student's learning? What are the activities? Which parents and community membersare involved? What trends and patterns do we observe? (*Demographics & Student Learning)

In a school setting, students are involved in plays or performances where parents are invited to show their support on how hard their children have worked on their performance, resulting in a boost of morale in the students. Other participating activities also include the schools book fair and after school projects. As research shows the more parents are involved in the students learning the more they thrive in their studies. Correlating to a student's educational success. Meaning when parents are actively involved with their studies, we see a positive trend in their success in school. This school year, because of the regarding the methods of teaching as districts transition into distance-learning. Now, much of the responsibility falls on the parents to provide same quality of teaching to the children they were receiving at school. However, some challenges that have been brought to our attention is the lack of transportation and internet availability. Leaving some school districts to provide wireless internet access near bus stops or churches where they can download their schoolwork on a tablet. Additionally, to combat the lack of internet availability, some of the children's schoolwork has been solely delivered through weekly physical packets. However, distance-learning, for many children, will never be as effective as teaching methods provided in person. Resulting in some students not being provided an equal learning experience and not being taught what is being required from the school. In response to this, Donna ISD is working to develop a remote learning plans for the district to be able to keep up with these changes and potentially target these challenges some families have experienced during these times.

12.How are families and the community members involved in school decisions?

District information, Parental involvement, media, face book, teacher and parent contact sometimes conferences with parents and flyers are also send home with students. CLPAC is another form of decision making for the school within families and community members.

13. **What types of services are available to support families, community members, and students to encourage healthy family relationships?**

Parents can volunteer in activities school families and community. Also work with health and social services agencies. Engaging parent in their children's school.

14. If families speak language other than English, what are these languages? How does the school communicate in those languages? (*Demographics)

The other language we communicate with our families is Spanish. We send parent notes in both English and Spanish. When we make parent phone calls or meetings we do in a language preferred by parent.

15. What types of services are available to support students in special programs? What are the results?

Programs:

Special Ed. Committee meets yearly to review current IEP and current accommodations specific to the student's academic needs.

504 Committee meet yearly to discuss accommodations and modify as needed to meet student's academic needs.

Bilingual students receive class instruction in the native language

McKinney Vento homeless students receive clothing services

Migrant students get tutoring during the day to meet academic needs

G.T. students are given a project during the school year and summer readings.

16. What types of community partnerships exist to support families and students?

There are various community partnerships that exist to support families and students. Organizations like Behavioral Solutions have come on campus to give classes to parents that will be helpful with their children. ESL classes are given to parents to learn the English Language courtesy of ARISE. ARISE organization also offers baking classes as well. Other classes such as Women's Health, Breast Cancer Awareness and nutrition classes are also available and given. Based on parents' interest, there are sewing classes led by a parent volunteer, and table talk classes available which is led by Parent Educator Minerva Reyna. Table talk discussions consist of food pantry locations, signs of domestic violence, etc. Making sure every opportunity for both parent and student is educational is a priority.

17. To what degree does the district/school support the school process data and how?

The school district supports our campus by collecting data to make informed decision-making. The school district uses the student outcomes data to meet accountability reporting requirements. They measure the effectiveness of the outreach. The following measuring instruments are used throughout the school year: Istation Reading Tests, Imagine Math Learning, Benchmark Tests, RTI's, Telpas Tests, STAAR Tests, and Weekly Teacher Tests. These instruments are used to help teachers improve in their profession. They are TTES, Walkthroughs, and Professional Development. Data helps us make connections that lead to insights and improvements. Throughout the year the school district will inform the campus and parents about state academic standards that need to be met by students. Parent meetings are held after school to inform parents how student achievement can be acquired. The teachers will provide after school tutoring and also on Saturdays for student achievement.

18. What does the data reflect about classes, schedules, and student/staff teams?

The campus has 624 students on average throughout the year and 37 teachers. Our student numbers tend to fluctuate as Garza is a campus with high student mobility. This brings the student to teacher ratio to about 17 students per teacher. It is important to note that classes range in size from 11 to 28 students in each class. With the second grade monolingual class having only 11 students while one of the fifth grade bilingual classrooms has 28 students. Grades K through 5th have 4 teachers in each grade level. Out of the 4, one serves as a monolingual teacher and the other three as bilingual educators. The only exceptions to this are Pre-K 3 with two teachers, Pre-K4 with three teachers, and 4th grade with 5 teachers. Both Pre-K4 and 4th grade have one monolingual teacher with the others serving bilingual students. Pre-K3 through 2nd grade serve students in a self-contained learning environment whereas 3rd through 5th grade teaches in a departmentalized setting based on subjects being taught and it is reflected on the schedules.

19. How is adequate time devoted to subjects in which students perform poorly?

Students that are struggling are offered tutoring after school through the ACE program. The 2 targeted areas are Reading and Math. The schedule for this school year included Guided Reading Blocks as well as an intervention block to give support to struggling students. The Math block provided an hour and fifteen minutes to students. More time was offered in these two subject area. Tutors have also been hired to help in both reading and math. Tutorials were also made available on Saturdays in the second semester.

20. How do teachers have a voice in decision making and school policies?

Teachers have a voice in decision making and school policies through grade level meetings, CLPAC committees, DLPAC committees, faculty meetings and surveys that are conducted throughout the school year.

21. What role do teachers have in deciding what assessments will be used to evaluate individual students for the program as a whole?

Curriculum and assessments are set by the Donna I.S.D. Teachers follow a scripted curriculum and test based on assigned bundle assessments.

22. Do school committees and decision making bodies make it easy for teachers, parents, paraprofessionals, support staff, and students to be heard and, in turn, for all groups to be part of solutions to identified problems?

The school does provide opportunities for the teachers and staff to be heard during staff meetings and through different committees. Teachers and staff are given the opportunity to become involved when they are provided with surveys and are given the opportunity to communicate their ideas.

23. What evidence is there that there is a process for monitoring, evaluating, and renewing the curriculum to meet the needs of all learners?

Campus administrators meet every month to analyze data after every Istation test, as well as after every six week's exams to determine what is working and what needs to be implemented to see progress in students. Teachers along with the strategist and directors of each main subject meet to discuss and collect information that will assist when writing the curriculum over the summer.

School Processes & Programs Strengths

School Processes & Programs Strengths

- Teachers have a voice in decision making and school policies through grade level meetings, CLPAC, DLPAC, lead teacher meetings, and PLC meetings. TA's also have a voice through surveys.
- Attendance, retention rates, and turnover rates are good.
- PS Garza has highly qualified personnel that help meet the needs of the highest need student. Ten professionals possess a master's degree. Thirty-seven teachers possess a Bachelor's degree, 9 out of 17 paraprofessionals possess a bachelor's degree.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Problem Statement I: Parental involvement is extremely low. **Root Cause:** Parents are not educated therefore lack the experience necessary to assist their child when it comes to school work. In addition, parents are unfamiliar with technology which was highly utilized during the COVID-19 pandemic. Parents weren't able to assist due to this matter.

Problem Statement 2: Problem statement II: Staff developments were not specific, consistent, nor had a clear vision. **Root Cause:** Many other staff developments for the same subject were held which caused a confusion as to which resources to utilize. In addition, resources were not distributed in a timely manner which made it more difficult to decide on what resource was to be used when planning.

Perceptions

Perceptions Summary

Perception Data

Perceptions data help us understand what students, parents, teachers, and others think about the learning environment. Perceptions can be gathered in a variety of ways – through questionnaires, interviews, and observations. Perceptions are important since people act in congruence with what they believe, perceive, or think about different topics.

Victoria Bernhardt

1. How do students describe the school climate? How does this compare to staff?

After gathering and studying data collected from student and staff surveys, we found that there is a small number of students that don't feel safe due to bullying by their peers. Most students and staff feel comfortable and safe at our school.

2.What evidence is there that students and staff are collectively aligned with the vision and mission of the school?

To provide an adequate answer to this question, it is essential first to define the stated Mission and Vision of the school and second, whether it was reinforced by the school administration and staff enough to become part of the daily interactions occurring at the school level. The stated mission of P.S Garza Elementary (according to school website) is the following:

"We will provide a safe, nurturing environment of mutual respect while inspiring children to achieve their academic potentials as life-long learners. Students will be valued for their individuality and diverse capabilities as they are taught to face the future and contribute to society with compassion, courage, knowledge, and vision."

Regarding the vision statement, there was no vision statement developed for this school year. many colleagues were asked if they knew the vision statement and searched both the school website and all available school materials. we concluded that none was developed for this school year. So, we used last year's vision statement for reference: "Modeling excellence and inspiring students to learn, perform, and excel".

To measure whether the students and staff aligned with our school's vision and mission, we will present the three main questions relating to the school Mission and vision and their results below:

· How safe do you feel at Patricia S. Garza Elementary? While 68% said that they felt very safe/or safe, a significant number 22% answered that they felt just somewhat safe or not safe at all

· Do you get along with your colleagues?

82.50% answered yes, and 17.50% answered no or neutral.

· How do you feel about the discipline/behavior issues on campus?

60% answered that they felt okay, while 37.5% answered nothing is being done

Even considering that this was only a limited survey, there is significant work to do to ensure that our school becomes a safe environment, nurtures, supports, and encourages our students to be lifelong learners.

In addition to this survey conducted through survey monkey, we noticed through informal conversations with many colleagues that they felt intimidated, their views not valued, and having difficulties with behavior issues with little or no support by the school administration. There is a lot of effort by the teachers, teacher aides, students, and parents to try to align by themselves to many of the values outlined in the school vision.

3.How do students and staff describe attitudes, respect, relationships, belonging, support, etc.? How does this data compare across groups? Which groups respond in which manner? (*Demographics)

Students and staff describe attitudes, respect, relationships, belonging and support as positive based on the results of the surveys. The students and staff have a positive attitude. As far as respect, students and staff feel everyone at school respects each other. The relationships with others at school are positive. The students have a sense of belonging because they are greeted each morning by school staff. Our population is mostly Hispanic at our campus. Overall, based on the results of the surveys, students and staff have a good perception of the attitudes, respect, relationships, belonging and support.

4. What does the data reflect regarding student behaviors, discipline, etc.?

Based on the discipline incident summary, the most common incidents from students in all grade levels as aggressive/threatening behavior, unruly behavior, and disrespectful/rude behavior. There were some incidents of theft in 2nd and 5th grade. In the upper grades (3rd-5th), there were many bus referrals by students, which are also aggressive behavior. The punishment ranged from calling parents, lunch detention, and conference with the student for all grade levels. In more serious situations, there was ISS for all grade levels and Off campus suspension for upper grades. Some students were also sent to DAEP. Many of the referrals were the same students.

As a committee we discussed having the counselors address the issues and bringing in outside presenters to address the students. We can also have a star student, or outstanding citizen, per classroom to be recognized every 6 weeks, rather than at the end of the year. This might encourage students to behave better.

5. To what degree do students and staff feel physically safe?

After gathering information via surveys and through verbal communication it is apparent that the majority of staff and students feel physically safe at P.S. Garza.

While there was a small percentage of students that did not feel entirely safe we believe that ties back to student bullying of peers.

6.What do students and staff indicate about expectations: academic, behavioral, social, extracurricular, etc.?

Looking at the data, students do have the expectations about Academic, Behavioral, Social, and Extracurricular activities. According to data, students feel they need to belong in a club or social group. It also resulted on students focusing better in academics and coping with their peers, if they were in a club. Data showed getting students involved in activities outside of school will help students with self-confidence and motivation. Students want to explore new interests and exposure to new learning opportunities.

As a committee, we discussed having extracurricular activities such as soccer, guitar, art, chess, choir and cheerleader/dance would be brought to our administrative team's attention

for the school year 2020-2021. We also discussed the implementation of the foundation and management of several extracurricular activities, if the administration decided to move forward with programs during the 2020-2021 school year.

7.Which students are most satisfied with the school's culture and climate? How does this compare to the students' attendance, tardiness, and other behaviors?

The students that are most satisfied with the school's culture and climate are the students that enjoy being in class and love learning from their specific teachers. It is actually a trickledown effect; the culture and climate happens as you add all parts of the whole, if teachers have great leaders that are understanding, flexible and positive; they will feel more comfortable and want to go the extra mile or try something new with their students and generally be happier to come to work and make a difference. There are many studies that confirm that culture and climate have a direct influence on job satisfaction, and job satisfaction improves productivity in many ways in all types of jobs. In education, if the administration creates a great welcoming and family-like culture and climate, then it will naturally and organically create a trickle down into the classroom. The students that enjoy being in class, that enjoy their teachers are the ones most satisfied in school; which in turn brings in better attendance, less tardiness and more positive behaviors. On the other hand, if administration only criticizes you, attacks you, doesn't have common decency to even say hello when they pass by you or care about you as a human being, then they are showing that they don't care about you as a person, morale goes down and so does your genuine impact on the students in the classroom.

8.What does the data indicate regarding classroom management and organization? How does this compare to classroom student achievement data? (*School Process and Student Learning)

According to the staff survey that was sent out, 100% of the teachers greet their students every morning and feel that by doing so, it improves the students' morale and attitude. About 38% of the staff feels that there is little or nothing being done about the behavior issues on campus, and about 60% of the staff feels okay about the behavior issues on campus.

9.What does the data reflect regarding gang, substance abuse, weapons, and other safe schools area? Who are the students involved? What do we know about these students? What services have these students received? (*Demographics)

There were no incidents regarding gang, substance abuse, weapons, and other safe schools' area.

10.What students are involved in extracurricular activities, clubs, and other areas? Who are these students? What does student achievement reflect about these students versus others who are not involved?

(*Demographics & Student Learning)

The vast majority of students who responded to the 2020 Student Perception Data survey, reported that they were not involved in extracurricular activities or clubs, indicating the need for more extracurricular activities at P.S. Garza Elementary.

When students were asked if they believed their school club helped them do better in their classes, a majority of them responded that their club did not help them. This indicates a need for better resources for the existing clubs, and for more additional clubs at this campus. This is reinforced when compared to the students who were not part of a school club, who reported that their involvement in a club would have helped them do better in their classes.

11.What are the students' and staffs' perceptions of facilities and the physical environments? What is the impact of the facilities on culture and climate?

According to the data from the surveys, the overall perception of the physical environments would be outdated. The campus itself is up to standard, but our pavilion and outdoor play area is in major need of renovations. Indoors everything is up to code and is sufficient.

The facility is not detrimental to the culture and climate due to the fact that the data showed that our student and staff reported being in a good work environment.

12. How does staff feel about technology?

Based on survey results staff showed interest in having more training on using smart boards and using an LCD projector indicating we are somewhat weak in that area. In addition, the staff survey demonstrated that technology at Patricia S. Garza Elementary is somewhat adequate and found a need for more Smart Boards, Tablets, with third and fourth choices being laptops, and projectors.

Parent questions..

Do you feel confident using technology? 77 Parents participated and 50% stated feeling confident using technology which is a good indicator that we are strong in that area.

Do you have a computer at home? Although 53% of parents have a computer at home the majority selected not having any devices at home. Also, some parents have a computer or laptop at home but it has no access to internet which is a weak point in this time of need. Our area could really have good use of hot spots for the areas showing no access to internet.

Do you understand what a Parent Portal is for? Results displayed the majority of parents who participated in the survey understand the use of a Parent Portal.

Do you know what an I-Station Level is? 33 parents state understanding somewhat, 24 understand what the I Station Level is and 18 don't know what I Station Level is.

13. What are the students', parents' and community perceptions of the school?

After collecting data from the CNA Perception survey And DISD (P.S. Garza) Parent & Family engagement survey, everyone's perspective of our school **is good**. However, there's always room for continuous improvement to make our school great.

Perceptions Strengths

Perception Strengths

- Students feel safe and confident at school.
- Parents feel Garza Elementary has a welcoming atmosphere.
- There is no gang or substance abuse at Garza Elementary.
- The students have a sense of belonging because they are greeted each morning by school staff.
- Classrooms have 1 teacher PC working.
- Classrooms have 4 student PCs working.
- Lab accessibility to 30 PCs and Library has 30 PCs.
- We have wide variety of web-based and computer-based programs to support instruction and content areas.
- Curriculum Collaborative & Eduphoria Aware support teacher planning.
- Teachers primarily use technology to direct instruction, improve productivity and model technology skills.
- Technology teacher trainings provide good and relevant hands-on trainings.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: * Problem Statement 1: Have administrators present during speakers' presentations to help monitor behavior. **Root Cause:** Administrators not always able to be present.

Problem Statement 2: * Problem Statement 2: Teachers need to make a connection with students and gain their confidence to make them feel safe. **Root Cause:** Lack of one to one pep talks with students and not enough parent contact.

Problem Statement 3: * Problem Statement 3: Consequences for discipline issues need to be consistent. **Root Cause:** DMP not being followed.

Problem Statement 4: * Problem Statement 4: Bullying issues need to be addressed. **Root Cause:** Not enough sessions on a one to one basis with specific students.

Problem Statement 5: * Problem Statement 5: More outside presenters need to be brought in to speak to students about behavior. **Root Cause:** Not enough presenters from district and parents being involved.

Problem Statement 6: * Problem Statement 6: Student recognition for Star Student and Good Citizen needs to be done every six weeks and not just at the end of the year to encourage good behavior. **Root Cause:** Lack of time during instructional day.

Problem Statement 7: * Problem Statement 7: More extra-curricular activities need to be available for students to join. **Root Cause:** Waiver restraints for some sports and lack of time during instructional day.

Problem Statement 8: * Problem Statement 8: Pavilion and outdoor play area are in major need of renovations. **Root Cause:** Budget restraints.

Problem Statement 9: * Problem Statement 9: There is a need for more Smart Boards and tablets in the classroom. **Root Cause:** Budget restraints.

Priority Problem Statements

Goals

Goal 1: Patricia S. Garza Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 1: Patricia S. Garza Elementary will focus on istructional improvement resulting in all accountability measures. The percent of KG-5th grade students will increase reading level each month to reach campus and district grade level goals.

Evaluation Data Sources: I-Station

Summative Evaluation: Significant progress made toward meeting Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Implement the district curriculum and instruction guide from share point as their primary source of instructional direction for all subject areas. **Strategy's Expected Result/Impact:** Increase reading levels every six weeks (PK-5th) **Staff Responsible for Monitoring:** Principal, Curriculum Specialist, Teachers, Strategist and Directors.				

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Develop, Implement, and Monitor a Literacy Plan where every student is provided the support, personalized instruction, and resources to guarantee reading on level or make the significant gains on a monthly basis. **Strategy's Expected Result/Impact:** Increased student performance as measured by Campus, District and State Assessments. **Staff Responsible for Monitoring:** Principal, Curriculum Specialist and Teachers **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 - **TEA Priorities:** Build a foundation of reading and math, Improve low-performing schools - **ESF Levers:** Lever 3: Positive School Culture, Lever 4: High-Quality Curriculum, Lever 5: Effective Instruction - **Comprehensive Support Strategy** - **Targeted Support Strategy**				

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Provide program manipulatives, models, textbooks, consumables and any other classroom instructional materials or resources to supplement all core content areas. Resources include: STAAR Master, Mentoring Minds, Kamico, Touch Math etc **Strategy's Expected Result/Impact:** Inventory aligned to core curriculum materials and purchase orders. Increased percentage of all students meeting District, State and Federal Standards. **Staff Responsible for Monitoring:** Principal, Curriculum Specialist and Directors **Funding Sources:** - School Improvement Grant (211.SI) - 11.6399.00.113.24.0.SI - $202.18, - School Improvement Grant (211.SI) - 11.6399.00.113.24.0.SI - $5,000, - State Comp.(164) - 11.6399.00.113.30.0.00 - $2,075, - Title I (211) - 11.6399.00.113.24.0.00 - $1,500, Warehouse Supplies & Catalogs - Local (199) - 11.6399.00.113.11.0.00 - $11,664, - Teacher/Principal (255) - 11.6399.00.113.24.00 - $4,000	0%	50%	80%	100%

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Provide Intervention in 1st-5th Grade Reading. Intervention will be provided by hiring tutors to target the 5 Reading Components in small group. **Strategy's Expected Result/Impact:** Reduce the gap between struggling students and those on grade level. **Staff Responsible for Monitoring:** Principal, Curriculum Specialist and Directors **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.6 - **TEA Priorities:** Improve low-performing schools - **ESF Levers:** Lever 2: Effective, Well-Supported Teachers, Lever 3: Positive School Culture, Lever 5: Effective Instruction - **Comprehensive Support Strategy**	25%	50%	80%	100%

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Implement 45 minutes of Guided Reading in Daily Schedules. Teachers will track reading levels on a monthly basis, set goals with students and regroup as needed. Groups will be visible. **Strategy's Expected Result/Impact:** Students will make significant growth monthly. **Staff Responsible for Monitoring:** Principal, Curriculum Specialist, Strategists and Reading Director	5%	50%	80%	100%

Strategy 6 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 6: To meet state and federal accountability requirements will be implemented, monitored and reviewed for each subject area with a focus in Reading. Student groups will be targeted to meet requirements not met. Tutors will be hired to assist in students gains and growth for Reading. In addition Staff Development, Data Meetings, Planning Days and Workshops on TAIS, DATA Deconstruction, INDEX Reviews, Eduphoria and Campus Improvement Plan will be scheduled. **Strategy's Expected Result/Impact:** Increase performance in area addressed. **Staff Responsible for Monitoring:** Principal, Curriculum Specialist and Directors **Comprehensive Support Strategy - Additional Targeted Support Strategy** **Funding Sources:** - Title I (211) - 11.6118.00.113.24.0.TT - $20,000, - Title I (211) - 11.6141.00.113.24.0.TT - $290, - Title I (211) - 11.6143.00.113.24.0.TT - $185, - Title I (211) - 11.6145.00.113.24.0.TT - $10, - Title I (211) - 11.6146.00.113.24.0.TT - $1,360, - School Improvement Grant (211.SI) - 11.6121.00.113.24.0.SI - $66,566.51, - School Improvement Grant (211.SI) - 11.6141.00.113.24.0.SI - $689, - School Improvement Grant (211.SI) - 11.6143.00.113.24.0.SI - $432, - School Improvement Grant (211.SI) - 11.6145.00.113.24.0.SI - $134, - School Improvement Grant (211.SI) - 11.6146.00.113.24.0.SI - $3,230, - ESSER III (282) - $67,860

Goal 1: Patricia S. Garza Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 2: Bilingual/ESL: Patricia S. Garza Elementary will increase the percentage of ELLs progressing one performance level on TELPAS and increase the amount of ELLs meeting state assessemnt repuirements with reading level monitoring and an awareness of language, literacy, and content interdependence.

Evaluation Data Sources: TELPAS

Priority Problem Statements 29

Goals 30
- Goal 1: Munoz Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet district goals, state and federal passing standards. The campus will implement a biliteracy program in early childhood education that will result in more students reading on or above grade level. 31
- Goal 2: Munoz Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 34
- Goal 3: Munoz Elementary will create an instructional environment that will enhance the learning and academic performance of all students and create an awareness in order to increase the percentage of graduates demonstrating college/career/military readiness when they reach the high school level. 43
- Goal 4: Munoz Elementary will provide students and all stakeholders with a safe and nurturing school environment that supports academic success. 44
- Goal 5: Munoz Elementary will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities, and ensure a positive campus climate to promote increased student achievement. 49
- Goal 6: Munoz Elementary will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 53

Campus Funding Summary 56

Comprehensive Needs Assessment

Demographics

Demographics Summary

Data Sources Reviewed:

- Campus Enrollment Report (total enrollment & withdrawals)
- Enrollment Report - Ethnicity Counts by Campus
- Student Indicator Report
- Special Programs Reports: At-Risk, GT, Special Education, Immigrant, Migrant, Homeless, Foster, 504, Dyslexia, 1st and 2nd Year Monitored Students (reclassified ELs), & Military Connected
- Percentage Attendance Report
- Teacher Turnover
- Teacher-Student Ratio
- Staff Demographics

1. What do enrollment numbers indicate?

2020-2021	Attendance	Female	Male	Hispanic	Econ Dis.
651 (as of 3/23/2021)	**96.7%**	**51%**	**49%**	**99%**	**591 (91%)**
2019-2020	Attendance	Female(Overall)	Male(Overall)	Hispanic	Econ Dis.
923(as of 3/13/2020)	95.74%	95.56% (49.71%)	95.92 (50.29%)	95.74%	95.74

2018-2019	Attendance
833 (as of 5/6/2019)	96.04%

2017-2018	Attendance
790 (as of 4/10/2018)	95.81%

2016-2017	Attendance
801	96.85%

2. What is the breakdown by ethnicity, gender, and category?

Gender	Ethnicity	Category
Female:330 (51%)	Hispanic [HSP] (100%)	Hispanic: Female-330 Male-321
Male 321 (49%)	Black [BL]: 1 (0.1%	Black Female-0 Male-1
	American Indian [AL] 3 (0.53%)	American Indian: Female-1 Male-3
	Native Hawaiian [PI] 4 (0.38%)	Native Hawaiian: Female-1 Male-2

There is about an equal number of female 51% (330) to male 49% (321) student population.

The overall population is Hispanic 100% (651) with identification of Black 0.1% (2), American Indian 0.53% (3), and Native Hawaiian 0.38% (4) student population.

3. How has enrollment changed over the past 3 years?

2020/2021	2019-2020	2018-2018	2017-2018
649 (as of 25/2021)	923 (as of 3/13/2020)	833 (as of 5/6/19)	790 (as of 4/10/18)
Enrollment w/o withdrawals			
700	**994**	**914**	**872**
Enrollment including with withdrawals			

In the past three years the enrollment population has decreased about 10% due to development of new subdivisions in the zoned area.

4. What is the number of students in each special program? How do these program numbers look broken up by ethnicity, gender, or other category? Are we over or under represented in certain groups? Why?

Population	Total	Percentage	HSP	Wh	Bl	AI	PI	Female	Male
EL	485	74.39%	485		0	0	0		
At-Risk [AR]	499	76.53%	499		0	0	0		

Econ. Dis. [ED]	535	82.05%	535		0	0	0
Migrant [MIG]	33	5.06%	33		0	0	0
Sp.Ed. [SE]	43	6.60%	43		0	0	0
GT	41	6.29%	41	40	0	0	1
Homeless	110	16.87%	110		0	0	0
504	16	2.45%	16		0	0	0
Dyslexia [DYS]	7	0.010%	7		0	0	0
M1	0						
M2	0						

Population	Total	Percentage	LEP	SE	GT	504
EL	485	74.39%	---			
At-Risk [AR]	499	76.53%				
Econ. Dis. [ED]	535	82.05%				
Migrant [MIG]	33	5.06%				
Sp.Ed. [SE]	43	6.60%				
GT	41	6.29%				
Homeless	110	16.87%				
504	13	2.45%				---
Dyslexia [DYS]	7	0.010%				
M1	0					
M2	0					

There is an over representation of LEP 74.39% (485), At-Risk 76.53% (499), and Economic Disadvantage 82.05% (535) population due to the majority of the population being Hispanic, family and environmental factors, and student's living below or at the poverty line.

There is an under representation of GT 6.29% (41), and M2 0% (0) due to small population of students that meet requirements for each of the special programs listed.

5. What is the data for special programs over time? 658 (as of 3/25/2021)

Population	2017-2018	2018-2019	2019-2020	2019-2020
EL	583	623	698	**483**
At-Risk	647	732	827	**584**
Econ. Dis.	764	813	895	**631**
Sp.Ed.	52	67	75	**57**
GT	23	24	45	**43**
Homeless	34	63	72	**117**
504	26	22	23	**19**
Dyslexia	2	4	3	**7**

EL, Economic Disadvantage, At-Risk, Special Education, GT, 504, populations have decreased due to rezoning.

Homeless and Dyslexia population has increase.

6. What does the data reflect regarding students who exit from special programs? How many? Who are they? What trend or pattern do we see?

Population	Total	Hispanic	White	Female	Male	EL	GT
EL	0	0	---	0	0	---	0
Sp.Ed.	0	0	0	0	0	0	0
504	6	6	0	1	5	6	0
Dyslexia	7	7	0	4	3	4	0

Very few students exit from special programs, such as Sp.Ed., 504, or Dyslexia. Over the past three years the LEP population has had a steady increase in the number of students meeting reclassification criteria.

7. Who are our at-risk students? What is their at-risk category?

Total	HSP	AI	PI	Female	Male	EL	ED	SE	GT	504	Dys	IM	MIG
582	582			293	289	479	536	42	29		14	29	

Category		Total
Tier 3 Istation	V004	300(F150 / M150)
Retained	V001	40(F17 / M23)
STAAR Rdg	RD4	34(F19 / M15)
STAAR M	MA4	25(F14 / M11)
STAAR Wrtg	WR4	0 (M / F)
STAAR SC	SC4	0(Female)

Failure Data

Grade	Previous Year Data	STAAR Rdg	STAAR Math	STAAR Writing
4	3rd grade ( )	No Data		
5	4th grade ( )	No Data		
Total				

582 of the student population is classified as At-Risk. There is about an equal number of female (293) to male (289) student population, the majority of the At-Risk population is identified as EL (479) and Economic Disadvantage (536). A high rate of the population is reading below grade level (300) in PK-3rd grade and moderate rate are not proficient in STAAR Reading (no data), Math (no data), and Writing (no data) in grades 3rd-5th.

8. Who are our Migrant students?

Total	HSP	Female	Male	EL	ED	AR	SE	GT	IM	504	Dys	Homeless
36	36	23	13	23	36	34	3	1	0	3	0	7

5.6% of the student population is classified as Migrant. There are more female (23)to male (13) and the majority are identified as LEP (23), Economic Disadvantage (36), and At-Risk (34).

9. What is the mobility rate for this campus? What is the stability rate? How are these numbers represented for Migrant students?

School Year	Stability Rate	Mobility Rate
2016-2017	103.62%	24.57%

2017-2018	105.05%	40.02%
2018-2019	103.61%	31.40%
2019-2020	97.50%	22.99%
2020-2021	**100.46%**	**14.16%**

Date	Enrolled	New/Transfer Enrolled	Withdrawal	Re-enrolled
9/8/20	648	12	0	
10/30/20	636	42	30	1
3/25/21	649	9	6	0
Total	652	51	48	1

Total Enrollment: 699

Migrant

Enrolled	Withdrawal	Re-enrolled
8/26/19	36	
10/25/19	36	
3/13/2020	36	

The campus stability rate is 100.46% with a 14.16% mobility rate with an overall enrollment of 699 (number of student who have enrolled during the school year). Migrant students have little impact on the campus mobility rate. Mobility rate is attributed to newly developed subdivisions in the area, relocation to neighboring schools and/or school districts and Mexico.

10. What area of the community do these students come from?

96.99% (645) of the student population come from communities ("colonias") that fall below or at the poverty line North of the Donna area and 3.01% (20) live in communities that are above the poverty line.

11. What are the staff demographics?

School Year	Stability Rate	Mobility Rate

2017-2018	104.00%	9.76%
2018-2019	100%	20.69%
2019-2020	95.12%	22.47%
2020-2021	**1.3%**	**%**

Year	Staff Total	New Staff	Staff that Left	Staff that Returned
17/18	78 (current 4/10/18)	3	5 (16/17-three & 17/18-two)	1
18/19	78 (current 5/6/19)	9	9	0
19/20	82 (current 5/30/20)	13	7	0
20/21	**62 (current 4/30/21)**	**1**	**9**	**0**

Staff	Total	Female	Male	HSP	WH	**AA**	**BA**	**MA**	PD
Admin.	3	3	---	3	---	---	---	3	---
Teachers (PK-5)	**36**	**30**	**6**	**35**	**1**	**---**	**30**	**6**	**---**
Support Staff	2	2	---	2	---	---	---	2	---
Front Office Staff	3	3	---	3	---				
Nurse Dept.	2	2	---	2	---				
TAs	16	13	3	16	---	5	5	---	---
Total	**62**	**53**	**9**	**61**	**1**	**5**	**35**	**8**	**0**

support staff (counselors and librarian)

- 98.39% of the staff is Hispanic and 1.61% White

The educational staff mobility rate increased from previous year (---%) due to decrease in student population, due to rezoning.

12. What are the teacher/student ratios? How do these ratios compare to performance?

The student-teacher ratio of 70% of classes with a ratio under 22:1 and 30% with a ratio over 22:1 in grades PK-5th.

Do to CV-19 it was difficult to have an accurate ratio of performance. Students utilized different assessments to measure their reading levels. Assessments included CLI Engage (PK), Amplify KG-2nd, Imagine Learning KG-5th, Istation Spanish for 3rd-5th.

13. What are the teacher qualifications, certifications, etc.? Paraprofessionals?

- 75% (27) instructional teachers PK-5 are bilingual certified
- 10 out of 20 paraprofessionals staff hold an Associates or Bachelor's degree.
- 1 new teacher with prior teaching experience
- 1 second year teachers

14. What does the general data reflect regarding teacher quality on the campus?

- Highly qualified
    - 34 of 36 teachers have 5 or more years of teaching experience

Demographics Strengths

Strengths:

- Highly qualified teachers and paraprofessionals
- Teacher experience 5 or more years
- Teachers enrollment in Master level programs / leadership programs
- Active monitoring of students in special programs
- STAAR intervention support / Tutoring campus
- Attendance Percentage
- Attendance initiatives / Raffles
- Tutor (Migrant)

Problem Statements Identifying Demographics Needs

Problem Statement 1: Problem Statement 1: Increase enrollment, continuous changes in student demographics requiring adjustments and/or adaptation in curriculum design, instructional approaches, and early interventions. **Root Cause:** Root Cause: Distinct learning experiences, lack of educational skills, limited English language skills, economic disadvantage, student mobility, identified and yet to be identified learning difficulties/disabilities of students presents challenges for student and teacher instruction.

Problem Statement 2: Problem Statement 2: Increase reading development for students in PK-5th reading below grade level by reevaluating reading interventions, instructional strategies, classroom management and organization/planning skills. **Root Cause:** Root Cause: Student enrollment and student-teacher ratio, diverse learning experiences, and limited English language abilities presents challenges for the classroom organization.

Problem Statement 3: Problem Statement 3: Lack of collaboration such as planning time to share ideas, resources and expertise among grade levels, changes in teaching assignments, increase of staff mobility. **Root Cause:** Root Cause: Different educational expertise, increase teacher mobility, the new teaching assignments presents challenges for teachers to build interpersonal connections with colleagues and student.

Student Learning

Student Learning Summary

Student Learning Data Student

Learning describes the results of our educational system in terms of standardized test results, grade point averages, standards assessments, and authentic assessments. Schools use a variety of student learning measurements –usually separately—and sometimes without thinking about how these measurements are interrelated. Victoria Bernhardt

Probing Questions

1. How is the student achievement data disaggregated? Student achievement data is disaggregated into smaller categories. These categories include: ELL, SPED, Migrant, Gifted and Talented, and At-Risk; such categories serve to compare with all student groups and help staff plan successful age appropriate programs.

2. How does student achievement data compare from one data source to another? Due to Covid-19, STAAR was not administered. Data is not reliable due to students not taking assessments in a controlled environment. Assessments have been changed such as Amplify, Galileo, Interim Assessments (3-5th grades), Progress Monitoring and Imagine Learning and there is not comparable data to last year. Assessment platform is online as opposed to last year paper.

3. What does the data indicate when disaggregated by ethnicity, gender, socioeconomic status, special program, or other category? (*Demographics)

*Due to Covid, our students are receiving instruction in 3 different ways. Students receiving Fact to Face are showing more growth compared to students at home remote synchronous learning. Asynchronous remote learners are falling behind as they are working off packets and receiving little direct instruction.

4. In which areas are we showing growth? At what rate? Compared to which standard of achievement? Based on previous year, the math area, there has been consistent improvement in all grade levels in the past several years. Reading and writing have shown little or no gains when it comes to STAAR. Not comparable to STAAR for 2020 due to it being cancelled. Science has shown steady growth and received a distinction in STAAR Science for 2018-19 school year. For this current year we won't have data since STAAR was not administered for 2019-2020 school year. Students working at home are not testing in a controlled environment.

5. Which students are making progress? Why? (*School Process)

*Due to Covid, our students are receiving instruction in 3 different ways. Students receiving Fact to Face are showing more growth compared to students at home remote synchronous learning. Asynchronous remote learners are falling behind as they are working off packets and receiving little direct instruction.

6. What impact are intervention programs having on student achievement? Which students are benefitting or not? (*Demographics)

Students that are benefiting are students participating in face to face instruction. Interventions from PK – 5th grade are being provided to students. Tutoring for students is also available. Interventions during asynchronous times as teachers meet in small groupsand target those students who needed the extra help.

7. What does the longitudinal student achievement data indicate?

*Due to COVID STAAR data for last school year is not available. But based on previous years

years' STAAR EL students where showing growth in closing the gap, using the latest Bundles data 3rd-5th students are showing little to no gains. Writing in the latest Bundle has shown some gains. Reading levels are improving due the emphasis placed on Istation, tutoring & AR testing, etc.

8. What does the data reflect within and among content areas?

Indication is that students are performing lower than they would, compared to normal conditions without COVID. Many of the reading scores are lower than what they should be at this point. There is regression due to students not being on campus and having the hands on experience of past years.

9. What does the date indicate when disaggregated at various levels of depth?

Students are growing but the percentage is minimal. One on one instruction is key towards targeting students in areas of need but COVID is not allowing that. Small groups are a huge part in obtaining set goals. Growth and regression is drastic. Many times the students are not so far behind but due to a setting change, that impacts students and how they focus and learn.

10. Which students are making annual progress? Which ones are making projected growth? Who are these students? How does this data compare across programs, content areas, subgroups, etc.? (*Demographics & School Process)

Students have shown improvement in core subjects from the beginning of the year to the spring semester, however growth is very minimal. Out of all subjects, Spanish Reading testing students have shown the most growth from Fall to Spring. ELL /At risk students are showing minimal growth but not as much as the previous years. The campus made growth in reading/math in 2019 but began to regress during remote learning. When comparing Reading, Math, and Writing Interim scores to the last STAAR data (2019), students have shown regression in all subjects.

11. What evidence exists to determine that the curriculum is clearly linked to the TEKS and other standards for student learning?

