2021-22 Texas Academic Performance Report (TAPR)

District Name: DONNA ISD

Campus Name: A P SOLIS MIDDLE

Campus Number: 108902045

2022 Accountability Rating: A

Distinction Designations:

- **Academic Achievement in Social Studies**
- **Top 25 Percent: Comparative Academic Growth**
- **Top 25 Percent: Comparative Closing the Gaps**
- **Postsecondary Readiness**

Section 3

2021-22
District Accreditation Status

(TEA did not assign a status for 2021-22)

2021-2022 Accreditation Status

(will not be issued)

Texas Education Agency

To the Administrator Addressed

Commissioner Mike Morath

1701 North Congress Avenue • Austin, Texas 78701-1494 • 512 463-9734 • 512 463-9838 FAX • tea.texas.gov

DATE:	**January 20, 2022**
SUBJECT:	**2021-2022 Assignment of Accreditation Statuses**
CATEGORY:	**Accreditation**
NEXT STEPS:	**Share with Appropriate Staff**

The assignment of district and charter school accreditation statuses is authorized by Texas Education Code (TEC), Chapter 39, Public School System Accountability, and 19 Texas Administrative Code (TAC), Chapter 97, Planning and Accountability, Subchapter EE, Accreditation Status, Standards, and Sanctions. The rules define the accreditation statuses of Accredited, Accredited-Warned, Accredited-Probation, and Not Accredited-Revoked and describe how accreditation statuses are determined and assigned. These rules may be viewed at the *Texas Administrative Code* link available at https://tea.texas.gov/sites/default/files/ch097ee.pdf, and additional information regarding the assignment of accreditation statuses to districts and charter schools can be found on the *Accreditation Status* homepage of the Texas Education Agency (TEA or agency) website at http://tea.texas.gov/accredstatus/.

Recognizing the ongoing impact of COVID-19 and the unique challenges schools faced during the past school year, the agency did not issue A–F accountability ratings for the 2020–2021 school year. Pursuant to 19 TAC §97.1055(a)(13) when a rating of *Not Rated* or similar rating is issued to a school district, the commissioner of education (Commissioner) may withhold the assignment of an accreditation status. The Commissioner has decided not to assign accreditation statuses until the 2022-2023 school year under the authority of 19 TAC §97.1055. For purposes of determining multiple years of academically unacceptable or insufficient performance, the academic accountability ratings issued for the 2018-2019 school year and the 2021-2022 school year are consecutive. 19 TAC §97.1055(a)(10). In addition, the accreditation statuses issued for the 2019-2020 school year and for the 2022-2023 school year are consecutive, per 19 TAC §97.1055(a)(12).

Districts, including charter schools, that would have been assigned a status of Accredited-Warned, Accredited-Probation, or Not Accredited-Revoked for the 2021-2022 school year due to the ratings assigned to the district in the state's financial accountability system will receive separate correspondence from the TEA detailing required next steps.

We appreciate the ongoing support of districts during the COVID-19 public health crisis. If you have questions, please contact the Division of Accreditation and Enforcement at (512) 463-5899 or via e-mail at accred@tea.texas.gov.

Sincerely,

Jeff Cottrill
Deputy Commissioner of Governance & Accountability

GUIDANCE RELATED TO THE ASSIGNMENT OF ACCREDITATION STATUSES

	Accredited-Warned	Accredited-Probation	Not Accredited-Revoked
Academic Accountability Rating	Two consecutive school years of an academic accountability rating of Academically Unacceptable or Improvement Required	Three consecutive school years of an academic accountability rating of Academically Unacceptable or Improvement Required	Four consecutive school years of an academic accountability rating of Academically Unacceptable or Improvement Required
Financial Accountability Rating	Two consecutive school years of a financial accountability rating of Substandard Achievement or Suspended--Data Quality	Three consecutive school years of a financial accountability rating of Substandard Achievement or Suspended--Data Quality	Four consecutive school years of a financial accountability rating of Substandard Achievement or Suspended--Data Quality
Individual Academic and Financial Accountability Rating Across Years	Two consecutive school years of any one of the ratings referenced above	Three consecutive school years of any one of the ratings referenced above	Four consecutive school years of any one of the ratings referenced above
Combined Academic and Financial Accountability Ratings in a Single Year	For one school year, a combination of ratings referenced above	For two consecutive school years, a combination of ratings referenced above	For three consecutive school years, a combination of ratings referenced above
Failure to Comply with Requirements Related to Integrity of Assessment or Financial Data Used to Measure Performance	If commissioner determines this action is reasonably necessary to achieve the purposes of TEC, §39.051 and §39.052	If commissioner determines this action is reasonably necessary to achieve the purposes of TEC, §39.051 and §39.052	If commissioner determines this action is reasonably necessary to achieve the purposes of TEC, §39.051 and §39.052

District & Campus Performance Objectives

Donna Independent School District

District Improvement Plan

2021-2022

"THE DISTRICT"

Mission Statement

The Mission of Donna I.S.D. is to provide a rigorous and supportive learning environment with meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking that ensures educational excellence for all students.

Vision

"All Donna ISD students are empowered with academic and life skills to boldly lead and achieve personal success in a global society."

Core Beliefs

1. We believe that every student can perform at or above grade level and graduate prepared for college and/or the workforce. As a result, we are determined to:

- **Provide a vertically aligned rigorous curriculum (PK-16).**
- **Provide well-planned student-centered instruction that focuses on project-based learning with real world connections.**
- **Provide accurate, meaningful and authentic assessment of students' mastery of knowledge and skills.**

2. We believe that educators have the most powerful impact on student achievement. As a result, we are determined to

- **Attract and retain highly qualified staff.**
- **Provide ongoing targeted staff development.**
- **Provide the most current research-based and state of the art instructional resources.**

3. We believe that educational equity and excellence will eliminate the achievement gap. As a result, we are determined to

- **Provide opportunities for every student to learn in a manner that is consistent with his/her learning style.**
- **Afford each student targeted instructional interventions to ensure academic success with a rigorous and relevant curriculum.**
- **Provide every student with equal access to outstanding, well-prepared teachers and high quality instructional resources**

4. We believe that every student must be educated in a safe, welcoming, effective, and innovative learning environment. As a result, we are determined to

- **Enforce the policies of the Donna Independent School District's adopted Student Code of Conduct.**
- **Provide security measures at all campuses to establish a learning climate of mutual respect.**

- **Ensure that every staff member, campus, and classroom is supportive of all students and their unique differences.**

5. We believe that our school district must be a model for sound fiscal responsibility and integrity. As a result, we are determined to

- **Establish policies and procedures to promote ethical practices in all areas of fiscal management.**
- **Provide periodic audits to ensure that all staff and outside providers are committed to following sound fiscal practices.**
- **Provide staff training to encourage ethical conduct and a commitment to compliance with the state and federal laws.**

6. We believe that engaged parents and guardians impact a student's academic and personal development. As a result, we are determined to

- **Schedule Parent Sessions to inform parents about the academic programs and instructional opportunities available to their child.**
- **Accommodate parents' work schedules when creating parent involvement opportunities.**
- **Keep parents informed of their children's performance and school activities (i.e. notes, telephone calls, newsletters, conferences, meetings, etc.).**

7. We believe that a supportive community is fundamental to achieving and sustaining our success. As a result, we are determined to

- **Involve community members by inviting them to serve on school and district committees.**
- **Develop partnerships with business, civic, and academic organization to provide opportunities for students to develop leadership and citizenship skills.**
- **Ensure that our community is supportive of the district's goals by informing the community of pertinent school activities and successes.**

8. We believe that communication, collaboration, and coordination at all levels are essential to district success. As a result, we are determined to

- **Work as unified team to find solutions to the district's most pressing issues.**
- **Require that every project specify the persons responsible to facilitate proper coordination of efforts.**
- **Develop a communication plan for every new initiative in order to ensure that all stakeholders are well informed.**

Goals 27
- Goal 1: Donna I.S.D will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. The district will also implement a Math Proficiency Plan (MPP) for the early grade levels that will result in more students meeting grade level standards. 28
- Goal 2: Donna I.S.D will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 44
- Goal 3: Donna I.S.D. will create an instructional environment that will enhance the learning and academic performance of all students and increase the percentage of graduates demonstrating college/career/military readiness. 61
- Goal 4: Donna I.S.D. will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 85
- Goal 5: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 117
- Goal 6: Donna I.S.D. will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 181
- Goal 7: Donna I.S.D. will establish a technological infrastructure that promotes communication and learning within the district and community. 198
- Goal 8: Provide administrators with the technology needed to plan and strengthen administrators' role in the implementation of technology. 210

Demographics

Demographics Summary

Demographics Summary

Donna Independent School District is the home to 22 schools: 14 elementary schools, 4 middle schools, 2 high schools, 1 early college high school, and 2 other.

As reported on the ***2019-2020*** Texas Academic Performance Report **(TAPR)** the **total enrollment** for the district is: **14,388** students with a total staff of **2,285.7**, consisting of: **979** teachers, **263.3** professional support staff, **42.9** campus administrators, and **232.6** educational aides.

The total number of students consist of: African American (0.0%), Hispanic (99.7%), White (0.2%), Economically Disadvantage (94.0%), English Language Learners (52.7%), Special Education (9.7%), Bilingual/ESL Education (54.4%), Career & Technology (64.3%), and Gifted & Talented (7.4%).

As reported on the ***2019-2020 TAPR Report*** the 2018-2019 attendance rate includes: African American (92.9%), Hispanic (94.0%), White (92.8%), Special Education (92.6%), Economically Disadvantage (94.0%), and English Language Learners (94.2%), for a total district attendance rate of (94.0%).

TAPR Accountability Rating

District and Campus ratings were provided for the 2019-2020 school year. **District Accountability Rating for 2020 was "Met Standard."**

Met Standard – 20 schools: Donna High School, Donna North High School, 3D Academy, AP Solis Middle School, Veterans Middle School, Dora M. Sauceda Middle School, W.A. Todd Middle School, B.G. Guzman Elementary, Truman Price Elementary, Ochoa Elementary, Runn Elementary, Stainke Elementary, Caceres Elementary, M. Rivas Elementary, Capt. Daniel Salinas III Elementary, , A.P. Munoz Elementary, Lenoir Elementary, Daniel Singleterry Sr. Elementary, Salazar Elementary, and J. Adame Elementary.

Distinction Designations

Distinction designations recognizes campuses with outstanding achievements. Campuses that received an accountability rating of **"Met Standard"** were eligible for distinctions in 2018 (stayed the same due to COVID-19 Pandemic) such as:

- **Academic Achievement in ELA/Reading**
- **Academic Achievement in Mathematics**
- **Academic Achievement in Science**

- **Academic Achievement in Social Studies**
- **Top 25% Student Progress**
- **Top 25% Closing Performance Gaps**
- **Postsecondary Readiness**

- **Academic Achievement in ELA/Reading**: Donna High School, AP Solis Middle school, Lenoir Elementary

- **Academic Achievement in Mathematics**: NONE
- **Academic Achievement in Science**: Donna High School, Donna North High School, Sauceda Middle School, Caceres Elementary, Munoz Elementary
- **Academic Achievement in Social Studies**: A.P. Solis Middle School
- **Academic Growth**: A.P. Solis Middle School, Caceres Elementary
- **Closing the Gaps**: A.P. Solis Elementary, Adame Elementary
- **Postsecondary Readiness**: Donna North High School, A.P. Solis Middle School, Adame Elementary

"THE DISTRICT"

Demographics Strengths

Demographic Strengths

- Special Education enrollment is increasing
- Diverse population
- Teachers' cultural background mirrors background of students
- Teachers' are representative of district student demographics
- There is a high percentage of Hispanic teachers assisting students (culturally responsive)
- There are different strategists assisting teachers and students (ELA, Math, Science, Social Studies, Bilingual, and Migrant)
- Computer based programs are provided to help with student achievement
- Departments are able to extract data to demographic levels
- The teacher demographics meets needs of English Language Learners

Demographic Needs

District efforts need to continue being directed to high ELL population and implementation of research based strategies to close the academic gap between ELL's and Non-ELL's. Focus should be on closing the literacy gap as well.

- Continue implementation of Bilingual curriculum
- District needs to improve the transition from elementary to secondary schools for ELL's
- District efforts need to continue being directed to the special education population to close the gaps
- Continue to increase differentiated instruction for Special Education, ELL's, & G/T students
- Improve attendance for better ADA
- Increase trainings by professionals/consultants
- Increase vertical and horizontal alignment meetings
- Continue the effort to meet and exceed the State Passing Rate in all areas of the STAAR Testing
- Replace outdated material
- Recruit and retain effective teachers, principals, and other instructional staff

Problem Statements Identifying Demographics Needs

Problem Statement 1: Donna ISD student population is decreasing from 14,459 to 14,000. **Root Cause:** Students are enrolling in nearby public charter schools or neighboring districts.

Problem Statement 2: 79.3% of students are identified at risk as compared to the state rate of 50.6% **Root Cause:** Large percentage of students not passing STARR/state exam.

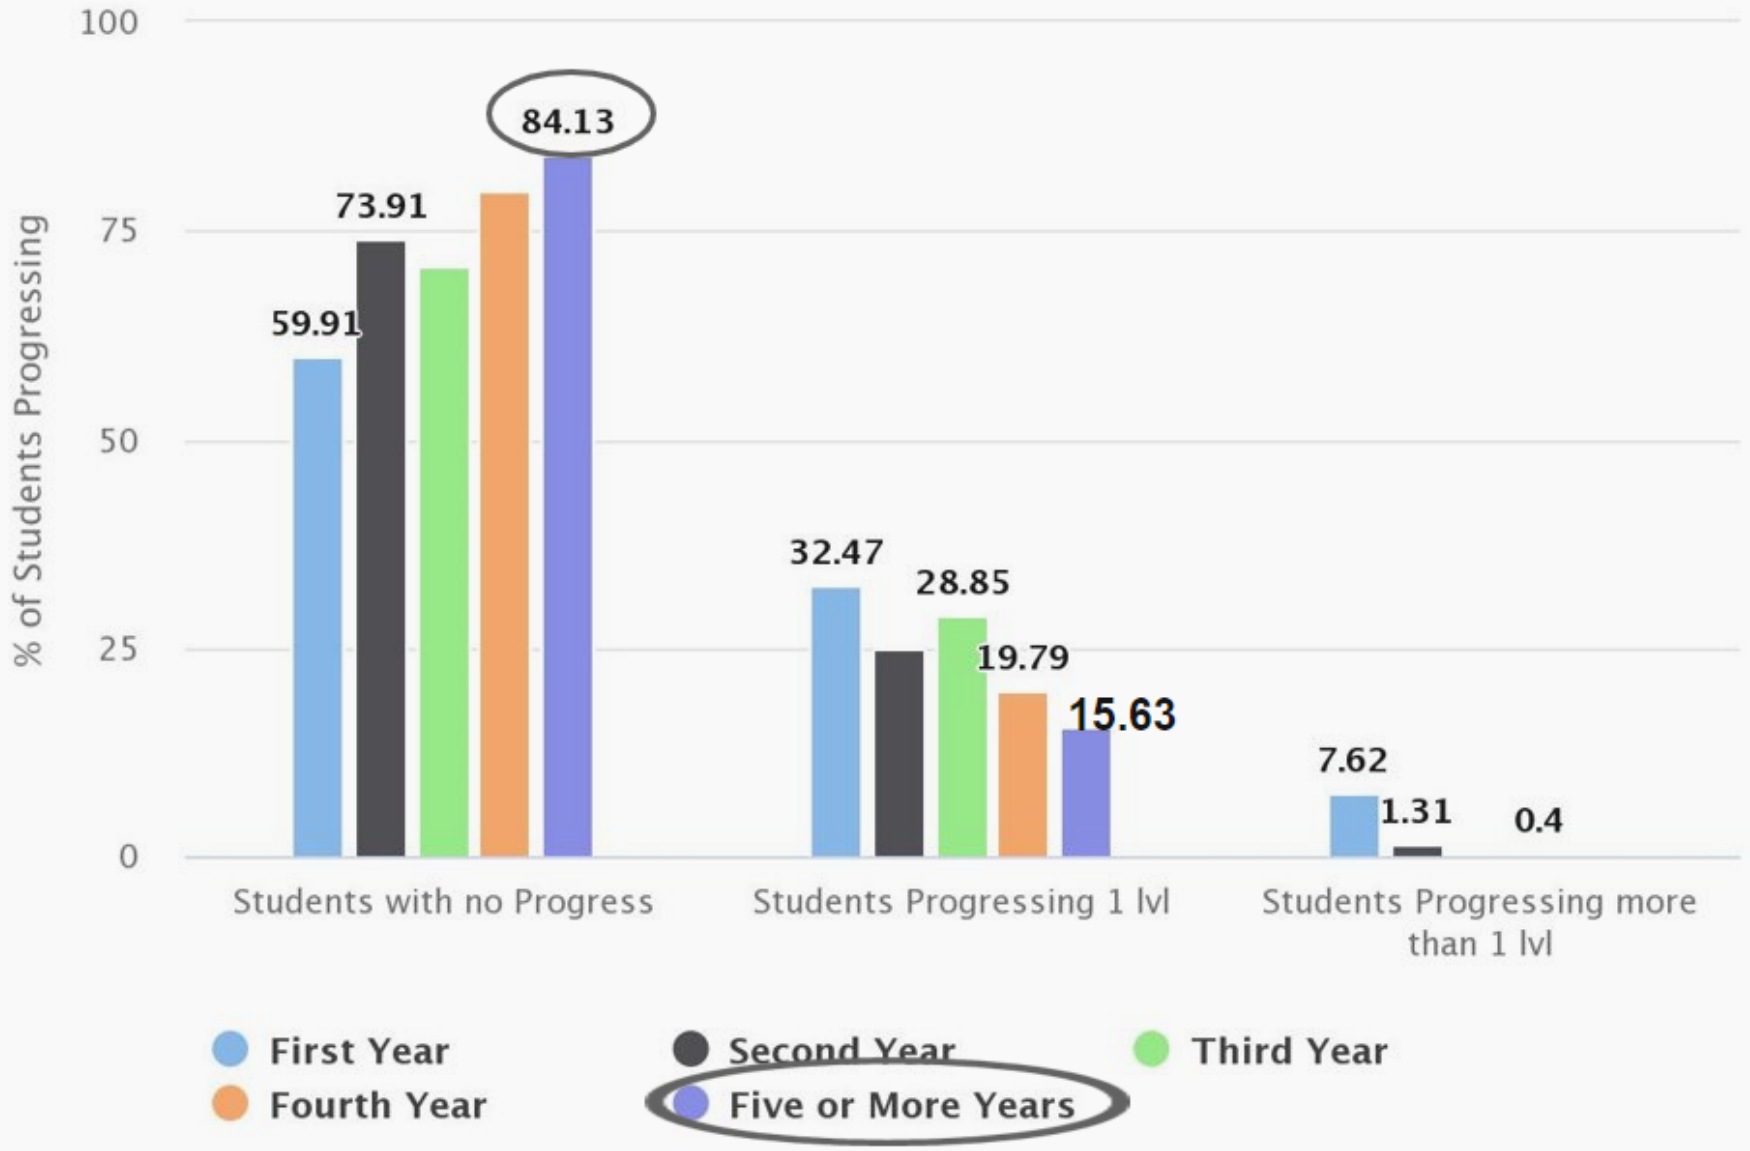
2018-2019 TELPAS COMPOSITE RATING BY PROGRESS (INCLUDING YEARS IN U.S. SCHOOLS)



Student Learning Strengths

- In tracking 6 years of student achievement data for Donna ISD (all subjects, all tests) there has been a consistent increase in the percentage of student success on STAAR exams (approaches level or higher)

- 2014: 60%
- 2015: 62%
- 2016: 64%
- 2017: 66%
- 2018: 70%
- 2019: 71%

- In comparison to the 2018 PBMAS report, the 2019 RDA report (Results Driven Accountability) indicators across all contents and most special populations improved.
- Tracking the data of the special pops over the past five years via PBMAS and RDA shows a significant positive trend in student performance.
- More formative assessments are available for teacher use to track student learning data as a result of students having access to devices.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Many students are reading below grade level **Root Cause:** There is inconsistent implementation of guided reading and decision-making about language of instruction and assessment

Problem Statement 2: The needs of diverse learners are not met in all classrooms **Root Cause:** Some teachers need additional support and/or staff development in pedagogy to address learners' needs; not all teachers attend or implement strategies during staff development provided

District Processes & Programs Summary

Personnel

Donna ISD values hiring and retaining talented and effective personnel by ensuring a competitive compensation plan (pay raises the past two school years) for all district employees. DISD makes it a high priority in reporting that 100 % of district teachers are highly qualified and certified. The teacher turnover rate in DISD is below the state average as reported on the latest TAPR report. The district's recruitment efforts include online notifications of job openings, job requirements, teacher incentives, sign on bonus, and increased teacher pay to recruit highly qualified and effective staff. The district studies and proposes revisions to the instructional and co-curricular stipends that support the needs of our district in the areas of special populations (certified Special Education, Advanced Academics (GT), CTE and Bilingual). DISD will also continue to provide stipends to teachers who acquire a Master's degree in a core subject being taught. Managing the growth of student needs requires a constant focus on staff quality, recruitment, and retention. DISD will continue to maintain a competitive compensation plan to assist in retaining the best talent, and provide intentional professional learning for teaching staff. The Teacher Incentive Allottment (TIA) will be offered to teachers who meet requirements.

Curriculum

Donna Independent School District C & I has a phased in curriculum plan to support improvement as the curriculum is being taught and assessed for all learners. Data such RDA (result driven accountability) TAPR (Texas Academic Performance Report) are utilized to determine need to reevaluate and renew curriculum in order to meet group specific and overall

learner's needs. Teachers select and identify weekly assessments uploaded in the SharePoint curriculum that align with the instruction conducted for the week. Through alignment of curriculum, assessments are aligned to ensure they are relevant to the curriculum and to TEK and state assessment standards. Teachers are surveyed by the curriculum department requesting feedback on assessment alignment with taught curriculum and ways to improve. Assessments are also evaluated at the end of every six weeks through Trekking Through the TEKS for instruction alignment and adjustment. Targeted instruction of Tier 3 students through Guided Reading, flowchart available. Sheltered instruction is practiced for EL students. Targeted tutoring for all students is available during scheduled High Impact Tutorials (HIT) and before and afterschool. Students are also given the opportunity to receive support during after school program support, 21st Century/ACE program. Streamlining of RTI, SpEd, 504, and LPACing processes through one documenting system is in place through SuccessEd. Guidance documents also available for each program. Mon – Thursday – built in Intervention – teachers target students not on- track and remaining students continue to strengthen skills through center rotations. Student growth being tracked through (SLO) Student Learning Objective and using the instrument of the Student Growth Tracker. Data talks/meetings with teachers from all STAAR testing content areas which includes campus administration. Data Reading Level talks/meetings are held with K-2nd teachers. Over 300 trainings/meetings have occurred that deal with instruction, curriculum, and/or leadership. Instructional Planning Days are identified on the school calendar. Bundle/Comprehensive/Benchmark Data shared with campuses/departments. PLCs. Research based staff development aligned to performance data. Surveys to determine decisions. Various types of staff development provide to teachers; data analysis, accountability, intervention, special programs, literacy, PLC, TTESS, SLO, technology, cooperative, sheltered instruction, content, etc. Monitoring/Tracking Systems like Eduphoria (Lesson Plans, walkthroughs, student data, staff development, work orders, TTESS, TPESS); SuccessEd (LPAC, SpEd, RTI, 504); Istation are in place and accessible to both administration and

teachers.

Communication

Communication at the district and campus level are evident through the existence of various committees such as the District Advisory Committee, Campus Advisory Committee, Section 504 committees, RTI committees, LPAC, staff meetings, departent head meetings, climate surveys, and teacher surveys. Data reading level talks/meetings are held with district and campus level personnel to review reading data and target student needs and develop student goals.

District Processes & Programs Strengths

DISD is committed to recruiting and retaining the best HQ teaching and administrative staff. DISD will continue to provide competitive wages and benefits, including employee health, dental, and life insurance. The Human Resources Department, in collaboration with other district departments, participate and continue to improve the New Employee Orientation sessions and other human resources processes to better meet the needs of district employees.

District Processes & Program Strengths

- New Teacher Orientation
- Leadership Academy
- Region One SubHub Teacher Orientation

- New Teacher/Mentor Program (with stipends)
- New Principal Mentor Program
- 100% Highly Qualified Staff
- Competitive Annual Stipends board approved as per 2021-2022 Compensation Plan
- Distinction Designations-Teacher Incentive Allottment
- Campus support - inclusion teachers and co-teachers
- District Advisory Committee
- Campus Advisory Committee
- Staff Meetings
- Department Head Meetings
- Climate Surveys
- Needs Assessment Process
- PK-3 and PK-4 Programs
- CTE Department expansion of CTE courses
- STEAM campuses
- ECHS campus-Year 2
- Fine Arts Academy
- Continuation of student use of Chromebooks (3rd grade - 12th grade) and Ipads (kinder-1st grade)
- 21st Century After School Program
- Learning Loss Committee
- RSSP Committee
- Learn & Lead Safely Committee
- Blended Learning Committee
- Teacher Incentive Allottment Committee
- Afterschool Program Support

- Student growth monitored through SLO
- Parent Learning Academies
- Community Partnerships
- Steamline and greater efficiency of RTI/504/Bilingual/Special Education Program Management System
- Master schedule allows for additional student support in High Impact Tutorials and Accelerated Learning
- Instructional Planning Days
- All campuses have a PBIS leadership team
- Dyselxia screening in K-5th grade

Problem Statements Identifying District Processes & Programs Needs

Problem Statement 1: To continue the meet the needs of our students, Donna ISD will need to continue to recruit and retain hard to fill positions including Special Education, Bilingual teachers, mathematics, and Career and Technical Education vacancies. **Root Cause:** Increase in student enrollments in those programs, rising expectations for teachers, and test-based accountability systems. Teachers do not have the Spanish proficiency level needed to pass the bilingual certification exam due to lack of sense of teacher urgency.

Problem Statement 2: Students with disabilities are reading below grade level and is impacting the Special Education EOC passing rate in the areas of Science and ELA with a district performance rate of 34.55% and 11.0% respectively. **Root Cause:** A significant percentage of our students are reading below grade level.

Problem Statement 3: Several programs, systems, and/or processes are in place to support student performance; however, there is still a disconnect when it comes to fidelity, alignment, streamlining, next steps, and accountability for these processes. **Root Cause:** There is lack of unity among stakeholders to fully support programs, systems, and/or processes across the district to support student performance.

Perceptions

Perceptions Summary

The current data regarding perceptions indicate an overall positive culture and climate, but data from stakeholders is rather limited. Only a fraction of DISD stakeholders (educators and parents alike) actually participated in these perception surveys. For example, only 534 educators participated in the District Needs Assessment Survey on Perceptions and 2,851 parents responded to the DISD Parent and Family Engagement Spring Survey. Although the data from these surveys was overwhelmingly positive, the lack of participation by stakeholders indicates that some individuals feel disengaged with the district.

Perceptions Strengths

Parent to School Connection

- The Public Relations Department routinely posts and publishes stories that showcase the achievements of DISD.
- Campuses & departments have social media accounts (i.e. Facebook and Twitter) where they celebrate students' successed and highlight upcoming school events.
- Campuses routinely use text messaging as a way to quickly and efficiently share valuable information in a transparent fashion.
- The implementation of Google Classroom and other technology apps have created opportunities for parents to engage in their child's education.
- The Curriculum & Instruction Deparment's ongoing "Pulse Checks" help the department to identify instructional trends and gauge teacher perceptions.
- The Parental Invovlement Department implements multiple surveys to ascertain perceptions of both staff and parents in order to build a bridge between these important stakeholders.

Safety

- Students and staff feel physically safe at their worksite and parents generally feel that the school takes every precaution to keep their child safe.
- Keyless entry systems were installed at each campus as well night locks in each classroom.
- Raptor system in place to check in any visitors on campus.
- Safe Schools online training is required for all district staff and the police department conducts trainings periodically.
- The district has no persistently dangerous campuses identified.
- All secondary campuses have officers on site; elementary campuses have security guards.

Extracurricular Activities

- Secondary campuses have a wide variety of extracurricular activities in academics, fine arts and athletics.
- While elementary campuses do not have as many extracurricular opportunities in place, there is a concerted effort to increase these opportunities.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Develop a habit of implementing a Culture & Climate survey twice a year (once per semester) for all district stakeholders. **Root Cause:** The district did not schedule these surveys into the calendar year.

Problem Statement 2: Increase the number of responses to parent and district surveys regarding perception. **Root Cause:** Participation rates in surveys are low. It is difficult to

ascertain the true perceptions of district stakeholders when there is inadequate participation. Some stakeholders are disengaged and may feel that their feedback will not cause change.

Problem Statement 3: Support efforts being made at the elementary level to increase extracurricular opportunities at those campuses. **Root Cause:** The pandemic has made it difficult to offer extracurricular opportunities at elementary campuses. Time after school is mainly devoted to students needing remediation versus enrichment activities. There are a limited number of teachers available after school for these type of activities.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Performance Objectives with summative review (prior year)
- Planning and decision making committee(s) meeting data

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Accountability Distinction Designations
- Federal Report Card Data
- RDA data

Student Data: Assessments

- State and federally required assessment information
- (STAAR) current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- STAAR EL progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Student Success Initiative (SSI) data for Grades 5 and 8
- SSI: Istation Indicators of Progress (ISIP) accelerated reading assessment data for Grades 3-5 (TEA approved statewide license)
- SSI: Think Through Math assessment data for Grades 3-8 and Algebra I (TEA approved statewide license)
- Student failure and/or retention rates
- Local benchmark or common assessments data
- Observation Survey results
- Istation Indicators of Progress (ISIP) reading assessment data for Grades PK-2
- State-developed online interim assessments

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- EL/non-EL or LEP data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender, etc.
- Career and Technical Education (CTE) data, including coherent sequence coursework aligned with the industry-based certifications, program growth and student achievement by race, ethnicity, gender, etc.
- Section 504 data
- Homeless data

- Gifted and talented data
- Dyslexia Data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Annual dropout rate data
- Attendance data
- Discipline records
- Violence and/or violence prevention records
- Student surveys and/or other feedback
- School safety data
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data

Parent/Community Data

- Parent surveys and/or other feedback
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Budgets/entitlements and expenditures data
- Study of best practices

Goals

Goal 1: Donna I.S.D will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. The district will also implement a Math Proficiency Plan (MPP) for the early grade levels that will result in more students meeting grade level standards.

Performance Objective 1: The district will focus on instructional improvement resulting in all students meeting goals for all accountability measures. The percentage of K-2 students reading on or above grade level will increase by 6%.

