

MISHAWAKA

Early College

What is it?

The Early College program is an opportunity for high school students to earn college credits while still attending high school. Through dual-credit courses, students can complete college-level work, saving time and money and getting a jump start on their college education!

Save on Tuition

Earn college credits at no cost while in high school! Save thousands of dollars and transfer into college or trade school with at least one year already completed. Start your post-high school life with more advantages.

Prepare for College

Dual credit classes offer a taste of college-level coursework, helping students build the study habits, critical thinking skills, and discipline needed for success in higher education.

Transfer Credits

Dual-credit programs like the Indiana College Core or associate degree provide structured pathways to make sure the credits transfer to Indiana state schools, so students know their efforts will count toward their college education.