The curriculum is linked to the Texas Essential Knowledge and Skills through Eduphoria where teachers document the TEKS, ELPS language objectives, and CCRR's in teacher lesson plans. Teachers are meeting on a weekly basis (PLC grade level meetings) and are identifying struggling areas/TEKS. Tutoring is being implemented in the afternoons for upper grades. At the end of each six weeks' teachers identify TEKS not mastered in action plans and through data analysis to target and spiral these standards the following six weeks on a daily basis. Aware assists teachers in identifying the specific TEKS evaluated through each question on district, diagnostics, and state assessments.

12. How is data used to inform curriculum, instruction, and assessment decisions? (School Process) Data is analyzed by bundles, diagnostic assessments, Istation reports, AE Local report, Imagine Math reports, previous year TELPAS & STAAR.. The TEKS that students are struggling with are identified by teachers and an action plan is created to target those specific TEKS. The TEKS are then spiraled into a daily review to provide time for mastery. The TEKS significantly below are re-taught to the students to ensure they grasp the TEKS.

13. What does the data reflect about how curriculum, instruction, and assessment are aligned? How are they focused on supporting and challenging all students?

The curriculum addresses specific TEKS for each grade level in a developmentally appropriate continuum and it is aligned to the textbooks, assessments and curriculum in bundles. The bundles reflect the objectives of the curriculum and provide varied opportunities for students to show what they have learned through the six-weeks. Teachers then determine the best approach for re-teaching of skills whether it may be in a whole group or a small group setting. Clear and targeted interventions are applied in small groups to meet students' needs. Students who are performing below grade level are targeted through small group instruction in order to best meet their specific needs. Challenging all our students, especially our below grade level students is done through enrichment of the curriculum.

14. How are curriculum, instruction, and assessment aligned with 21st Century Learning Skills?

According to Trilling and Fadel (authors of "21st Century Skills") 21st century skills include strong academic skills, critical thinking, information literacy, problem solving, creativity, innovation, media literacy, communication skills, collaboration skills, and leadership skills. The district's curriculum provides teachers with resources that contain 21st century skills. Source: 21st Century Skills. Trilling and Fadel, 2009, p. 21. http://en.wikipedia.org

15. How are instructional strategies and activities aligned with student learning needs and expected outcomes for achievement: How consistent is this across the district/school? What is the impact on specific student groups? (*School Process & Demographics)

Students are assessed at the beginning of the school year to determine their specific needs and academic achievement in relation to their grade level. Once data is obtained, it is analyzed by administration and teachers and students who are in academic need are identified. Once students are identified and grouped, they are provided with intervention strategies such as guided reading, small group, tutoring, computer programs, cooperative learning instruction, hands on activities, interactive journal, foldable, anchor charts, stem questions, and visuals. The objectives targeted during these interventions are designed to enhance student skills to grade level. Due to recent events, all instruction has switched over to virtual instead of regular classroom instruction.

16. What evidence supports the implementation of high impact/high yield additional interventions for students who need assistance beyond primary classroom instruction? Which students need this type of instruction? What has the effect been over time? (*Demographics)

Interventions at the lower grades (PreK2 nd) include small group, constant repetition and tutorials during asynchronous time every day with students grouped based on their specific needs. Students in the lower grades were identified based on diagnostics from amplify testing done at the beginning of the year, reevaluated middle of the year based on students' needs, and tested at the end of the year for the following grade level. Upper grade levels are tutoring.

17. How does instructional design and delivery maximize student engagement, a positive learning climate, higher order thinking skills, problem solving, critical thinking, etc?

Planned and purposeful virtual instruction that addresses the needs of students is reflected in the teacher lesson plans and in the delivery of instruction in the virtual classroom. Students are first engaged in a whole group instruction setting through discussion, participation and hands on activities with the implementation of the 5E model and Gradual Release Approach. During small groups/interventions students are engaging in district programs such as: imagine math, imagine literacy, and i-station to practice the concepts that have already been taught. Most teachers use higher order thinking skills/depth of knowledge which allows for a full rigorous instruction. Sheltered instruction is also utilized in order to assist teachers to better instruct the ELL population.

18. Is there evidence that assessments are aligned with clearly specified and appropriate achievement expectations? How are they developed and linked to measure the effect of curriculum and instruction? District created assessments (bundle test) are aligned and linked to the Texas Essential Knowledge and Skills. Benchmarks (release test) prove to be accurate in predicting what students will score on state assessments. Bundle assessments provide the data that guides teacher's instruction in the classroom. Most importantly, although students have individual needs, assessments provide a reflection of the instruction being provided in the classroom. Teachers also create their own formal and informal assessments to provide a better picture of students' needs.

19. How do we know assessments are designed, developed, and used in a fair and equitable manner that eliminates biases? How do students perceive these assessments? The assessments (bundles, six weeks tests, comprehensive and benchmarks) that are created by the District are aligned to the TEKS and skills previously taught to ensure that the teachers keep spiraling into the TEKS throughout the six weeks period. Formal and informal assessments are given to each student to ensure that they understand the TEKS and curriculum being taught. Students that require accommodations such as the extended time, dictionary, and/or oral assessments are provided with these accommodations to fit their needs. Teachers also provide the students with teacher made CFU's (check for understanding) 3-5 question quizzes. When asked about the assessments, the students responded that there were too many tests given and some still thought the tests had too many questions.

20. How does the scope of assessments provide a comprehensive and representative sampling of student performance that allows for confident conclusions about achievement? The assessment is the blueprint or guide that lets the teachers know what should be taught in order to obtain mastery. Standardized assessment, District bundle exams, computer programs, classroom assignments are used to allow students to express their knowledge in a variety of ways. Math and Science are aligned to the scope of assessments however improvements need to be made to the Language Arts assessments.

21. What technology do we have for student learning? (*School Process) Students are provided the following programs to enhance their learning: Istation, Imagine Math, Stemscopes, Learning.com, Starfall, MyOn,Typing.com, Brainpop, Brainpop Jr., Brainpop ELL, ThinkCentral, Quizizz, Code.org, Edmodo, Class DOJO, Google Classroom. PK – 2nd grade student have received an iPad. 3rd – 5th grade students have received a Chromebook. In addition, students also have access to computers in their classrooms, library, 3 Ipads in the upper grade classrooms, 3 mobile labs and computer labs.

22. What is the technology proficiency for staff and students? Teachers have a basic understanding of technology. Teachers are proficient in Microsoft programs and have been Google certified over this past summer.

Student can navigate through instructional software but lack the basic foundation of other technology applications. Students are able to navigate through Istation, Imagine Math, Education Galaxy, and MyOn.

23. What are some barriers that potentially prevent effective use of technology? When it's working, why is that so? When it's not working, why not?

Students have all received their own device this school year. PK -2nd grade an iPad and 3rd – 5th grades a Chromebook. Each classroom does have 4 student computers for students to use independently. The three computer labs that we currently have do not allow for adequate time for all classes to rotate through all the programs that they are expected to do within one week. Teachers get creative with their scheduling and are flexible so that it is maximized. For the most part, technology issues are minimal. Many of our computer programs allow for home usage so students can also work on them at home.

24. What types of technology professional development have we provided? What was the impact for staff and students? Teachers are required to complete 6 hours of professional development annually through Atomic Learning to enhance technology proficiency skills. Teachers are able to implement applications such as class dojo, Thinkcentral and Nearpod in and outside of the classroom. Students still lack the carryover home technology awareness and practices of programs such as Istation, Imagine Math, Class DOJO, Edmodo, Google classroom, MyON and HMH approved by the school district.

25. In which content areas are we using technology and how? What is the effect? All grades are currently using technology Imagine Leanring and Istation for Reading intervention, practice and assessment in addition teachers also use Learning.com, and Reading A-Z. All grades are using Imagine Math, Brainpop and Brainpop Jr. for practice, intervention and assessment. In the areas of science, 5th grade is using STEMScopes with not all other grades full using the program for Science. In addition Kami is also used for 3rd, 4th and 5th grades. Theses computer programs offer a different approach in that students are able to learn and interact with the technology programs to enhance their learning and understanding of the curriculum.

26. How does the design of the network provide for the users it supports? Students are able to use the programs at school and at home. Students are able to log in to Clever and access any of the programs they need. The towers have a one mile radius; thus a majority of our students do not have internet access at home.

27. How is technology utilized to support curriculum, instructions, and assessment integration and implementation? Teachers have been Google certified and use the Google classroom for assignments and interactive worksheets/quizzes for students to use.

Teachers are able to easily monitor Instructional Programs and track student work, assessment and progress through the management system of each program. The programs support and reinforce what is currently being taught or what has been taught in the classroom and teachers are able to better differentiate instruction to meet students' individual needs. The District provides SharePoint for the collaboration and resources teachers need to carry out their instruction.

Student Learning Strengths

Strengths:
PK-2: iPad
3-5: Chromebook
Teachers Google Certified

Online bundle testing to align with STAAR
KAMI Instructional Program for K-5
Educational Galaxy K-5
LEP Students each received headphones
Promethean Board for each classroom

Needs:
Tutors for Reading & Math for grades 3-5th grade
Tutors for 1st & 2nd in the area of Reading
Better Wifi Connectivity on campus
Tower not fully functional/1 mile radius
Studetns not reading on grade level
Need to close the learning gap caused by COVID and virtual learning in areas of Math and Reading
Test Taking strategies for students as they transition to online testing

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Provide additional trainings to teachers in the area of Reading specifically on closing the learning gap. **Root Cause:** Learning gap caused by COVID and virtual learning.

Problem Statement 2: Provide additional trainings to teachers in the area of Math specifically on closing the learning gap. **Root Cause:** Learning gap caused by COVID and virtual learning.

School Processes & Programs

School Processes & Programs Summary

CNA SCHOOL PROCESS

1. How are follow-up data regarding teacher performance provided to teachers?

Teachers are provided instructional feedback follow up data on walkthroughs via Eduphoria/strive and with face to face/online debriefing as needed. Data performance is provided through grade level or department meetings. Our lead teachers are also utilized to compile data and report grade level performances. Overall, the administration tries to differentiate for teacher's based on their individual strengths and needs. Administration facilitates PLC meetings with teachers weekly and have Data talks to discuss action plans aimed at achieving student success. Some teachers are met with individually and are provided a coaching cycle with assistance planning with follow up walkthroughs and conferencing.

2. How are we recruiting highly qualified and effective staff?

We have been participating in the UTRGV teacher job fair for two years now and only interview candidates who are fully certified in the areas of need (mainly bilingual). HR department will also send us a list of candidates who have submitted their application or resume who have already been screened by them and are considered highly qualified. Our teacher pay is also comparable/competitive to our neighboring districts and this has helped in the last few years.

3. What is our staff attendance rate? 98.6% Retention rate? 92% Turnover rate? 8%

4. How is highly effective staff assigned to work with the highest need students?

Highly qualified applications come from the central office. Once in place school/campus staff interview based on campus needs. Then hired teachers are placed where they are needed and or are certified to teach. They are evaluated using Strive on Eduphoria and are given immediate feedback if standards are not met. Administration also assigns a mentor teacher to help and guide the newly recruited staff. All new teachers must follow state and district requirements. All DISD teachers are almost always offered ways to maintain their high-quality education, such as through achieving their masters through district initiative. All this information is taken into consideration when placing our teachers in the different classrooms.

5. What is the impact/effect of our teacher mentor program?

In speaking with new teachers , transfer, returning they feel on their own. Unless they approach some in their team who might guide them they feel at ease.

6. How is the new staff supported? What feedback do they provide?

New staff are supported by Colleagues/grade level team members. Colleagues/grade level team members help by sharing information and ideas. Grade-level teams collaborate on how they're going to implement lessons, which activities they are going to use, as well as instructional practices . Teams collaborate on technology being used as intervention and testing. Teams offer each other feedback and new ideas during our PLC's (Professional Learning Committees).

7. What systems are in place to build capacity and support the notion of continuous improvement?

TTESS, SLOs, walk-throughs, and observations by administration are just a few of the many systems in place to build capacity and support the notion of continuous improvement. We receive monthly data reports from the district showing our students' usage and progress in their programs. We administer progress monitoring exams, as well as, Beginning of the Year, Middle of the Year, and End of the Year exams. We also use Istation reports and bundle test scores (six weeks exams) to check for growth. Teachers and administrators have weekly, PLC, Grade Level, team leader, and staff meetings. DISD staff are provided with various professional development opportunities.

8. How are we using data to determine professional development for staff?

BOY, use Imagine Learning. First year to use it. Had to have professional development to understand data and how to retrieve it. Teachers will be attending the Notice and Note training throughout the summer to help teachers provide differentiated instruction for writing. The district offers various trainings on Bilingual Education such as Bil

9. How are collective and individual decisions regarding professional development determined?

District requires mandatory training for certain subjects. We also get to choose Professional Development offered through Region 1 based on our personal interests.

10. What types of professional development has staff attended? How is implementation monitored? What impact has it had on performance? What is the follow-up?

Staff has attended Donna school based district professional development such as : Biliteracy Technical Assistance Guided Reading, Bilingual / RLA Notice & Note, Write Now! Using Writing Instruction in Virtual Classrooms to Support ELs, Instruction in Integrated English Language Development, SCIENCE - TEA Science Safety Training for Elementary, Math - 2nd Grade M.E.E.T.S: Looking Deeper into Addition/Subtraction Problem Solving, TELPAS Online Test Administrators Training, TELPAS Administrative Procedures and Security Training, MOY LPAC Training, Martha Morales Writing Training, and Professional Learning Community. These training sessions are geared to assist and enhance the students' learning in reading, writing, math, science, and social studies daily progress.

Implementation is monitored through walk-thrus, lesson plans, and T-Tess evaluations. Educators are using, providing, and sharing their ideas and views of their progress successes and challenges. Student performance has increased with constant practice. Educators can use individual assessment scores and refer to their previous professional development recorded videos.

11. What evidence exists that families and family members are involved in meaningful activities that support student learning? What are the activities? Which parents and community members are involved? What trends and patterns do we observe?

The parent center and classroom educators utilize daily logs, surveys, and opportunities to raise concern. These are utilized to support student learning. Flyers are sent out from the parent center and the library in our district to support parent activities such as job fairs, food nutrition programs, literacy night, Read Across America, and clinics for health and wellness. All parents, students, educators, and district staff are welcomed and involved. Parents, students, staff, and educators have multiple opportunities to establish patterns of learning success.

12. How are families and the community members involved in school decisions?

Due to Covid, this year, families have not been very active in school decision making. However, every six weeks parents are given a survey which allows them to make the decision for their child on whether or not to send them into class or keep them home. Parents are invited through Zoom meetings to attend any important meetings.

13. What types of services are available to support families, community members, and students to encourage healthy family relationships?

- Federal funds available to help families in need of uniforms
- Online Parent meetings through the Parent Center
- One of the services being offered this year was Communities in Schools which helps our students.
- Resource available to families are on the District MOU list. It is a list of places or organizations that can help the families by providing services. This resource helps families that are having issues at home.

14. If families speak language other than English, what are these languages? How does the school communicate in those languages?

The other language other than English at Muñoz Elementary is Spanish. Notes/letters going home are in English and Spanish to ensure that parents understand the information provided. Automated phone calls are done in both English and Spanish. Parent meetings are conducted in both languages.

15. What types of services are available to support students in special programs?

Bilingual program, biliteracy program, migrant program, Special Ed., GT program, 504 program, RTI and Dyslexia.

16. What types of community partnerships exist to support families and students?

Interviewed Mr. Sustaita and Mrs. J. De Leon

Workforce, Mujeres Unidas, Texas Tax Payer, Avance, MHP Salud, behavior health solutions, Communities in Schools, New Beginnings, Federal Program for uniform vouchers, and many more counseling services provided in the District M.O.U. Agencies referral choice list.

17. To what degree does the district/school support the organization and how?

District/School provides teachers with technology conferences at the beginning of the year to train all teachers for remote learning. Examples of trainings, (Google classroom 101, Creating digital worksheets, keeping students engaged)

District/School provides bilingual training for educators who are trying to obtain Bilingual certification.

District/School provides courses in safety, training, and working through situations during the COVID-19 pandemic. District also provides vaccinations and information on teachers interested in getting the vaccine.

District/School provides materials necessary to maintain a clean environment (desk shields, face shields, hand sanitizers) that is safe for all students, teachers, and staff.

District/School provides a PLC platform for teachers to be able to plan effective meetings and collaborate with each other. Grade level meetings are held every Tuesday. Lead Teacher Meetings are held every Wednesday. Staff meetings are held on Thursdays. The district also provides staff with on demand PD modules to help teachers throughout the year. These videos help to share new strategies and techniques teachers can then use in their own classrooms.

District/school provides teachers monthly subject meetings to clarify the TEKS being taught during each 6 weeks. Strategists meet with teachers from the same grade level and provide feedback, academic resources and teacher to teacher collaboration with other experienced teachers. During these meetings the strategist also provides the support for accommodations such as scaffolds and differentiated material. Meetings are held online virtually through Google Meets or Zoom giving teachers access and opportunities to log in.

District has provided resources for teachers that are already made and ready for virtual use. Curriculum has been updated for remote learning. Strategists have included different programs that are available to the teachers such as (Quizizz, Kahoot! Kami, Jam board, Quizlet, Google Slide Worksheets)

District/School provided a Chromebook/IPad for every student. Students who had internet issues were given hotspots for internet access at home. District

18. What does the data reflect about classes, schedules, and student/staff teams?

COVID-19 and Virtual learning have shifted everything for this 2020-2021 school year.

Classroom attendance for in person learning went from 25 students to at least 5 or 6 students per homeroom. Some teachers have 10 to 12 students in a classroom.

Parents are hesitant to send their child to school because of the Covid-19 pandemic. Parents feel that it isn't safe enough yet for their child to return back to campus. As a result, students that are in class learning are outperforming students that are working from home.

Staff is spending an unusual amount of time connecting students, trying to contact parents and redirecting students at home. Some parents have been helpful and others have not been responsive.

Class schedules do not give students enough time to work asynchronously on their computer programs. Teachers are trying to find time to have students work on computer programs either during lunch or intervention.

Increase of Teacher absences due to either Covid-19 or any illness has caused the loss of student instruction. Grade level team members have to pull their part to help minimize the loss of instruction.

Student attendance is low, some students that have chosen to be in class only show up a few days of the week. Some students are consistent, while other students show up every other day. This has caused the attendance to be lower than what it was last year.

19. How is adequate time devoted to subjects in which students perform poorly?

The daily schedules provides the following minutes in each subject area:

Reading

Grade	Minutes	Intervention	I station/Imagine Learning
PK	90	60	45/60/90
K	90	45	45/60/90
1st	90	45	45/60/90
2nd	105	30 ELD/SLD	45/60/90
3rd	105	30	45/60/90
4th	75-90	30 ELD/SLD	45/60/90
5th	75-85	25 (Pair)	45/60/90

Math

Grade	Minutes	Intervention	Imagine Math
PK	90	60	90 (Weekly)
K	90	45	90 (Weekly)
1st	90	45	90 (Weekly)
2nd	90	30 ELD/SLD	90 (Weekly)
3rd	105	30	90 (Weekly)
4th	75	30 ELD/SLD	90 (Weekly)
5th	60-80	25 (Pair)	90 (Weekly)

Writing

Grade	Minutes	Intervention
PK	90 (RLA)	60
K	90 (RLA)	45
1st	90 (RLA)	45
2nd	105 (RLA)	30 ELD/SLD
3rd	105 (RLA)	30
4th	75	30 ELD/SLD
5th	60 (Pair)	25 (Pair)

- Munoz is one of the Top 3 campuses completing the 90 minutes and showing growth.
- Some teachers provide intervention during their planning and conference periods.

- Some teachers incorporate computer-based intervention programs into their small-group instruction.
- Students are using computer-based intervention programs during asynchronous learning and during breakfast and lunch time.
- Teachers are monitoring and rewarding students who meet their goals.
- Small group instruction during asynchronous learning
- Extended Day (Conference Tutorials-3 teachers)
- Migrant Tutor (1)
- Intervention Period included in Daily Schedule (PK-5th)
- Guided Reading-No longer included as a separate period

20. How do teachers have a voice in decision making and school policies?

Teachers have a voice in decision making policies by being stakeholders in the following:

Lead Teachers: A lead teacher is selected to represent every grade level. Weekly meetings are held with administration to disseminate information and to make decisions on academics and campus activities.

Staff Meetings: Staff meetings are held weekly. Information is disseminated and staff members have the opportunity to contribute to decision making or voice any concerns they may have.

CLPAC: All team leaders are part of the CLPAC that meets regularly with the principal to decide on school related issues and school policies. Members of the CLPAC committee represent our campus at the district level (DLPAC) and disseminate information to campus personnel. They gather input from the campus and report back to the district as needed (e.g. District calendar)

CNA: School personnel actively participate in the CNA process. They answer questions and determine strengths and weaknesses and then make recommendations to address any needs.

21. What role do teachers have in deciding what assessments will be used to evaluate individual students or the program as a whole? Interviewed: Mrs. Angulo

When it comes to bundles/district exams and state exams the district decides what assessment to use but for informal assessments the teachers can use what they create to evaluate their students.

22. Do school committees and decision-making bodies make it easy for teachers, parents, paraprofessionals, support staff, and students to be heard and, in turn, for all groups to be part of solutions to identified problems? (Interviewed teachers
PLC Meetings (Mondays)- Group of teachers with administrators meeting weekly and discussing modules and data. - Online

Grade Level Meetings (Tuesdays): Group of teachers collaborate with principal and other administrators on different situations and brainstorm ideas/solutions to different problems/situations, school environment and academic improvement. - Online

CLPAC (Campus Level Planning and Decision Making Committee) (Wednesdays): lead teachers, administrators, and sometimes librarian, counselors have schedule meetings to discuss and share ideas and important information from each grade level to make aligned decisions on upcoming events. - Online

DLPAC- (Once every month) from our campus: Ms. Simack/ Mr. Alonso/ Mrs. De Leon- Mrs. Ofelia Alvarez and Mr. Rana are the ones that conduct the meeting and they discuss any concerns and vote for board topics.

23. What evidence is there that there is a process for monitoring, evaluating and renewing the curriculum to meet the needs of all learners?

Lower Grades

- Beginning of the Year (BOY)
- Middle of the Year (MOY)
- End of the Year (EOY)
- I-station
- Imagine Language and Literacy
- Imagine Math
- Amplify
- Bundle Testing

Upper Grades

- Bundle Testing
- Benchmarks
- I-station
- Imagine Math
- Imagine Language and Literacy
- Education Galaxy

School Processes & Programs Strengths

- Teachers are provided with immediate feedback during walkthroughs and assistance when needed.
- The Human Resources Department does an excellent job of recruiting fully certified teachers and screening them before recommendations for employment are made.
- There is a comprehensive program of checks and balances. Directors provide support and resources for teachers and grade levels work as a team and support each other.

- The district provides ongoing Professional Development to address student and teacher needs.
- Walkthroughs enhance teacher performance by providing constructive feedback.
- District/School provides resources for teachers that are already made and ready for virtual use. Curriculum has been updated for remote learning. Strategists have included different types of resources for teacher use.
- Math and reading are provided with 90-105 minutes.
- Teachers have a voice in decision making through grade level meetings, staff meetings, and CLPAC.
- Meetings take place weekly where teachers and administrators communicate important information regarding events and educational decisions.
- Different ways are accessible for monitoring, evaluating and renewing to meet the needs of all learners.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Not enough parent and community involvement **Root Cause:** Not enough opportunities are provided for parents to be involved in their child's education. The school has not reached out to local businesses to create partnerships.

Problem Statement 2: Not all teachers are bilingually certified. **Root Cause:** The district hires teachers without bilingual certification. Some teachers who have been with the district for years are not required to get their bilingual certification while others are not due to different circumstances.

Problem Statement 3: Teachers who are reassigned do not get the adequate training for the new grade level prior to the following school year. **Root Cause:** Teachers are not given enough time to prepare when reassigned to a different grade level or subject.

Problem Statement 4: There is a lack of formal mentorship for new or beginning teachers. **Root Cause:** Neither the district nor the campus has implemented a formal mentoring program.

Problem Statement 5: Lack of in-depth training and no adequate follow-up training **Root Cause:** District/directors do not schedule follow-up training and/or teachers fail to seek training.

Problem Statement 6: Not all communication with parents/community is in both English and Spanish. **Root Cause:** Not communicating in Spanish on social media or on the school marquee.

Problem Statement 7: GT students are not challenged and supported in the classroom. **Root Cause:** Teachers focus on students who are lacking basic skills.

Problem Statement 8: Lack of student attendance throughout the school day. **Root Cause:** Covid pandemic and parents' failure to monitor their child's attendance.

Problem Statement 9: Daily schedule needs to include asynchronous instruction in all grade levels. **Root Cause:** Some grade levels have not included this time in their schedules.

Problem Statement 10: Lack of representation during staff meetings by paraprofessionals and support staff such as custodians and cafeteria personnel. **Root Cause:** Meetings are not held for these groups on a regular basis.

Problem Statement 11: The educational community including staff and parents lack training in remote learning. **Root Cause:** The Covid pandemic forced the school community to utilize remote learning platforms for communication and educational purposes.

Perceptions

Perceptions Summary

1. How do students describe the school climate? How does this compare to staff?

Based on survey data, 60% of students described the school climate as Good while 30% of the students described it as excellent. In comparisons to staff, 50% described the school climate as Fair, 33.3% as Good, and 16.7% as Very good. This shows that students have a higher perception regarding school climate than staff members.

2. What evidence is there that students and staff are collectively aligned with the vision and mission of the school?

Due to the pandemic, teachers have transitioned to virtual teaching. Teachers have incorporated the use of different engaging platforms like Quizizz, Jamboard, and Pear deck, also the use of virtual field trips, and making connections to real world issues, etc. to keep students engaged and provide a more diverse learning environment. This new avenue of learning gives students the competitive edge to not only learn in a different way, but also complete assignments using their own tools, creativity, and provided resources to create a final product. Therefore, students and staff are collectively aligned to the vision and mission statement in that it provides a rigorous and supportive learning environment with meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking that ensures educational excellence for all students.

3. How do students and staff describe attitudes, respect, relationships, belonging, support, etc.? How does this data compare across groups? Which groups respond in which manner? (*Demographics)

Sixty five percent of students rate the attitudes, respect, relationships, and support aspects, etc. as good and 30% as excellent, leaving only a mere 5% that are not satisfied. Eighty-four percent of staff members rate the previous as 52.6% good, 21.% very good, and 10.5% excellent. Only 15.8% of staff members described this as fair or poor showing that for the most part staff members and students have an overall positive outlook when it comes to respect, relationships, support, and attitudes. Data was collected using both groups of students, 62% from students at school and 38% from students working virtually from home.

4. What does the data reflect regarding student behaviors, discipline, etc.?

Based on our survey data, 84.19% of teachers rate their student discipline as Good, Very Good, or Excellent. Student behaviors on the contrary, shows that 50% of teachers rated student behavior as Fair while the other 50% was distributed between Good, Very Good, and Excellent. This shows that even though discipline is rated well overall, student behavior is not portrayed as good when it comes to working virtually. There are many obstacles on student learning, for example not participating in class discussion, having cameras off during classroom instruction, not turning in assignments on time, etc.

5. To what degree do students and staff feel physically safe?

According to our survey, 75% of students feel physically safe with another 17.5% feeling somewhat safe. Sixty-seven percent of staff members feel safe while an extra 16.7% felt very safe. This supports that the campus has done a good job of making sure a good majority of staff members and students feel safe while inside the facility.

6. What do students and staff indicate about expectations: academic, behavioral, social, extracurricular, etc.?

According to a survey conducted, 39% of teachers agree with the statement, “Our campus is meeting academic expectations”, while 18% feel that our campus is not meeting expectations. 42% of teachers neither agreed or disagreed with the statement.

Most teachers (91%) agree that staff on campus treat each other and students with respect and demonstrate appropriate social behavior set by the campus and the district. 6% disagree with that statement while 3% neither agree nor disagree.

30% of teachers surveyed think that there are not enough extracurricular activities while 24% feel that there are. 46% neither agree or disagree.

52.5% of students said they complete their work all the time, 25% said that they complete their work sometimes, and 22.5% say they complete their work only sometimes.

50% of students said that they would like for their to be more extracurricular activities while the other 50% said there were adequate extracurricular activities.

55% of the students indicated that students at Munoz Elementary respect each other all the time, 40% said sometimes, and 5% say that students do not respect each other.

7. Which students are most satisfied with the school's culture and climate? How does this compare to the students' attendance, tardies, and other behaviors?

According to the survey, students at home are more satisfied with school's culture and climate than the ones in school. Although, the students in school feel safe and secure coming to school everyday. The students at home would also like to come back to school as soon as things get back to normal. The comparison to absences is that the students who come to school hardly ever miss unless they have a doctor's appointment. Students are not counted tardy this school year. Behavior has been better due to students being virtual and 6 ft. apart with masks, shields, and desk shields as well.

8. What does the data indicate regarding classroom management and organization? How does this compare to classroom student achievement data? (*School Process and Student Learning)

-Proper classroom management creates an ideal environment for learning. ... This kind of environment enhances learning, as well as social/emotional development. Managing a classroom is more than simply establishing a set of rules. It takes a school-wide effort to create a positive classroom environment.

Everyone is an important part for the well execution, organization, and implementation of the management plan. (Teachers, Admins, TAs, and students).

9. What does the data reflect regarding gang, substance abuse, weapons, and other safe schools area? Who are the students involved? What do we know about these students? What services have these students received? (*Demographics)

-Consequences of gang membership, substance abuse, weapons, and other, may include exposure to drugs and alcohol, age-inappropriate sexual behavior, students drop out from school, difficulty finding a job because of lack of education and work skills, removal from ones family, imprisonment and even death.

The presence of gangs is correlated with levels of verbal, physical, and cyberbullying, general victimization and violence, particularly fighting. Apart from victimization, gangs also contribute to a number of perceived physical and social incivilities within the school.

Youth are most likely to join a gang during their teen years when parental significance and supervision are temporarily replaced by peer influence.

Some children and adolescents are motivated to join a gang for a sense of connection or to define a new sense of who they are. Others are motivated by peer pressure, a need to protect themselves and their family, because a family member also is in a gang, or to make money.

Gangs increase the levels of crimes in communities and schools, and set a bad example for kids in the area. They create an image of power and respect, when in reality they drop out of school, struggle with unemployment, abuse drugs and alcohol or end up in jail. Communities fear them because of the harm they can bring to others.

* Up until now here at MAP Muñoz we haven't had any situation of substance abuse, weapons, or gang related issues with our students.

* The students at Muñoz Elementary have access to counselors, admins and teachers in case they feel the need to talk about any of the issues mentioned. There are some students who participate in the program Community in Schools. The program's goal is to surround students with a community of support, empowering them to stay in school and achieve in life.

10. What students are involved in extracurricular activities, clubs, and other areas? Who are these students? What does student achievement reflect about these students versus others who are not involved? (*Demographics & Student Learning)

This school year there are 2 extracurricular activities available to students, ACE and Book Club. The students involved are listed on the tables below. According to a survey sent out to these students' teachers, 45% of teachers say that students who are participating in extracurricular activities are more engaged in school than those who are not participating in extracurriculars, 41% say that they are equally engaged as those who are not involved in extracurriculars, and 14% say they do not perform better than students not involved with extracurriculars.

11. What are the students' and staffs' perceptions of facilities and the physical environments? What is the impact of the facilities on culture and climate?

Our facility is currently in need of some renovations and upgrades. The building itself needs to be maintained and looks much older than it is. A new ventilation system is needed and was never installed properly. The school needs to look more inviting, by adding a nicer curb appeal. For the number of students, we currently have our school is not equipped with enough restrooms.

Creating a positive environment is necessary in order for teachers to teach effectively and for students to be receptive to learning. Facilities in good condition, including low noise levels, cleanliness, access to clean air and water, and absence of overcrowding are not only conducive to learning, but essential for student and staff overall health and well-being.

A well-maintained and safe physical environment fosters students' ability to learn, to show improved achievement scores, and to exhibit appropriate behavior.

12. How does staff feel about technology?

Covid brought tremendous challenges for staff and the district as a whole. Like everything else, it was a rough start at first but most staff have gotten accustomed to the new rigors. The lack of infrastructure at the district level has contributed to the frustrations. For example, the tower at Munoz was delayed for several months.

13. What are the students', parents' and community perceptions of the school?

-Parents like everyone else have struggled and continue to struggle with the added burden of helping their students at home. The district has attempted to help but our Munoz parents face the additional burden of abject poverty. Records indicate that 61% of our students are back on campus. This would indicate that our parents feel comfortable with our campus. Most of our parents have responded well to our attempts to teach their children in the middle of a pandemic. We must continue to work together as a team with our parents.

Perceptions Strengths

Strength - Students and staff are aligned to the vision and mission statement.

Strength - Student and staff feel physically safe inside of the facility.

Strength- No signs of substance abuse, weapons, or gangs.
Students have access to staff in case they feel the need to talk.
Program located at school: Community in Schools.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: The outside pavilion needs to be converted into an enclosed gymnasium attached to the building. **Root Cause:** As it stands now, weather and mosquitoes severely limit the days our students spend outside.

Problem Statement 2: An intercom system for the outside needs to be installed for emergencies. **Root Cause:** Two-way radios are the only communication with the coaches outside.

Problem Statement 3: The irrigation system around and in the school needs to be updated. **Root Cause:** Heavy rains flood the parking lot and allows water to flood the offices.

Problem Statement 4: We need another entrance with a paved driveway on the east side. **Root Cause:** Because our school is located on the corner of an extremely busy roadway.

Problem Statement 5: Accidents can happen since there are so many cords running throughout the classroom. **Root Cause:** Due to the implementation of 1:1 system, there is a great need for more outlets in the classrooms. Each classroom needs a cubby where the devices can be easily charged and stored.

Problem Statement 6: New tables and chairs that allow for social distancing are needed for the cafeteria. **Root Cause:** With previous lunch schedules there are too many students in the cafeteria at the same time.

Problem Statement 7: Restrooms for students need to be renovated including new sinks and doors. **Root Cause:** Students are having to wait for an extended amount of time when going to the restroom and this causes accidents.

Problem Statement 8: Contactless water fountains are needed for students. **Root Cause:** Continuation of Covid virus protocols.

Problem Statement 9: Security cameras need to be updated for all entrances. **Root Cause:** Lack of surveillance for staff and students.

Problem Statement 10: Many students are on campus during a pandemic. This large number puts a strain on our facilities. Teachers then have the additional burden of teaching students who are at home but are not under the supervision of the school staff. **Root Cause:** The majority of our parents at Munoz send their children to campus because they lack the resources at home and because they cannot afford to keep their children at home.

Problem Statement 11: The hybrid model has led to a lack of a school culture. There are no incentives to reward our top students. **Root Cause:** Social distancing prohibits most of our usual incentives but we need to think outside of the box so that we do not lose our identity as a campus. Students need to fell that their efforts are worthwhile.

Problem Statement 12: Our campus has struggled with engaging parents. Prior to the pandemic, we had zero parents involvement, no parents volunteers and very limited parent/family nights. **Root Cause:** Our previous parents coordinators have had little motivation to recruit parents. All of us, led by the administration, need to think of ways to increase our parent engagement.

Priority Problem Statements

Goals

Goal 1: Munoz Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet district goals, state and federal passing standards. The campus will implement a biliteracy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 1: Munoz Elementary will focus on instructional improvement resulting in all students meeting goals for all accountability measures. The percent of K-5th grade students will increase each month to reach campus and district grade level goals.

Evaluation Data Sources: Istation

Summative Evaluation: Some progress made toward meeting Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Target Reading Levels-Each Teacher will provide effective and explicit Guided Reading Instruction and will target the five reading components based on data analysis to meet campus and district progress measures leading up to 90% and above of students reading on grade level. **Strategy's Expected Result/Impact:** ISIP Reading Levels, Running Records, District Bundle Assessments, State Assessments **Staff Responsible for Monitoring:** Administration, Teachers **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **- Comprehensive Support Strategy**				

 No Progress Accomplished Continue/Modify Discontinue

Goal 1: Munoz Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet district goals, state and federal passing standards. The campus will implement a biliteracy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 2: Bilingual/ESL: Munoz Elementary will increase the percentage of ELLs progressing one performance level on TELPAS and increase the amount of ELLs meeting state assessment requirements with reading level monitoring and an awareness of language, literacy, and content interdependence.

Evaluation Data Sources: TELPAS

Priority Problem Statements 9

Goals 10
- Goal 1: JP LeNoir will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. 11
- Goal 2: JP Lenoir will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 23
- Goal 3: JP Lenoir will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 37
- Goal 4: JP Lenoir will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 45
- Goal 5: JP Lenoir will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 87

Campus Funding Summary 92

Comprehensive Needs Assessment

Demographics

Demographics Summary

According to the data there are currently 384 students enrolled. When looking at data from the previous school year there is a decrease in enrollment of 27 students. Over all our campus is predominately Hispanic. The current breakdown is 99.48% Hispanic, 0.26% white, and 0.26% Black or African American.

Enrollment in special programs is currently as follows: There are 31 students in special education which reflects a decrease of 8 students. There are 126 students in the bilingual program which when compared to last year indicates a decrease of 14 students. The migrant program has also seen a decrease in enrollment going from 23 students to 15 students enrolled this year. The GT program is the only program that has seen a slight increase. There are 30 GT student there were previously 23. In previous years the data reflected an upward trend in enrollment. This trend may be attributed to our low enrollment count.

Our campus has 342 students identified as at risk. Of this number 342 are economically disadvantaged,103 are LEP, 13 are homeless and 17 have been retained at least once. These factors contribute to a higher mobility rate and drop out rate.
The mobility rate for our campus is at 11.6% which indicates that 88.4% of our campus is stable.

J.P Lenoir Elementery has a total of 57 staff members. Staff members are 98.25% Hispanic and 1.75% Pacific Islander. There are 26 teachers. All teachers are highly qualitfied and 21 teachers are bilingual certified. The majority of our teachers have between 6-10 years or more of teaching experience. The teacher/student ratio is relatively low and averages at about 1:16. There are 12 paraprofessionals/support staff. All of our paraprofessionals are certified as educational aides through SBEC or have completed the requisite amount of college hours. This data indicates our staff is fully trained and able to meet student needs and learning objectives as does the low teacher/student ratio.