Evaluation Data Sources: iStation, STAAR and STAAR EOC, TELPAS, PBMAS

Summative Evaluation: Met Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Develop, implement, and monitor a literacy plan where every student is provided the support, personalized instruction, and resources to guarantee reading on level or make a 2 years growth in reading level if student is below grade level. **Strategy's Expected Result/Impact:** Reading Levels and STAAR academic outcomes. **Staff Responsible for Monitoring:** Asst. Supt. for Curriculum and Instruction, ELAR, Bilingual, & Library Services Directors, Campus Principal, Classroom Teachers **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 - **Results Driven Accountability**	25%	40%	65%	

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Teachers will use the district curriculum and instruction guide as their primary source of instructional direction for all subject areas. **Strategy's Expected Result/Impact:** Increased number of students meeting or exceeding STAAR standards per core content area. **Staff Responsible for Monitoring:** Campus Principals, Deans, Curriculum Specialists, Campus Administration. **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** Extra duty pay curriculum writing for Early Childhood Program - Title I (211) - Federal - $16,200	60%	75%	75%	

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Develop, implement, and monitor daily instructional schedules to ensure all subject areas are taught every day the appropriate allocated minutes and implement and monitor required lesson plans for Reading, ELA, Writing, Math, Science, and Social Studies **Strategy's Expected Result/Impact:** Increased student performance as measured by District and State assessments. **Staff Responsible for Monitoring:** Campus Principals, Deans, Curriculum Specialists, Campus Administration **Schoolwide and Targeted Assistance Title I Elements:** 2.5	80%	80%	85%	100%

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Obtain and provide program manipulatives, models, consumable, non-consumable materials and any other classroom instructional materials or resources for all core content areas and all student populations. **Strategy's Expected Result/Impact:** Inventory aligned to core curriculum materials and purchase orders. Increased percentage of all students meeting District, State, and Federal Standards (STAAR, TELPAS, & PBMAS.) **Staff Responsible for Monitoring:** Campus Administration, Asst. Supt. for Curriculum and Instruction, and Core Content Directors. **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** - Title IV 289	70%	70%	80%	

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Provide research based staff development aligned to performance data measured by District, State, and Federal accountability indicators to include:response to intervention(RTI), data utilization, technology, core state adopted textbooks, supplemental programs, research based strategies for ELL's, research based instructional strategies for, classroom management, and discipline (teaching) for appropriate behavior. **Strategy's Expected Result/Impact:** Professional Development District Plan, training agendas, and sign-ins. Increased instructional effectiveness and student performance as measured by grades and state assessment outcomes, decreased at risk learners, decrease in referrals, and decrease in behavior referrals. **Staff Responsible for Monitoring:** Asst. Supt. for Curriculum and Instruction, Core Content Directors, District Staff Development Coordinator, Campus Administration, Department Chairs, Head Teachers, Technology Director, and Bilingual Director. **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** RLA Department - Title I (211) - $4,000, RLA Department - Local (199) - $1,000	50%	70%	80%	

Strategy 6 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 6: Monitor implementation of best instructional practices presented during professional development and all staff training. **Strategy's Expected Result/Impact:** Lesson Plans, walkthroughs, classroom visits, progress monitor documentation and student academic outcomes. **Staff Responsible for Monitoring:** Asst. Supt. for Curriculum and Instruction, Asst. Superintendent of Secondary Leadership, Core Content Directors, Campus Administrations, District Strategists, and Teachers. **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** - Title II (255) - 255.13.6329.00.817.24.0.00 - $1,000	25%	50%	85%	

Strategy 7 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 7: Improve supports to struggling learners by improving interventions, resources, and training, and articulate those interventions in documented meetings, lessons, parent contacts, team meetings, data analysis, and revolving follow up. **Strategy's Expected Result/Impact:** Decreasing number of struggling students requiring tutoring and or intervention. **Staff Responsible for Monitoring:** Campus Administrations, Teachers, Support Staff, Program Directors, Core Content Directors, District Strategists, 504/RtI/Dyslexia Director, Bilingual Director, Asst. Supt. for Support Services, and Asst. Supt. for Curriculum and Instruction. **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	40%	60%	90%	

Strategy 8 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 8: Implement district initiatives such as Guided Reading, 5E Model, Anchor Charts, Word Walls, Vocabulary Development, Interactive Notebooks/Journal, Student Portfolios, Best-Practices Strategies, Sheltered Instruction, Dual Language Biliteracy Model, College Readiness Activities, Literacy Stations, Technology, Software including but not limited to: Accelerated Reading, myON, STEMScopes, Edusmart, I-Station, Imagine Learning Language and Literacy, Abydos, Frogstreet, DLM kits, Circle Curriculum, Reading A-Z, Imagine Math and Edgenuity **Strategy's Expected Result/Impact:** Walkthroughs and Increased student performance as measured by district and state assessments. **Staff Responsible for Monitoring:** Asst. Supt. for Curriculum and Instruction, Core Content Directors, Campus Administration, and Teachers **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** 2018-2019 Imagine Math - Title I (211) - $96,000, 2018-2019 Reasoning Mind:Blueprint - Title I (211) - $24,999, 2018-2019 STEMScopes - Local (199) - $32,754, 2018-2019 Edusmart - Local (199) - $5,000, 2018-2019 iStation - Local (199) - $141,632.98, 2018-2019 Reading A-Z - Local (199) - $83,625, 2018-2019 DLM Kits for Pre-K Implementation - Title I (211) - $12,642, 2018-2019 DLM Kits for Pre-K Implementation - State Comp.(164) - $12,642				

Strategy 9 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 9: Ensure the district's program for English Learners is research based, responsive to the needs of students, designed, implemented, supported, and monitored for impact on student learning. **Strategy's Expected Result/Impact:** Increased student performance as measured by district and state assessments and TELPAS. **Staff Responsible for Monitoring:** Director of Bilingual Education, Asst. Supt. for Curriculum and Instruction, Core Content Directors, Campus Administrations, and Teachers. **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6				

Strategy 10 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 10: Determine and use student assessment instruments to monitor progress by aligning purpose, parameters, and effective number of assessments. The district shall design and use a variety of assessment approaches in determining the effectiveness of the planned and written curriculum, the taught curriculum, and instructional programs. **Strategy's Expected Result/Impact:** Assessment Reports **Staff Responsible for Monitoring:** Asst. Supt. for Curriculum and Instruction, Core Content Directors, Campus Administration, and Teachers. **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** Testing Materials - Local (199) - 6339- STAAR Released Tests for Benchmarks - $19,208	80%	85%	85%	100%

Strategy 11 Details	Reviews

	Sept	Dec	Mar	June
Strategy 11: Streamline Special Education, 504, RTI, and LPAC process documentation into one data base. This will provide consistency in paperwork and easy access to multi-identified students. **Strategy's Expected Result/Impact:** Faster turnaround documentation for dual coded students. Decrease overlap of accommodations and paperwork for said students. **Staff Responsible for Monitoring:** Special Population Directors and Campus Administration **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 - **Results Driven Accountability** **Funding Sources:** - Bilingual (162) - $32,400, - State Special Ed. (165) - $26,975, - State Comp.(164) - $14,665	0%	70%	75%	→

Strategy 12 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 12: The Asst. Superintendent for Leadership-Secondary will attend Region One Staff Development and meetings to learn about state and federal changes or updates. In addition, the Asst. Superintendent for Leadership-Secondary will attend conferences such as the Texas Assessment Conference and others that may pertain to the area of secondary education. **Strategy's Expected Result/Impact:** Information will be shared with district personnel and secondary principals. **Staff Responsible for Monitoring:** Superintendent of Schools **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** - Teacher/Principal (255) - 255.21.6411.00.817.24.0.00 - $3,000	80%	80%	90%	✗

0% No Progress 100% Accomplished → Continue/Modify ✗ Discontinue

Goal 1: Donna I.S.D will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. The district will also implement a Math Proficiency Plan (MPP) for the early grade levels that will result in more students meeting grade level standards.

Performance Objective 2: Bilingual/ESL: Facilitate K-2 Reading Level Monitoring. 100% of teachers serving identified LEP students will receive support in the understanding of language, literacy, and content interdependence.

Evaluation Data Sources: Istation, Eduphoria (Workshop and AWARE), Master Schedules, TELPAS, PBMAS

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Train teachers on pedagogy (sheltered instruction, language acquisition methodologies.) that addresses the needs of the LEP population, and acquire resources to assist teachers in providing linguistically accommodated instruction and assessment to ELLs (Brewester's Guacamaya Enterprises, Pearson, American Learning Company Velasquez Press, National Geographic, Houghton Mifflin, American Reading, Dr. Steven Schneider, Scholastic grammar books, Learning A-Z, Millmark Education, Poetry Friday, Wings Press, Overlooked Books, Brilliant Education, Lupe Lloyd and Associates, Teacher Created Materials, Seidlitz Education, Istation etc.). **Strategy's Expected Result/Impact:** requisitions; use in classrooms; inclusion in lesson plans **Staff Responsible for Monitoring:** ELA Directors, Campus Administrators **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** purchase of texts - Bilingual (162) - $83,625, - Title III (263) - $10,800, - Local (199) - $8,500	35%	70%	85%	

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Maintain up-to-date instructional/assessment technology, resources, materials, and/or supplies in bilingual, ESL, SLD, ELD, ESL Co-Teaching, ESOL, and LUCHA classrooms/department in order to serve students more effectively; update administrative technology/materials,resources/supplies and/or fixed assets (shelving, desks, tables) as needed to facilitate bilingual/ESL program management. (Gateway, Mid Valley Supply, Barnes & Noble, Lakeshore, DISD Warehouse, Cielo Office Products, Riverside Insights, DRC, etc...) Renew Reading A-Z annually as part of this initiative. **Strategy's Expected Result/Impact:** use of technology/supplies/ in instruction; enhanced TELPAS and STAAR scores for students utilizing technology **Staff Responsible for Monitoring:** Director, Principals **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** technology and training - Bilingual (162) - $10,000, - Title III (263) - $2,000, - Local (199) - $30,000	35%	50%	70%	

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Train a cadre of teachers to develop and foster the use of on-line, vertically and horizontally aligned ESL and ELD curricula that integrate TEKS, ELPS and CCRS and that incorporate authentic readings, performance tasks and research-based instructional strategies sequenced in detailed units. Craft TELPAS-aligned benchmarks to track linguistic development. **Strategy's Expected Result/Impact:** curriculum units; lesson plans and instruction that effectively utilize curricula **Staff Responsible for Monitoring:** Director and ELL strategists **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** - Bilingual (162), - Title III (263), - Local (199)				

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Enhance teacher / administrator quality by reimbursing teachers for Bilingual/ESL Certification / Bilingual/ESL state exams for certification, and/or providing teachers opportunities to participate in post graduate degrees in the areas of Bilingual/ESL. **Strategy's Expected Result/Impact:** walkthroughs, lesson plan reviews, student scores on TELPAS and STAAR **Staff Responsible for Monitoring:** Director **Schoolwide and Targeted Assistance Title I Elements:** 2.4 **Funding Sources:** - Title III (263) - $8,000, - Bilingual (162) - $1,000				

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Facilitate the bilingual/ESL education director, ELL strategists, Core Content Directors, Core Content Strategists, Campus Administrators, and Teachers' attendance of training sessions, school visits, and conferences (such as Title III, TABE, School Improvement, Testing, Administrator, Region One, ABYDOS, Assessment Conference, Texas Assessment Conference, Writing Academy, ACET etc...) in order to keep up-to-date on latest state and federal accountability changes as well as best practices for the department in order to provide cutting-edge training and support. **Strategy's Expected Result/Impact:** training sessions turned around for district staff **Staff Responsible for Monitoring:** Directors and/or Campus Administration **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** - Local (199) - $5,000, - Title III (263) - $9,000, - Bilingual (162) - $19,625, - Teacher/Principal (255) - $23,000				

Strategy 6 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 6: Support the attendance by parent liaison of local and state parent conferences to learn strategies for student support that they will then convey in regular parental meetings as well as informing parents about the district's bilingual/ESL model. **Strategy's Expected Result/Impact:** meeting minutes and sign-ins **Staff Responsible for Monitoring:** director **Schoolwide and Targeted Assistance Title I Elements:** 3.2 **Funding Sources:** - Bilingual (162), - Title III (263)				

Strategy 7 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 7: Yearly training of campus administration and teachers on time and treatment model. Also, adjustment of bilingual and ESL model according to needs assessment. **Strategy's Expected Result/Impact:** Eduphoria staff development report and/or sign in sheets. **Staff Responsible for Monitoring:** Bilingual/ESL Director and Strategists **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** Presentation/Instructional materials, TNTP Pro - Bilingual (162), - Title III (263)				

Strategy 8 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 8: Coordination between Bilingual Department and Core Subject Departments (Curriculum, Strategists, and/or Directors) to ensure district-wide alignment of sheltered instruction, lesson planning, instructional resources/materials, instructional frameworks ,and/or curriculum. **Strategy's Expected Result/Impact:** Sign in sheets **Staff Responsible for Monitoring:** Bilingual/ESL Director and Core Area Directors and strategists. **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** Presentation/Instructional Materials - Bilingual (162), - Local (199), - Title III (263)				

Strategy 9 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 9: Inclusion of ELD/SLD classes in campus master schedule for ELL students. ELD/SLD is according to the group placement and language of instruction the students receive in language arts. **Strategy's Expected Result/Impact:** Master Schedules **Staff Responsible for Monitoring:** Bilingual/ESL Department and Campus Administration **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6				

Strategy 10 Details	Reviews

The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. The district will also implement a Math Proficiency Plan (MPP) for the early grade levels that will result in more students meeting grade level standards.

Performance Objective 5: The district will focus on instructional improvement resulting in all students meeting goals for all accountability measures. The percentage of K-3 students reaching Meets and/or Masters as measured by the EOY Imagine Math assessment will increase annually as specified by grade level and year in Board Goal 1 and the various GPMs.

HB3 Goal

Evaluation Data Sources: Imagine Math and 3rd Grade STAAR

Performance Objective 18: Transportation Director

Evaluation Data Sources: Fleet Vision

Goal 5: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 19: Fleet vision is a software system that will upgrade our inventory and communicate with our mechanic's. Our goal is to have accountability with parts being used and a faster process with handling mechanical work. Our fleet vision team has trained our bus drivers to input information using a computer and the information will give a estimated count to our inventory clerk. The information provided by the bus driver will also be relayed to our head mechanic. Work orders are then created and given to the mechanic that specializes in the area that is wrong with the school bus. Fleet Vision will help with spending and cost organization. When Fleetvision is at full used at full capacity it will change the department into a computer oriented department.

Goal 5: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations.

Performance Objective 20: Academic Support: Implement and monitor Positive Behavior and Intervention Supports (PBIS) throughout participating campuses to decrease student discipline by 5%.

Donna Independent School District
2018-2019
Translation Procedure

Purpose:

Donna I.S.D. will take practicable steps to ensure that parents, guardians, and other English Learners have access and equal opportunity to important school information. Information will be provided in an understandable and uniform format, and to the extent practicable, in a language that parents/guardians can understand [Section 1112(e)(4); 114(b)(4); 1116(e)(5); 1116(f)].

Types of Translation Available:

Language assistance will be provided through a bilingual staff interpreter, written translated materials and documents, and technology-assisted website translation capabilities.

Data Used to Determine Translation Needs:

Donna I.S.D. will conduct annual review of the language access needs of our parents, guardians, and others through review of the Home Language Forms, district/campus ethnicity data, and educator/parent/student feedback and requests.

Based on this analysis, the district has determined that they will provide information in the following languages: __Spanish_____

Documents/Information to be Translated:

The District/Campus(es) Improvement Plan(s) and the Parent Family Engagement written policy(ies) will be available in Spanish and available upon request verbally via an interpreter or via website translation capability.

Written parent newsletters from the Parent Family Engagement State-Wide Initiative will be provided to parents/guardians in the identified language(s).

School Parent Compact written information will be translated into the identified language(s). Teacher-Parent Conferences (Compact) will be conducted in the presence of a staff interpreter.

Written reports will be translated into the identified language for the parent/guardian. Further explanation or detail on the report will be provided to the parent/guardian via a staff interpreter.

Monitoring:

On an ongoing basis, Donna I.S.D. will assess changes in demographics, types of services or other needs that may require reevaluation of this procedure. In addition, Donna I.S.D. will regularly assess the efficacy of these procedures used for the delivery of language assistance.

Priority for Service (PFS) Action Plan
for Migrant Students

As part of the Every Student Succeeds Act (ESSA), the Priority for Service (PFS) Action Plan is a required program activity for the Migrant Education Program. In providing services with funds received under this part, each recipient of such funds shall give priority to migratory children who have made a qualifying move within the previous 1-year period and who are failing, or most at risk of failing, to meet the challenging State academic standards; or have dropped out of school. [§1304 [20 U.S.C. 6394](d)].

The Priority for Service Report on NGS must be used to determine who to serve first and foremost with MEP funds. Students are identified as PFS if they meet the following criteria:

Priority for Service Criteria	
Grades 3-12, Ungraded (UG) or Out of School (OS)	• Who have made a qualifying move within the previous 1-year period; AND • Have a received grade level of "approaches or not meet" on the state assessments (STAAR), were Absent, Not Tested* or were not enrolled in a Texas school during the state assessment testing period for their grade level.
Grades K-3	• Who have made a qualifying move within the previous 1-year period; AND • Have been designated LEP in the Student Designation section of the New Generation System (NGS) Supplemental Program Component; or • For students in grades K-2, who have been retained, or are overage for their current grade level.

The following document is provided by TEA for districts to help document efforts that are being conducted on behalf of Priority for Service students. It contains all of the required components as described in Part 4 of the ESSA Application in the Provisions and Assurances, but also allows room for districts to add additional activities. Each district's plan must clearly articulate criteria for defining student success, including timelines for achieving stated goals and objectives.

NOTE: *This document can be obtained electronically in MS Word format from the regional ESC MEP Coordinator.*

*The State of Texas Assessments of Academic Readiness (STAAR®) were not being administered during the spring or summer of the 2019–2020 school year.

School District: Donna	**Priority for Service (PFS) Action Plan**	Filled Out By: Velma Rangel
Region: I	**School Year: 2021 - 2022**	Date: 08/05/2021

Note: *Title I, Part C Coordinator or MEP staff will include the PFS Action Plan in the district improvement plan as a separate section appropriately labeled or identified (e.g., "Migrant PFS Action Plan Section"), rather than integrating the action plan elements with other DIP sections that focus on other student population groups (e.g., Bilingual, ESL, economically disadvantage).*

Goal(s):	**Objective(s):**
To better serve Migrant Priority for Services students by providing instructional and support services that will ensure student success.	**100% of PFS students will have access to instructional and support services.** **PFS students will increase the Meets passing rate by 5% in the State Academic Achievement Standards (STAAR) in Reading and Math.**

Required Strategies	Timeline	Person(s) Responsible	Documentation
Monitor the progress of MEP students who are on PFS.			
▪ Monthly, run NGS Priority for Service (PFS) reports to identify migrant children and youth who require priority access to MEP services.	Monthly	• MSC • NGS Clerk	• PFS Monthly Report
▪ Before the first day of school, develop a PFS Action Plan for serving PFS students. The plan must clearly articulate criteria for defining student success, including timelines for achieving stated goals and objectives.	Monthly	• MSC	• PFS Action Plan
Additional Activities			
Data from benchmark testing as well as Imagine Learning reports will be reviewed for PFS students. ▪ Reading will be the focus for PFS students in grades K-2 ▪ STAAR testing for Reading and Math and course completion will be the focus for PFS students in grades 3-12.	Monthly	• MSC • Migrant Strategist • Migrant Family Services Coordinator	• Contact Report • PFS Student Progress Review Form

		• Migrant Community Liaison • Curriculum Specialist	• PFS Student Action Plan
PFS Implementation Process will be secured	Twice a year	• PFS Contact	• Progress Review Form
Required Strategies	**Timeline**	**Person(s) Responsible**	**Documentation**
Communicate the progress and determine needs of PFS migrant students.			
▪ During the academic calendar, the Title I, Part C Migrant Coordinator or MEP staff will provide campus principals and appropriate campus staff information on the Priority for Service criteria	Yearly	• Migrant Strategist • Migrant Family Services Coordinator • Migrant Community Liaison	• Sign-In sheet for campus training • Email
▪ During the academic calendar, will provide campus principals and appropriate campus staff updated NGS Priority for Service reports.	Monthly	• Migrant Strategist • Migrant Community Liaison • MSC	• PFS Monthly Distribution Log • Email
▪ During the academic calendar, the Title I, Part C Migrant Coordinator or MEP staff will provide parents of PFS students information on the Priority for Service criteria.	Sept - June	• MSC • Migrant Strategist • Migrant Family Services Coordinator • Migrant Community Liaison	• Parent Contact Log • PAC Meeting Agenda • Sign-In Sheet
▪ During the academic calendar, the district's Title I, Part C Migrant Coordinator or MEP staff will make individualized phone, school, home and /or community visits to update parents on the academic progress of their children.	Sept - June	• Migrant Strategist • Migrant Family Services Coordinator • Migrant Community Liaison	• Parent Phone Contact Log • Homevisit/Parent Contact Log • PFS Student Progress Review • TEAMS report

Additional Activities			
▪ During the fall semester of the academic calendar the district's Title-1 C Migrant Coordinator/MEP staff will provide training to Elementary Curriculum Specialists on procedures to complete the PFS Progress Review Report.	Oct 2021	• Migrant Strategist • Migrant Family Services Coordinator • Migrant Community Liaison	• Sign-In sheet/log • Agenda
▪ District websites, Marquees, Social Media will be utilized as communication tools.	Ongoing	• MEP Staff	• Email • Public notice
Provide services to PFS migrant students.			
▪ The district's Title I, Part C migrant coordinator or MEP staff will use the PFS reports to give priority placement to these students in migrant education program activities.	Sept - June	• MSC • Migrant Strategist • Principal/designee	• Migrant Lab MEO Student Sign-In for grades 6-12 • Student Supplemental Service Sign-In sheet
▪ The district's Title I, Part C migrant coordinator or MEP staff will ensure that PFS students receive priority access to instructional services as well as social workers and community social services/agencies.	Sept - June	• MSC • Migrant Strategist • Principal/designee • Migrant Lab Teacher	• Migrant Lab MEO Student Sign-In for grades 6-12 • Student Sign-In sheet • Referrals to Social Services/Agencies
▪ The district's Title I, Part C migrant coordinator or MEP staff will determine what federal, state, or local programs serve PFS students.	Sept - June	• MSC • MEP Staff	• List of federal, state and local funded programs serving PFS students. • Master List of Services

Donna Independent School District

Donna High School

2021-2022 Campus Improvement Plan

Mission Statement

The mission of Donna ISD is to provide a rigorous and supportive learning environment with meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking that ensures educational excellence for all students.

Vision

The vision of Donna ISD is to be a bold district at the forefront of educating all students to be passionate, motivated leaders who will be a powerful force for positive change in our community, state, and nation.

Core Beliefs

1. We believe that every student can perform at or above grade level and graduate prepared for college and/or the workforce. As a result, we are determined to:
    - provide a vertically aligned rigorous curriculum (PK-16).
    - provide well-planned student-centered instruction that focuses on project-based learning with real world connections.
    - provide accurate, meaningful and authentic assessment of students' mastery of knowledge and skills.
2. We believe that educators have the most powerful impact on student achievement. As a result, we are determined to:
    - attract and retain highly qualified staff.
    - provide ongoing targeted staff development.
    - provide the most current research-based and state of the art instructional resources.
3. We believe that educational equity and excellence will eliminate the achievement gap. As a result, we are determined to:
    - provide opportunities for every student to learn in a manner that is consistent with his/her learning style.
    - afford each student targeted instructional interventions to ensure academic success with a rigorous and relevant curriculum.
    - provide every student with equal access to outstanding, well-prepared teachers and high quality instructional resources
4. We believe that every student must be educated in a safe, welcoming, effective, and innovative learning environment. As a result, we are determined to:
    - enforce the policies of the Donna Independent School District's adopted Student Code of Conduct.

- provide security measures at all campuses to establish a learning climate of mutual respect.
- ensure that every staff member, campus, and classroom is supportive of all students and their unique differences.

5. We believe that our school district must be a model for sound fiscal responsibility and integrity. As a result, we are determined to:

- establish policies and procedures to promote ethical practices in all areas of fiscal management.
- provide periodic audits to ensure that all staff and outside providers are committed to following sound fiscal practices.
- provide staff training to encourage ethical conduct and a commitment to compliance with the state and federal laws.

6. We believe that engaged parents and guardians impact a student's academic and personal development. As a result, we are determined to:

- Schedule Parent Sessions to inform parents about the academic programs and instructional opportunities available to their child.
- accommodate parents' work schedules when creating parent involvement opportunities.
- Keep parents informed of their children's performance and school activities (i.e. notes, telephone calls, newsletters, conferences, meetings, etc.).

7. We believe that a supportive community is fundamental to achieving and sustaining our success. As a result, we are determined to:

- involve community members by inviting them to serve on school and district committees.
- develop partnerships with business, civic, and academic organization to provide opportunities for students to develop leadership and citizenship skills.
- ensure that our community is supportive of the district's goals by informing the community of pertinent school activities and successes.

8. We believe that communication, collaboration, and coordination at all levels are essential to district success. As a result, we are determined to:

- work as unified team to find solutions to the district's most pressing issues.
- require that every project specify the persons responsible to facilitate proper coordination of efforts.
- develop a communication plan for every new initiative in order to ensure that all stakeholders are well informed.

Priority Problem Statements 29

Comprehensive Needs Assessment Data Documentation 30

Goals 32
- Goal 1: Donna High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal standards. The campus will implement literacy strategies that will result in more students reading on or above grade level. 33
- Goal 2: Donna High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 37
- Goal 3: Donna High School will create an instructional environment that will enhance the learning and academic performance of all students and increase the percentage of graduates demonstrating college/career/military readiness. 52
- Goal 4: Donna High School will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 72
- Goal 5: Donna High School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 83
- Goal 6: Donna High School will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 112

Campus Funding Summary 115

Comprehensive Needs Assessment

Demographics

Demographics Summary

FOCUS QUESTIONS

1. What do enrollment numbers indicate?

- The total enrollment number for 2019-2020 is 2,094 students' vs 2046 in the year 2017-2018. Out of those, 1,892 are classified as economically disadvantaged (90%), 699 are classified as ELL (33%), and 1,490 are classified as at risk (71%).
- Total attendance for the campus for the year 2017-2018 stood at 90.9%. For special populations, SPED was at 87.5% attendance, economically disadvantaged was at 90.7%, and ELL stood at 89.5%.
- Graduation data is available for the year 2018 as follows. The 4-year graduation rate for the campus was 91.8%. SPED graduation rates fell below the average at 83.3%, economically disadvantaged was 90.8%, and ELL was at 84.3%. Graduation percentages decrease as we begin to look at 5-year and 6-year graduation plans.
- The student-to-teacher ratio when divided equally, is 14.6: 1. The national average is 16:1. This is not counting administrators, inclusion teachers, counselors among other positions.
- Enrollment numbers indicate growth is consistent. Current enrollment, based on the latest TEA Texas Academic Performance Report (TAPR), is 2,046 with 90.3% labeled economically disadvantaged, 29.6% ELL, and 73.5% At-Risk. They are crucial for staffing, budgeting, and classroom allocation for future needs and to plan accordingly.

2. What is the breakdown by ethnicity, gender, or other categories?

Am. Indian/Alaskan: 0%

Hispanic: 99.5%

White: 0.2%

Asian: 0.0%

African American: 0.2%

3. How has enrollment changed over the past three years?

- Enrollment has slightly increased every academic year by a few students. In the year 2017-2018, enrollment count was 2044; enrollment for the year 2018-2019 was 2046, and enrollment count for the year 2019-2020 was 2094. Since enrollment numbers have been consistent, the reason for the slight increase is unknown.
- STAAR EOC scores increased from the school years 2017-2018 to 2018-2019 in all three classifications (approaches, meets, and masters) across all three subject areas (math, reading, and science).

4. What is the number of students in each program? How do these program numbers look broken up by ethnicity, gender, or other categories? Are we over or underrepresented in certain groups? Why?

- Student enrollment over the past three years has increased and with it, the numbers in each program as well.

- Based on 2019-2020 here is the breakdown by program:

Special Education counts 223 students.

Career and Technology CTE: 1811 students.

Gifted and Talented: 267 students

English Language Learners: 699 students

Migrant: 153 students

Immigrant: 22 students

Economically Disadvantaged: 1892 students

Title 1: 2094 students (all students)

ESL: 622 students

At Risk:1490 students

Special Education: 223 students

Total Homeless:48 students

Total Dyslexic:12 students

5. What is the data for special programs over time?

- Even though there has been an increase in students and programs, our EOC data has fluctuated in some areas. Longitudinal EOC data reflect an overall increase in students' performance. EOC scores for students in the Special Education setting have slightly increased in approaches, meets, and masters for English I and English II. There was a slight increase in approaches for Algebra I but a decrease in meets and stayed the same for masters. Biology in 2017-2018 was at 44%, it increased in 2018-2019 up to 54%, but later decreased in 2019-2020 to 51% for approaches and meets but gained a 1% increase in masters. US History, on the other hand, went up on approaches, down on meets, and stayed the same for masters.
- Students in the ELL program demonstrated an increase in approaches, meets, and masters for English I, English II, Algebra I, and US History. Students in Biology increased in meets and masters over the three years but decreased in approaches.

6. What does the data reflect regarding students who exit from special programs? How many? Who are they? What trend or pattern do we see?

- There are set criteria for students to exit any of the special programs. For instance, in Special Education, a student must have met all EOC's standards and be passing their classes independently. If they do, then we have an ARD meeting where we indicate there is no educational need, review all data and make a decision. Similarly, some students will exit the 504 programs when they have mastered the EOC Assessments required for graduation and have been successful in the classroom.
- For students in LEP status, 9th-12th, they must receive TELPAS Advanced High in each domain of Listening, Speaking, Reading, and writing plus receive a teacher evaluation from their current English teachers. Plus 9th-grade students must also pass their English I EOC, 10th graders must pass their English II EOC, and 11th/12th graders must pass the IOWA Form F in Reading/Language with a 10th percentile or above.

- The trend has been that students are not exited from the program unless they meet the exit criteria, graduate, or drop out. Over the past few years, we have realized students exit special programs for various reasons such as change of endorsement, career/personal interests evolve, pass/fail EOC Assessments/TELPAS, or other diagnostic indicators that determine admission/exit from special programs.
- Overall, the number of students in the special programs appears to be increasing which is consistent with the EOC numbers.

7. Who are our at-risk students? What is their at-risk category?

- Based on current data and academic assessments and grades, 67.48% of our student population at Donna High School is classified as At-Risk. Over the past three years, our percentages have been decreasing.

2020-2021: 1378 students 67.48%

2019-2020: 1490 students 71.16%

2018-2019: 1503 students 73.46%

- For a student to be categorized as AT RISK, they must meet one of the 14 indicators. The 14th indicator was recently added.
- AT-RISK-INDICATOR-CODE indicates whether a student is currently identified as at-risk of dropping out of school using state-defined criteria only (TEC §29.081, Compensatory and Accelerated Instruction). Please note that a student with a disability may be considered to be at-risk of dropping out of school if the student meets one or more of the statutory criteria for being in an at-risk situation that is not considered to be part of the student's disability. A student with a disability is not automatically coded as being in an at-risk situation. Districts should use the student's individualized education program (IEP) and other appropriate information to make the determination.
- A student at-risk of dropping out of school includes each student who is under 21 years of age and who:
    - is in grade 7,8,9,10,11, or 12 and did not maintain an average equivalent to 70 on a scale of 100 in two or more subjects in the foundation curriculum during a semester in the preceding or current school year or is not maintaining such an average in two or more subjects in the foundation curriculum in the current semester;
    - was not advanced from one grade level to the next for one or more school years;
    - did not perform satisfactorily on an assessment instrument administered to the student under TEC Subchapter B, Chapter 39, and who has not in the previous or current school year subsequently performed on that instrument or another appropriate instrument at a level equal to at least 110 percent of the level of satisfactory performance on that instrument;
    - is pregnant or is a parent;
    - has been placed in an alternative education program following TEC §37.006 during the preceding or current school year;
    - Has been expelled following TEC §37.007 during the preceding or current school year;
    - is currently on parole, probation, deferred prosecution, or another conditional release;
    - was previously reported through the Public Education Information Management System (PEIMS) to have dropped out of school;
    - is a student of limited English proficiency, as defined by TEC §29.052;
    - is in the custody or care of the Department of Protective and Regulatory Services or has, during the current school year, been referred to the department by a school official, officer of the juvenile court, or law enforcement official;
    - is homeless, as defined NCLB, Title X, Part C, Section 725(2), the term "homeless children and youths", and its subsequent amendments; or
    - resided in the preceding school year or resides in the current school year in a residential placement facility in the district, including a detention facility, substance abuse treatment facility, emergency shelter, psychiatric hospital, halfway house, or foster group home.
    - Low-income students along with minorities.
- At-Risk Code 14: Has been incarcerated or has a parent or guardian who has been incarcerated, within the lifetime of the student, in a penal institution as defined by Section 1.07, Penal Code.

8. Who are our Migrant students?

- A migrant student is a child between 3 and 21 years of age who is, or whose parents, spouse, or guardian is, a migratory agricultural worker, who, in the preceding 36 months, has moved from one district to another to obtain or to accompany such parent, spouse or guardian for temporary or seasonal employment.

- Migrant enrollment at Donna High School during the 2019-2020 school year was **332** students, which is **14.5%** of the student population.

9. What is the mobility rate for this campus? What is the stability rate? How are these numbers represented for Migrant students?

2017-18	2018-19	2019-20
Total Enrollment: 2044	Total Enrollment: 2046	Total Enrollment: 2094
Mobility Percent: 17.0%	Mobility Percent: 15.1%	Mobility Percent: 14.5%
Students- 347	Students- 308	Students- 304

- Based on the TAPR and PEIMS snapshot submissions, mobility rate is determined by dividing mobility rates by total enrollments. Over the past three years, our mobility rate has slightly decreased. However, this has not affected testing areas since we have overall increased in EOC approaches standards.

MIGRANT 2018-2019

Students- 202

Moved- 94

Mobility- 47%

- Mobility rates are higher for Migrant students. Hispanics take almost 98% of the migrant population. Migrating affects students learning, their school year gets interrupted when they leave or when they arrive from other places. They fall behind on credits, then spend time during the school year to catch up on credits, all while still attending a full schedule. This in turn has affected their EOC results as well.

10. What area of the community do these students come from?

- Some of the students that attend the campus are from the neighboring cities that fall into our district due to the district lines. However, the majority of our students come from low-income areas that surround the campus, mostly from the south side of the town.
- Other students come from neighboring school districts, zoned rural subdivisions, colonias, and within city limits. Migrant students live outside the city limits that include subdivisions either near or on the poverty line.

11. What are the staff demographics?

- The most current information for teacher demographics was from the TAPR report 2018-2019. Current data indicates we have the following percentages:

African American: 0.06%

Hispanic: 94.1%

White: 3.3%

Asian: 2%

- Over the past three years, there has been a slight increase in the number of Hispanic teachers as well as white teachers that work for the campus.

African American: 2017-2018: 0.7%

2018-2019: 0.6%

Hispanic: 2017-2018: 94.6%

2018-2019: 94.1%

White: 2017-2018: 2.7%

2018-2019: 3.3%

American Indian: 2017-2018: 2.0%

2018-2019: 0.0%

Asian 2017-2018: 0.0%

2018-2019: 2.0%

Males: 2017-2018: 49.7%

2018-2019: 51.4%

Female: 2017-2018: 50.3%

2018-2019: 48.6%

12. What are the teacher/student ratios? How do these ratios compare to performance?

- According to the latest TAPR, the student/teacher ratio is 13.4 to 1 - the same as last school year and lower than previous years. This lower ratio has helped teachers be able to prepare and deliver more tailored learning experiences and students are less likely to become distracted in a smaller classroom setting. Students have generally struggled in English STAAR EOC assessments and Advanced Placement Exams.

