

Elementary Instructional Committee Communication Guide 2024-2025

There are four district-level committees with building level representation that have some type of responsibility for the elementary instructional program. Those committees are listed below. To ensure efficient and accurate two-way communication, it's important to direct questions, ideas, and concerns to the appropriate representative of each committee. In addition, you can always reach out to the appropriate Standards Leader for any curriculum or assessments interests.

Instructional Leadership Council (ILC)	Elementary Academic Council (EAC)	Technology Management Committee (TMC)	Special Education Advisory Committee (SEAC)
Primary Responsibility			
<i>Responsible for overseeing and planning for future curriculum, instruction, and assessment initiatives for the district.</i>	<i>Responsible for ensuring consistency and alignment of a high-quality instructional program across all five elementary buildings.</i>	<i>Responsible for promoting the integration of technology into the curriculum.</i>	<i>Responsible for reviewing matters related to Special Education programs, services, and practices from a district-level perspective.</i>
Building Representation on the Committee