Demographics Strengths

1. 1. All teachers are highly-qualified.
2. The majority of our teachers are bilingual-certified
3. Low teacher/student ratio
4. Migrant tutor available.
5. After School Saturday Tutorials

Problem Statements Identifying Demographics Needs

Problem Statement 1: Low student enrollment **Root Cause:** The majority of our student population is economically disadvantaged which contributes to the mobility rate as they move in search of better opportunities.

Problem Statement 2: There is a growing need for tutors that can provide one to one instruction across all populations. **Root Cause:** Student learning has suffered temendously due to pandemic.

Problem Statement 3: We are currently in need of devices, protective covers, and digital material. **Root Cause:** The pandemic has made online instruction along with everything that entails necessary.

Student Learning

Student Learning Summary

Due to the COVID-19 pandemic, data for the 2019-2020 school year was insufficient as state testing was cancelled. Data from the 18-19 school year was utilized to measure growth which provides unreliable data as the student population and mode of learning changed drastically. Data was collected from a variety of sources such as STAAR, Istation, and TELPAS. However, the following demonstrate how the data compares from 2017-2018 to 2018-2019 which should indicate the rate of growth.

As per STAAR data, 3rd showed an increase in percent passing for Reading in all categories (approaches, meets, masters). 4th grade showed a decrease in Reading and Writing but an increase in Mathematics overall. As for our LEP population, there was a decline in percent passing in 3rd and 4th ELAR, and in 5th Math and Science. Percent passing increases for the LEP population were noted in 3rd and 4th grade Math, and 5th grade ELAR. Our migrant population demonstrated growth in 4th grade Math, and 5th grade Reading and Science. Our Special Education population demonstrated growth in all testing subjects across all tested grade levels. Students are benefiting from interventions such as after school tutorials, migrant tutoring, small group instruction, and Saturday Camps.

TELPAS data from the 2028-2019 school year, demonstrated an achievement gain of 58% overall for all grade levels K-5.

Student Learning Strengths

- District purchased programs such as Imagine Learning, Imagine Math, and Istation provide clear data to utilize when creating intervention groups.
- District curriculum, bundles, and benchmarks are directly aligned to TEKS, evidence is provided through AWARE which shows how the data aligns with TEA standards.
- Data gathering through AWARE allows teachers to prepare for RTI and differentiated instruction.
- Clever one-stop shop facilitates assigning students activities through district approved apps.
- Improved scores in special populations to bridge the academic gap.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Students who are not engaged in remote learning are those with inadequate internet access. **Root Cause:** Delay in WIFI towers going up, insufficient signal strength emitted from district free WIFI.

Problem Statement 2: Online programs assigned by the district are overwhelming and do not provide students with enough time to meet the recommended minutes per week. **Root Cause:** Students are disengaged and not completing classroom assignments and homework on time which interferes with time needed to participate in programs.

Problem Statement 3: Technology hardware and software requires improvement, ie: chargers, headphones, ceiling power cords, Jamf Pro). **Root Cause:** Parents do not want to pay for replacement hardware, lack of funding for sufficient replacement parts, delayed turnaround time for fixing tech issues on student devices.

School Processes & Programs

School Processes & Programs Summary

Teaching during a pandemic has been stressful and packed with challenges, no doubt, but overall, teachers and staff have shown resilience and strength as a team. All teachers are highly qualified and are provided with resources to flourish such as new teacher mentors, professional development and professional learning communities. With zero teacher turnover in the last year, and 100% staff retention, our campus has demonstrated that we can band together in times of strife.

Our campus also has policies in place to ensure that our special populations receive services and interventions needed based on teacher and professional assessments. The parental and community involvement program offers an array of resources and opportunities for our parents to learn and grow. Services such as nutrition classes, technology training and help with registration are all offered free of charge to any interested parent. There are also many campus and district committees that allow our staff, students and parents to have a voice in decision making.

This has been an interesting year for assessments and curriculum being that Covid-19 turned everything upside down. Although we have minimal state assessment data, our district has developed a robust curriculum that incorporates virtual learning as well as in-person instruction. Our data does suggest a downward trend on achievement in all core subject areas of math, reading, writing and science and suggeest that rigourous intervention will be needed.

The year has come with its challenges as well, particularly on the topic of planning time. With increased occurrences of meetings required by the district, separate departments and our campus, teachers have experienced a significant reduction in their allotted time to plan for effective instruction.

On the technology aspect of teaching, there has been a noticeable need for our campus to develop a method for vertical alignment of technology and software to ensure that teachers, parents and students are given the appropriate tools to succeed and be familiar with the devices and applications they are using.

Lastly, with the vast majority of students attending school virtually, it is necessary for more accountability and participation from parents and their children learning from home.

School Processes & Programs Strengths

Strengths:

- Zero Teacher Turnover
- Robust virtual and technology trainings offered district-wide to educators in preparation for virtual instruction
- Strengthened rapport and communication between campus and involved parents with an overall deeper sense of community among staff members.

Needs:

- Significantly decreased planning time during the school day due to drastic increase in campus, district or departmental meetings.
- Campus-wide integration of and further training in required programs for students, parents and teachers.
- Increase parental involvement and accountability for their child’s performance.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: A large percentage of parents are not actively involved in their child's learning. **Root Cause:** There is a lack of incentives for the student and the parent to be more involved such as: Increased Performances Clubs Competitions Extra Curriculars Ace Program Latchkey All with stipends to staff to ensure high quality involvement from all participants.

Problem Statement 2: There is a lack of comprehension of the technology offered to teachers, students and parents during online learning and a lack of relevant professional development for teachers leading to frustration and lack of effective teaching. **Root Cause:** There are too many required programs available for students to use, not enough time to learn each program effectively and not enough useful professional development. Additionally, students and parents are not provided with enough time to get familiar with these programs in an environment that places emphasis solely on understanding how to navigate them.

Problem Statement 3: There is a dramatic increase in the number of staff meetings where attendance is mandatory resulting in a drastic reduction of time allotted to effectively plan and prepare for classroom instruction. **Root Cause:** Meetings have increased due to the assumption that staff is readily available and free via video conference. Additionally, other avenues of communication (email, text, announcement, memo) are sometimes overlooked and teacher planning times are not honored.

Perceptions

Perceptions Summary

LeNoir Elementary School community is dedicated to providing a positive climate and culture learning environment to ensure that all students grow to their full potential academically, socially, and emotionally. All staff is committed to providing a safe and nurturing environment conducive to learning to promote high expectationsfor academic success. At LeNoir Elementary, our mission is to provide the highest quality education in a structured, safe, positive, and challenging environment for all students and staff. Our priority is student success.

Students at LeNoir Elementary are well behaved. Because teachers develop their classroom rules and procedures at the beginning of the school year, there are minimal school disruptions that involve student misbehavior or bullying. Campus rules and expectations are explained to parents when teachers meet with them to discuss the Parent/Student/Teacher Compact.

Perceptions Strengths

1. Students and staff feel safe, comfortable, and welcomed.
2. Established and monitored new safety protocols; Dr. Owl app., temperature check stations, sanitizing stations, PPE, and social distancing guides.
3. Students are aware of and acknowledge the campus vision and mission and staff exemplify it.
4. The school provides various methods of communication to parents including social media platforms.
5. Student/Class/Grade Level recognition for academic excellence and attendance.
6. Extracurricular activities such as Student Council, Art Club, Drum Corps, Tech Club, Chat Club, and Coffee Club.
7. Administration team is viewed as strong and supportive.
8. Monthly school calendars are provided to parents which helps keep them informed of all upcoming school events.
9. CLPAC meetings that promote collaboration and valued input from the parents on what works best for LeNoir students.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Students feel overwhelmed with the excessive required online programs. **Root Cause:** Students are required to meet an expected time of usage for six to seven online programs.

Problem Statement 2: Teacher planning/conference period. **Root Cause:** Teachers are actively monitoring students in the classroom during grade level meetings, parent/teacher conferences, and grade level planning meetings.

Problem Statement 3: Parent/Student attendance and academic accountability (remote learners) **Root Cause:** COVID-19 impact to instruction.

Problem Statement 4: Limited parental involvement. **Root Cause:** COVID-19 impact.

Priority Problem Statements

Goals

Goal 1: JP LeNoir will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 1: JP Lenoir will focus on instructional improvement resulting in all students meeting goals for all accountability measures. The percentage of K-2 students reading on or above grade level will increase by 4%.

Goals 33
- Goal 1: Singleterry Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. 34
- Goal 2: Singleterry Elementary. will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on STAAR exam will increase. 46
- Goal 3: Singleterry Elementary will create an instructional environment that will enhance the learning and academic performance of all students and increase the percentage of graduates demonstrating college/career/military readiness. 54
- Goal 4: Singleterry Elementary will continue to follow sound fiscal managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 62
- Goal 5: Singleterry Elementary will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 64
- Goal 6: Singleterry Elementary will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 66
- Goal 7: Singleterry Elementary will establish a technological infrastructure that promotes communication and learning within the school and community. 67

Campus Funding Summary 74

Comprehensive Needs Assessment

Demographics

Demographics Summary

1. What do enrollment numbers indicate?

Our current student enrollment at Singleterry Elementary is 555 students.

2. What is the breakdown by ethnicity, gender, or other category?

Total Hispanics PPCD/PK-5th-539 **Other Ethnicity**= 1

PPCD/PK-5th LEP/EL= 409

PPCD/PK-5th NONLEP/EP- 122

PPCD= 1 LEP **PK**= 47 LEP **Kinder**= 63 LEP **1st**= 49 LEP **2nd**= 67 LEP **3rd**= 59 LEP **4th**= 75 **LEP/ 5th**= 48 LEP

PPCD/PK-5th SP.ED= 35 **PPCD**= 10 **PK**= 1 **K**= 0 **1st**= 7 **2nd**= 3 **3rd**= 2 **4th**= 7 **5th**= 5

PPCD/PK-5th Economic Disadvantage= 532 **Not Economic Disadvantage=** 19

PPCD/PK-5th Migrant- 15 **PPCD**=1 **PK**=2 **K**=1 **1st**=1 **2nd**=2 **3rd**=1 **4th**=3 **5th** =4

3. How has the enrollment changes over the past three years?

The student enrollment at Singleterry Elementary has remained between 500-550 in the past 3 years

4. What is the number of students in each special program? How do these program numbers look broken up by ethnicity, gender, or other category? Are we over– or underrepresented in certain groups? Why?

PPCD/PK-5th LEP/EL= 409

PPCD/PK-5th NONLEP/EP- 122

PPCD/PK-5th Migrant- 15

PPCD/PK-5th SP.ED= 35

5. What is the data for special programs overtime?

Data shows that our numbers generally stay the same. As funding becomes available we continue to work towards making more assistance available for those students in need; just to ensure they are getting what they need to succeed and grow.

6. What does the data regarding students who exit from special programs indicate? How many? Who are they? What trend or pattern do we see?

At Singleterry elementary students tend not to exit from special programs. Singleterry has a high population of bilingual students. Singleterry has been implementing the bi-literyacy program for the past three years to better help and serve our bilingual students.

7. Who are our at?risk students? What is their at?risk category?

At-risk students are group of students who are considered to have a high probability of dropping out of school and failing academically.

499 students are considered at-risk, out of 555 enrolled. At Singleterry Elementary the categories for at-risk students are: ELL, foster care, retained, homeless.

8. Who are our Migrant students?

At Singleterry Elementary we currently have 15 migrant students.

9. What is the mobility rate for this campus? What is the stability rate? How are these numbers represented for Migrant students?

We have a high mobility rate in this campus because of the demographics. Parents will move to different addresses halfway through the year.

10. What area of the community do these students come from?

Our student population comes from the Edinburg/ Donna rural region.

11.What are the staff demographics?

67 total staff members, 54women, 13men, 32 professionals and 35paraprofessional.

12.What are the teacher/student ratios? How do these ratios compare to performance? (*Student Learning)

The ratio of teacher/ student are 22 students per teacher. Some classrooms have up to 25 students due to being over populated in that grade level. The more students in one classroom affects the learning of the students since they perform better in small group.

13.What are the teacher qualifications, certifications,etc.?Paraprofessionals?

All teachers need to have a bachelor's degree and be state certified in their area of teaching. A teacher assistance needs to have a TEA certificate.

14. What does the general data reflect regarding teacher quality on the campus?

The data reflects that we have 100% of our teacher certified by the state of Texas. All teachers are highly qualified.

Demographics Strengths

1. The majority of our professionals are bilingual certified to meet the needs of our LEP population

2. The location of the school is centralized by the neighborhoods that are zoned to the school.

3. A simultaneous bi-literacy program has been in place to meet the needs of our students from pre-k to 3rd grade

4. To meet the needs of our at-risk students we have computer based programs such as; Istation, reasoning mind, imagine math to help them achieve their goals.

Problem Statements Identifying Demographics Needs

Problem Statement 1: Offer more parent meetings to inform them about the areas of growth and need to better support our students. **Root Cause:** Parents are uninformed on how to assist their children at home.

Problem Statement 2: Parents should be more accountable for their child's actions **Root Cause:** Parents need assistance in how to assisst students and support teachers.

Problem Statement 3: Have more specific instruction for our at-risk population; examples more differentiated instruction with smaller class sizes. **Root Cause:** District has us overcrowd our classrooms and ask for waivers instead of opening a new classroom.

Problem Statement 4: Hold parent tutoring meetings to teach them how to work with their children at home. **Root Cause:** Parents need the necessary skills to assist their children at home.

Student Learning

Student Learning Summary

Probing Questions and Answers

1. How is the student achievement data disaggregated?

By the following:

-grade level

-content

-language

-special pops

-skill/TEKS

2. How does student achievement data compare from one data source to another?

Cross Comparisons Data Provides:

-levels of questions mastered

-concepts to reteach

-depicts trends and patterns amongst students

-comprehension gaps between data sources

3. What does the data indicate when disaggregated by ethnicity, gender, socioeconomic status, special program, or other category? (*Demographics)- Due to the 2020-2021 Global Pandemic students at D. Singleterry Elementary were unable to take the STAAR test at the end of the 2019-2020 school year.

4. In which areas are we showing growth? At what rate? Compared to which standard of achievement?

Unfortunately, we did not show growth in any area since students did not take the 2019-2020 STAAR test.

5. Which students are making progress? Why? (*School Process)

They are two groups that are making progress this school year. One group are the students who are remote learning and the other group are the one that are in the campus. Students

that are remote learning are making progress because they have the parents support. Some of the parents stay home with their child and they are there to help them navigate this school year. Some parents work, so when they come home, they know that they need to check on the student assignments and turn them in or help the child out. Another group are the ones that in-campus. This student are here because of lack of internet, or are having trouble with virtual learning.

6. What impact are intervention programs having on student achievement?

Istation in Espanol Program are used by the ELL students. Imagine Math, and Imagine Literacy are used for non-lep students. Both program as well as Istaion in Espanol, have proven to impact our student achievement by delivering computer-adaptive assessments that adjusts to each student skills level.

Which students are benefiting or not? Why?

Both of our ELL and our non-Lep students are showing progress. Many teachers are applying best practices when teaching. This has helped to maintain the progress that has already been made.

7. What does the longitudinal student achievement data indicate?

This data appears to indicate that over time our special population are inconsistent at best.

8. What does the data reflect within and among content areas?

I am going to hypothesize that the data might not be painting a complete picture. The tests and the students have changed. STAAR test has been going up in difficulty and I recall, there was a group in the past that had been particularly low.

9. What does the date indicate when disaggregated at various levels of depth?

· It indicates the different levels race ethnicity, student groups, subjects and shows us what each level scored and helps us see what groups/subjects we can focus more on for the following year in order to increase our scores. In other words, the ones that are in need of assistance.

· Additionally, I see that it gives student performance at different levels (all subjects) 2018-2019.

Approaches Meets Masters

2018-68%

2019-65% 2018-33% 2019-29% 2018-11% 2019-9%

Revealing we have very few students performing above grade level and on level. Therefore, telling us we need to focus on reading and providing major intervention.

· Approaches level and I notice only 59% (2019) for Reading and 78% in Math on the Federal Report Card. Which tells us that more than 40% of our students are not performing at grade level/below level. School quality is also included to show possibilities as to why student performance is the way it is. The campus got a C. The data shows for 3rd:

10.Which students are making annual progress?

· I can see students are making annual progress in Math (academic growth section-72% in 2018 and 73% in 2019) but overall there is little but none.

· 99.8% of our campus are Hispanics, 99% economically disadvantaged and 76.1% EL's, 90.4% at risk. We can see how this really affects the academic growth of students at an increasing rate.

· Overall there is a 73% campus wide, student achievement 59%, school progress 74% and closing gaps 71%

Which ones are making projected growth? Who are these students?

· We had 1 point of academic growth in Math for all grades/subjects from 72% to 73%. For the rest we went down a couple of points only. (like 1 or 2 points) Scores: Reading (73 to 69), Math (72 to 73), Both (73 to 71).

· Based on observation the students with growth are usually the ones that are performing at masters or the ones that are provided major intervention that were able to acquire approaches before.

How does this data compare across programs, content areas, subgroups, etc.? (*Demographics & School Process)

· Across programs Math is where we have scored higher.

· Content area: Math

· Subgroup: at Approaches-I used this because majority of students in this area or below.

· We have very few students performing in Meets and Masters.

11. What evidence exists to determine that the curriculum is clearly linked to the TEKS and other standards for student learning?

All curriculum is directly linked to the TEKS and other standards when the teachers create their lesson plans. In addition, teachers are provided with additional resources through the district's Share Point site that were created by the Academics Coordinators for each subject and grade level. All teachers have access to these materials so they can incorporate them into their lessons and daily activities. The campus Curriculum Specialists also review the teacher's submitted lesson plans to ensure that the students are receiving instruction according to the standards and TEKS that are currently supposed to be taught throughout the school year.

12. How is data used to inform curriculum, instruction, and assessment decisions? (School Process)

As students are taught the material, teachers are using formal and informal assessment to gather data as to what the students are retaining and more specifically what are the topics they are struggling with. Once they have done this the teachers review or even re-teach those topics to ensure the students comprehend the material and are able to move on forward with the material to follow. Teachers are constantly trying different approaches to try and motivate the students to continue their learning growth and that way they don't fall

behind.

13.What does the data reflect about how curriculum, instruction, and assessment are aligned? How are they focused on supporting and challenging all students?

Data helps reflect how well curriculum, instruction, and assessments are efficient within schools. This also helps schools see what areas are needed to be worked on and which are the strengths. Once schools see data whether it be on a computer screen or paper, it gives a better perspective for the school so that they may come up with a plan of action for improvement. The school can also use this data to challenge children that may be above their grade levels. There are times, we have students that "think outside the box" and with data to show us percentiles, we the school can begin to look add/use more curriculum for the instructional purposes of our students.

14.How are curriculum, instruction, and assessment aligned with 21st Century Learning Skills?

As far as curriculum, instruction and assessments, the district has tried their best to align them with 21st Century Learning Skills. Everything around us has become more technology centered, which makes sense to align 21st Century Learning. I think another factor that came into play was the pandemic. It was because of this pandemic that more technology usage had to be used in to meet needs all across. In most cases this really helped for not only Singleterry Elementary and Donna ISD to become more innovative.

15. How are instructional strategies and activities aligned with students learning needs and expected Outcomes for achievement: How consistent is this across the district/school? What is the impact on specific student groups? (* School Process & Demographics)

When instructional strategies and learning activities relate directly to learning objectives and assessments it is easier to hit your expected outcome. Therefore, successful teachers should integrate a range of instructional approaches and resources to meet the diverse learning needs of their students. Consistency is a problem at the campus level. Curriculum, instructional strategies, computer-based programs etc… that are introduced by the district through staff development should be implemented with fidelity. The impact on specific student groups are as follows: Problem Statements Identifying Demographics Needs Problem Statement 1: Increase efforts to meet the needs of large population of at risk students. Special Education, Migrant, GT, LEP. Teachers need to use and apply strategies learned through district/campus staff development. 2:Increase efforts to differentiate instruction for our different populations such as GT, Special Education, Migrants, and Recent Immigrants in order to address all of the students needs. D. Singleterry Elementary Generated by Plan4Learning.com 9 of 65 Campus #108902116 October 26, 2020 12:15 PM

16. What evidence supports the implementation of high impact/high yield additional interventions for students who need assistance beyond primary classroom instruction? Which students need this type of instruction? What has the effect been over time?

In reading, problems can affect performance across many content areas, occupational endeavors, and other functional skills that are used in everyday life activities. The school psychologist or diagnostician works with teachers and parents to define those problems through data-base decision-making methods, targeting interventions to address the problems and evaluating those interventions. There are two types of students with reading problems that school psychologist, diagnostician, and educators are likely to encounter. Those are students with IQ-reading achievement discrepancies, and students with a combination of low ability and low reading achievement. Team members have shared the responsibility for determining student's skill levels, identifying instructional variables, targeting appropriate interventions, monitoring students' progress as a function of interventions, and evaluating outcomes. These responsibilities have been carried out through database intervention methods. Progress monitoring of student performance over time was another critical component established, to assess whether interventions are effective for meeting students' literacy needs.

17. How does instructional design and delivery maximize student engagement, a positive learning climate, higher order thinking skills, problem solving, critical thinking, etc,?

Effective instructional design can address learning needs and goals and potentially compensate for it in order to allow learners to maintain focus and motivation and to support them as they navigate their learning path. Classroom management is one of the critical ingredients of effective teaching. Arranging the physical setting for teaching is a logical starting point for classroom management because it is a task that all teachers face before school begins. To have a successful school year, students must understand and practice the behavior you expect of them. Additional procedures are needed to encourage students to complete assignments and to engage in other learning activities. The beginning of the school year is crucial for classroom management because our students will learn attitudes, effective behavior, and work habits that will affect the rest of the year. Once our students are attentive and

ready to participate, classroom management and instruction meet successfully.

18. Is there evidence that assessments are aligned with clearly specified and appropriate achievement expectations? How are they developed and linked to measure the effect of curriculum and instruction?

To begin with, both expectations and assessments frequently are expressed in several documents, making it difficult to assemble a complete picture. Also, it is difficult to establish a common language for describing different elements of policy. The same term may have very different meanings when used to define a goal and when used to describe something measured by assessment. Further, the policy environment in an education system can be constantly changing. While old forms of assessment are still in place, new goals can be D. Singleterry Elementary Generated by Plan4Learning.com 10 of 65 Campus #108902116 October 26, 2020 12:15 PM mandated. Ever-expanding content areas, expanding technology, and a growing body of research on learning also can contribute to the complexity of identifying expectations and assessments. Educators increasingly recognize that, if policy elements are not aligned, the system will be fragmented, sending mixed messages, and being less effective. For example, the Systemic Initiatives Program of the National Science Foundation seeks to help states, school districts, and regions establishing policies based, in part, on assessments aligned with those goals. Also, the U.S. Department of Education's explanation of Goals 2000: Educate America's Schools Act (which includes Title I), both say that alignment of curriculum instruction, professional development, and assessments are key performance indicators for states, school districts, and schools that are trying to meet challenging standards.

19.How do we know assessments are designed, developed, and used in a fair and equitable manner that eliminates biases? How do students perceive these assessments?

Teachers create the assessments/bundles. Teachers create the curriculum and make a timeline. Teachers follow the timeline and they test on days that they are made aware of prior to the school year starting.

21. What technology do we have for student learning? (*School Process)

Technology currently available to students include Chromebooks, iPads, and desktop computers.

22. What is the technology proficiency for staff and students? (*School Process & Demographics)

Staff and student technology proficiency is average. Staff have been trained to use G-Suite for Education tools in daily instruction, whether virtual or in person. Students use G-Suite in one form or another on a daily basis.

23.- What are some barriers that potentially prevent effective use of technology? When it's working, why is that so? When it's not working, why not?

Too many students at the same time using IPad+ or Chromebooks might affect internet speed. The students may be kicked out and the internet speed might be very slow due to that.

24. What types of technology professional development have we provided? What was the impact for staff and students?

Due to the situation, we are currently in of teaching virtually since last March, the district offered various online Blended Learning conferences. More than 90% of the schoolteachers got Apple Teacher certification or Google certified: levels 1 and level 2. This conference offers many resources teachers could use to help them set up their virtual classes, such as Google Classroom. Teachers were able to learn to use and finally apply skills learned as the school year progressed. Lastly, teachers are currently working on **a series of on-demand PD modules around Virtual Instruction Best Practices**. These modules are designed to help teachers improve specific aspects of their instruction.

25. In which content areas are we using technology and how? What is the effect?

Technology is being use in all content areas. Students and teachers can connect virtually, and students can learn their lessons. When teachers are teaching virtually, they are using google classroom/meets to fulfill instruction. Teachers are also able to use and create their lessons by using goggle slides and assign work to the students to work on their own.

26. How does the design of the network provide for the users it supports?

The design of the network has been improved from last year since the district has started virtual learning. Now it's faster and all devices can connect simultaneously. Sometimes problems do exist, especially when there's state testing. Therefore, state testing has been managed differently this year.

27. How is technology utilized to support curriculum, instructions, and assessment integration and implementation?

Technology is used in each classroom through their iPad and chrome computers. Teachers used their laptops, document camera and projectors. Students have access to many online programs such as Imagine math, I station, Imagine Learning, and many other programs teachers use in their classroom upon preferences.

28. What does the data reflect within and among content areas?

As it pertains to Physical Education, we currently do not have anything that can measure the student's growth. We want to be able to measure the student's growth on a weekly basis to maximize their growth throughout the school year. With the Interactive Health Technology (heart rate monitors/activity trackers), we will be able to measure the student's heart rates during their healthy activities as well as encourage them to be more active to achieve higher growth levels. This will give us the baseline and end measurement for students throughout the school year.

Student Learning Strengths

The curriculum is spiraled throughout teacher lesson plans and Eduphoria.

The campus and teachers use computer based programs to assist with instruction on a daily basis.

Teacher use data driven instructions during the time they teach.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Students are not reading at grade level. **Root Cause:** Students are not reading at grade level because COVID has impacted negatively by parents not sending them to school or by not logging into the class. Teachers need to focus on individual students and get to know their students to see what weaknesses/strengths they have and build from there.

Problem Statement 2: There is no reliable reading data. **Root Cause:** Guided Reading and Small Group Instruction is not being done with fidelity across all grade levels and in all classrooms to meet the year's growth for each student. Teachers need to implement running records for their students on a weekly basis. At this time computer programs dictate reading levels.

Problem Statement 3: Students are not acquiring the second language. **Root Cause:** Simultaneous Biliteracy needs to be implemented correctly from PK-2nd grade only. Not in 3rd-5th grade.

School Processes & Programs

School Processes & Programs Summary

1. How are follow-up data regarding teacher performance provided to teacher?

Administrators conduct both formal and informal classroom visits. There are walkthroughs conducted weekly which are unannounced and one 45-minute observation done per year. If for any reason, a teacher is on an improvement plan they are given the proper assistance such as mentoring, opportunity to observe other teachers, and professional development. Student performance is also looked at to evaluate a teacher's performance.

Donna ISD uses the Eduphoria Appraise/Strive software for teacher evaluations. It integrates staff evaluation, goal setting, online and in-person feedback and collaboration.

2. How are we recruiting highly qualified and effective staff? (*Demographics)

Recruitment occurs through the Donna ISD website. Teachers must be bilingually certified due to the amount of EL in the district. Paraprofessionals are required to have 48 hours of higher education.

3. What is our staff attendance rate? Retention rate? Turnover rate?

Staff attendance Rate: 90%

Staff retention rate: 100%

Turnover rate: 0%

4. How is highly effective staff assigned to work with the highest need students? (*Demographics &

Student Learning)

Singleterry Elementary assigns the most highly effective teachers to work with the highest needs students. All bilingual students are taught by a certified bilingual teacher. The students that are in special education get extra help by the special education teacher. The at risk students are monitored more in depth through the RTI committee. The student's teacher works with them in a small group setting. The teacher does progress monitoring every 3 weeks and the RTI committee meets every six weeks to see how the student is progressing.

5. What is the impact/effect of our teacher mentor program?

The mentor program that is placed at Singleterry Elementary has both an effective and positive impact on new teachers. The mentor program helps and advices the new teacher in all subject areas such as Reading, Language Arts, Math, Science and Social Studies. The mentor also helps in facilitating with classroom needs, how to lesson plans, campus procedures

and the use of the district software. The software involves programs such as Eduphoria, Teams, Imagine Reading, Reading Istation and Imagine Math programs that are used by students and data is tracked by the district.

6. How is new staff supported? What feedback do they provide?

Every year the week before staff goes back to work there is a "new teacher orientation" week. New teacher orientation is given by district personnel explaining expectations, assignments, etc. New staff is supported by having a mentor assigned to him/her at the campus level. There are staff developments and PLC's that new teachers also attend for the subjects being taught. A lead teacher from the grade level is assigned and may also help the new teacher with support. Support from the lead teacher may include classroom rules and classroom expectations, classroom management, questions concerning with any subject area, etc.

7. What systems are in place to build capacity and support the notion of continuous improvement?

The district holds staff developments at the beginning of the school year. Throughout the school each teacher is required to attend PLC trainings that each department has at the beginning of every six weeks. These trainings are a great help to the new teacher and serves as a refresher course for the veteran teacher. Teachers have grade level meetings to support each other in anything they may need. The teachers have strategists from the district to help them with any questions they may have concerning their content area. This year the district offered various online modules to help with online learning. They provided numerous ideas and programs the teachers can implement in their classroom.

8. How are we using data to determine professional development for staff? (*Student Learning)

Surveys are sent out to determine how proficient they are on technology, online learning, etc. The administrators and directors analyze the information. Professional developments are based on the teachers' needs.

9. How are collective and individual decisions regarding professional development determined?

Collective and individual decisions regarding professional development can be based on the needs that require improvement. Individually, each teacher receives the appropriate training depending on their grade level, if they're a first year teacher, or a teacher that was moved to a different grade level.

10. What types of professional development has staff attended? How is implementation monitored? What impact has it had on performance? What is the follow?up?

The type of professional development a staff member has depends on their grade level and content area. Teachers of bilingual students are required to do TELPAS, LAS and a bilingual conference offered by the district. Teachers are required to go to Imagine Language, Galileo, Istation, Imagine Math, Edusmart, STEMscopes and many other trainings that are deemed necessary. This year all teachers had to attend numerous trainings dealing with online teaching like Google Classroom, Classkick, PearDeck, Kami, Kahoot and Schoology.

The district requires that some programs get anywhere from 1 to 1.5 hour of usage per week. The usage of these programs is monitored by the directors of each department and the usage or lack of usage is make known to each teacher via an email. Strategists also come in to the classroom and monitor to see if what the teacher learned is being implemented in the classroom. All the training that teachers learned that dealt about online teaching was vital to the student's learning.

When the teachers apply what they learn you can see the difference in the students. If a student is using the required amount of time for each program the kids tend to do better in both math and reading. As far as online learning, the use of the online programs learned this year made learning more interactive

11. What evidence exists that families and community members are involved in meaningful activities

that support student's learning? What are the activities? Which parents and community members

are involved? What trends and patterns do we observe? (*Demographics & Student Learning)

We have different activities that supports student's learning. Teachers assign projects that the kids can do at home that involves family involvement. The school has various activities throughout the year that promote community involvement such as: literacy nights, Award ceremonies, Pastries with parents, Six Weeks Parades, Drug Awareness week, Library competitions, Nutrition classes. Through the ACE program we have drive by meetings that are open to the public. They have also partnered up with the Donna PD and Rodeo Dental to provide supplies and information to the parents.

The parent center sends out a monthly newsletter of the upcoming activities at school. The parents are invited to attend different classes dealing with different topics that can benefit the students. This year because of the pandemic, the parents would meet through zoom meetings and all parents were invited to attend.

The trend that we have observed is that attendance for these events are usually low unless their child is performing, then the parents come in. The students perform for a meeting and that's how more parents are attracted to these meetings.

12. How are families and the community members involved in school decisions?

Families and community members are involved in school decisions through parent workshops, school board meetings, conferences with the teachers, phone calls, electronic and paper memos, and other means of communication. Hearing concerns and comments of families and community members help administrators and staff recognize the needs of the children to help productively grow students, families, and community members.

13. What types of services are available to support families, community members, and students to encourage healthy family relationships?

Some services that we offer at Singleterry Elementary are monthly district wide Parent Learning Academies (PLA) organized by the Campus Parent Coordinator. These classes are presented for parents by different providers such as, Nuestra Clinica del Valle, Inc., Behavioral Solutions of South Texas, and DISD employees and administration. There are also informative sessions for parents about Medicaid, CHIPS, and physical and academic resources. Additionally, we have the Texas A&M Nutrition Class (AgriLife). Also available are free ESL and GED classes for adults provided by Region One. We provide Special Education services and Student Therapy with on campus special education teachers, therapists and diagnosticians. Other programs include a Migrant Program, Nutrition Classes with MHP Salud, Parent Portal, Biliteracy Program, Special Education-Child Find, McKinney Vento Program, Title 1 and ACE 21st Century Program. The school counselor also works with the parents in order to be able to meet the needs of the students.

14. If families speak language other than English, what are these languages? How does the school communicate in those languages? (*Demographics)

The languages spoken by Singleterry school families are English and Spanish. All oral and written communication from the school (phone calls, Black Board Messages, parent letters, Facebook posts, newsletters, homework, textbooks) is delivered in both languages by native speakers. We are also a Biliteracy Campus, so our students can receive instruction in both Spanish and English equally.

15. What types of services are available to support students in special programs? What are the results? (*Demographics and Student Learning)

We have different programs available to support students in special programs.

The district provides a full range of special education services: self-contained classrooms (for ages 3-21), inclusion services, therapies (Physical, Occupational, Speech, Vision, Orientation and Mobility), and special transportation. These services are overseen by certified Special Education teachers. For our English Learners we have the Biliteracy Program, these students receive instruction in both English and Spanish equally. We also have RTI (Response to Intervention) for students who are struggling. We have the 504 program for students with medical conditions. Lastly, we have the Gifted and Talented and Migrant programs for our students at Singleterry Elementary.

16. What types of community partnerships exist to support families and students?

We currently have different community partnerships available to support families and students. These partnerships include: Nuestra Clinica Del Valle, Child Find, Mujeres Unidas, Donna Public Library, and Girl Scouts. Local businesses and organization partner with the school to assist and support families and students. Coupons are donated by restaurants such as Cici's Pizza and Texas Roadhouse. These coupons serve as incentives for excellence in academics and perfect attendance initiatives. Our students also have received donations from Tom's Shoes as part of their One for One Impact Program. Singleterry provides school clothing for students under a Federal Uniform Assistance Program.

If a Disaster Declaration is issued in our area, our school families and community receive access to funds, supplies, and food distributed by organizations such as the RGV Food Bank and FEMA. Many families were recipients of this type of assistance during 2020 and 2021. We had several instances of inclement weather and power outages which negatively affected our students. Federal, state and local organizations generously provided for these needs.

The COVID pandemic was also declared a disaster and has brought many challenges. The need to comply with social distancing guidelines has necessitated that meetings and trainings be held virtually. Singleterry Parent Center has used Zoom and Google Meets to provide various trainings and informative sessions (Tax Talk, Nutrition classes, district initiatives [Dr. Owl, student programs, internet access, etc.]). Our school nurses presented trainings on Healthy Habits, Dr. Owl and Wellness Sessions. Google Classroom training was provided by the Singleterry Librarian to assist our parents with Distance Learning.

17. To what degree does the district/school support the organization and how?

The district supports teachers and staff by providing professional development in all content areas. The district also requires that all staff take online courses provided by Safe Schools/ Vector Solutions. Sessions include cyber safety, sexual abuse awareness, HIPPA and additional topics.

The district provides a strategic curriculum, which include many resources, that allows teachers to plan accordingly and purposefully every six weeks. The curriculum is available for all grade levels. To ensure the quality of teaching, the district will periodically visit the campus and provide trainings to teachers every grade level. The school provides the necessary resources needed to meet the district's requirements mandated by the state that guarantees all students' academic needs are met according to the No Child Left Behind Act of 2001.

18. What does the data reflect about classes, schedules, and student/staff teams?

The data demonstrates areas of student growth and achievement. It also clearly shows learning gaps and areas which need improvement. The data illustrates the benefits of teacher implementation of district curriculum. The data provided comes from many sources such as: district bundle tests, MyOn Reading, IStation Espanol, Galileo, Imagine Math, state tests, teacher made quizzes, and language proficiency tests. Effective, as well as ineffective teaching methods can also be reflected in the data. Using data is an important component for effectively monitoring student growth both as individuals and class levels. Finally, well thought out scheduling will have a direct impact on the data. Teachers who prepare their schedules in advance typically perform better and see greater student achievement than other teachers. Teachers are placed in grade level teams to ensure quality lesson planning and curriculum implementation.

19. How is adequate time devoted to subjects in which students perform poorly? (*Student Learning)

Students should have daily activities with Reading and Math Tutorials, Istation, Imagine Math, Imagine Science, myOn. Also we can have activities one to one focus on those TEKS they are failing.

Adequate extra time is devoted to students performing poorly in all content areas, especially in tested content areas. This “extra time” may come from a couple of different avenues which include recess, P.E., or even after school tutoring. Tutoring (before/during/afterschool/ Saturday) is provided to the students to ensure students’ academic needs are being

met. ACE provides STAAR support and lower grade level support. The computer lab is available before school for students who arrive early and can take advantage of this learning opportunity. During these times, teachers are able to provide small group or one-to-one intervention. Guided Reading is provided to help close learning gaps in reading fluency and comprehension. More time is set aside for core subjects in order to provide small group instruction.

20. How do teachers have a voice in decision making and school policies?

The Campus Level Planning and Advisory Committee (CLPAC) ensures that the opinions, questions and concerns of teachers are able to be communicated. The CLPAC provides a forum for free and open discussion. Faculty meetings and approachable school administrators enable teachers to express their thoughts on school policy. Teachers can make suggestions but do not make final decisions in school policies.

At the campus level, teachers are able to have their concerns heard through discussion with administration, lead teachers (grade level meetings), or at staff meetings. Administration also makes an effort to involve teachers & staff through formal and informal surveys. Administration forms a committee each year at the campus in which teachers are able to direct ideas through the CLPAC committee. This committee drives campus level decisions. Additionally, at the district level, teachers are able to be heard through the DLPAC committee. This committee is comprised of teachers from every school in the district. District decision making is influenced by this committee.