13. What are the teacher qualifications, certifications, etc.? Paraprofessionals?

- Teachers must be certified in their teaching field. Paraprofessionals must have a high school diploma and a required number of college hours. PPR, Content area and ESL certification are required for teachers.
- Current data is not available at the moment but in 2018-2019, 2.5% of teachers had no degree, 77.1% had a Bachelors, 19.9% had a Masters, and 1.1% a Doctorate. This data reflects a decrease in teachers with no certification by 0.6%, a decrease of teachers with a Bachelor's degree by 1.9%, an increase in teachers with a master's by 3.1%, and a decrease of teachers with a Doctorate by 0.1%.
- In both years, teachers have slightly increased in the years of experience by subgroups (1-5, 6-10, and 11-20).

14. What does the general data reflect regarding teacher quality on the campus?

- Teachers are "highly qualified", which means having a bachelor's degree and a certificate in their specific teaching field. Many teachers have obtained a master's degree, which increased from 16.8% to 19.3%, and some have a doctorate. Teachers have been evaluated and meet evaluation requirements to have their contracts renewed. All teachers are highly qualified in their content area; however, some are pending program certification.
- Teacher quality is being reflected in the slight increase in student assessment results.

Demographics Strengths

1. Communication between special population departments to help each other track student progress and improve services all around.
2. Strong administrative support
3. High percentage of Hispanic students enrolled in advanced courses (Dual/Concurrent Enrollment/ AP Courses)
4. High level of student participation in special programs
5. Significant increase in academic success for students enrolled in special programs
6. Licensed Professional Counselor assigned to campus for support
7. Teachers provide modified work for special populations.
8. TSTEM Academy
9. Expansion of AP/CC Curriculum
10. Students partake in Advanced/AP/CC/UT OnRamps courses
11. Truancy Officer on campus
12. TSI Prep Classes

Problem Statements Identifying Demographics Needs

Problem Statement 1: Algebra 1, Biology, and US History EOC scores need improvement.

Problem Statement 2: Low TSI participation.

Problem Statement 3: High retention rates for teachers and students.

Student Learning

Student Learning Summary

FOCUS QUESTIONS

1. How is the student achievement data disaggregated?

- Six Weeks Exams
- Benchmarks
- Semester Exams
- STAAR Test
- TELPAS
- Graduation Rate
- Dropout Rate
- School Report Cards
- Student Work
- Courses/Class Grades

We are utilizing the Eduphoria/ AWARE system which gives instant results and information regarding an assessment. This program provides feedback regarding student mastery (or non-mastery) of specific objectives and concepts. Bundle & Benchmark data is utilized and disaggregated in AWARE and by each department. Results are disaggregated by TEKS, bundle assessments, and EOC scores. Student achievement data is also disaggregated via principal presentations, Instructional Action Plans, and Student Self Reports. Student data is separated by demographics and accommodations. This data is collected through bundle scores, TELPAS scores, state data, and content area scores" (DHS Campus Improvement Plan, 2020).

2. How does student achievement data compare from one data source to another?

- From one source to another the data seems to suggest that STAAR is a good indicator of how they are doing on EOC and other data sources. Most demographic groups scored below the state level (24%) at Master Grade Level in 2019 (DISD Campus Improvement Plan, 2020). "Benchmark results, bundle exams, and STAAR EOC results are showing an increase as the year progresses. Aware offers accurate data every Six Weeks and is at the teacher's disposal daily. The Principal's presentations are in-depth, and instructional action plans are detailed. The data varies in the content subject area, and in the standards that are set for student achievement." (DHS Campus Improvement Plan, 2020)

3. What does the data indicate when disaggregated by ethnicity, gender, socioeconomic status, special program, or other categories? (*Demographics)

- Data indicates the progress of students from socioeconomic status, LEP, Special Populations, and At-Risk.
- This indicates that the district is analyzing different student needs, and is making a positive effort to help the different types of students succeed.

4. In which areas are we showing growth? At what rate? Compared to which standard of achievement?

- Some students have shown growth during this virtual learning year. Some students who are tedious with routines are performing better than other students. However, the growth is limited. The main concern we have for limited to no growth in attendance in the classroom. Also, having students participate regularly in class and or turning in classwork.
- The skill levels in CT courses are limited due to most classes needing to be hands-on.

"We are maintaining growth concerning the general population. LEP scores are increasing in English and US History. The graduation rate is showing growth due to changes

in graduation requirements and IGC. DHS is showing growth in English I and English II STAAR percentage passing and has far surpassed others in the area of US History. Student growth can be seen in STAAR's persuasive and expository writings. Student portfolios are utilized to demonstrate growth from 1 to 5%. We are showing growth in Mathematics and Science. Our STAAR benchmark scores showed improvements from last year to the current year" (DHS Campus Improvement Plan, 2020).

5. Which students are making progress? Why? (*School Process)

- All student populations are making progress because instructors are utilizing data desegregation and accountability. Many programs, like the Ambassadors, target students at the 9th-grade level, which serves as a mentorship program. Diverse Learners, LEP students, and At-Risk students are all making progress, even if at times minimal. Accommodations are utilized to assist students.
- Campus implemented programs for credit recovery such as FAST PASS help students recover grades and give them the motivation to continue working in class.
- Our low socioeconomic status students are making progress because of the technological and academic opportunities provided through Donna ISD.

6. What impact are intervention programs having on student achievement? Which students are benefitting or not? (*Demographics)

- Intervention strategies and various programs have promoted student achievement and progress can be seen. The Edgenuity credit recovery program is helping students, in particular migrant students and failing seniors. Students attending weekly subject tutorials which were scheduled during Monday-English, Tuesday-Math, etc.) are receiving the assistance necessary to make gains both as course credit and STAAR scores. The mainstreaming of Diverse Learners and RTI have a positive impact on dedicated special education/504/RTI students, but low reading levels remain. There is an overall positive impact on all student groups. The "Be the Change Program", Ambassadors, NHS tutorials, and after-school tutorials improve grades and attendance. The intervention programs that are benefiting our Special Education population are inclusion, Kagan, and heterogeneous groups. It provides a more one-to-one structure as well as allows for peer tutoring.
- The inclusive intervention has a positive impact on student achievement for Special Education populations.
- The DHS CIP provides 10 comprehensive research-based support strategies to target goals. One of these offers summer and year-round English Language Development Academy (ELDA) for ESL/LEP students to target deficiencies in Reading & Writing, and provides funds for ELDA tutors to offer students extra academic support in these areas. It also includes the Students with Ideal Mentors (SWIM) Program and consultant services for ELs. These same programs could also be offered to our At-Risk students to get ahead or make up for lost classes due to attendance or deficiencies. Increased funding for these initiatives would help them serve more students.

7. What does the longitudinal student achievement data indicate?

- Data indicates progress is ongoing, and there is positive growth towards campus goals.
- Benchmark data shows that students are mastering the TEKS being tested and the passing scores are increasing yearly. Students with good support systems do well as compared with students without.:
    - There was a decrease in English I from 61% to 59%;
    - an increase in English II from 63% to 66%;
    - Algebra increased from 72% to 84%,
    - Biology increased from 77% to 85%, and
    - US History slightly increased from 92% to 93%.
    - Students who did not previously pass the STAAR test have passed the STAAR this year as a result of Math 9, Math 10, Math 11 classes.
    - CTE provides opportunities for all students that are looking to receive certifications before high school graduation. To complete their certification, students must start taking courses for their certification completion in 10th grade (DHS Campus Improvement Plan, 2020)

8. What does the data reflect within and among content areas?

- A positive trend in every area. Students are improving and mastering content. There was a significant increase in the tested areas of Biology and Algebra. Trailer courses have played a pivotal role in getting students to pass previously failed STARR exams. PLC's helped consolidate instruction. Intervention measures such as tutors, inclusion teachers, after school/weekend tutorials helped improve student achievement.

9. What does the data indicate when disaggregated at various levels of depth?

- Disaggregated data demonstrates the students' strengths and weaknesses at the various levels of depth.
- When EOC/benchmarks results are broken down by subject area objectives, teachers can determine where student performance is weak and strong. Modification of instruction follows this evaluation of student performance. ELLs and Diverse Learners still lag when compared to the rest of the student population. Other data indicate that the TEKS were not addressed with enough depth and, therefore, students did not master at a high rate. Also, previous year data is key in placing students in the correct trailer courses so that they may receive the appropriate remediation for failed EOC assessments. Special Education is lower in its STAAR participation rate, attendance rate, college and career readiness, and dual enrollment. However, our drop-out rate is higher than the state.
- Data allows us to pinpoint key weaknesses in online learning and TEKS not well comprehended virtually.

10. Which students are making annual progress? Which ones are making projected growth? Who are these students? How does this data compare across programs, content areas, subgroups, etc.? (*Demographics & School Process)

- Students at Donna High School are making annual progress.
- Data that is collected throughout the years shows how student scores are progressing across multiple demographics. There is not a single group of students at a disadvantage due to the opportunities provided by the district.
- Students with good attendance and minimal behavioral problems have shown annual progress. Students who are self-motivated and seek additional help have shown growth. Students in advanced courses, such as CC, AP, Pre-AP, and TSTEM are motivated to excel.
- CTE courses also provide opportunities for students to earn a certification in their field of choice.

11. What evidence exists to determine that the curriculum is clearly linked to the TEKS and other standards for student learning?

- During the DISD Academic Days, a select few update the curriculum guides and the instructional and assessment materials. The content of the curriculum itself and our workbooks are evidence that the curriculum is clearly linked to the TEKS and student learning standards. Teachers must follow the timeline provided for each course, are expected to use Forethought when lesson planning, and AWARE to analyze data tested every six weeks.
- Results from state exams, benchmarks, bundle assessments, and online curriculum pacing, all of which are aligned to STAAR Results.
- Six Weeks Exams, Benchmark, Bundle Tests
- The breakdown of the TEKS on the curriculum.
- Textbooks are also aligned to the TEKS.

12. How are data used to inform curriculum, instruction, and assessment decisions? (School Process)

- Data is used to determine strengths and weaknesses in the curriculum and delivery of instruction. Teachers use data to adjust curriculum, and instruction based on bundle exam results ("mini-benchmark" results). Daily student performance data is also used in the re-teaching of the curriculum where teachers employ different learning strategies.
- Data is used to determine which TEKS need to be spiraled in and used to form tutorial groups; teacher instructional action plans are also based on disaggregated data.
- Instructional Planning Days are scheduled after each six weeks period to ensure data is analyzed and weak TEKS are targeted so that teachers can modify instruction accordingly.
- Teachers dissect individual and overall group data to determine areas of need and determine a course of action to address areas of concern and provide different levels of rigor to challenge all learners

13. What does the data reflect about how curriculum, instruction, and assessment are aligned? How are they focused on supporting and challenging all students?

- Data reflects the areas that need to be targeted for improvement, by following the curriculum provided by the District, teachers can spiral in low achieving TEKS for re-teaching, and implement more summative and formative assessments that challenge student growth.

14. How are curriculum, instruction, and assessment aligned with 21st Century Learning Skills?

- The 21st Century Skills themes are covered through real-life mathematical applications. The learning and innovation skills are contained in the higher-order thinking skills of Bloom's taxonomy that are employed by our teachers. Kagan structures help students develop both academically and socially. The implementation of technology is better for preparing students for real-world demands. In Science, for example, courses apply the use of technology and concepts of global awareness, financial, economic, business, health, and environmental literacy that is TEKS specific. Students are introduced to STEM careers and are highly encouraged to participate in academic extracurricular activities such as UIL, Science Fair, Master Minds, Science Olympiad, Robotics Club, and several STEM summer institutes. MTTs provide technology and Web 2.0 tools training. Teachers incorporate technology such as Edmodo, Google Docs, Kahoot, and online textbook activities. All are student-centered and provide immediate feedback.
- 21st-century learning skills are further implemented in the curriculum through the use of technology, the concept of global awareness, and environmental literacy that is TEKS specific. In addition, students are introduced to T-STEM Academy initiatives of Project and Problem based Learning. Teachers also utilize technology and cooperative learning, use videos from adopted textbooks, and use YouTube videos to explain, teach and tutor students. Students engage in critical thinking through collaboration and teamwork. Students participate in labs that require the use of technology and software.

15. How are instructional strategies and activities aligned with student learning needs and expected outcomes for achievement: How consistent is this across the district/school? What is the impact on specific student groups? (*School Process & Demographics)

- Instructional strategies and activities are aligned with students' learning needs and expected outcomes according to EOC results. According to the students' mastery (or non-mastery) of state assessments, they may be placed in trailer courses to better suit their academic needs. When students do not Approach Grade Level, they are enrolled in a remedial class. When students score Master Grade Level, they are enrolled in a Pre-AP or AP class. A student scoring lower than a 3775, for example, will be scheduled in an EOC trailer class; between a 3775 and 4831 will be scheduled in a regular class, and higher than a 4831 will be scheduled in an Advanced class. (As the program is Open Enrollment, students can still opt to enroll in an Advanced Class without meeting set scores.) All teachers are required to implement the recommended modifications for students in the special populations. The impact this has played on this specific student group is improved scores. Diverse Learners may also have an inclusion teacher present in the class for additional assistance. Also, Texas High School Completion courses are offered to seniors who have not yet passed the EOC exams required for graduation.
- Experiential learning, independent study, direct, interactive, and indirect instruction are aligned with the 5E model to meet student learning needs. To target different populations, we use Kagan, SIOP, TIER interventions, ELPS, RTI, and 504 Learning difference instruction, ExCELL.
- As a district, each teacher uses Eduphoria to align TEKS with instructional strategies to provide support to our diverse learners. English Language Learners, for example, are monitored on AWARE and show that exposure to science content is supported with cooperative learning, verbal/visual word associations, capsule vocabulary, foldable, and peer-tutoring have higher percentages on expected outcomes that were met.
- Different methodologies and research-based instructional strategies are implemented.
- District-created bundles and curricula are implemented.
- Teachers use formal, informal, and summative assessments to guide instruction. Expected outcomes of achievement are varied within each classroom.
- High-interest reading selections and instructional videos that appeal to the students and their outcome needs are utilized.
- Scaffolding, differentiation, and sheltered instruction are enforced.
- Because the curriculum is being evaluated every 6 weeks and it is the same curriculum for both Donna High School and Donna North High School they are very well aligned.
- Students may use breakout rooms to further their learning and class discussions
- Online platforms for assessments: Quizizz / Kahoot
- Resilient Best School Practices

16. What evidence supports the implementation of high impact/high yield additional interventions for students who need assistance beyond primary classroom instruction? Which students need this type of instruction? What has the effect been over time? (*Demographics)

A general improvement in EOC scores shows that the implementation of the ELDA program, the built-in STAAR Academies, and the after-school tutorial program together have had a positive impact on our students who need additional assistance beyond the primary classroom instruction. We do, however, have a long way to go with

improvement. Typically, our ELLs and Diverse Learners need this extra instruction. We have also seen our migrant education department assist with the success of migrant students who need extra attention as the need of the family to move frequently interrupts classroom instruction. Also of much help is the small group instruction, Kagan strategies, and cooperative learning manipulatives. Students in need of additional assistance are required to attend mandatory after-school tutorials. These students are monitored closely to ensure that data reflects improvement.

- Other interventions that have shown positive impacts on student achievement include RTI, inclusion, Sheltered Instruction, SWIM program, tutorials, and small group testing.
- Utilized FAST PASS and ONLINE INTERVENTIONS SUCH AS CONTENT SUPPORT to assist struggling students

17. How do instructional design and delivery maximize student engagement, a positive learning climate, higher-order thinking skills, problem-solving, critical thinking, etc.?

- Our teachers' goals are to provide students with a positive learning climate in which the student is motivated to engage in the lesson, obtain higher-order thinking skills, and grow in problem-solving and critical thinking. Our lessons are geared at the specific needs of students and when the design and delivery of the lessons are aimed at their needs, students will grow not just academically, but also socially, professionally, and emotionally. Kagan structures have been included in lesson plans, promoting classroom management, a positive learning climate, and higher-order thinking skills.
- With the increased use of a laboratory setting, Kagan structures, the 5E model, and Project-based learning, a positive learning environment allows students to interact with expectations and keep them engaged in student-centered activities. This process allows students to develop higher-order thinking skills that may be applied to real-world scenarios where critical thinking and problem-solving take place.
- Hands-on activities such as laboratory experiments and the use of cooperative learning create a positive learning environment and allow for students to be engaged in student-centered activities.
- High-level readings/ activities addressed each area of need.
- Benchmarks, Bundle Tests, Data Comparison identify and target these needs.
- Students can investigate and discover instead of the teacher being the only source of information. It is adapted to each student's individual needs.
- Asynchronous/Online instruction helps increase student participation for students who are less likely to participate in person.
- Students can search for answers and utilize online resources to complete their assignments.

18. Is there evidence that assessments are aligned with clearly specified and appropriate achievement expectations? How are they developed and linked to measuring the effect of curriculum and instruction?

- Yes, there is diagnostic evidence that assessments made in collaboration with curriculum directors, deans, and administration are developed to be aligned with clearly specified and appropriate achievement expectations. They are developed and closely linked to previously released exams and STAAR Released items and information booklets from the Texas Education Agency. For instance, students' scores determine their placement in EOC trailer classes, regular classes, or advanced core classes. Also, Texas High School Completion courses are offered to seniors who have not yet passed the EOC graduation requirements.
- Assignments, quizzes, bundle tests are aligned with specific expectations of district and state standards. They are developed with alignment to TEKS by district curriculum writers and specialists and through data meetings.
- Assessments are administered to students every six weeks as a bundle exam. The bundle exam provides data-driven results that measure each objective taught. In addition, students are given benchmarks, six weeks exams, semester exams, and EOCs.
- Although the curriculum is strategically created, at times, the achievement expectations can be difficult to realize because there is not enough time allotted for mastery of each skill.

19. How do we know assessments are designed, developed, and used fairly and equitably that eliminates biases? How do students perceive these assessments?

- Bundle assessments are district-made and double-checked by faculty/staff within the district. Teachers follow district standards that comply with state and local policies designed to keep fair and equitable learning. Students comply with assessments. Directors and strategists monitor what is being used for the curriculum and student performance.
- Through online learning use a lockdown browser for assessments.
- The majority of students perceive online assessments as challenging, but crucial to their learning to succeed in their own education.

20. How does the scope of assessments provide a comprehensive and representative sampling of student performance that allows for confident conclusions about achievement?

- By ensuring that core teachers follow and cover the required TEKS, student assessment scores have improved. The AWARE program allows teachers to obtain up-to-date information about student performance. Teachers also obtain specific information about population groups such as ELLs and Diverse Learners and their performance in specific TEKS.
- Student performance is tracked throughout the year during every bundle test. The principal and deans monitor the results after every test. Teachers spiral what was not mastered from the previous bundles, into the new curriculum.
- Although standardized testing currently provides us with useful data, changes need to be made to ensure that students are tested in different ways other than only multiple-choice exams.
- We receive immediate feedback via quizzes/assignments. However, this info is limited to only the students that consistently log in and participate. We need a separate method/system to make check standards for students we do not regularly interact with.
- We follow curriculum guidelines and transposing all physical assignments to digital.

21. What technology do we have for student learning? (*School Process)

- WIFI TOWERS
- Internet Hotspots for Students' use.
- ONE Chromebook PER STUDENT w/ needed software
- 1-to-1 device for students.
- TEACHER LAPTOPS
- IPads/Tablets
- XP-Pen / equivalent writing Tablets
- Course Specific Software that shows/guides students with Teacher
- Smart Music Software
- Finale Music Creation
- Audacity
- SolidWorks
- Tinker CAD
- More per subject.

22. What is the technology proficiency for staff and students?

(*School Process & Demographics)

- Tech. Proficiency for Staff
  - The majority of Staff is computer literate
  - Google Classroom under our belts
  - Quizizz, Edpuzzle, Kahoot, etc. currently in use for regular student interaction.
  - Schoology with mixed results
  - Tech. Proficiency for Student
    - Same as Staff
    - Required Training / Training wanted:
      - How-to Training:
      - Order Material
      - Travel
      - Conference

- put together documents for every regular school
- present a virtual class
- implement and use mitigation plans
- transfer grades quickly from other platforms to TEAMS
- TEAMS: Attendance, Grades, Grade Change, how to view student transcript (core/counselors)/Data

23. What are some barriers that potentially prevent effective use of technology? When it's working, why is that so? When it's not working, why not?

- Limited knowledge/experience using technology.
- Not having clear examples of the technology.
- Network bandwidth speed and consistency.
- Lack of troubleshooting experience.

24. What types of technology professional development have we provided? What was the impact on staff and students?

- Intro to Google Classroom
    - Effective
    - Eduphoria
        - Effective
        - Analysis of student data
            - Mixed Effectiveness
            - SuccessEd/ Updating RTI
                - Effective in helping teachers plan for upcoming lessons and promote student success.
                - FlipGrid
                    - Effective in helping student interaction and Student Success!
                    - SmartMusic
                        - Effective in student Interaction - Fine Arts – Music
                        - Schoology
                            - Needs Improvement / Functionality

25. In which content areas are we using technology and how? What is the effect?

- All Core is using digital classes for daily interactions.
    - Though it allows us the ability to give classes, there is an increasing disconnect by the students to be invested in classes due to many external factors in each home. This is the case with the majority of students.
    - Most electives are using digital classes for daily interactions.
        - Though it allows us the ability to give classes, there is an increasing disconnect by the students to be invested in classes due to many external factors in each home. This is the case with the majority of students.
        - In-Person Technology, Use of PowerPoints for lesson delivery.
            - Use of the Internet to lesson plan and take attendance. The effect is great and positive, but only for those classes regularly using technology.

26. How does the design of the network provide support for the users?

The network does not fully support all its users adequately; its use is limited. The design of the DISD network makes communication easier with teachers, administrators, and parents. At times, the infrastructure causes the system to slow down. If there are network/internet issues, they are usually resolved quickly. Fast internet also allows teachers to

search videos for their lessons and provide student engagement. Poor design network and connectivity to certain parts of the school. Users have poor signal and pages and websites sometimes take a while to load. It keeps students on task and is student-centered. The infrastructure causes the system to slow down. More monitoring tools need to be provided to teachers to assist. The current network still needs improvement.

27. How is technology utilized to support curriculum, instructions, and assessment integration and implementation?

- Everything is kept digitally in Eduphoria and is an effective record-keeping system. However, it is clunky and could be better streamlined so that teachers can take attendance, grade, and lesson-plan quickly and easily in a single place.
- Technology needs to be more user-friendly so teachers/curriculum/assessments can be more effective.
- Curriculum and Technology need to be updated from the model of "solely in-person instruction" to give guidance and assistance to the current state of affairs of "mainly virtual" and be adaptable to a hybrid model. Make these changes sooner/proactively to best prepare all professionals during PD time again yearly.

Student Learning Strengths

1. Academic UIL extends classroom learning and promotes higher-order thinking skills.

2. Interventions for students with needs

3. AWARE/Eduphoria helps teachers obtain data fast and generate reports to determine gains or losses.

4. Programs such as Ambassadors, tutorials, and others that target student groups and provide students with the opportunities to expand student learning.

5. District Curriculum is strong in some areas

6. Collaboration/team planning, PLCs

7. Abydos, Lead4ward, GT, Google, and other Technology training

8. AP Exam participation

9. ACT Testing Participation

10. STEM students will have the access to advanced academic programs, technology applications, and distance learning networks through a STEM initiative.

11. Baseline technology in every classroom, and students were provided with a personal Chromebook

12. All teachers know how to use the technology for required tasks: email, lesson planning, grade book, attendance, and breakfast in the classroom.

13. All teachers can develop lessons and activities using word processing, PowerPoint, and the Internet.

14. Technology is increasingly being used in the classrooms.

15. Direct connectivity to the internet

16. Teachers have laptops and desktops

17. Graphing calculators, IPads, whiteboards, and projectors are available for everyone.

18. DISD Technology Conference/Symposium

19. Curriculum online provides working links to textbooks, videos, worksheets, and other resources.

20. Students have access to computers at the LRC and various library online resources

21. Access to MAC Computers and Adobe Creative Cloud for Art Classes

22. District provides upgrades to technology as needed.

23. Atomic Learning, Google Classroom, Pear Deck, Schoology

24. WIFI/HotSpots are being provided

Problem Statements Identifying Student Learning Needs

Problem Statement 1: A significant decrease in EOC scores in Algebra 1, Biology, and US History.

Problem Statement 2: Lack of student engagement in online learning platforms.

Problem Statement 3: Decreased student attendance rate.

Problem Statement 4: High student failure rate.

Problem Statement 5: Some teachers are in need of classroom/office printers, more software programs, and technology equipment for gym use.

Problem Statement 6: Insufficient technical assistance when issues arise during instructional time.

School Processes & Programs

School Processes & Programs Summary

FOCUS QUESTIONS

1. How is follow-up data regarding teacher performance provided to teachers?

- Through the Eduphoria program, teachers can view the results and comments from any walkthrough or observation that an administrator has conducted. Each year, teachers are to meet with their respective supervisors who oversee each department for a summative meeting to discuss evaluations. When performance issues need to be addressed, administrators meet with teachers to discuss the issues. During core-area common planning (PLC), administrators have an opportunity to address teacher performance with a larger group.

2. How are we recruiting highly qualified and effective staff? (Demographics)

- To recruit highly qualified staff, the district advertises job openings on the district webpage, region 1 ESC, and networks with the current staff and administration.
- The district offers incentive stipends to recruit highly qualified teachers. Such as teacher sign-on bonus for high-demand subject areas, content-specific stipends for high-demand areas, graduate degree stipends, and National board certified stipends.

3. What is our staff attendance rate? Retention rate? Turnover rate?

- According to data, 13.1% of teachers were veteran teachers with over 20 years of experience, 28.4% have 11-20 years of experience, and 19.8% have 6-10 years of experience, and 33.5% are first to fifth-year teachers. Most teachers stay on staff at Donna High School for over 5 years.
- Attendance incentives have kept staff attendance at a high rate.

4. How is highly effective staff assigned to work with the highest need students? (*Demographics & Student Learning)

- Administrators and strategists conduct walkthroughs and observations to determine which staff will most likely meet the needs of these students.
- Evaluations, qualifications, student assessment data, and policy compliance are also considered in this process.
- Additionally, training is provided to meet the academic needs of students and engagement.

5. What is the impact/effect of our teacher mentor program?

- Each teacher who is new to the profession receives a mentor to help through the process of assimilation into Donna High School. These new teachers can use their mentor-teachers as valuable resources throughout their first year in the profession.
- New teachers are also placed into a new teacher academy where a campus administrator assists them in the development of their first year.

6. How is new staff supported? What feedback do they provide?

- The new staff is supported by the assignment of mentors and supervisors. The new staff can provide feedback through core-area common planning, surveys, and conferences with their mentors or administration. Common grade level and core area planning provide additional support with lesson planning, policies, and student discipline. A New Teacher Academy is provided throughout the year; meetings are held at least once a six weeks during lunch. Food, assistance, and mini-training are held during this time. Teachers also participate in a book study of Harry Wong's First Days of School.
- At the district level, a new teacher orientation symposium is held.

7. What systems are in place to build capacity and support the notion of continuous improvement?

- Data from TAPR (Texas Academic Performance Report) - CCMR, STAAR results, etc.
- Results Driven Accountability - Special Populations

8. How are we using data to determine professional development for staff? *(*Student Learning)*

- Six Weeks Bundles
- Benchmarks
- Grade Reports/Data to target prof. development based on reports generated by student demographics. Reviewing student demographics to the target student area of need.
- Teacher weekly assessments

9. How are collective and individual decisions regarding professional development determined?

- Department surveys of possible professional development sessions.
- Campus Needs Assessment

10. What types of professional development has staff attended? How is implementation monitored? What impact has it had on performance? What is the follow-up?

- **Academics Digital Summit** (District Technology Trainings). Implementation is monitored through administration walkthroughs. There is an increase in technology integration in the classroom. Follow-ups are done with subsequent technology training.
- **Edgenuity.** Implementation is monitored through the Edgenuity management system, administrative walkthroughs. The impact is an increase in student achievement, attainment of credits, and flexible options for learning. Follow-ups are done with subsequent training and support meetings.
- **Content-Based Professional Development --** CTE, SpEd (Least Restrictive Environment), PLAAFPs
- **PBIS - Positive Behavior Intervention System (under Mr. Gomez) -** Tier System; Resilient Schools Support Program (RSSP) & SEL under PBIS
- **SEL -** Social Emotional Learning & Self-Care Strategies, Mindfulness, Character Traits. Presented by Child Mental Health Specialist
- **Safe Schools Training - online training --** Cybersecurity, Title IX, Human Trafficking, Coronavirus Awareness, FERPA, Suicide Prevention, HIPAA
- **friEd Technologies.**
- **Schoology.**
- **GT Trainings.**
- **EOC Trainings.**
- **AP & Pre-AP Institutes.**
- **Regional Subject-Area Conferences.**
- **AVID Training.**
- **TSTEM/PBL Training**
- **UT ONRAMPS Fall, Spring & Summer Institutes**

11. What evidence exists that families and community members are involved in meaningful activities that support student's learning? What are the activities? Which parents and community members are involved? What trends and patterns do we observe? *(*Demographics & Student Learning)*

- **CTE Advisory Committee.** Members include business community members, school district personnel representing different subject areas, a parent, a student, and other community partners, including STC and Workforce Solutions. Committee meets twice a year (Fall and Spring) to discuss and review CTE programs and give expert advice and opinions to guide the development of programs that would prepare students to transition into postsecondary and 21st Century career opportunities for in-demand, high-skill, and high-wage jobs. More CTE programs have been added in recent years and growth is evident through a large number of student enrollment and Industry-based certifications that are earned by students. CTE is available for all students regardless of demographics.
- **Dual Credit Student/Parent Informational Meetings.** Meetings are held for both students and parents regarding dual credit programs, their requirements, and services provided by the IHE to help support student learning. Parents of students interested in the programs are involved. We have seen an increase in the number of students who participate in dual credit programs, either academic or CTE through STC or UT-OR.
  Parent Educator Meetings/Classes. Parents can attend sessions through the Parent and Family Learning Academy. Parents attend monthly meetings hosted by the Parental

Involvement Department to gain information and learn about resources to help their families and support their children.

- **Parent Volunteers.** Parents can volunteer through the Parental Involvement Department. Parent volunteers provide daycare for department meetings.
- **Family and Community Organizational Scholarship Awards/Leadership Activities.** Scholarship Opportunities provided by families and community members; ie. Quarterback Club, Band Boosters, Local Businesses/Organizations support the advancement of student learning. Organizations like the Rotary Club also sponsor leadership conferences for students; ie. RYLA (Rotary Youth Leadership Awards program) develops leadership training in problem-solving and decision-making. Students working towards possible scholarship opportunities and those who have leadership training usually maintain passing standards in school to participate in programs.
- **TSTEM Advisory Board.** Members include business community members and school district personnel.
- **Transition Fairs for Senior Students** - Community members, ie. Workforce Solutions provide information to students and parents about their services for continual student learning post-secondary.
- **Parent and Student Representation on CLPAC and DLPAC.**

12. How are families and community members involved in school decisions?

- Families and community members can attend school board meetings and voice concerns.
- Families and community members can participate in surveys set up by the campus and/or district.
- Representation from families and community members are invited to join district committees to explore school-wide issues and initiatives; ie. Lead and Learn Safely and Strategic Design Framework.
- PTO - Parent Teacher Organization - raise funds for schools, programs, teacher recognition, student/family needs

13. What types of services are available to support families, community members, and students to encourage healthy family relationships?

- Counselors encourage and advise parents and students. When necessary, counselors and teachers arrange parent meetings and conferences. Advisory through the counseling department is offered to parents and students. Parent-teacher conferences also support students and parents.
- The Parent and Family Engagement Program (Parent Center) is available for parents as well. The Parent and Family Engagement Program (Parent Center) at Donna ISD is committed to providing opportunities for parents to become partners in education. (Health Clinics, Nutritional Classes, etc.)
- Social Worker Liaison
- The campus encourages parents to be active as parent volunteers and advises parents of events open to the community which requires student and parental involvement, such as literacy parades, pep rallies, and parents' night.
- Texas A&M Agriculture Extension- The Texas A&M AgriLife Extension Service is a unique education agency that provides programs, tools, and resources on a local and statewide level that teach people improved agriculture and food production, advanced health practices, environmental protection, economic, and youth programs.

14. If families speak languages other than English, what are these languages? How does the school communicate in those languages? (*Demographics)

- Parents speak Spanish and English.
- The school translates and offers all information and flyers in both languages. All parental meetings and phone/text messages sent out are bilingual. When a translation is needed between teacher and parent, it is readily available and offered.

15. What types of services are available to support students in special programs? What are the results? (*Demographics and Student Learning)

- Some services available to our students include the Migrant Educational Program, AVID, ELDA program, athletic and band boosters, credit recovery programs such as Edgenuity, LUCHA, Diverse Learners club for our Special Education population, Telecommunications to parents, and Homebound teacher services.
- Diverse Learners have Teacher's Assistants and Inclusion Teachers in the classroom, ELDA program provides tutors for the ELL students, Migrant students have Migrant Strategists for support services, and MEO is offered to Migrant Students for instructional services. All programs provide reports on student progress, grades, and scores.
- Other available services include 504/Special Education (ARD Meetings) to support and assist Sped students. TELPAS writings are required to assist Limited English speakers, along with inclusion services to help provide a more meaningful learning environment.
- Other services/events include Autism Night, Special Olympics, Counseling, ARD meetings, RTI, after-school tutoring, SWIM Mentoring, College Success, and academic resources for students in such programs.