21. What role do teachers have in deciding what assessments will be used to evaluate individual

students or the program as a whole?

Testing on the district or state level is decided by district administration (strategists, directors and superintendents) at the main office. Teachers have minimal role in deciding what assessments will be used. Assessments such as bundle, comprehensive, and benchmark exams, computer program tests, and STAAR are determined by the district or state. Teachers may make suggestions regarding some assessments, but the final decision comes from the district office. Teacher made tests are common for weekly assessments and teachers also design their own checks for understanding (CFU). Teachers are able to voice their preference of language a student should test in and what accommodations students should get.

22. Do school committees and decision?making bodies make it easy for teachers, parents,

paraprofessionals, support staff, and students to be heard and, in turn, for all groups to be part of solutions to identified problems?

Yes, the staff, school, and district are all involved in different committees to ensure informed decision making with different input and recommendations. Committees discuss and provide solutions for problems. School committees, such as the CLPAC meet regularly to proactively implement appropriate policy for the school. There is representation for all populations served. Everyone comes together as committees or staff groups to find resolutions to problems. Each person is heard and respected. Child nutrition staff should be a part of these committees to stay informed and contribute to solutions that can make a difference since they play a critical role in the success of daily school activities.

23. What evidence is there that there is a process for monitoring, evaluating and renewing the

curriculum to meet the needs of all learners?

There are different assessments supplied by the district which are aligned to TEA requirements and designed to meet students' needs. These assessments drive curriculum development and affect student achievement in a positive way. The school district curriculum continues to be updated according to information gleaned from data. The curriculum is constantly changing to meet the needs of the students based on teacher input and assessment data. Some curriculums indicate when something new has been added by presenting the link in red font. The results of grades, tests, and state assessments in all subjects help to evaluate and monitor where growth is needed, and to improve the curriculum to meet the needs of all learners

School Processes & Programs Strengths

At Singleterry Elementary, multiple web-based programs are used for both instruction and informational data.

The instructional programs provide excellent resources for our teachers and students.

The informational data drives curriculum and instruction.

It enables educators to target and scaffold instruction for efficient and effective lesson delivery.

Our parent center consistently provides quality resources for our families.

Campus and district committees ensure that everyone has an opportunity for their voice to be heard.

Administrators are approachable.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: The district should increase its outreach to employees. **Root Cause:** It would boost morale and cooperation if educator opinions were considered and adoption of input was increased.

Problem Statement 2: There should be educator buy-in for best practice delivery. **Root Cause:** We need strict adherence to and implementation of programs, curriculum and effective teaching methods.

Problem Statement 3: Educators should be proactive problem solvers.

Perceptions

Perceptions Summary

1. Dr. Diana Ramirez Training for next year to assist in closing the learning gap.

2. A committee will be assigned to come up with a plan to reward students and encourage good behavior.

3. Classrooms are in need of updated projectors. It is recommended that new projectors be purchased at the start of the school year in order to meet this need.

4. It is recommended that training is provided at the start of the year, for all campus staff and parents determined to be in need of training on proper technology care and basic troubleshooting issues.

5. Staff needs to be trained on learning apps/programs that will be utilized for the school year.

6. Servers need to run faster. The Internet is very slow and sometimes spotty. Computers take a long time to load after a student logs in. The Internet needs to be upgraded to sustain having students and staff logged on.

7. There is a need for storage cart for student technology in every classroom.

8. The campus should also purchase back up Chromebooks for students that are getting their Chromebook serviced.

9. Next year we will conduct a survey with open ended questions to see how we can address the concerns related to feeling unsafe,"What can the campus do to address your concerns and help you feel safe?"

CNA Perception Data Sources

Class Structures in Place

We have 27 bilingual classrooms with fully bilingual certified teachers. We have 2 monolingual classes with fully certified monolingual teachers. Our classes are heterogeneously grouped. All teachers are self-contained due to Covid protocols.

Class Technology Needs by Area/Class/Department

Our campus has:

-A designated computer lab that contains 60 desktop computers for student use.

- 32 desktop computers in the library for student use.

-Every classroom has 4 desktop computers for student use, for a total of 40 desktop computers.

- 222 iPads, 260 chromebooks, and 115 hotspots.

-There are 2 ipad c.o.w.s with a total of 48 available. These ipads must be checked out as a unit (C.O.W.) by a teacher.

We are considered a 1 to 1 campus, meaning that every student is issued out a device. When our supply runs out and new students enroll, we request devices from DISD. If devices are available, they are sent to our campus. The hotspots are a part of a T-Mobile grant. We are currently not sure if hotspots will be made available again next school year.

Professional staff each received a new HP laptop from DISD at the start of the school year.

Technology Needs:

1. Servers need to run faster. The Internet is very slow and sometimes spotty. Computers take a long time to load after a student logs in. It also can't handle having the entire school on the internet at the same time.

2. Technology Cart with a charging station to store Chromebooks in the classroom during instruction.

3. Classrooms are in need of updated projectors. It is recommended that new projectors be purchased at the start of the school year in order to meet this need.

4. Staff needs to be trained on learning apps/programs that will be utilized for the school year.

Classroom Walkthroughs

Walkthroughs have changed due to the pandemic. Walkthroughs are now conducted virtually. Campus administration is required to complete 10 virtual walkthroughs per week, per administrator. This is done with fidelity across campus. Once a virtual walkthrough is conducted, feedback is given to the teacher within 10 working days as allowed by TEA. Administration keeps track of the date that a walkthrough is made viewable to the appraisee and the date it was viewed.

Climate Surveys

The district has sent out a Culture Survey district wide. See attached survey hard copy for questions included in the survey. We are unaware of the results from this survey as the district has not yet released them.

Discipline Management Records

The Discipline Management Plan entails the levels of action taken by different personnel (Teachers, Counselors, Administration, etc.) on campus . All incidents must be documented in Aware by completing a referral and parents must be notified. A parent may review his or her child's records. The Family Educational Rights and Privacy Act (FERPA) affords parents and eligible students certain rights regarding student education records which include disciplinary records. Mr. Park is in charge of discipline and once he fills out his portion

gives the referrals to Ms. Garza to input into Teams and Ms. Garza (Peims) keeps a copy.

Extra-Curricular Opportunities ACE

Parent Conference Meetings

Each grade level has a conference that is determined when the student goes to PE. The time below is the conference for each grade level

Pre-K 9:30-10:15 am

Kinder: 9:30-10:15 am

1st grade: 10:15-11:00 am

2nd grade:10:15-11:00 am

3rd grade:1:15-2:00 pm

4th grade: 1:15-2:00 pm

5th grade:2:00-2:45 pm

Sometimes, the teacher will have a virtual parent conference meeting afterschool, the morning before class or when the teacher schedules a virtual parent conference. At the beginning of the school year, the parents and students have to sign the parent-teacher compact. The parent teacher compact is an agreement that the student will do his homework, the parent will help the student out at home, and the teacher will do his/her part to help the student. Due to Covid-19,only some students are on campus, so we rely on communication apps to have contact with parents. Some of the apps that teachers are using to communicate with parents are Remind, Classdojo, Classkick, phone call and text.

Professional Development

Professional Development is regularly offered by the district. This year teachers attended a virtual Back to School Summit. The Bilingual Department also had a Bilingual/ESL Educational Summit in January. Every six weeks the district's strategists offer PLD's (using self-paced online courses or virtual meetings). The district has teachers who also attend the PLD's for the subjects they teach. The district shares a calendar for all trainings' through Sharepoint and emails the link for virtual meetings. Teachers are then able to sign up for the training through Eduphoria. Our administrators also assign training or inservice, if they feel that a teacher is struggling in a certain area. Teachers are also able to request to be sent to a certain training they would like to attend.

Professional Development Data

Teachers are required to obtain and submit their certification of completion after having attended their respective training. District takes attendance for all PLD's and training. They will let the camps administration know who didn't attend.

Recruitment and Retention Strategies

Job fairs, district website, interviews, recommendation letters, and certifications are used for recruitment and retention.

Resource Allocations Resource allocations are based on campus/student need. We do a CNA at the end of each year to plan for the following year. So currently what you are doing is looking at our needs and strengths and then we allocate funds to those areas that we need to fund. If we have problems in reading or math for example we put funds to cover for trainings, materials, etc. Every member of the school is involved in coming up with strengths/needs. Once we find out what the strengths are, we keep implementing them and the needs get funding so we can better the school and learning.

Special Program Qualifications

These are the Qualifications for

Special Education:

1. The student must have a disability or disabilities.
2. The student's disability/disabilities adversely affect educational performance.
3. The student's unique needs cannot be addressed through education in general education classes alone – with or without individual accommodations and requires specially designed instruction (SDI).

A student must have one of the following disabilities as defined by IDEA **and** the impact of the disability must create a need for services.

The following are the 13 disabilities:

1. Specific Learning Disability

2. Other health impairment

3. Autism

4. Emotional Disturbance

5. Speech or language impairment

6. Visual impairment

7. Deafness

8. Hearing impairment

9. Deaf - Blindness

10. Orthopedic impairment

11. Intellectual disability

12. Traumatic Brain injury

13. Multiple disabilities

504 Qualifications:

To be eligible for a 504 plan, a student must meet one of the following criteria:

- Have a mental or physical limitation or handicap that significantly impacts one or more essential life activities, like learning, concentration, walking, social interactions, breathing and diet.
- Provide evidence of the limitation or handicap, such as a doctor's report or some other type of medical or psychological evaluation.
- Be considered by others to have a significant limitation or handicap and be treated as such by others.

Support Structures in Place

All new teachers are assigned a mentor. Lead teachers assist their team members. There is also grade level collaboration.

T-TESS Evaluation system is in place so that teachers set and create their goals at the beginning of the year and monitor their progress.

Surveys (Parent Student Teacher)

Teacher Certifications

We will print every teacher certification from the SBEC website to turn in with all of our data sources.

Technology Plan

This school year, the district has purchased chrome books and laptops for every single teacher on campus. This way, every teacher will have access to more than just the desktop available in the classroom and may work from home if needed. Each classroom at Singleterry has a projector and document camera for use in the classroom. Along with this, each classroom is equipped with four student computers per classroom.

Turnover Rates

The turnover rate is less than 5%.

Perception Data: Probing Questions

1. **1. How do students describe the school climate? How does this compare to staff?**

The following question was answered:

Singleterry Elementary has a welcoming learning environment where I feel safe and comfortable.

Students:

- 39.5% Strongly agree
- 43.4% Agree
- 10.1% Neutral
- 4.7% Disagree
- 2.3% Strongly disagree

Strengths: 82.9% of the students that answered feel safe and comfortable.

Weakness: 7% of students do not feel safe or comfortable on campus. And 10.1% of students were neutral about this question. When the next survey is done the question, “What can the school do to have a welcoming learning environment where the students feel safe and comfortable?”

The following was answered by staff: The campus is a well-maintained and pleasant place

- 47.6% Strong agree
- 38.1% Agree
- 11.9% Neutral
- 2.1% Disagree
- 0 % Strongly disagree

1. **2. What evidence is there that students and staff are collectively aligned with the vision and mission of the school?**

The following question was answered: Are you familiar with the vision and mission of the school?

The mission of Donna ISD is to ensure academic excellence for all students through a rigorous and supportive learning environment that provides a quality education in accordance with state and national standards.

The evidence is based on the survey that was completed by staff, parents, and students.

Staff**:**

- 53.2% Familiar
- 17% Very Familiar
- 19.1% Somewhat familiar
- 10.6% Not familiar at all

Strengths:One strength is that 70.2% of the staff is either very familiar or familiar with the mission and vision of the school.

Needs: Singleterry needs to create a committee that establishes a mission and vision for the school rather than sharing the same one as the district. The committee could revisit the vision and mission statements on a yearly basis to make adjustments as needed.

1. **3. How do students and staff describe attitudes, respect, relationships, belonging, support, etc.? How does this data compare across groups? Which groups respond in which manner?** ***(*Demographics)***

The following question was answered: My teacher makes me feel safe and welcome.

- 55% Strongly Agree
- 37.2% Agree
- 3.9% Somewhat Agree
- 1.6% Disagree
- 2.3 Strongly Disagree

The following question was answered by staff members: There is a sense of respect among all staff.

- 17% Strongly Agree
- 46.8% Agree
- 27.7% Neutral
- 6.4% Disagree
- 2.1% Strongly Agree

Strengths: Students for the most part feel comfortable and safe on campus at 92.2% of those surveyed saying they feel welcome overall.

Needs:

Only 65.1% of staff feel a sense of respect on campus.

Incorporate more team building meetings/activities to better the campus atmosphere.

4. What does the data reflect regarding student behaviors, discipline, etc.?

The Discipline Management Plan entails the levels of action taken by different personnel (Teachers, Counselors, Administration, etc.) on campus . All incidents must be documented in Aware by completing a referral and parents must be notified. A parent may review his or her child's records. The Family Educational Rights and Privacy Act (FERPA) affords parents and eligible students certain rights regarding student education records which include disciplinary records. Mr. Park is in charge of discipline and once he fills out his portion gives the referrals to Ms. Garza to input into Teams and Ms. Garza (PEIMS) keeps a copy.

Due to COVID-19 and remote learning, there was a smaller population of students physically in the classroom. Students were following the CDC protocols and socially distanced. There were no severe discipline problems. Most teachers had issues with students keeping masks and face shields on and needed to be reminded frequently.

5. To what degree do students and staff feel physically safe?

The following question was answered: How safe do you feel at school?/How safe do you feel working at singleterry?

Staff:

- 34.5 Very Safe
- 48.9% Safe
- 17% Sometimes Safe

Students:

- 31.8% Very Safe
- 19.4% Safe
- 14% Sometimes Safe
- 0.8% Unsafe
- 34.1 Were at Home

Strengths: No staff member stated that they felt unsafe.

Needs: Only 83% of staff feel safe on campus at all times. On the next survey question needs to be added. "What can be done for you to feel physically safe at school?"

6. What do students and staff indicate about expectations: academic, behavioral, social, extracurricular, etc.?

The following question was answered by students and parents: The school rules and expectations are clear and well known by all students.

- 45.7% Strongly Agree
- 40.3% Agree
- 7.8% Neutral
- 3.9% Disagree
- 2.3% Strongly disagree

The following question was answered by staff. The consequences for students violating school rules are applied consistently.

- 15.6% Strongly Agree
- 22.2% Agree
- 22.2% Neutral
- 26.7% Disagree
- 13.3% Strongly Disagree

Strengths: 93.8% of the students know school rules and expectations clear and well. Staff know rules and expectations well.

Needs: 40% of the staff considers that consequences for students violating school rules are not applied consistently.

7. Which students are most satisfied with the school's culture and climate? How does this compare to the students' attendance, tardies, and other behaviors?

The following question was answered by students and parents: How satisfied are you being part of Singleterry Elementary.

- 61.2% Very Satisfied
- 9.3% Somewhat Satisfied
- 24.8% Satisfied
- 3.9% Unsatisfied
- 0.8% Very Unsatisfied

Strengths: 85.3% of students are satisfied with being part of Singleterry Elementary.

Needs: 4.7% of the students do not feel satisfied. On the next survey an open ended question will be added "What can the school do to improve your perception of the campus?"

Comparison of student's attendance, tardies, and other behaviors. Attendance is worse than previous years, minimal tardies, discipline is low.

8. What does the data indicate regarding classroom management and organization? How does this compare to classroom student achievement data? *(*School Process and Student Learning)*

Currently, due to the Covid protocols and procedures, we have a limited number of referrals for students. There are 98% less referrals written this 2020 - 2021 school year compared to 2019-2020. Teachers are handling their classroom management well due to the number of referrals written. There have been 3 teachers who have written referrals the entire 2020-2021 school year. Teachers have an average between 4-13 students per class daily. The other students are working from home logging into Google Classroom. Teachers are now faced with different discipline problems. Some include: students turning cameras off, they are doing other things, do not participate and are also found watching videos on youtube. There are fewer student misbehavior issues in school. Students that are learning from home with packets and that are not logging in, is data that we cannot measure because of the chance of a parent or sibling doing the student's work.

The following question was answered by staff: I feel full support from my administration when faced with a discipline situation.

The following question was answered by students: My learning is interrupted by my classmates behavior.

Strengths: There are 42.6% of students surveyed that never have their learning interrupted by classmates, and 87% of staff who feel supported by administration with relation to discipline issues.

Needs: There are a total of 57% of students who occasionally or sometimes get their learning interrupted. There was a 12.8% of staff members who feel they rarely have support from administration when faced with discipline students. There needs to be consistent consequences for students who continuously disrupt instruction. Students should not be rewarded when they are sent to the office for discipline issues. This will then maximize effective classroom instruction in efforts to improve student achievement.

9. What does the data reflect regarding gang, substance abuse, weapons, and other safe schools area? Who are the students involved? What do we know about these students? What services have these students received? *(*Demographics)*

Students at Singleterry are given constant counseling lessons on substance abuse. Teachers talk to students about these topics and document on Drug Ed logs every six weeks. The counseling department organizes Red Ribbon Week so students learn more about these topics. During career day, speakers from law enforcement talk to students about topics such as gangs, drugs, and weapons. Singleterry elementary also offers counseling services through Communities In Schools. Communities In Schools is a national dropout prevention program that assists students improve their grades, attendance, and behavior. CIS of Hidalgo has been in existence since 1989 and has partnered with a variety of community agencies to provide qualitative student services.

CIS fosters a one-to-one relationship with young people, promoting individual achievement. CIS creates a safe, supervised, healthy, accountable environment in order to provide resources and services which meet individual needs. CIS works with the local community and serves as a resource broker and program facilitator by forming public/private partnerships needed to reposition community resources into the schools.

10. What students are involved in extracurricular activities, clubs, and other areas? Who are these students? What does student achievement reflect about these students versus others who are not involved? *(*Demographics & Student Learning)*

There are several extracurricular opportunities available at Singleterry. Those include: ACE and Communities In Schools (CIS). The students that participate in these extracurricular activities are students who have good attendance and passing grades. Students who attended these extracurricular activities are likely to pass all core subjects every 6 weeks as well as the STAAR exams.

- *ACE: 100 students, serviced 4x a week for 3 hours.*
- *Communities In Schools (CIS): 100 students, services 1x a week for 45 minutes.*

Strengths: There are a good number of students who are participating in the current clubs. The extracurricular activities can be used as a tool to promote positive behavior and help with social emotional skills.

11. What are the students' and staffs' perceptions of facilities and the physical environments? What is the impact of the facilities on culture and climate?

Students and staff feel safe in the school setting. Classrooms are sanitized daily. Teachers and staff are given disinfectant wipes, disinfectant sprays, face shields, and masks on a weekly basis. Students and staff feel safe. Teachers place signs on their door if they want for anyone entering to wear a mask and/or face shield, or whether to not enter the room at all. The impact of the facilities on culture and climate is important because of the concern with Covid. Students and staff feel that the facilities are being attended to diligently and being sanitized extremely well. There is really not a concern for the facilities here at Singleterry thanks to our exceptional janitorial staff.

Staff:

- 46.8% Strongly Agree
- 38.3% Agree
- 12.8% Neutral
- 2.1% Disagree

47 responses." v:shapes="Picture_x0020_8">

Students:

- 51.9% Strongly Agree
- 38% Agree

- 6.2% Neutral
- 1.6% Disagree
- 2.3% Strongly Disagree

12. How does staff feel about technology?

The following question was answered by 40 staff members: I feel comfortable with the technology equipment, programs, and technology training at Singleterry.

The following statement was presented to staff and they were supposed to rate their comfort: I feel comfortable with the technology equipment, programs, and technology training at Singleterry.

- 38.3 % Strongly Agree
- 42.6 % Agree
- 17 % Neutral
- 0 % Disagree
- 2.1 % Strongly Disagree

80.9 to the survey either agreed or strongly agreed that they felt comfortable with technology. There were 8 people who were neutral and therefore we can not tell if more trainings are needed in any specific area.

Currently teachers have a 3 to 1 ratio (2 laptops and 1 desktop) projector, document camera, 4 student computers and a printer. Some of the teacher computers stopped working and had to be sent back a couple of times. Internet is also a main concern for staff. The Internet lags, slows down when teachers and students are all logged on. This also happened during TELPAS testing. This is an area that needs to be addressed.

Needs: Our internet server needs to be updated to be able to handle the entire campus being on the internet.

13. What are the students', parents' and community perceptions of the school?

According to the climate survey that was sent out to the parents and students, they seem to be overall satisfied with Singleterry. As per parent comments implementation of the uniform policy was a concern and should be enforced to all students regardless of situation. Discipline is an area of need as per some parent comments.

Perceptions Strengths

Strengths:

Teachers have a 3 to 1 ratio of technology (2 laptops and 1 desktop) and students are at a 1 to 1 technology ratio.

80% of teachers and staff feel comfortable with the technology equipment, programs and technology training.

Majority of Teachers/Staff (83.8%) and students (82.9%) feel physically safe.

70.2% teachers/staff are familiar or very familiar with Singleterry's mission and vision

87% of teachers/staff surveyed feel supported by our administration.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: 40% of teachers/staff consider that consequences for students violating school rules are not applied consistently.

Problem Statement 2: 57% students feel their learning is sometimes or occasionally interrupted by their classmates' behavior.

Problem Statement 3: Parents, teachers and administration are concerned about the learning gap. 60% of our students have not been physically in the classroom since March 2020.

Problem Statement 4: Although, we have done great with 1 to 1 ratio of technology, the classroom is not equipped to charge or store classroom sets of Chromebooks. Also, due to manufacturing defects student have gone for a long period of time without their device waiting to be returned from the manufacture

Problem Statement 5: There is about 16.3% of the teachers/staff that sometimes feels unsafe. Due to covid teachers and students did not feel safe. Only 65.1% of teacher/staff feel a sense of respect on campus.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- State and federal planning requirements
- Covid-19 Factors and/or waivers

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Federal Report Card Data

Student Data: Assessments

- State and federally required assessment information
- (STAAR) current and longitudinal results, including all versions
- STAAR released test questions
- STAAR EL progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Student Success Initiative (SSI) data for Grades 5 and 8
- SSI: Istation Indicators of Progress (ISIP) accelerated reading assessment data for Grades 3-5 (TEA approved statewide license)
- SSI: Think Through Math assessment data for Grades 3-8 and Algebra I (TEA approved statewide license)
- Local benchmark or common assessments data
- Running Records results
- Observation Survey results
- Istation Indicators of Progress (ISIP) reading assessment data for Grades PK-2
- Prekindergarten Self-Assessment Tool
- Texas approved PreK - 2nd grade assessment data

Student Data: Student Groups

- Economically Disadvantaged / Non-economically disadvantaged performance, progress, and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data

- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- EL/non-EL or LEP data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender, etc.
- Section 504 data
- Homeless data
- Gifted and talented data
- Dyslexia Data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Processes and procedures for teaching and learning, including program implementation
- Communications data

Goals

Goal 1: Singleterry Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 1: Singleterry Elementary will focus on instructional improvement resulting in all students meeting goals for all accountability measures. The percentage of K-2 students reading on or above grade level will increase by 4%.

Evaluation Data Sources: iStation, STAAR, and STAAR EOC, TELPAS, PBMAS

Comprehensive Needs Assessment Data Documentation 16

Goals 18
- Goal 1: E.G. Salazar Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The school will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. 19
- Goal 2: E.G. Salazar Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 45
- Goal 3: E.G. Salazar Elementary will create an instructional environment that will enhance the learning and academic performance of all students and increase the percentage of graduates demonstrating college/career/military readiness. 61
- Goal 4: E.G. Salazar Elementary will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 63
- Goal 5: E.G. Salazar Elementary will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 70
- Goal 6: E.G. Salazar Elementary will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 79

Comprehensive Needs Assessment

Needs Assessment Overview

Needs Assessment Overview Summary

NEEDS BY CRITICAL SUCCESS FACTORS

CSF1 - ACADEMIC PERFORMANCE: ELLs need to have a strong foundation in their primary language to assist in transition. Support and target second language acquisition for ELLs in the classroom. Ensure instructional materials/activities are adequate to meet the needs of our ELLs.

CSF2 - QUALITY DATA TO DRIVE INSTRUCTION

CSF3 - LEADERSHIP EFFECTIVENESS

CSF4 - INCREASE LEARNING TIME

CSF5 - FAMILY AND COMMUNITY ENGAGEMENT: Parental involvement strategies need to be reevaluated to encourage parent participation of school events.

CSF6 - SCHOOL CLIMATE

CSF7 - TEACHER QUALITY: Professional Staff Development aligned to ELLs needs.

Demographics

Demographics Summary

Demographics refer to the characteristics or make-up of the school and help us understand who we are currently working with and how we implement strategies, initiatives, programs and services to meet their needs. It is the number of students in each special program broken up by ethnicity, gender, or other category:

There was a change in the number of students enrolled in our campus this year. As per snapshot on 10/31/19 we had 510 students. This years snapshot was on 10/30/20 there were 459 students.

As per the 2019-2020 TAPR we served 510 students. 0 white students and 510 Hispanic students.

PK-55, Kinder-82, 1st grade-62, 2nd grade- 62, 3rd grade 75, 4th grade- 82, 5th grade- 92

The population fluctuated depending on the grade level. GT population increased from 27 to 20. Special Education population increased from 43 students to 47 students. The bilingual program had 261 students. Numbers are almost consistent throughout the years with the exception of our GT and SPED populations.

The trend has been to exit students from the Bilingual Program in 3rd, 4th, and 5th grade when they have met state expectations by passing the STAAR and receiving a TELPAS score of Advanced High in Reading, Writing, Listening and Speaking. With the new adopted Bilingual Model, the plan has changed to exiting students in earlier grade levels when they meet the TELPAS criteria.

2018-2019 3rd grade 1st year followups=0; 2nd year followups=0; Exit 2nd year followups=0

4th grade 1st year followups=4; 2nd year followups=1; Exit 2nd year followups=0

5th grade 1st year followups=2; 2nd year followups=1; Exit 2nd year followups=3

2019-2020 3rd grade 1st year followups=0; 2nd year followups=0; Exit 2nd year followups=0

4th grade 1st year followups=0; 2nd year followups=0; Exit 2nd year followups=0

5th grade 1st year followups=0; 2nd year followups=2; Exit 2nd year followups=0

Our at risk categories are: Bilingual, Retainees, At Risk (361 students), McKinney Vento, Not Met Standard on STAAR, PreK-2nd grade students who did not meet standard on Istation. and Foster students.

At Risk student count: 361 students

Migrant student count: 18

According to the Texas Academic Performance Report, the mobility rate for our campus was 18.4% (85 students) as compared to the district's mobility rate of 17.1%.

Staff demographics are as follows:

Teachers=30.2, paraprofessionals=12.2, administrators=1, professional support=67.2, counselors=1, librarian=1, nurses=1, nurse assistant=1, security=1, clerks=2, secretary=1, cafeteria staff=6, and custodians=3.

Class Size Average by Grade for 2019-2020: Kinder= 19.4 First Grade=14.5 Second Grade=14.2 Third Grade= 18.3 Fourth Grade=20.1 Fifth Grade= 18.2

Demographics Strengths

Teachers are fully certified with a bilingual certification with the exception of 3 teachers.

Eight teachers hold a Master's Degree; All paraprofessionals hold at least 45 college hours. Those that do not have 45 college hours have to pass a district assessment provided by the Human Resources Department.

Campus resources:

Having a computer lab for RTI- Special program participation/reports

Intervention- STAAR, RTI, Istation, Galileo/Imagine Learning, Amplify (K-2nd), CLI Engage (PK4) Imagine Math, Read Works, MyON, Reading A-Z/RazKids, Stemscopes, and Brain Pop

Migrant Tutorials- STAAR, RTI, Istation, Imagine Math, Imagine Learning, BrainChild

Guided Reading Groups- Istation Reports, Galileo/Imagine Learning, Reading A-Z/Raz Kids, Amplify K-2nd

Outside Tutor- Test Scores, Reading Levels

ACE Program- Istation, MyON and tutor support with homework

Problem Statements Identifying Demographics Needs

Problem Statement 1: High number of ELL and RTI students are performing poorly on District and State assessments/ **Root Cause:** Spanish, writing, reading, science, math and migrant tutors are approved late in the year.

Problem Statement 2: Academic achievement , discipline and attendance needs to improve. **Root Cause:** Sufficient monies have not been allocated by the District to increase the number of academic achievement and attendance percentages.

Problem Statement 3: There is a high number of At Risk students. **Root Cause:** Parental involvement needs to increase and communication between teachers and parents needs to happen more frequently and consistently.

Student Learning

Student Learning Summary

The latest campus accountability the school received was a "C" Rating for the 2018-2019 school year.

As a campus: ALL SUBJECTS 72% -3 from the previous year

Special Education Students : 33% -27 from the previous year

English Language Learners: 70% -3 from the previous year

Economic Disadvantage: 71% -2 from the previous year

Subject	Percent Met Standard	Percent Gains/Loss
Reading	75	+6
Math	80	-8
Writing	50	-2
Science	63	-19

Subject	3rd		4th		5th*	
Reading	76	+4	77	+9	73	+6
Math	76	+11	74	-7	90	-6
Writing			50	-2		
Science					63	-19

2019-2020 BENCHMARK RESULTS

As a campus: ALL SUBJECTS 60% +3 from the previous year
Special Education Students 28% +10 from the previous year
English Language Learners 54% -3 from the previous year
Gifted and Talented 98% +6 from the previous year
Migrant 56% +32 from the previous year

Subject	Percent Met Standard	Percent Gains/Loss
Reading	65	+5
Math	58	-5
Writing	65	+21
Science	54	-6

Subject	3rd		4th		5th	
Reading	54	-16	79	+16	62	+13
Math	55	-3	53	-7	67	-5
Writing			65	+21		
Science					54	-6

2019-2020 I-STATION READING LEVELS

Grade Level	BOY	MOY	MARCH	EOY Goal
Kinder	39%	56%	88%	80%
1st grade	44%	65%	68%	70%
2nd grade	71%	68%	77%	75%
3rd grade	63%	51%	64%	80%
4th grade	43%	61%	62%	70%
5th grade	45%	50%	43%	70%

The campus has shown growth in 3rd, 4th & 5th grade Reading. (2018-2019 TAPR report).
The campus continues to show growth in 4th and 5th grade reading and 4th grade writing. (2019-2020 Benchmark Data)

Lower grades (K-2nd grade) have shown growth on their reading levels with Kinder and 2nd grade achieving their MOY goal. (I-station Reading Level report)

Students reading on or above their reading levels has decreased from last year due to virtual learning.
Students with a strong parental support and a good academic foundation are showing progress.
ELLs in 4th grade and 5th grade showed some progress.
Our Gifted and Talented students are showing consistency in their academic achievement.
Our Migrant population had a 32% increase (2019-2020 Benchmark Report)

Student Learning Strengths

Students with a strong parental support and a good academic foundation are showing progress.
ELLs in 4th grade and 5th grade showed progress.
Our Gifted and Talented students are showing consistency in their academic achievement.
Our Migrant population had a 32% increase (2019-2020 Benchmark Report)

Intervention programs include ACE, Guided Reading,, Intervention Block, computer programs such as Imagine Learning, Reading A-Z, Imagine Math, MyOn, STEMscopes
These instructional programs target students not reading on grade level and students who are performing below expectations in other subject areas. Students are given targeted daily instruction and more individualized instruction.

Reading Levels as per Istation Report

New Reading adoption for PK-5th Grade (Houghton Mifflin Harcourt)

Note that all students have been transitioned in accordance with the Simultaneous Biliteracy Program as per the District. Due to the transition, the students have to close the gap in the new language. All students Pre-K through 3rd grade are receiving 2-days English and 2-days Spanish instructions with Friday alternating language.

ELL population has shown gains in 4th and 5th grade Reading.

The TAPR report for 2019-2020 Benchmark indicates declines in 3rd, 4th, and 5th grade Math and declines in 5th grade Science. 4th and 5th grade Reading showed gains.

The TAPR report also indicates overall declines in the following populations: ELL's, Economically Disadvanated, and Special Education.
The only content areas that showed progress among ELL"s were 4th and 5th grade Reading.

Gifted and Talented have been making annual progress and have been provided with enrichment activities.
Migrant students showed gains in our benchmark scores and continue to be tutored through our professional tutor.
K-2nd grade have shown gains on reading levels.

College and Career Readiness Standards are embedded in all instructional lessons and activities.
Performance assessments, which bring together concepts taught throughout the six weeks are connected to real world applications and promote critical thinking and hands-on oportunities for learning.
Scope and sequence through Curriculum Collaborative and Math curriculum is aligned to state standards and is modified each year to ensure compliance with state expectations.
Strategies and activities are aligned according to the various learning needs of the students and the complexity and rigor required by the STAAR assessment.
The differentiated instructional strategies are geared towards all student groups and populations.
Textbooks in adoption reflect alignment to state standards as well as being vertically aligned.
Intervention, ELD, and Guided Reading are instructional strategies implemented on a daily basis to meet the specific learning needs of the students and achieve the expected outcomes.
Imagine Learning assessments are given on a monthly basis to monitor the progress of all student populations as well as Math Benchmark s on Imagine Math.
Simultaneous Bilteracy is implemented in grades PK-3rd grade to facilitate and support the trasnsitioning of ELL's to their second language.

Students who are at risk of failing are provided with intensive small group instruction.
Teachers keep a Data Student Tracking form which tracks down students performance by six weeks.
Professional tutors are hired to work with small groups of students in the classroom.
The RTI process provides intervention for students who are at risk of being retained.
Tutoring, guided reading, and computer interventions such as Imagine Learning and Imagine Math have proven successful in raising student scores on various assessments.
Students who are at risk, ELL or in academic need are referred to attend the ACE afterschool program.

SUMMARY OF STRENGTHS:

Scope and sequence through Curriculum Sites is available to all teachers in all subject areas and grade level.
Capability of the Aware program provides extensive data analysis based on demographics and levsl of assessment achievement.
Extensive staff development in sheltered instruction and simultaneous biliteracy have been done to help our ELL population.
Hands-on centered activities that promote higher order thinking skills.
I-Station reading assessments to provide reading data is given on a monthly basis.
Lead teachers meet with their grade levels, verticl alignments and horizontal alignments were available through an Instructional Planning Day every six weeks.
Princpal and Curriculum Specialist meet with teachers on a weekly basis to discuss data and other grade level/school related issues.
Teachers within a grade level frequently assess students through the AWARE program to monitor mastery and non-mastery of skills and concepts.
45 minute Intervention Block during the instructional day (embedded in the master schedule)
PreK - 3rd grade implement the simulatneous biliteracy program that helps our ELL population.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: The data indicates that we need to improve in the areas of Writing and Reading. **Root Cause:** The school and District need to target the English Language Learners.

Problem Statement 2: More English and Spanish books are needed in the library to address all genres. **Root Cause:** The literature in the library is scarce in the number of Spanish

books available.

Problem Statement 3: Resources to target ELL students is scarce. **Root Cause:** ELL resources, bilingual dictionaries and thesaurus, STAAR Science Spanish resources need to be prioritized in purchase orders by teachers.

Problem Statement 4: Students working below grade level are doing poorly on academic achievement. **Root Cause:** Professional tutors for 3rd-5th grade in reading, writing, math and science were hired late in the year.

Problem Statement 5: Many teachers lack technology expertise. **Root Cause:** The District focuses primarily on academics and fail to address professional development in technology.

Problem Statement 6: Students and teachers need more technology on campus for instructional and learning processes. **Root Cause:** Monies are allocated primarily for instructional resources .

School Processes & Programs

School Processes & Programs Summary

•The district uses Strive to keep track of teacher evaluations. Teachers receive an email whenever they have a new evaluation. They can click on the link, login, and easily view all feedback from campus administration walkthroughs. In addition, when district strategists do walkthroughs, they write a quick note with positive things they saw and suggestions for teacher improvement.

•Overall, recruitment efforts seek to find applicants certified for the specific position they will be assigned in, who demonstrate confidence and hold themselves to a high standard, and who have shown success in their given area of expertise, such as STAAR test percentage scores.

•The teacher attendance percentage was 97.8. Special Education teacher percentage was 94.5. The administration and office staff attendance percentage was 95.8.
•Staff retention rate varies by year, but hovers at about 90%.
•We have teachers at Salazar that have been here for over 10 years. One thing you can't count on at Salazar every year is a plethora of familiar faces. Turnover rate is at less than 10%.

•All teachers must be highly qualified. All teachers working with ELLs have Bilingual Certifications. All teachers have completed their 30 hour GT certification. In addition all teacher complete a 6 hour refresher course for GT every year. Teachers must also pass a test to be certified to assess students in the components of the TELPAS assessment. All certifications must be maintained effective or promptly renewed as needed. Teachers must also earn technology certificates yearly to maintain and upgrade their knowledge of best-practices in technology. In this way, students are always assigned to work with highly effective staff. In addition, test results are used to support teacher assignments in areas of greatest expertise so that students with the highest needs are supported in the most effective way possible.

•Our teacher mentor program gives new teachers the peace of mind of knowing that help is always available. Veteran teachers get new teachers up to speed on campus procedures, expectations, paper work, etc. As needed, mentor teachers provide additional support as well such as modeling, hands-on training, and observational feedback. The impact is that new teachers gain confidence more quickly and can focus on the real job of impacting student learning. New staff is supported by the mentor program as applicable. They are also supported through grade level meetings held by the grade level head teacher. As each grade level works as a team, new teachers assimilate easily into the team. New teachers attest to the friendliness and helpfulness of all staff.

•The system in place to build capacity and support the notion of continuous improvement is The Texas Teacher Evaluation and Support System. The observable domains of this system focus on how students respond to their teacher's instructional practices. Appraisers and teachers focus on evidence-based feedback and professional development decisions based on that feedback through ongoing dialogue and collaboration. They system includes goal-setting and a professional development plan, an evaluation cycle, and a student growth measure.

• The principal has instituted a staff weekly updates newsletter on smore.com in which simple, effective teaching techniques and articles such as Using Aggressive Monitoring Active Monitoring to Maximize Student Learning, "The Heart of Teaching", and "Whatis Differentiated Instruction". Articles and techniques are discussed in staff meetings for clarification and to encourage implementation.