- Child Find: this program/organization goes out to parents' homes of students who have certain cognitive and/or developmental issues.
- Project HOPE: students who are failing, at-risk of not graduating, at risk of not being promoted to the next grade level, truancy issues get their parents to be contacted to help them succeed in school.
- The results include increased parental involvement, increased attendance, student achievement, increase student promotion rate to the next grade level, and increase the graduation rate.

16. What types of community partnerships exist to support families and students?

- Community partnerships include AVID, STC, and HEB Feast of Sharing, Food Drive, and Student Council initiatives.
- Day Care Services, Homebound teacher services, SWIM Mentoring.
- Boys and Girls Club, and United Way
- Wal-Mart Fill the Bus with school supplies
- HEB Feast of Sharing
- The city of Donna provides a city park for festivals.
- TSTEM Advisory Board
- CTE Advisory Board
- Dual Enrollment Partnerships with STC, TSTC, RGV College, UT OnRamps, and Early College
- Several businesses allow students to gain experience in a working environment, Walmart Assistance, FFA experience, community involvement with car washes, ROTC helping events.

17. To what degree does the district/school support the organization and how?

- Comprehensive Needs Assessment is completed to identify the strengths and weaknesses of the organization. Areas of need are then considered in the Campus Improvement Plan for structuring the school budget in the upcoming year.
- The DLPAC (District-Level Planning and Advisory Committee) and the CLPAC (Campus-Level Planning and Advisory Committee) are in place to provide teachers and staff representation and input on the decision-making level of the district and campus. Throughout the district and each campus, various committees are formed to advise the various decision-making processes. The committees are intended to advise the decision-making process.
- DISD has provided training for the Diverse Learners Department throughout the school year such as CPI, BIP/FVA, Kurzweil for STAAR Online, Testing Accommodations, Lumens Refresher course. The school has provided training such as T-TESS, STAAR Alt 2, and STAAR Online training for every test administration.
- District and campus administrators show support through the attendance of regular meetings & training, sharing of data and tests, providing materials for classrooms such as textbooks and resources, as well as support with disciplinary issues.
- DISD and DHS support all organizations by scheduling adequate staff development training throughout the year. Teachers have time in the morning before classes start to plan by department, by subject, even by level. Also, at the beginning of every six weeks, teachers have an instructional planning day to revise the previous six weeks' data and plan for the following six weeks.
- Through Covid-19 Crisis, DISD and DHS supported each other to make sure our students had access to technology from home safely and efficiently.

18. What does the data reflect about classes, schedules, and student/staff teams?

- Donna High School students are assigned classes and schedules based on availability and graduation plans. Students are given thirty-two (32) credit opportunities through the block schedule system.
- DISD runs reports, analyzes all data, and creates schedules and classes to fit the needs of the students. Results from benchmarks and standardized testing/ assessments are also considered in scheduling the proper classes to meet the needs of each student.
- Students are assigned to classes according to their achievements and needs such as AP/Pre-AP classes, LEP, Special Education, Migrant, etc.)
- Attendance data is obtained daily. Implementation of incentives/reward programs for attendance has been shown to improve attendance in the past. Data has shown that more needs to be done to ensure students are in class.
- Students and teachers work as a single cohesive unit. Teachers implement TEKS into appropriate bundles and students try extremely hard to pass classes.
- Leadership, master schedule, duty rosters, school map/school environment

- Due to strategic planning and targeting instruction, the school has met state standards. Therefore, the scheduling is working.
- DHS has gathered information during the COVID -19 crisis as to what technology apps should be implemented in our distance learning. This gives us insight as to what changes should be made to better teach our students from their homes.

19. How is adequate time devoted to subjects in which students perform poorly? *(*Student Learning)*

- Based on the data from various assessments, students are offered extra support, during their subjects' support classroom during Asynchronous time.
- Students are assigned to trailer courses where they did not meet the state assessment standard.
- Students were offered after-school tutorial academies and Saturday academies to prepare for state testing.
- The students who are failing can receive the opportunity to improve their grades through completing extra in-class assignments, Edgenuity, MEO lab for Migrants, and after-school tutorial hours, and Fast Pass Packets.
- Time is devoted adequately to those subjects in which the students perform poorly by making sure each subject has the same amount of time within class periods.
- Time is divided evenly throughout all subjects.
- Through distance, learning time is a big factor as to how much a student can complete from home. Not all students have technology access or a device to themselves, many times our students share their devices with other siblings.

20. How do teachers have a voice in decision-making and school policies?

- Teachers have a voice in decision-making and school policies through DLPAC and CLPAC meetings, department head meetings, core-area common planning, and individual conferences with decision-makers on campus. This is an area that still needs to be improved upon to where teachers can have an increased role in the decision-making process.
- One teacher out of every department participates in CLPAC where school decisions and policies are created. They in turn relate them to the department.
- Teachers are provided with staff meeting and department meeting to discuss and voice their opinions as to what benefit the department and how the need can be met as a school. Teachers are also provided surveys to voice their thoughts and opinions about school policies and calendars.

21. What role do teachers have in deciding what assessments will be used to evaluate individual students or the program as a whole?

- Teachers do have a voice in the modification of this timeline yearly, and discussion and agreement of such changes occur during core common planning.
- Teachers have the opportunity to write curriculum in the summer and develop assessments to target what was taught in the curriculum.
- Teachers also have different databases to use to develop assessments and input into AWARE and get instant feedback.
- Assessments are pre-created by curriculum writers, teachers select passages and questions to administer. Exams are reviewed the week before by the department to make sure the exams adequately assess the covered TEKS.
- Talk with the department head and strategists to give input.
- At the end of each six weeks, we review data to assess student needs.
- Teachers were given the choice to create their own six weeks' exams for the second semester, for non-state tested subjects.

22. Do school committees and decision-making bodies make it easy for teachers, parents, paraprofessionals, support staff, and students to be heard and, in turn, for all groups to be part of solutions to identified problems?

- Yes. Every groups' concerns are heard and leaders are readily available for any questions or concerns the parent or administration may have. Through various parent meetings and district-wide parental sessions, the communication between all parties can be heard. This is further facilitated by providing transparency in both student grades and the online curriculum.
- They make it easy for their voices to be heard through school board meetings, CLPAC, and other committees created throughout the district. Student council also exists to give students a voice for their needs to be heard.
- Absolutely! Parents can talk to teachers or administration to voice their opinion and be heard during CLPAC meetings.
- The school has social media platforms where parents can voice their opinions and concerns, and ask questions, privately and publicly.
- Surveys are sent to parents to see their opinions on certain topics, like re-opening schools and how they feel about sending their children back to campus.

23. What evidence is there that there is a process for monitoring, evaluating, and renewing the curriculum to meet the needs of all learners?

- Administrative personnel and directors keep updated on changes in TEKS and state assessments through meetings and training. Summers are often used to update and modify the curriculum for upcoming years by core area teachers based on EOC results. Also, the curriculum is discussed and advised as necessary through the common planning period. Lesson plans on Eduphoria and teacher action plans to address the needs of learners are implemented and plans reflect the spiraling of the necessary weak TEKS. The time frame and TEKS covered must constantly be adjusted to provide a deeper understanding of the content.
- Bundle reviews and feedback forms/reflections are utilized as well.
- Other evidence includes surveys, teacher feedback, RDA every day, 3X3, and Action Plans

School Processes & Programs Strengths

1. New teacher mentor program/New Teacher Academies
2. Common planning period before school
3. 90 min. conference & planning periods
4. Frequent training and staff development provided in areas of need
5. Teacher attendance incentive
6. Assessments aligned to TEKS
7. Data analysis and immediate feedback of data
8. Student-centered instruction
9. Every teacher has document cameras, a projector, and a computer.
10. Teacher-designed curriculum by grade level/subject.
11. Dual Credit Student/Parent Informational Meetings: AP, CC, and UT OnRamps Courses
12. Professional Learning Communities
13. Easily accessible online curriculum for every subject with texts and activities
14. Curriculum is reviewed and updated every year.
15. Fish Camp/ Student Orientation
16. Parent Center/ Parent Volunteer Program/ Parent Educator Meetings/Classes: Information meetings/ Parent Portal/ Meet the Teacher Night
17. Counselors, parent, student conferences
18. Special Education Case Managers

19. Homebound teacher services
20. Truancy officer on-campus
21. English Language Development Academy
22. Campus Level Planning and Advisory Committee
23. Supportive services for students in special programs
24. Go Center and AVID offer assistance to parents and families with college preparations/questions/ Financial Aid Night
25. Family/community participation/Community parade, Parents Night, Art Show, Chisholm Trail, 5K Fun Run
26. Community service projects (e.g. clubs attending assisted living, etc.)
27. Family & Community Organizational Scholarship Awards/ Leadership activities
28. CTE Advisory Committee: Community partners meet with CTE staff periodically throughout the year.
29. TSTEM Advisory Board: Members include business community members and school district personnel.
30. Multiple opportunities for extracurricular participation, parent involvement, and workforce opportunities
31. Transition Fairs for senior students: Community members, ie. Workforce Solutions provide information to students/parents about services for post-secondary student learning.
32. Communication through Blackboard, and various social media platforms
33. Health Screenings
34. Community partnerships with the City of Donna have allowed for summer recreation programs opened to ALL DISD students.
35. All documents/memos sent out to parents and the community are in both English and Spanish.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Lack of parental involvement at the secondary level and incentives for parents to become more involved.

Problem Statement 2: Lack of funding for communal events that highlight student achievements.

Problem Statement 3: Low participation and completion of CTE and Advanced Academic Programs.

Perceptions

Perceptions Summary

FOCUS QUESTIONS

1. How do students describe the school climate? How does this compare to staff?

- Students describe the school climate as welcoming, supporting, encouraging with a sense of belonging. Either virtual or in person, the students have made a positive adjustment to the virtual instruction environment and activities. Teachers are constantly connecting with their students, along with faculty making necessary calls to ensure student success and parent awareness. DHS continues to hold up to high academic standards, through CTE courses, and dual enrollment. Teachers a readily visible and have implemented new strategies in their virtual instruction to help student success.

2. What evidence is there that students and staff are collectively aligned with the vision and mission of the school?

- The evidence that Donna High school is aligned with its vision and mission is that it fosters a professional culture of learning by educations and students. This includes reflection and feedback that helps for continuous improvement towards our visions and student goals. Our leaders are continuously promoting research-based practices to improve student learning. The staff is constantly encouraging students to participate in other academic programs such as AP, STEM program, CTE, dual enrollment, and OnRamps courses.

3. How do students and staff describe attitudes, respect, relationships, belonging, support, etc.? How does this data compare across groups? Which groups respond in which manner?

- Teachers describe it as a respectful and positive environment. Professionalism is often displayed amongst staff which fosters strong and ethical relationships as well as a strong support group. In return, the positives attitudes between colleagues encourage students to feel a sense of belonging and support for themselves. Teachers can create great student rapport and support students through academic and extracurricular activities.

4. What does the data reflect regarding student behaviors, discipline, etc.?

- Students that have a pattern of disciplinary behavior often continue the negative behavior typically suffer academically. They fall behind in credits due to their poor attendance and often perform poorly in district and state assessments. The implementation of the Positive Behavior Intervention system in the upcoming school year student behavior and staff consistency in the disciplinary system.

5. To what degree do students and staff feel physically safe?

- Students and staff feel very safe here at Donna High School. The administration team has taken several steps to secure safety on campus with the addition of NightLocks in every classroom and the AXIS Door entry system at each of the major entryways. In response to the Covid-19 pandemic, the campus has implemented the district Learn and Lead Safety plan to closely monitor through the Dr. Owl application, verify temperature checks for students and staff, implementation of remote learning, onsite Covid-19 testing, and providing additional personal protective equipment if needed on campus.

6. What do students and staff indicate about expectations: academic, behavioral, social, extracurricular, etc.?

- Student expectations are communicated often by teachers, coaches, administrators, etc. However, with a remote learning environment, there are new challenges associated with students meeting these expectations, especially academic expectations. To accommodate a new learning environment, teachers have had to be very flexible and innovative with their instruction. Traditional academic expectations that may have worked in the in-person learning environment may no longer be practical for a remote learning environment. Despite these new challenges, teachers continue to maintain high expectations for learning and behavior. As we transition back to in-person learning, teachers again may have to examine and update the expectations for their classes.

7. Which students are most satisfied with the school's culture and climate? How does this compare to the student's attendance, tardies, and other behaviors?

- In a "normal" school year the students that make an effort to participate in the various activities offered at a school are probably the happiest. They will feel a sense of belonging to a group of students with similar interests. Many of these students will fall under athletics and fine arts, as well as, organizations related to career and technology, student council, AVID, and such. These students tend to have fewer attendance issues and tend to have better progress when it comes to academics. Those students are the ones that are satisfied with the school's culture and climate. Due to the pandemic, there was less participation in extracurricular, academic, and fine art activities.

8. What does the data indicate regarding classroom management and organization? How does this compare to classroom student achievement data?

- The data supports the idea that students thrive when the environment is most adequate for learning. In correlation with classroom management and organization, our exam scores are improving. When the curriculum is organized and walkthroughs occur, the students and teachers cooperate and perform better. Classroom management and organization have improved due to the many experienced teachers here at DHS. It keeps the students in the classroom with fewer referrals and more student success and achievement.

9. What does data reflect regarding gang, substance abuse, weapons, and other safe schools area? Who are the students involved? What do we know about these students? What services have these students received?

- Data reflects students who engage in these different lifestyles most often lack academic or parent involvement, direction, and guidance outside of the classroom. At times these students feel unwanted, alone, outsiders or lack a sense of belonging. Donna High School assists counselors, LPC, LSSPs, and outside agencies. The school provides staff drug education content every six weeks to discuss with students in their classroom.

10. What students are involved in extracurricular activities, clubs, and other areas? Who are these students? What does student achievement reflect about these students versus others who are not involved?

- Typically, the students who are academically in the upper 50% are involved in extracurricular activities. These are usually the students who we know are responsible for their academic careers. They are highly motivated to improve their academic status to be a member of an extracurricular activity. These students tend to enroll in advanced academic classes and score higher than their peers. Students who tend to be in extracurricular activities demonstrate a greater commitment to school and achieve higher grades. Data also shows that these students are Gifted and Talented students with higher objectives and goals. These students are actively involved in school activities such as UIL sponsored events in which they can achieve personal success. Generally, extracurricular activities tend to promote healthy and effective lifestyles in these students and keeps them distracted from other unhealthy activities such as substance abuse and gang-related issues.

11. What are the students' and staff's perceptions of facilities and the physical environments? What is the impact of the facilities on culture and climate?

- Our campuses have made improvements that have made our students, teachers, administrators, office personnel, and visitors have a positive impact and perception. While it is true that some maintenance is still necessary, our district has made a great effort to make our staff feel comfortable as to what has been accomplished and projects underway. But students have mentioned that the campus is outdated and needs improvement in classroom sizes, and certain areas in the main building. In turn, has to affect student morale and school spirit.

12. How does staff feel about technology?

- Our staff has embraced the challenge of learning new technology and adjusting to change very well during the Covid-19 pandemic. Over the last year, Technology has drastically improved. The staff feel's there is a strong necessity to get educators more training on specific technology-based activities, tools, etc. It would be most beneficial for educators to be trained more on new ways to incorporate technology in the classroom and thus, feel more comfortable using it. Currently, the district's investment in wifi towers has helped a lot of students have access to the internet from their own homes and the ability to stay connected to teachers. This has greatly created a more equitable online learning environment. Furthermore, the prospect of having a physical and digital classroom is exciting but also overwhelming for some staff.

13. What are the students', parents', and community's perceptions of the school?

- The priority is to ensure academic excellence for all students, a rigorous quality education. The Donna High School staff and teacher perceptions are that there has been a great effort being made for all students to succeed, pass the assessments, and graduate. Therefore, due to Covid pandemic perceptions that have changed because of the greater integration of technology and access to the internet, parents, and the community might have a more favorable view now than before.

Perceptions Strengths

1. Strong collegial support
2. Pride, Traditions, and Legacies
3. Students are continuously motivated by a variety of programs that help them gain self-confidence and assurance (AVID, Ambassadors, STEM, etc.)
4. Good environment for learning
5. Student incentives are provided for student achievement
6. Positive school climate
7. Closed Campus/ Raptor Station
8. Disciplinary Actions, suspensions, and DAEP placements
9. Student handbook
10. Community and family engagement
11. Administrator classroom walkthroughs
12. Parent contact
13. Data-driven decision making
14. Classroom management
15. Extracurricular activities and clubs are available to all students

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Multiple entrances/exits with an insufficient number of security guards can contribute to violence and discipline issues.

Problem Statement 2: Decrease in student attendance.

Problem Statement 3: Rules and policies are not thoroughly enforced.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Covid-19 Factors and/or waivers for Assessment, Accountability, ESSA, Missed School Days, Educator Appraisals, etc.
- Planning and decision making committee(s) meeting data

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations
- Federal Report Card Data
- RDA data
- Local Accountability Systems (LAS) data

Student Data: Assessments

- State and federally required assessment information (e.g. curriculum, eligibility, format, standards, accommodations, TEA information)
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR EL progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Postsecondary college, career or military-ready graduates
- Texas Success Initiative (TSI) data for postsecondary/college-ready graduates data
- Postsecondary college, career or military-ready graduates including enlisting in U. S. armed services, earning an industry based certification, earning an associate degree, graduating with completed IEP and workforce readiness
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- SAT and/or ACT assessment data
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data

Student Data: Student Groups

- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- EL/non-EL or LEP data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender, etc.
- Section 504 data

- Gifted and talented data
- Response to Intervention (RtI) student achievement data
- Dual-credit and/or college prep course completion data

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Annual dropout rate data
- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback
- School safety data

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact
- TTESS data
- T-PESS data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Study of best practices

Goals

Goal 1: Donna High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal standards. The campus will implement literacy strategies that will result in more students reading on or above grade level.

Performance Objective 1: Library Services: Media Literacy Centers will promote the integration of curriculum, resources, and teaching strategies to ensure the success of all students as the effective creators and users of ideas and information, enabling them to become lifelong learners.

Targeted or ESF High Priority

Evaluation Data Sources: Library Sign-In Sheets, Mackin Via Database Usage, STAAR EOC and TELPAS Scores.

Summative Evaluation: Some progress made toward meeting Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Provide students the opportunity to have authors visit and talk to them about becoming an author or an illustrator by holding campus literacy fairs and district literacy fairs. **Strategy's Expected Result/Impact:** Contracted author's documentation, flyers and sign-ins for literacy fairs. **Staff Responsible for Monitoring:** Campus administration, Librarians, Library Assistants **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5	40%	50%	85%	

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Teach technology TEKS to students. **Strategy's Expected Result/Impact:** Teacher and librarian lesson plans Class schedule **Staff Responsible for Monitoring:** Campus Administration, Librarians **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5	10%	10%	40%	

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Provide campus with a balanced, current, age-appropriate, and systematically organized collection of award-winning books to fit the curriculum needs of the campus, to include magazine and newspaper subscriptions. **Strategy's Expected Result/Impact:** Collection analysis and inventory list **Staff Responsible for Monitoring:** Campus Administration, Librarian, Library Assistants, Department Heads **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5	0%	20%	40%	

Strategy 4 Details	Reviews

Goal 1: Donna High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal standards. The campus will implement literacy strategies that will result in more students reading on or above grade level.

Performance Objective 2: Donna High School will implement strategies to increase literacy and produce more students reading on or above grade level resulting in students meeting goals for all accountability measures. This increase in literacy will yield gains in ELA, Mathematics, Science, and Social Studies. Applies to District, State (STAAR, EOC, TELPAS, RDA) and Federal/ESSA. At least 60% of Donna High School students will meet the state standard in English I & II EOC, 80% will meet the state standard in Algebra I EOC, 85% will meet the state standard in Biology, and 95% will meet the state standard in U.S. History.

Targeted or ESF High Priority

HB3 Goal

Evaluation Data Sources: STAAR EOC data, TELPAS data,

Summative Evaluation: Some progress made toward meeting Objective

Goal 2: Donna High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 1: The percentage of students in grades 9-12 who achieve meets and/or masters performance level on the STAAR will increase by 4%.

Targeted or ESF High Priority

Evaluation Data Sources: STAAR EOC Meets and Masters Grade Level data for all subjects.

Summative Evaluation: Significant progress made toward meeting Objective

Goal 2: Donna High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 2: Advanced Academics: Increase % of GT students achieving the MEETS and MASTERS grade-level standard on STAAR by 5%.

Targeted or ESF High Priority

Evaluation Data Sources: STAAR EOC results for GT students.

Summative Evaluation: Significant progress made toward meeting Objective

Goal 2: Donna High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 3: Special Education: Increase % for Special Education students achieving the MEETS and MASTERS grade level standard on STAAR by 2%

Targeted or ESF High Priority

Evaluation Data Sources: STAAR EOC results for SPED students

Summative Evaluation: Some progress made toward meeting Objective

Goal 2: Donna High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 4: Bilingual/ESL Education: Increase the number of students identified as LEP students achieve the MEETS and MASTERS grade level standard on STAAR/EOC by 5%.

Targeted or ESF High Priority

Evaluation Data Sources: STAAR/EOC, TELPAS, Student Schedules

Summative Evaluation: Some progress made toward meeting Objective

Goal 2: Donna High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 5: CTE: Increase the % of students achieving the MEETS and MASTERS grade level standard on STAAR EOC.

Targeted or ESF High Priority

Evaluation Data Sources: STAAR EOC, TELPAS, RDA

Summative Evaluation: Significant progress made toward meeting Objective

Goal 2: Donna High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 6: Fine Arts: Will identify the Fine Art students in need of academic improvement and offer tutorial opportunities in order to increase by 5% the amount of Fine Art students achieving meets and/or masters standard on the STARR exam

Evaluation Data Sources: Eduphoria; Aware-reports, STARR/EOC , Tutorial logs

Summative Evaluation: Some progress made toward meeting Objective

Goal 2: Donna High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 7: Donna High School will focus on instructional improvement resulting in all students meeting goals for all accountability measures. Applies to all content instructional areas - Reading/ELA, Writing, Mathematics, Science, and Social Studies. Applies to District, State (STAAR, EOC, TELPAS, RDA) and Federal/ESSA. At least 60% of Donna High School students will meet the state standard in English I & II EOC, 80% will meet the state standard in Algebra I EOC, 85% will meet the state standard in Biology, and 95% will meet the state standard in U.S. History.

Targeted or ESF High Priority

Evaluation Data Sources: STAAR EOC Results

Summative Evaluation: Significant progress made toward meeting Objective

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Teachers will use the district curriculum and instruction guide as their primary source of instructional direction for all subject areas. (BG 2) **Strategy's Expected Result/Impact:** Increased number of students meeting or exceeding STAAR EOC standards per core content area. **Staff Responsible for Monitoring:** Campus Principal, Deans, and Campus Administration	75%	80%	85%	100%

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Develop, implement, and monitor daily instructional schedules to ensure effective practices are in place and the implementation of required lesson plans for English, Math, Science, and Social Studies. (BG 2) **Strategy's Expected Result/Impact:** Increased student performance as measured by District and State assessments. **Staff Responsible for Monitoring:** Campus Principal, Deans, and Campus Administration	75%	80%	90%	100%

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Obtain and provide program manipulatives, models,consumable, non-consumable materials and any other classroom instructional materials or resources for all core content areas and all student populations. (BG 2) **Strategy's Expected Result/Impact:** Inventory aligned to core curriculum materials and purchase orders. Increased percentage of all students meeting District, State, and Federal Standards (STAAR EOC, TELPAS, & RDA). **Staff Responsible for Monitoring:** Deans and Campus Administration **Comprehensive Support Strategy** **Funding Sources:** - State Comp.(164) - $14,369.28	80%	85%	95%	100%

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Provide research-based staff development aligned to performance data measured by District, State, and Federal accountability indicators to include: job-embedded training (common departmental planning), response to intervention (RTI), data utilization, technology, core state-adopted textbooks, supplemental programs, research-based strategies for ELLs, research-based instructional strategies for Common Core Readiness Standard (CCRS), classroom management, and discipline (teaching) for appropriate behavior. (BG 2) **Strategy's Expected Result/Impact:** Professional Development District Plan & Campus-Based, training agendas, and sign-ins. Increased instructional effectiveness and student performance as measured by grades and state assessment outcomes, decreased at-risk learners, decreased referrals, and decreased behavior referrals. **Staff Responsible for Monitoring:** Campus Administration, Department Chairs **Funding Sources:** ExC-ELL Training - Teacher/Principal (255), ExC-ELL Training - State Comp.(164), ExC-ELL Training - Local (199), ExC-ELL Training - Title III (263)	75%	85%	90%	→

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Provide funds for teacher aides/assistants, teachers, counselors, and administrators to attend necessary training/conferences/professional development in areas of need and to continue campus and district initiatives such as Abydos, Lead4ward, AVID, TXESOL, CAST, CAMPT, TFLA, Region One, AP and Advanced Trainings, UT OnRamps, TASSP, Legal Digest, Technology Conferences, Texas Council for Social Studies Annual Conference, T-Stem, etc. (BG 2) **Strategy's Expected Result/Impact:** Increased performance in assessment scores **Staff Responsible for Monitoring:** Campus Administration & Department Chairs **Funding Sources:** ABYDOS - State Comp.(164), ABYDOS - Local (199), Lead4Ward Consultants - Teacher/Principal (255), Teacher/Admin Travel - Title I (211)	80%	80%	90%	→

Strategy 6 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 6: Invite administrators to distance learning platforms (Google Classroom), include more interactive distance learning that can be implemented for greater student participation and success. All teachers will receive training and be Google certified. Monitor implementation of best instructional practices presented during professional development and all staff training. (BG 2) **Strategy's Expected Result/Impact:** Lesson Plans, walkthroughs, classroom visits, progress monitor documentation and student academic outcomes, subject level meetings, sign-ins. **Staff Responsible for Monitoring:** Campus Administrators & Teachers	75%	80%	90%	100%

Strategy 7 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 7: Improve supports to struggling learners by providing necessary interventions. Provide: *STAAR EOC Tutorials (Monday-Thursday and Saturday) *Accelerated Instruction/Trailer courses during the school day *Resources to support interventions including teacher pay, tutorial material, office supplies, transportation, and snacks. (BG 2) **Strategy's Expected Result/Impact:** Increased number of students meeting or exceeding STAAR EOC standards per core content area. At least 60% of Donna High School students will meet the state standard in English I & II EOC, 80% will meet the state standard in Algebra I EOC, 85% will meet the state standard in Biology, and 95% will meet the state standard in U.S. History. **Staff Responsible for Monitoring:** Campus Administration & Teachers Monitor Strategies Include: Documented content area meetings, lesson plans, student attendance sign-ins, parent contacts, student self analysis/goal setting, teacher self analysis/goal setting, and final STAAR EOC data analysis. **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 **Funding Sources:** STAAR EOC Tutorials - State Comp.(164), STAAR EOC Tutorials - Title I (211) - $75,000	50%	75%	85%	

Strategy 8 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 8: Implement district & campus initiatives such as Anchor Charts, Word Walls, Vocabulary Development, Interactive Notebooks, Technology, Journals, Softwares, Student Portfolios, Cooperative Learning Strategies, Sheltered Instruction, ExC-ELL, writing across the curriculum (Abydos), College Readiness Activities, and Distance Learning platforms (Google Classroom, UTRGV WebWork) to increase student performance. **Strategy's Expected Result/Impact:** Walkthroughs and Increased student performance as measured by district and state assessments. **Staff Responsible for Monitoring:** Campus Administration & Teachers	50%	65%	75%	

Strategy 9 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 9: Ensure the campus' program for English Language Learners (ELLs) is research-based and responsive to the needs of students. The program will be designed, implemented, supported, and monitored for a positive impact on student learning. (BG 2) **Strategy's Expected Result/Impact:** Increased student performance as measured by district and state assessments and TELPAS. **Staff Responsible for Monitoring:** Campus Administration, ELL Strategists, and Teachers **Comprehensive Support Strategy**	65%	75%	75%	

Strategy 10 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 10: Determine advanced academic courses to be offered at Donna High, expand opportunities for dual credit, advanced placement, college prep-courses, UT OnRamps, and increase participation & completion of advanced academic courses. (BG 3) **Strategy's Expected Result/Impact:** Increased enrollment numbers in Advanced, AP, & Dual Enrollment courses. **Staff Responsible for Monitoring:** Campus Administration, Counselors, & Teachers	80%	85%	90%	100%

Strategy 11 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 11: Create more opportunities for students to participate in enrichment programs such as career interest, technology, athletics, band, extracurricular, student clubs, UIL, and in courses of languages other than English. **Strategy's Expected Result/Impact:** Increased enrollment numbers in these programs. **Staff Responsible for Monitoring:** Campus Administration and Teachers	80%	85%	90%	100%

Strategy 12 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 12: Determine and utilize student assessment instruments to monitor progress by aligning purpose, parameters, and an effective number of assessments. The district & campus shall design and use a variety of assessment approaches in determining the effectiveness of the planned and written curriculum, the taught curriculum, and instructional programs. **Strategy's Expected Result/Impact:** Assessment scores (Beginning-of-Year, bundles, six weeks exams, benchmarks, interim, and state assessments) **Staff Responsible for Monitoring:** Campus Administration, Department Chairs, & Teachers	75%	85%	85%	100%

Strategy 13 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 13: Provide college and career readiness opportunities that integrate cognitive strategies, content knowledge, learning skills and techniques, and transition knowledge and skills to enable students to pursue post-secondary schooling. (BG 3) **Strategy's Expected Result/Impact:** Texas Academic Performance Report of graduates enrolling in TX institutions of higher education(IHE). **Staff Responsible for Monitoring:** Campus Principal, Campus Administration, Counselors, Gear Up Facilitators, AVID Coordinators	35%	50%	75%	100%

Strategy 14 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 14: System Safeguards to meet federal accountability requirements will be implemented, monitored, and reviewed for each subject area and student group where requirements were not met. Addendums 73

Comprehensive Needs Assessment

Revised/Approved: June 18, 2021

Needs Assessment Overview

DEMOGRAPHICS

- Culture Diversity
- Transfer grades for NTD students transcribed in a timely manner
- More leaver walks
- Tutorials need to be mandatory
- Events to gain parental support
- PD for accommodations
- Incentives that target students' interests
- Participation and more positions
- Improve reading levels
- Attractive student incentives
- More school programs for students
- Make encouraging phone calls to parents
- Increased parental involvement
- End of Year Rally with upcoming students at the gym, where teachers can set up booths along with counselors to do pre-registration and student can ask questions regarding course offerings for the following year.
- Provide ALL students with DETAILED information regarding courses and certificates available to them.

STUDENT ACHIEVEMENT

- Not enough students taking the ACT exam
- Proper explanation of all criteria (Approaches, meets, Masters)
- More advertisement of advanced courses
- Proper explanation of grad plans
- Exposure to free tuition at colleges
- AP Testing passing rate
- Graduation plans – explanation
- Curriculum for areas (including Spanish, speech, health, etc)
- Students applying for scholarships
- AP Spanish taken seriously
- Lower student –teacher ratio
- Efforts for migrant students
- Provide accommodation documentation as soon as the year begins
- Have teachers create student achievement binders to track their students.
- Trailer course do not work, find alternative ways to incorporate better tutoring for student achievement.

- Afternoon Snacks for students who stay for tutoring.

STUDENT CULTURE and CLIMATE

- Student IDs
- More security guards
- More passing time for breaks
- More celebratory events
- Field trips
- Community involvement
- Field trips
- Community involvement
- Cultural celebrations
- Promote more parent involvement
- Information distribution is precise and uniform for everyone not just selected departments/staff

STAFF QUALITY, RECRUITMENT, and RETENTION

- More Technology awareness
- Common planning periods
- More instructional days
- stipends for EOC teachers
- Stipend for performance on state assessments
- Consistent curriculum
- Resources for teachers (teacher editions/ smart boards, etc)
- Curriculum for electives
- Teacher resources
- Stipends/teacher pay raise
- Technology
- Structured instructional days
- CPI
- Trainings during the workday instead of personal time
- Increase Pay
- Increase all stipends not just selection
- More Feedback during Teacher Development
- Provide 1 to 1 training
- Update Curricula

CURRICULUM, INSTRUCTION, and ASSESSMENT

- Parents need access to the curriculum
- More report card nights to inform parents
- Ensure curriculum is complete
- More technology to access curriculum
- Curriculum for electives
- Wi-fi access in portables

- Computer equipment
- Poly-vision interactive boards
- Resources (electives)
- Funds available to attend conferences
- Separate curriculum for regular, Pre-AP, and TSTEM
- Lab equipment for math classes
- Mandatory tutorials
- Funds for Saturday tutorials
- Clear touch boards in all classrooms
- Need more people trained to do Kagan
- Strategist need to training everyone on how to use OneDrive
- Use the Instructional Planning Days to develop new ideas with subject planning teams (plan) not all day analyze.
- Updated Curriculum for all subject not just tested areas
- Cross-Curriculum Collaboration

FAMILY and COMMUNITY INVOLVEMENT

- More parental involvement
- More attendance office staff to help with attendance issues
- More services to support ELLs/Diverse Learners
- Notifications need to be sent out in a timely manner
- Parent Volunteers
- Promote cultural events for parents

SCHOOL CONTEXT and ORGANIZATION

- Same planning periods
- Monthly calendar of events
- Structured instructional days
- Minimize paper work
- Awareness of programs being offered
- More guidance for teachers
- Less floating teachers
- More equitable distribution of teachers used for testing
- More student programs
- More classrooms
- More staff
- Urgency and strong commitment
- Structured instructional planning
- Increase teacher involvement on bundled exams

TECHNOLOGY

- Computer labs
- Stronger wifi
- Computer lab in portables

- *Teachers having access to toner*
- More working smart boards
- More professional development
- Technology devices for students
- Classroom smartboards/projectors
- Printers in classrooms
- Color printer for each department
- Interactive boards in portable building
- Phones in portable building
- Wifi for portable building
- KUTA software (MATH)
- Laptop cart for On Ramps courses
- Fix connectivity issues
- Additional interactive boards (Main building)
- Additional trainings for new interactive boards
- Networks for certain programs to only use
- School Wide Department Website Features
- Training on how to use some programs
- Update Classroom Printers
- Color Printer per department

Demographics

Demographics Summary

1. What do enrollment numbers indicate?

- Population continues to increase.
- 99% Hipanic and 1% other
- 96% Economically disadvantaged.
- Greater population leads to increase Student:Teacher ratios.
- An increase number of severe diverse learners.

2. How has the enrollment changed over the past three years?

- Over all enrollment but fluctuated due to virtual environment and % of AR have increased significantly.

3. Who are our at-risk students? What is their at-risk category?

- Students with economic struggles-low income
- Students with domestic issues-single parent homes, some living in substandard housing, many with social-emotional issues which lead to drug and alcohol abuse and domestic violence.

4. What area of the community do these students come from?

- Spread across the northern side of Donna ISD including sub-standard subdivisions.

5. What are the staff demographics?

- Mainly hispanic females and some hispanic males.
- Very few white males and females and 1 black and 1 indian teacher.

6. What are the teacher/student ratios? How do these ratios compare to performance?

- With a total enrollment of 2198 students at its peak and with a total of 155 teachers, the student to teacher ratio is 16.3 students to 1 teacher.
- This ratio is deceiving because all teachers are counted as per state definitions. In reality, the counts should be done by only with core teachers and calculated by subject.
- Performance was not measured due to the COVID-19 pandemic.

Demographics Strengths

The strengths in the demographics is that in spite of the low socio-economic status of many of our students, they perform well in both in and out to the classroom. The T-STEM campus is thriving with heightened academic performances in UIL and Robotics.

Our Fine Arts programs continue to excel in musical, dance, and theatrical areas winning countless competitions and competing and beating richer schools.

Our CTE programs as well have proven strong regardless of socio-economic status. Record numbers of students earning their certificates and state licences in multiple areas.

Finally, our athletic program in all areas. Donna North has record number of students signing letters of intent to participate at the next level. Donna North will have representation in football, basketball, track, cross-country and soccer at the collegiate level.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Teachers need to effectively understand and utilize special population indicators on TEAMS and EDUPHORIA to target and intervene for these student populations. **Root Cause:** Staff has not been trained to use their resources to identify special population indicators.

Problem Statement 2 (Prioritized): Students are entering DNHS below grade level in reading (how has reading levels been documented?). **Root Cause:** Low student attendance rate and the lack of literacy integration contribute to the low reading levels.

Problem Statement 3: The student attendance rate has dropped and the level of skipping class has increased therefore resulting in a high level of students violating compulsory attendance. **Root Cause:** Students are apathetic and generally receive little to no real consequences.

Student Learning

Student Learning Summary

1

. How is the student achievement data disaggregated?

- The December retesting data was disaggregated by the following: demographics, achievement categories, percentages, institution, periods, etc.

2. How does student achievement data compare from one data source to another?

- The only data that had any significance was the December EOC Retests. This data showed improvement in all areas except Algebra I when compared to the previous year.
-

Retest STAAR EOC, Algebra I

	18#	19#	20#	18App	19App	20App	18Mts	19Mts	20MTS	18Mstrs	19Mstrs	20Mstrs
Donna North High School												
LEP												
Special Ed Indicator												

3. What does the data indicate when disaggregated by special program and ELL? (*Demographics)

- The only information shown is the following: SPED and LEP. The only time this is shown is through the campus data.
- The data indicates that retesters of all demographics are being productive and are improving their achievement levels. Significant gains were seen in the Special Ed. population in all but 1 subject.
- In 2021, all scores declined due to COVID and virtual learning.

4. In which areas are we showing growth? At what rate? Compared to which standard of achievement?

- The percentage of Approaches for the Fall of 2020 and the Spring 2021 show significant declines. Including the number of students testing.

- In 2021, all scores declined due to COVID and virtual learning.

5. Which students are making progress? Why? (*School Process)

- None as June 2021

6. What impact are intervention programs having on student achievement? Which students are benefitting or not? (*Demographics)

- Due to the COVID and Virtual year, the intervention programs set last year will continue to the upcoming year.

7. What does the longitudinal student achievement data indicate?

- Donna North has seen a continous improvement throughout the years as indicated be the attached data. The only data that did not show growth was Algebra I from '18 to '19.
-

Male	64	42	37.50%	42.86%	4.69%	2.38%	0%	0%	0%
LEP	73	63	35.62%	36.51%	1.37%	3.17%	0%	0%	0%
Special Ed Indicator	23	27	26.09%	29.63%	0%	0%	0%	0%	0%

8. What does the data reflect within and among content areas?

- All areas are at the very least maintaining growth. The decrease seen in Algebra in the Approaches level is significant but there is significant gain by the Special Ed. population and a slight gain by the LEP population.
- In 2021, all scores declined due to COVID and virtual learning.

9. What does the data indicate when disaggregated at various levels of depth?

- The gains in the Meets level increased in all subjects but Algebra where a slight decrease was observed.
- In 2021, all scores declined due to COVID and virtual learning.

10. Which students are making annual progress? Which ones are making projected growth? Who are these students? How does this data compare across programs, content areas, subgroups, etc.? (*Demographics & School Process)

- In 2021, all scores declined due to COVID and virtual learning.

11. What evidence exists to determine that the curriculum is clearly linked to the TEKS and other standards for student learning?

- Besides the data presented it would be positive correlation of lesson plans and the observed instruction.

12. How is data used to inform curriculum, instruction, and assessment decisions? (School Process)

- Formative data such as weekly and six weeks exams are utilized by the teacher to make necessary adjustments in their planning and classroom instruction – With the data, they can plan, reteach and reassess specific TEKS to monitor progress of the identified gaps.

13. What does the data reflect about how curriculum, instruction, and assessment are aligned? How are they focused on supporting and challenging all students?

- As the data indicates, there is a strong correlation between the planning, instruction, and the assessments of that instruction. As long as this process continues, the needs of all students will be addressed and the opportunity for growth will be provided.

14. How are curriculum, instruction, and assessment aligned with 21st Century Learning Skills?

- By following the curriculum that is aligned with 21st Century Learning Skills, it encourages educators to develop lesson plans that encourages critical thinking, creativity, collaboration, etc., during instruction and assessments.

15. How are instructional strategies and activities aligned with student learning needs and expected outcomes for achievement: How consistent is this across the school? What is the impact on specific student groups? (*School Process & Demographics)

- Instructional strategies and activities are aligned with the student learning needs by promoting a creative classroom environment with plenty of encouraging activities for students of different learning backgrounds. With this, there exists the endless possibilities for endless outcomes that achieves success. But, in order to yield these results, the school must employ educators who abide with the regulations, know and understand what it means to be a professional in the classroom and satisfy their job description and requirements.

Student Learning Strengths

- Donna North High School has many committed and intelligent educators who care about their students' education and future.
- The use of Eduphoria to ensure educators can monitor the progress of their students and the effectiveness of their instruction.
- The curriculum is very well established and modified as needed to guide our teachers to teach the correct and relevant content.
- Donna North High School provides all the instructional materials needed by the teacher to help students be successful in the classroom.
- Donna North High School provides a generous schedule to teachers giving them ample time to dissegregate data, plan for instruction, and prepare for the delivery of that instruction.
- DNHS provides well informed instructional department heads to disseminate content and other curricular information to their teachers.

- DNHS teachers provide various avenues to students to be successful in their classrooms such as tutorials to reteach and reassess and now virtual contact if additional help is needed.
-

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Student have connectivity issues. School has weak internet and lacks enough routers/boosters so that the internet connection throughout the entire school is efficient. **Root Cause:** Internet in the area is inadequate for streaming. Weak internet and servers. The amount of device connectivity is not supported/limited.

Problem Statement 2 (Prioritized): There is a lack of communication when creating events/trainings therefore affecting teacher instruction. **Root Cause:** Trainings are not on structured schedules (placed within a school calendar accessible to all faculty) causing presentations to be rushed and not allowing for better teacher learning; overlap with other trainings.

Problem Statement 3: New teachers are not familiarized with the various school procedures and/or content. **Root Cause:** There is not enough time within the trainings, therefore teachers cannot learn the material successfully.

Problem Statement 4: DNHS students in Advanced Placement (AP) courses have not typically scored well on AP exams. **Root Cause:** Lack of student accountability. Teachers lack AP trainings with focus on content and other areas, recent updates to the AP curriculum, and vertical alignment.

Problem Statement 5: English Learners do not receive sheltered instruction and scaffolding support to build academic language. **Root Cause:** Many teachers are not trained in sheltered instruction and other ESL strategies.

School Processes & Programs

School Processes & Programs Summary

- What is our staff attendance rate?
  - The staff attendance rate is hard to calculate due to the COVID-19 pandemic. The over-all staff attendance rate was difficult to determine due to COVID leave.
- How is new staff supported?
  - All staff is assigned a mentor and each mentor is required to meet with the new teacher on a monthly basis. In addition, new staff is sent the new teacher academy held by the district and meet once per month with a Strategist to improve their experience at Donna North High School.
- What feeback do new teachers provide?
  - New teachers are given every opportunity to participate in all faculty meetings and mentor meetings.
- What is the impact/effect of our teacher mentor program?
  - The feedback has been positive. The new teachers have shown a great deal of progress not only academically but professionally.
- How are we using data to determine professional development for staff?
  - We held conferences in face or virtually and discuss areas for growth.
- How are collective and individual decisions regarding professional development determined?
  - The decisions are made together and agreed upon between teacher and appraiser.
- How will the campus and/or district ensure that needs are analyzed until root causes are identified and that only problems within the sphere of influence are addressed? How are needs prioritized?
  - The CLPAC will have the opportunity to review, analyze, and discuss the various needs on the campus and monitor their progress as they are addressed.

School Processes & Programs Strengths

- CLPAC/DLPAC - meetings have been held and have made significant changes to DNHS.
- Student Involvement in the CLPAC and the various task forces in the district.
- All teachers are appropriately certified for the position they teach.
- 100% of teachers participate in campus and district professional goals via the CLPAC and Department Heads.

- Effective implementation of the New Teacher Academy via Strategist.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Teachers continue to struggle to provide differentiated instruction to all student populations. **Root Cause:** Teachers voice that they would like to examine other avenues of differentiated instructional strategies.

Problem Statement 2 (Prioritized): DNHS needs to monitor campus progress on literacy throughout the school year to track student growth. **Root Cause:** DNHS, nor the district, has a process to monitor literacy for high school students.

Perceptions

Perceptions Summary

To what degree do students and staff feel physically safe?

- Overall teachers and students feel safe at the campus. There are teachers, administrators, security guards, and police officers out during passing periods and during lunch breaks. However, there is just to much space to monitor to a point where it deters misbehavior, but with new cameras being installed inside and outside the building there should more space covered around the campus. The overall safety at the school is good but we will move to improve the environment.

What do students and staff indicate about expectations: academic, behavioral, social, extracurricular, etc.?

- The expectations are that every adult at the school will treat students and each other with the utmost respect and always move to deescalate an explosive situation and always try to have a positive resolution to any conflict.
- The expectations of the students in general consist on making sure they average a passing grade on their classes, especially if they are part of an extracurricular activity, which should not be the only reason why they try but it seems to be a reality for some of them. Students also know that they should not risk being suspended due to fights on school, although some students still end up being suspended because of it. The expectations from part of the staff are to always keep aiming higher than before with the use are department meetings, new teacher academies, training's, T-TESS Observations, Data analysis from each six weeks, etc. As far as behavioral expectations, teachers let the students know about the consequences of not behaving properly, such as referrals which will lead to AC or DAEP. As far as extracurricular expectations, both students and staff are very dedicated into getting very good results.

Perceptions Strengths

- All are expected to be positive and proactive to resolve all conflicts
- All teachers are valued and improving their learning and teaching environment are at the forefront of admin's efforts.
- We have this notion that we must be better than other schools and that goal keeps us moving forward.
- Our teachers are great. We have some of the most caring teachers in the district.
- Our administrators work hard at their tasks and resolve every conflict with dignity and respect.
- Our counseling and the instructional departments are coming around and refining their efforts to best serve students.
- The culture of the campus is that we must do everything better than anyone else.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): A large number of DNHS students have drug related problems and display aggressive tendencies when confronted by school officials. **Root Cause:** Gang, drug, and crime is prevalent in the communities where our students live and that way of life is brought into our schools.

Problem Statement 2 (Prioritized): A portion of the Donna North community does not see or hear of the great things happening at DNHS. **Root Cause:** Some of our families do not have access to the media outlets that DNHS utilizes to send out messages.

Problem Statement 3: Donna North High School is perceived to be a tough and rough campus. **Root Cause:** Most, if not all, fights and conflicts are recorded and posted on social media.

Priority Problem Statements

Problem Statement 1: Student have connectivity issues. School has weak internet and lacks enough routers/boosters so that the internet connection throughout the entire school is efficient.

Root Cause 1: Internet in the area is inadequate for streaming. Weak internet and servers. The amount of device connectivity is not supported/limited.

Problem Statement 1 Areas: Student Learning

Problem Statement 2: There is a lack of communication when creating events/trainings therefore affecting teacher instruction.

Root Cause 2: Trainings are not on structured schedules (placed within a school calendar accessible to all faculty) causing presentations to be rushed and not allowing for better teacher learning; overlap with other trainings.

Problem Statement 2 Areas: Student Learning

Problem Statement 3: Teachers need to effectively understand and utilize special population indicators on TEAMS and EDUPHORIA to target and intervene for these student populations.

Root Cause 3: Staff has not been trained to use their resources to identify special population indicators.

Problem Statement 3 Areas: Demographics

Problem Statement 4: Students are entering DNHS below grade level in reading (how has reading levels been documented?).

Root Cause 4: Low student attendance rate and the lack of literacy integration contribute to the low reading levels.

Problem Statement 4 Areas: Demographics

Problem Statement 5: Teachers continue to struggle to provide differentiated instruction to all student populations.

Root Cause 5: Teachers voice that they would like to examine other avenues of differentiated instructional strategies.

Problem Statement 5 Areas: School Processes & Programs

Problem Statement 6: DNHS needs to monitor campus progress on literacy throughout the school year to track student growth.

Root Cause 6: DNHS, nor the district, has a process to monitor literacy for high school students.

Problem Statement 6 Areas: School Processes & Programs

Problem Statement 7: A large number of DNHS students have drug related problems and display aggressive tendencies when confronted by school officials.

Root Cause 7: Gang, drug, and crime is prevalent in the communities where our students live and that way of life is brought into our schools.

Problem Statement 7 Areas: Perceptions

Problem Statement 8: A portion of the Donna North community does not see or hear of the great things happening at DNHS.

Root Cause 8: Some of our families do not have access to the media outlets that DNHS utilizes to send out messages.

Problem Statement 8 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- State and federal planning requirements
- Covid-19 Factors and/or waivers

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Federal Report Card Data

Student Data: Assessments

- State and federally required assessment information
- (STAAR) current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- STAAR EL progress measure data
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Postsecondary college, career or military-ready graduates
- Texas Success Initiative (TSI) data for postsecondary/college-ready graduates data
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- SAT and/or ACT assessment data
- PSAT
- Running Records results
- Observation Survey results

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and progress
- Special programs data, including number of students, academic achievement, discipline, attendance, and progress
- Economically Disadvantaged / Non-economically disadvantaged performance, progress, and participation data

- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- STEM/STEAM data
- Section 504 data
- Homeless data
- Gifted and talented data
- Dyslexia Data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Annual dropout rate data
- Attendance data
- Discipline records
- Class size averages by grade and subject
- School safety data

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Communications data
- Budgets/entitlements and expenditures data

Goals

Goal 1: Donna North High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards.

Performance Objective 1: The campus will focus on instructional improvements resulting in all students meeting goals for all accountability measures. The percentage of 9-12 students reading on or above grade level will increase by 4%.

Evaluation Data Sources: STAAR and STAAR EOC, TELPAS, PBMAS, and Reading Inventory

Strategy 1 Details	Reviews			
Strategy 1: Teachers will use the district curriculum and instruction guide as their primary source of instructional direction for all subject areas.	Formative			Summative
	Sept	Dec	Mar	June
Strategy's Expected Result/Impact: Increased number of students meeting or exceeding STAAR EOC standards per core content area. **Staff Responsible for Monitoring:** Campus Principal, Deans, and Campus Administration **Comprehensive Support Strategy**				

Strategy 2 Details	Reviews			
Strategy 2: Develop, implement, and monitor daily instructional schedules to ensure all subject areas are taught everyday the appropriate allocated minutes and implement and monitor required lesson plans for English, Math, Science, and Social Studies.	Formative			Summative
	Sept	Dec	Mar	June
Strategy's Expected Result/Impact: Increased student performance as measured by District and State assessments. **Staff Responsible for Monitoring:** Campus Principal, Deans, and Campus Administration **Comprehensive Support Strategy**				

Strategy 3 Details	Reviews			
Strategy 3: Obtain and provide program manipulatives, models, consumable, non-consumable materials, including warehouse supplies, classroom instructional materials, and resources (i.e. online programs) for all student populations in any content area.	Formative			Summative
	Sept	Dec	Mar	June
Strategy's Expected Result/Impact: Inventory aligned to core curriculum materials and purchase orders. Increased percentage of all students meeting District, State, and Federal Standards (STAAR EOC, TELPAS, & PBMAS, TSTEM goals and activities). **Staff Responsible for Monitoring:** Deans and Campus Administration **Comprehensive Support Strategy** **Funding Sources:** - Title I (211) - $47,502				

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Provide research based staff development aligned to performance data measured by District, State, and Federal accountability indicators to include: job embedded training (common departmental planning), response to intervention (RTI), data utilization, technology, core state adopted textbooks, supplemental programs, research based strategies for ELLs, research based instructional strategies for CCRS, classroom management, and discipline (teaching) for appropriate behavior, including presentations for Red Ribbon week (Fellowship of Christian Athletes) Red Ribbon Week supplies. **Strategy's Expected Result/Impact:** Professional Development District Plan & Campus Based, training agendas, and sign-ins. Increased instructional effectiveness and student performance as measured by grades and state assessment outcomes, decreased at risk learners, decrease in referrals, and decrease in behavior referrals. **Staff Responsible for Monitoring:** Campus Administration, Department Chairs **Comprehensive Support Strategy**				

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Provide funds for teachers, counselors, administrators, campus personnel/support staff to attend necessary trainings, conferences or professional development in all areas of need. To provide continuous campus and district initiatives such as Abydos, Region 1, Region 10, Lead4ward, Dana Center, AVID, T-STEM, GEAR UP, RGVSA, RGVCTM, TASSP, Assessment Conference, Technology Conference, Gretchen Bernabei, TXESOL, CAST, CAMT, AP and Pre-AP Trainings, Laying the Foundations, Hestec Training & events, TI-Nspire, Jill Aufill, STC, UTAustin OnRamps, UTRGV, Texas Spanish Language Symposium, National Counsel for Social Studies, etc. **Strategy's Expected Result/Impact:** Increased performance in assessment scores **Staff Responsible for Monitoring:** Principal, Campus Administration & Department Chairs, Campus Personnel, Support Staff **Comprehensive Support Strategy** **Funding Sources:** - Teacher/Principal (255) - $5,214				

Strategy 6 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 6: Monitor implementation of best instructional practices presented during professional development and all staff training. **Strategy's Expected Result/Impact:** Lesson Plans, walkthroughs, classroom visits, progress monitor documentation and student academic outcomes. **Staff Responsible for Monitoring:** Principal, Campus Administrators & Teachers **Comprehensive Support Strategy**				

Strategy 7 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 7: Improve supports to struggling learners by improving interventions such as tutorials and trailer courses, resources, and training, and articulate those interventions in documented meetings, lessons, parent contacts, team meetings, data analysis, and revolving follow up. Saturday Academies, Tutorials and Extended day Tutorials, ACT Reviews, Edmentum, provide the necessary funds for transportation, refreshments, and extra pay for teachers. **Strategy's Expected Result/Impact:** Decreasing number of struggling students requiring tutoring and or intervention. Improve ACT scores. **Staff Responsible for Monitoring:** Campus Administrators & Teachers **Comprehensive Support Strategy** **Funding Sources:** - Title I (211) - $16,680				

Strategy 8 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 8: Implement district & campus initiatives such as 5E Model, Anchor Charts, Word Walls, Vocabulary Development, Interactive Notebooks, Laptops, Touch Screens, Technology, Journals, Software, Student Portfolios, Cooperative Learning Strategies, Sheltered Instruction, ExC-ELL, OnRamps, TStem, Writing across the Curriculum, and College Readiness Activities. **Strategy's Expected Result/Impact:** Walkthroughs and Increased student performance as measured by district and state assessments. **Staff Responsible for Monitoring:** Campus Administration & Teachers **Comprehensive Support Strategy** **Funding Sources:** - Title I (211) - $64,000				

Strategy 9 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 9: Ensure the campus program for English Language Learners (ELLs) is research based, responsive to the needs of students, designed, implemented, supported, and monitored for impact on student learning. **Strategy's Expected Result/Impact:** Increased student performance as measured by district and state assessments and TELPAS. **Staff Responsible for Monitoring:** Principal, Campus Administration, ELL Strategists, and Teachers **Comprehensive Support Strategy**				

Strategy 10 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 10: Provide college and career readiness opportunities that integrate cognitive strategies, content knowledge, learning skills and techniques, and transition knowledge and skills to enable students to persist into post-secondary schooling. **Strategy's Expected Result/Impact:** Texas Academic Performance Report of graduates enrolling in TX institutions of higher education (IHE). **Staff Responsible for Monitoring:** Campus Principal, Campus Administration, Counselors, Gear Up Facilitators, AVID Coordinators				

Strategy 11 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 11: Technology use for instructional materials instructional material-tests, worksheet, problem of the day such as TI 84 Inspires (Navigator, CX) PASCO, IPads, Scanners, Laptops, ChromeBooks, Surface Pros, and charging Carts for all Chromebooks, Surface Pros and Laptops. Provide funds for technology to be used in the classrooms. **Strategy's Expected Result/Impact:** Progress Report, Six Weeks Grades, Benchmark, results, EOC scores **Staff Responsible for Monitoring:** Principal, Dean				

Strategy 12 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 12: Provides funds for curriculum office and testing coordinator to purchase scanners, laptops, computers, and other items to be used for staff development training, EOC/Benchmark training and testing, and bundle assessment data. **Strategy's Expected Result/Impact:** Sign-ins, training materials, Data disaggregation **Staff Responsible for Monitoring:** Principal, Deans				

Strategy 13 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 13: Provide transportation and funding for educational field trips for all students, clubs, and organizations.				

Strategy 14 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 14: Determine advanced academic courses to be offered at Donna North High School and expand opportunities for dual credit and advances placement **Strategy's Expected Result/Impact:** Increase enrollment numbers in Pre-AP, AP, & Dual Enrollment courses. **Staff Responsible for Monitoring:** Principal, Campus Administration, Counselors & Teachers **Funding Sources:** - Title IV 289 - $27,242				

No Progress Accomplished Continue/Modify Discontinue

Goal 1: Donna North High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards.

Performance Objective 2: Donna North HS will facilitate 9-12 reading level monitoring by increasing educators' awareness of language, literacy, and content interdependence for the ESL population.

Evaluation Data Sources: Eduphoria (Workshop and AWARE), Master Schedules, TELPAS, PBMAS, Achieve 3000

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Train teachers on pedagogy (sheltered instruction, ExC-ELL, etc.) that addresses the needs of the LEP population, and acquire resources to assist teachers in providing linguistically accommodated instruction to ELLs. **Strategy's Expected Result/Impact:** Requisitions; use in classrooms; inclusion in lesson plans, walkthroughs **Staff Responsible for Monitoring:** Campus Administration & ESL Strategists **Comprehensive Support Strategy**				

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Maintain up-to-date instructional technology in ESL, ELD and LUCHA classrooms in order to serve campuses and students more effectively. **Strategy's Expected Result/Impact:** Use of technology in instruction; enhanced TELPAS and STAAR scores for students utilizing technology **Staff Responsible for Monitoring:** Campus Administration, ESL Strategists, ESOL/ELD/LUCHA Teachers, Campus Technology Technician				

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Monitor teachers as they develop and foster the use of on-line, vertically and horizontally aligned ESL and ELD curricula that integrate TEKS, ELPS and CCRS and that incorporate authentic readings, performance tasks and research-based instructional strategies sequenced in detailed units. **Strategy's Expected Result/Impact:** Curriculum units; lesson plans and instruction that effectively utilize curricula **Staff Responsible for Monitoring:** ESL Strategists				

Strategy 4 Details	Reviews			
Strategy 4: Train campus teachers and administrators with opportunity's to attend local and state conferences (TABE) and training sessions specializing in strategies and methodologies for ELL students.	Formative			Summative
	Sept	Dec	Mar	June
Strategy's Expected Result/Impact: Certificates of completion, walkthroughs, lesson plan reviews, student scores on TELPAS and STAAR **Staff Responsible for Monitoring:** Campus Principal & Deans **Funding Sources:** - Teacher/Principal (255) - 255 - $3,500				

Strategy 5 Details	Reviews			
Strategy 5: Provide resources to supplement instruction such as Spanish English Dictionary, textbooks, workbooks and any supplies (warehouse included) needed.	Formative			Summative
	Sept	Dec	Mar	June
Strategy's Expected Result/Impact: Improved performance on EOC for ELL's. **Staff Responsible for Monitoring:** Principal, ELL Strategist, Deans				

Strategy 6 Details	Reviews			
Strategy 6: Offer summer and year-round English Language Development Academy (ELDA) for ESL/LEP students to target deficiencies in Reading & Writing, provide funds for ELDA tutors to offer students extra academic support in these areas.	Formative			Summative
	Sept	Dec	Mar	June
Strategy's Expected Result/Impact: Acquisition of Algebra and English I credits, improved six weeks grades, increased scores on state assessments **Staff Responsible for Monitoring:** Campus Principal & ESL Strategists				

Strategy 7 Details	Reviews			
Strategy 7: Testing Supplies-EOC preparation	Formative			Summative
	Sept	Dec	Mar	June

Strategy 8 Details	Reviews			
Strategy 8: Students will attend an End of Year Trip to reward them for their commitment and dedication to the ESOL/LUCHA Program.	Formative			Summative
	Sept	Dec	Mar	June
Strategy's Expected Result/Impact: Travel Request form **Staff Responsible for Monitoring:** LPAC Coordinator, Campus Principal,				

No Progress Accomplished Continue/Modify Discontinue

Goal 1: Donna North High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards.

Performance Objective 3: Library Services: The Library Services Department will facilitate the purchase of and monitor usage of key literacy programs utilized in the district for grades 9-12.

Evaluation Data Sources: Battle of Books, reports

Strategy 1 Details	Reviews			
Strategy 1: Provide students the opportunity to have authors visit and talk to them about becoming an author or an illustrator by holding campus/district literacy fairs.	Formative			Summative
Strategy's Expected Result/Impact: Contracted author's documentation, flyers and sign-ins for literacy fairs.	Sept	Dec	Mar	June
Staff Responsible for Monitoring: Campus Administration, Librarians, Library Assistants				

Strategy 2 Details	Reviews			
Strategy 2: Teach technology TEKS to students.	Formative			Summative
Strategy's Expected Result/Impact: Lesson plans from Teacher and librarian Class schedule	Sept	Dec	Mar	June
Staff Responsible for Monitoring: Campus Administration, Librarians				

Strategy 3 Details	Reviews			
Strategy 3: Provide campus with a balanced, current, age-appropriate, and systematically organized collection of award-winning books to fit the curriculum needs of the campus, to include magazine and newspaper subscriptions. Offer reading motivational incentives and hold student celebrations to encourage circulation.	Formative			Summative
Strategy's Expected Result/Impact: Collection of analysis and inventory list, Requisitions, List of eligible participating students	Sept	Dec	Mar	June
Staff Responsible for Monitoring: Campus Administration, Librarian, Library Assistants, Department Heads				

Strategy 4 Details	Reviews			
Strategy 4: Provide extended library hours before and after school. Allowing parents and community members to check out library books providing them and students with opportunities to participate in motivational reading activities such as Literacy Night.	Formative			Summative
Strategy's Expected Result/Impact: Student sign-in sheets and extra duty time sheets Flyers, sign-ins, roster of participants	Sept	Dec	Mar	June
Staff Responsible for Monitoring: Campus Administration, Librarians, Librarian Assistants				

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Provide, update, and expand resources for teachers, counselors, and administrators to use in their instructional setting and professional development, to include books, audiovisual and technology equipment, databases, laptops, toner, Ipads, TVs, projectors, document cameras, reading devices, carts, microphones, headphones, digital cameras, professional books, etc. **Strategy's Expected Result/Impact:** Inventory, license agreement, equipment checkout **Staff Responsible for Monitoring:** Campus Administration, Librarian, Library Assistants				

Strategy 6 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 6: Provide a loss prevention plan and resource management for circulation, cataloging, and securing/retrieving missing, lost or stolen materials. **Strategy's Expected Result/Impact:** Maintenance agreement for security gate system 3M Library Systems, Pockets, and security tape **Staff Responsible for Monitoring:** Campus Administration, Librarian, Library Assistants				

Strategy 7 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 7: Provide funding for general supplies needed to run the library and supplies for the Maker Space. **Strategy's Expected Result/Impact:** Photos of students using the Maker Space **Staff Responsible for Monitoring:** Campus Administration and Librarian				

Strategy 8 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 8: Provide librarian the opportunity to attend workshops and conferences to improve job performance. **Strategy's Expected Result/Impact:** Certificate of Completion **Staff Responsible for Monitoring:** Campus Administration and Librarian				

Strategy 9 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 9: Provide funds for staff development, trainings, including materials, resources, miscellaneous. **Strategy's Expected Result/Impact:** Organization of event, flyers, sign-ins, roster of participants **Staff Responsible for Monitoring:** Administration Librarian				

Strategy 10 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 10: Create a warm, friendly environment. Update and replace furniture and decor as needed, repaint when necessary. **Staff Responsible for Monitoring:** Administration Librarian

Goals 49
- Goal 1: Donna Early College High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The campus will implement literacy strategies that will result in more students reading on or above grade level. 50
- Goal 2: Donna Early College High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 53
- Goal 3: Donna Early College High School will create an instructional environment that will enhance the learning and academic performance of all students and increase the percentage of graduates demonstrating college/career/military readiness. 62
- Goal 4: Donna Early College High School will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 74
- Goal 5: Donna Early College High School will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 80
- Goal 6: Donna Early College High School will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 102

Focus Questions

What do enrollment numbers indicate? DECHS is in it's planning year this 2019-2020 school year. Because we have not been in operation a full year, we cannot report student enrollmet. However, student recruitment numbers indicate that there is an interest for students to earn up to 60 college credit hours or an Asscociate Degree as they earn their high school diploma simultaneously. Despite the difficulties in face-to-face recruitment efforts posed by Covid- 19, 109 of the 12 cap were recruited for the 2020-2021 school year. Based on latest TEA Texas Academic Performance Report (TAPR), there were 1,300 9th graders enrolled in the district. For the purpose of looking at existing data, I've looked at one of the traditional high schools (Donna High School) as an example. There were 2,046 students enrolled: 90.32% labeled ED, 29.62% ELL, and 73.46% At-Risk.

Donna Early College High School demographics (based on students' intent to enroll) is as follows:

72 (66%) At-Risk; 95 (87%) ED; 42 (39%) LEP; 42 GT (39%); 4 SpED (3.7%); 4 Migrant (3.7%)

What is the breakdown by ethnicity, gender, or other category?
Gender: Male= 44 (40.4%); Female= 65 (60.6%)
Am. Indian/Alaskan: 0.0% (0)
Hispanic: 100% (109)
African American: 0.0% (0)
White: 0.0% (0)
Asian: 0.0% (0)
3. How has the enrollment changed over the past three years?

N/A- TEA Planning Year

4. What is the number of students in each program? How do these program numbers look broken up by ethnicity, gender, or other category? Are we over or underrepresented in certain groups? Why?

72 (66%) At-Risk; 95 (87%) ED; 42 (39%) LEP; 42 GT (39%); 4 SpED (3.7%); 4 Migrant (3.7%)
5.What is the data for special programs over time?

N/A

But trends in sister high schools show that there has been increase in students receiving Special Education services, while CT, GT, and ELL numbers have decreased. Based on Spring 2018 STAAR EOC (2019 not available) score reports, scores for Special Education students have increased for English I, English II, Biology, and US History while scores on the Algebra State Assessment have remained constant from the prior year administration. Scores for ELL students have increased for English I, English II, and Biology, while their scores on the Algebra and US

History state assessment have decreased from the prior year administration.

6. What does the data reflect regarding students who exit from special programs? How many? Who are they? What trend or pattern do we see?