*The principal conducts regular PLC's with all grade levels to ensure teacher planning is based upon solid data, focused observations, student misconceptions, prior feedback and grade level goals.

*As the T-TESS process unfolds, teacher needs are constantly cared for. Based upon informal observations, self-reflection, student feedback, as well as test data, teacher needs are self-asessed as well as collectively assessed and addressed.

*Ongoing PLC's with administration are implemented and data is used to determine where teachers need to focus or if additional guidance or PD is needed.

•Teachers, at times, schedule classroom observations of other teachers on the same campus of throughout the district. Teachers also seek out Region I trainings based upon topics of

interest and need. In addition, district strategists and directors look at objectives students are struggling with and are prescriptive in designing district staff-development opportunities.

•Staff have attended ELAR/SLAR Teks trainings, the 10th Annual Assessment Conference, Rockin Review Conference by Lead 4ward, Annual Assessment Conference Strategies for Readers, T-TESS training updates, and Independent Investigation Training.

•Implementation of information and skills gained from professional development is monitored in a variety of ways. First of all, teachers make plans on how to integrate and implement new skills and knowledge, set goals, then self-reflect through end of the year self-analysis. Teachers identify evidence of goal attainment and reflect upon the impact of professional development on student achievement as well as what they could have done differently.

*The impact it has had on performance is visible through data such as district benchmarks and assessments, Imagine Learning/Galileo, and Imagine Math reports. The follow-up is to monitor future scores for continued gains whether it be from local assessments and data since this 2020 year we will not have STAAR data to review.

•There is a campus-based Parental Involvement Program in place. Agendas and sign-in sheets are maintained virtually where parents and community members attend parent meetings.

•The activities are parent workshops, literacy sessions, Pre-K Parent Reading Workshops, math workshops, nutrition classes, parent and community meetings, and office equipment sessions.

*The parents involved are mostly parents of lower grades in PK-2nd. Community members are police officers, restaurant owners, fire fighters, doctors, engineers, dentists, bankers, business representatives, EMS, etc.

*The younger the students are, the more involved the parents are. When the students get older, the parents tend to shadow their children individually rather than attending the Parent Center.

•Parents and community members are invited to virtual decision making meetings(ex. ARD's, RTI, GPC, and Promotion/ retention meetings), parental involvement policy

•The parent center offers services that involve families, community members and students. Our parent center encourages healthy family relationships such as family festivals, literacy classes, Workshops which include nutritional classes, diabetes awareness workshops, parenting skills education, health/hygiene classes, volunteering opportunities, building parent-teacher relationships, and agencies who offer their services)

*Communication to families include notes, letters, reminders in English and Spanish (Paper versions and through FB and Class Dojo). Home visits, flyers, newsletters, monthly calendars, teacher/parent contact logs, Class Dojo messages, office staff phone calls, Blackboard messages.

•We have available: Simultaneous Biliteracy Program for ELLs (PK-3rd), ACE Program, Migrant Tutor, Stem Scopes for Science, Reading Tutor, Math Tutor who helped Tier II and III students. Reading A to Z/RAZ Kids, Istation, Imagine Math, LRGV Learning Landscapes, Clever, Epic, Learning.com, Readworks, MackinVia (has all programs used for research, e.g. Brain Pop Programs, United Streaming, E Books, databases, School Tube) and Internet access for other educational programs. Students are provided with reinforcement and differentiated instruction that helps them be successful in their benchmarks and overall academics.

•Community agencies offer support for health and other information as needed through the Parent Center Workshops, Child-Abuse Prevention Class PK-1st, College-Readiness trips 3-5th, Partners in Print, Communities in Schools Social Worker, Literacy Nights integrated with Book Fairs and Festivals, Report Card Nights at school and at Peter Piper Pizza, Career Day, Showcase Parade, Literacy Nights-integrated with Book Fair Night and Festivals, Anti-Bullying presentations: Box-Out Bullying, Oscar Munoz, and Happy the Comedian, parent-teacher communication. Community volunteers get involved to educate parents and students.

School Processes & Programs Strengths

•New staff is supported by the mentor program as applicable. They are also supported through grade level meetings held by the grade level lead teacher. As each grade level works

as a team, new teachers assimilate easily into the team. New teachers attest to the friendliness and helpfulness of all staff.

•We have teachers at Salazar that have been here for over 10 years. One thing you can count on at Salazar every year is a plethora of familiar faces. Turnover rate is at less than 10%.

Administration supports teachers with instructional needs such as:

*Materials
*Staff development
*Instructional Academies
*Strategists for core subjects
*Instructional Coaches
*Readiness Assessments
*Instructional Planning Days
*Feedback and Coaching
*Resources for online learning

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: The parents involved are mostly parents of lower grades in elementary classes (PK-2nd). **Root Cause:** Campus activities and performances tend to target the lower grades

Problem Statement 2: There is a gap in student achievement between Reading and the Math teachers **Root Cause:** There was a new reading adoption and teachers and district personnel were trying to learn it together throughout the year

Perceptions

Perceptions Summary

Students feel respected by their teachers and believe their teachers care about their learning.

There is no difference in the staff's view on the climate of the school.

Our vision is continously implemented by teachers and staff; they monitor student progress, reinforce student achievement, maintain a high level of responsibility for the student learning. Our Mission: At Salazar Elementary, we are "Recognizing the leader in students and staff".

The mission is evident in the staffs' continous improvement of academic areas by providing students with tutorial programs, intervention software, and maintaining a high level achievement standards.

•There is a common understanding that both student and staff work together towards student academic success. The majority of the staff and students demonstrate respect for each other. The majority of students feel a strong sense of belonging.
•There's a few students that do show lack of respect and don't feel the need to take part in the schools pride or academic environment.
•Students responding in this manner seem to be across all grade levels.

There was a significant decrease of student discipline and teacher concerns of student discipline compared to past years. There was an decrease in student attendance from past years due to Virtual Learning.

•All visitors must buzz the office in order to enter the buildng then the procedure to check ID's is in place, visitors report to office and office staff ensure that visitors have the required identification and we should implement all procedures equally and faithfully to all visitors.

•Staff and students feel a physically safe in the school. A new electronic door security system was installed that requires all visitors, including teachers to use a card key to enter the building. Administrators and security have a two-way communication radio where important info is relayed immediately. All doors are locked and only front door is accessible for entering.
•P.E. and portables buildings are enclosed by a fence to prevent outside individuals from coming into the school. Staff should be given the chance to partake in emergency trainings such as CPR.

Perceptions Strengths

Students and staff understand that everyone has a responsibility whether it is to teach or to learn. The staff reinforces student's grades, behavior, attendance, and good social skills and students partake in this belief by obtaining a high level of achievement. Students are recognized for their efforts during Monday assemblies, dances, free time for Benchmark and STAAR growth, Meets and Masters celebrations, iStation reading growth luncheons with students, AR gaming, Literacy Nights, drawings for perfect attendance prizes, pizza parties for classes with highest average in Imagine Math lessons, festival celebrations, Career Day, Food Can Drive and Elf Run.

All students with severe behavior problems are referred to the counselors or CIS social worker.

The majority of students are equally satisfied with the school's culture and climate.There is an increase in our attendance compared to previous years, continue current attendance incentives to maintain attendance rate. Behaviors issues declined over the past year.

The majority of the students participating in these activities are students that go beyond the scope of their learning; they are monolingual, bilingual, GT, LEP, etc. Extracurricular activities include cheerleading, UIL, spelling bee, The Book Club, Academic Week, Check Plus (garden project) Choir and technology.

Staff currently feel that technology is on the road to improving with the new laptops, ipads, and chromebooks. Students and staff feel safe overall in our campus. Attendance rate increased while student discipline issues declined.

Teachers and students feel that their learning is important.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: There needs to be follow through with the issues on student discipline on the bus and effective forms of discipline actions need to be in place to remedy the behavior. **Root Cause:** The same students who continuously misbehave as is evident in their profile on the discipline system of the school.

Problem Statement 2: Technology training needs to be in place in order to effectively implement the newly acquired devices **Root Cause:** The lack of technology devices in the district diminished the desire to learn and implement tech activities in the classroom

Problem Statement 3: Students are not able to use the entire playground system **Root Cause:** Playground has not been repaired or upgrade in years

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Federal Report Card Data

Student Data: Assessments

- (STAAR) current and longitudinal results, including all versions
- STAAR released test questions
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Student Success Initiative (SSI) data for Grades 5 and 8
- SSI: Istation Indicators of Progress (ISIP) accelerated reading assessment data for Grades 3-5 (TEA approved statewide license)
- SSI: Think Through Math assessment data for Grades 3-8 and Algebra I (TEA approved statewide license)
- Running Records results
- Observation Survey results

Student Data: Student Groups

- Dyslexia Data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent engagement rate

Support Systems and Other Data

- Processes and procedures for teaching and learning, including program implementation

- Budgets/entitlements and expenditures data
- Study of best practices

Goals

Goal 1: E.G. Salazar Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The school will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 1: E.G. Salazar Elementary will focus on instructional improvement resulting in at least 90% students meeting goals for all accountability measures. Applies to all content instructional areas-Reading/ELA, Writing, Mathematics, Science,and Social Studies. Applies to District, State (STAAR, TELPAS, ISTATION, PBMAS) and Federal /ESSA (AYP)

Evaluation Data Sources: STAAR, TELPAS, ISTATION, PBMAS,

Summative Evaluation: Significant progress made toward meeting Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Teachers will use the district curriculum and instruction guide as their primary source of instructional direction for all subject areas. The curricula is vertically and horizontally aligned and integrates TEKS, ELPS and CCRS. **Strategy's Expected Result/Impact:** Increased number of students meeting or exceeding STAAR standards per core content area. **Staff Responsible for Monitoring:** Campus Principal, Curriculum Specialist **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.6 - **Comprehensive Support Strategy** **Funding Sources:** - Title I (211) - $14,430	20%	25%	35%	

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Develop, implement, and monitor daily instructional schedules to ensure all subject areas are taught daily with the allocated minutes and that lesson plans for Reading, ELA, Writing, Math, Science and Social Studies are being implemented and monitored. **Strategy's Expected Result/Impact:** Increased student performance as measured by District and State assessments. **Staff Responsible for Monitoring:** Campus Principal, Curriculum Specialist **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	15%	20%	30%	100%

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Obtain and provide program manipulatives, models, consumables, non-consumable materials, textbooks, instructional software, library books/materials, computers/printers and any other classroom /teacher instructional/office materials or resources for all core content and all student populations. **Strategy's Expected Result/Impact:** Inventory aligned to core curriculum materials and purchase orders. Increased percentage of all students meeting District, State and Federal Standards (STAAR, TELPAS, Think Through Math, Istation and PBMAS) **Staff Responsible for Monitoring:** Campus Administration, Executive Directors, Core Content Directors Librarian **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.6 **Funding Sources:** - Title I (211) - $14,430, - Local (199) - $40,050, - Title III (263) - $2,547, - State Comp. (164) - $1,732, - Teacher/Principal (255) - $3,132, - Library Account (898) - $1,773.10, - Migrant (212) - $320, - Student Activity 865 - $2,000	15%	15%	25%	100%

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Provide staff with research based professional development aligned to performance data measured by District, State, and Federal accountability indicators to include Response to Intervention, data utilization, technology, core state adopted textbooks, supplemental programs, research based instructional strategies for ELLs and CCRS, classroom management, discipline (teaching) for appropriate behavior, Media specialist training and professional development, Counselor's State Conference and PE Coach professional development attendance at the TAHPED Conference. **Strategy's Expected Result/Impact:** Training Agendas Sign In Sheets Increased instructional effectiveness and student performance as measured by grades and state assessment outcomes, decreased at risk learners, decrease in the number of referrals, and decrease in behavior referrals. Increased student participation in AR and other learning center initiatives. **Staff Responsible for Monitoring:** Core Content Director, Technology Director, Bilingual Director, District Level Administration, Grade Level Head Teachers, Campus Administration **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 - **Comprehensive Support Strategy** **Funding Sources:** - Title I (211) - $14,430, - Local (199) - $40,050, - Teacher/Principal (255) - $3,132, - State Comp.(164) - $1,732, - Title IV 289 - $1,500	20%	25%	35%	100%

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Improve supports to struggling learners by improving interventions, resources, and training, and articulate those interventions in meetings, lessons, parent contacts, team meetings, data analysis, and revolving follow up. **Strategy's Expected Result/Impact:** Decreasing number of struggling students requiring tutoring and/or interventions. **Staff Responsible for Monitoring:** Campus Administration, Classroom Teachers, Support Staff, Program Directors, Core Content Directors, and Bilingual Director **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 - **Comprehensive Support Strategy** **Funding Sources:** - Title I (211) - $14,430	20%	20%	30%	100%

Strategy 6 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 6: Implement District initiatives such as Guided Reading, 5E Model, anchor charts, Bloom's Taxonomy, Kagan strategies, word walls, vocabulary development, interactive notebooks, literacy stations, technology, journals, software, Accelerated Reading, sheltered instruction and Simultaneous Biliteracy. **Strategy's Expected Result/Impact:** Walk Throughs Increased student performance as measured by district and state assessments. **Staff Responsible for Monitoring:** Campus Administration, Classroom Teachers, Core Content Directors, Executive Directors **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	25%	35%	50%	100%

Strategy 7 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 7: The campus will implement a standard based grading system. All teachers will identify the standard associated with the posted grade. Reteach/retest guidelines will be reviewed/implemented with all teachers and will be monitored by Campus Administration. **Strategy's Expected Result/Impact:** Gradebook **Staff Responsible for Monitoring:** Campus Administration, PEIMS Clerk, Classroom Teachers, Content Directors **Schoolwide and Targeted Assistance Title I Elements:** 2.6	25%	35%	35%	100%

Strategy 8 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 8: Develop, implement, and monitor a literacy plan where every student is provided the support, personalized instruction, and resources to guarantee reading on level or make a 1 years growth in reading level if student is below grade level. **Strategy's Expected Result/Impact:** Reading Levels STAAR academic outcomes **Staff Responsible for Monitoring:** Campus Principal, Curriculum Specialist, Content Directors **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** - Local (199) - $40,050, - Title I (211) - $14,430	20%	30%	35%	→

Strategy 9 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 9: Develop a campaign to encourage students to come to school regularly and stay in school through enhanced attendance. **Strategy's Expected Result/Impact:** Texas Academic Performance Report: Attendance and Six Weeks District Attendance reports **Staff Responsible for Monitoring:** Campus Principals, Attendance Helpers, Teachers, Counselors **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	20%	30%	35%	→

Strategy 10 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 10: Ensure the district's Simultaneous Biliteracy program for English Learners is research based, responsive to the needs of students, designed, implemented, supported, and monitored for impact on student learning. **Strategy's Expected Result/Impact:** Increased student performance as measured by District and State assessments and TELPAS. **Staff Responsible for Monitoring:** Campus Administration, Bilingual Director, and Classroom Teachers **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 - **Comprehensive Support Strategy**	30%	35%	40%	✗

Strategy 11 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 11: Create more opportunities for students to participate in enrichment programs such as Choir, Cheerleading and Dance Team, UIL, Student Council, Spelling Bee, Battle of the Books, Campus Garden, Book Club, Book It, Library Helpers, Read to Succeed Six Flags Program, Jump Rope for Heart, Pennies for Patients, Elf Run, etc. **Strategy's Expected Result/Impact:** Increased enrollment in programs **Staff Responsible for Monitoring:** Campus Administration, Choir Teacher, UIL Coordinator, Spelling Bee Coaches, Cheerleading and Dance Sponsors **Schoolwide and Targeted Assistance Title I Elements:** 2.5, 2.6	20%	30%	25%	→

Strategy 12 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 12: Determine and use student assessment instruments to monitor progress by aligning purpose, parameters, and effective number of assessment approaches in determining the effectiveness of the planned and written curriculum, the taught curriculum, and instructional programs. **Strategy's Expected Result/Impact:** Assessment Reports **Staff Responsible for Monitoring:** Campus Administration, Classroom Teachers, Core Content Directors **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** - Title I (211) - $14,430	25%	35%	35%	100%

Strategy 13 Details	Reviews

Donna Independent School District

J.S. Adame Elementary

2021-2022 Campus Improvement Plan

Mission Statement

The mission of Donna I.S.D. is to ensure academic excellence for all students through a rigorous and supportive learning environment that provides a quality education in accordance with state and national standards.

The mission of Julian S. Adame Elementary is to attain success, achieve superior standards, and maintain high expectations that will empower our students.

Vision

Vision: The District is unified in its commitment to work together to develop successful learners able to compete in a global community

Vision: At Julian S. Adame we stand United, providing the finest education to ensure teh success of all students, instilling a strong foundation for the leaders of tomorrow.

Core Beliefs

1**. We believe that every student can perform at or above grade level and graduate prepared for college and/or the workforce**

Provide a vertically aligned rigorous curriculum (PK-16).

Provide well-planned student-centered instruction that focuses on project-based learning with real world connections.

Provide accurate, meaningful and authentic assessment of students' mastery of knowledge and skills.

2. We believe that educators have the most powerful impact on student achievement.

Attract and retain highly qualified staff.

Provide ongoing targeted staff development.

Provide the most current research-based and state of the art instructional resources.

3. We believe that educational equity and excellence will eliminate the achievement gap.

Provide opportunities for every student to learn in a manner that is consistent with his/her learning style.

Afford each student targeted instructional interventions to ensure academic success with a rigorous and relevant curriculum.

Provide every student with equal access to outstanding, well-prepared teachers and high quality instructional resources.

4. We believe that every student must be educated in a safe, welcoming, effective, and innovative learning environment.

Enforce the policies of the Donna Independent School District's adopted Student Code of Conduct.

Provide security measures at all campuses to establish a learning climate of mutual respect.

Ensure that every staff member, campus, and classroom is supportive of all students and their unique differences.

5. We believe that our school district must be a model for sound fiscal responsibility and integrity.

Establish policies and procedures to promote ethical practices in all areas of fiscal management.

Provide periodic audits to ensure that all staff and outside providers are committed to following sound fiscal practices.

Provide staff training to encourage ethical conduct and a commitment to compliance with the state and federal laws.

6. We believe that engaged parents and guardians impact a student's academic and personal development.

Schedule Parent Sessions to inform parents about the academic programs and instructional opportunities available to their child.

Accommodate parents' work schedules when creating parent involvement opportunities.

Keep parents informed of their children's performance and school activities (i.e. notes, telephone calls, newsletters, conferences, meetings, etc.).

7. We believe that a supportive community is fundamental to achieving and sustaining our success.

Involve community members by inviting them to serve on school and district committees.

Develop partnerships with business, civic, and academic organization to provide opportunities for students to develop leadership and citizenship skills.

Ensure that our community is supportive of the district's goals by informing the community of pertinent school activities and successes.

8**. We believe that communication, collaboration, and coordination at all levels are essential to district success.**

Work as unified team to find solutions to the district's most pressing issues.

Require that every project specify the persons responsible to facilitate proper coordination of efforts.

Develop a communication plan for every new initiative in order to ensure that all stakeholders are well informed.

Priority Problem Statements 33

Comprehensive Needs Assessment Data Documentation 34

Goals 35
- Goal 1: Julian S. Adame Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. 36
- Goal 2: Julian S. Adame Elementary will create an inviting educational climate that enhance learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 45
- Goal 3: Julian S. Adame Elementary will create an instructional environment that will enhance the learning and academic performance of all students and create an awareness in order to increase the percentage of graduates demonstrating college/career/military readiness when they reach the high school level. 58
- Goal 4: Julian S. Adame Elementary will provide students and all stakeholders with a safe and nurturing school environment that supports academic success. 60
- Goal 5: Julian S. Adame Elementary will follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 67
- Goal 6: Julian S. Adame Elementary will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 74

Comprehensive Needs Assessment

Revised/Approved: September 11, 2021

Demographics

Demographics Summary

1. What do enrollment numbers indicate?

According to the data found in the AEIS report and Fall submission snapshot, there are a total of 695 students at J. S. Adame for the 2020-2021 school year. The enrollment has increased over time as data shown:

2018-2019 - 583 students

2019-2020 - 566 students

2020-2021 - 695 students

2. What is the breakdown by ethnicity, gender or category?

In the 2020-2021 school year, J. S. Adame Elementary breakdown is:

Ethnicity:

Hispanic - 695 students

Gender:

Female - 352

Male - 343

3. How has enrollment changed over the past 3 years?

From 2018-2020 the school lost 87 students, however in 2020-2021 due to the rezoning of schools there has been an increase of 162 students.

2018-2019: (653-583) there was a decline of 70 students

2019-2020: (583-553) there was a decline of 17 students

2020-2021: (533-695) there was an increase of 162 students

4. What is the number of students in each special program? How do these program numbers look broken up by ethnicity, gender or other category? Are we underrepresented in certain groups? Why?

In 2020-2021, J. S. Adame elementary currently served:

- Special Education Program: 48 students
- Bilingual Program: 483 students
- GT Program: 59 students

5. What is the data for special programs over time?

In the 2020-2021 school year, there are 483 students served from the bilingual education department. There was an increase of 29 students being served through the GT program and the special education program increased to 0 students.

6. What does the data reflect regarding students who exit from special programs? How many? Who are they? What trend or pattern do we see?

Due to the COVID-19 pandemic, there are no bilingual students exited from the bilingual program. LPAC committee will decide, monitor, and make the decision on to exit bilingual students next school year.

7. What are our at-risk students? What is their at-risk category?

Based on data collected from TSDS PEIMS, x students are considered at-risk.

Category	Students
ELs	483
Immigrant	8
Economically Disadvantaged	505
Foster Care	3
Dyslexia	1
At-Risk	419
Migrant	18

8. Who are our migrant students?

During the 2020-2021 school year, J. S. Adame elementary served 18 migrant students in grades PK3 - 5th grade.

9. What is the mobility rate for this campus? What is the stability rate? How are these numbers represented for migrant students?

The mobility rate during the 2020-2021 school year was at a count of 18 students (3 %).

10. What area of the community do these students come from?

The student population of J. S. Adame derives from rural areas around the school community.

11. What are the staff demographics?

Based on the 2020-2021 Texas Academic Performance Report, there are a total of 67 staff members. They are as follows:

Staff Members	Gender	Ethnicity
39 teachers	32 females 7 males	All Hispanic
16 paraprofessionals	13 females 3 male	All Hispanic
2 nurse	Female	Hispanic
2 counselors	Female	Hispanic
1 librarian	Female	Hispanic
2 administrators	Females	Hispanic

* Support professionals= 5 Females 5 Hispanic

By years of experience:

Years of Experience	Number of Teachers
0 years	**7**
1-5 years	**2**
6-10 years	**7**
11-20	**16**
Over 20 years	**7**

12. What are the teacher/student ratios? How do these ratios compare to performance

Based on the 2020-2021 Texas Academic Performance Report, the teacher/student ratio is at an average of 20/1.

Category	Teacher/Staff members
483 bilingual students	Bil. Certified teachers 28
59 GT students	GT trained teachers 25
18 migrant students	Migrant Tutor 0

* 48 Special Education Students = 3 Special Ed Teachers.

There are enough certified/trained teachers to meet the needs of the students on campus. Overall, the ratio is sufficient to allow students to meet their learning objectives in every subject.

13. What are the teacher qualifications, certifications, etc Paraprofessionals?

The qualifications, degrees, and certifications are as follows:

Degrees:

Degree- Number of Teachers	Number of Teachers
Bachelor	29 teachers
Masters	10 teachers
Doctoral	0 teachers

Certifications:

Certification-Type-number of teachers	Number of Teachers
Bilingual-	26 teachers
ESL-5 teachers	5 teachers
GT-	0 teachers
Special Education	3 teachers

Paraprofessionals:

Total of 16 paraprofessionals are certified through SBEC or through college credit hours to serve as educational aides in the classroom.

14. What does the general data reflect regarding teacher quality on the campus?

The data reflects that there are enough qualified teachers at J.S. Adame Elementary to meet the needs of all students enrolled in the school.

Demographics Strengths:

· Majority of teachers are GT trained/certified.

· Most teachers have between 11 to 20 years of experience or more

· Students are being transitioned at an early grade level in order to meet the early-exit bilingual criteria.

Problem statements Identifying Demographics Needs:

· Additional tutors are needed to target special student populations (i.e., ELs, GT, Migrant).

Demographics Strengths

Strengths:

- 100% of teachers on campus are certified to teach their level of instruction
- 79% of teachers have 5 to more years of teaching experience in the field of education
- 72% teachers are bilingual certified to assist with first year language acquisition and early-exit transition framework
- 25% of teachers have a masters degree
- 66% of of Adame teachers are GT certified

Needs:

- 1 migrant tutor for 18 students is insufficient/inadequate
- Highly qualified & certified bilingual teachers (EL population increased)
- Ratio: Teacher/Students class ratio 18/1 to target basic skills due to the COVID-19 pandemic
- New teacher & experienced teacher partnerships to assist with real classroom environment & teaching strategies (RLA)
- Highly qualified T/As for RLA/Guided Reading
- 3 Special Education teachers for 48 students is insufficient/inadequate (population increased)
- 2 GT tutor/teacher to assist GT students (population increased)
- 2 bilingual tutor to assist teachers from (1: K-2 and 1:3rd to 5th Grade)

Problem Statements Identifying Demographics Needs

Problem Statement 1: Our school had teacher vacancies that need to be filled in order to better serve our students (P.E. teacher, Music teacher, Special Education teacher). **Root**

Cause: Pending districts re-assignments of teachers.

Problem Statement 2: Additional tutors to target special student populations. **Root Cause:** The large numbers of students in our special populations creates less one-to-one time with each student.

Student Learning

Student Learning Summary

1. How is the student achievement data disaggregated?

Student achievement data is disaggregated by grade level within school aged students, country of origin within racial/ethnic categories, or gender among student populations.

State testing data is reviewed and analyzed by central office administration and gets distributed to individual campuses through Donna ISDs' Eduphoria platform, in which teachers have access to retrieve.

2. How does student achievement data compare from one data source to another?

Student achievement data compared I-Station Tier levels to Guided Reading levels for lower grades (Pre-K – 2nd). It also compares I-Station Tier levels to 6 weeks exams scores for the upper grades (3rd – 5th). Tiers on I-Station range from Level 1 (Tier 1), being on grade level, level 2 (Tier 2), being below grade level, and Level 3 (Tier 3) needing intervention. Imagine Math growth tracker displaystudents progress.

3. What does the data indicate when disaggregated by ethnicity, gender, socioeconomic status, special program or other category?

The disaggregated data shows which subgroup of students is mastering skills assessed and which students are needing immediate intervention. The disaggregation of students on our campus into subgroups helps our staff plan appropriate programs of action for each student based on their individual needs. Teachers work in teams and collaboratively decide which evidence-based interventions need to be selected for that student, then use the resources available to help the student succeed.

4. In which areas are we showing growth? At what rate? Compared to which standard of achievement?

According to 2019-2020, * HB3 attached * pandemic year

5. Which students are making progress? Why?

According to 2019-2020, * HB3 attached *pandemic year

6. What impact are intervention programs having on student achievement? Which students are benefitting or not?

The I-Station program provides computer-adaptive assessments that correspond to individual student's reading skill levels. I-Station is a resource that is practiced on a weekly basis and for some Tier 3 students on a daily basis both in the classroom and in the computer lab. It allows all students to progress in a timely manner showing weaknesses and strengths for further extensive interventions.

Although I-Station is considered a technology resource for intervention, nothing can compare to the communication between teacher and student in a small group setting. Our English Learners benefit from this program as well as our Special Education students.

Imagine Math (Think Through Math) is a computer based resource that targets the math level of the students. Teachers analyze the data and make appropriate action plans to target all population of students to ensure success.

7. What does the longitudinal student achievement data indicate?

Julian S. Adame Elementary has been in existence for 13 years. This campus has reflected consistent progress and improvement throughout the years. 2019-2020, pandemic continues, student achiemvement data to do so. Julian S. Adame Elementary continues to meet AYP; furthermore, it also continues to be an academically acceptable school.

8. What does the data reflect within and among content areas?

According to HB3, 2019-2020, insufficient data reflects enrollment of students. Data gathered subsided by February before state assessments. State accountability was waived due to pandemic.

9. What does the data indicate when disaggregated at various levels of depth?

Disaggregated data refers to numerical or non-numerical information that has been collected from multiple sources and/or on multiple measures, variables, and individuals; such as student demographics, economic status and household data.

10. Which students are making annual progress? Which ones are making projected growth? Who are these students? How does this data compare across programs, content areas, subgroups, etc.?

Our English Learner population is making annual progress. Special Education students had to meet general education curriculum need as per state testing standards. Our Special Education teacher implements Intense Plans of Instruction for a few of the students that still struggled with mastering skills. As per Mr. Felipe Panola, Special Education Teacher, an Intense Plan of Instruction allows the student to have access to additional resources in an effort to help them be successful in state assessments. It also offers additional differentiated instruction that corresponds to RTI and provides measurable results in elevating students to on-grade-level Reading and Math.

11. What evidence exists to determine that the curriculum is clearly linked to the TEKS and other standards for student learning?

The district provides a curriculum online to all teachers available for use on Share Point. This curriculum is designed and evaluated by strategists and teachers who have been chosen based on expertise and knowledge of the resources of each adopted text. Teachers attend Six Weeks trainings and data analysis meetings to evaluate the success of TEKS and instructional planning. Educators use this curriculum to guide their future lessons and instructional paradigm ensuring that TEKS are targeted and scaffolding in such a manner that best provides positive student learning results.

Evidence of TEKS and ELPS must be embedded in all lesson plans in which administrators have access to. They must be clearly visible in the classroom and in a manner in which students and adults can understand what they indicate. There are many teachers who also provide parents with an account of the weekly skills and objectives that are linked to a particular TEKS in order to make them aware of what their child is learning.

12. How is data used to inform curriculum, instruction, and assessment decisions?

Various data is analyzed to determine the most effective way(s) to improve student achievement. Grade levels meet with administration regularly, to discuss district and campus data. The Special Education teacher and/or diagnostician also meet with teachers and administrators to analyze individual students' data that are either in Special Education or in the process of being identified for the program. Educators are to design a plan to expose students to real world knowledge outside of their personal living space and to make connections with the instruction given in the classroom.

In addition, the Language Proficiency Assessment Committee (LPAC), Admission, Review, and Dismissal (ARD), and response to intervention (RTI) committees meet at the end of every six weeks to discuss data and help make academic decisions that are in the best interest of the students.

The aforementioned groups analyze data and make decisions on how to best improve student achievement via whole group, small group and individual instruction. Decisions on instructional approaches, language of instruction, and/or modifications are also determined based on data, student performance, and/or teacher observations. Assessment decisions are based on the ongoing implementation set by educator and LPAC committee for English Learner students.

- Imagine Math
- STEM Scopes

13. What does the data reflect about how curriculum, instruction and assessments are aligned? How are they focused on supporting and challenging all students?

Over the last few years, Julian S. Adame Elementary has had an increase in STAAR scores in all subject areas in grades 3-5. This is in part due to TEKS alignment and the way instruction is presented through the use of multi-faceted teaching designs that target the diverse needs of the students. Depending on the content, some weekly assessments and bundle assessments are provided by the district and administered. Based on the data available through Eduphoria, classroom/student progress is monitored and evaluated to target area(s) of need. Decisions on whether to target individually, via small group or whole groups are made based on results. Students in need of additional support are offered the opportunity to benefit from educational tutors in their language of instruction. To ensure that all students are being targeted, students at or above grade level are regrouped within the grade level and provided with enrichment activities that correlate with existing curriculum.

14. How are curriculum, instruction and assessments aligned with 21st Century Learning Skills?

Our district is a Future Ready district and its curriculum, instruction, and assessments are tightly aligned to engage students in 21st Century, personalized, technology-enabled deeper learning. Curriculum and instruction are standards-aligned, research-based, and enriched through authentic, real-world problem solving to create a district on the forefront of education. Students and teachers have enriched and adaptive tools to customize the learning, teaching, and assessment, ensuring that it is student-centered and emphasizing deep understanding of complex issues. Assessments are shifting to be online, embedded, and performance-based. Data and associated analysis serve as building blocks for learning that is personalized, individualized, and differentiated to ensure all learners succeed.

Alignment to 21st Century Learning Skills is achieved through:

- Hands-On Learning
- Science Experiments
- Outdoor Lessons
- College & Career Readiness Standards Alignment
- Depth of Knowledge (DOK) (Technology Based Projects)
- Technology Based Instruction
- School/Home Connections
- Interactive Lessons
- Cooperative Learning
- Sheltered Instruction

15. How are instructional strategies and activities aligned with student learning needs and expected outcomes for achievement: How consistent is this across the district/school? What is the impact on specific student groups?

There are various ways that instructional strategies and activities are aligned with students' learning needs. They include but not limited to:

- small group instruction in the classroom
- guided reading in the classroom
- the use of Spanish/English cognates

- the implementation of Depth of Knowledge (DOK) questioning in class discussions

Consistency is evident throughout our campus through grade level meetings and DOK trainings that teachers have attended. It is evident throughout our district due to teachers following the same curriculum provided by the district, as well as timelines, and decisions made at PLC (Professional Learning Community) meetings. Educators ensure that they align the appropriate strategy with the assessed needs in order to promote and improve student success. Student population groups such as Gifted and Talented, Bilingual, Migrant, Special Education, At Risk and Recent Immigrants have been impacted positively. Data is analyzed consistently and contributes to the regrouping of students according to their needs. Instructional strategies are used across schools, grade levels, and content teams district-wide through district curriculum, lesson plans and resources.

16. What evidence supports the implementation of high impact/high yield additional interventions for students who need assistance beyond primary classroom instruction? Which students need this type of instruction? What has been the effect over time?

J.S. Adame Elementary has one Speech Pathologist Specialists that service our speech impaired students. Students at first are observed from classroom teachers and concerns are brought up to the specialist. Students needing this type of service range from all demographic aspects of our community. The specialists at that point collects data from the teacher and conducts their own observations and screening of the students. If the students qualifies for the service, the specialist then sets 5-7 goals in an academic year for the student to achieve as a measurement of mastery. Every six weeks, the specialists monitor by tallying a percentage of observations and screening held between them and the student. The specialists collect therapy notes and they build their notes with any progress the student is making. When the student reaches their goals, the student is then processed to be dismissed with one year monitoring by the campus. If the student reaches its goals or is close, the student is put in consult status which means the planning for progress is now done with a team of the student's teachers and school support staff. According to Diana Morrison, M.A. CCC-SLP, Speech Language Pathologist, almost always, the students show growth, improvement or mastery.

17. How does instructional design and delivery maximize student engagement, a positive learning climate, higher order thinking skills, problem solving, critical thinking, etc?

Instructional design is the process by which learning products and experiences are designed, developed, and delivered. Educators are expected to know the demographics of their homeroom students before the academic year begins by analyzing their cumulative permanent folders. Using the technology program, Euphoria, educators are able to look at prior years of plans and notes on each students IEPs. Planning is a critical component to deliver all lessons for all levels of learning ranging from Special Education, English Learners to enrichment for Gifted and Talented students. Throughout the day, students should all be engaged with their level of learning and expected to reach short term goals to ensure accountability. The proper planning ensures a smooth and positive learning climate which allows higher order thinking to flourish from students at whatever their level of learning is. Teachers are given instructional days to collaborate with their fellow colleagues to provide ideas, feedback, and or suggestions to plan for the upcoming six weeks. A 45 minute conference period is allotted for every educator to connect daily with the home environment over the students' progress, issues, concerns, or simply to supply positive feedback. This ongoing process is preparation in every educator's instructional design. Without proper and sufficient planning, delivery is almost nonexistent.

18. Is there evidence that assessments are aligned with clearly specified and appropriate achievement expectations? How are they developed and linked to measure the effect of curriculum and instruction?

The assessments that the district provides are aligned with the TEKS being taught at that time, according to the district timeline. Campus based/teacher created assessments as well as additional supplemental materials are also aligned with the district curriculum and TEKS. Computerized programs that students use such as I-Station, Imagine Math (Think through Math), and STEM Scopes are also aligned to the TEKS. The assessments are developed to monitor student mastery

weekly, every six weeks or by semester prior to the state assessment.

19. How do we know assessments are designed, developed and used in a fair and equitable manner that eliminates biases? How do students perceive these assessments?

The district assessments have provided more reliable content to the students by including word problems in Math that use familiar cultural experiences, names, regional vocabulary, etc. Reading passages vary by genre, and students (especially EL's with limited experiences) perceive the assessments as difficult to relate to or visualize. Teachers, aware of this setback, teach students strategies to help them overcome their lack of background knowledge.

20. How does the scope of assessments provide a comprehensive and representative sampling of student performance that allows for confident conclusions about achievement?

Eduphoria provides teachers and administrators the ability to analyze student performance by providing district, campus, grade level, and individual class comparisons. In addition, data is available by demographics (Bilingual, Gifted and Talented, Special Education, Migrant, At-Risk, Economically Disadvantaged, Limited English Proficiency, gender, and ethnicity). Teachers' strengths/weaknesses can also be identified in these reports. I-Station provides educators data driven information that determines the reading levels and the specific need of each individual on a monthly basis. Teachers are then able to determine how student is progressing and what is needed to help them succeed.

21. What technology do we have for student learning?

2019-2020 The majority of the classrooms on campus have a 1 teacher computer, 1 printer, and 4 student computers. Most classroom have a working Smart Board and a document camera. There are 2 computer labs with 30 computers, 1 printer, and 1 teacher computer. The main computer lab also includes a Smart Board that is accessible to teachers. Each grade level has access to a flip video and digital camera available for check out at the library. Pre-K classrooms have 4 iPads for student use.

Do to Covid-19 pandemic, Donna ISD provided an electronic device to all students enrolled at J.S. Adame Elementary. K-2nd grade will each recieve IPads, 3-5th will get Chrome Books, and every single teacher has recieved a labtop.

22. What is the technology proficiency for staff and students?

Most of the staff at Julian S. Adame Elementary feels they are proficient with technology and a few teachers feel they can teach others about technology. Although most teachers feel they are proficient in the use of technology, there is still a lack of knowledge among the students to fully integrate technology into class assignments and school projects. The computer program Learning.com has introduced some of the basic uses of technology to students, however more training is needed for teachers and students to fully integrate the use of available technology programs. More training in regards to technology is needed in an effort to have all teachers fully integrate the use of it in class. Due to Covid-19, all teachers have had professional development in google classroom. Alternative google certifications are available for those that wish to keep advancing in their tracks.