N/A

Will monitor student groups, specifically to see if students are not exited from the program priorto graduation.
In our traditional high school, students who exit special programs are very few.
Various reasons students have exited include change of endorsement, career/personal interests evolve, pass/fail EOC Assessments/TELPAS or other diagnostic indicators that determine admission/exit from special programs.
7. Who are our at-risk students? What is their at-risk category?

Based on the 109 students who have been recruited and intend to enroll in the fall of 2020, 72 (66%) are considered At-Risk of dropping out of high school.
AT-RISK-INDICATOR-CODE indicates whether a student is currently identified as at-risk of dropping out of school using state-defined criteria only (TEC §29.081, Compensatory and Accelerated Instruction). Please note that a student with a disability may be considered to be at-risk of dropping out of school if the student meets one or more of the statutory criteria for being in an at-risk situation that is not considered to be part of the student's disability. A student with a disability is not automatically coded as being in an at-risk situation. Districts should use the student's individualized education program (IEP) and other appropriate information to make the determination.
A student at-risk of dropping out of school includes each student who is under 21 years of age and who:
is in grade 7,8,9,10,11, or 12 and did not maintain an average equivalent to 70 on a scale of 100 in two or more subjects in the foundation curriculum during a semester in the preceding or current school year or is not maintaining such an average in two or more subjects in the foundation curriculum in the current semester;
was not advanced from one grade level to the next for one or more school years;
did not perform satisfactorily on an assessment instrument administered to the student under TEC Subchapter B, Chapter 39, and who has not in the previous or current school year subsequently performed on that instrument or another appropriate instrument at a level equal to at least 110 percent of the level of satisfactory performance on that instrument;
is pregnant or is a parent;
has been placed in a alternative education program in accordance with TEC §37.006 during the preceding or current school year;
Has been expelled in accordance with TEC §37.007 during the preceding or current school year;
is currently on parole, probation, deferred prosecution, or other conditional release;
was previously reported through the Public Education Information Management System (PEIMS) to have dropped out of school;
is a student of limited English Proficiency, as defined by TEC §29.052;

is in the custody or care of the Department of Protective and Regulatory Services or has, during the current school year, been referred to the department by a school official, officer of the juvenile court, or law enforcement official;
is homeless, as defined NCLB, Title X, Part C, Section 725(2), the term "homeless children and youths", and its subsequent amendments; or resided in the preceding school year or resides in the current school year in a residential placement facility in the district, including a detention facility, substance abuse treatment facility, emergency shelter, psychiatric hospital, halfway house, or foster group home.
Low income students along with minorities.
8. Who are our Migrant students?

Based on the 109 students who have been recruited and intend to enroll in the fall of 2020, 4 students have been identified as Migrant students. A migrant student is a child between 3 and 21 years of age who is, or whose parents, spouse, or guardian is , a migratory agricultural worker, including a migratory dairy worker, or migratory fisher, and who, in the preceding 36 months, in order to obtain, or to accompany such parent, spouse or guardian in order to obtain temporary or seasonal employment in agricultural or fishing work, has moved from one district to another.
9. What is the mobility rate for this campus? What is the stability rate? How are these numbers represented for Migrant students?

N/A- Will monitor student groups, specifically to identify moblity trends.
10. What area of the community do these students come from?

Low income areas
Students come from neighboring school districts, zoned rural subdivisions, colonias, and within city limits.
11. What are the staff demographics?

N/A- Staff has still not been hired.
12. What are the teacher/student ratios? How do these ratio compare to performance?

N/A- Planning Year

Demographics Strengths

1. Stong partnership with South Texas College to implement the early college model.

2. Afford students the opportunity to begin taking college courses as early as 9th grade, tuition-free.

3. High percentage of Hispanic, At-Risk, and Economically-Disadvantaged students enrolled in college courses and AP Courses.

4. Access to the college facilities and resources

5. Personalized student advisement

6. Teachers highly qualified to teach in their content area.

Problem Statements Identifying Demographics Needs

Problem Statement 1: TSI scores need to be improved so that students may begin taking college courses as early as 9th grade. **Root Cause:** No spiraling of TSI curricula into content area to improve TSI index scores.

Problem Statement 2: : Target population*(who have failed 8th grade STAAR math and English)are under prepared for accelerated instruction received immediately at the DECHS. **Root Cause:** Students entering 9th grade are not TSI college-ready.

- Student Grades & Classwork
- ACT,PSAT/SAT,TSI results
- College Readiness Indicators
- SAT/ACT Standardized Test Results
- AWARE

Focus Questions

1. How is student achievement data disaggregated?

- We are utilizing the Eduphoria/ AWARE system which gives instant results and information regarding an assessment. This program provides feedback regarding student mastery (or non-mastery) of specific objectives and concepts. Bundle & Benchmark data is utilized and disaggregated in AWARE and by each department. Results are disaggregated by TEKS, bundle assessments, and EOC scores. Student achievement data is also disaggregated via principal presentations, Instructional Action Plans, and Student Self Reports.
- Student data is separated by demographics and accommodations. This data is collected through bundle scores, TELPAS scores, state data, and content area scores.

2. How does student achievement data compare from one data source to another? (STAAR v. TELPAS v. AYP v. Grades v. Standardized Testing v. Graduation Rate, etc.)

Benchmark results, bundle exams, and STAAR EOC results are showing an increase as the year progresses.Aware offers accurate data

every Six Weeks and is at the teacher's disposal on a daily basis. The Principal's presentations are in depth, and instructional action plans are detailed.
- The data varies in content subject area, and in the standards that are set for student achievement.

3. **What does the data indicate when disaggregated by ethnicity, gender, socioeconomic status, special program, or other category?**

Data indicates the progress of students from socioeconomic status, LEP, Special Populations, and At Risk.

This indicates that the district is analyzing different student needs, and is making a positive effort to help the different types of students succeed.

4. In which areas are we showing growth? At what rate? Compared to which standard of achievement?

- We are maintaining growth with respect to the general population.
- LEP scores are increasing in English and US History. Graduation rate is showing growth due to changes in graduation requirements and IGC. DHS is showing growth in English I and English II STAAR percentage passing, and has far surpassed others in the area of US History.
- Student growth can be seen in STAAR persuasive and expository writings. Student portfolios are utilized to demonstrate growth from 1 to 5%.
- We are showing growth in Mathematics and Science. Our STAAR benchmark scores showed improvements from last year to the current year.

5. Which students are making progress? Why?

- All student populations are making progress because instructors are utilizing data desegregation and accountability. Many programs, like the Ambassadors, target students at the 9th grade level, which serves as a mentorship program. Diverse Learners, LEP students, and At-Risk students are all making progress, even if at times minimal. Accommodations are utilized to assist students.
- Our socioeconomic status students are making progress because of the technological and academic opportunities provided through Donna ISD.

6. What impact are intervention programs having on student achievement? Which students are benefiting or not? Why?

- Intervention strategies and various programs have promoted student achievement and progress can be seen.
- The Edmentum credit recovery program is helping students, in particular migrant students and failing seniors. Students attending weekly subject tutorials (Monday-English, Tuesday-Math, etc.) are receiving the assistance necessary to make gains both as course credit and STAAR scores. The mainstreaming of Diverse Learners and RTI have a positive impact on dedicated special education/504/RTI students, but low reading levels remain. There is an overall positive impact on all student groups. The "Be the Change Program", Ambassadors, NHS tutorials, and after school tutorials improve grades and attendance. The intervention programs that are benefiting our Special Education population are inclusion, Kagan, and heterogeneous groups. It provides a more one to one structure as well as allows for peer tutoring.
- Inclusive intervention has a positive impact on student achievement for Special Education populations.

7. What does the longitudinal student achievement data indicate?

- Data indicates progress is ongoing, and there is positive growth towards campus goals.
- Benchmark data shows that students are mastering the TEKS being tested and the passing scores are increasing yearly. Students with good support systems do well as compared with students without. There was decrease in English I from 56% to 44%; an increase in English II from 50% to 52%; Algebra decreased from 86% to 79%, Biology slightly increased 84% to 85%, and US History decreased from 96% to 92%.
- Students who did not previously pass the STAAR test have passed the STAAR this year as a result of Math 9, Math 10, Math 11 classes.

8. What does the data reflect within and among content areas?

- Data reflects the students' progress and mastery as well as areas which need improvement.
- All core areas show improvement across the board based on Benchmark data. US History continues to surpass other subject areas in EOC scores as is the trend across the state. English and Algebra scores tend to be lower as compared to Biology and US History.
- The data reflects individual student growth.
- Content areas are improving with the implementation of various programs such as TSTEM.

9. What does the data indicate when disaggregated at various levels of depth?

- Disaggregated data demonstrates the students' strengths and weakness at the various levels of depth.
- When EOC/benchmarks results are broken down by subject area objectives, teachers can determine where student performance is weak and strong. Modification of instruction follows this evaluation of student performance. ELLs and Diverse Learners still lag behind when compared to the rest of the student population. Other data indicate that the TEKS were not addressed with enough depth and, therefore, students did not master at a high rate. Also, previous year data is key in placing students in correct trailer courses so that they may receive the appropriate remediation for failed EOC assessments. Special Education is lower in its STAAR participation rate, attendance rate, college and career readiness, and dual enrollment. However, our drop-out rate is higher than the state.

10. Which students are making annual progress? Which ones are making projected growth? Who are these students? How does this data compare across programs, content areas, subgroups, etc.?

- Every student at Donna High School is making annual progress. Data that is collected throughout the years shows how student scores are progressing across multiple demographics. There is not a single group of students at a disadvantage due to the opportunities provided by the district.
- Students with good attendance and minimal behavioral problems have shown annual progress. Students who are self-motivated and seek additional help have shown growth. Students in advanced courses, such as CC, AP , and TSTEM are motivated to excel.

Student Achievement Strengths

1. Solid data monitoring system

2. Academic UIL extends classroom learning and promotes higher order thinking skills.

3. Students are mastering the US History STAAR EOC exam.

4. Interventions for students with needs

5. AWARE/Eduphoria helps teachers obtain data fast and generate reports to determine gains or losses.

6. Programs such as "Be the Change", Ambassadors, tutorials, and others that target student groups and provide students with the opportunities to expand what they've learned.

7. Graduation rates are increasing.

8. Curriculum

9. ACT Bellringers (testing)

10. Collaboration/team planning

11. Abydos training

12. AP Exam participation

Problem Statements Identifying Student Achievement Needs

Problem Statement 1: Special populations including LEP, SPED, and MIGRANT perform below the general population. **Root Cause:** Gaps exist with reading levels of incoming high school students.

Problem Statement 2: STAAR EOC scores in the area of English I and English II continue to be the lowest **Root Cause:** Additional resources are needed, and there is not sufficient time within each bundle to adequately teach the required TEKS.

Problem Statement 3: Teachers struggle to provide differentiated instruction to all special student population groups. **Root Cause:** Teachers need additional tools, training, and support to meet the individual needs of all special student population groups.

School Culture and Climate

School Culture and Climate Summary

Data Sources

Meetings, Agendas, Sign-ins

Focus Questions

1. **How do students describe the school climate? How does this compare to staff?**

There is great Redskin pride visible throughout and amongst all students. There is a great sense of community within the school. Some students feel overwhelmed with bundle testing and too many trailer courses. As for the staff, many staff members have favorable opinions of the school climate. Despite the negative outsider perception of the district, staff morale is boosted by the fact that DHS has increased exam scores and we have strong collegial support. Students, however, feel that most adults in the school seem to be caring and understanding. The staff took extra time before weekends to caution students about becoming involved in dangerous activities. Other students reported about meetings with counselors who provided help to those students who might have been expelled from school without the assistance. Freshmen students indicated that the Ambassador program helped them understand various things from upperclassmen to help make their first year at DHS a smooth transition. Other students also indicated that the 7 Habits which were implemented during Advisory assisted with decision making for them.

Students describe the school climate as welcoming, supporting, and encouraging with a sense of belonging, safety, and personalized instruction; staff feels the same.

2. **What evidence is there that students and staff are collectively aligned with the vision and mission of the school?**

Students are continuously motivated to "Be the change" and succeed in a variety of programs at DHS: the Ambassadors Program, UIL Academics, UIL Athletics, UIL Music, Gear UP, AVID, and mentoring programs. Other evidence is the high graduation rate and low dropout rate. Also, in Academics and Career and Technology, there is a great strive for student achievement. Other evidence includes college ready objectives, relevant lessons, and student performance. On the other hand, some staff feel we need to create a campus vision that needs to be shared with students and staff weekly during the announcements.

Staff is aligned by encouraging students to participate in programs such as AP courses, STEM program, dual enrollment, and the OnRamps program. The students are slowly coming around to this idea and vision, but it takes time.

3. **How do students and staff describe attitudes, respect, relationships, belonging, support, etc.? How does this data compare across groups? Which groups respond in which manner?**

- Staff model respect and proper attitude in the classroom toward students. We also give a sense of belonging to each student. Students try to demonstrate proper behavior and attitudes by maintaining grades, behavior, etc. They try to belong by participating in all campus activities and opportunities. Most students are very respectful and have a positive attitude towards the school and staff. It is only a small group of students who are constantly sent to the office with referrals. It is usually this same small group that will get in trouble, fail classes, and exhibit disrespect. Overall, because of the similarity between student and staff demographics, both parties tend to share similar values. That, along with the respect and pride, give a great sense of belonging.

- Students and staff share the same culture; therefore, they have mutual respect for each other.

4. **What does the data reflect regarding student behaviors, discipline, etc.?**

Students with disciplinary issues tend to have academic struggles due to lack of motivation from their home environment. Data reflects that the students who are involved in extracurricular activities typically do have people in their lives to model good behavior, a family support system, and motivation toward academic success.

Data reflects that action is being taken for discipline (AC, Suspension, DAEP, etc), and that there is a better connection with teachers for continued education.

5. **To what degree do students and staff feel physically safe?**

Here at Donna High School, students and staff do feel physically safe. We have thankfully not had many incidents over the past few years that have made us feel otherwise. Naturally, when a violent incident occurs at another school, fear levels rise amongst staff and students, and security is enhanced in response. Thanks to the upgrades such as the fence, staff feels even more secure. Also the the fence on the school perimeters makes the school safe and attractive.

Overall, it is a safe environment, but the school structure with may exits and entrances contribute to some insecurities when it comes to school safety.

6. **What do students and staff indicate about expectations: academic, behavioral, social, extracurricular, etc.?**

As staff, we start addressing our expectations of our classrooms/areas and the consequences for violating these expectations on Day 1 of the school year. Beginning with freshmen orientation and registration for the rest of the school, expectations are constantly instilled in the students to understand the rules. More parental involvement is needed for support. On a daily basis, we reinforce proper behavior and academic integrity. The expectations of students involved in extracurricular activities are typically of a higher standard, and they are stated in club or organization constitutions or rules. Students believe as DHS graduates, they are ready to head to college or trade of their choice.

Students are aware of the high expectations to pursue a higher education, and the staff constantly reminds students about options, etc.

The expectations are high across the board and there are many AP classes and college courses available. The school also offers many extracurricular activities for students to be engaged.

7. **Which students are most satisfied with the school's culture and climate? How does this compare to the students' attendance, tardies, and other behaviors?**

Students who participate and are involved in extracurricular activities seem most satisfied. They also tend to have fewer attendance issues. This group includes students of Band, Athletics, AVID, CTE, Student Council, and students in advanced academic and dual enrollment courses.

Also, students who truly want to excel and students who have appropriate beliefs, values, attitude, and expectations tend to have better attendance and are satisfied with the school's culture and climate.

Students that participate and are involved in activities seem most satisfied. They tend to have fewer attendance issues.

8. **What does the data indicate regarding classroom management and organization?**

Our scores on EOC tests and Six Weeks Exams are improving, which directly correlates with classroom management, organization, and curriculum. Walkthroughs and observations indicate good management and organizations. Attendance and classroom achievement go hand in hand. More attendance means students are present to learn. Also if a teacher has appropriate classroom management and organization, this will result in less referrals, learning will be more conducive to student success and achievement, and overall will allow for administrators to be more vigilant in classrooms and hallways. Overall, DHS has many experienced teachers who generally have excellent classroom management and, in turn, achievement has improved.

9. **How does this compare to classroom student achievement data?**

Again, it directly correlates with classroom management, organization, and curriculum.

10.**What does the data reflect regarding gang, substance abuse, weapons, and other safe schools areas? Who are the students involved? What do we know about these students? What services have these students received?**

The data reflects that, more often than not, these students come from the homes that lack academic involvement, direction, and guidance. Therefore, these students may feel alone, which causes them to turn to gangs and dangerous lifestyles. We have counselors and LSSPs available. Overall, there is very little gang participation and those who are, are monitored daily. Students who are not academically motivated or nor involved in organizations tend to fall into this group, but the school provides assistance through LPC and if necessary, outside agencies. More disciplinary action is taken due to drugs than gangs, but good redirection of gang activity has reduced the issue. Drug education is provided every six weeks.

11.**What students are involved in extracurricular activities, clubs, and other areas? Who are these students? What does student achievement reflect about these students versus others who are not involved?**

Typically, the students who are academically in the upper 50% are involved in extracurricular activities. These are usually the students who we know are responsible with their academic careers. They are highly motivated to improve their academic status in order to be a member of an extracurricular activity. These students tend to enroll in advanced academic classes and score higher than their peers.

Students who tend to be in extracurricular activities demonstrate a greater commitment to school and achieve higher grades.

Body language, appearance, and behavior are prime indicators. Students involved are more social and usually care more about school and grades due to the sense of belonging to a team and the UIL No Pass No Play rule. They are aware that being in extracurricular activities and clubs require them to keep their grades up, have good attendance, be on their best behavior, and to participate in community service. Due to all the requirements these students excel in student achievement rather than students not involved.

12.**What are the students' and staffs' perceptions of facilities and the physical environments? What is the impact of the facilities on culture and climate? To what degree does the district/school support the organization and how?**

The ongoing improvements have clearly had a positive impact on perception. Schools that engage in constant facility upgrades and maintenance make teachers, students, and staff feel good about their workplace and learning environment, thus leading towards success in the classroom. Some maintenance is still necessary but upkeep is constant.

One source of worry due to recent events at schools across the nation is the safety of the campus. Our campus has multiple points of entrances and exits which make it difficult to secure with fidelity. Other minor concerns of the staff include the presence of allergens and perhaps mold, and the fluctuation of classroom and hallway temperatures.

School Culture and Climate Strengths

1. Strong collegial support
2. Pride, Traditions, and Legacies
3. Students are continuously motivated by a variety of programs which help them gain self-confidence and assurance.
4. Students feel safe.
5. High graduation rate
6. Low dropout rate
7. School appearance and upkeep
8. Good environment for learning
9. Several programs aimed at helping students succeed such as AVID, Ambassadors, STEM, etc.
10. Student incentives are provided for student achievement.

11. Ambassador Program
12. Positive school climate
13. Closed Campus/ Raptor Station
14. Disciplinary Actions, suspensions, and DAEP placements
15. Student handbook
16. Community and family engagement
17. Administrator classroom walkthroughs
18. Parent contact
19. Data driven decision making
20. Classroom management
21. Climate surveys for staff
22. Extracurricular activities and clubs are available to all who are interested.
23. Interviews reflect that students are wanting to attend college and understand the importance of community service/involvement.

Problem Statements Identifying School Culture and Climate Needs

Problem Statement 1: Social and Emotional Learning is lacking. **Root Cause:** Lack of SEL curriculum, training and support.

AEIS/ TAPR Report
Professional Development Data
Teacher Certification & Qualification Data

Focus Questions

1. What are the teacher qualifications, certifications, etc.? Paraprofessionals?

- Teachers must be certified in their teaching field. Paraprofessionals must have a high school diploma and a required number of college hours.
- PPR and Content area certification are required of teachers.

2. What does the general data reflect regarding teacher quality on the campus?

- Teachers are "highly qualified", which means having a bachelor's degree and a certificate in the specific teaching field. Many teachers have a master's degree, and some have a doctorate. Teachers have been evaluated and meet evaluation requirements to have their contracts renewed.
- All teachers are highly qualified in content area; however, we did have a number of teachers as part of an alternative certification program still pending certification.

3. How are follow-up data regarding teacher performance provided to teachers?

- Through the Eduphoria program, teachers can view the results and comments from any walkthrough or observation that an administrator has conducted. Each year, teachers are to meet with their respective supervisors who oversee each department for a summative meeting to discuss evaluations. When performance issues need to be addressed, administrators meet with teachers to discuss the issues. During core-area common planning, administrators have an opportunity to address teacher performance with a larger group.

4. How are we recruiting highly qualified and effective staff?

- To recruit highly qualified staff, the district advertises job openings and networks with the current staff and administration.

5. What is our staff attendance rate? Retention rate? Turnover rate?

- According to data, 15.1% of teachers were veteran teachers with over 20 years of experience, 22.2% have 11-20 years of experience, and 25.4% have 6-10 years of experience, and 30.7% are first to fifth year teachers. Most teachers stay on staff at Donna High School for over 5 years.
- Attendance incentives have kept staff attendance at high rate.

6. How are highly effective staff assigned to work with the highest need students?

- Administrators and strategists conduct walkthroughs and observations to determine which staff will most likely meet the needs of these students. Evaluations, qualifications, student assessment data, and policy compliance are also considered in this process.

7. What is the impact/effect of our teacher mentor program?

- Each teacher who is new to the profession receives a mentor to help through the process of assimilation into Donna High School. These new teachers are able to use their mentor teachers as a valuable resource throughout their first year in the profession.

8. How is new staff supported? What feedback do they provide?

- New staff is supported by the assignment of mentors and supervisors. New staff is able to provide feedback through core-area common planning, surveys, and conferences with their mentors or administration. Common grade level and core area planning provides additional support with lesson planning, policies, and student discipline. A New Teacher Academy is provided throughout the year; meetings are held at least once a six weeks during lunch. Food, assistance, and mini trainings are held during this time. Teachers also participate in a book study of Harry Wong's *First Days of School*.

9. What systems are in place to build capacity and support the notion of continuous improvement?

- Teachers and staff attend staff development throughout the school year and summertime. Teachers have a core-area common planning period before school which allows teachers to collaborate and learn from one another. The core-area common planning is extremely valuable in the continuous improvement of teaching strategies and student achievement. Teachers also have an individual conference and planning period which gives them time to study and research, prepare strong lesson plans and activities, provide students with feedback on assignments, and meet with other staff or parents. The individual conference time is vital to the continuous improvement of Donna High School.

10. How are we using data to determine professional development for staff?

- Staff and teachers are surveyed to determine the areas of greatest need for professional development. These surveys guide administration to choose the best training opportunities.
- This campus is data driven. Based on the district test date, teachers design intervention plans for students.

11. How are collective and individual decisions regarding professional development determined?

- These decisions are made based on survey results, core-area common planning discussions, and analysis of student assessment data. Possible needs and trainings are discussed at common planning sessions and/or with appropriate department heads.
- Teachers can request specific trainings to be considered as well.

12. What types of professional development has staff attended? How is implementation monitored? What impact has it had on performance? What is the follow-up?

Kagan Cooperative Learning: Implementation has been monitored via Kagan observation team; Impact is yet to be

determined due to the recent implementation; Follow-up is taking place via subsequent trainings and core-area common planning analysis.

- End-of-Course Testing Trainings: Implementation has been monitored via administration walkthroughs; Impact is yet to be determined due to future implementation of the actual tests; Follow-up is taking place via subsequent trainings and core-area common planning analysis.
- Regional Subject-Area Conferences (RGVCTM, CAST, ABYDOS, etc.): Implementation has been monitored via administration walkthroughs; Impact is seen through improved daily lesson plans and improved student achievement; Follow-up is taking place via subsequent trainings and core-area common planning analysis.
- Advance Placement & Pre-AP Summer Institutes: Implementation has been monitored via administration walkthroughs; Impact is seen through improved daily lesson plans and improved student achievement; Follow-up is taking place via subsequent trainings and core-area common planning analysis.
- District Technology Training: Implementation has been monitored via administration walkthroughs; Impact is seen through increased technology integration in the classroom; Follow-up is taking place via subsequent trainings and core-area common planning analysis.
- MTT Technology trainings: Campus MTTs developed a schedule of trainings held during departmental planning periods.
- Lead4ward Trainings: Implementation has been monitored via administration walkthroughs; impact is seen through bundle assessments and benchmarks.
- TSTEM/PBL Trainings: Implementation is monitored via administration walkthroughs and walkthrough by Achieve Texas TSTEM Coach. Feedback is provided periodically throughout the year.

Staff Quality, Recruitment, and Retention Strengths

1. Low turnover rate; teachers stay at DHS
2. New teacher mentor program/New Teacher Academies
3. Common planning period before school
4. Individual conference & planning periods
5. Beneficial staff development provided in areas of need
6. Attendance incentive

Problem Statements Identifying Staff Quality, Recruitment, and Retention Needs

Problem Statement 1: District needs to be competitive with salaries, stipends, and insurance. **Root Cause:** Funding

Problem Statement 2: Continuous improvement of camps culture and climate. **Root Cause:** Implementation of slid New Teacher Academy

Staff Development Schedule

DISD Bundle Curriculum

Focus Questions

1. What evidence exists to determine that the curriculum is clearly linked to the TEKS and other standards for student learning?

- During the DISD Academic Days, a select few update the curriculum guides and the instructional and assessment materials. The content of the curriculum itself and our workbooks are evidence that the curriculum is clearly linked to the TEKS and student learning standards. Teachers must follow the timeline provided for each course, are expected to use Forethought when lesson planning, and AWARE to analyze data tested each six weeks.
- Results from state exams, benchmarks, bundle assessments, and online curriculum pacing, all of which are aligned to STAAR Results.
- Six Weeks Exams, Benchmark, Bundle Tests
- The breakdown of the TEKS on the curriculum.
- Textbooks are also aligned to the TEKS.

2. How is data used to inform curriculum, instruction, and assessment decisions?

- Data is used to determine strengths and weaknesses in the curriculum and delivery of instruction. Teachers use data to adjust curriculum, and instruction based on bundle exam results ("mini-benchmark" results). Daily student performance data is also used in re-teaching curriculum where teachers employ different learning strategies.
- Data is used to determine which TEKS need to be spiraled in and used to form tutorial groups; teacher instructional action plans are also based off of disagreggated data.
- Instructional Planning Days are scheduled after each six weeks period to ensure data is analyzed and weak TEKS are targeted so that teachers can modify instruction accordingly.
- Teachers dissect individual and overall group data to determine areas of need and determine a course of action to address areas of concern and provide different levels of rigor to challenge all learners.

3. What does the data reflect about how curriculum, instruction, and assessment are aligned? How are they focused on supporting and challenging all students?

- Data reflects the success of the alignment between curriculum, instruction, and assessment. They are focused on the success of all students through different instructional strategies, with emphasis on Diverse Learners, ELLs, and migrant students. Each teacher is able to monitor percentages and target diverse populations individually or collectively to modify instruction as needed. This analysis allows teachers to spiral, modify, and reinforce students' learning by targeting areas of weakness. It also provides an overview of students' strengths that allow higher order thinking to take place as the teacher challenges each student to expand on the concept taught.
- Data is also utilized to determine best placement for each individual student for trailer courses and tutorials for remediation. Each teacher is able to analyze the performance of a class as well as individual students. The teacher can then monitor percentages and target diverse populations to modify instruction as needed.
- AWARE data shows TEKS and percentages, overall, by teacher, and by student. Currently, data reflects that improvements are needed in all areas of ELA.

4. How are curriculum, instruction, and assessment aligned with 21st Century Learning Skills?

The 21st Century Skills themes are covered through real-life mathematical applications. The learning and innovation skills are contained in

the higher order thinking skills of Bloom's taxonomy that are employed by our teachers. Kagan structures help students develop both academically and socially. The implementation of technology is better preparing students for real world demands. In Science, for example, courses apply the use of technology and concepts of global awareness, financial, economic, business, health, and environmental literacy that is TEKS specific. Students are introduced to STEM careers and are highly encouraged to participate in academic extracurricular activities such as UIL, Science Fair, Master Minds, Science Olympiad, Robotics Club, and several STEM summer institutes. MTTs provide technology and Web 2.0 tools training. Teachers incorporate technology such as Edmodo, Google Docs, Kahoot, and online textbook activities. All are student-centered and provide immediate feedback.

- 21st century learning skills are further implemented in the curriculum through the use of technology, concept of global awareness, and environmental literacy that is TEKS specific. In addition, students are introduced to TSTEM Academy initiatives of Project and Problem based Learning. Teachers also utilize technology and cooperative learning, use videos from adopted textbooks, and use YouTube videos to explain, teach and tutor students.
- Students engage in critical thinking through collaboration and teamwork. Students participate in labs that require the use of technology and software.

5. What evidence is there that there is a process for monitoring, evaluating and renewing the curriculum to meet the needs of all learners?

- Administrative personnel and directors keep updated on changes in TEKS and state assessments through meetings and trainings. Summers are often used to update and modify the curriculum for upcoming years by core area teachers based on EOC results. Also, curriculum is discussed and advised as necessary through the common planning period. Lesson plans on Eduphoria and teacher action plans to address the needs of learners are implemented and plans reflect the spiraling of the necessary weak TEKS. The time frame and TEKS covered must constantly be adjusted to provide a deeper understanding on the content.
- Bundle reviews and feedback form/reflections are utilized as well.
- Other evidence includes surveys, teacher feedback, PBMAS every day, 3X3, and Action Plans.

6. How are instructional strategies and activities aligned with student learning needs and expected outcomes for achievement? How consistent is this across the district/school? What is the impact on specific student groups?

- Instructional strategies and activities are aligned with students' learning needs and expected outcomes according to EOC results. According to the students' mastery (or non-mastery) of state assessments, they may be placed in trailer courses to better suit their academic needs. When students do not Approach Grade Level, they are enrolled in a remedial class. When students score Master Grade Level, they are enrolled in a Pre-AP or AP class. A student scoring lower than a 3775, for example, will be scheduled in an EOC trailer class; between a 3775 and 4831 will be scheduled in a regular class; and higher than a 4831 will be scheduled in a PreAP class. (As the program is Open Enrollment, students can still opt to enroll in an Advanced Class without meeting set scores.) All teachers are required to implement the recommended modifications for students in the special populations. The impact this has played on these specific student group is improved scores. Diverse Learners may also have an inclusion teacher present in the class for additional assistance. Also, Texas High School Completion courses are offered to seniors who have not yet passed the EOC exams required for graduation.
- Experiential learning, independent study, direct, interactive, and indirect instruction are aligned with the 5E model to meet student learning needs. To target different populations, we use Kagan, SIOP, TIER interventions, ELPS, RTI, and 504 Learning difference instruction, ExCELL.

- As a district, each teacher uses Eduphoria to align TEKS with instructional strategies to provide support to our diverse learners. English Language Learners, for example, are monitored on AWARE and show that exposure to science content is supported with cooperative learning, verbal/visual word associations, capsule vocabulary, foldable, and peer-tutoring have higher percentages on expected outcomes that were met.
- Different methodologies and research-based instructional strategies are implemented.
- District created bundles and curriculum are implemented.
- Teachers use formal, informal, and summative assessments to guide instruction. Expected outcomes of achievement are varied within each classroom.
- High interest reading selections and instructional videos that appeal to the students and their outcome needs are utilized.
- Scaffolding, differentiation, and sheltered instruction is enforced.
- Because the curriculum is being evaluated every 6 weeks and it is the same curriculum for both Donna High School and Donna North High School the are very well aligned.

7. What evidence supports the implementation of high impact/high yield additional interventions for students who need assistance beyond primary classroom instruction? Which students need this type of instruction? What has the effect been over time?

- A general improvement in EOC scores shows that the implementation of the ELDA program, the built-in STAAR Academies, and the after school tutorial program together have had a positive impact on our students who need additional assistance beyond the primary classroom instruction. We do, however, have a long way to go with improvement. Typically, our ELLs and Diverse Learners need this extra instruction. We have also seen our migrant education department assist with the success of migrant students who need extra attention as the need of the family to move frequently interrupts classroom instruction. Also of much help is the small group instruction, Kagan strategies, and cooperative learning manipulatives. Students in need of additional assistance are required to attend mandatory afterschool tutorials. These students are monitored closely to ensure that data reflects improvement.
- Other interventions that have shown positive impacts on student achievement include RTI, inclusion, Sheltered Instruction, SWIM program, tutorials, and small group testing.

8. How does instructional design and delivery maximize student engagement, a positive learning climate, higher order thinking skills, problem solving, critical thinking, etc.?

- Our teachers' goals are to provide students with a positive learning climate in which the student is motivated to engage in the lesson, obtain higher order thinking skills, and grow in problem solving and critical thinking. Our lessons are geared at the specific needs of students and when the design and delivery of the lessons is aimed at their needs, students will grow not just academically, but also socially, professionally, and emotionally. Kagan structures have been included in lesson plans, promoting classroom management, positive learning climate, and higher order thinking skills.
- With increased use of a laboratory setting, Kagan structures, the 5E model, and Project based learning, a positive learning environment allows students to interact with expectations and keep them engaged in student centered activities. This process allows students to develop higher order thinking skills that may be applied to real world scenarios where critical thinking and problem solving takes place.
- Hands-on activities such as laboratory experiments and use of cooperative learning creates a positive learning environment and allows for students to be engaged in student-centered activities.
- High level readings/ activities addressed each area of need.

- Benchmarks, Bundle Tests, Data Comparison identify and target these needs.
- Students are able to investigate and discover instead of the teacher being the only source of information. It is adapted to each student's individual needs.

9. Is there evidence that assessments are aligned with clearly specified and appropriate achievement expectations? How are they developed and linked to measure the effect of curriculum and instruction?

- Yes there is diagnostic evidence that assessments made in collaboration with curriculum directors, deans, and administration are developed to be aligned with clearly specified and appropriate achievement expectations. They are developed and closely linked to previously released exams and STAAR Released items and information booklets from the Texas Education Agency. For instance, students' scores determine their placement in EOC trailer classes, regular classes, or advanced core classes. Also, Texas High School Completion courses are offered to seniors who have not yet passed the EOC graduation requirements.
- Assignments, quizzes, bundle tests are aligned with specific expectations of district and state standards. They are developed with alignment to TEKS by district curriculum writers and specialists, and through data meetings.
- Assessments are administered to students every six weeks as a bundle exam. The bundle exam provides data driven results that measure each objective taught. In addition, students are given benchmarks, six weeks exams, semester exams, and EOCs.
- Although the curriculum is strategically created, at time, the achievement expectations seem unrealistic because there is not enough time between sections for deep and thorough learning.

10. How do we know assessments are designed, developed, and used in a fair and equitable manner that eliminates biases? How do students perceive these assessments?

- Bundle assessments are district made and double checked by faculty/staff within district. Teachers follow district standards which comply with state and local policies designed to keep fair and equitable learning. Students comply with assessments. Directors and strategists monitor what is being used for curriculum and monitor student performance.
- District uses material with which students can relate.

11. How does the scope of assessments provide a comprehensive and representative sampling of student performance that allows for confident conclusions about achievement?

- By ensuring that core teachers follow and cover the required TEKS, student assessment scores have improved. The AWARE program allows teachers to obtain up-to-date information about student performance. Teachers also obtain specific information about population groups such as ELLs and Diverse Learners and their performance in specific TEKS.
- Student performance is tracked throughout the year during every bundle test. The principal and deans monitor the results after every test. Teachers spiral into the new curriculum what was not mastered from the previous bundles.
- Although standardized testing currently provides us with useful data, changes need to be made to ensure that students are tested in different ways other than only multiple choice exams.

Curriculum, Instruction, and Assessment Strengths

1. Assessments aligned to TEKS
2. Immediate feedback of data
3. Horizontal alignment throughout the year
4. Student-centered instruction
5. Every teacher has document cameras, projector, and computer.
6. Teachers design curriculum by grade level/subject.
7. Bundle reflection feedback
8. Data comparison
9. AP, CC, and UT OnRamps Courses
10. Leadership
11. Support for teachers
12. Frequent trainings and staff development
13. Teamwork
14. Structure for teachers to follow
15. Easily accessible online curriculum for every subject with texts and activities
16. Curriculum is reviewed and updated every year.

Problem Statements Identifying Curriculum, Instruction, and Assessment Needs

Problem Statement 1: COVID pandemic and virtual learning has created a gap in student achievement and success rates in the virtual classroom resulting in an increase in failure rates. **Root Cause:** COVID pandemic and remote learning; Students not completing and submitting work when not physically on campus.

Parent and Community Engagement

Data Sources Reviewed

List the sources your campus or department actually drew from.

- Open House/Parents' Night Sign-Ins
- Sign Ins from Scheduled Parent Meetings
- Input from CLPAC committees and Department Meetings

Focus Questions

1. What evidence exists that families and community members are involved in meaningful activities that support students' learning? What are the activities? Which parents and community members are involved? What trends and patterns do we observe?

- Parents get involved and support students by allowing them and bringing them to prepare and compete in UIL activities. Parent volunteers are visible and participate often in athletic events through band and athletic boosters.
- Activities include:
- Parent's Night
- Financial Aid Night
- Awards Ceremony

- Parent Center
- Fish Camp
- Concerts & Performances
- UIL Activities
- Scholarship Night
- Indian Sweetheart Decoration day
- Sports events
- City parades
- School Homecoming
- Student Art Show
- College Night
- Parent Volunteers
- Parent meeting for CTE Dual Enrollment and Licensure/Certification Program
- Departmental Awards
- TSTEM Night
- Mariachi and dance performances
- Theater/plays
- Parent sessions and the Parent Academy for the Success of Students (PASOS). These consist of activities/sessions on topics such as student-parent relationships, parent-teacher relationships, nutrition classes, and managing student behavior. After 10 sessions, parents graduate with a 30-hour certificate which they can use for employment.
- The Parent Center also holds regular workshops to keep parents involved and informed.
- Business community support is minimal for student learning; however, some partnerships are in place for our Diverse Learners. More connections are needed to create fully enriched educational experiences.
- Parent involvement helps students academics and discipline
- Parents are involved in student extracurricular activities which require a passing rate on both progress and report cards. They engage in TSI preparation and testing dates. We observe more of the involvement from the top 20 students.

2. How are families and the community members involved in school decisions?

- There is a parent representative on CLPAC committee with 100% attendance. Administration opens all public meetings to all community stakeholders. Also, at the district level is the DLPAC. Parents volunteer at campus Parent Center. Some parents also regularly attend School Board Meetings.
- The Round Table, which are held at the campus principal's discretion at the Lecture hall, consists of any issues that affect the campus, students, and staff.
- There are open lines of communication between parent, teacher, and administrator.
- Families and community members are involved in school decisions by attending board meetings and participating as a parent volunteer.

3. What types of services are available to support families, community members, and students to encourage healthy family relationships?

Counselors encourage and advise parents and students. When necessary, counselors and teachers arrange parent meetings and

conferences. Parent center is available for parents as well.
- Social Worker Liaison
- Parent Center, Health Clinics, and Nutritional Classes
- Better Community Family Services (BCFS) which consist of 8 sessions of 2 hours.
- Advisory through the counseling department is offered to parents and students. Parent teacher conferences also support students and parents.
- Campus encourages parent to Be active as a parent volunteer, and advise parents of events open to the community that require student and parental involvement, such as literacy parade, pep rallies, and parents night.

4. If families speak languages other than English, what are these languages? How does the school communicate in those languages?

- Parents speak Spanish and English. School translates and offers all information and flyers in both languages. All parental meetings and phone/text messages sent out are bilingual. When translation is needed between teacher and parent, it is readily available and offered.

5. What types of services are available to support students in special programs? What are the results?

- Some services available to our students include the Migrant Program, AVID, ELDA program, Athletic and band boosters, Credit recovery programs such as Edmentum, LUCHA, Diverse Learners club for our Special Education population, Telecommunications to parents, and Homebound teacher services. All programs provide reports on student progress, grades, and scores.
- Diverse Learners have Teacher's Assistants and Inclusion Teachers in the classroom, ELDA program provides tutors for the ELL students, and MEO is offered for Migrant students.
- Other services/events include: Autism Night, Special Olympics, Counseling, ARD meetings, RTI, after school tutoring, College Success and academic resources for students in such programs.
- Child Find: this program/organization goes out to parents' home of students who have certain cognitive and/or developmental issues.
- Project HOPE: students who are failing, at-risk of not graduating, at risk of not being promoted to the next grade level, truancy issues get their parents to be contacted to help them succeed in school.
- Other services that are available include 504/Special Education (ARD Meetings) to support and assist Sped students. TELPAS writings are required to assist Limited English speakers, along with inclusion services to help provide a more meaningful learning environment.
- The results include increased parental involvement, increased attendance, and student achievement.

6. What types of community partnerships exist to support families and students?

- Community partnerships include AVID, STC, and HEB with their Feast of Sharing, Food Drive, and Student Council Participation.
- Day Care Services, Homebound teacher services, SWIM Mentoring.
- Boys and Girls Club, and United Way
- Wal-Mart Fill the Bus with school supplies
- HEB provides Thanksgiving meals
- BCFS provides Thanksgiving meals to certain families in need
- City of Donna provides city park for festivals.
- TSTEM Advisory Board

- CTE Advisory Board
- Dual Enrollment Partnerships with STC, TSTC, and RGV College
- Several businesses allow students to gain experience in a working environment, Walmart Assistance, FFA experience, community involvement with car washes, ROTC helping events.

Parent and Community Engagement Strengths

1. Parent Portal

2. Fish Camp

3. Financial Aid Night

4. Counselors, parent, student conferences

5. Day Care Services

6. Special Education Case Managers

7. Homebound teacher services

8. Parents' Night/ Open House

9. ELDA

10. CLPAC

11. SWIM Program

12. Variety of programs to help students

13. Parent Centers & Parental information meetings.

14. Supportive services for students in special programs

15. Clubs such as AVID offer assistance to all students/staff during times of crisis/emergencies through fundraisers and donations.

16. Go Center and AVID offer assistance to parents and families with college preparations/questions.

17. Information open to the public

18. Transparency between teachers and parents

19. Family/community participation
20. Parent volunteer information
21. Community service projects (e.g. clubs attending assisted living, etc.)
22. Community parade, Parents Night, Art Show, Chisholm Trail
23. CTE Staff is readily available to meet with parents and/or community as needed.
24. Community partners meet with CTE staff periodically throughout the year.
25. Multiple opportunities for extracurricular participation, parent involvement, and workforce opportunities
26. Meetings involving administration, staff, parents, and students
27. Blackboard Communication
28. Health Screenings
29. 5K Fun Runs
30. Provide School and District Policies
31. Transportation
32. Community partnerships with the City of Donna have allowed for summer recreation programs opened to ALL DISD students.
33. All documents/memos sent out to parents and community are in both English and Spanish.

Problem Statements Identifying Parent and Community Engagement Needs

Problem Statement 1: There is a lack of parental involvement at the secondary level and incentives for parents to become more involved are needed.

Problem Statement 2: Parent education is needed regarding the importance of a post-secondary education and how citizenship status has NO impact on acceptance of financial assistance.

School Context and Organization

Communication: Formal and Informal

Data Sources Reviewed

List the sources your campus or department actually drew from.

- Master Schedule
- Leadership
- Duty Rosters
- Communication: Formal and Informal
- Assessment Data
- Meeting Agendas, Sign-ins, Minutes

Focus Questions

1. To what degree does the district/school support the organization and how?

- The DLPAC (District-Level Planning and Advisory Committee) and the CLPAC (Campus-Level Planning and Advisory Committee) are in place to provide teachers and staff representation and input on the decision-making level of the district and campus. Though they do not always make decisions on their own, these committees are intended to advise the decision-making process. Throughout the district and each campus, various committees are formed to advise the various decision-making processes.
- Comprehensive Needs Assessment is completed to identify strengths and weaknesses of the organization. Areas of need are then considered in the Campus Improvement Plan for structuring the school budget in the upcoming year.
- DISD has provided multiple trainings for the Diverse Learners Department throughout the school year such as CPI, BIP/FVA, Kurzweil for STAAR Online, Testing Accommodations, Lumens Refresher course. The school has provided trainings such as T-TESS, STAAR Alt 2, and STAAR Online trainings for every test administration.
- District and and campus administrators show support through the attendance of regular meetings & trainings, sharing of data and tests, providing materials for classrooms such as textbooks and resources, as well as support with disciplinary issues.
- DISD and DHS support all organizations by scheduling adequate staff development trainings throughout the year. Teachers have time in the morning before classes start to plan by department, by subject, even by level. Also, at the beginning of every six weeks, teachers have an instructional planning day to revise previous six weeks data and plan for the following six weeks.

2. How does the data reflect about classes, schedules, and student/staff teams?

- Donna High School students are assigned classes and schedules based on availability and graduation plans. Students are given thirty-two (32) credit opportunities through the block schedule system. Results from benchmark and standardized testing/ assessments are also considered in scheduling the proper classes to meet the needs of each student. Attendance data is obtained on a daily basis. Implementation of incentives/reward program for attendance has shown to improve attendance in the past.
- Data has shown that more needs to be done to ensure students are in class. On a positive note, students are assigned to classes according to their achievements and needs such as PAP classes, LEP, Special Education, Migrant, etc.
- The students try extremely hard to pass classes and teachers implement TEKS into appropriate bundles. By doing this, the students and teachers work as a single cohesive unit.
- DISD runs reports, analyzes all data, and creates schedules and classes to fit the needs of the students.
- Leadership, master schedule, duty rosters, school map/school environment
- Due to strategic planning and targeting instruction the school has met state standards. Therefore, the scheduling is working.

3. How is adequate time devoted to subjects in which students perform poorly?

- Based on the data from various assessments, students are offered after-school tutorials, in which each subject has its own day to meet. English tutorials are offered on Mondays, Math on Tuesdays, Science on Wednesdays, and Social Studies on Thursdays. Students are assigned to trailer courses in courses for which they did not meet the state assessment standard. Students were offered after-school tutorial academies and Saturday academies to prepare for state testing.
  The students who are failing can receive the opportunity to improve their grades through completing extra in class assignments,

Edmentum, MEO lab for Migrants, and after school tutorial hours.
- Time is devoted adequately to those subjects in which the students perform poorly by making sure each subject has the same amount of time within class periods. Time is divided evenly throughout all subjects.
- Students are given the opportunity to attend extra tutorials on school days. Also, students are scheduled into hybrid classes to make sure they receive the help needed.

4. How do teachers have a voice in decision making and school policies?

- Teachers have a voice in decision-making and school policies through DLPAC and CLPAC meetings, department head meetings, core-area common planning, and individual conferences with decision makers on campus. This is an area that still needs to be improved upon to where teachers can have an increased role in the decision making process.
- One teacher out of every department participates in CLPAC where school decisions and policies are created. They in turn relate them to the department.

5. What role do teachers have in deciding what assessments will be used to evaluate individual students or the program as a whole?

- Teachers do have a voice in the modification of this timeline on a yearly basis, and discussion and agreement of such changes occur during core common planning.
- Teachers have the opportunity to write curriculum in the summer and develop assessments to target what was taught in the curriculum. Teachers also have different databases to use to develop assessments and input into AWARE and get instant feedback.
- Assessments are pre-created by curriculum writers, teachers select passages and questions to administer. Exams are reviewed the week before by the department to make sure the exams adequately assess the covered TEKS.
- Talk to department head and strategists to give input.
- At the end of each six weeks, we review data to assess student needs.

6. Do school committees and decision making bodies make it easy for teachers, parents, paraprofessionals, support staff, and students to be heard and, in turn, for all groups to be part of solutions to identified problems?

- Yes. Every groups' concerns are heard and leaders are readily available for any questions or concerns the parent or administration may have. Through various parent meetings and district wide parental sessions the communication between all parties can be heard. This is further facilitated by providing transparency in both student grades and the online curriculum.
- They make it easy for their voices to be heard through school board meetings, CLPAC, and other committees created throughout the district. Student council also exists to give students a voice for their needs to be heard.
- Absolutely! Parents can talk to teachers or administration to voice their opinion and be heard during CLPAC meetings.

7. What are the students', parents' and community perceptions of the school?

- To ensure academic excellence for all students through a rigorous and supportive learning environment that provides a quality education in accordance with state and national standards.
  Campus staff is constantly looking to improve the public's perception of our campus, students, and staff. We have been making great efforts to showcase all the positive accomplishments that DHS staff and students attain throughout the school year in different media: i.e.

newspaper, television, social media, and even share through school wide telecommunications.
- Tight knit community with long standing tradition.
- It is a positive place to be and to learn.
- Most of them participate and are involved in the school.

8. What do school expectations reveal?

- School expectations reveal that the effort is being made for all students to succeed, pass their EOC assessments and graduate.
- DHS has high expectations for its students and strives to have them be college ready by providing a wide array of courses and college credit opportunities.
- The campus is committed to excellence in providing a supportive learning environment for all students.
- To be the change and for every single student to be college bound.
- DISD wants all students to be successful and to continue higher education or to leave the district being job ready with a certificate or license for different trades.

School Context and Organization Strengths

1. Master schedule reflects section amounts and courses based on student need or request.
2. Collaboration with ARD committee members.
3. Trainings and professional development is provided to ensure student success.
4. Common planning periods allow frequent departmental and grade level meetings.
5. Clear chain of command
6. Block schedule
7. District-wide staff development
8. Well-delineated procedures to follow
9. Administration is well-organized in terms of professional development.
10. Transparency of grades and curriculum
11. Strong support staff within the school and classroom
12. Department working as a whole to make decisions

13. Course offerings

14. Availability of AP exams and submission of art portfolios

15. Hybrid classes

16. Planning and conference periods

17. Instructional Planning Days

18. Teacher Surveys

19. Instructional Time

20. CLPAC & DLPAC have given teachers and staff a voice in decision making as well as school policy.

21. District support of several programs like AVID

22. Students, especially AVID and TSTEM students, are expected to attend a technical, 2 or 4 year college and successfully complete an earn a certificate or degree.

Problem Statements Identifying School Context and Organization Needs

Problem Statement 1: STAAR EOC scores in the area of English I and English II continue to be the low distrit-wide.. **Root Cause:** Teacher training and support needs improvement to increase literacy in their content area, including enhancement of the inclusion support.

Technology

Technology Summary

Data Sources

- Professional Development Technology Needs
- Classroom Technology Needs by Department

Focus Questions

1. ***What technology do we have?***

   All classrooms are equipped with 4 student computers, laptops for each teacher, Smart boards, data Projectors, and document cameras.

Some classrooms are also equipped with Response systems (clickers), printers (black & white), Lab Quest, Calculators, Veirner, and Mini Laptops (New Science Building).

- At DHS,we have four or less students per internet-connected multimedia computer. Direct connectivity to the Internet available in all rooms with adequate bandwidth is available. There is a dedicated computer per educator, interactive white boards, and projection systems. There are shared technologies available upon teacher request such as probes, graphing calculators, iPads, laptops, chromebooks, and Surface Pro tablets. All rooms are connected to a robust LAN/WAN that allows for easy access to multiple district-wide resources for students, teachers, and administrators, such as video streaming, online assessment and data access, and printing.
- Students also have access to the LRC and library where they have access to more computers with software appropriate for them.
- DISD also provides an annual technology training/symposium with several sessions to accommodate the needs and wants of teachers across the district.
- MAC computers, access to Adobe Creative Cloud, and student cameras are available to Art and media teachers

2. What is the technology proficiency for staff and students?

- Students at DHS are very advanced in technology when it comes to the use of devices and programs such as desktop computers, Word, Excel, Ipads, laptops, cell phones, clickers, and most digital devices but are in the developing stage in using these in terms of their own knowledge, education, and preparedness.
- Most staff are proficient in using technology and incorporating it into their lessons. Some staff and students could use more training. Hands on helps our classrooms run smoother especially since teachers expect students to use technology for assignments.
- Most staff are proficient, ranging between developing and advanced. The staff is very capable in the use of required equipment such as laptops, projectors, Smartboards, online gradebook, district Office 365, science probe ware, Eduphoria and AWARE. The incorporation of web tools and applications into science lessons is at an advanced level; however, the use of project-based learning activities is still in the development phase. Teachers from older generations might be a bit skeptical about technology since it wasn't part of their teaching.
- Top of the line equipment and resources are available to teachers.
- Everyone is knowledgeable and the devices are user friendly.

3. How does staff feel about technology?

- Like any staff at a public school, there are those who dislike technology and those who have a passion for technology. DHS staff has embraced the technologies which they are required to use for daily operations and the majority meets the SBEC technology standards for all teachers. However, most feel that as new technologies emerge and more web tools and applications for science become available, more training and time to learn and acclimate to these is necessary. It would also be most beneficial to teachers to have an educational technologist with core area backgrounds to incorporate into the curriculum a suggested list of technology-based activities, lessons, and/or tools per six weeks and to have training provided in advance to the intended date of implementation. Our staff feels relatively well about technology that is incorporated in a positive learning environment.
- We want to incorporate more technology and digital resources in the classroom, but we are not comfortable enough to use it on a daily basis. Very few of us have working Smartboard/Promethean boards and only stick to the basics to teach the lessons.
- Staff welcomes technology. New this year is BYOD and Microsoft Surface Pros are available to check out and use as a class.
- Staff generally feels comfortable with technology and agree that it is continuously improving.

4. What are some barriers that potentially prevent effective use of technology? When it's working, why is that so? When it's not working, why not?

- The two biggest barriers that prevent effective use of technology when it is working are lack of knowledge and time. There are many Web 2.0 tools, project-based learning activities, student-led activities, online lessons that could be incorporated into content lessons but not all teachers have knowledge of these or the time to search, find, and learn to use these. Due to strict timelines for core content, if any of the technologies or technology tools are not incorporated or suggested on the curriculum itself and training is not provided for these, the likelihood is that they will not be utilized in the classroom. Teacher attitude is another barrier that can affect the use of technology in the classroom. Teachers whose dislike of technology or who are not comfortable with technology do not use those technologies that are available to them. Another factor that prevents effective use of technology is students being locked out of available STAAR EOC or content specific games. The blocking of these games is a district security measure which blocks out all games but it is making the benefits of state approved games unavailable to students. Another district wide measure that affects campus effective use of technology is the blocking of YouTube on teacher computers during STAAR exam testing. Some content lessons and topics and online science books have video components that are formatted and uploaded for viewing onto the YouTube platform. Since only a minority of the students at DHS are testing during any given test day, the majority are receiving regular instruction which can be and has been affected by lack of teacher access to YouTube.
- Also, limited technology in the classroom is a barrier with insufficient computers for student/class work.
- Training and Resources. Although we do get training, it is not sufficient enough or detailed enough to make teachers feel proficient in using it every day. There are no supplemental online student programs for ELA or ELL instruction.
- Internet signal can be a barrier. Internet is slow and goes down sometimes maybe due to poor cable writing structure. When it rains, internet goes down in certain parts of the school. It would be nice to have more than 4 computers to classes. Computer software and labs need updates on simple things like Flash player which affects the students' and staffs' ability to do lessons as planned.
- There is not one device per student on certain technologies which make it difficult for implementation in a classroom lesson, for example, clickers when implementing Kahoot.

5. What type of technology professional development have we provided? What was the impact for staff and students?

- The district provides an opportunity for all faculty and staff to attend a district wide technology conference usually held a week prior to the start of the the new school year. Also, the district provides technology trainings throughout the year.
- At the campus level, there are trainings throughout the year that are led by various individuals. DHS has available to them three master Technology Teachers. The master technology teachers are part of the following departments: Art, Social Studies, Migrant/Science. Each of these teachers has provided trainings throughout the school year for their departments as well as for other departments and on an individual basis per teacher or staff request. The DHS Science department has had the following trainings provided by the Migrant/Science MTT individual: STAAR EOC Practice activities on the TheTeacherMadeMeDoIt.pbworks.com website, Edmentum, Cast Lessons, creating a virtual field trip, Eduphoria Lesson Plan tool, Using wiki, Office 365 trainings, etc.
- Math Department has received trainings in the following areas: Calculator (TI), short clickers, new textbook online tools, TTM for Algebra I. The impact for staff was that the trainings afforded them knowledge of technologies that they can utilize and incorporate into their lessons for their content area classroom. Students benefited because their teacher was utilizing 21st century tools to present and teach content which in turn allowed students to learn content through a medium they found enjoyable. Teacher confidence leads to more classroom use

and student proficiency increases.

- Atomic Learning Program is a great site to learn because it provides additional trainings in the area of technology.
- Google Classroom and Edmodo. Edmodo training was given midway through the year and not enough time to implement in the classroom. It would also be very time consuming in setting up students and training them on how to use the platform.
- Professional development is provided during staff development. Technology workshops are also available to those interested on a Saturday during the beginning of the school year. All year round there are online trainings available through Atomic Learning. During the school year there is also TCEA conference technology teachers attend. The professional development is helpful to students because teachers are able to teach in different ways using technology. It is also helpful to teachers because it can make life easier and more organized.

6. **In which content areas are we using technology and how? What is the effect?**

- All content areas at DHS are using some form of technology. Math department uses calculators, clickers, ELMOS, EIKIs, Smartboards for problem solving. English department uses computer applications for research and electronic dictionaries in spelling for Sped students. In Social Studies, teachers use Sharepoint for lesson plans, handouts, PowerPoints, and exams.
- Individual teachers within each department are utilizing all required hardware and software programs which include but are not limited to desktop computers, laptops, document cameras, projectors, Smartboards, TEAMS, Eduphoria, AWARE, and Office 365. Individual science teachers are using the technologies as needed for their individual content which include but are not limited to : probeware for lab explorations, online virtual labs, wikis for class project collaborations, virtual field trips for exploration of environments not accessible to teachers and students in real time, Edmodo, online textbook and resources, Google Sky and Google maps for Earth Space Science studies, online science safety training and certification for teachers, online safety training and certification for students, Forensics software for facial reconstruction, pH interactive simulations for Physics, Plato PIe, Texas Aquatic Science online, InnerBody.com for Anatomy and Physiology, CEV video series for advanced animal science, TEA Biology EOC online resources, my HRW.com for online textbooks and resources for Biology, Chemistry , Physics, Environmental Science, TheTeacherMadeMeDoIt.pbworks.com wiki site for all (migrant) sciences.
- All content areas are using technology and incorporating them in their lesson. The effect is that students are more actively engaged. For example, in Science, we use technology in Biology, Chemistry, Physics, Advanced Animal and Plant Science, Aquatic Science, Anatomy and Physiology, Animal Science, Astronomy, and Forensic Science by implementing virtual labs, performance assessments, research, power point presentations, and lab equipment to have students actively engage in content. Science students are able to benefit by viewing class assignments but are still in its primary stages because some teachers do not have their course information online.
- Students are more engaged with the BYOD initiative.

7. **How does the design of the network provide for the users it supports?**

- The network does not fully support all its users adequately; its use is limited.
- The design of the DISD network makes communication easier with teachers, administrators, and parent.
- At times, the infrastructure causes the system to slow down.
- If there are network/internet issues, they are usually resolved quickly. Fast internet also allows teachers to search videos for their lessons and provide student engagement.

- Poor design network and connectivity to certain parts of the school. Users have poor signal and pages and websites sometimes take a while to load.
- It keeps students on task and is student centered.
- The infrastructure causes the system to slow down.

8. **How is technology utilized to support curriculum, instruction, and assessment integration and implementation?**

- Through the curriculum, teachers have easy access to the links available to each lesson such as videos, blogs, worksheets, etc.
- The science curriculum depends on technology for its implementation. The adopted textbooks for Biology, Chemistry, Physics, and Environmental Science are provided to the teachers and students through the publishers online site. Other sciences taught at DHS also have components for instruction that are online. The district science curriculum, scope and sequences per science subject is located online through Office 365. Science instruction is conducted by teachers who utilize online resources provided by the district, the campus, the science MTT, or themselves. Campus and district required assessments utilize the AWARE system for assessment and data collection. Teachers utilize the adopted books' online assessment tools as well as classroom clickers and online assessment tools that allow real time questioning such as Socrative.com.
- Teachers have access to Eduphoria to post lesson plans, input exams on AWARE and check test scores for students. Students have access to AWARE to answer exam questions. Parents have access to Parent Portal to check grades. Administrators input formal/informal observations. Referrals can also be input online as well as work orders. Alert System sends pertinent and timely information to parents.
- All curriculum resources are online and easy to access. Internet is used during instruction to support students' understanding and discussions in class. Assessment data and demographics are updated regularly and available to view for teacher planning.
- Technology is aligned with TEKS for instruction and supports curriculum. We use technology to type and organize the lesson plans. We also use technology to collaborate with other teachers or so the students can collaborate with each other. The students can take quizzes, exams, and surveys online and receive grades and feedback immediately. When assignments are turned in online there is a record, less room for error or losing papers. Assignments are time stamped, if a student misses a deadline then it will show.
- Curriculum: SharePoint
- Instruction: SharePoint and BYOD
- Assessment: Eduphoria for assessment data

Technology Strengths

1. Baseline technology in every classroom.

2. All teachers know how to use the technology for required tasks: email, lesson planning, grade book, attendance, and breakfast in the classroom.

3. All teachers can develop lessons and activities using word processing, PowerPoint, and Internet.

4. Technology is increasingly being used in the classrooms.

5. Direct connectivity to internet
6. Teachers have laptops and desktops
7. Graphing calculators, IPads, whiteboards, and projectors are available for everyone.
8. DISD Technology Conference/Symposium
9. Curriculum online provides working links to textbooks, videos, worksheets, and other resources.
10. Availability to students and staff.
11. Student access to computers at LRC
12. Great library online resources
13. Access to MAC Computers and Adobe Creative Cloud for Art Classes
14. District provides upgrades to technology as needed.
15. STaR Charts
16. Edomodo and Atomic Learning

Problem Statements Identifying Technology Needs

Problem Statement 1: Integration of technology in the classroom is still lacking. **Root Cause:** Trainings need to be continuous to improve teacher's comfort and proficiency.

Problem Statement 2: Professional software that encrypts data transmitted between our school community and post-secondary partners is needed.

Problem Statement 3: Students need more access to technological advancements to keep up with globally competitive students.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- Campus/District improvement plans (current and prior years)
- State and federal planning requirements
- Covid-19 Factors and/or waivers

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Accountability Distinction Designations
- Federal Report Card Data

Student Data: Assessments

- State and federally required assessment information
- (STAAR) current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Postsecondary college, career or military-ready graduates
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- SAT and/or ACT assessment data
- PSAT
- Local benchmark or common assessments data

Student Data: Student Groups

- Economically Disadvantaged / Non-economically disadvantaged performance, progress, and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Gifted and talented data

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Annual dropout rate data
- Attendance data
- Class size averages by grade and subject

Employee Data

- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data

- Professional development needs assessment data

Parent/Community Data

- Parent engagement rate

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Budgets/entitlements and expenditures data

Goals

Goal 1: Donna Early College High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The campus will implement literacy strategies that will result in more students reading on or above grade level.

Performance Objective 1: Library Services: Media Literacy Centers will promote the integration of curriculum, resources, and teaching strategies to ensure the success of all students as the effective creators and users of ideas and information, enabling them to become lifelong learners.

Targeted or ESF High Priority

Evaluation Data Sources: Library Sign-In Sheets, Mackin Via Database Usage, STAAR EOC and TELPAS Scores, flyers, lesson plans, inventory list, extra duty time sheets,

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Provide students the opportunity to have authors visit and talk to them about becoming an author or an illustrator by holding campus literacy fairs and district literacy fairs. **Strategy's Expected Result/Impact:** Increased exposure to literacy events will increase student engagement and interest in reading. **Staff Responsible for Monitoring:** Campus administration, Librarians, Library Assistants **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5	5%	5%	5%	

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Teach technology TEKS to students. **Strategy's Expected Result/Impact:** Increased achievement in all academic areas; increased familiarity and use of technology for instructional purposes. **Staff Responsible for Monitoring:** Campus Administration, Librarians **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	5%	15%	15%	

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Provide campus with a balanced, current, age-appropriate, and systematically organized collection of award-winning books to fit the curriculum needs of the campus, to include magazine and newspaper subscriptions. **Strategy's Expected Result/Impact:** Increased student interest and engagement; increased lexile levels for students **Staff Responsible for Monitoring:** Campus Administration, Librarian, Library Assistants, Department Heads **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5 - **TEA Priorities:** Build a foundation of reading and math	5%	5%	20%	

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Provide funds for reading motivational incentives and student celebrations to encourage circulation, including the purchase of shirts, meals, and Battle of the Books. **Strategy's Expected Result/Impact:** Increase in Student Lexile levels; increase in student interest in library books and resources **Staff Responsible for Monitoring:** Campus Administration, Librarian, Library Assistants **Schoolwide and Targeted Assistance Title I Elements:** 2.4 - **TEA Priorities:** Build a foundation of reading and math - **ESF Levers:** Lever 3: Positive School Culture	5%	30%	50%	

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Compile and maintain campus library budget based on library program needs. **Strategy's Expected Result/Impact:** Sufficient funds to update and keep inventory current. **Staff Responsible for Monitoring:** Librarian	0%	0%	0%	

Strategy 6 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 6: Provide extended library hours before and after school. **Strategy's Expected Result/Impact:** Increased student achievement in all academic classes. **Staff Responsible for Monitoring:** Campus Administration, Librarians, Librarian Assistants **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	5%	5%	5%	

Strategy 7 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 7: Provide, update, and expand resources for teachers, counselors, and administrators to use in their instructional setting and professional development, to include books, audiovisual and technology equipment, databases, laptops, toner, ipads, TVs, projectors, document cameras, reading devices, carts, microphones, headphones, digital cameras, professional books, etc. **Strategy's Expected Result/Impact:** Use of effective and up-to-date research-based instructional strategies; increase in student performance **Staff Responsible for Monitoring:** Campus Administration, Librarian, Library Assistants **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.6 - **ESF Levers:** Lever 2: Effective, Well-Supported Teachers, Lever 5: Effective Instruction				

Strategy 8 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 8: Provide a loss prevention plan and resource management for circulation,cataloging, and securing/retrieving missing, lost or stolen materials. **Strategy's Expected Result/Impact:** Secure book and technology inventory that allows for funds to be used to add rather than replenish resources. **Staff Responsible for Monitoring:** Campus Administration, Librarian, Library Assistants				

Strategy 9 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 9: Provide librarian the opportunity to attend workshops and conferences at Region One, the Texas Library Association, & TCEA to improve job performance. **Strategy's Expected Result/Impact:** Librarian stays abreast of new information, strategies, and resources. **Staff Responsible for Monitoring:** Campus Administration and Librarian **TEA Priorities:** Recruit, support, retain teachers and principals				

Strategy 10 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 10: Allow parents and community members to check out library books and provide them and students with opportunities to participate in motivational reading activities such as Literacy Night. **Strategy's Expected Result/Impact:** Increase in parental involvement and community support **Staff Responsible for Monitoring:** Campus Administration, Librarian, Library Assistants **Schoolwide and Targeted Assistance Title I Elements:** 2.5, 3.2				

Strategy 11 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 11: Provide funds for staff development trainings, to include materials, resources, miscellaneous. **Strategy's Expected Result/Impact:** Improved quality of instruction and research-based strategies **Staff Responsible for Monitoring:** Administration Librarian **TEA Priorities:** Recruit, support, retain teachers and principals - **ESF Levers:** Lever 2: Effective, Well-Supported Teachers	5%	5%	5%	

Strategy 12 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 12: Provide funds to purchase appliances & equipment to maintain the day to day operation of the library, to include refrigerator, microwave, furniture, etc. **Strategy's Expected Result/Impact:** Increase in student interest and student visitation **Staff Responsible for Monitoring:** Administration Librarian	0%	0%	0%	

No Progress | Accomplished | Continue/Modify | Discontinue

Goal 1: Donna Early College High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The campus will implement literacy strategies that will result in more students reading on or above grade level.