23. What are some barriers that potentially prevent effective use of technology? When it's working, why is that so? When it's not working, why not?

Most of the barriers that potentially prevent effective use of technology stem from the lack equipment; for example headphones. There are not enough for the students to all use them in the lab. The testing months interfere with the lab schedules for all students. After about February, the lab is utilized to TELPAS, STAAR and for Science Camp, disrupting the schedule for non-testing grade levels. The network/internet has worked effectively throughout the year and

issues with this area are usually resolved in a timely manner, which have helped with the needs of the students. Due to Covid-19 network connection was lacking in some rural areas for distance learning. Those that did have internet access, student were engaged and participated in classroom distance learning.

24. What types of technology professional development have we provided? What was the impact for staff and students?

Google trainning on Google platform were conducted during staff development before the school year began. PD's on interactive programs such as peardeck, abd jamboard were given for additional support. The Class Dojo training allowed teachers to communicate on a social media-type platform. Students were able to view messages on the app via their parents' phone. Families felt comfortable with this type of access to the teachers, and enjoyed viewing photos of classroom moments.

25. In which content areas are we using technology and how? What is the effect?

K to 2nd Grade Technology Programs	3rd, 4th, & 5th Grade Technology Programs
I-Station: Teachers in the lower grades use I-Station, which begins with a the game-like ISIP) I-Station Indicators of Progress) assessment sat the beginning of each month that determines each students' reading and level in English and Spanish and adjust in length and difficulty in real-time based on student academic performance. *Imagine Math:* Teachers used this adaptive math program for 2nd through fifth grade students. Through playing math games and completing math short lessons, students improve foundational math skills, and teachers and administrators receive reports on student progress. *Brain Pop:* Teachers used this essential engagement tool from 3rd Grade through 5th Grade that allows

students and teachers to be involved in the learning process in all content areas. Brain Pop Jr. has evolved by increasing the depth of knowledge needed to answer quiz questions by content area, and playful assessments by content area that allow students to explain their reasoning while playing a game.	both students and teachers to be involved in the learning process in all content areas. Brain Pop has evolved by increasing the depth of knowledge needed to answer quiz questions by content area, and playful assessments by content area that allow students to explain their reasoning while playing a game.
MyOn: Teachers used the Renaissance My On Reader, which is a student-centered, personalized literacy environment that gives students access to more than 6,000 enhanced digital books, take online reading assessments to monitor reading comprehension, reading level in English/Spanish, and fluency.	*MyOn:* Teachers used the Renaissance My On Reader, which is a student-centered, personalized literacy environment that gives students access to more than 6,000 enhanced digital books, take online reading assessments to monitor reading comprehension in English/Spanish, reading level, and fluency.
STEM Scopes: The mission of STEM Scopes is to empower teachers to focus on effective science instruction, rather than on devoting time to a search for quality resources and materials. Being fully online, we are instantly accessible and highly customizable for your students' individual needs	Learning.com: Learning.com provides teachers with solutions to prepare their students with critical digital literacy skills. This web-based curriculum for grades 3rd to 5th Grade that engages students as they learn keyboarding, online safety, applied productivity tools, computational thinking, and coding.
Learning.com:	

Learning.com provides teachers with solutions to prepare their students with critical digital literacy skills. This web-based curriculum for grades K-2 engages students as they learn keyboarding, online safety, applied productivity tools, computational thinking, and coding.	

26. How does the design of the network provide for the users it supports?

The network supports most users, except when it is experiencing heavy traffic (TELPAS, bundle testing, grading periods, and I-station testing). The network allows teachers and students to access their accounts anywhere in the school and anywhere in the district as well as from the comfort of their home. The network/internet has worked effectively throughout the year and issues with this area are usually resolved in a timely manner when a work order is placed.

27. How is technology utilized to support curriculum, instructions, and assessment integration and implementation?

Curriculum:

Our school curriculum is a coherent plan that links goals for learning in all subjects, informed by national and state standards, and the work that happens in and out of the classroom. Teachers use the aligned district curriculum that is accessible through Share Point to design, plan, and monitor academic achievement by implementing a rigorous curriculum in the classroom in two languages (English/Spanish).

Instruction:

Teachers used technology instruction using different programs in their classrooms to support both teaching and learning, technology infuses classrooms with digital learning tools, such as computers and hand held devices. Doing so expands course offerings, experiences, and learning materials.

Assessment:

In order to meet students' needs, the staff on campus works to figure out where that is. In a student centered learning environment, teachers collected data and used data to better understand students' strengths and needs, as well as to monitor their progress towards acquiring content knowledge and skills. Using a variety of methods and technology programs, including but not limited to teacher observation, digital diagnostic tools, and developmental knowledge, teachers work to become familiar with students' cognitive and emotional needs, their preferred learning styles, and their prior knowledge and skills.

Student Learning Strengths

Those well-informed educators are embracing performance data as a useful means for directing school improvement. The ability to track individual student performance, aggregate and disaggregate data with more ease, and the use of sophisticated and high-speed data-collection systems like Eduphoria present new

options for strategic planning. Now that such information is available, teachers have the opportunity to compile each student's strengths and weaknesses to ensure the continuous success of all students at J.S. Adame Elementary from Pre-K through 5th grade.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Teachers need to share effective practice and adopt collective expectations for students' performance. **Root Cause:** Teachers need to identify their strengths and weaknesses when examining data and ask for assistance from other teachers when needed.

Problem Statement 2: All teachers need to systematically and routinely use data to guide instructional decisions and meet students' learning needs. **Root Cause:** Lack of updated staff developments for new data platforms, and data conversions, through a consistent and unified manner.

Problem Statement 3: All 3rd - 5th grade students have been academically affected in the STAAR content areas (Reading, Math, and Science) due to the learning loss resulting from the pandemic. **Root Cause:** Learning Loss due to pandemic.

School Processes & Programs

School Processes & Programs Summary

1. How are follow-up data regarding teacher performance provided to teachers?

- T-Tess (Texas Teacher Evaluation and Support System)
- Walk-throughs (Eduphoria)
- Comments on Lessons Plans
- Grade Level Meetings
- Lead Teacher Meetings
- Staff Meetings

2. How are we recruiting highly qualified and effective staff?

We recruit qualified and effective staff through:

- Teacher Recommendations
- Online Posting on District Website
- Criteria set by TEA Certification
- Criteria set by Interviewing Committee

3. What is our staff attendance rate? Retention rate? Turnover rate?

- Attendance Good
- Retention .04%
- Turnover .04%

Retention and Turnover rates were affected due to two staff members moving to other districts.

4. How is highly effective staff assigned to work with the highest need students?

1st – 5th is departmentalized so that teachers may teach strength and receive specialization.

- Guided Reading
- Intervention
- Resource Teacher (Inclusion)
- Community in Schools

PK – Kinder is self-contained so that teachers may teach strength and receive specialization trainings in their subjects.

- 1 to 1
- Small Group
- Guided Reading
- Resource Teacher (Inclusion)
- Community in Schools

5. Why is the impact/effect of our teacher mentor program?

Our teacher mentor program has a positive effect on new teachers. First year teachers are assigned a mentor teacher that guides them through all teaching practices including campus needs, expectations, and general information on procedures. New teachers attend New Teacher Orientation where they learn how to setup and use district software such as Eduphoria, Aware, TEAMS, Istation, Imagine Math, and other new software used by our district. Teachers that are new to a grade level have a lead teacher that helps guide them through the new curriculum which leads to easying into the grade level.

6. How is new staff supported? What feedback do they provide?

New staff is supported by giving them a mentor teacher. They have grade level support. Teachers are able to observe highly effective staff members. The district offers a variety of staff development for new teachers during the first week of contract. There is also staff development and trainings provide by the school district throughout the year and other trainings out of district.

The administration provides feedback through Aware on Eduphoria when a teacher has a walkthrough. They also receive verbal and written feedback via email.

7. What systems are in place to build capacity and support the notion of continuous improvement?

- Staff Meetings
- District Surveys
- CIP Grade Level Meetings
- Departmental District Meetings
- Needs Assessments
- Staff Development/Conferences in subject area (Math, ELA, Technology)
- Region One Trainings
- CLPAC
- Zoom Meetings

8. How are we using data to determine professional development for staff?

Student data from assessments is accumulated and analyzed to help set priorities for professional development.

- Grades
- I-station

- Imagine Math
- Imagine Learning
- Galileo
- Amplify
- CLI
- Six Weeks Exams
- Benchmarks

9. How are collective and individual decisions regarding professional development determined?

- Departmental Evaluations/Responses
- Staff Development Requests
- Surveys/Monkey
- Areas of greatest student/teacher need, based on state assessments

10. What types of professional development has staff attended? How is implementation monitored? What impact has it had on performance? What is the follow-up?

Reading:

- STAAR Trainings
- Summer Trainings
- Guided Reading
- I-station
- Imagine Learning
- Galileo
- Amplify
- Reading Academy
- Imagine Math
- Technology

Math:

- District Trainings
- Meets Trainings

Other:

- T-TESS
- STAAR

- TELPAS
- Safe School Trainings

Monitored Through:

- Walk-Throughs
- New Strategies Documented Lesson Plans
- Student Performance
- Upcoming STAAR Scores
- Six Weeks Benchmarks
- Bundle Assessments
- Weekly Assessments

11. What evidence exists that families and community members are involved in meaningful activities that support students' learning?

There are numerous activities that occur during the school year which encourage student learning. While some are held on campus, others take place throughout the school district. Sign in sheets are in place for meetings and events that take place throughout the school year at varied locations.

Activities

- Choir
- Robotics
- Chess Club
- Student Council
- Grade Level Home Projects
- Literacy Night
- NASA Night
- Parental Meetings/Trainings (PASOS)
- Community Parade
- P.E. Developmental Programs (soccer, volleyball, basketball, flag football)
- Nutritional Program for Students
- Nutritional Program for Parents
- Meet the Teacher
- Public School Week (day)
- Honor Roll Drive By Parades

Parents and community members

All parents of the students enrolled in our campus are invited to attend and participate in the various school activities. Parents are made aware of events through notes sent home, texts, Class Dojo, voice calls/messages, Blackboard and Remind.

Trends and patterns observed

The number of parents involved is not substantial. The parents that attend events/meetings are the parents of the students involved in the activity at hand. Additionally, these parents are also the ones who visit with teachers and are involved in student matters. Parental involvement at our campus is minimal.

12. How are families and the community members involved in school decisions?

Parents are asked to participate in campus and district committees. They can be members of the CLPAC, DLPAC committees, SHAC, PASOS Program, and Student Compact and Migrant Councils. Also there is a parent portal in place that gives parents the opportunity to view their child's current grades. A parent currently serves on our campus LPAC committee. Finally, our campus has a Student Council that is elected by the student body.

13. What types of services are available to support families, community members and students to encourage healthy family relationships?

Services available to help cultivate healthy family relationships include:

- Literacy Pumpkin Decoration Home Project
- Literacy Night
- Nutritional Classes
- Personal Prevention
- Fresh Fruits and Vegetables Program (Students Only)
- Campus Counselors/Counseling Sessions
- Rodeo Dental Presentations
- Texas Public School Week
- Honor Roll Drive By Parades (Every Six Weeks)

Due to the Covid 19 pandemic, many of our campus activities did not tak eplace due to CDC protocols. Plans are to resume our meaningful activities next year, 2021-2022.

14. If families speak languages other than English, what are these languages?

The majority of the families at our campus speak Spanish, aside from English. How does the school communicate in those languages?

- ClassDojo
- Phone Notification (text and voice calls/messages)
- Bilingual Staff Members
- Parent Portal
- Communication via notes in English and Spanish
- Parental Presentations conducted in English and Spanish
- Blackboard Interface
- Google Classroom

15. What type of services are available to support students in special programs?

Some services offered are:

- Inclusion Instruction
- Social Workers
- Resource classes
- Bilingual classes
- GT testing
- Technology
- Behavior Intervention Assistants
- Child Protective Services
- Texas Tropical Behavioral Services

What are the results?

These services provide student support for the different challenges that our students face. Through these special services, our students are able to succeed academically.

Due to the Covid 19 pandemic many of our campus sevices did not take place due to CDC protocols. Plans are to resume special programs to support students next year, 2021-2022.

16. What types of community partnerships exist to support families and students?

There is a variety of community services available to our families.

- Linus Project
- 911 Program
- Lions Club
- Employee Emergency Foundation 5K Run
- Nuestra Clinica del Valle
- Nutrition Programs
- Parent Portal
- Domestic Violence Services
- Mujeres Unidas
- Donna Library

Due to the Covid 19 pandemic many of our campus sevices did not take place due to CDC protocols. Plans are to resume our activities next year, 2021-2022.

17. To what degree does the district/school support the organization and how?

DISD provides support needed to assess and analyze data using a variety of tools such as benchmarks, bundles,google drives, six weeks' tests, online curriculum through SharePoint for all subjects, and data analysis through AWARE. It also provides teachers and administrators with easy access to analyze data highlighting specific areas of strengths and weaknesses in order to provide the appropriate individualized instruction per student, classroom, and/or

subject. SharePoint offers ideas, guidance, lesson plans, and supplemental activities for all subject areas per grade level.

18. How does the data reflect about classes, schedules, and student/staff teams?

As per the 2020-2021, District - Attendance Percentage and Enrollment on Instructional Day report, a total of 690 students are served at Adame Elementary. Class sizes vary at about 15-24 students per teacher. According to the report, 69% of the student body is made up of English Learners (ELs), EL students are serviced through the Bilingual/ESL Education Program. The students identified as Gifted and Talented (G/T) are served through the Gifted and Talented Program, and the children identified under Special Education, these students receive services through the Special Education Program. The school's master schedule reflects an accommodation across grade levels according to content areas as well as needs specific to each team.

19. How is adequate time devoted to subjects in which students perform poorly?

After teachers identify the areas of weakness by using data collected from district benchmarks, six weeks' assessments and weekly tests, the students can then be identified as the ones who are performing poorly in certain subjects. This data provides teachers with information on which subject needs immediate priority and reveals skills needing mastery. In turn, these areas are quickly and accurately addressed and adequate time can be devoted to those subjects and areas of need. One-way time is prioritized for Reading and Writing is in our campus' Guided Reading block for K-2nd and the intervention block for 3rd-5th. The focus of Guided Reading is to work with small groups to emphasize and continually build phonemic awareness, phonics skills, fluency, vocabulary, and comprehension. The focus of the intervention block is to work with small groups to build on fluency, vocabulary, and comprehension. The same structure is applied in Guided Math. For those students who are struggling and failing due to language, teachers utilize bilingual strategies such as sheltered instruction, total physical response, visual aids, bilingual pairs, dictionaries and extended time when testing. This year 30 minute blocks were added to the master schedule; for the ELs Oral Language Development for K-2nd and intervention block for both EL and NLEPs in grades 3rd-5th.

20. How do teachers have a voice in decision making and school policies?

Teacher's voices are heard in decision making and school policies during staff/grade level meetings. Teachers also express their opinions through and annual comprehensive needs assessments, CLPAC committee, and voicing any needs with our principal and administration team. Our principal operates with an open door policy and is open to suggestions and recommendations that benefit our school.

21. What role do teachers have in deciding what assessments will be used?

Teachers decide as a grade level which weekly assessments will be used to evaluate students on concepts being taught throughout the week. Our campus also used the ISIP Reading Assessment through I-Station to determine the students' overall reading performance in grades PK-5th. Also, K-5th use Imagine Learning, Galileo, and Amplify to determine the students' overall reading performances. Six Weeks Assessments and Benchmarks are determined through the district level. These assessments are generated by the subject district director(s) or through the use of Region One's Classroom Performance system. In grades 3rd-5th, students are tested during the Spring in areas such as Reading, Writing, Math and Science at a state level through STAAR. Due to 5th grade being considered an SSI grade, students who do no initially pass their Reading and Math STAAR are given an opportunity to retest. The LAS is also used in the lower grades to evaluate students in PK-2nd.

22. Do school committees and decision making bodies make it easy for teachers, parents, paraprofessionals, support staff, and students to be heard and, in turn for all groups to be a part of solutions to identified problems?

The implementation of our school committee provides us with the opportunity to voice our concerns and come up with possible solutions to solve the issue at hand. We also continue to implement the CLPAC which meets to make decisions and discuss events for teachers, staff, and students. Our CNA committees are composed of members from different grade levels and meet to discuss strengths and needs in our campus. A campus representative is part of our district insurance committee and shares all pertinent information with the staff.

23. What evidence is there that there is a process for monitoring, evaluating, and renewing the curriculum to meet the needs of all learners?

Based on classroom observations and data from any assessment administered throughout the year, teachers are able to analyze the information and give their input at trainings or professional development to make changes to our curriculum. These suggestions are then used to evaluate what will be changed in order to meet the needs of all our learners in the campus and district wide.

School Processes & Programs Strengths

- There are various programs/services available to our parents.
- Teachers/Administrators are available to meet with parents.
- Teachers are bilingual and can communicate effectively with parents in their native languages.
- Parent Center readily available equipped with computers.
- Teachers have up to date computer software and equipment for delivery of instruction.
- AWARE is available for teachers to view and analyze data accordingly.
- Student weaknesses are targeted through the implementation of different computer programs, data analysis, regrouping and small group tutoring.
- Many of the teachers are currently using Class Dojo and Remind for the classroom. They connect teachers, parents, and students and are able to share photos, videos, and messages throughout the school day. These apps are used to work together as a team, share the classroom experience, and bring big ideas to life in their classrooms and homes.
- Highly Qualified Staff with Many Years of Experience
- Teacher Mentoring Program throughout Grade Levels
- Attendance Incentives
- Fully Certified Teachers
- Paraprofessionals Meet District Requirements
- Staff Support
- Google Classroom

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Lack of parental involvement activities to promote and foster parental involvement. **Root Cause:** Need to incorporate things like a campus festivals, continue with literacy nights, and continue with Honor Roll Drive By Parades.

Perceptions

Perceptions Summary

1. How do students describe the school climate? How does this compare to staff?

After collecting data through surveys, most students and staff feel safe at school. 94% of 3rd graders, 98% of 4th graders, and 96% of 5th graders surveyed feel safe in the classrooms. 90% of 3rd graders, 89% of 4th graders, and 92% of 5th graders surveyed feel safe in the restrooms, hallways, cafeteria, gym and playground. 98% of staff feels safe and secure in school. Both students and staff feel safe overall.

2. What evidence is there that students and staff are collectively aligned with the vision and mission of the school?

Students and staff are required to recite the Mission Statement of Adame Elementary every morning before class begins. Within our Campus Mission Statement, students commit to do their best at all times and they state that they are the driving force behind J.S. Adame Elementary. Students are held accountable for their own actions and behaviors. Students at home and in school continued to read using the MyOn program and students were held accountable for their school work. Imagine Math and Imagine Learning were used by students with the majority completing the required district minutes.

3. How do students and staff describe attitudes, respect, relationships, belonging, support, etc? How does this data compare across groups? Which groups respond in which manner? (*Demographics)

From the data collected, 97 % of 3rd graders, 89% of 4th graders, and 96% of 5th graders surveyed feel that they are respected by their peers. 100% of 3rd/5th, and 94% of 4th graders surveyed believe that their teachers are respectful. 91% of 3rd graders, 74% of 4th graders, and 83% of 5th graders surveyed believe that discipline is administered fairly. 100% of 3rd/4th graders and 79% of 5th graders surveyed feel that their teachers are enthusiastic about teaching. 100% of 3rd graders, 92% of 4th graders, and 83% of 5th graders surveyed feel like they belong at school. 87% of 3rd graders, 79% of 4th graders, and 71% of 5th graders surveyed feel they have a supportive learning home environment.

4. What does the data reflect regarding student behaviors, discipline, etc.?

- This year we had a total of 6 discipline incidents PK-5th
- Out of the 6 discipline referrals, 1of them occurred on the bus and not at school
- There were no bus suspensions this school year
- There was 1 full day ISS, 2 lunch detentions and 2 parent conferences.

The committee agrees that the Discipline Incident Summary may not be a true reflection of students' behaviors due to the large number of students receiving online instruction

5. To what degree do students and staff feel physically safe?

According to the data collected, 96% of students surveyed feel safe while in their classroom. However, only 90% of students feel safe in the hallways, restroom, cafeteria, gym or playground. 98% of staff generally feel safe while at school.

6. What do students and staff indicate about expectations: academic, behavioral, social, extracurricular, etc?

Staff members' data showed that only 89% of them felt that school events are well attended by staff. 96% of staff believe that students know what behaviors are expected of them. Student data showed that 94% of the students surveyed care about learning and getting a good education. Our school has the following extracurricular activities available for our students, Chess Club, Cheer Squad, Choir, Robotics, UIL events and Spelling Bee; however, due to COVID-19 these activities were not made available this school year. 2nd grade students did take part in the LRGV Learning Landscapes where they planted Red Salvia seeds and learned about native plants. In addition, the students that attended in school instruction helped plant a garden in front of our school. The data collected revealed that 92% of students surveyed feel like they belong to our school.

7. Which students are most satisfied with the school's culture and climate? How does this compare to the students' attendance, tardies, and other behaviors?

Overall the female population is more satisfied with our schools culture and climate. More boys responded negatively than girls did. Based on the students surveyed 5th graders were the most dissatisfied and the 3rd graders were the most satisfied. Student body attendance was an average of 97% which was a 1% increase from last year.

8. What does the data indicate regarding classroom management and organization? How does this compare to classroom student achievement data? (*School Process and Student Learning)

Good classroom management is crucial for students' academic achievement. The pandemic posed many new challenges this school year among our students, teachers and parents. Despite those obstacles our teachers organized Google Classrooms and communicated with parents/students daily. Our teachers taught students through both distance learning and face-to-face providing tutorials and engaging lessons. Due to the pandemic situation, STAAR data will not be used this school year. Despite the effects of the pandemic, district data showed that our student engagement in MyOn, Imagine Learning, and Imagine Math often surpassed other campus percentages in achievement and usage.

9. What does the data indicate regarding gang, substance abuse, weapons, and other safe schools area? Who are the students involved? What do we know about these students? What services have these students received? (*Demographics)

Post pandemic our counselors had presentations every six weeks targeting safety, substance abuse and other topics. All students participated in the counselor presentation. Currently students had health once a week via online and in school. Our teachers incorporate drug and gang awareness through social studies and other lessons when applicable (Drug-Ed logs are turned in every six weeks for documentation. Despite the pandemic our staff promoted a drug free environment and encouraged students to participate in Red Ribbon Week activities in October. Our nursing department sent out information regarding health tips and awareness through ClassDojo.

10. What students are involved in extracurricular activities, clubs, and other areas? Who are these students What does student achievement reflect about these students versus others who are not involved/ (*Demographics & Student Learning)

Students at our campus are encouraged to participate or be a part of the extracurricular activities that our campus offers. Among the extracurricular activities we have UIL for K - 5th graders, Choir 4th - 5th graders, Cheerleading 3rd - 5th, Chess 1st - 5th, Recycling Club 4th grade and Robotics 4th – 5th. Any student

involved in any of the extracurricular activities are required to maintain good grades and display good conduct. All students are given the opportunity to participate or tryout.

11. What are the students' and staffs' perceptions of facilities and the physical environments? What is the impact of the facilities on culture and climate?

100% of staff members feel that our school is generally clean. Which in turn makes our campus a more comfortable and adequate working and learning environment for our students. Students recognize that our custodians work hard to keep the campus clean and assist with ensuring their area is neat and well kept.

12. How does staff feel about technology?

The majority of our staff completed self-paced module trainings to be better prepared for this school's year immersion in technology. Most of our staff became knowledgeable in technology and different computer applications in order to continue classroom instruction. With the exception of PK3 and PK4 all our students were equipped with iPads or Chromebooks which enabled them to connect to Google Classroom. DISD provided WiFi for students to be able to connect; however, some connection issues still.

13. What are the students', parents' and community perceptions of the school?

According to our parent survey, the majority of our parents are satisfied with our campus as a whole. Our lowest ranking percentages according to the parents' surveyed were in two areas: 92% of parents feel like they are updated about their child's progress and 92% also feel that our school encourages parent involvement in school activities. All the other areas were 97% or greater.

1 parent felt hat her child should be given more attention by the teacher because she is easily distracted. Another parent said she did not know who the principal was and did not know if school discipline was administered fairly.

Based on the data between students', parents' and staff members the overall perception of our school is positive with minimal people unsatisfied. The area of concern would be increasing support for learning at home.

Perceptions Strengths

- Sense of belonging among students and staff
- Parental academic satisfaction
- Focused teachers with the same goal
- Continued student academic achievement
- Parent/Teacher contact increased daily
- Teachers increased their technology knowledge and adapted to technology

Problem Statements Identifying Perceptions Needs

Problem Statement 1: No festivals and parent/student activities; only academic parades. **Root Cause:** Due to most students receiving online instruction, festivities were limited to what we could do for our students

Problem Statement 3: Need counseling and small group reinforcements. **Root Cause:** Due to the pandemic, counseling and other assemblies conducted by our counselors were not performed this school year.

Problem Statement 4: Cafeteria needs to ensure that cold foods are kept separated from hot foods in efforts to prevent spoiling. **Root Cause:** Due to the pandemic, food preparation was different than other school years. Plates were wrapped in plastic wrap and dairy products were sealed in with hot foods. This caused some milk to spoil.

Problem Statement 5: PK3 and PK4 need some form of devices to stay connected with teachers should another pandemic occur. **Root Cause:** Students in this grade level were not able to stay connected with the teacher and missed out on instruction. The district only provided devices for students from Kinder- 5th grade.

Problem Statement 6: All 3rd - 5th grade students have been academically affected in the STAAR content areas (Reading, Math, and Science) due to the learning loss resulting from the pandemic. **Root Cause:** Learning Loss due to pandemic.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals

Accountability Data

- Student Achievement Domain
- Closing the Gaps Domain
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Federal Report Card Data

Student Data: Assessments

- State and federally required assessment information
- STAAR released test questions
- STAAR EL progress measure data
- Student failure and/or retention rates
- Running Records results
- Istation Indicators of Progress (ISIP) reading assessment data for Grades PK-2
- Texas approved PreK - 2nd grade assessment data

Goals

Revised/Approved: September 5, 2021

Goal 1: Julian S. Adame Elementary will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 1: Julian S. Adame Elementary will focus on instructional improvement resulting in all students meeting goals for all accountability measures. The percent of KG-5th grade students will increase each month to reach campus and district grade level goals.

Targeted or ESF High Priority

Evaluation Data Sources: I-Station, Imagine Literacy, Amplify

Summative Evaluation: Met Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Develop, Implement, and Monitor a Literacy Plan where every student is provided the support, personalized instruction, and resources to guarantee reading on level or make a 2 years growth in reading level if student is below level. **Strategy's Expected Result/Impact:** EOY Reading Levels and STAAR Academic Outcomes **Staff Responsible for Monitoring:** Principal, Curriculum Specialist, and Teachers **TEA Priorities:** Build a foundation of reading and math - **Comprehensive Support Strategy - Additional Targeted Support Strategy**	50%	45%	90%	100%

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Teachers will use the district curriculum and instruction guide as their primary source of instructional direction for all subject areas. **Strategy's Expected Result/Impact:** Increased number of students meeting or exceeding Reading Levels & STAAR standards per core content area. District and State Assessments. **Staff Responsible for Monitoring:** Campus Administration & Curriculum Specialist	60%	60%	90%	100%

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Develop, implement, and monitor daily instructional schedules to ensure Reading is taught daily and student levels are targeted through differentiated instruction and grouping. **Strategy's Expected Result/Impact:** Increased student Performance and Reading Levels. **Staff Responsible for Monitoring:** Campus Administration	60%	50%	85%	100%

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Support struggling readers by improving interventions and resources, and tracking monthly by documenting on lesson plans, making parent contact, hold team meetings to analyze data. **Strategy's Expected Result/Impact:** Early Intervention to ensure growth in reading levels. **Staff Responsible for Monitoring:** Campus Administration **Funding Sources:** - Local (199), - State Comp.(164), - Title I (211)	70%	75%	95%	100%

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Implement a Computer Lab/ Class (with provided devices) Schedule to allow students to work on I-Station RDG, Learning.com, Imagine Math, and all other programs. **Strategy's Expected Result/Impact:** Increased Usage time on Reading Program & Growth on Reading Levels from BOY to EOY **Staff Responsible for Monitoring:** Campus Administration & Lab Manager	50%	65%	90%	100%

Strategy 6 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 6: Provide research-based staff development aligned to performance data measured by District, State, and Federal accountability indicators to include: job-embedded training, response to intervention (RTI), data utilization, technology, core state-adopted textbook, supplemental programs,research-based strategies for ELL's, research-based instructional strategies for CCRS, classroom management, and discipline (teaching) for appropriate behavior), Region One trainings and TASA Conferences, if possible, provide breakfast during training. **Strategy's Expected Result/Impact:** Professional Development District Plan, training agendas, and sign-ins. Increased instructional effectiveness and student performance as measured by grades and state assessment outcomes, decreased at risk learners, decrease in referrals, and decrease in behavior referrals. **Staff Responsible for Monitoring:** Executive Directors, Core Content Directors, District Staff Development Coordinator, Campus Administration,Technology and Bilingual Director. **Comprehensive Support Strategy** **Funding Sources:** - Title I (211), TASA Conference registration, session schedules, and receipts - Teacher/Principal (255) - $3,000, TASA Conf - Teacher/Principal (255) - TASA Conf - $1,400	50%	55%	90%	100%

Strategy 7 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 7: Provide RLA/Math consulting services and monitor implementation of best instructional practices presented during instructional development and all staff training. **Strategy's Expected Result/Impact:** Lesson Plans, walkthroughs, classroom visits, progress monitor documentation and student academic outcomes. **Staff Responsible for Monitoring:** Executive Directors, Core Content Directors, Campus Administration and Teachers **Funding Sources:** - Local (199) - 11.6291.00.118.11 - $1,500	80%	65%	90%	100%

Strategy 8 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 8: Determine and use student assessment instruments to monitor progress by aligning purpose, parameters, and effective number of assessments. **Strategy's Expected Result/Impact:** Assessment Reports **Staff Responsible for Monitoring:** Chief Academic Officer, Executive Directors, Core Content Directors, Campus Administration, and Teachers.	55%	65%	95%	100%

Strategy 9 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 9: Ensure the district's program for English Language Learners(ELLs) is research based, responsive to the needs of student, designed, implemented, supported, and monitored for impact on student learning. **Strategy's Expected Result/Impact:** Increased student performance as measured by district and state assessments and TELPAS. **Staff Responsible for Monitoring:** Bilingual Education Director, Executive Directors, Core Content Directors, Campus Administrations, and Teachers. **Comprehensive Support Strategy**	45%	75%	95%	100%

Strategy 10 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 10: Implement district initiatives such as Guided Reading, 5E Model, Anchor Charts, Word Walls, Vocabulary Development, Interactive Notebooks, Literacy Stations, Technology programs, Journals, Software, content resources, Student Portfolios, Kagan Strategies, Sheltered Instruction and College Readiness Activities **Strategy's Expected Result/Impact:** Walkthroughs and increased student performance as measured by district and state assessments. **Staff Responsible for Monitoring:** Executive Directors, Core Content Directors, Campus Administration and Teachers. **Funding Sources:** resources/supplies - Title I (211) - 11.6399.00.118 - $9,000	70%	60%	95%	100%

Strategy 11 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 11: Develop an Attendance comittee to encourage students to come to school regularly and stay in school through enhanced attendance, completion, and dropout prevention efforts. **Strategy's Expected Result/Impact:** Texas Academic Performance Report: Attendance and dropout percentages will decrease. Six Weeks District attendance reports. **Staff Responsible for Monitoring:** Director of intake center, Truancy Officers, Campus Principals, Attendance Helpers, Teacher and Counselors.	55%	65%	95%	100%

Strategy 12 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 12: Develop, implement, and monitor a literacy plan where every student is provided the support, personalized instruction, and resources to guarantee reading on level or make a 2 years growth in reading level if student is below grade level. Utilize funds to cover expenses on the 2 copier machines used for instructional materials. **Strategy's Expected Result/Impact:** Reading levels Istation Reports, Imagine Literacy Reports **Staff Responsible for Monitoring:** Executive Directors, Core Content Directors, Campus Principal, Classroom Teachers **Funding Sources:** list of resources - Local (199) - 11.6269.00.118 - $18,000	65%	55%	95%	100%

Addendums

Note: This policy addresses bullying of District students. For purposes of this policy, the term bullying includes cyberbullying.

For provisions regarding discrimination and harassment involving District students, see FFH. Note that FFI shall be used in conjunction with FFH for certain prohibited conduct. For reporting requirements related to child abuse and neglect, see FFG.

Bullying Prohibited

The District prohibits bullying, including cyberbullying, as defined by state law. Retaliation against anyone involved in the complaint process is a violation of District policy and is prohibited.

Examples

Bullying of a student could occur by physical contact or through electronic means and may include hazing, threats, taunting, teasing, confinement, assault, demands for money, destruction of property, theft of valued possessions, name calling, rumor spreading, or ostracism.

Retaliation

The District prohibits retaliation by a student or District employee against any person who in good faith makes a report of bullying, serves as a witness, or participates in an investigation.

Examples

Examples of retaliation may include threats, rumor spreading, ostracism, assault, destruction of property, unjustified punishments, or unwarranted grade reductions. Unlawful retaliation does not include petty slights or annoyances.

False Claim

A student who intentionally makes a false claim, offers false statements, or refuses to cooperate with a District investigation regarding bullying shall be subject to appropriate disciplinary action.

Timely Reporting

Reports of bullying shall be made as soon as possible after the alleged act or knowledge of the alleged act. A failure to immediately report may impair the District's ability to investigate and address the prohibited conduct.

Reporting Procedures

Student Report

To obtain assistance and intervention, any student who believes that he or she has experienced bullying or believes that another student has experienced bullying should immediately report the alleged acts to a teacher, school counselor, principal, or other District employee. The Superintendent shall develop procedures allowing a student to anonymously report an alleged incident of bullying.

Employee Report

Any District employee who suspects or receives notice that a student or group of students has or may have experienced bullying shall immediately notify the principal or designee.

Report Format — A report may be made orally or in writing. The principal or designee shall reduce any oral reports to written form.

Notice of Report — When an allegation of bullying is reported, the principal or designee shall notify a parent of the alleged victim on or before the third business day after the incident is reported. The principal or designee shall also notify a parent of the student alleged to have engaged in the conduct within a reasonable amount of time after the incident is reported.

Prohibited Conduct — The principal or designee shall determine whether the allegations in the report, if proven, would constitute prohibited conduct as defined by policy FFH, including dating violence and harassment or discrimination on the basis of race, color, religion, sex, gender, national origin, or disability. If so, the District shall proceed under policy FFH. If the allegations could constitute both prohibited conduct and bullying, the investigation under FFH shall include a determination on each type of conduct.

Investigation of Report — The principal or designee shall conduct an appropriate investigation based on the allegations in the report. The principal or designee shall promptly take interim action calculated to prevent bullying during the course of an investigation, if appropriate.

Concluding the Investigation — Absent extenuating circumstances, the investigation should be completed within ten District business days from the date of the initial report alleging bullying; however, the principal or designee shall take additional time if necessary to complete a thorough investigation.

The principal or designee shall prepare a final, written report of the investigation. The report shall include a determination of whether bullying occurred, and if so, whether the victim used reasonable self-defense. A copy of the report shall be sent to the Superintendent or designee.

Notice to Parents — If an incident of bullying is confirmed, the principal or designee shall promptly notify the parents of the victim and of the student who engaged in bullying.

District Action

Bullying — If the results of an investigation indicate that bullying occurred, the District shall promptly respond by taking appropriate disciplinary action in accordance with the District's Student Code of Conduct and may take corrective action reasonably calculated to address the conduct. The District may notify law enforcement in certain circumstances.

Discipline — A student who is a victim of bullying and who used reasonable self-defense in response to the bullying shall not be subject to disciplinary action.

	The discipline of a student with a disability is subject to applicable state and federal law in addition to the Student Code of Conduct.
Corrective Action	Examples of corrective action may include a training program for the individuals involved in the complaint, a comprehensive education program for the school community, follow-up inquiries to determine whether any new incidents or any instances of retaliation have occurred, involving parents and students in efforts to identify problems and improve the school climate, increasing staff monitoring of areas where bullying has occurred, and reaffirming the District's policy against bullying.
Transfers	The principal or designee shall refer to FDB for transfer provisions.
Counseling	The principal or designee shall notify the victim, the student who engaged in bullying, and any students who witnessed the bullying of available counseling options.
Improper Conduct	If the investigation reveals improper conduct that did not rise to the level of prohibited conduct or bullying, the District may take action in accordance with the Student Code of Conduct or any other appropriate corrective action.
Confidentiality	To the greatest extent possible, the District shall respect the privacy of the complainant, persons against whom a report is filed, and witnesses. Limited disclosures may be necessary in order to conduct a thorough investigation.
Appeal	A student who is dissatisfied with the outcome of the investigation may appeal through FNG(LOCAL), beginning at the appropriate level.
Records Retention	Retention of records shall be in accordance with CPC(LOCAL).
Access to Policy and Procedures	This policy and any accompanying procedures shall be distributed annually in the employee and student handbooks. Copies of the policy and procedures shall be posted on the District's website, to the extent practicable, and shall be readily available at each campus and the District's administrative offices.

Definitions

"Bullying":

Bullying

1. Means a single significant act or a pattern of acts by one or more students directed at another student that exploits an imbalance of power and involves engaging in written or verbal expression, expression through electronic means, or physical conduct that satisfies the applicability requirements below and that:

    a. Has the effect or will have the effect of physically harming a student, damaging a student's property, or placing a student in reasonable fear of harm to the student's person or of damage to the student's property;

    b. Is sufficiently severe, persistent, or pervasive enough that the action or threat creates an intimidating, threatening, or abusive educational environment for a student;

    c. Materially and substantially disrupts the educational process or the orderly operation of a classroom or school; or

    d. Infringes on the rights of the victim at school; and

2. Includes cyberbullying.

Cyberbullying

"Cyberbullying" means bullying that is done through the use of any electronic communication device, including through the use of a cellular or other type of telephone, a computer, a camera, electronic mail, instant messaging, text messaging, a social media application, an Internet website, or any other Internet-based communication tool.