Performance Objective 2: Donna Early College High School will implement literacy strategies to increase literacy and produce more students reading on or above grade level resulting in students meeting goals for all accountability measures. This increase in literacy will yield gains in ELA, Mathematics, Science, and Social Studies. Applies to District, State (STAAR, EOC, TELPAS, PBMAS) and Federal/NCLB (AYP). At least 60% of DECHS students will meet the state standard in English I & II EOC, 80% will meet the state standard in Algebra I EOC, 85% will meet the state standard in Biology, and 95% will meet the state standard in U.S. History.

Evaluation Data Sources: STAAR EOC data, TELPAS data,

Goal 2: Donna Early College High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 1: The percentage of students in grades 9-12 who achieve meets and/or masters performance level on the STAAR will increase by 4%.

Targeted or ESF High Priority

Evaluation Data Sources: STAAR EOC Meets and Masters Grade Level data for all subjects.

Goal 2: Donna Early College High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 2: Advanced Academics: Increase % of GT students achieving the MEETS and MASTERS grade level standard on STAAR by 3 %.

Targeted or ESF High Priority

Evaluation Data Sources: STAAR EOC results for GT students.

Goal 2: Donna Early College High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 3: Special Education: Increase % for Special Education students achieving the MEETS and MASTERS grade level standard on STAAR by 2%

Targeted or ESF High Priority

Evaluation Data Sources: STAAR EOC results for SPED students

Goal 2: Donna Early College High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 4: Bilingual/ESL Education: Increase the number of students identified as LEP students achieve the MEETS and MASTERS grade level standard on STAAR/EOC by 5%.

Targeted or ESF High Priority

Evaluation Data Sources: Achieve 3000, STAAR/EOC, TELPAS, Student Schedules

Goal 2: Donna Early College High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 5: CTE: Increase the % of students achieving the MEETS and MASTERS grade level standard on STAAR EOC.

Targeted or ESF High Priority

Evaluation Data Sources: STAAR EOC, TELPAS, PBMAS

Goal 2: Donna Early College High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 6: Fine Arts: Will identify the Fine Art students in need of academic improvement and offer tutorial opportunities in order to increase by 5% the amount of Fine Art students achieving meets and/or masters standard on the STARR exam

Evaluation Data Sources: Eduphoria; Aware-reports, STARR/EOC , Tutorial logs

Goal 2: Donna Early College High School will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase.

Performance Objective 7: Donna Early College High School will focus on instructional improvement resulting in all students meeting goals for all accountability measures. Applies to all content instructional areas - Reading/ELA, Writing, Mathematics, Science, and Social Studies. Applies to District, State (STAAR, EOC, TELPAS, PBMAS) and Federal/NCLB (AYP). At least 60% of DECHS students will meet the state standard in English I & II EOC, 80% will meet the state standard in Algebra I EOC, 85% will meet the state standard in Biology, and 95% will meet the state standard in U.S. History.

Targeted or ESF High Priority

Evaluation Data Sources: STAAR EOC Results

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Teachers will use the district curriculum and instruction guide as their primary source of instructional direction for all subject areas. **Strategy's Expected Result/Impact:** Increased number of students meeting or exceeding STAAR EOC standards per core content area. **Staff Responsible for Monitoring:** Campus Principal, Deans, and Campus Administration **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.6 - **TEA Priorities:** Recruit, support, retain teachers and principals - **ESF Levers:** Lever 4: High-Quality Curriculum, Lever 5: Effective Instruction				

Strategy 2 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 2: Develop, implement, and monitor daily instructional schedules to ensure all subject areas are taught everyday the appropriate allocated minutes and implement and monitor required lesson plans for English, Math, Science, and Social Studies. **Strategy's Expected Result/Impact:** Increased student performance as measured by District and State assessments. **Staff Responsible for Monitoring:** Campus Principal, Deans, and Campus Administration **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6 - **ESF Levers:** Lever 1: Strong School Leadership and Planning				

Strategy 3 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 3: Obtain and provide program manipulatives, models, consumable, non-consumable materials and any other classroom instructional materials or resources for all core content areas and all student populations. **Strategy's Expected Result/Impact:** Inventory aligned to core curriculum materials and purchase orders. Increased percentage of all students meeting District, State, and Federal Standards (STAAR EOC, TELPAS, & PBMAS). **Staff Responsible for Monitoring:** Deans and Campus Administration **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.6 - **TEA Priorities:** Recruit, support, retain teachers and principals - **ESF Levers:** Lever 2: Effective, Well-Supported Teachers, Lever 5: Effective Instruction				

Strategy 4 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 4: Provide research based staff development aligned to performance data measured by District, State, and Federal accountability indicators to include: job embedded training (common departmental planning), response to intervention (RTI), data utilization, technology, core state adopted textbooks, supplemental programs, research based strategies for ELLs, research based instructional strategies for Common Core Readiness Standard (CCRS), PBIS, classroom management, and discipline (teaching)for appropriate behavior. (BG 2) **Strategy's Expected Result/Impact:** Increased instructional effectiveness and student performance as measured by grades and state assessment outcomes, decreased at risk learners, decrease in referrals, and decrease in behavior referrals. **Staff Responsible for Monitoring:** Campus Administration, Department Chairs **Schoolwide and Targeted Assistance Title I Elements:** 2.5, 2.6 - **TEA Priorities:** Recruit, support, retain teachers and principals - **ESF Levers:** Lever 1: Strong School Leadership and Planning, Lever 2: Effective, Well-Supported Teachers	15%	35%	65%	

Strategy 5 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 5: Provide funds for teacher aides/assistants, teachers, counselors, and administrators to attend necessary trainings/conferences/professional development in areas of need and to continue campus and district initiatives such as Abydos, Lead4ward, AVID, Gretchen Bernabei, TXESOL, CAST, CAMPT, TFLA, Region One, AP and Pre-AP Trainings, UT OnRamps, TASSP, Legal Digest, Technology Conferences, Texas Assessment Conference, Texas Council for Social Studies Annual Conference, CCR School Models Leaderships Summits/conferences, etc. **Strategy's Expected Result/Impact:** Increased performance in assessment scores **Staff Responsible for Monitoring:** Campus Administration & Department Chairs **Schoolwide and Targeted Assistance Title I Elements:** 2.6 - **TEA Priorities:** Recruit, support, retain teachers and principals - **ESF Levers:** Lever 1: Strong School Leadership and Planning, Lever 2: Effective, Well-Supported Teachers **Funding Sources:** - Teacher/Principal (255) - $376	35%	55%	75%	

Strategy 6 Details	Reviews

Donna Independent School District

3D Academy

2021-2022 Campus Improvement Plan

Mission Statement

The mission of 3D Academy is to provide a rigorous and supportive learning environment with meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking that ensures educational excellence for all students.

Vision

We envision 3D Academy as being an exemplary school staffed with highly qualified individuals working collaboratively to graduate college, career, and military-ready students who will be a powerful force for positive change in our community.

Core Beliefs

1. We believe that every student can perform at or above grade level and graduate prepared for college and/or the workforce. As a result, we are determined to

- Provide a vertically aligned rigorous curriculum (PK-16).
- Provide well-planned student-centered instruction that focuses on project-based learning with real world connections.
- Provide accurate, meaningful and authentic assessment of students' mastery of knowledge and skills.

2. We believe that educators have the most powerful impact on student achievement. As a result, we are determined to

- Attract and retain highly qualified staff.
- Provide ongoing targeted staff development.
- Provide the most current research-based and state of the art instructional resources.

3. We believe that educational equity and excellence will eliminate the achievement gap. As a result, we are determined to

- Provide opportunities for every student to learn in a manner that is consistent with his/her learning style.
- Afford each student targeted instructional interventions to ensure academic success with a rigorous and relevant curriculum.
- Provide every student with equal access to outstanding, well-prepared teachers and high quality instructional resources

4. We believe that every student must be educated in a safe, welcoming, effective, and innovative learning environment. As a result, we are determined to

- Enforce the policies of the Donna Independent School District's adopted Student Code of Conduct.
- Provide security measures at all campuses to establish a learning climate of mutual respect.
- Ensure that every staff member, campus, and classroom is supportive of all students and their unique differences.

5. We believe that our school district must be a model for sound fiscal responsibility and integrity. As a result, we are determined to

- Establish policies and procedures to promote ethical practices in all areas of fiscal management.
- Provide periodic audits to ensure that all staff and outside providers are committed to following sound fiscal practices.

- Provide staff training to encourage ethical conduct and a commitment to compliance with the state and federal laws.

6. We believe that engaged parents and guardians impact a student's academic and personal development. As a result, we are determined to

- Schedule Parent Sessions to inform parents about the academic programs and instructional opportunities available to their child.
- Accommodate parents' work schedules when creating parent involvement opportunities.
- Keep parents informed of their children's performance and school activities (i.e. notes, telephone calls, newsletters, conferences, meetings, etc.).

7. We believe that a supportive community is fundamental to achieving and sustaining our success. As a result, we are determined to

- Involve community members by inviting them to serve on school and district committees.
- Develop partnerships with business, civic, and academic organization to provide opportunities for students to develop leadership and citizenship skills.
- Ensure that our community is supportive of the district's goals by informing the community of pertinent school activities and successes.

8. We believe that communication, collaboration, and coordination at all levels are essential to district success. As a result, we are determined to

- Work as unified team to find solutions to the district's most pressing issues.
- Require that every project specify the persons responsible to facilitate proper coordination of efforts.
- Develop a communication plan for every new initiative in order to ensure that all stakeholders are well informed.

Goals 15
Goal 1: Donna I.S.D will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level. 16
Goal 2: Donna I.S.D will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The percentage of students who achieve meets and/or masters performance level on the STAAR exam will increase. 17
Goal 3: Donna I.S.D. will create an instructional environment that will enhance the learning and academic performance of all students and increase the percentage of graduates demonstrating college/career/military readiness. 36
Goal 4: Donna I.S.D. will continue to follow sound fiscal and managerial practices to provide a highly qualified staff, appropriate resources, technology, and well-maintained facilities to promote increased student achievement. 40
Goal 5: Donna I.S.D. will provide students and all stakeholders with a safe and nurturing school environment that supports academic success and provides meaningful and relevant learning experiences that inspire creativity, character development, and critical thinking inclusive of all student populations. 46
Goal 6: Donna I.S.D. will collaborate with parents, community members, and staff to promote continuous success for all students through an effective planning and advisory process. 54
Campus Funding Summary 57

Comprehensive Needs Assessment

Demographics

Demographics Summary

Enrollment numbers at 3D Academy decreased from the previous school year. As per the Fall 2019 TSDS Snapshot, 146 students were enrolled for the fall semester compared to 158 total students from the previous year. Overall, 3D Academy had a total of 252 students enrolled during the 2019-2020 school year (a 15% decrease from last year).

3D Academy is made up of rural area students with 46-52% of its population being LEP students, 45% ESL students and 9% special education students. 99% of its students are identified as Hispanic with a 50/50 males-females percentage (54% - 46% in the summer). Currently, 3D Academy enrolls students from grades 9-12 and who are in danger of not graduating with their cohort or students who have fallen behind due to their past records at their home campus. All students enrolled at 3D Academy are interviewed to ensure they are coming voluntarily and to make sure our campus will be able to meet their needs. Students are invited to enroll and take advantage of the multiple opportunities provided at 3D Academy.

Students who enroll at 3D Academy have not exited their respective programs but do eventually meet the graduation requirements in spite of their at-risk identification. 100% of all 3D Academy's students are "at risk" students. Student categories for at-risk include: student failure to meet standards on STAAR exams, students not passing to next grade level due to insufficient credits, the student is a parent, the student has been placed in AEP and students is identified as LEP and or a drop-out. Students continuously enroll or withdraw due to various reasons and stability is usually lacking for a large portion of our students; hence, the campus mobility rate is at 87%.

With regards to staff demographics, staff members at 3D Academy are comprised of 1 Administrator, 1 Dean of Instruction, 1 English Strategist, 1 Counselor, 1 Nurse, 1 Student Liaison, 3 Math Teachers, 2 Science Teachers, 3 ELA teachers, 3 Social Studies Teachers, 1 BIM teacher (dual assignment from DAEP), 1 Special Education Teacher, 1 Special Education Instructional Aide, 1 Secretary, 2 Clerks, 2 Custodians, and 1 Security Guard. 70% are females, 30% are male. 97% of staff is Hispanic. One of the strengths at our high school is the low student to teacher ratio, which allows students to benefit from everyday targeted, focused, data-driven instruction (this resulted in an increase number of students who received an approaches performance level on their EOC exam).

Demographics Strengths

1. 3D Academy has a good teacher student ratio.
2. 3D Academy's teacher turnover rate is excellent (reasons teachers leave 3D Academy are retirement or job promotion)
3. Flexible opportunities of all students.
4. Experienced teachers.
5. Assessment data showed growth.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): There is high number of attendance problems and a high percentage of students are at risk of losing some or all of their credits due to insufficient attendance. **Root Cause:** Students have a history of truancy problems due to real life challenges (e.g. lack of childcare, legal problems, lack of home stability) that need to be addressed.

Problem Statement 2 (Prioritized): There is a lack of CCMR programs available to our students at 3D Academy. **Root Cause:** 3D Academy lacks MOUs with outside agencies to provide students with CTE course options and has no CTE teachers on campus to provide students with CTE courses. Furthermore, 3D-Academy scheduling interferes with CCMR classes at the high school thus limiting the opportunities for its students to take courses at DHS or DNHS.

Problem Statement 3: There was a lower number of student enrollment **Root Cause:** Lack of advertisement or community awareness on behalf of the school.

Student Learning

Student Learning Summary

Student achievement data is disaggregated and interpreted using multiple sources which include: six weeks passing and failing averages, credits earned, student attendance, TELPAS ratings, special accommodations for instruction and assessments, Student Learning Objectives, and individualized content STAAR assessment scores.

3D Academy follows a non-traditional calendar which is broken into trimesters. Hence, one six weeks equates to one semester. Every six weeks students either pass or fail which results in a received credit. Each credit earned allows the student to inch closer to graduation and move up a grade level. Nonetheless, given the calendar that we follow, students who are consistently absent for unexcused reasons will not benefit from 3D Academy.

Integrated accommodations allow 504 students and special needs students to advance at a comfortable pace. However, due to the acceleration of the curriculum, some quality/quantity of the curriculum may be absent. Furthermore, it is often difficult to rely on the assessments as good indicator for the students' academic progress particularly given that students rely on the IGC process to graduate (this happens more frequently with Eng. I and II EOC's).

In the past, the goal of 3D Academy has been to prevent dropout rates and provide credit recovery to the point the students meet their graduation requirements. The importance of the EOC's was primarily to ensure students passed 3 of the 5 in order to qualify for the IGC process. To increase the significance placed on these assessments, students were made aware that an increase in their scale score was expected in order to receive a positive recommendation by the IGC committee. However, this practice is changing and the goal for 3D Academy is to ensure students are CCMR by the time they graduate.

At 3D Academy, students have the opportunity to receive multiple credits throughout the school year. Within a six weeks times, or trimester, a student receives a half credit for every class they pass. In most cases, a student can garner up to 2-3 credits per six weeks if they are actively attending and participating in class. Additionally, every student is concurrently enrolled in an Edmentum course (PLATO) where they can also get more credits. Within a week, a student can get an entire credit through PLATO if they finish all the simulated lessons and coursework. Due to the accelerated time frame 3D Academy follows, students who are actively participating and attending classes are making the most progress. Hence, not only are they receiving the most instruction throughout the six weeks, but they are also picking up many credits; and in turn being prepared to pass any content area STAAR assessments they need.

3D Academy is already considered an intervention campus, therefore, within every classroom small groups, differentiated and shelter instruction strategies are constantly in use. Students who are actively seeking out tutoring or that are attending EOC camps get a chance to clarify any misconceptions about content with their teachers before an assessment. These students get an in-depth explanation and one on one time with the teacher covering core content. 2019 Fall EOC data was positive and showed improvement in most areas. Our US History department surpassed the set goal for our Targeted Improvement Plan's Cycle 2, and overall there was improvement in the percentage of students achieving approaches performance level on the state exams.

FALL EOC DATA:

Eng 1: 38% app (+22), 3% meets (-4), 0% masters (0),

Eng 2: 14% app (+5), 6% meets (+4), 0% masters (0),

Alg.1: 82% app (+31), 18% meets (+10), 9% master (+6),

US: 73% app (0), 40% meets (+22), 8% masters (+4),

Bio: 67% app (+10), 0% meets (-9), 0% masters (0)

As for the attendance and drop-out rates, as in any alternative public school, mobility and apathy play a significant and negative impact on academic and graduate performance. Attendance continues to be a problem at 3D Academy and efforts have been made to improve in this area. This year, students with perfect attendance were rewarded with meals and were allowed to participate in various campus events. Nonetheless, our attendance still suffered and dropped as low as 45% with a high of 72% average.

Students with consistent attendance rates make the greatest annual progress. They earn the most credits and have the highest passing rates for state assessments. All entering students are capable to making projected growth. However, it is the students who attend tutoring and are actively participating in class that are showing the most significant signs of projected growth. Additionally, all enrolled students are being taught in small teacher to student ratio classes, which helps them benefit from sheltered instruction practices. This allows their progress to spread throughout all the content areas despite if they are ELL, Special Education or 504.

Student Learning Strengths

Our campus has a good student to teacher ratio thus improving student outcomes (individualized teaching and tutoring).

Implementation of trades in our campus improved.

Aligned curriculum and developed action plans.

Targeted instruction through SLO development

Experienced content area teachers

Shared conference period to allow collaboration between teachers to discuss best practices

Sharepoint (curriculum, scope and sequence, differentiated instruction)

Project Rise (Staff development/Master Teachers)

EOC Review materials provided by central office directors (SS)

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Scope and sequence and assessment calendars are lacking in some of the content areas. **Root Cause:** Lack of support/guidance/feedback/collaboration and no follow through from central office directors

Problem Statement 2: Attendance rates are below the standard. **Root Cause:** Domestic instability, lack of childcare, physical & mental conditions, and economic disadvantages all contribute to student absenteeism.

Problem Statement 3: Lack of technology resources/supplies, Wi-Fi access, and infrastructure. **Root Cause:** Technology spending in schools can be very costly, the lack of Internet access is evident for students who live in rural areas or come from a low social-economic background, and infrastructure; the need to expand learning space that is more inviting and interesting.

Problem Statement 4: Low concurrent enrollment and CTE staff. **Root Cause:** Many students lack interest, have jobs, and/or are not prepared or can handle the stress that comes along with the demands of college. CTE staff may be low because our campus does not have the facilities or the workplace to teach trades, and it may have a rigorous work schedule.

School Processes & Programs

School Processes & Programs Summary

All teachers and instructional aides meet the appropriately certified requirements as per the TEA. Every teacher at 3D Academy is provided with opportunities to attend Professional Development involving best practices in and around their area. Departmental Instructional Planning Days are scheduled strategically throughout the calendar year and the campus Principal along with the content strategists and Dean will review the data to plan for professional development. This in addition to teacher's goals and student learning objectives collectively play a role in determining what professional development to plan throughout the year. All professional development is discussed via department meetings and then submitted to the principal for review. Region I, IEP training, Sheltered Instruction, TCSS (Texas Council for the Social Studies), CAST (Conference for the Advancement of Science Teaching), RGVA (Rio Grande Valley Science Association of Texas), are but a few resources teachers have available. Implementation is monitored via walk-throughs, coaching sessions and T-TESS. 3D Academy's goal is to retain 97% of its staff and to maintain 90% attendance rate.

Follow-up data regarding teacher performance is provided to teachers via Eduphoria using the T-TESS format and walk throughs. Donna ISD recruits highly qualified and effective staff through the use of job fairs, the Donna ISD website, and newspaper ads. Once the interview process is completed, recommendations are then submitted to the board for approval. Our staff attendance rate is within goal.

During the registration process, students and family members are given the opportunity to meet with campus administrators and counselors. The meetings allow significant information to be communicated regarding our program, rules, and expectations. For instance, a student code of conduct is distributed to each party to ensure campus policy and procedures are understood. Students and family members are also educated on how to be successful in our program. Therefore, they are informed on the importance of obtaining credits, attending school on a daily basis, and maintaining good behavior. Throughout the school year, family members are continuously encouraged to be involved in their child's education. Parent phone calls and home visits are made in an effort to contact families regarding their child's education and to inform them on the importance of their involvement. Families are also invited on campus to meet with teachers to view their child's classroom work or to discuss any questions or concerns they may have. As 3D Academy services predominantly Spanish speaking households, all information distributed to students and parents is provided in both English and Spanish. The majority of staff members are bilingual and can effectively communicate with families, as the translation is required.

For the students residing at home, parents are included in their child's education by assisting in financial aid sessions. During the financial aid development, parents are required to input information, as well as provide employment documentation. Parents are also a part of the CLPAC and DLPAC committee, which includes them in the decision making process at the campus and district level. In 504 and ARD meetings, family members are invited to help the campus determine ways the student can be successful in their education. South Texas College and Texas Workforce representatives are also invited to ARD meetings to provide information and assist the student in their post-secondary education. To help students and families with the necessities they may need, various clothing and shoes are donated. They are also provided with additional information on agencies that can offer financial assistance, such as 211. If a student requires help with medical or personal issues, they are referred to organizations that can assist with their specific need. For instance, Nuestra Clinica del Valle, John Austin Pena, Palmer Drug Abuse Program, Behavioral Health Solutions of South Texas, Youth Recovery Community, Buckner Star Program, Teaching & Mentoring Communities, along with Texas Health and Human Services assist students and families with health care, counseling, crises intervention, and substance abuse. In addition, our campus partners with the Mothers of Preschoolers Program (MOPS), Valley AIDS Counsel, and LUPE to further assist and support students and families.

For the special population on campus, the inclusion teacher and paraprofessional provide instructional accommodations and support. The Individual Education Plan of the special education student and Individual Accommodation Plan of the 504 students determine the type of assistance provided. The districts social worker and school psychologist also provide counseling services to students in need of additional assistance. The counselor and a school strategist are available to help migrant students stay on track with their education and attendance. A home instruction program also assists pregnant and teen mothers with continuing and completing their education. In addition, teachers are provided with professional development on sheltered instruction and differentiated instruction to help them implement strategies for the EL population, as well as to increase the academic success for all diverse learners on campus. An ESL and ELA strategist provides additional assistance to teachers who need help creating and implementing sheltered instruction. At the beginning, middle, and toward the end of school year, LPAC meetings are arranged to determine the essential modifications or accommodations needed for each EL student. The services listed have been effective in helping the at-risk students complete their credits needed for graduation.

3D Academy also partners with various organizations to assist students with post-secondary education. For example, Texas State Technical College, South Texas College, Brightwood College, The University of Texas-RGV, The University of Cosmetology Arts & Sciences, and Vogue College provide students with detailed information on their

institution, such as the services they can provide, along with degree plans. Field trips and transition fairs help to provide students with the opportunity to tour different campuses and seek clarification on the services provided by the organization. In addition, a TAMUK career interest inventory assists students in exploring job opportunities and obtaining information on qualifications needed to pursue a chosen career. Furthermore, Texas Workforce Solutions offers a job readiness training for special education and 504 students interested in learning how to create a resume, complete an application, and conduct a proper interview. The family and community involvement has helped to improve student knowledge, experience, and has helped to create a positive campus culture.

School Processes & Programs Strengths

1. Teachers receive support & feedback via Project RISE Master teacher and walk-throughs.
2. Teachers are provided with opportunities to attain professional development throughout the year.
3. Efforts are made to include all stake holders in the decision-making processes.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: There is low parent/family involvement at 3D Academy. **Root Cause:** 3D Academy students often do not have the supports at home and/or parents are unaware of the available opportunities for them to get involved at school.

Problem Statement 2: There is a lack of promotional outlets for family and community involvement. **Root Cause:** The campus has not provided parents and the community members with additional opportunities to be further involved with our program.

Problem Statement 3: 3D Academy's discipline plan does not effectively address students' behavior. **Root Cause:** There is a lack of effective interventions and/or consequences for students who get written-up.

Problem Statement 4: Training opportunities for non-exempt employees is not always available. **Root Cause:** Training and/or funding is not always available for the support staff to attend training.

Problem Statement 5: There is a lack of volunteer opportunities, internships and job shadowing available. **Root Cause:** Partnerships with outside agencies or organizations have not been fully established.

Perceptions

Perceptions Summary

Students describe the campus as a clean and flexible learning environment, where they are able to complete their credits, pass their STAAR exams, and obtain their high school diploma. Teachers believe the campus creates an environment which fosters important relationships between teachers and their students, through smaller class sizes and increased opportunities to know their students. These relationships promote student learning and successful completion of graduation requirements. Students appreciate the flexibility of scheduling and the rapid pace possible, allowing them to catch up on their credits. When students visit the campus with the hopes of registering, they are immediately welcomed by the front office staff. They then meet with the school counselor and school principal to discuss the program requirements, class schedule, and are allowed to ask any questions they might have. Both students and staff share the same mission. We want the students of 3D Academy to complete their graduation requirements college, career, and military ready. The school counselor, office staff, and teachers are always available to answer questions and direct students throughout the day. The attention given to each student creates a greater sense of belonging and shows a concern for their well-being and success. The staff at 3-D Academy genuinely care about the helping each student graduates and reach their full potential. Our campus is small, so students get to know each other and have the opportunity to work together towards similar goals. Teachers feel the small class sizes make it easier to give each student the individual attention they need and are able differentiate instruction to better target the student's needs.

Our campus has some effective safety measures in place. We have a full-time security guard on campus, all doors are locked, and all visitors must announce themselves via knocking or by phone and report to the main office. All students are required to sign out whenever leaving the campus early. All school personnel are required to wear photo identification tags. As an additional security measure, our campus is partially fenced in and we have security cameras. Unfortunately, we have walls to our computer labs and offices which are completely glass; these are covered with motivational posters in order to obscure the view inside. However, they could be easily shot and broken to reveal students inside and these rooms have no secondary exit. Some classrooms have windows but no way to open them, should an emergency arise. Portable buildings, like the classrooms, need to have secondary exits and be made more secure. The portable doors need to have a peep hole so that teachers can see out before opening their doors. Ensuring student, teacher and staff safety makes it easier for teachers to teach and for students to learn.

The majority of our students are satisfied with the school's culture and climate. They feel our campus provides a relatively safe environment, conducive to learning. While students are satisfied with our campus, we still continue to have a problem with attendance, tardies and cell phone abuse. Some of our students have jobs and families outside of school that they must prioritize, which in turn affects their attendance and punctuality. In order to encourage attendance, office staff make daily phone calls to the homes of students who are absent. If the student continues to be absent, home visits are made by our Community Liaison. Students with high absenteeism are referred to truancy court when no other option is available. However, those with good attendance are rewarded with meals, field trips, and public announcements. Some of our students have never traveled outside of the Valley and would benefit greatly from field/lessons trips both locally and outside of the RGV. These trips could be a means of instruction and a way to encourage good campus behavior and attendance.

Most of the discipline problems that arise at our campus result from students leaving campus without permission, being insubordinate/disrespectful, and/or drug related issues. Each year, students are informed about the adverse effects of drugs and alcohol, as well as the consequences they will face if they are under the influence or in possession of controlled substances on campus. The K-9 unit occasionally visits our campus to sweep for drugs. Every year the school counselor meets with students to discuss and discourage bullying. Any incidents of bullying are handled immediately by campus administration. Disciplinary removals to DAEP have occurred primarily due to drug-related offenses. Discontinuance of school enrollment is rare and is usually due to the student's failure to comply with school attendance, conduct, and academic policies.

3D Academy has not had many problems related to gangs or weapons. The majority of our discipline problems are insubordination or drug related. Students are informed about the adverse effects of drugs and alcohol and about the disciplinary actions that follow drug-related offenses. If students are caught under the influence of drugs or alcohol, they are removed from campus and sent to DAEP. Our academic counselors are able and willing to provide counseling services to any student who requests them.

Each year, the academic and behavioral practices are reviewed by the school administration, with the oversight of the superintendent. Our strategies have proven to be effective for preserving an overall safe learning environment. The school policies are both proactive and reactive. The walls of our campus are covered in motivational posters meant to encourage and motivate students to succeed. Classroom management and organization has not been a major problem at our campus. Due to the small class sizes, teachers are better able to manage their classrooms. Our staff does not need to write referrals often; most problems are managed effectively in the classroom. However, at times students having conduct issues may be sent to the office where they conference with the school principal in order to reach a solution. Due to successful classroom management techniques, student

achievement is able to continue growing.

3D Academy is an alternative campus so student clubs were not part of the budget. However, all students have the opportunity to participate in activities we have throughout the year (e.g. listening to guest speakers who come and inform our students about various topics, college campus tours that allow our student to experience the different colleges and universities available to them, and field trips). When a student meets their graduation requirements, the student is brought to the front office to ring a ceremonial bell over the intercom. This is a way of congratulating the student and motivating other students to complete their graduation requirements as well.

Perceptions Strengths

Students' perception of their teachers and 3D Academy is favorable.

Student referrals were considerably low this school year.

Stakeholders create high expectations to achieve student achievement.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Safety measures in place do not address all stakeholders' concerns. **Root Cause:** Teachers and students located in portables are not as safely secured as teachers and students located inside the main building.

Problem Statement 2: Parents/guardians unaware/misinformed of the vision and mission of our campus. **Root Cause:** There is a lack of communication and/or sharing the vision and mission of our campus to all the outside stakeholders.

Problem Statement 3 (Prioritized): 3D Academy is looked upon negatively by district students, other schools, and professionals who are unaware of the opportunities provided here.. **Root Cause:** 3D is not positively exposed as it should. 3D has made significant positive contributions to the district, these contributions have yet to be shared with the entire district.

Problem Statement 4: Discipline behavior plan in place does not address all behavior concerns. **Root Cause:** Discipline plan in place is exclusionary and does not provide interventions that address behaviors which interfere with student achievement on campus.

Problem Statement 5: 3D Academy lacks different clubs, activities, etc. for different student interest groups **Root Cause:** School calendar, attendance problems make it challenging to establish interest groups on campus.

Priority Problem Statements

Problem Statement 1: There is high number of attendance problems and a high percentage of students are at risk of losing some or all of their credits due to insufficient attendance.

Root Cause 1: Students have a history of truancy problems due to real life challenges (e.g. lack of childcare, legal problems, lack of home stability) that need to be addressed.

Problem Statement 1 Areas: Demographics

Problem Statement 2: There is a lack of CCMR programs available to our students at 3D Academy.

Root Cause 2: 3D Academy lacks MOUs with outside agencies to provide students with CTE course options and has no CTE teachers on campus to provide students with CTE courses. Furthermore, 3D-Academy scheduling interferes with CCMR classes at the high school thus limiting the opportunities for its students to take courses at DHS or DNHS.

Problem Statement 2 Areas: Demographics

Problem Statement 3: 3D Academy is looked upon negatively by district students, other schools, and professionals who are unaware of the opportunities provided here..

Root Cause 3: 3D is not positively exposed as it should. 3D has made significant positive contributions to the district, these contributions have yet to be shared with the entire district.

Problem Statement 3 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Federal Report Card Data

Student Data: Assessments

- State and federally required assessment information
- (STAAR) current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- Postsecondary college, career or military-ready graduates
- Texas Success Initiative (TSI) data for postsecondary/college-ready graduates data

Student Data: Student Groups

- Economically Disadvantaged / Non-economically disadvantaged performance, progress, and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- EL/non-EL or LEP data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender, etc.
- Homeless data

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Annual dropout rate data
- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Tobacco, alcohol, and other drug-use data
- Student surveys and/or other feedback

- Class size averages by grade and subject

Employee Data

- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus leadership data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation

Goals

Goal 1: Donna I.S.D will create an inviting educational climate that enhances learning and academic performance for all students so that they may excel in all areas of education and meet state and federal passing standards. The district will implement a balanced literacy program in early childhood education that will result in more students reading on or above grade level.

Performance Objective 1: The district will focus on instructional improvement resulting in all students meeting goals for all accountability measures. The percentage of 9-12 students reading on or above grade level will increase by 4%.

Targeted or ESF High Priority

Evaluation Data Sources: STAAR EOC, TELPAS

Strategy 1 Details	Reviews			
	Formative			Summative
	Sept	Dec	Mar	June
Strategy 1: Teachers will be given the necessary resources to ensure students are provided opportunities to practice reading more within all content areas. **Strategy's Expected Result/Impact:** Increase the amount of practice completed on a daily basis. **Staff Responsible for Monitoring:** Teachers Administration **Schoolwide and Targeted Assistance Title I Elements:** 2.4, 2.5, 2.6	10%	80%	90%