Applicability

These provisions apply to:

1. Bullying that occurs on or is delivered to school property or to the site of a school-sponsored or school-related activity on or off school property;

2. Bullying that occurs on a publicly or privately owned school bus or vehicle being used for transportation of students to or from school or a school-sponsored or school-related activity; and

3. Cyberbullying that occurs off school property or outside of a school-sponsored or school-related activity if the cyberbullying:

    a. Interferes with a student's educational opportunities; or

b. Substantially disrupts the orderly operation of a classroom, school, or school-sponsored or school-related activity.

Policy

The board shall adopt a policy, including any necessary procedures, concerning bullying that:

1. Prohibits the bullying of a student;
2. Prohibits retaliation against any person, including a victim, a witness, or another person, who in good faith provides information concerning an incident of bullying;
3. Establishes a procedure for providing notice of an incident of bullying to:
   a. A parent or guardian of the alleged victim on or before the third business day after the date the incident is reported; and
   b. A parent or guardian of the alleged bully within a reasonable amount of time after the incident;
4. Establishes the actions a student should take to obtain assistance and intervention in response to bullying;
5. Sets out the available counseling options for a student who is a victim of or a witness to bullying or who engages in bullying;
6. Establishes procedures for reporting an incident of bullying, including procedures for a student to anonymously report an incident of bullying, investigating a reported incident of bullying, and determining whether the reported incident of bullying occurred;
7. Prohibits the imposition of a disciplinary measure on a student who, after an investigation, is found to be a victim of bullying, on the basis of that student's use of reasonable self-defense in response to the bullying; and
8. Requires that discipline for bullying of a student with disabilities comply with applicable requirements under federal law, including the Individuals with Disabilities Education Act (20 U.S.C. Section 1400 et seq.).

The policy and any necessary procedures must be included annually in the student and employee handbooks and in the district improvement plan under Education Code 11.252. [See BQ]

Internet Posting

The procedure for reporting bullying must be posted on a district's Internet Web site to the extent practicable.

Prevention and Mediation

A district may establish a district-wide policy to assist in the prevention and mediation of bullying incidents between students that:

1. Interfere with a student's educational opportunities; or
2. Substantially disrupt the orderly operation of a classroom, school, or school-sponsored or school-related activity.

"Not found" graduates have standard ID numbers that were not found in the specified year at Texas higher education institutions.

"Not trackable" graduates have non-standard ID numbers that will not find a match at Texas higher education institutions.

Includes high schools with more than 25 graduates. If enrolllment in public higher education less than 5, the GPA data is omitted.

Section 7

2021-22
House Bill 3
Progress

Student Outcome Goal 1

Goal 1: Percentage of 3rd grade students that meet or exceed grade level proficiency on STAAR Math will increase from **5%** to **55%** by **2026**. (Baseline measure STAAR 2021)

- **Goal 1 Progress Measure 1.1**-Percentage of 2nd grade students who meet grade level proficiency will increase from **12% to 55%** by 2026

- **Goal 1 Progress Measure 1.2**-Percentage of 1st grade students who meet grade level proficiency will increase from **8% to 55%** by 2026

- **Goal 1 Progress Measure 1.3**-Percentage of Kindergarten students who meet grade level proficiency will increase from **9% to 55%** by 2026.

Student Outcome Goal 1: Annual Targets

Math Percent at Meets or above	2021 Baseline	21-22 Target	21-22 *Actual*	22-23 Target	23-24 Target	24-25 Target	25-26 Target
3rd Grade (STAAR) Goal: 5% to 55% by 2026	5%	15%	24% +9	25%	35%	45%	55%
2nd Gr. (Imagine Math) GPM: 12% to 55% by 2026	12%	21%	33% +12	29%	38%	46%	55%
1st Gr. (Imagine Math) GPM: 8% to 55% by 2026	8%	17%	27% +10	27%	36%	46%	55%
Kinder (Imagine Math) GPM: 9% to 55% by 2026	9%	18%	23% +5	27%	37%	46%	55%

Student Outcome Goal 2

Goal 2: Percentage of 3rd grade students that meet or exceed grade level proficiency on STAAR Reading will increase from **9%** to **47%** by 2026

- **Goal 2 Progress Measure 2.1**-Percentage of 2nd grade students reading at or above grade level will increase from **31%** to **46%** by 2026
- **Goal 2 Progress Measure 2.2**-Percentage of 1st grade students reading at or above grade level will increase from **25%** to **50%** by 2026
- **Goal 2 Progress Measure 2.3**-Percentage of Kindergarten students reading at or above grade level will increase from **18%** to **48%** by 2026

Student Outcome Goal 2: Annual Targets

Reading Percent at Meets or above	2021 Baseline	21-22 Target	21-22 *Actual*	22-23 Target	23-24 Target	24-25 Target	25-26 Target
3rd Grade (STAAR) Goal: 9% to 47% by 2026	9%	17%	29% +12	24%	32%	40%	47%
2nd Gr. (Amplify mClass) GPM: 31% to 46% by 2026	31%	34%	41% +7	37%	40%	43%	46%
1st Gr. (Amplify mClass) GPM: 25% to 50% by 2026	25%	30%	42% +12	35%	40%	45%	50%
Kinder (Amplify mClass) GPM: 18% to 48% by 2026	18%	24%	56% +32	30%	36%	42%	48% +8

Student Outcome Goal 3

Goal 3: Percentage of graduates demonstrating college/career/military readiness (CCMR) will increase from **61%** to **79%** by 2026

- **Goal 3 Progress Measure 3.1**-Percentage of students meeting Texas Success Initiative (TSI) criteria in both ELA/reading and mathematics on any of the assessments (Texas Success Initiative Assessment (TSIA), SAT, ACT, College Prep Course) will increase from **8%** to **24%** by 2026

- **Goal 3 Progress Measure 3.2**-Percentage of graduates demonstrating career readiness will increase from **25%** to **55%** by 2026

Student Outcome Goal 3: Annual Targets

CCMR College, Career, Military Readiness	2021 Baseline	21-22 Target	21-22 *Actual*	22-23 Target	23-24 Target	24-25 Target	25-26 Target
CCMR Goal: 61% to 79% by 2026	61%	64%	83% +19	67%	71%	75%	79% +4
TSI Criteria (Reading & Math) GPM: 8% to 24% by 2026	8%	12%	10% -2	15%	18%	21%	24%
Career Readiness (Industry Based Certifications) GPM: 25% to 55% by 2026	25%	31%	76% +45	37%	43%	49%	55% +21

Board Self-Constraints 2 & 3

Board Self Constraint 2: Shall not fail to report the year end school board CEC hours on an annual basis and ensure to report at the September board meeting.

Board Self Constraint 3: Shall not fail to have the annual TEAM of 8 training

2021–22 Texas Academic Performance Report (TAPR) Glossary

Cover Page

2022 Accountability Rating: The overall rating earned by the district or campus for 2022.

2022 Special Education Determination Status *(district TAPR only):* This label represents an integrated determination level status based on an evaluation of each local educational agency's (LEA) Results Driven Accountability (RDA) indicators in the special education program area and four Federally Required Elements (FREs), which include the State Performance Plan (SPP) compliance indicators 9, 10, 11, 12, and 13; data integrity; uncorrected noncompliance; and financial audit findings. Each LEA receives one of four special education determination levels (DLs):
Meets Requirements
Needs Assistance
Needs Intervention
Needs Substantial Intervention

For additional information, please see the links below.

2022 Armed Services Vocational Aptitude Battery (ASVAB) Test (Career Exploration) *(districts serving grades 10–12):* Senate Bill 1843 requires that each school year, each school district and open-enrollment charter school provide students in grades 10–12 the opportunity to take the ASVAB and consult with a military recruiter.

2021–22 Texas Academic Performance Report (TAPR) Glossary

Performance

STAAR: A comprehensive testing program for public school students in grades 3–8 or high school courses with end-of-course (EOC) assessments. The STAAR program is designed to measure to what extent a student has learned, understood, and is able to apply the concepts and skills expected at each grade level or after completing each course for which an EOC assessment exists. Each STAAR assessment is linked directly to the Texas Essential Knowledge and Skills (TEKS). The TEKS are the state-mandated content standards that describe what a student should know and be able to do upon completion of a course. For more information on the TEKS, see the *Texas Essential Knowledge and Skills* website at http://tea.texas.gov/curriculum/teks/.

Other Important Information:

STAAR (with and without accommodations) and STAAR Alternate 2. The TAPR and the Texas Performance Reporting System (TPRS) include performance on STAAR and STAAR Alternate 2.

Spanish STAAR. All STAAR assessments in grades 3, 4, and 5 are available in both English and Spanish. The TAPR and the TPRS include performance on the Spanish STAAR.

Rounding of STAAR results. STAAR performance shown on the TAPR and TPRS is rounded to whole numbers. For example, 49.877% is rounded to 50%; 49.4999% is rounded to 49%; and 59.5% is rounded to 60%.

Masking. STAAR performance rates are masked when necessary to comply with FERPA. For more information, see the Explanation of Masking at https://rptsvr1.tea.texas.gov/perfreport/account/2022/masking.html.

STAAR Performance (2021–22)

The STAAR Performance section displays performance results by grade, subject and performance level for students in the accountability subset, which are students enrolled in the same district/campus on both the snapshot date (PEIMS October snapshot) and the testing date. The STAAR Performance–All Students section of the TPRS displays STAAR performance by grade, subject, and performance level and includes all students tested, regardless of whether they were in the accountability subset.

STAAR:

Grade 3 – reading and mathematics

Grade 4 – reading and mathematics

Grade 5 – reading mathematics, and science

Grade 6 – reading and mathematics

Grade 7 – reading and mathematics

Grade 8 – reading, mathematics, science, and social studies

2021–22 Texas Academic Performance Report (TAPR) Glossary

End-of-Course (EOC):

English I

English II

Biology

U.S. History

Accelerated Testers:

SAT/ACT

Percentage at Approaches Grade Level or Above. The percentage of assessments that met or exceeded the Approaches Grade Level standard.

Percentage at Meets Grade Level or Above. The percentage of assessments that met or exceeded the Meets Grade Level standard.

Percentage at Masters Grade Level. The percentage of assessments that met the Masters Grade Level standard.

STAAR Performance Rate by Enrolled Grade at Meets Grade Level or Above on Both Reading and Mathematics. The percentage of students who took both the reading and mathematics STAAR and met or exceeded the Meets Grade Level standard on both assessments (excluding EOC assessments).

STAAR Performance Rate by Enrolled Grade at Meets Grade Level or Above on Both Reading and Mathematics Including EOC. The percentage of students who took both the reading and mathematics STAAR or EOC and met or exceeded the Meets Grade Level standard on both assessments.

STAAR Performance Rate by Enrolled Grade at Meets Grade Level or Above on Reading Including EOC. The percentage of students who took the reading STAAR or the English I or II EOC and met or exceeded the Meets Grade Level standard.

STAAR Performance Rate by Enrolled Grade at Meets Grade Level or Above on Mathematics Including EOC. The percentage of students who took the mathematics STAAR or the Algebra I EOC and met or exceeded the Meets Grade Level standard.

Progress (Academic Growth and STAAR Progress Measure)

School Progress Domain—Academic Growth Score. Growth score awarded in School Progress, Part A: Academic Growth for improving performance year over year as measured by STAAR progress measures and performance levels on STAAR.

STAAR Progress Measure Percent at Expected or Accelerated Growth. The percentage of assessments that met or exceeded the STAAR progress measure expectations. See Chapter 3 of the *2022 Accountability Manual* for more information.

STAAR Progress Measure Percent at Accelerated Growth. The percentage of assessments that exceeded the STAAR progress measure expectations. See Chapter 3 of the *2022 Accountability Manual* for more information.

2021–22 Texas Academic Performance Report (TAPR) Glossary

Percent of Students Maintaining or Improving Compared to Prior Year Performance Level. The percentage of students that maintained or improved their STAAR performance levels this year in comparison with last year. Students are included in the performance level achieved in the prior year.

Bilingual Education/ESL

Bilingual Education (BE): Dual-language program that enables emergent bilingual (EB) students/English learners (ELs) to become proficient in listening, speaking, reading, and writing in the English language through the development of literacy and academic skills in the primary language and English. This category includes the following:

- *BE Trans Early Exit*. Bilingual program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria to be successful in English-only instruction not earlier than two or later than five years after the student enrolls in school.
- *BE Trans Late Exit*. Bilingual program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school.
- *BE Dual Two-Way*. Bilingual/biliteracy program model in which students identified as EB students/ELs are integrated with non-EB/non-EL students and are served in both English and another language and are prepared to meet reclassification criteria in order to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school. This model provides ongoing instruction in literacy and academic content in English and another language with at least half of the instruction delivered in the non-English program language for the duration of the program.
- *BE Dual One-Way*. Bilingual/biliteracy program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria in order to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school. This model provides ongoing instruction in literacy and academic content in the students' primary language as well as English, with at least half of the instruction delivered in the students' primary language for the duration of the program.

English as a Second Language (ESL): An English acquisition program that enables emergent bilingual (EB) students/English learners (ELs) to become proficient in listening, speaking, reading, and writing in the English language through the integrated use of second language acquisition methods. This category includes the following:

- *ESL Content-Based*. An English acquisition program that serves students identified as EB students/ELs through English instruction by a teacher appropriately certified in ESL under TEC, §29.061(c), through English language arts and reading, mathematics, science, and social studies.
- *ESL Pull-Out*. An English program that serves students identified as EB students/ELs through English instruction provided by an appropriately certified ESL teacher under the TEC, §29.061(c),

through English language arts and reading. Instruction shall be provided by the ESL teacher in a pull-out or inclusionary delivery model.

Alternative Language Program (ALP): An alternative language program provided to emergent bilingual (EB) students/English learners (ELs) for whom the local education agency (LEA) does not have the appropriately certified teachers for the required bilingual education or English as a second language (ESL) program for the current school year. This category includes the following:

- *ALP Bilingual (Exception)*. An alternative language program to the required bilingual education (BE) program approved by the TEA for the current school year due to the LEA's submission of a bilingual education exception application.
- *ALP ESL (Waiver)*. An alternative language program to the required English as a second language (ESL) program approved by the TEA for the current school year due to the LEA's submission of an ESL waiver application.

Emergent Bilingual(EB) Students/English Learner (EL): The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. As a result of the 87th Texas Legislature, the term "emergent bilingual student" replaced the term of "limited English proficient (LEP) student" used in the Texas Education Code (TEC), Chapter 29, Subchapter B, and thus, will be changing the term of "English learner (EL)" used in 19 TAC Chapter 89, Subchapter BB. These terms describe the same group of Texas students. In the revised Texas Education Data Standards (TEDS), the terms of "emergent bilingual" and "English learner" have been bridged as EB/EL. The term "English learner" is still used in federal regulations and guidance. This category includes:

- *EB/EL with Parental Denial.* Students identified as emergent bilingual (EB) students/English learners (ELs) whose parents have denied all bilingual and ESL program services.
- *Never EB/EL.* Students who have never been identified as EB students/ELs (non-EB/non-EL students).
- *Total EB/EL (Current).* Students currently identified as EB students/ELs, including those served in a standard or alternative bilingual or ESL program as well as those with a parental denial of services.
- *Monitored & Former EB/EL.* Students who were once identified as EB students/ELs but have reclassified as English proficient, including students within their four years of state and federal monitoring and those beyond monitoring years.

STAAR Participation (2021–22)

The percentage of students who were administered a STAAR assessment, STAAR Alternate 2, Texas English Language Proficiency Assessment System (TELPAS), TELPAS Alternate, and/or an SAT/ACT. The details on the participation categories are as follows:

Assessment Participant: 1) number of answer documents with a score code of S, 2) number of STAAR Alternate 2 testers with a score code of N, 3) number of A or O reading answer documents with a scored TELPAS or TELPAS Alternate assessment, 4) number of A or O mathematics answer documents with a scored TELPAS or TELPAS alternate assessment for year 1 asylee/refugees and students with interrupted formal education (SIFEs), and 5) number of accelerated testers' EBRW SAT, ELA ACT assessments, ACT science, and mathematics SAT and ACT assessments.

- *Included in Accountability:* scored answer documents
  - *Accelerated Testers:* SAT/ACT results for students who completed STAAR end-of-course (EOC) assessments while in middle school
- *Not included in Accountability:* answer documents counted as participants but not included in performance calculations
  - *Mobile:* answer documents were excluded because the students enrolled in the district or campus after the TSDS PEIMS fall snapshot.
  - *Other Exclusions.* The following answer documents were excluded from performance calculations:
    - Answer documents for students who were tested only on the TELPAS/TELPAS Alternate or TELPAS/TELPAS Alternate plus STAAR assessments with score codes of A or O.
    - Answer documents of students who are an Emergent Bilingual/English learner (EB/EL) who has been in school in the U.S. for one year.
    - Answer documents of STAAR Alternate 2 testers with a score code of N.

Not Tested: answer documents with score codes A or O or accelerated testers without an SAT/ACT assessment

- *Absent:* answer documents with score code A
- *Other:* answer documents with score code O

The denominator for participation is the sum of these five categories: Included in Accountability, Mobile, Other Exclusions, and Not Tested (Absent and Other). STAAR Participation Rate is rounded to a whole number. For example, 94.49% is rounded to 94%. Small values may show as zero: 0.4% is rounded to 0%, and 0.6% is rounded to 1%. (Data source: STAAR and TELPAS File)

Attendance, Graduation, and Dropout Rates (2021–22)

Attendance Rate: The percentage of days that students were present based on student attendance for the entire school year. Only students in grades 1–12 are included in the calculation.

Attendance is calculated as follows:

$$\frac{\textbf{total number of days that students in grades 1–12 were present during the 2020–21 school year}}{\textbf{total number of days that students in grades 1–12 were in membership during the 2020–21 school year}}$$

(Data source: PEIMS 42400)

Chronic Absenteeism: The unduplicated number of K–12 students enrolled for at least 10 days and absent for 10 percent or more days. Chronic Absenteeism is calculated as follows:

$$\frac{\textbf{total number of K–12 students enrolled for at least 10 days and absent for 10 percent or more days during the 2020–21 school year}}{\textbf{total number of K–12 students enrolled for at least 10 days during the 2020–21 school year}}$$

(Data source: PEIMS 42400)

Annual Dropout Rate: The percentage of students who drop out of school during a school year. Annual dropout rates are shown for districts and campuses that serve grades 7–8 and/or 9–12. State law prohibits including a student who meets any of the following criteria from campus and district annual dropout rate calculations:

- Is ordered by a court to attend a high school equivalency certificate program but has not earned a high school equivalency certificate
- Was previously reported to the state as a dropout
- Was in attendance but not in membership for purposes of average daily attendance (i.e., students for whom school districts are not receiving state Foundation School Program [FSP] funds)
- Was initially enrolled in a school in the United States in any grade 7 through 12 as an unschooled refugee or asylee as defined by TEC §39.027(a-1)
- Attends a district exclusively as a function of having been detained at a county detention facility and is not otherwise a student of the district in which the facility is located or is being provided services by an open-enrollment charter school exclusively as the result of having been detained at the facility
- Is incarcerated in a state jail or federal penitentiary as an adult or as a person certified to stand trial as an adult
- Is a student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district
- Is at least 18 years of age as of September 1 and has satisfied the credit requirements for high school graduation; has not completed his or her individualized education program (IEP); and is enrolled and receiving IEP services

Annual Dropout Rate (Gr 7–8). This includes only grades 7 and 8. It is calculated as follows:

$$\frac{\textbf{number of dropouts in grades 7 and 8 during the 2020–21 school year}}{\textbf{number of students in grades 7 and 8 in attendance at any time during the 2020–21 school year}}$$

Annual Dropout Rate (Gr 9–12). This includes grades 9 through 12. It is calculated as follows:

$$\frac{\textbf{number of dropouts in grades 9–12 during the 2020–21 school year}}{\textbf{number of students in grades 9–12 in attendance at any time during the 2020–21 school year}}$$

2021–22 Texas Academic Performance Report (TAPR) Glossary

Both annual dropout rates appear on campus, district, region, and state TAPRs. The state and region annual dropout rates that are reported on district and campus TAPRs, however, are calculated without the exclusions required for campus and district calculations.

Note that with all annual dropout rate calculations, a cumulative count of students is used in the denominator. This method for calculating the dropout rate neutralizes the effect of mobility by including in the denominator every student ever reported in attendance at the district or campus throughout the school year, regardless of length of enrollment. For a more complete description of dropout rates and exclusions, see the *Secondary School Completion and Dropouts in Texas Public Schools, 2020–21* reports, available on the TEA website at http://tea.texas.gov/acctres/dropcomp_index.html.

For detailed information on data sources, see Appendix H in the *2022 Accountability Manual (Data source: PEIMS 40203, 40110, 42400, and 42500)*

Longitudinal Rates: The status of a group (cohort) of students after four years in high school (*4-Year Longitudinal Rate*), after five years in high school (*5-Year Extended Longitudinal Rate*), or after six years in high school (*6-Year Extended Longitudinal Rate*).

For the *4-Year Longitudinal Rate,* the cohort consists of students who first attended ninth grade in 2017–18. They are followed through their expected graduation with the Class of 2021.

For the *5-Year Extended Longitudinal Rate,* the cohort consists of students who first attended ninth grade in 2016–17. They are followed for five years and included if they graduated within a year after their expected graduation with the Class of 2020.

For the *6-Year Extended Longitudinal Rate,* the cohort consists of students who first attended ninth grade in 2015–16. They are followed for six years and included if they graduated within two years after their expected graduation with the Class of 2019.

Additional Information on Cohorts:

A student transfers into a campus, district, or state cohort when he or she moves into the cohort from another high school in Texas, from another district in Texas, or from out of state.

A student transfers out of a campus or district cohort when he or she moves to another public high school in Texas or moves to another district in Texas. Note that these students are transferred into the cohort of the high school or district to which they moved. There are also students who move out of state or out of the country and students who transfer to private schools or who are home-schooled. These types of transfer students cannot be tracked and are not included in longitudinal rate calculations.

A student does not change cohorts if he or she repeats or skips a grade. A student who begins with the 2017–18 ninth-grade cohort remains with that cohort. A student who started the ninth grade in 2017–18 but takes 5 years to graduate (i.e., graduates in May 2022) is still part of the 2021 cohort; he or she is not switched to the 2022 cohort. This student would be considered a continuing student and counted as part of the Continued HS number for the Class of 2021. This is also true for the five-year and six-year extended longitudinal cohorts.

There are four student outcomes used in computing each longitudinal rate:

2021–22 Texas Academic Performance Report (TAPR) Glossary

4-Year Longitudinal Rate

(1) *Graduated:* The percentage who received their high school diploma in four years or fewer by August 31, 2021 for the 2021 cohort.

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2021}}{\textbf{number of students in the 2021 cohort*}}$$

(2) *Received TxCHSE:* For the 2021 cohort, the percentage who received a Texas high school equivalency certificate by August 31, 2021. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who received a TxCHSE by August 31, 2021}}{\textbf{number of students in the 2021 cohort*}}$$

(3) *Continued High School:* The percentage of the 2021 cohort still enrolled as students in the fall after his or her anticipated graduation.. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who were enrolled in the fall of the 2021–22 school year}}{\textbf{number of students in the 2021 cohort*}}$$

(4) *Dropped Out:* The percentage of the 2021 cohort who dropped out and did not return by the fall of the 2021–22 school year. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who dropped out before fall of the 2021–22 school year}}{\textbf{number of students in the 2021 cohort*}}$$

(5) *Graduates & TxCHSE:* The percentage of graduates and TxCHSE recipients in the 2021 cohort. It is calculated as follows:

$$\frac{\textbf{number of students from the 2021 cohort who received a high school diploma by August 31, 2021 plus number of students from the cohort who received a TxCHSE by August 31, 2021}}{\textbf{number of students in the 2021 cohort*}}$$

(6) *Graduates, TxCHSE & Continuers:* The percentage of graduates, TxCHSE recipients, and continuers in the 2021 cohort. It is calculated as follows:

$$\frac{\text{number of students from the cohort who received a high school diploma by August 31, 2021 plus number of students from the cohort who received a TxCHSE by August 31, 2021 plus number of students from the cohort who were enrolled in the fall of the 2021–22 school year}}{\text{number of students in the 2021 cohort*}}$$

5-Year Extended Longitudinal Rate

(1) *Graduated:* The percentage who received their high school diploma by August 31, 2021, for the 2020 cohort. It is calculated as follows:

$$\frac{\text{number of students from the cohort who received a high school diploma by August 31, 2021}}{\text{number of students in the 2020 cohort*}}$$

(2) *Received TxCHSE:* For the 2020 cohort, the percentage who received a TxCHSE certificate by August 31, 2021. It is calculated as follows:

$$\frac{\text{number of students from the cohort who received a TxCHSE by August 31, 2021}}{\text{number of students in the 2020 cohort*}}$$

(3) *Continued High School:* The percentage of the 2020 cohort still enrolled as students in the fall of the **2021–22** school year. It is calculated as follows:

$$\frac{\text{number of students from the cohort who were enrolled in the fall of the 2021–22 school year}}{\text{number of students in the 2020 cohort*}}$$

(4) *Dropped Out:* The percentage of the 2020 cohort who dropped out and did not return by the fall of the **2021–22** school year. It is calculated as follows:

$$\frac{\text{number of students from the cohort who dropped out before fall of the 2021–22 school year}}{\text{number of students in the 2020 cohort*}}$$

(5) *Graduates & TxCHSE:* The percentage of graduates and TxCHSE recipients in the 2020 cohort. It is calculated as follows:

$$\frac{\text{number of students from the cohort who received a high school diploma by August 31, 2021 plus number of students from the cohort who received a TxCHSE by August 31, 2021}}{\text{number of students in the 2020 cohort*}}$$

(6) *Graduates, TxCHSE & Continuers:* The percentage of graduates, TxCHSE recipients, and continuers in the 2020 cohort. It is calculated as follows:

$$\frac{\text{number of students from the cohort who received a high school diploma by August 31, 2021 plus number of students from the cohort who received a TxCHSE by August 31, 2021 plus number of students from the cohort who were enrolled in the fall of the 2021–22 school year}}{\text{number of students in the2020 cohort*}}$$

6-year Extended Longitudinal Rate

(1) *Graduated:* The percentage who received their high school diploma by August 31, 2021, for the 2019 cohort. It is calculated as follows:

$$\frac{\text{number of students from the cohort who received a high school diploma by August 31, 2021}}{\text{number of students in the 2019 cohort*}}$$

(2) *Received TxCHSE:* For the 2019 cohort, the percentage who received a TxCHSE certificate by August 31, 2021. It is calculated as follows:

$$\frac{\text{number of students from the cohort who received a TxCHSE by August 31, 2021}}{\text{number of students in the 2019 cohort*}}$$

(3) *Continued High School:* The percentage of the 2019 cohort still enrolled as students in the fall of the **2021–22** school year. It is calculated as follows:

$$\frac{\text{number of students from the cohort who were enrolled in the fall of the 2021–22 school year}}{\text{number of students in the 2019 cohort*}}$$

(4) *Dropped Out:* The percentage of the 2019 cohort who dropped out and did not return by the fall of the **2021–22** school year. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who dropped out before fall of the 2021–22 school year}}{\textbf{number of students in the 2019 cohort*}}$$

(5) *Graduates & TxCHSE.* The percentage of graduates and TxCHSE recipients in the 2019 cohort. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2021 plus number of students from the cohort who received a TxCHSE by August 31, 2021}}{\textbf{number of students in the 2019 cohort*}}$$

(6) *Graduates, TxCHSE & Continuers.* The percentage of graduates, TxCHSE recipients, and continuers in the 2019 cohort. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2021 plus number of students from the cohort who received a TxCHSE by August 31, 2021 plus number of students from the cohort who were enrolled in the fall of the 2021–22 school year}}{\textbf{number of students in the 2019 cohort*}}$$

* The cohort in the denominator of the formulas shown above includes those students who graduated, continued in school, received a TxCHSE, or dropped out. It does not include data errors or leavers with the leaver reason codes 03, 16, 24, 60, 66, 78, 81, 82, 83, 85, 86, 87, 88, 89 or 90. See *Annual Dropout Rate* for a list of all the exclusions mandated by state statute for districts and campuses.

The graduation, continuation, TxCHSE recipient, and dropout rates sum to 100% (some totals may not equal exactly 100% due to rounding). Students served through special education who graduate with an individualized education program (IEP) are included as graduates.

Additional Information about Federal Graduation Rates

In addition to the detailed breakdown of the four-, five- and six-year longitudinal rates, the district and campus reports show federal graduation rates for the following:

2021–22 Texas Academic Performance Report (TAPR) Glossary

(1) *4-Year Federal Graduation Rate.* Cohort of students who first attended ninth grade in 2017–18. They are followed through their expected graduation with the Class of 2021. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2021}}{\textbf{number of students in the 2021 cohort **}}$$

(2) *5-Year Extended Federal Graduation Rate.* Cohort of students who first attended ninth grade in 2016–17. They are followed for five years to see if they graduated within a year after their expected graduation with the Class of 2020. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2021}}{\textbf{number of students in the 2020 cohort**}}$$

(3) 6-*Year Extended Federal Graduation Rate.* Cohort of students who first attended ninth grade in 2015–16. They are followed for six years to see if they graduated within two years after their expected graduation with the Class of 2019. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2021}}{\textbf{number of students in the 2019 cohort**}}$$

** The cohort in the denominator above includes those students who graduated, continued in school, received a TxCHSE, or dropped out. It does not include data errors or leavers with leaver reason codes 03, 16, 24, 60, 66, 78, 81, 82, 83, 85, 86, 87, or 90. Students with leaver codes 88 and 89 are included in the federal rates.

A student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district is excluded from district and campus graduation rates calculated for federal accountability purposes. Students served by special education who graduate with an individualized education program (IEP) are included as graduates.

For further information on these rates, see the report *Secondary School Completion and Dropouts in Texas Public Schools, 2020–21 (Data source: PEIMS 40203 and Texas Certificate of High School Equivalency Information File)*

2021–22 Texas Academic Performance Report (TAPR) Glossary

Graduation Program: The percentage of students who graduated under one of the following programs:

RHSP/DAP Graduates (Longitudinal Rate) (Class of 2021) The percentage of graduates who, after four years, satisfied the course requirements for the Recommended High School Program or Distinguished Achievement Program.

$$\frac{\textbf{number of graduates in the Class of 2021 who complete a 4-year RHSP or DAP}}{\textbf{number of graduates in the Class of 2021 with reported graduation plans (excludes graduates with FHSP degree plans)}}$$

FHSP-E Graduates (Longitudinal Rate) The percentage of graduates who, after four years, satisfied the course requirements for the Foundation High School Program with an endorsement.

$$\frac{\textbf{number of graduates in the Class of 2021 who complete a 4-year FHSP-E}}{\textbf{number of graduates in the Class of 2021 with reported FHSP graduation plans}}$$

FHSP-DLA Graduates (Longitudinal Rate) The percentage of graduates who, after four years, satisfied the course requirements for the Foundation High School Program at the distinguished level of achievement.

$$\frac{\textbf{number of graduates in the Class of 2021 who complete a 4-year FHSP-DLA}}{\textbf{number of graduates in the Class of 2021 with reported FHSP graduation plans}}$$

RHSP/DAP/FHSP-E/FHSP-DLA Graduates (Longitudinal Rate) The percentage of graduates who, after four years, satisfied the course requirements for the Recommended High School Program, Distinguished Achievement Program, or the Foundation High School Program with an endorsement or at the distinguished level of achievement.

$$\frac{\textbf{number of graduates in the Class of 2021 who complete a 4-year RHSP or DAP or FHSP-E or FHSP-DLA}}{\textbf{number of graduates in the Class of 2021 with reported graduation plans}}$$

RHSP/DAP Graduates (Annual Rate) (2020-21) The percentage of graduates who satisfied the course requirements for the Recommended High School Program or Distinguished Achievement Program.

$$\frac{\textbf{number of graduates in SY 2020-21 reported with graduation codes for RHSP or DAP}}{\textbf{number of graduates in SY 2020-21 with reported graduation plans (excludes graduates with FHSP degree plans)}}$$

2021–22 Texas Academic Performance Report (TAPR) Glossary

FHSP-E Graduates (Annual Rate) (2020–21) The percentage of graduates who satisfied the course requirements for the Foundation High School Program with an endorsement.

$$\frac{\textbf{number of graduates in SY 2020–21 who earn an FHSP-E}}{\textbf{number of graduates in SY 2020–21 with reported FHSP graduation plans}}$$

FHSP-DLA Graduates (Annual Rate) (2020–21) The percentage of graduates who satisfied the course requirements for the Foundation High School Program at the distinguished level of achievement.

$$\frac{\textbf{number of graduates in SY 2020–21who earn an FHSP-DLA}}{\textbf{number of graduates in SY 2020–21with reported FHSP graduation plans}}$$

RHSP/DAP/FHSP-E/FHSP-DLA Graduates (Annual Rate) (2020–21) The percentage of graduates who satisfied the course requirements for the Recommended High School Program, Distinguished Achievement Program, or at the Foundation High School Program with an endorsement or the distinguished level of achievement.

$$\frac{\textbf{number of graduates in SY 2020–21 reported with graduation codes for RHSP or DAP or FHSP-E or FHSP-DLA}}{\textbf{number of graduates in SY 2020–21 with reported graduation plans}}$$

RHSP graduates have graduation type codes of 19, 22, 25, 28, or 31; DAP graduates have graduation type codes of 20, 23, 26, 29, or 32; FHSP graduates are students with graduation type codes of 34, 35, 54, 55, 56, or 57. FHSP graduates with code type 35 are eligible for endorsements starting with the Class of 2021. See the Texas Education Data Standards for more information. *(Data source: PEIMS 40203)*

For additional information about graduation programs please see https://tea.texas.gov/Academics/Graduation_Information/State_Graduation_Requirements.

Graduation Profile (2021–22)

Annual Graduates: The count and percentage of students who graduate at some time during the school year. It includes summer graduates and is reported by districts in the fall of the following school year. It includes all students in grade 12 who graduated, as well as graduates from other grades. Students served by special education who graduate are included in the totals. Counts of students graduating under the following graduation types in 2020–21are also shown:

- Minimum High School Program (MHSP)
- Recommended High School Program (RHSP)
- Distinguished Achievement Program (DAP)
- Foundation High School Program (FHSP)

(Data source: PEIMS 40203)

2021–22 Texas Academic Performance Report (TAPR) Glossary

Special Education: The population of students served by special education programs. *(Data source: PEIMS 41163)*

Economically Disadvantaged: The count and percentage of students eligible for free or reduced-price lunch or eligible for other public assistance. *(Data source: PEIMS 40100 and STAAR*)

$$\frac{\textbf{number of students in the 2020–21 school year eligible for free or reduced-price lunch or other public assistance}}{\textbf{total number of students}}$$

Limited English Proficient (LEP): The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. The terms "Emergent Bilingual", "English learner" and "Limited English Proficient" (LEP) are used interchangeably. *(Data source: PEIMS 40110)*

At-Risk: The count and percentage of students identified as being at risk of dropping out of school as defined by TEC §29.081(d) and (d-1). *(Data source: PEIMS 40100)*

$$\frac{\textbf{number of students in the 2020–21 school year considered as at risk}}{\textbf{total number of students}}$$

College, Career, or Military* Readiness (CCMR) (2021–22)

Annual graduates demonstrate college, career, or military readiness in any one of the following ways:

College Readiness

1) **Texas Success Initiative (TSI) Criteria:** A graduate meeting the TSI college readiness standards in both ELA/reading and mathematics; specifically, meeting the college-ready criteria on the TSIA1 and/or TSIA2 assessment, SAT, ACT, or by successfully completing and earning credit for a college prep course as defined in TEC §28.014, in both ELA and mathematics. The assessment results considered include TSIA1 and/or TSIA2 assessments through October 2021, SAT and ACT results through the July 2021 administration, and course completion data via TSDS PEIMS. *(Data source: PEIMS 43415, THECB, College Board, and ACT, Inc.)*
2) **Earn Dual Course Credits:** A graduate completing and earning credit for at least three credit hours in ELA or mathematics or at least nine credit hours in any subject. *(Data source: PEIMS 43415)*
3) **Meet Criteria on Advanced Placement (AP)/International Baccalaureate (IB) Examination:** A graduate meeting the criterion score on an AP or IB examination in any subject area. Criterion score is 3 or more for AP and 4 or more for IB. *(Data source: College Board or IB)*
4) **Earn an Associate Degree:** A graduate earning an associate degree by August 31 immediately following high school graduation. *(Data source: PEIMS 40100)*

5) **Earn OnRamps Course Credits:** A graduate completing an OnRamps dual enrollment course and qualifying for at least three hours of university or college credit in any subject area. *(Data source: OnRamps program)*

Career/Military Readiness

6) **Earn an Industry-Based Certification:** A graduate earning an industry-based certification under 19 TAC §74.1003. *(Data source: PEIMS 40100)*

7) **Graduate with Completed IEP and Workforce Readiness:** A graduate receiving a graduation type code of 04, 05, 54, or 55 which indicates the student has completed his/her IEP and has either demonstrated self-employment with self-help skills to maintain employment or has demonstrated mastery of specific employability and self-help skills that do not require public school services. *(Data source: PEIMS 40203)*

8) **Graduates under an Advanced Degree Plan and Identified as a current Special Education Student:** A graduate who graduates under an advanced degree plan and is identified as a current special education student (*Data source: PEIMS 40203 and 40110)*

9) **Graduate with Level I or Level II Certificate:** A graduate earning a level I or level II certificate in any workforce education area. *(Data source: THECB)*

10) ***Enlist in the Armed Forces:** A graduate enlisting in the U.S. Army, Navy, Air Force, Coast Guard, or Marines. *(Data source: PEIMS 40203)*

**Due to discrepancies between annual enlistment counts for Texas military enlistees aged 17–19 released by the United States Department of Defense and PEIMS military enlistment data for 2017 and 2018 annual graduates, military enlistment data is excluded from accountability calculations until such data can be obtained directly from the United States Armed Forces. Enlistment data reported in PEIMS for 2020 and 2021 annual graduates is included for indicators displaying military readiness.*

2021–22 Texas Academic Performance Report (TAPR) Glossary

College, Career, or Military Ready Graduates

College, Career, or Military Ready (Student Achievement): The percentage of annual graduates who demonstrated college, career, or military readiness by meeting at least one of the nine criteria described in *College, Career, or Military Readiness.*

Only College Ready: The percentage of annual graduates who demonstrated only college readiness by meeting college ready criteria 1, 2, 3, 4, or 5 but did not meet any of the career and military ready criteria 6, 7, 8, or 9 described in *College, Career, or Military Readiness.*

Only Career/Military Ready: The percentage of annual graduates who demonstrated only career or military readiness by meeting career or military ready criteria 6, 7, 8, or 9 but did not meet any of the college ready criteria 1, 2, 3, 4, and 5 described in *College, Career, or Military Readiness.*

College Ready Graduates

College Ready: The percentage of annual graduates who demonstrated college readiness by meeting criteria 1, 2, 3, 4, or 5 described in *College, Career, or Military Readiness*. This percentage includes graduates who may have met career or military ready criteria 6, 7, 8, or 9. *(Data source: PEIMS 43415, THECB, College Board, ACT, IB, and PEIMS 49010)*

TSI Criteria Graduates: The percentage of annual graduates who met or exceeded the college-ready criteria on the Texas Success Initiative Assessment (TSIA1 and/or TSIA2), the SAT, ACT, or by successfully completing and earning credit for a college prep course as defined in TEC §28.014, in both ELA and mathematics. The criteria for each are as follows:

TSI Criteria						
TSIA1 and/or TSIA2		SAT		ACT		College Prep Course
>= ELAR criteria shown below	**or**	>=480 on the Evidence-Based Reading and Writing (EBRW)	**or**	>=19 on English **and** >= 23 Composite	**or**	Complete and earn credit for ELA college prep course
>= Mathematics criteria shown below	**or**	>=530 on Mathematics	**or**	>=19 on Mathematics **and** >=23 Composite	**or**	Complete and earn credit for mathematics college prep course

2021–22 Texas Academic Performance Report (TAPR) Glossary

The percentages are calculated as follows:

English Language Arts.

$$\frac{\textbf{number of 2020-21 annual graduates who met or exceeded the college-ready criteria on the TSIA1 and/or TSIA2, SAT, ACT, or by successfully completing and earning credit for a college prep course in ELA}}{\textbf{number of 2020-21 annual graduates}}$$

Mathematics.

$$\frac{\textbf{number of 2020-21 annual graduates who met or exceeded the college-ready criteria on the TSIA1 and/or TSIA2, SAT, ACT, or by successfully completing and earning credit for a college prep course in mathematics}}{\textbf{number of 2020-21 annual graduates}}$$

Both Subjects.

$$\frac{\textbf{number of 2020-21 annual graduates who met or exceeded the college-ready criteria on the TSIA1 and/or TSIA2, SAT, ACT, or by successfully completing and earning credit for a college prep course in both ELA and mathematics}}{\textbf{number of 2020-21 annual graduates}}$$

Any Subject.

number of 2020-21 annual graduates who met or exceeded the college-ready criteria on the TSIA1 and/or TSIA2, SAT, ACT, or by successfully completing and earning credit for a college prep course in ELA or mathematics

---

number of 2020-21 annual graduates

AP/IB Criteria Met in Any Subject: The percentage of annual graduates who earned a 3 or more on an AP examination or a 4 or more on an IB examination. *(Data source: College Board and IB)*

number of 2020-21 annual graduates who earned a 3 or more on an AP examination or a 4 or more on an IB examination

---

number of 2020-21 annual graduates

Associate Degree: The percentage of annual graduates who earned an associate degree by August 31 immediately following high school graduation.. *(Data source: PEIMS 40100)*

number of 2020-21 annual graduates who earned an associate degree by August 31 immediately following high school graduation.

---

number of 2020-21 annual graduates

Dual Course Credits: A graduate completing and earning credit for at least three credit hours in ELA or mathematics or at least nine credit hours in any subject. *(Data source: PEIMS 43415)*

number of 2020-21 annual graduates who completed and earned credit for nine or more hours of dual credit in any subject or three or more hours in ELA or mathematics

---

number of 2020-21 annual graduates

OnRamps Course Credits: The percentage of annual graduates who completed an OnRamps dual enrollment course and qualified for at least three hours of university or college credit in any subject area *(Data source: OnRamps program)*

number of 2020-21 annual graduates who completed an OnRamps course and qualified for three hours of college credit before graduation

---

number of 2020-21 annual graduates

Career/Military Ready Graduates

Career or Military Ready Graduates: The percentage of annual graduates who demonstrated career or military readiness by meeting criteria 6, 7, 8, or 9 described in *College, Career, or Military Readiness*. This percentage includes graduates who may have met college ready criteria 1, 2, 3, 4, or 5.

Approved Industry-Based Certification: The percentage of annual graduates who earned an approved industry-based certification. For additional information, see Chapter 2 of the *2022 Accountability Manual*. *(Data source: PEIMS 48011)*

2021–22 Texas Academic Performance Report (TAPR) Glossary

$$\frac{\text{number of 2020-21 annual graduates who earned an approved industry-based certification}}{\text{number of 2020-21 annual graduates}}$$

Graduate with Level I or Level II Certificate: The percentage of annual graduates who earned a level I or level II certificate *(Data source: THECB)*

$$\frac{\text{number of 2020-21 annual graduates who earned a level I or level II certificate}}{\text{number of 2020-21 annual graduates}}$$

Graduate with Completed IEP and Workforce Readiness: The percentage of annual graduates who received a graduation type code of 04, 05, 54, or 55. For additional information, see Chapter 2 of the *2022 Accountability Manual*. *(Data source: PEIMS 40203)*

$$\frac{\text{number of 2020-21 annual graduates who received a graduation type code of 04, 05, 54, or 55}}{\text{number of 2020-21 annual graduates}}$$

Graduate Under an Advanced Degree Plan and be Identified as a Current Special Education Student: The percentage of annual graduates under an advanced degree plan and identified as a current special education student *(Data source: PEIMS 40203 and 42401)*

$$\frac{\text{number of 2020-21 annual graduates who graduated under an advanced degree plan and were identified as a current special education student}}{\text{number of 2020-21 annual graduates}}$$

CCMR-related Indicators (2021–22)

TSIA Results (Graduates >= Criterion) (Annual Graduates): The percentage of annual graduates who met the TSI criteria on the TSIA1 and/or TSIA2 *(Data source: THECB and PEIMS 40203)*

English Language Arts.

$$\frac{\text{number of 2020-21 annual graduates who met or exceeded the college-ready criteria on the TSIA1 and/or TSIA2 in ELA}}{\text{number of 2020-21 annual graduates}}$$

Mathematics.

$$\frac{\text{number of 2020-21 annual graduates who met or exceeded the college-ready criteria on the TSIA1 and/or TSIA2 in mathematics}}{\text{number of 2020-21 annual graduates}}$$

Both Subjects.

$$\frac{\text{number of 2020-21 annual graduates who met or exceeded the college-ready criteria on the TSIA1 and/or TSIA2 in both ELA and mathematics}}{\text{number of 2020-21 annual graduates}}$$

2021–22 Texas Academic Performance Report (TAPR) Glossary

Completed and Received Credit for College Prep Courses (Annual Graduates): The percentage of annual graduates who completed and earned credit for a college prep course as defined in TEC §28.014 in either ELA or mathematics or both. *(Data source: PEIMS 43415)*

English Language Arts.

number of 2020-21 annual graduates who completed and earned credit for a college prep course as defined in TEC §28.014 in ELA

number of 2020-21 annual graduates

Mathematics.

number of 2020-21 annual graduates who completed and earned credit for a college prep course as defined in TEC §28.014 in mathematics

number of 2020-21 annual graduates

Both Subjects.

number of 2020-21 annual graduates who completed and earned credit for a college prep course as defined in TEC §28.014 in ELA and mathematics

number of 2020-21 annual graduates

AP/IB Results (Participation) (Grades 11–12): The percentage of students in grades 11 and 12 who took the College Board's Advanced Placement (AP) examinations or the International Baccalaureate's (IB) examinations. *(Data source: College Board and IB)*

All Subjects

number of students in grades 11 & 12 in the 2020-21 school year who took at least one AP or IB examination

total students enrolled in grades 11 & 12

English Language Arts

number of students in grades 11 & 12 in the 2020-21 school year who took at least one AP or IB examination in ELA

total students enrolled in grades 11 & 12

Mathematics

number of students in grade 11 & 12 in the 2020-21 school year who took at least one AP or IB examination in mathematics

total students enrolled in grades 11 & 12

Science

number of students in grade 11 & 12 in the 2020-21 school year who took at least one AP or IB examination in science

total students enrolled in grades 11 & 12

Social Studies

number of students in grade 11 & 12 in the 2020-21 school year who took at least one AP or IB examination in social studies

total students enrolled in grades 11 & 12

(Data source: College Board, IB, and PEIMS 40110)

AP/IB Results (Examinees >= Criterion) (Grades 11–12): The percentage of students with at least one AP or IB examination in grades 11 and 12 at or above the criterion score. High school students may take one or more of these examinations, ideally upon completion of AP or IB courses, and may receive advanced placement or credit, or both, upon entering college. Generally, colleges will award credit or advanced placement for scores of 3, 4, or 5 on AP examinations and scores of 4, 5, 6, or 7 on IB examinations. Requirements vary by college and by subject tested. *(Data source: College Board and IB)*

All Subjects

number of 11th and 12th graders in the 2020-21 school year with at least one AP or IB score at or above criterion

number of 11th and 12th graders with at least one AP or IB examination

English Language Arts

number of 11th and 12th graders in the 2020-21 school year with at least one AP or IB score at or above criterion in ELA

number of 11th and 12th graders with at least one AP or IB examination in ELA

Mathematics

number of 11th and 12th graders in the 2020-21 school year with at least one AP or IB score at or above criterion in mathematics

number of 11th and 12th graders with at least one AP or IB examination in mathematics

Science

number of 11th and 12th graders in the 2020-21 school year with at least one AP or IB score at or above criterion in science

number of 11th and 12th graders with at least one AP or IB examination in science

Social Studies

number of 11th and 12th graders in the 2020-21 school year with at least one AP or IB score at or above criterion in social studies

number of 11th and 12th graders with at least one AP or IB examination in social studies

(Data source: The College Board, The International Baccalaureate Organization, and PEIMS 40110)

AP/IB Results (11th & 12th Graders >= Criterion): The percentage of students enrolled in grades 11 and 12 with at least one AP or IB score at or above the criterion score. This denominator includes students enrolled in grades 11 and 12 who did not take AP or IB examination. High school students may take one or more of these examinations, ideally upon completion of AP or IB courses, and may receive advanced placement or credit, or both, upon entering college. Generally, colleges will award credit or advanced placement for scores of 3, 4, or 5 on AP examinations and scores of 4, 5, 6, or 7 on IB examinations. Requirements vary by college and by subject tested. *(Data source: College Board and IB)*

2021–22 Texas Academic Performance Report (TAPR) Glossary

All Subjects

$$\frac{\text{number of 11th and 12th graders in the 2020-21 school year with at least one AP or IB score at or above criterion}}{\text{total students enrolled in 11th and 12th grades}}$$

SAT/ACT Results (Annual Graduates): Participation and performance of annual graduates from all Texas public schools on the College Board's SAT and ACT, Inc.'s ACT assessment. ACT and SAT scores are based on each student's highest section scores across all exams taken, and the SAT total and ACT composite scores are calculated using the highest section scores.

(1) *Tested:* The percentage of graduates who took either college admissions assessment:

$$\frac{\text{number of 2020-21 graduates who took either the SAT or the ACT}}{\text{number of 2020-21 graduates reported}}$$

(2) *At/Above Criterion for All Graduates:* The percentage of graduates who scored at or above the criterion score of 480 on the SAT evidence-based reading and writing *or* 19 on ACT English section and 23 composite *and* 530 on SAT mathematics *or* 19 on ACT Mathematics section and 23 on the ACT composite:

$$\frac{\text{number of 2020-21 graduating examinees who scored at or above the criterion score on either the SAT or the ACT}}{\text{number of 2020-21 graduates reported}}$$

Average SAT Score (Annual Graduates): Performance of annual graduates from all Texas public schools on the College Board's SAT assessment. If a student takes the SAT more than once, the best result by subject area is selected, and the SAT total is calculated as the sum of the highest section scores.

(1) *All Subjects:* The average score for the SAT evidence-based reading and writing and mathematics combined. The maximum score is 1600.

$$\frac{\text{sum of SAT total scores (evidence-based reading and writing + mathematics) of all 2020-21 graduates who took the SAT}}{\text{number of 2020-21 graduates who took the SAT}}$$

(2) *English Language Arts and Writing:* The average score for the SAT evidence-based reading and writing. The maximum score is 800.

$$\frac{\text{sum of SAT evidence-based reading and writing scores of all 2020-21 graduates who took the SAT}}{\text{number of 2020-21 graduates who took the SAT}}$$

(3) *Mathematics:* The average score for the SAT mathematics. The maximum score is 800.

$$\frac{\text{sum of SAT mathematics scores of all 2020-21 graduates who took the SAT}}{\text{number of 2020-21 graduates who took the SAT}}$$

(Data source: College Board and PEIMS 40203)

2021–22 Texas Academic Performance Report (TAPR) Glossary

Average ACT Score (Annual Graduates): Performance of annual graduates from all Texas public schools on the ACT Inc.'s ACT assessment. If a student takes the ACT more than once, the best result by subject area is selected, and the ACT composite scores is calculated as the average of the highest section scores.

(1) *All Subjects:* The average score for the ACT composite. The maximum score is 36.

$$\frac{\text{sum of ACT composite scores of all 2020-21 graduates who took the ACT}}{\text{number of 2020-21 graduates who took the ACT}}$$

(2) *English Language Arts:* The average score for the ACT English and reading combined. The maximum score is 36.

$$\frac{\text{sum of ACT English and reading combined scores of all 2020-21 graduates who took the ACT}}{\text{number of 2020-21 graduates who took the ACT}}$$

(3) *Mathematics:* The average score for the mathematics ACT. The maximum score is 36.

$$\frac{\text{sum of ACT mathematics scores of all 2020-21 graduates who took the ACT}}{\text{number of 2020-21 graduates who took the ACT}}$$

(4) *Science:* The average score for the science ACT. The maximum score is 36.

$$\frac{\text{sum of ACT science scores of all 2020-21 graduates who took the ACT}}{\text{number of 2020-21 graduates who took the ACT}}$$

Advanced/Dual-Credit Course Completion (Grades 9–12): The percentage of students who completed and received credit for at least one advanced or dual-credit course. Decisions about awarding high school credit for college courses are described in Texas Administrative Code §74.25.

Appendix A lists all courses identified as advanced courses. Courses for which a student can earn dual credit are not listed because they vary from campus to campus.

Course completion information is reported by districts through the PEIMS after the close of the school year. For example, the values, expressed as percentages for grades 9–12, are calculated as follows: *(Data source: PEIMS 43415)*

Any Subject

$$\frac{\text{number of students in grades 9–12 in 2020-21 who received credit for at least one advanced/dual-credit course}}{\text{number of students in grades 9–12 who received credit for at least one course in 2020-21}}$$

English Language Arts

$$\frac{\text{number of students in grades 9–12 in 2020-21 who received credit for at least one ELA advanced/dual-credit course}}{\text{number of students in grades 9–12 who received credit for at least one ELA course in 2020-21}}$$

Mathematics

$$\frac{\text{number of students in grades 9–12 in 2020-21 who received credit for at least one mathematics advanced/dual-credit course}}{\text{number of students in grades 9–12 who received credit for at least one mathematics course in 2020-21}}$$

Science

$$\frac{\text{number of students in grades 9–12 in 2020-21 who received credit for at least one science advanced/dual-credit course}}{\text{number of students in grades 9–12 who received credit for at least one science course in 2020-21}}$$

Social Studies

$$\frac{\text{number of students in grades 9–12 in 2020-21 who received credit for at least one social studies advanced/dual-credit course}}{\text{number of students in grades 9–12 who received credit for at least one social studies course in 2020-21}}$$

(Data source: PEIMS 43415)

CTE Coherent Sequence (Annual Graduates): The percentage of annual graduates enrolled in a coherent sequence of career and technical education (CTE) courses as part of a four-year plan of study. *(Data source: PEIMS 40100, 40203, and 42400)*

$$\frac{\text{number of in 2020-21 annual graduates who were enrolled in a CTE-coherent sequence of courses as part of a four-year plan of study to take two or more CTE courses for three or more credits}}{\text{number of in 2020-21 annual graduates}}$$

Students who completed CTE coherent sequence courses are included when comparing 2019-20 results to 2020-21. *(Data source: THECB)*

Graduates Enrolled in Texas Institution of Higher Education (TX IHE): The percentage of students who enrolled and began instruction at an institution of higher education in Texas for the school year following high school graduation.

$$\frac{\text{number of graduates during the 2019-20 school year who attended a public or independent college or university in Texas in the following academic year}}{\text{number of graduates during the 2019-20 school year}}$$

2021–22 Texas Academic Performance Report (TAPR) Glossary

Students who enrolled in out-of-state colleges or universities or any non-public career school are not included. Students who attend public community colleges in Texas are included. *(Data source: THECB)*

Additional reports showing students enrolled in Texas public colleges and universities are available on the Texas Higher Education Coordinating Board (THECB) site at http://www.txhighereddata.org/generatelinks.cfm?Section=HS2Col.

For more information on the data used in this indicator, contact the Texas Higher Education Coordinating Board at (512) 427-6153. *(Data source: THECB)*

Student Information (2021–22)

Please note, the Enrollment section of this report was added beginning with 2019–20. The definitions below describe the nuances between Membership and Enrollment. If comparing the data shown from this year's report to reports prior to 2019–20, use the data displayed under Membership.

Enrollment: Students reported as enrolled as of the last Friday in October (October 29, 2021).

Membership: Membership differs from enrollment, as it does not include those students who are served for less than two hours per day. A student is in membership if he/she is enrolled and is either

- scheduled to attend at least two hours of instruction each school day or
- participating in an alternative attendance accounting program.

For example, the count of *Total Students* excludes students who attend a non-public school but receive some services, such as speech therapy—for less than two hours per day—from their local school district.

Total Students: The total number of public school students who were reported at any grade from early childhood education through grade 12. *(Data source: PEIMS 40110)*

Students by Grade: The count of students in each grade divided by the total number of students. *(Data source: PEIMS 40110)*

Ethnic Distribution: The number and percentage of students and staff who are identified as belonging to one of the following groups: African American, Hispanic, white, American Indian, Asian, Pacific Islander, and two or more races. *(Data source: PEIMS 40100, 30040, 30050, 30090)*

Male/Female: The number and percentage of students who are identified as male or female. *(Data source: PEIMS 40100)*

Economically Disadvantaged: The count and percentage of students eligible for free or reduced-price lunch or eligible for other public assistance.

$$\frac{\textbf{number of students eligible for free or reduced-price lunch or other public assistance}}{\textbf{total number of students}}$$

(Data source: PEIMS 40100 and TEA Student Assessment Division)

2021–22 Texas Academic Performance Report (TAPR) Glossary

Non-Educationally Disadvantaged: Those students not eligible to participate in free or reduced-price lunch or to receive any other public assistance. This is the complementary count and percentage to Economically Disadvantaged.

Section 504 Students: The count and percentage of students identified as receiving section 504 services. *(Data source: PEIMS 40110)*

Emergent bilingual students/English learner (EB/EL) : The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. The terms "English Learner" (EL) and "Emergent Bilingual" (EB) are used interchangeably.

The percentage of EB/ELs is calculated by dividing the number of EB/ELs by the total number of students in the district or campus. Not all students identified as EB/ELs receive bilingual or English as a second language instruction. *(Data source: TELPAS file)*

Students with Disciplinary Placements: The count and percentage of students placed in alternative education programs under Chapter 37 of the Texas Education Code (Discipline; Law and Order). Districts report the disciplinary actions taken toward students who are removed from the classroom for at least one day. Although students can have multiple removals throughout the year, this measure counts students only once and includes only those whose removal results in a placement in a disciplinary alternative education program or juvenile justice alternative education program. It is calculated as follows:

$$\frac{\textbf{number of students with one or more disciplinary placements}}{\textbf{number of students who were in attendance at any time during the school year}}$$

For 2021–22, the following 19 disciplinary action codes are included as disciplinary placements: 02, 03, 04, 07, 08, 10, 12, 13, 14, 15, 51, 52, 53, 54, 55, 57, 59, 60, and 61. *(Data source: PEIMS 44425)*

Students with Dyslexia: The count and percentage of students identified with Dyslexia. *(Data source: PEIMS 40100)*

Foster Care: The count and percentage of students identified as in the conservatorship of the Department of Family and Protective Services (DFPS). *(Data source: PEIMS 40100)*

Homeless: The count and percentage of students meeting the criteria defined by 42 U.S.C. Section 11434(a), the term "homeless children and youths" —

(A) individuals who lack a fixed, regular, and adequate nighttime residence [within the meaning of section 11302(a)(1)]; and

(B) includes —

(i) children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters;

(ii) children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings [within the meaning of section 11302(a)(2) (C)];

(iii) children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and

(iv) migratory children (as such term is defined in section 6399 of title 20) who qualify as homeless for the purposes of this subtitle because the children are living in circumstances described in clauses (i) through (iii).

(Data source: PEIMS 40100)

Immigrant: The count and percentage of students identified under the definition found under Title III of the No Child Left Behind Act of 2001 (NCLB), where the term 'immigrant children and youth' is defined as, "individuals who are aged 3 through 21; were not born in any state; and have not been attending one or more schools in any one or more states for more than 3 full academic years." The term 'State' means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico. *(Data source: PEIMS 40100)*

Migrant: The count and percentage of students that meet the following criteria: Student is (ages 3-21), or the student's parent, spouse, or guardian is a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who, in the preceding 36 months, in order to obtain, or accompany such parent, spouse, or guardian in order to obtain, temporary or seasonal employment in agricultural or fishing work: 1) has moved from one school district to another; or 2) resides in a school district of more than 15,000 square miles, and migrates a distance of 20 miles or more to a temporary residence to engage in a fishing activity. *(Data source: PEIMS 40100)*

Title I: The count and percentage of students participating in a program authorized under Elementary and Secondary Education Act (ESEA), Title I, Part A of the Improving America's Schools Act. *(Data source: PEIMS 41461)*

Military Connected: The count and percentage of students who are dependents of an active duty or former member of the United States military, the Texas National Guard, or a reserve force of the United States military, or who are dependents of a member of the United States military, the Texas National Guard, or a reserve force of the United States military who was killed in the line of duty. *(Data source: PEIMS 40100)*

At-Risk: The count and percentage of students identified as being at risk of dropping out of school as defined by TEC §29.081(d) and (d-1).

$$\frac{\textbf{number of students in the 2021–22 school year considered as at risk}}{\textbf{total number of students}}$$

(Data source: PEIMS 40110)

Student by Instructional Program: The count and percentage of students served in programs and/or courses for bilingual/ESL education, gifted and talented education, or special education. The

percentages do not total to 100 because students may participate in more than one of these programs. *(Data source: PEIMS 40110, 41163 and 41169)*

Students with Disabilities by Type of Primary Disability: The count of students disaggregated by primary disability. The TAPR and Texas Performance Reporting System (TPRS) uses five categories of primary disability: Students with Intellectual Disabilities, Students with Physical Disabilities, Students with Autism, Students with Behavioral Disabilities, and Students with Non-Categorical Early Childhood. Additional information is provided below.

Students with Intellectual Disabilities (PEIMS disability codes 06, 08, 12, 13)

- 06—Intellectual Disability (ID)
- 08—Learning Disability (LD)
- 12—Developmental Delay (DD)
- 13—Traumatic Brain Injury (TBI)

Students with Physical Disabilities (PEIMS disability codes 01, 03, 04, 05, 09)

- 01—Orthopedic Impairment (OI)
- 03—Auditory Impairment (AI)
- 04—Visual Impairment (VI)
- 05—Deaf-Blind (DB)
- 09—Speech Impairment

Students with Autism (PEIMS disability code 10)

- 10—Autism (AU)

Students with Behavioral Disabilities (PEIMS disability codes 02 and 07)

- 02—Other Health Impairment (OHI)
- 07—Emotional Disturbance (ED)

Students with Noncategorical Early Childhood (PEIMS disability code 14)

- 14—Noncategorical Early Childhood (NCES)

(Data source: PEIMS 41163)

Mobility: The count and percentage of students who have been in membership for less than 83 percent of the school year (i.e., missed six or more weeks).

$$\frac{\textbf{number of mobile students in 2020–21}}{\textbf{number of students who were in membership at any time during the 2020–21 school year}}$$

This rate is calculated at the state, region, district, and campus level and is disaggregated by race/ethnicity, economically disadvantaged status, special education status, and emergent bilingual students/English learner status. The mobility rates shown are based on the count of mobile students identified at the campus level. The district mobility rate reflects school-to-school mobility within the same district or from outside the district. The region mobility rate reflects school-to-school mobility within the same region or from outside the region. *(Data source: PEIMS 42400)*

Attrition Rates: The percentage of students enrolled in fall 2020–21 who did not return to the same campus in the fall of 2021–22. This calculation is adjusted to account for the grade levels available to students at each campus as well as additional factors. For instance, students were excluded from the calculation if they were enrolled at the highest grade offered at the campus, were not considered to be in membership for the purposes of calculating average daily attendance for funding purposes or were at a campus in 2020–21 that was no longer active in 2021–22. Students who were retained in grade, including those in grade 12, remained in the calculation. Attrition Rate is calculated as follows:

$$\frac{\textbf{number of students enrolled in fall 2020 – number of students who returned in fall 2021}}{\textbf{number of students enrolled in fall 2020}}$$

Retention Rates by Grade*:* The percentage of students in Texas public schools who enrolled in fall 2021 in the same grade in which they were reported for the last six-week period of the prior school year (2020–21).

$$\frac{\textbf{the number of students enrolled in the same grade from one school year to the next}}{\textbf{the number of students enrolled from one school year who return the next year or who graduate}}$$

Special education retention rates are calculated and reported separately because local retention practices differ for students served by special education.

The TAPR and TPRS show retention rates only for grades K–9. Retention rates for all grades can be found in Grade-Level Retention in Texas Public Schools, 2020–21, available from TEA. *(Data source: PEIMS 40110)*

Data Quality *(not on campus profile)*: The percentage of errors made by the district in the PEIMS Student Leaver Data.

> *Percent of Underreported Students.* Underreported students are 7th–12th graders who were enrolled at any time during the prior year, who are not accounted for through district records or TEA processing in the current year, and for whom the district did not submit a leaver record. A district is required to submit a leaver record for any student served in grades 7–12 the previous year unless the student received a Texas high school equivalency certificate (TxCHSE) certificate by August 31, is a previous Texas public school graduate, moved to and enrolled in another Texas public school district, or returned to the district by the end of the school start window. (For 2020–21 the end of the school-start window was September 25, 2021)

$$\frac{\text{number of underreported students}}{\text{number of students in grades 7–12 who were served in the district in the 2020–21 school year}}$$

(Data source: Texas High School Equivalency Certificate Information File; PEIMS 40100, 40110, 42400, and 42500)

Class Size Averages by Grade and Subject: The average class size by grade (elementary) or selected subjects (secondary classes).

For secondary classes, averages are determined by totaling the number of students served (in a subject at the campus) and dividing that sum by the count of classes for that subject.

For elementary classes, the average is determined based on the instructional model. If an elementary teacher teaches all subjects to the same group of fourth graders all day, the class size average is simply the number of fourth grade students served by that teacher. If an elementary teacher teaches a single subject to five different sections of fourth graders each day, however, the average is calculated the same way as for secondary subjects. For example, one fourth grade science teacher teaches five science classes each day with 18, 20, 19, 21, and 22 students in each class. The total of 100 students divided by the five classes produces an average class size of 20 students for that teacher.

The following rules apply to the average class sizes:

- Classes identified as serving regular, compensatory/remedial, gifted and talented, career and technical, and honors students are included in the calculation.
- English language arts (ELA), mathematics, science, social studies, languages other than English, computer science, and career and technical education are included in the calculation, as are self-contained classrooms.
- Classes where the number of students served is reported as zero are not included.
- Service codes with the “SR” prefix are not included.
- Teacher roles coded as “teacher” and/or “substitute teacher” are included.
- Only class settings coded as “regular class” are included.
- Missing partial FTE counts are not included.
- Elementary classes in which the number of students exceeds 100 are not included.
- Mixed grade-level class averages are not included.

(Data source: PEIMS 30090)

Staff Information (2021–22)

Total Staff: The total count of staff which includes professional staff (teachers, professional support, administrators), educational aides, and (on the district profile) auxiliary staff. *(Data source: PEIMS 30040, 30050, and 30090)*

2021–22 Texas Academic Performance Report (TAPR) Glossary

Professional Staff: The full-time equivalent (FTE) count of teachers, professional support staff, campus administrators, and on the district profile, central office administrators. Staff are grouped according to roles as reported in PEIMS. Each type of professional staff is shown as a percentage of the total staff FTE. See Appendix B for all PEIMS Role IDs*. (Data source: PEIMS 30040, 30050, and 30090)*

Educational Aides: The count and percentage of paraprofessional staff who are reported with a role of 033 (Educational Aide) or 036 (Certified Interpreter). The FTE counts of educational aides are expressed as a percentage of the total staff FTEs. See Appendix B for all PEIMS Role IDs. *(Data source: PEIMS 30090)*

Auxiliary Staff *(not on campus profile)*: The count of full-time equivalent (FTE) staff reported in PEIMS employment and payroll records who are not reported in the PEIMS 30090 Staff – Responsibilities record. The auxiliary staff (and educational aide who performs routine classroom tasks under the general supervision of a certified teacher or teaching team) are expressed as a percentage of total staff. For auxiliary staff, the FTE is the value of the percentage of day worked. *(Data source: PEIMS 30060 and 30090)*

Librarians and Counselors (Headcount): The headcount of librarians and counselors is based on full-time equivalent (FTE) for full-time and part-time headcounts. Librarians and counselors are considered part-time when the FTE count is less than or equal to .85 (For example, if an FTE count is less than or equal to .85, the part-time headcount is equal to 1).

Librarians and counselors are headcounts, not sums of FTEs. The district headcount is not a sum of the campus headcount. For example, a counselor spends 50 percent of their time at the elementary (0.50 FTE) and 50 percent of their time at the high school (0.50 FTE). On each of the campus reports, this counselor will be reflected as 1.0 part-time counselor. On the district report, the counselor will be reflected as 1.0 full-time counselor since the FTE count is greater than .85 (0.50 FTE plus 0.50 FTE=1.0 FTE). See Appendix B for PEIMS Role IDs (Professional Support Staff). *(Data source: PEIMS 30040, 30050, and 30090)*

Total Minority Staff: The total count of minority staff is the sum of the FTE counts for all non-white staff groups (African American, Hispanic, American Indian, Asian, Pacific Islander, and Two or More Races). The minority staff FTE count is expressed as a percentage of the total staff FTE. *(Data source: PEIMS 30040, 30050, and 30090)*

Teachers by Ethnicity and Sex: The counts of teacher FTEs by ethnic group and by sex. Counts are also expressed as a percentage of the total teacher FTEs. *(Data source: PEIMS 30040, 30050, and 30090)*

Teachers by Highest Degree Held: The distribution of degrees held by teachers. The FTE counts of teachers with no degree, a bachelor's degree, a master's degree, or a doctorate are expressed as a percentage of the total teacher FTEs. *(Data source: PEIMS 30040, 30050, and 30090)*

Teachers by Years of Experience: The FTE count of teachers by total years of experience for the individual, not necessarily years of experience in the district or campus. Teacher counts within each range of experience are expressed as a percentage of total teacher FTEs. Teachers are reported with zero years of experience (first year teachers), 1–5 years, 6–10 years, 11–20 years, 21–30 years, and over 30 years. *(Data source: PEIMS 30040, 30050, and 30090)*

2021–22 Texas Academic Performance Report (TAPR) Glossary

Number of Students per Teacher: The total number of students divided by the total teacher FTE count. *(Data source: PEIMS 30040, 30050, and 30090)*

Experience of Campus Leadership: The average years of experience for principals and assistant principals.

Average Years as Principal: The number of completed years of experience as a principal, regardless of district or interruption in service. These amounts are added together and divided by the number of all principals reported for the campus.

Average Years as Principal with District: The number of years a principal is employed in the district regardless of any interruption in service. The amounts are added together and divided by the number of principals reported for the district.

Average Years as Assistant Principal: The number of completed years of experience as assistant principal, regardless of district or interruption of service. The amounts are added together and divided by the number of assistant principals reported for the campus.

Average Years as Assistant Principal with District: The number of years employed as assistant principal in the district regardless of any interruption in service. These amounts are added together and divided by the number of assistant principals reported for the district.

(Data source: PEIMS 30050)

Average Years Experience of Teachers: The average number of completed years of professional experience, regardless of district. Weighted averages are calculated by multiplying each teacher's FTE coefficient (1 for a full-time teacher, .75 for a three-quarter-time teacher, and .5 for a half-time teacher, for example) by his or her years of experience. These amounts are added together and divided by the sum of all teachers' FTE coefficients. *(Data source: PEIMS 30040, 30050, and 30090)*

Average Years Experience of Teachers with District: The average number of years employed in the district regardless of any interruption in service. Weighted averages are calculated by multiplying each teacher's FTE coefficient by his or her years of experience in the district. These amounts are added together and divided by the sum of all teacher's coefficients. *(Data source: PEIMS 30050)*

Average Teacher Salary by Years of Experience (regular duties only): Total pay for all teachers in each category divided by the total teacher FTE count in that category. For the purpose of this calculation, the total actual salary amount is pay for regular duties only and does not include supplemental pay. For teachers who also have non-teaching roles, only the portion of time and pay dedicated to classroom responsibilities is factored into the average teacher salary calculation. Teachers are reported with zero years of experience (first year teacher), 1–5 years, 6–10 years, 11–20 years, 21–30 years, and over 30 years. *(Data source: PEIMS 30060)*

Average Actual Salaries (regular duties only): For each category, the total salary for that category divided by the total FTE count for that category. Only payment for regular duties is included in the total salary; supplemental payments for extra duties (e.g., coaching, band and orchestra assignments, club sponsorships) are not included. See Appendix B for lists of the PEIMS role IDs included in each category.

Teachers. Teachers, special duty teachers, and substitute teachers. Substitute teachers are either temporarily hired to replace a teacher or hired permanently on an as-needed basis. The District

Teacher Salary Report and Graph also uses this definition in creating counts for various salary ranges.

Professional Support. Therapists, nurses, librarians, counselors, and other campus professional personnel.

Campus Administration (School Leadership). Principals, assistant principals, and other administrators reported with a specific school ID.

Central Administration (not on campus profile). Superintendents, presidents, chief executive officers, chief administrative officers, business managers, athletic directors, and other administrators reported with a central office ID and not a specific school ID.

Instructional Staff Percent *(district profile only)*: The percentage of the district's FTEs whose job function was to provide classroom instruction directly to students during the 2020–21 school year. The instructional staff percent is a district-level measure and is calculated as follows:

$$\frac{\textbf{total number of hours for district staff who were reported under expenditure object codes 6112, 6119, and 6129, and function codes 11, 12, 13, and 31}}{\textbf{total number of hours worked by all district employees}}$$

Contact the Division of Financial Compliance at (512) 463-9095 for further details about this measure. *(Data source: PEIMS 30040, 30050, and 30090)*

Turnover Rate for Teachers *(not on campus profile)*: The percentage of teachers from the fall of 2020–21 who were not employed in the district in the fall of 2021–22. It is calculated as the total FTE count of teachers from the fall of 2020–21 who were not employed in the district in the fall of 2021–22, divided by the total teacher FTE count for the fall of 2020–21. Staff who remained employed in the district but not as teachers also count toward teacher turnover. *(Data source: PEIMS 30040 and 30090)*

Staff Exclusions *(not on campus profile):* The counts of individuals who serve public school students but are not included in the FTE totals for any of the other employee statistics. There are two types of these entries: individuals participating in a shared services arrangement and individuals on contract with the district to provide instructional services.

Shared Services Arrangement (SSA) Staff are staff who work in schools located in districts other than their employing district or whose assigned organization (in PEIMS) shows a code of 751, indicating that they are employed by the fiscal agent of an SSA. Only the portion of a person's total FTE amount associated with the school in another district (or with the 751 organization code) is counted as SSA. SSA staff are grouped into three categories: Professional Staff (which includes teachers, administrators, and professional support); Educational Aides; and Auxiliary Staff. Note that SSA Auxiliary Staff are identified by the type of fund from which they are paid.

Contracted Instructional Staff (District and Campus Profiles) refers to counts of instructors for whom the district has entered into a contractual agreement with some outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. They are never employees of the reporting school district. *(Data source: PEIMS 30055 and 30060)*

2021–22 Texas Academic Performance Report (TAPR) Glossary

Contracted Instructional Staff: The count of individuals who are not regular classroom teachers who have signed a contract with a district, nor are they shared services arrangement employees. Rather, these are instructors for whom the district has entered into a contractual agreement with an outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. They include, but are not limited to, speech therapists, occupational therapists, and any other professional contracted staff working in a classroom on a dedicated basis. *(Data source: PEIMS 30055)*

Teachers by Program *(population served):* The FTE count of teachers categorized by the type of student populations served: regular, special, compensatory, bilingual/ESL, gifted and talented education students, and other populations. Teacher FTE values are allocated across population types for teachers who serve multiple population types. Percentages are expressed as a percentage of total teacher FTEs. *(Data source: PEIMS 30040, 30050, and 30090)*

2021–22 Texas Academic Performance Report (TAPR) Glossary

Appendix A
Advanced Academic Courses

- All courses shown were for the 2019–20 school year.
- An "A" prefix indicates a College Board Advanced Placement course.
- An "I" prefix indicates an International Baccalaureate course.
- Dual credit courses are not specifically shown on this list.
